#### Errata Documentation

- CASEID: not unique
- ID: 85 cases from Slovenia; not unique
- IW\_CODE: 85 cases from Slovenia not coded
- IW\_LANG: partly not assigned for Slovenia, Ireland and the United Kingdom
- LENTIM: not documented
- Q\_LENGTH: not documented
- D2/D2\_R: '0' recoded to '99' (DK/NA)
- D5: The political parties are not identified in the national field questionnaires and the original integrated variable was only labelled for non country specific responses (did not vote, not eligible, DK/NA). The country specific variables have been generated by the Archive and labelled in accordance with the party structures and response frequencies in the tabular country reports supplied by GALLUP.
  - D5\_AT: code '5' not specified
  - D5\_PL: codes '11' and '20' not specified
  - D5\_FR: The French questionnaire is the only one where the national political parties are identified. Please notice that the tabular report indicates one response for "FRS (Forum des Republicains Sociaux)" with code '15' in the questionnaire. In the dataset this response is coded '16', identifying "Parti des travailleurs" in the questionnaire.
- POL\_PREF2: variable constructed by the data provider
