Acknowledgements

Standard & Special Eurobarometer surveys are conducted on behalf of the European Commission, under the responsibility of the Directorate-General Communication and on occasion requested by other departments according to the policy they deal with. From the outset the European Commission is generously granting access to Eurobarometer primary data for re-use in social science research and training.

The integrated original datasets and related materials are delivered by the respective survey research institute in charge of survey implementation and fieldwork co-ordination.

Preparation and documentation of Eurobarometer primary data for long term preservation and usability happen in a cooperative arrangement between the teams at Inter-University Consortium for Political and Social Research (ICPSR) and GESIS Data Archive for the Social Sciences.

Introduction and preliminary remarks

The variable reports of the Standard & Special Eurobarometer survey series offer a comprehensive description of the data on study and variable level. For each Eurobarometer individual variable reports are provided. The reports are structured into five sections: Section one provides the description of the respective Eurobarometer Study, including bibliographic information, abstract, methodological specifications, remarks on weighting and general notes on data preparation. Section two gives an historical overview of the Eurobarometer Survey Series, including the institutional background and the development of geographical and topical coverage. A third section provides general information about the structure of Eurobarometer datasets, documentation standards and variable coding frames. Section four explains the details of the 'Variable Documentation' part in the following section five, which is the documentation of the variables with the complete question texts and answer categories of the master questionnaire and the corresponding archival remarks on data preparation or inconsistencies, if applicable. In addition, this variable report contains frequency counts, by country (sample), for almost all variables. These frequencies are based on weighted data using the adequate post-stratification weight, if applicable and as indicated in each table.

Data access

Primary data for statistical analysis and related documentation (basic bilingual questionnaires, national field questionnaire versions and variable reports) are made available online by GESIS (<http://zacat.gesis.org>), by the Inter-university Consortium for Political and Social Research through the ICPSR membership network, and through all Social Science Data Archives members of the Council of European Social Science Data Archives (CESSDA).

Usage requirement

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about related research activities, users of the data are requested to send to ICPSR or GESIS respectively bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data (surveys and respective variables) were used.

Disclaimer

The original collector of the data, ICPSR, GESIS, and the relevant funding agencies bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

1.2 Content

1.2.1 Abstract

This round of Eurobarometer surveys queried respondents on standard Eurobarometer measures, such as how satisfied they were with their present life, whether they attempted to persuade others close to them to share their views on subjects they held strong opinions about, whether they discussed political matters, what their country's goals should be in the next 10 to 15 years, and how they viewed the need for societal change. Additional questions focused on the respondents' knowledge of and opinions on globalization and on the European Union (EU), including how well-informed they were about the EU, what sources of information about the EU they used, whether their country had benefited from being an EU member (or would benefit from being a future member), and the extent of their personal interest in EU matters. Other questions queried respondents about their country's public administration, the transparency of both their own government institutions and those of the EU, and how important they thought transparency was in their functioning. Respondents were asked which countries, specifically Turkey, Croatia, and the Former Yugoslav Republic of Macedonia, they would favor joining the EU. Another major focus of the surveys was national and European identity. Questions focused on to what extent respondents felt they were a citizen of their region, of their country, of Europe, and of the world, whether they were content with their identity, and their feelings on the importance of being European. For the second major focus of the survey, European elections, respondents were queried about their interest in the elections, whether or not they would vote, the main criteria in making these decisions, and what themes the electoral campaign should focus on. In addition, respondents were asked to name the party they voted for in the European Parliament (EP) elections in June 2004, May 2007, November 2007, and the latest parliamentary elections in their respective countries. For the third major focus, European values and value priorities, respondents were asked to identify their personal values, whether they thought EU member states shared common values, and how close or distant these shared values were. In addition, respondents were asked to select the most important values they associated with the idea of happiness. For the final major focus of the survey, climate change, respondents were queried about their knowledge of and views on climate change, including whether they thought climate change was a serious problem, whether enough is being done to fight it, and the reasons why individuals may or may not take action in fighting climate change. Respondents were also asked to identify the personal actions they have taken regarding climate change and to evaluate the objectives proposed by the EU to limit the impact of climate change. Demographic and other background information includes age, gender, nationality, origin of birth (personal and parental), marital status, left-right political self-placement, strength of party attachment, occupation, age when stopped full-time education, household composition, ownership of a fixed or a mobile telephone and other durable goods, type and size of locality, region of residence, and language of interview.

1.3 Universe

In all, Eurobarometer 69.2 interviewed 30.170 citizens of the 25 countries in the European Union after the 2004 enlargement, in the remaining Accession Countries (AC) Bulgaria and Romania and Candidate Countries (CC) Croatia and Turkey, as well as among the Turkish Cypriote Community (TCC) and in the Former Yugoslav Republic of Macedonia (FYROM). All respondents were residents in the respective country, nationals and non-nationals but EU-citizens, and aged 15 and over. They were supposed to have sufficient command of one of the respective national language(s) to answer the questionnaire. Separate samples were drawn for Northern Ireland and East Germany.

1.4 Sampling procedure

A multi-stage, random (probability) sampling design was used for this Eurobarometer. In the first stage, primary sampling units (PSU) were selected from each of the administrative regional units in every country (Statistical Office of the European Community, EUROSTAT NUTS 2 or equivalent). PSU selection was systematic with probability proportional to population size, from sampling frames stratified by the degree of urbanization. In the next stage, a cluster of starting addresses was selected from each sampled PSU, at random. Further addresses were chosen systematically using standard random route procedures as every Nth address from the initial address. In each household, a respondent was drawn, at random, following the closest birthday rule. No more than one interview was conducted in each household.

The regular sample size (in the sense of completed interviews) is 1000 respondents per country, except the United Kingdom with separate samples for Great Britain (1000) and Northern Ireland (300), Germany with separate samples for the Eastern (500) and the Western part (1000), and Luxembourg, Cyprus (Republic), Malta, and Cyprus (TCC) with 500 interviews each. The effective number of realized interviews in this round is indicated in table 1.

1.5 Fieldwork

From April 13 to May 04, 2008, the TNS Opinion & Social, a consortium created between Taylor Nelson Sofres and EOS Gallup Europe, carried out the fieldwork for this Eurobarometer, at the request of the European Commission, Directorate General Press and Communication, Opinion Polls. TNS Opinion & Social is based at Avenue Herrmann Debroux, 40, 1160 Brussels, Belgium. TNS Opinion & Social coordinates the fieldwork carried out through its network of national institutes.

1.6 Mode of data collection

In all countries, fieldwork was conducted on the basis of detailed and uniform instructions prepared by TNS Opinion Social. Interviews were conducted face-to-face in people's home in the appropriate national language. As far as the data capture is concerned, CAPI (Computer Assisted Personal Interview) was used in those countries where this technique was available.

Equivalent French and English basic questionnaires were developed for this Eurobarometer. These questionnaires were translated into other languages by the firms responsible for interviewing in each country. Back-translation procedures were applied for controlling semantic equivalence.

1.7 Weighting

In general the Standard and Special Eurobarometer data sets provide for two types of weighting, a post-stratification sample weighting and a population size weighting.

For each sample, i.e. participating country or lower level region, a comparison between the sample composition and a proper universe description is carried out for internal weighting purposes. The universe description is made available by the National Survey Research Institutes and/or by EUROSTAT. On this basis a national weighting procedure, using marginal and intercellular weighting, is applied. As such in all countries, minimum sex, age, region NUTS II (basic regions as defined by the EUROSTAT nomenclature of territorial units for statistics), and size of locality are introduced in the iteration procedure. This **post-stratification weighting** is also referred to as redressment or non-response weighting. A design weight which would adjust for unequal selection probabilities (depending on the household size) is not made available.

For the descriptive analysis of individual samples or their comparison, up to six weighting variables are provided in each data set and documented as such in the variable description. Until Eurobarometer 31 the corresponding weight variable is labelled NATION WEIGHT II. Weighting factors were then not included continuously for all samples and weighting procedure might have differed from the foregoing description. While weighting usually reproduces the real number of cases for each sample, between Eurobarometer 33 and 54.1 samples can also be adjusted to their predefined standard size of exactly 1000 or 500 cases. This option was applied for the official Eurobarometer reports of the period.

The **population size weighting** factor corrects for the fact that most samples are of almost identical size, no matter how large or small the populations are from which they were drawn. These weights ensure that each country as well as each lower level sample (Great Britain and Northern Ireland, East and West Germany) are represented in proportion to its population size within different groupings, or according to the historical states of European unification (e.g. founder members, new members, Euro zone) in the case of the EUROPEAN WEIGHTS, or for the United Kingdom (WEIGHT SPECIAL UNITED KINGDOM, NATION WEIGHT I until Eurobarometer 31) and for Germany as a whole (WEIGHT SPECIAL GERMANY).

The population size weights all include the post-stratification weighting factors. The EUROPEAN WEIGHTS adjust each sample in proportion to its share in the total population of the European Union (formerly European Community), aged 15 and over. These adjustments are based on population figures published by EUROSTAT in the

Regional Statistics Yearbook. In some cases more than 20 European weights are provided for use in analyses of the European Union population as a whole or in accordance with its historical compositions. Between Eurobarometer 33 and 54.1 adjustments to the predefined standard sample size is taken into account. In general all samples which do not belong to the respective group of samples under consideration are excluded from calculation.

The application of post-stratification weights is recommended for descriptive (univariate) analysis. Meaningful descriptive results for groups of countries or for countries with separate samples (United Kingdom and Germany) require population size weighting. Official Eurobarometer reports are always based on weighted data.

Starting with Eurobarometer 66.2 a new additional weight (WEIGHT EXTRA) is provided which extrapolates the actual universe (population aged 15 or more) for each country or sample. This weight variable integrates all other available weights, but does not reproduce the number of cases in the data set, but the respective actual population size.

As needed, OVERSAMPLES (see chapter 2.4, table 4) are weighted separately as documented in the respective study and weight variable description. In some surveys special weights are made available for application with selected variables on a specific topic, e.g. for the descriptive analysis of variables regarding e-communication equipment on HOUSEHOLD level.

