SELECTION OF THE ELIGIBLE RESPONDENT

SC0.

Hello / Good afternoon / Good evening, my name is _____ and I am from [AGENCY]. We are conducting an opinion poll on the European Commission among business decision-makers. The survey takes about 5-8 minutes to complete.

FIRST SCREENER

D1. Let me start with a few basic questions regarding your company. How many employees do you have in your company?

- Less than 20 0
- 20-49 1
- 50-249 2
- 250-499 3
- 500 or more 4
- [DK/NA] 9

IF LESS THAN 20 THANK AND TERMINATE THANK AND TERMINATE

SECOND SCREENER

D2. When, in which year was your company established?

- before 1986 1
- between 1986 and 2001 2
- after 2001 3
- [DK/NA] 9

D3. Between the last two completed financial years, how did your turnover - that is, the annual income of your firm - change?

- It decreased 1
- Increased by less than 5% 2
- Increased by 6 to 25% 3
- Increased by more than 25% 4
- Did not change 5
- [there are no two completed financial years] 6
- [DK/NA] 9

D4. NOT TO BE ASKED, RECORD FROM DATABASE:
NACE code of the main activity of company

D5. NOT TO BE ASKED, RECORD FROM DATABASE:
NUTS region of company (NUTS 2 level)

Q1. Does your company (its local establishment) have significantly stronger linkages with suppliers and service providers that are geographically close than with others?

INTERVIEWER: BY "FIRM" OR "COMPANY" WE MEAN THE LOCAL ESTABLISHMENT OF THE COMPANY, IF IT IS NOT CLEAR FOR THE RESPONDENT.

ONE ANSWER ONLY

- Yes 1
- No 2
- [DK/NA]..... 9

Q2. In your region, does your firm have contacts with other firms, universities and administrative bodies to discuss common problems or potential shared opportunities?
READ OUT – ONE ANSWER ONLY

- Yes frequently..... 1
- Yes occasionally..... 2
- Only rarely 3
- Never 4
- [DK/NA]..... 9

Q3. Is your firm located in a region where the concentration of firms working in the same business sector as yours is:
READ OUT– ONE ANSWER ONLY

- Higher than elsewhere in the country 1
- Similar as elsewhere in the country..... 2
- Lower than elsewhere in the country..... 3
- [DK/NA]..... 9

Q4. INTERVIEWER, READ OUT SLOWLY

Economists often talk about so-called clusters. Clusters are geographically close groups of interconnected companies, suppliers, service providers, and associated institutions in a particular field.

In a cluster all these actors are linked in several ways. These include their similar situation (e.g. same working sector, common market, common problems to face) and their complementary functions (e.g. university labs can help private firms; several firms can develop new products together, or enter new markets together).

Clusters are often working in a particular region, and sometimes in a single town.

Were you aware of this concept of cluster?

ONE ANSWER ONLY

- Yes..... 1
- No 2
- [DK/NA]..... 9

Q5. Are there clusters active in your region, in your field of activity?
ONE ANSWER ONLY

- Yes..... 1
- No 2
- [DK/NA]..... 9

1 point is given for each of the following responses:

Q1 – 1

Q2 – 1

Q3 – 1

Q4 – 1

Q5 – 1

Maximum score is 5 points.

Interview will be carried out only with companies which scored 4 or more.

MAIN QUESTIONNAIRE

Q7. Do you consider that your firm is part of a cluster, or not?
ONE ANSWER ONLY

- Yes..... 1
- No 2
- [DK/NA]..... 9

IF Q7 = 1, SELECT [CLUSTER] IN ALL QUESTIONS WHERE INDICATED

IF Q7 = 2 OR 9, SELECT [REGION] IN ALL QUESTIONS WHERE INDICATED

Q8 Does your firm ACTIVELY participate in one or more networks containing local companies (competitors, suppliers, clients) and/or public administration involved in the same business sector?
READ OUT – ONE ANSWER ONLY

- Yes, in one such network..... 1
- Yes, in two or more such networks..... 2
- No 3
- [DK/NA]..... 9

Q9. In the last two years, did your firm:
READ OUT – ROTATE – SEVERAL ANSWERS POSSIBLE

- Yes..... 1
- No 2
- [DK/NA]..... 9

- a) Conduct market research for introducing new products or services 1 2 9

D6. Finally, I would like to ask you whether or not the European Commission could re-contact you in the future in order to inform you about opportunities it offers for firms participating in clusters. If you agree, we will share the name of your company with the European Commission, if you don't, your company will remain completely anonymous.

