ISSP Background Variable Documentation
South Korea

Note on the Questionnaire Construction of ISSP module survey in South Korea

The ISSP module question is surveyed as part of the Korean General Social Survey (KGSS) in South Korea. The KGSS questionnaires are constructed in a way to integrate three major components—the so-called Replicating Core, the ISSP annual module, and the EASS biannual module or special module--into a single framework. The KGSS tries to incorporate all variables the ISSP requires, which include both topical module variables and the standard background variables.

The 2004 KGSS questionnaires attached consists of three parts; replicating core questions, Citizenship questions (ISSP topical module), and special module questions. The ISSP SBVs are, in fact, regarded as part of the replicating core questions. The list of source quesitons for 2004 Citizenship module is attached along with the 2004 KGSS questionnaires.

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file.* Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify. Please do **not** enter **standard** ISCO88 codes here. But, please report if your country **adds** or **changes** codes compared to ISCO88, if any.

SPISCO88 - S-P: Occupation ISCO

Please give the text of the source question(s) on the spouse's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file.* Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But, please report if your country **adds** or **changes** codes compared to ISCO88, if any.