Eurobarometer 69.2 provides three (post-stratification) NATION WEIGHTS: W1 (WEIGHT RESULT FROM TARGET) for separate analysis or comparison of individual samples (countries or regions on sub-national level), W4 (WEIGHT SPECIAL UNITED KINGDOM) which in addition adjusts the British and the Northern Irish samples to their respective proportions in the United Kingdom for descriptive analysis of the United Kingdom as a whole, and W3 (WEIGHT SPECIAL GERMANY), which adds the adjustment of the East and West German samples to their respective proportions in the United Germany, to be used for descriptive analysis of the United Germany as a whole. W3 and W4 exclude all other countries from calculation, but include the post-stratification factors for the United Kingdom and Germany respectively.

The EUROPEAN WEIGHTS provide adjustments for each (national) sample in proportion to its share in the total population aged 15 and over, of the European Union, within groups of member countries, of accession or candidate countries, and of Euro zone countries, representing different historical states of European integration (e.g. EU6 = six founder members) . All post-stratification factors are included.

Table 2: Overview of population size weights

European Weights in Eurobarometer 69.2	Function
W5 to W9, W11, W14, W22	grouping EU member countries
W10, W13, W24	grouping new member countries
W18	grouping candidate/accession countries
W25, W26	grouping member + candidate/accession countries
W12, W29, W30	grouping (non-)Eurozone countries

For more detailed information on the individual weights please see the corresponding variable description.

1.8 Data preparation

The data received by GESIS from TNS Opinion & Social were checked for completeness, missing and duplicate records, for illegal (wild) codes and for (formal) consistency of response patterns and question routing. Errors discovered by these procedures are documented or corrected, as a general rule after consulting related additional documentation (e.g. tabular reports) or the data provider. Indices and other derived summary variables were also checked and corrected as necessary. Complete machine-readable DDI-XML compliant documentation was created for this dataset by GESIS.

GESIS added 'Inappropriate' (INAP) codes to indicate intentionally skipped questions when it could be determined that the appropriate skip instruction in the original questionnaire was adhered to for (almost) every respondent. An additional INAP category was defined whenever a question or group of questions were not surveyed in one or more countries, or if variables refer to country specific items (e.g. regions).

Users should note that answers to multiple-response questions are (originally) represented by a series of binary 'dummy' variables (i.e. variables which take on values of one and zero only), creating separate 'dummy' variables also to explicitly represent 'Don't know', 'No answer/refusal' or other residual responses, such as 'None of the above'. The archive has recoded these residual responses in the case of uncommon minor inconsistencies with respect to and in favour of the series of substantial answers.

GESIS has recoded the missing answers (NA) represented in the original data set by blanks (system missing) to standard values. Their practically complete absence suggests that eventual cases of any not explicitly coded item non-response, might be collapsed with the DK (don't know) category.

Question text and contingency text appearing in the variable description is taken from English language version of the basic (bilingual) questionnaire (master questionnaire). Coding schemes and other documentation are based on the English language version of the basic questionnaire or on the respective SPSS data definition statements as provided by TNS Opinion & Social. In case of any discrepancy between questionnaires, SPSS definitions and data regarding the coding scheme of a variable, the archive, as a general rule, carried out any correction in agreement with the data provider.

If the documentation for country-specific questions or answer categories is provided in another language than English, the archive documents the original language wording and supplies the English translation in brackets.

No documentation was supplied for "OTHER" items which were asked "open ended" in questions QC4, QC6, QD7, QE1, QE6, QE7 and QE8.

Data for D2, D53 and D54 on party attachment and voting behaviour have been delivered and released with delay and have subsequently been integrated by the archive. For this reason the corresponding variables are added at the end of the dataset (V894 to V981) irrespective of the questionnaire structure. For details on the preparation and harmonization of these country specific variables see paragraph 3.2 (coding frames) and the corresponding notes to each individual variable.

In general all detailed information on data preparation or data inconsistencies is noted for each individual variable in the variable documentation part.

1.9 Further remarks

The primary data on voting behaviour in latest European Elections (D53) and in last national parliamentary elections (D54) as well as on party attachment (D2) are made available for the first time with the present dataset version v5.0.0. The formerly unlimited embargo has been lifted by the European Commission.

The rest of the dataset and of the variable report remains substantially unchanged compared to the previous release (v4.0.0), except the documentation for variables v843 (P7 REGION I – PORTUGAL) and v870 (P7 REGION II – GREECE) which have been corrected as noted in the variable documentation part.

2 Eurobarometer Series Description

2.1 Series name

The Standard and Special Eurobarometer (a.k.a. Euro-Barometer) Survey Series

2.2 Series information

The Standard and Special Eurobarometer surveys are the products of a unique program of cross-national and cross-temporal survey research. The effort began in early 1970, when the Commission of the European Communities sponsored simultaneous surveys of the publics of the European Community. In general they are carried out in spring and fall of each year. Three pilot studies were conducted in 1970, 1971 and 1973 under the header of European Communities Studies; "Attitudes towards Europe" (GESIS id ZA0078), the very first comparative survey across European Communities founder members in 1962, can be seen as an early forerunner. The primary data of the first explicit Eurobarometer, conducted in spring 1974, have not been preserved.

2.3 Principal investigators and institutional background

The Eurobarometer program was initially launched and managed until 1986 by Jacques-René Rabier, head of the Commission's press and information directorate and afterwards special advisor to the Commission of the European Communities. He counted with the political support of the European Parliament and the close co-operation of Ronald Inglehart. The political scientist at the University of Michigan was then developing his theory of value change in modern societies and his materialist/post-materialist items would become integral part of the Eurobarometer until the mid nineties. Between 1987 and 1996 the program was continued and considerably enlarged under the direction of Karlheinz Reif, since 1993 together with Anna Melich.

Anna Melich took over the Eurobarometer direction from 1997 to 1999, by then still within the organizational framework of the former Directorate-General X, Public Opinion Surveys and Research Unit. In 2000/2002 Eurobarometer were intermittently conducted in the framework of the DG Education and Culture, Citizens' Centre - Analysis of Public Opinion under the direction of Harald Hartung, and starting with Eurobarometer 54 under DG Press and Communication, initially directed by Thomas Christensen. Since 1999 the organisation and supervision of the surveys were consecutively executed by Rubén Mohedano-Brèthes (until 2002) and Renaud Soufflot de Magny (until 2006), with Antonis Papcostas as head of unit between 2003 and 2010.

The main survey results are regularly published on the European Commission's Public Opinion website in official standard and special topic reports.

2.4 Development of geographical and population coverage

In all European Union (formerly "European Communities") member countries Standard Eurobarometer samples were initially drawn among the national population, aged 15 and over. Starting with Eurobarometer 41.1 the target population is the population of any nationality of an European Union member country, aged 15 years and over, resident in any of the Member States. For test purposes Eurobarometer 41.0 included a non-national European Union citizens oversample.

Eurobarometer regularly include all member countries, starting with the six founder members and in accordance with the subsequent enlargement process. Norway has been in-officially included in selected waves between 1989 (EB34) and 1996 (EB46), Finland started before the actual enlargement in 1993 (EB39.0), and a few Swiss Eurobarometer were run in parallel to selected waves or topics starting in 1999 (EB51.1) in Switzerland. Candidate Countries (CC) and Accession Countries (AC) for the Eastern enlargement process were first surveyed in the Candidate Countries Eurobarometer series (2001-2004) and then all included in the standard series, even before accession as in the cases of Turkey or Macedonia.

Additional samples are drawn for Great Britain and Northern Ireland almost from the start, in Germany (East and West) after the re-unification in 1989, and in Cyprus for the Turkish Cypriote Community (Northern Cyprus) since 2004 for selected standard and topical waves.

The regular standard sample size (in the sense of completed interviews) in Eurobarometer surveys is 1000 respondents per country, except small countries like Luxembourg or Malta. The 44.2bis MEGA-survey increased the standard sample up to 6000 respondents (for the largest countries) in order to achieve more confidence for analysis on sub-national level.

Oversamples have been drawn intermittently if required by the topic, i.e. to ensure that there are enough members of the relevant population subgroup to report sufficiently reliable estimates. Intentionally more people are selected from the respective group than would typically be done if everyone in the sample had an equal chance of being selected.

Table 4: Oversamples for special topic Eurobarometer

Topic	(Over-)Sample	Eurobarometer Survey
Young Europeans	Youth aged 15–24	17, 28.1, 34.2, 47.2OVR, 55.1OVR
Elderly Europeans	Elderly aged 60+	37.2
Consumer Behaviour	Responsible for shopping	41.0
Unemployment	Unemployed	44.3OVR
Working Conditions	Professionally active	37.0+1, 39.0+1
Drug Abuse	Youth aged 15–24	43.0+1, 57.2OVR
Education Issues	Youth aged 15–24	44.0 / 44.1 (data not integrated)

2.5 Standard question program and special topics

Standard Eurobarometer surveys were designed to provide a regular monitoring of the social and political attitudes among the European publics, to obtain regular readings of support for European integration, public awareness of and attitudes toward European unification, the institutions of the European Community / European Union, and its policies in complementary fashion. Attitudes toward the organization and role of the European Parliament and electoral behavior became a major topic in pre- and post- European Elections times. The standard program was complemented by measures of general socio-political orientations, of subjective satisfaction and the perceived quality of life, or of cultural, national and European identities.

Intermittently Standard Eurobarometer have investigated SPECIAL TOPICS, such as agriculture, biotechnology, energy, environment, family planning, gender roles, health related issues, immigration, poverty and social exclusion, regional identity, science and technology, information society, working conditions, urban traffic, knowledge of languages etc. In the case of some supplementary studies, special youth and elderly samples have been drawn (see table 4).