Survey details

This Flash Eurobarometer 187: “Innobarometer among enterprises in the EU and other European countries” telephone survey was conducted on behalf of the DG Enterprise and Industry of the European Commission, Unit D-1. The objective of the survey was to explore the various attributes of European companies operating in clusters, and the managers’ views on the opportunities and challenges of this situation. Another important aim of the survey was to estimate the proportion of firms operating in a cluster-like environment in the various European countries.

The current special target group Flash Eurobarometer survey was organised and managed by the Eurobarometer Team of the European Commission (Directorate-General Communication, Unit A-4).

The interviews were conducted between the 29th of May and the 5th of July 2006 by partner institutes of The Gallup Organization Hungary / Europe:

Belgium	BE	Gallup Europe	(Interviews : 13/06/2006 – 19/06/2006)
Czech Republic	CZ	Focus Agency	(Interviews : 12/06/2006 – 28/06/2006)
Denmark	DK	Hermelin	(Interviews : 08/06/2006 – 05/07/2006)
Germany	DE	IFAK	(Interviews : 02/06/2006 – 05/07/2006)
Estonia	EE	Saar Poll	(Interviews : 06/06/2006 – 16/06/2006)
Greece	EL	Metroanalysis	(Interviews : 06/06/2006 – 03/07/2006)
Spain	ES	Gallup Spain	(Interviews : 16/06/2006 – 05/07/2006)
France	FR	Efficience3	(Interviews : 02/06/2006 – 04/07/2006)
Ireland	IE	Gallup UK	(Interviews : 06/06/2006 – 21/06/2006)
Italy	IT	Demoskopea	(Interviews : 06/06/2006 – 23/06/2006)
Cyprus	CY	CYMAR	(Interviews : 02/06/2006 – 06/06/2006)

Norway	NO	Fieldwork Scandinavia	(Interviews : 07/06/2006 – 27/06/2006)
Switzerland	CH	M.I.S. Trend S.A	(Interviews : 07/06/2006 – 23/06/2006)
Iceland	IS	IMG Gallup	(Interviews : 12/06/2006 – 29/06/2006)

(Dates corrected by the Data Archive)

Representativeness of the results

The target group for this Flash Eurobarometer was defined as companies employing 20 or more persons, operating in the 25 Member States of the European Union, the accession countries (Bulgaria and Romania), and the candidate countries (Turkey and Croatia), as well as in Switzerland, Norway and Iceland.

The lists of companies qualified to be interviewed were developed by Dun and Bradstreet. Where the D&B database had a poor coverage (especially in the New Member States and candidate countries) the sample lists were developed by national institutes using local statistical data sources. Sampling in each country was made according to two stratification criteria: the size of the company (3 categories: 20 - 49, 50 - 249 and 250 or more employees), and the activity sectors, randomly.

The target activities were: Information technology, Medical devices, Production technology, Communications equipment, Biopharmaceuticals, Automotive, Analytical Industry, Construction Equipment, Metal Manufacturing, Lighting and electrical Equipment, Aerospace Vehicles, Defence, Plastics, Construction Materials, Entertainment, Transportation and Logistics, Furniture, Processed Food, Business services, Aerospace Engines, Chemical Products, Heavy machinery, Power Generation and transmission, Building Fixtures, Equipment, Services, Hospitality and tourism, Publishing and Printing, Textiles, Financial services, Oil and gas products and services, Apparel, Distribution services, Fishing and fishing products, Heavy construction services, Footwear, Jewellery and precious metals, Sporting and children Goods, Leather.

Within the employment size the categories were defined (20-49 employees: 50%; 50-249 employees: 30%; 250+ employees: 20%), but the selection of companies by the activity categories was made at random.

The total sample was distributed between these sampling "cells" in a way that does not follow the actual distribution of businesses within the coverage zone: larger businesses were intentionally "oversampled" in order to get enough cases in these low incidence cells as well, for meaningful results in each sample segment.

During data processing, each cell in the cross distribution of the sample was re-weighted up or down according to its actual, empirically verified known weight within the survey region. Thus, the total results presented are not affected by over- and under-sampling, and are representative of the total universe examined – both for country-level as well as global (e.g. EU-25, NMS10, etc.) estimations. Country weights for global cluster company estimations were developed on the basis of the size of the universe in each country and the proportion of firms working in a cluster-like environment (see below).