Starting with Eurobarometer 34 (1990) additional supplementary surveys on special issues have been conducted under each main wave number, identified by dot-separated sub-numbers for each individual survey. Usually only one survey per main wave includes the standard and trend module with focus on European integration issues. The following list (table 5) identifies the surveys containing the standard module and with results reported in the corresponding official standard report, or which at least include a subset of standard indicators, or with focus on European integration in a special topic context (e.g. "The future of Europe" in Eurobarometer 65.1).

Table 5: Overview of Eurobarometer surveys with standard EU and trend question modules

Further and regularly updated information on the Eurobarometer survey series is provided through the GESIS Eurobarometer Data Service micro-site: <http://www.gesis.org/eurobarometer>

3 Dataset structure and standards

Standard and Special Eurobarometer are processed and documented by the Inter-university Consortium for Political and Social Research (ICPSR) and by the GESIS Data Archive department in accordance with agreed standards, which may in some details diverge from the usual ICPSR or GESIS archive standards. In addition and as long as reasonable it was adhered to standards once established for the Eurobarometer series in the course of the years.

3.1 Dataset structure

In general the variable structure of the analysis dataset is aligned to the basic bilingual questionnaire, preceded by a set of technical variables. These comprise the archive identification variables (archive study and version id), the survey identification variables (wave and unique respondent id), and several standard NATION variables identifying the different samples (countries or regions) and relevant groups of samples in the dataset with the corresponding WEIGHT variables provided by the fieldwork institutes (see 1.7). A special alphanumeric NATION variable is provided based on the ISO 3166 country code standard for the purpose of breaking down variables by sample in terms of clearly summarized cross-tabulations.

The questionnaire variables usually consist of three types, the substantial questions (Q), the Eurobarometer standard demographics (D) and the interview protocol variables (P). The dataset is concluded by constructed index variables (C), usually as provided by the fieldwork institute, by a questionnaire SPLIT variable if applicable, and by further original identification variables.

Variable names consist of the standard prefix 'V' and the consecutive variable number, except ISOCNTRY and VERSION variables if subsequently added to older datasets. Variable labels are standardized in the sense that they provide keywords based on the question text and that these keywords are applied consistently if questions or question items are repeated over time (trend variables). Variable label may include abbreviations if required, e.g. limitations regarding the length of variable labels in older versions of statistical analysis software. Starting with Eurobarometer 33 the variable labels include the respective question number as a reference to the basic bilingual questionnaire.

3.2 Coding frames

By general rule, the variables adopt the coding frame as specified in the basic bilingual questionnaire, except multiple response questions (see 1.8), questions with country specific answer categories and missing values.

3.2.1 Country specific answer categories

Eurobarometer include some questions (variables) with country specific answer categories like INCOME, SIZE OF COMMUNITY, REGION or variables related to VOTING BEHAVIOUR with reference to POLITICAL PARTIES. Until Eurobarometer 48 only one integrated variable is supplied with each category representing country specific meanings (e.g. geographic regions) which are not documented within the analysis dataset by means of value labels, but only in the extended variable description in the variable report. Starting with Eurobarometer 49 the integrated variables are retained but complemented by completely labeled country specific variables. The country specific coding schemes and categories are maintained as a standard over time as long as the category schemes

provided in the questionnaire are remain comparable.

Special attention is given to the coding of POLITICAL PARTIES in voting behavior variables such as VOTE INTENTION or LAST VOTE based on a standard coding scheme, originally developed for the Eurobarometer by Ronald Inglehart.

Starting with Euro-Barometer 2 the coding of this variable has been standardized following an approximate ordering of each country's political parties along a "left" to "right" continuum in the first digit of the codes. Parties coded 01–39 are generally considered on the "left", those coded 40–49 in the "centre", and those coded 60–89 on the "right" of the political spectrum. Parties coded 50–59 cannot be readily located in the traditional meaning of "left" and "right". The second digit of the codes is not significant to the "left-right" ordering. Codes 90–99 contain the response "other party" and various missing data responses. Major "party families" like the Social Democrats or Conservatives have been assigned identical values across countries, if possible.

From the present Eurobarometer 69.2 onwards, the "party family" harmonization approach has been sharpened following and updating the coding scheme developed by ZEUS for the Mannheim Eurobarometer Trend File. This ZEUS Code of Party Families is country specific, i.e. the categories have different meanings for different countries. It has three digits: The first represents the party family, the second and third identify an individual party in this family. Individual parties are coded consistently over time. The assignment of parties to families is done according to their overall ideological orientations.

Table 6: ZEUS Party Family Code (slightly modified)

Category		Party Family
0	(001–099)	not affiliated / electoral alliances across "families"
1	(100–199)	Communists
2	(200–299)	Socialists
3	(300–399)	Liberals
4	(400–499)	Christian Democrats
5	(500–599)	Conservatives
6	(600–699)	Extreme Rights / Nationalists
7	(700–799)	Regionalists / Ethnic
8	(800–899)	Environmental parties
9	(900–949)	Agricultural parties
9	(950–989)	other special issue parties (e.g. Eurosceptics) and independents
	990	other (spontaneous)
	994	not voting age
	995	empty ballot (blank) or invalid vote
	996	not voted / would not vote
	997	Refused
	998	DK / DK+NA if NA not coded separately
	999	INAP (inappropriate)

If available, the former standard category used up to Eurobarometer 61 is always referenced in the variable

description. Due to general changes in party systems and to the ideological development of individual political parties, the assignment of parties to party families cannot claim general validity. Users may modify these codings or part of these codings in order to suit their specific needs.

3.2.2 Missing values

In general missing value codes are defined in accordance with the standard once established for the Eurobarometer series, in particular the default use of whatever value supplied by the basic questionnaire for DK ("don't know") responses, unless a standard coding scheme is applied for demographic or protocol variables. The value 0 is applied for NA (i.e. "not ascertained" resp. "no answer") and the value 9 (99, 999, ...) for INAP (i.e. "inappropriate" resp. "not applicable"). If one of these values falls into the valid range of codes, the missing values are shifted to the next available missing value code or "level", e.g. if 0 is used in a dichotomous variable (NOT MENTIONED), value 9 is used for NA, respectively value 8 if value 9 is already used for INAP. If necessary the corresponding two- or more digit codes are used (99, 999, 98, 998 ...). Recently separate missing values are coded for INAP depending on whether the respondent was not asked a question due to questionnaire routing (filter non-response) or whether the question was not provided for in the country's field questionnaire. Other missing values (e.g. REFUSAL) are coded with the in each case next available code (e.g. 7, 97, 997, ...). In the analysis data set these codes are by default declared and treated as USER MISSING, but may be modified by the user to suit specific needs.

3.3 International documentation standard

The variable documentation is set up in accordance with the international metadata specifications for the social and behavioural sciences, established by the Data Documentation Initiative <DDI>. The variable reports are based on the XML representation of DDI version 2. The documentation combines the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the basic bilingual (master) questionnaire with the variable description (variable name, values, and labels) of the analysis dataset. General remarks and comments referring to a certain variable are defined as variable notes. Notes can be references to trend (comparability) information, standards applied for coding frames, problems in questionnaire translation, but also references to data problems or other specific characteristics.

4 Explanation of the variable documentation

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. The variable documentation is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with international metadata standards (DDI-Codebook/XML).

In general, the following abbreviations are used to indicate countries or (sub-national) areas. As far as applicable, the ISO 3166-1 alpha-2 country codes have been applied and coded accordingly in the alphanumeric sample identification variable (NATION – ALL SAMPLES ISO 3166).

AT	Austria	HR	Croatia
BE	Belgium	HU	Hungary
BG	Bulgaria	IE	Ireland
CY	Cyprus	IT	Italy
CY-TCC	Turkish Cypriote Community	LT	Lithuania
CZ	Czech Republic	LU	Luxembourg
DE	Germany (~1989)	LV	Latvia
DE-W	Germany West (1990 ff.)	MK	Macedonia (FYROM)
DE-E	Germany East (1990 ff.)	MT	Malta
EE	Estonia	NL	The Netherlands
ES	Spain	PL	Poland
FI	Finland	PT	Portugal
FR	France	RO	Romania
GB	United Kingdom	SE	Sweden
GB-GBN	Great Britain	SI	Slovenia
GB-NIR	Northern Ireland	SK	Slovakia
GR	Greece	TR	Turkey

The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable. Results are usually broken down by country (sample) or represented by frequency counts in the case of country specific variables. In the case of variables with long lists of coded “real” values (e.g. age), results are only presented for the corresponding categorized variable, if available. The content and construction of technical, administrative or other generated variables is described as appropriate.

The frequencies for substantive variables are calculated on the base of weighted data, as indicated with each table and in accordance with the European Commission’s official Eurobarometer reports. Typically the sample specific post-stratification (redressment) weight is applied (WEIGHT RESULT FROM TARGET or NATION WEIGHT II). Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

The complete question and answer texts are taken from the English language part of the respective basic bilingual questionnaire (master questionnaire) as provided by the coordinating fieldwork institute.

CROSS-TABULATION: The absolute frequencies of the occurrence of values (<i>absolute values</i>) refer to the number of cases in the weighted dataset as indicated, in this case <i>weighted by V8</i> . The relative frequencies (<i>row percent</i>) refer to the valid cases (<i>n valid sum</i>), i.e. the total number of cases (<i>n sum</i>) reduced by the number of cases defined as missing data (<i>M</i>). For display and place saving reasons excluded countries or areas may be completely dropped from the table.																																																																																																																																																																																																																																																																																																																						
FREQUENCY COUNTS: For country specific variables relative frequencies are calculated in- and excluding missing data (<i>M</i>), i.e. <i>percent</i> on the basis of all cases (<i>sum</i>) and <i>valid percent</i> on the basis of the <i>valid cases</i> .																																																																																																																																																																																																																																																																																																																						

5 Variable Documentation

Variable, Label

Question Text (English Language)

v1 - ARCHIVE STUDY NUMBER - DISTRIBUTOR

ARCHIVE STUDY NUMBER - DISTRIBUTOR

Study Number of the distributing data archive.

v1

Value	Label	Missing	Count	Percent	Valid Percent
4744			30170	100.0	100.0
	Sum		30170	100.0	100.0
	Valid Cases		30170		

v2 - ARCHIVE STUDY NUMBER - PUBLISHER

ARCHIVE STUDY NUMBER - PUBLISHER

Study number of the data archive which is publishing this data set version.

v2

Value	Label	Missing	Count	Percent	Valid Percent
4744			30170	100.0	100.0
	Sum		30170	100.0	100.0
	Valid Cases		30170		

v3 - GESIS ARCHIVE VERSION**VERSION AND RELEASE DATE OF THE ARCHIVE DATA SET**

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

v3

Value	Label	Missing	Count	Percent	Valid Percent
5.0.0 (2013-08-07)			30170	100.0	100.0
	Sum		30170	100.0	100.0
	Valid Cases		30170		

v4 - EUROBAROMETER NUMBER

EUROBAROMETER SURVEY NUMBER

The number identifying the Eurobarometer survey.

692 Eurobarometer 69.2

v4

Value	Label	Missing	Count	Percent	Valid Percent
692	Eurobarometer 69.2		30170	100.0	100.0
	Sum		30170	100.0	100.0
	Valid Cases		30170		

v5 - UNIQUE CASE ID (TNS COUNTRY ID + INTERVIEW ID)

UNIQUE CASE ID (TNS COUNTRY ID + TNS INTERVIEW ID)

This unique respondent identification is composed of the original TNS country code and the original TNS interview number. The first two digits identify the country of interview (01: Belgium; 02: Denmark; 04: Greece; 05: Spain; 06: Finland; 07: France; 08: Ireland; 09: Italy; 10: Luxembourg; 11: Netherlands; 12: Austria; 13: Portugal; 14: Sweden; 20: Germany West; 21: Germany East; 22: Great Britain; 23: Northern Ireland; 31: Bulgaria; 32: Cyprus (Republic); 33: Czech Republic; 34: Estonia; 35: Hungary; 36: Latvia; 37: Lithuania; 38: Malta; 39: Poland; 40: Romania; 41: Slovakia; 42: Slovenia; 43: Turkey; 46: Croatia; 57: Cyprus (CY-TCC); 63: Macedonia). The remaining digits contain the country-specific questionnaire numbers.

Note:

Actual number is coded.

v6 - NATION - ALL SAMPLES

NATION - ALL SAMPLES

All samples including separate samples for East and West Germany and for Great Britain and Northern Ireland.

- 1 France
- 2 Belgium
- 3 The Netherlands
- 4 Germany West
- 5 Italy
- 6 Luxembourg
- 7 Denmark
- 8 Ireland
- 9 Great Britain
- 10 Northern Ireland
- 11 Greece
- 12 Spain
- 13 Portugal
- 14 Germany East
- 15 Norway (not included)
- 16 Finland
- 17 Sweden
- 18 Austria
- 19 Cyprus (Republic)
- 20 Czech Republic
- 21 Estonia
- 22 Hungary
- 23 Latvia
- 24 Lithuania
- 25 Malta
- 26 Poland
- 27 Slovakia
- 28 Slovenia
- 29 Bulgaria
- 30 Romania
- 31 Turkey
- 32 Croatia
- 33 Cyprus (CY-TCC)
- 34 Macedonia (FYROM)

Note:

Use of weighting factor W1 (V8) is optional.

v7 - NATION - ALL SAMPLES ISO 3166

NATION – ALL SAMPLES ISO 3166

All surveyed countries and regions, i.e. including separate samples for East- / West-Germany, Great Britain / Northern Ireland, and the Turkish Cypriot Community (TCC), are coded in accordance with the ISO 3166-1-alpha-2 country code, if available. ISO 3166-2 is applied for the United Kingdom subdivisions. ISO standard codes are not available for the “historical” East / West subdivision of Germany (DE-E / DE-W) and for the Turkish Cypriot Community in northern Cyprus (CY-TCC), the internationally not recognized “Turkish Republic of Northern Cyprus”.

Note:

Use of weighting factor W1 (V8) is optional.

v8 - W1 WEIGHT RESULT FROM TARGET

W1 WEIGHT RESULT FROM TARGET

This POST-STRATIFICATION WEIGHT is based on a comparison for each sample with the respective universe description. As such in all countries, gender, age, region and size of locality are introduced in the iteration procedure carried out by the fieldwork institutes.

British and Northern Irish as well as East and West German samples are weighted separately. The weight reproduces the real number of cases for each country. In terms of its general function it corresponds to former NATION WEIGHT II (until EUROBAROMETER 31).

v9 - NATION - UNITED KINGDOM

NATION - UNITED KINGDOM

Great Britain and Northern Ireland are coded together.

0 Other

1 United Kingdom

Note:

Use of weighting factor W4 (V10) is mandatory.

v10 - W4 WEIGHT UNITED KINGDOM

W4 WEIGHT UNITED KINGDOM

This POPULATION SIZE WEIGHT adjusts the British and the Northern Irish (sub-national) samples to their share in the total population aged 15 and over in the United Kingdom. It must be applied whenever the United Kingdom is to be analyzed as a whole. The post-stratification weighting factors are included for both samples. All other samples are excluded from analysis. In terms of its general function the weight corresponds to former NATION WEIGHT I (until EUROBAROMETER 31).

v11 - NATION - UNITED GERMANY

NATION - UNITED GERMANY

East and West Germany are coded together.

0 Other

1 Germany

Note:

Use of weighting factor W3 (V12) is mandatory.

v14 - W5 WEIGHT EU6

W5 WEIGHT EU6

This POPULATION SIZE WEIGHT refers to the six EC founder members: France, Belgium, Netherlands, West Germany, Italy, and Luxembourg. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU6 must be applied whenever these six EC founder countries are to be analyzed altogether as a group.

v15 - NATION GROUP EU9

NATION GROUP EU9

NATION GROUP EU9 adds Denmark, Ireland, Great Britain and Northern Ireland to the EU6 countries.

0 Other

1 EU9

Note:

Use of weighting factor W6 (V16) is mandatory.

v22 - W9 WEIGHT EU12+

W9 WEIGHT EU12+

This POPULATION SIZE WEIGHT equals WEIGHT EU12 but in addition including East Germany (former German Democratic Republic) after the unification of Germany on October 3, 1990 (Eurobarometer 34). It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU12+ must be applied whenever these twelve member countries are to be analyzed altogether as a group including the Eastern part of Germany (new German federal states).

v23 - NATION GROUP EU NMS 3

NATION GROUP EU NMS 3

NATION GROUP EU NMS 3 only refers to the three new members as of January 1995: Finland, Sweden and Austria.

0 Other

1 EU NMS 3

Note:

Use of weighting factor W10 (V24) is mandatory.

v50 - W29 WEIGHT EURO ZONE 2008

W29 WEIGHT EURO ZONE 2008

This POPULATION SIZE WEIGHT separates the group of 12 countries which introduced the EURO as of January 1, 2002 (Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland) plus Slovenia which introduced the EURO as of January 1, 2007, plus Cyprus and Malta, which introduced the EURO as of January 1, 2008. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EURO ZONE 2008 must be applied whenever these countries are to be analyzed altogether as a group, e.g. when questions related to the introduction of the common European currency are concerned.

v51 - NATION GROUP NON EURO ZONE 2008

NATION GROUP NON EURO ZONE 2008

NATION GROUP NON EURO ZONE 2008 refers to the group of countries which did not introduce the EURO up to January 1, 2008 (Denmark, United Kingdom, Sweden, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia, Bulgaria, Romania).

0 Other

1 NON EURO ZONE 2008

Note:

Use of weighting factor W30 (V52) is mandatory.

v52 - W30 WEIGHT NON EURO ZONE 2008

W30 WEIGHT NON EURO ZONE 2008

This POPULATION SIZE WEIGHT separates the group of countries (Denmark, United Kingdom, Sweden, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia, Bulgaria, Romania) which did not introduce the EURO up to January 1, 2008 . It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT NON EURO ZONE 2008 must be applied whenever these countries are to be analyzed altogether as a group.

v53 - WEX WEIGHT EXTRA POPULATION 15+

WEX WEIGHT EXTRA POPULATION 15+

WEIGHT EXTRA extrapolates the actual universe (population aged 15 or more) for each country (sample), i.e. this weight variable integrates all other available weights, but does not reproduce the number of cases in the data set.

v54 - Q1 NATIONALITY BELGIUM

v456 - QB1 SENSE OF BELONGING: EUROPEAN

Now, let's move to another topic

I would like you to think about the idea of geographical identity. Different people think of this in different ways. People might think of themselves as being European, (NATIONALITY) or from a specific region to different extents. Some people say that with globalisation, people are becoming closer to each other as 'citizens of the world'.

Q.B1

ASK Q.B ONLY TO EU27 - OTHERS GO TO Q.C

Thinking about this, to what extent do you personally feel you are...

(SHOW CARD WITH SCALE - READ OUT – ROTATE)

Q.B1_1 European

- 1 To a great extent
- 2 Somewhat
- 3 Not really
- 4 Not at all
- 5 DK

v457 - QB1 SENSE OF BELONGING: NATIONALITY

Now, let's move to another topic

I would like you to think about the idea of geographical identity. Different people think of this in different ways. People might think of themselves as being European, (NATIONALITY) or from a specific region to different extents. Some people say that with globalisation, people are becoming closer to each other as 'citizens of the world'.

Q.B1

v460 - QB2 FEELING EUROPEAN - CONTENTEDNESS

ASK Q.B ONLY TO EU27

The following questions are about being European. By 'being European' I do not mean being a national of a European country or being born within Europe. We are talking about the extent to which people living in Europe feel European.

Q.B2

How do you feel about being European - on a scale from '1' to '10' - where '1' means you feel not content at all to be European and '10' means you feel very content to be European?