The person interviewed in each company was a top-level executive responsible for strategic decision making (typically General Manager, Financial Director, or significant owner). The interviewers checked the identity of this person as well as the accuracy of the enterprise sampling characteristics, as delivered by sample list, namely: the number of employees.

Sizes of the samples

The survey design used a two-step sampling approach. In the first step, we screened from the randomly selected companies those that work in a cluster-like environment (i.e. have strong local linkages, work in close relationship with other local market players, higher industry density in the region, cluster in the respective industry exists, awareness of cluster concept) regardless of a declared cluster membership. As a second step, we have conducted a longer interview with decision makers of firms operating in cluster-like environment.

The sampling procedure was designed on the initial hypothesis that approximately 10% of the companies in the selected industry sectors will be members of a cluster on the average in Europe. As we have had no available statistics for the individual countries we generally targeted ten times as many short interviews (to estimate the proportion of clustered businesses) as the number of the desired main interviews we wanted to achieve among companies active in a cluster.

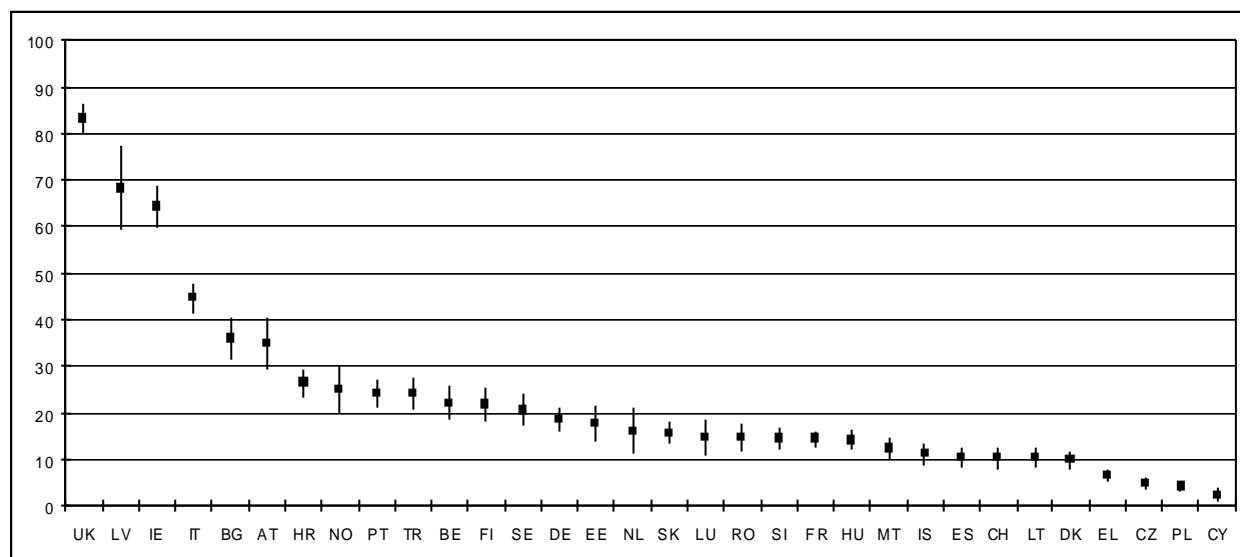

The targeted number of main interviews varied somewhat by the size of the country; however, the default desired sample size was 100 in an average-sized country covered by the survey. In Germany, Spain, France, Italy, Poland and the UK the target main sample size was 200. In Iceland and Malta, the target number of the main interviews was 40; in other smaller countries it was 66 (Estonia, Cyprus, Latvia, Lithuania, and Luxembourg). Also, in the non-EU countries the target sample size was 66 (Bulgaria, Croatia, Romania, Turkey, Switzerland and Norway)

	Total interviews conducted	Main interviews conducted		Total interviews conducted	Main interviews conducted
TOTAL	20994	3528

Proportion of enterprises operating in cluster-like environment and the confidence intervals (in %):

Questionnaires

The questionnaire prepared for this survey contained two parts: the screener questionnaire with 5 questions to determine the score whether the company can be interviewed, and the main questionnaire.

The institutes listed above translated the questionnaire to their respective national language(s) using a centralized process of back-translation procedure, involving two initial local translations, independent back-translation and central verification of the localised questionnaires.