(SHOW CARD WITH SCALE)

- 1 Box 1 - Not content at all

v462 - QB3A FEELING REGION INHAB - CONTENTEDNESS

ASK Q.B ONLY TO EU27

Q.B3A

On a scale from '1' to '10' - where '1' means you feel not content at all and '10' means you feel very content, how do you feel about being inhabitant of your region?

(SHOW CARD WITH SCALE)

- 1 Box 1 - Not content at all
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - Very content
- 97 Refusal (SPONTANEOUS)
- 98 DK
- 99 Inap. not EU27 (not coded 1 to 30 in V6)

Note:

Original code "11" recoded to "97".

Original code "12" recoded to "98".

v465 - QB3B FEELING NATIONALITY - CONTENTEDNESS (REC)

Q.B3B Feeling about being (NATIONALITY) - contentedness (RECODED)

- 1 Not content (codes 1 to 3)
- 2 Fairly content (codes 4 to 6)
- 3 Content (codes 7 to 10)
- 7 Refusal (SPONTANEOUS)
- 8 DK
- 9 Inap. not EU27 (not coded 1 to 30 in V6)

Derivation:

This variable collapses answers to Q.B3B into three categories.

Note:

See Q.B3B for complete question text.

v467 - QB3C FEELING WORLD CITIZ - CONTENTEDNESS (REC)

Q.B3C Feeling about being citizen of the world - contentedness (RECODED)

- 1 Not content (codes 1 to 3)
- 2 Fairly content (codes 4 to 6)
- 3 Content (codes 7 to 10)
- 7 Refusal (SPONTANEOUS)
- 8 DK
- 9 Inap. not EU27 (not coded 1 to 30 in V6)

Derivation:

This variable collapses answers to Q.B3C into three categories.

Note:

See Q.B3C for complete question text.

v479 - QC3 EUROPEAN ELECTIONS - INTENTION TO VOTE

ASK Q.C ONLY TO EU27

Q.C3

Can you tell me on a scale of 1 to 10 how likely it is that you would vote in the next Europeans elections in June 2009? Please place yourself at a point on this scale where "1" indicates that

you would definitely not vote, "10" indicates that you would definitely vote and the remaining numbers indicates something in between these two positions.

(SHOW SCALE)

v491 - QC4B EUROP ELECTIONS VOTE OTHER - OTHER CRITERIA

ASK Q.C ONLY TO EU27

[Q.C4A

Among the following criteria, can you tell what would be the main element in your decision in view of the European elections?

Firstly?

Q.C4B

DO NOT ASK IF CODE 9 IN Q.C4A

Any others?]

Q.C4BO

ASK Q.C4BO ONLY IF "OTHER" IN Q.C4B - CODE 8 IN Q.C4B - OTHERS GO TO Q.C5

Which other(s)?

(WRITE DOWN - CODE AT THE OFFICE - MAX. 3 ANSWERS)

- 1 Other 1
- 2 Other 2
- 3 Other 3
- 4 Other 4
- 5 Other 5
- 6 Other 6
- 7 Other 7
- 10 Other 10
- 11 Other 11
- 12 Other 12

- 18 Other 18
- 19 Other 19
- 20 Other 20
- 22 Other 22
- 24 Other 24
- 98 Other 98
- 998 DK
- 999 Inap. not any other in Q.C4B (not coded 1 in V489)
- 9999 Inap. not EU27 (not coded 1 to 30 in V6)

Derivation:

The answers are not further specified.

Note:

Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to

the respective dummy variable if selected (code 1).

v532 - QC6B EUROP ELECT THEMES OTHERS: OTHER SUMMARIZED

ASK Q.C ONLY TO EU27

[Q.C6A

For you, among the following themes, which are the ones that the electoral campaign for the next European elections should concentrate on? Firstly?

Q.C6B

DO NOT ASK IF CODE 16 IN Q.C6A

Any others?]

Q.C6BO

ASK Q.C6BO ONLY IF "OTHER" IN Q.C6B - CODE 15 IN Q.C6B - OTHERS GO TO Q.D

Which other(s)?

(WRITE DOWN - CODE AT THE OFFICE - MAX. 5 ANSWERS)

- 1 One other item mentioned
- 2 Two other items mentioned
- 8 DK
- 9 Inap. not any other in Q.C6B (not coded 1 in V530)
- 99 Inap. not EU27 (not coded 1 to 30 in V6)

Derivation:

This variable summarizes the number of other answers given by the respondent. The answers are not further specified.

Note:

Variable generated by the Archive.

Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

v548 - QC6AB EUROP ELECT THEMES: DK (QC6A ONLY)

Q.C6AB Themes for next European elections in total

Q.C6AB_16 DK (Q.C6A only)

0 Not mentioned

1 Mentioned

9 Inap. not EU27 (not coded 1 to 30 in V6)

Derivation:

This variable repeats responses to this item in Q.C6A (V514).

Note:

See Q.C6A to Q.C6B for complete question text. Variable repeats answers to category '16' (DK) in Q.C6A (V514), while all other answers to Q.C6A are summarized with Q.C6B (V516 TO V530) in variables V533 to V547.

Data on voting behaviour in the latest European Elections (D.53a-c) and last national parliamentary elections (D.54) have been provided and released with delay. The corresponding variables have subsequently been added at the end of the dataset (V894 to V951) irrespective of the questionnaire structure.

v596 - QD6A VALUE PRIORITIES - POL GOALS 1ST

Q.D6A

DO NOT ASK Q.D6A TO Q.D6B IN CY-TCC - CY-TCC GO TO Q.D6C

There is a lot of talk these days about what (OUR COUNTRY)'s goals should be for the next ten or fifteen years. On this card are listed some of the goals that different people say should be given top priority. Would you please say which one of them you, yourself, consider to be most important in the long run?

(SHOW CARD – ONE ANSWER ONLY - READ OUT)

- 1 Maintain order in the country
- 2 Giving people more say in important Government decisions
- 3 Fight rising prices
- 4 Protect freedom of speech
- 5 DK
- 9 Inap. CY-TCC (coded 33 in V6)

9 Inap. CY-TCC (coded 33 in V6)

Derivation:

This variable summarizes responses to this item in Q.D6A (V596) and Q.D6B (V597).

Note:

See Q.D6A to Q.D6B for complete question text. Variables summarize answers to Q.D6A (V596) and Q.D6B (V597), except for category '5' (DK) (V602).

v603 - QD6C VALUE PRIORITIES - POL GOALS 1ST

Q.D6C

ASK Q.D6C TO Q.D6D ONLY IN CY-TCC - OTHERS GO TO Q.D7A

There is a lot of talk these days about what our community's goals should be for the next ten or fifteen years. On this card are listed some of the goals that different people say should be given top priority. Would you please say which one of them you, yourself, consider to be most important in the long run?

(SHOW CARD – ONE ANSWER ONLY - READ OUT)

- 1 Maintain order in the country
- 2 Giving people more say in important Government decisions
- 3 Fight rising prices
- 4 Protect freedom of speech
- 5 DK
- 9 Inap. not CY-TCC (not coded 33 in V6)

Note:

New (based on EB64.2, Q.A33A)

v611 - QD7A VALUES LINKED TO HAPPINESS - OTHERS

[Q.D7A

Among the following values, please what is the one which is the most important in connexion with your idea of happiness?]

Q.D7AO

ASK Q.D7AO ONLY IF "OTHERS" IN Q.D7A - CODE 16 IN Q.D7A - OTHERS GO TO Q.D7B

Which other(s)?

(WRITE DOWN - CODE AT THE OFFICE - ONE ANSWER ONLY)

1 Other 1

2 Other 2

3 Other 3

4 Other 4

5 Other 5

16 Other 16

18 Other 18

19 Other 19

20 Other 20

21 Other 21

22 Other 22

23 Other 23

98 Other 98

998 DK

999 Inap. not any other in Q.D7A (not coded 16 in V610)

Note:

The answers are not further specified.

Q.D7B

DO NOT ASK IF DK IN Q.D7A

Any others?]

Q.D7BO

ASK Q.D7BO ONLY IF "OTHERS" IN Q.D7B - CODE 16 IN Q.D7B - OTHERS GO TO Q.E1A1

Which other(s) ?

(WRITE DOWN - CODE AT THE OFFICE - MAX. 3 ANSWERS)

1 One other item mentioned

2 Two other items mentioned

8 DK

9 Inap. not any other in Q.D7B (not coded 1 in V627)

Derivation:

This variable summarizes the number of other answers given by the respondent. The answers are not further specified.

Note:

Variable generated by the Archive.

Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

v633 - QD7AB VALUES LINKED TO HAPPINESS: PLEASURE

Q.D7AB Values most important with idea of happiness in total

Q.D7AB_4 Tradition

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes responses to this item in Q.D7A (V610) and Q.D7B (V612 TO V627).

Note:

See Q.D7A to Q.D7B for complete question text. Variables summarize answers to Q.D7A (V610) and Q.D7B (V612 TO V627), except for category '17' (DK) (V646).

v639 - QD7AB VALUES LINKED TO HAPPINESS: FRIENDSHIP

Q.D7AB Values most important with idea of happiness in total

Q.D7AB_10 Friendship

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes responses to this item in Q.D7A (V610) and Q.D7B (V612 TO V627).

Note:

See Q.D7A to Q.D7B for complete question text. Variables summarize answers to Q.D7A (V610) and Q.D7B (V612 TO V627), except for category '17' (DK) (V646).

v645 - QD7AB VALUES LINKED TO HAPPINESS: OTHERS

Q.D7AB Values most important with idea of happiness in total

Q.D7AB_16 Others

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes responses to this item in Q.D7A (V610) and Q.D7B (V612 TO V627).

Note:

See Q.D7A to Q.D7B for complete question text. Variables summarize answers to Q.D7A (V610) and Q.D7B (V612 TO V627), except for category '17' (DK) (V646).

v646 - QD7AB VALUES LINKED TO HAPPINESS: DK (QD7A ONLY)

Q.D7AB Values most important with idea of happiness in total

Q.D7AB_17 DK (Q.D7A only)

0 Not mentioned

1 Mentioned

Derivation:

This variable repeats responses to this item in Q.D7A (V610).

Note:

See Q.D7A to Q.D7B for complete question text. Variable repeats answers to category '17' (DK) in Q.D7A (V610), while all other answers to Q.D7A are summarized with Q.D7B (V612 TO V627) in variables V630 to V645.

ASK Q.E1A1 TO Q.E2A TO SPLIT A

[Q.E1A1

In your opinion, which of the following do you consider to be the most serious problem currently facing the world as a whole? Firstly ?

Q.E1A2

DO NOT ASK IF DK IN Q.E1A1

Any others?]

Q.E1A2O

ASK Q.E1A2O ONLY IF "OTHER" IN Q.E1A2 - CODE 9 IN Q.E1A2 - OTHERS GO TO Q.E2A

Which other(s) ?

(WRITE DOWN - CODE AT THE OFFICE - MAX. 3 ANSWERS)

1 Other 1

2 Other 2

4 Other 4

6 Other 6

10 Other 10

11 Other 11

98 Other 98

998 DK

999 Inap. not any other in Q.E1A2 (not coded 1 in V657)

9999 Inap. Split ballot B (coded 2 in V892)

Derivation:

The answers are not further specified.

Note:

Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

9 Inap. Split ballot B (coded 2 in V892)

Derivation:

This variable summarizes responses to this item in Q.E1A1 (V647) and Q.E1A2 (V649 TO V657).

Note:

See Q.E1A1 to Q.E1A2 for complete question text. Variables summarize answers to Q.E1A1 (V647) and Q.E1A2 (V649 TO V657), except for category '10' (DK) (V669).

v671 - QE2A GLOBAL WARMING - PERCEPTION (REC)

Q.E2A Seriousness of global warming - perception (RECODED)

- 1 Not a serious problem (codes 1 to 4)
- 2 A fairly serious problem (codes 5 to 6)
- 3 A very serious problem (codes 7 to 10)
- 4 DK
- 9 Inap. Split ballot B (coded 2 in V892)

Derivation:

This variable collapses answers to Q.E2A into three categories.

Note:

See Q.E2A for complete question text.

v672 - QE1B1 SERIOUS WORLD PROBLEMS - FIRST

Q.E1B1

ASK Q.E1B1 TO Q.E2B TO SPLIT B - OTHERS GO TO Q.E3

In your opinion, which of the following do you consider to be the most serious problem currently facing the world as a whole?

Firstly?

(SHOW CARD - ONE ANSWER ONLY)

- 1 Climate change
- 2 International terrorism
- 3 Poverty, lack of food and drinking water
- 4 The spread of an infectious disease
- 5 A major global economic downturn
- 6 The proliferation of nuclear weapons
- 7 Armed conflicts
- 8 The increasing world population
- 9 Other (SPONTANEOUS - SPECIFY)
- 10 DK
- 99 Inap. Split ballot A (coded 1 in V892)

v673 - QE1B1 SERIOUS WORLD PROBLEMS - OTHER PROBLEMS

ASK Q.E1B1 TO Q.E2B TO SPLIT B

[Q.E1B1

In your opinion, which of the following do you consider to be the most serious problem currently facing the world as a whole?

Firstly?]

Q.E1B1O

ASK Q.E1B1O ONLY IF "OTHER" IN Q.E1B1 - CODE 9 IN Q.E1B1 - OTHERS GO TO Q.E1B2

Which other?

(WRITE DOWN - CODE AT THE OFFICE - ONE ANSWER ONLY)

1 Other 1

2 Other 2

3 Other 3

4 Other 4

5 Other 5

6 Other 6

7 Other 7

8 Other 8

98 Other 98

998 DK

999 Inap. not any other in Q.E1B1 (not coded 9 in V672)

9999 Inap. Split ballot A (coded 1 in V892)

Note:

Answers are not further specified.

v684 - QE1B2 SERIOUS WORLD PROBLEMS OTHER: OTH PRBLM

ASK Q.E1B1 TO Q.E2B TO SPLIT B

[Q.E1B1

In your opinion, which of the following do you consider to be the most serious problem currently facing the world as a whole?

Firstly?

Q.E1B2

DO NOT ASK IF DK IN Q.E1B1

Any others?]

Q.E1B2O

ASK Q.E1B2O ONLY IF "OTHER" IN Q.E1B2 - CODE 9 IN Q.E1B2 - OTHERS GO TO Q.E2B

Which other(s) ?

(WRITE DOWN - CODE AT THE OFFICE - MAX. 3 ANSWERS)

1 Other 1

2 Other 2

3 Other 3

4 Other 4

6 Other 6

9 Other 9

10 Other 10

11 Other 11

12 Other 12

98 Other 98

998 DK

999 Inap. not any other in Q.E1B2 (not coded 1 in V682)

9999 Inap. Split ballot A (coded 1 in V892)

Derivation:

The answers are not further specified.

Note:

Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

v689 - QE1B SERIOUS WORLD PROBLEMS: ECONOM DOWNTURN

Q.E1B Most serious problem currently facing the world as a whole in total (Split Ballot B)

Q.E1AB_5 A major global economic downturn

0 Not mentioned

1 Mentioned

9 Inap. Split ballot A (coded 1 in V892)

Derivation:

This variable summarizes responses to this item in Q.E1B1 (V672) and Q.E1B2 (V674 TO V682).

Note:

See Q.E1B1 to Q.E1B2 for complete question text. Variables summarize answers to Q.E1B1 (V672) and Q.E1B2 (V674 TO V682), except for category '10' (DK) (V694).

v706 - QE2B CLIMATE CHANGE - PERCEPTION (REC)

Q.E2B Seriousness of climate change - perception (RECODED)

- 1 Not a serious problem (codes 1 to 4)
- 2 A fairly serious problem (codes 5 to 6)
- 3 A very serious problem (codes 7 to 10)
- 4 DK
- 9 Inap. Split ballot A (coded 1 in V892)

Derivation:

This variable collapses answers to Q.E2B into three categories.

Note:

See Q.E2B for complete question text.

v707 - QE2AB GLOBAL WARMING/CLIMATE CH - PERCEPTION

Q.E2A & Q.E2B Seriousness of global warming / climate change - perception in total (Split Ballot A & B)

- 1 Box 1 - Not a serious problem at all
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - An extremely serious problem
- 11 DK

Derivation:

This variable summarizes responses to these items in Q.E2A (V670) and Q.E2B (V705).

Note:

See Q.E2A to Q.E2B for complete question text.

v708 - QE2AB GLOBAL WARMING/CLIMATE CH - PERCEPTION (REC)

Q.E2A & Q.E2B Seriousness of global warming / climate change - perception in total (Split Ballot A & B) - RECODED

- 1 Not a serious problem (codes 1 to 4)
- 2 A fairly serious problem (codes 5 to 6)
- 3 A very serious problem (codes 7 to 10)
- 4 DK

Derivation:

This variable collapses answers to summarized variable Q.E2AB into three categories.

Note:

See Q.E2A to Q.E2B for complete question text.

v720 - QE5 CLIMATE CHANGE: UNSTOPPABLE PROCESS

Q.E5

ASK ALL

For each of the following statements, please tell me whether you totally agree, tend to agree, tend to disagree or totally disagree...?

(SHOW CARD WITH SCALE - ONE ANSWER PER LINE)

(If necessary, explain that CO₂ (carbon dioxide) is a gas generated notably in the combustion of fossil fuels, for example by all types of transport that use hydrocarbons and by industrial plants and power generators using fossil fuels...)

(ROTATE ITEMS 1 TO 5)

Q.E5_1 Climate change is an unstoppable process, we cannot do anything about it

- 1 Totally agree
- 2 Tend to agree
- 3 Tend to disagree
- 4 Totally disagree
- 5 DK

v724 - QE5 CLIMATE CHANGE: USE ALTERNATIVE FUELS

Q.E5

ASK ALL

For each of the following statements, please tell me whether you totally agree, tend to agree, tend to disagree or totally disagree...?

(SHOW CARD WITH SCALE - ONE ANSWER PER LINE)

(If necessary, explain that CO₂ (carbon dioxide) is a gas generated notably in the combustion of fossil fuels, for example by all types of transport that use hydrocarbons and by industrial plants and power generators using fossil fuels...)

(ROTATE ITEMS 1 TO 5)

Q.E5_5 Alternative fuels, such as "bio fuels", should be used to reduce greenhouse gas emissions

- 1 Totally agree
- 2 Tend to agree
- 3 Tend to disagree
- 4 Totally disagree
- 5 DK

v729 - QE6 CLIMATE CH ACTION: RED ENERGY CONSUMPTION

Q.E6

ASK Q.E6 IF "YOU PERSONALLY HAVE TAKEN ACTIONS AIMED AT HELPING TO FIGHT CLIMATE CHANGE", CODE 1 or 2 IN

Q.E5.6 - OTHERS GO TO Q.E7

Which of the following actions aimed at fighting climate change have you personally taken?

(SHOW CARD WITHOUT EXAMPLES - MULTIPLE ANSWERS POSSIBLE)

Q.E6_4 You are reducing your consumption of energy at home (for example by turning down air conditioning or heating, not leaving appliances on stand-by, buying energy efficient products such as low-energy light bulbs or appliances)

v739 - QE6 CLIMATE CH ACTION OTHER: SUMMARIZED

[Q.E6

ASK Q.E6 IF "YOU PERSONALLY HAVE TAKEN ACTIONS AIMED AT HELPING TO FIGHT CLIMATE CHANGE", CODE 1 or 2 IN

Q.E5.6 - OTHERS GO TO Q.E7

Which of the following actions aimed at fighting climate change have you personally taken?]

Q.E6O

ASK Q.E6O ONLY IF "OTHER" IN Q.E6 - CODE 12 IN Q.E6 - OTHERS GO TO Q.E7

Which other?

(WRITE DOWN - CODE AT THE OFFICE - SEVERAL ANSWERS POSSIBLE)

- 1 One other item mentioned
- 2 Two other items mentioned
- 3 Three other items mentioned
- 8 DK
- 9 Inap. not any other in Q.E6 (not coded 1 in V737)

Derivation:

This variable summarizes the number of other answers given by the respondent. The answers are not further specified.

Note:

Variable generated by the Archive.

Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

v740 - QE7 CLIMATE CH ACTION REASON: REAL IMPACT

Q.E7

ASK Q.E7 TO THOSE WHO ARE TAKING ACTIONS TO FIGHT CLIMATE CHANGE, CODE 1-12 IN Q.E6 - OTHERS GO TO

Q.E8

There are many reasons why people take actions aimed at fighting climate change. Please tell me which of the following apply to you?

(SHOW CARD - MULTIPLE ANSWERS POSSIBLE)

Q.E7_1 You think that if everybody changed their behaviour, it will have a real impact on climate change

0 Not mentioned

1 Mentioned

9 Inap. no actions aimed at helping to fight climate change or DK (not coded 1 in V726 to V737)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

v746 - QE7 CLIMATE CH ACTION REASON: DK

Q.E7

ASK Q.E7 TO THOSE WHO ARE TAKING ACTIONS TO FIGHT CLIMATE CHANGE, CODE 1-12 IN Q.E6 - OTHERS GO TO

Q.E8

There are many reasons why people take actions aimed at fighting climate change. Please tell me which of the following apply to you?

(SHOW CARD - MULTIPLE ANSWERS POSSIBLE)

Q.E7_7 DK

0 Not mentioned

1 Mentioned

9 Inap. no actions aimed at helping to fight climate change or DK (not coded 1 in V726 to V737)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

v747 - QE7 CLIMATE CH ACTION REASON OTHER: SUMMARIZED

[Q.E7

ASK Q.E7 TO THOSE WHO ARE TAKING ACTIONS TO FIGHT CLIMATE CHANGE, CODE 1-12 IN Q.E6

There are many reasons why people take actions aimed at fighting climate change. Please tell me which of the following apply to you?]

Q.E7O

ASK Q.E7O ONLY IF "OTHER" IN Q.E7 - CODE 6 IN Q.E7 - OTHERS GO TO Q.E8

Which other(s)?

(WRITE DOWN - CODE AT THE OFFICE - SEVERAL ANSWERS POSSIBLE)

- 1 One other item mentioned
- 3 Three other items mentioned
- 8 DK
- 9 Inap. not any other in Q.E7 (not coded 1 in V745)

Derivation:

This variable summarizes the number of other answers given by the respondent. The answers are not further specified.

Note:

Variable generated by the Archive.

Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

v755 - QE8 CLIMATE CH NO ACTION REASON OTHER: SUMMARIZED

[Q.E8

ASK Q.E8 TO THOSE WHO HAVE NOT PERSONNALLY TAKEN ACTIONS AIMING AT FIGHTING CLIMATE CHANGE", CODE 3 OR 4 IN Q.E5.6 - OTHERS GO TO Q.E9

There are many reasons that stop people from taking actions aimed at fighting climate change? Please tell me which of the following apply to you?]

Q.E8O

ASK Q.E8O ONLY IF "OTHER" IN Q.E8 - CODE 6 IN Q.E8 - OTHERS GO TO Q.E9

Which other(s)?

(WRITE DOWN - CODE AT THE OFFICE - SEVERAL ANSWERS POSSIBLE)

- 1 One other item mentioned
- 2 Two other items mentioned
- 8 DK
- 9 Inap. not any other in Q.E8 (not coded 1 in V753)

Derivation:

This variable summarizes the number of other answers given by the respondent. The answers are not further specified.

Note:

Variable generated by the Archive.

Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

v756 - QE9 CLIMATE FRIENDLY ENERGY - PAY MORE

Q.E9

ASK ALL

Personally, how much would you be prepared to pay more for energy produced from sources that emit less greenhouse gases in order to fight the climate change? In average, how much, in percent, would you be ready to pay more?

(CODE THE EXACT VALUE - PLEASE WRITE DOWN NNN - IF "NO", CODE "998" - IF "DK", PLEASE CODE "999")

1 1 %

300 300 %

998 No

999 DK

Note:

Actual number is coded.

Last trend strongly modified: EB65.2 F.2A

v757 - QE9 CLIMATE FRIENDLY ENERGY - PAY MORE (REC)

Q.E9 Paying more for climate friendly energy - RECODED

- 1 1 - 5 %
- 2 6 - 10 %
- 3 11 - 20 %
- 4 21 - 30 %
- 5 31 - 40 %
- 6 41 - 50 %
- 7 More than 50%
- 8 No
- 98 DK

Derivation:

This variable collapses answers to Q.E9.

Note:

See Q.E9 for complete question text.

v758 - QE10 GREENHOUSE GAS EMISSION - EU OBJECTIVE

Q.E10

The European Union has the objective of reducing its greenhouse gas emissions by at least 20% by 2020 compared to 1990. Thinking about this objective, would you say that it is too ambitious, about right or too modest?

v759 - QE11 GREENHOUSE GAS EMISSION - INT AGREEMENT

Q.E11

In order to limit the impact of climate change, the EU is also proposing an international agreement which would commit the major world economies to a target of 30% reduction of greenhouse gas emissions by 2020 compared to 1990. Thinking about this objective, would you say that it is too ambitious, about right or too modest?

v762 - D1 LEFT-RIGHT PLACEMENT - RECODED 3 CAT

D.1R1 Left - right scale (RECODED)

- 1 (1 - 4) Left
- 2 (5 - 6) Centre
- 3 (7 - 10) Right
- 9 DK/Refusal

Derivation:

This variable collapses answers to D.1 into three categories.

Note:

See D.1 for complete question text.

v763 - D1 LEFT-RIGHT PLACEMENT - RECODED 5 CAT

D.1R2 Left - right scale (RECODED)

- 1 (1 - 2) Left
- 2 (3 - 4)
- 3 (5 - 6) Centre
- 4 (7 - 8)
- 5 (9 -10) Right
- 9 DK/Refusal

Derivation:

This variable collapses answers to D.1 into five categories.

Note:

See D.1 for complete question text.

Data on party attachment (D.2) have been provided and released with delay. The corresponding variables have subsequently been added at the end of the dataset (V952 to V980) irrespective of the questionnaire structure.

NO QUESTIONS D.3 TO D.6

v764 - D7 MARITAL STATUS

D.7

Could you give me the letter which corresponds best to your own current situation?

(SHOW CARD - READ OUT - ONE ANSWER ONLY)

- 1 Married
- 2 Remarried
- 3 Unmarried, currently living with partner
- 4 Unmarried, having never lived with a partner
- 5 Unmarried, having previously lived with a partner, but now on my own
- 6 Divorced
- 7 Separated
- 8 Widowed
- 9 Other (SPONTANEOUS)
- 97 Refusal (SPONTANEOUS)

Note:

Original code "10" recoded to "97".

Last trend: EB69.1, D.7

v765 - D8 AGE EDUCATION

D.8

How old were you when you stopped full-time education?

(IF "STILL STUDYING", CODE '00' - IF "NO EDUCATION" CODE '01' - IF "REFUSAL" CODE '98' - IF "DK" CODE '99')

- 0 Refusal
- 2 2 years
- 81 81 years
- 97 No full-time education
- 98 Still studying
- 99 DK

Note:

Original code "00" recoded to "98".

Original code "01" recoded to "97".

Original code "98" recoded to "0".

Actual number is coded.

Due to a deviant specification in the coding instruction in the Portuguese field questionnaire data for Portugal have been corrected according to the basic questionnaire.

Last trend: EB69.1, D.8

v766 - D8 AGE EDUCATION - RECODED

D.8R Age when finished full-time education - RECODED

- 1 Up to 14 years
- 2 15 years
- 3 16 years
- 4 17 years
- 5 18 years
- 6 19 years
- 7 20 years
- 8 21 years
- 9 22 years and older
- 10 Still studying
- 11 No full-time education
- 97 Refusal
- 98 DK

Note:

See D.8 for complete question text.

Due to a deviant specification in the coding instruction in the Portuguese field questionnaire data for Portugal have been corrected according to the basic questionnaire.

D.11

How old are you?

15 15 years

95 95 years

Note:

Actual number is coded.

Last trend: EB69.1, D.11

v769 - D11 AGE RECODED - FOUR GROUPS

D.11R1 AGE - RECODED IN FOUR GROUPS

- 1 15 - 24 years
- 2 25 - 39 years
- 3 40 - 54 years
- 4 55 years and older

Derivation:

This variable collapses answers to D.11 into four categories.

Note:

See D.11 for complete question text.

v772 - D15B OCCUPATION OF RESPONDENT - LAST JOB

D.15B

ASK D.15B ONLY IF NOT DOING ANY PAID WORK CURRENTLY - CODES 1 TO 4 IN D.15A

Did you do any paid work in the past? What was your last occupation?

SELF EMPLOYED

- 1 Farmer
- 2 Fisherman
- 3 Professional (lawyer, medical practitioner, accountant, architect, etc.)
- 4 Owner of a shop, craftsmen, other self-employed person
- 5 Business proprietors, owner (full or partner) of a company

EMPLOYED

- 6 Employed professional (employed doctor, lawyer, accountant, architect)
- 7 General management, director or top management (managing directors, director general, other director)
- 8 Middle management, other management (department head, junior manager, teacher, technician)
- 9 Employed position, working mainly at a desk
- 10 Employed position, not at a desk but travelling (salesmen, driver, etc.)
- 11 Employed position, not at a desk, but in a service job (hospital, restaurant, police, fireman, etc.)
- 12 Supervisor
- 13 Skilled manual worker
- 14 Other (unskilled) manual worker, servant

0 NA

15 Never did any paid work

99 Inap. currently doing paid work (not coded 1 to 4 in V771)

Note:

In accordance with former waves coding results to be (correctly) shifted compared to the questionnaire.

Last trend: EB69.1, D.15B

v777 - D40B HOUSEHOLD COMPOSITION: AGED <10 (REC)

D.40BR HOUSEHOLD COMPOSITION: AGED <10 (RECODED)

- 0 None
- 1 One
- 2 Two
- 3 Three
- 4 Four or more

Derivation:

This variable groups answers to question D.40B/V776.

Note:

See V776 for complete question text.

v781 - D40 HOUSEHOLD COMPOSITION: SIZE A+B+C (REC)

D.40R HOUSEHOLD COMPOSITION: SIZE (A+B+C) (RECODED)

- 1 One
- 2 Two
- 3 Three
- 4 Four
- 5 Five
- 6 Six
- 7 Seven or more

Derivation:

This variable groups the summarized variable V780.

Note:

See V774, V776 and V778 for complete question text.

Generated by the Archive in accordance with former surveys.

v800 - P3 DURATION OF INTERVIEW

P.3 Number of minutes the interview lasted

10 10 minutes

267 267 minutes

Note:

Actual number is coded.

Last trend: EB69.1, P.3

v801 - P3 DURATION OF INTERVIEW (REC)

P.3R Number of minutes the interview lasted - RECODED

- 1 Up to 14 minutes
- 2 15 - 29 minutes
- 3 30 - 44 minutes
- 4 45 - 59 minutes
- 5 60 - 74 minutes
- 6 75 - 89 minutes
- 7 90 minutes and more

Derivation:

This variable collapses codes in P.3 into seven categories.

v812 - P6 SIZE OF COMMUNITY - UNITED KINGDOM

P.6_GB (Objective) Size of community: United Kingdom

- 1 Rural
- 2 Urban
- 3 Metropolitan
- 99 Inap. not GB (not coded 9 or 10 in V6)

Note:

The original variable integrated data for Northern Ireland (codes 1-2, 6) and Great Britain (codes 3-5). The original categories (value label) were corrected after consultation with TNS OPINION & SOCIAL. In order to facilitate the analysis for the United Kingdom as a whole, identical categories have been combined. For Northern Ireland code 3 ("Metropolitan") has been recoded from code 6 (DK) in accordance with P7 Region I for the United Kingdom (if coded 1 = "Belfast"). In Eurobarometer 62 to 66 "Belfast" is coded as "Urban" together with other communities; former Eurobarometer have different categories for community size in Northern Ireland.

For meaningful results this variable needs to be weighted by W4 WEIGHT UNITED KINGDOM (V10) or be used for Great Britain and Northern Ireland separately.

Last trend: EB69.1, P.6

v812, weighted by v10

Value	Label	Missing	Count	Percent	Valid Percent

v843 - P7 REGION I - PORTUGAL

P.7_PT Region I

Portugal (EUROSTAT NUTS II LEVEL) - Comissoes de Coordinacao Regional, Regioes Autonomas

- 1 North
- 2 Centre
- 3 Lisboa
- 4 Alentejo
- 5 Algarve
- 99 Inap. not PT (not coded 13 in V6)

Note:

Starting with Eurobarometer 62 the NUTS 2 regions for Portugal have changed. In accordance with the official EUROSTAT NUTS 2 version 2003 the region "Lisboa e vale do Tejo" is split up and the subregion "Lezíria do Tejo" reinstated to the "Alentejo" Region; "Médio Tejo" and "Oeste" are reinstated to the "Centro" region (Centre). Accordingly the regions "Centro" and "Alentejo" do not change names but regional coverage. The regions "Norte" (North) and "Algarve" remain unchanged. Also starting with Eurobarometer 62 the autonomous regions Açores and Madeira are not covered anymore.

Last trend: EB69.1, P.7

v889 - C1 OPINION LEADERSHIP INDEX

C.1 OPINION LEADERSHIP INDEX

0 DK (coded 5 for V87 and 4 for V86)

1 - - low (coded 3, 4 or 5 for V87 and 3 for V86; or coded 3 or 4 for V87 and 3 or 4 for V86)

2 - (coded 3, 4 or 5 for V87 and 2 for V86; or coded 1 or 2 for V87 and 3 or 4 for V86)

3 + (coded 3, 4 or 5 for V87 and 1 for V86; or coded 1 or 2 for V87 and 2 for V86)

4 ++ high (coded 1 or 2 for V87 and 1 for V86)

Derivation:

This index is based on the answers to the following two questions: "When you hold a strong opinion, do you ever find yourself persuading your friends, relatives or fellow workers to share your views? Does this happen often ...?" (Q.A2) and "When you get together with your friends, would you say you discuss political matters frequently, occasionally or never?" (Q.A1). Interviewees giving affirmative answers to both questions are labelled ++. Interviewees giving negative answers to both questions are labelled - -. Middle categories (+ and -) are constituted correspondingly.

This variable forms an indicator of the individual's potential to take an active role in the political process. For a complete discussion of this variable and its correlates see Ronald Inglehart, *The Silent Revolution: Changing Values and Political Styles among Western Publics* (Princeton University Press, 1977).

Note:

Partly corrected by the Archive.

v890 - C2 VALUE ORIENTATION - POST-MATERIALISM

C.2 VALUE ORIENTATION - POST-MATERIALISM

0 DK (coded 5 for V596 or coded 5 for V603)

1 Materialist (coded 1 for V596 and 3 for V597; or coded 3 for V596 and 1 for V597; or coded 1 for V603 and 3 for V604; or coded 3 for V603 and 1 for V604)

2 Mixed (coded 1 or 3 for V596 and 2 or 4 for V597; or coded 2 or 4 for V596 and 1 or 3 for V597; or coded 5 for V597; or coded 1 or 3 for V603 and 2 or 4 for V604; or coded 2 or 4 for V603 and 1 or 3 for V604; or coded 5 for V604)

3 Post materialist (coded 2 for V596 and 4 for V597; or coded 4 for V596 and 2 for V597; or coded 2 for V603 and 4 for V604; or coded 4 for V603 and 2 for V604)

Derivation:

This index is based on question Q.D6 (V596/V597 and V603/V604 (separate variable for CY-TCC)): "There is a lot of talk these days about what (OUR COUNTRY)'s goals should be for the next ten or fifteen years. On this card are listed some of the goals that different people say should be given top priority. Would you please say which one of them you, yourself, consider to be most important in the long run?: (1) Maintaining order in the country; (2) Giving people more say in important Government decisions; (3) Fighting rising prices; (4) Protecting Freedom of speech. And what would be your second choice?". Respondents combining item (1) and (3) are labelled "materialist". Respondents combining items (2) and (4) are labelled "post-materialist", and others are labelled "mixed".

For a complete discussion of this variable, see Ronald Inglehart, *The Silent Revolution: Changing Values and Political Styles among Western Publics* (Princeton University Press, 1977).

Note:

The index was generated by the Archive and includes the data for the Turkish Cypriote Community (CY-TCC). Unlike former surveys respondents who answered "DK" (code '5') for the first priority have not been asked for the second choice. As a consequence index code '0' (DK) only represents respondents coded '5' (DK) for the first priority, whereas respondents with items 1 to 4 as first priority and "DK" (code 5) as second priority are coded '2' (mixed).

v891 - C14 RESPONDENT OCCUPATION SCALE

C.14 Respondent Occupation Scale

- 1 Self-employed (coded 5 to 9 in V771)
- 2 Managers (coded 10 to 12 in V771)
- 3 Other white collars (coded 13 or 14 in V771)
- 4 Manual workers (coded 15 to 18 in V771)
- 5 House persons (coded 1 in V771)
- 6 Unemployed (coded 3 in V771)
- 7 Retired (coded 4 in V771)
- 8 Students (coded 2 in V771)

Note:

This scale is based on a combination / selection of the current respondent occupation variable D.15A (V771).

v893 - INTERVIEWER ID

Original Interviewer Identification Number

This is the original interviewer identification number as supplied by TNS OPINION & SOCIAL. The first two digits identify the country of interview (01: Belgium; 02: Denmark; 03: West Germany; 04: East Germany; 05: Greece; 06: Spain; 07: Finland; 08: France; 09: Ireland; 10: Italy; 11: Luxembourg; 12: Netherlands; 13: Austria; 14: Portugal; 15: Sweden; 16: Great Britain; 17: Northern Ireland; 18: Cyprus (Republic); 19: Czech Republic; 20: Estonia; 21: Hungary; 22: Latvia; 23: Lithuania; 24: Malta; 25: Poland; 26: Slovakia; 27: Slovenia; 28: Bulgaria; 29: Romania; 30: Turkey; 31: Croatia; 32: Cyprus (CY-TCC); 33: Macedonia). The remaining digits contain the country-specific interviewer id numbers.

Note:

Actual number is coded.

v894 - D53A EUROPEAN ELECTIONS VOTE - FRANCE

D.53A

ASK TO EU27 EXCEPT BG AND RO - BG GO TO D.53B, RO GO TO D.53C

Which party did you vote for in the latest European Parliament elections in June 2004?

(SHOW CARD - READ OUT - ONE ANSWER ONLY)

D.53A_FR

Last vote (European elections): France

50 Listes Philippe de Villiers

51 Listes Charles Pasqua

100 PCF - Listes du Parti communiste (Communist Party) (10)

103 LO, LCR - Lutte ouvrière / Ligue communiste révolutionnaire (Lutte ouvrière, Ligue communiste révolutionnaire)

200 PS - Listes du Parti Socialiste (Socialist Party) (20)

300 PRG - Listes du Parti Radical de gauche (Radical Party of the Left) (30)

402 UDF - Listes du Union pour la Democratie Français (Union for French Democracy) (72)

403 UMP - Listes Union pour un Mouvement Populaire (Union for a Popular Movement) (62)

600 FN - Listes du Front National (National Front) (80)

604 MNR de Bruno Mégret - Listes du Mouvement national républicain de Bruno Mégret (National Republican Movement) (81)

801 Listes des Verts (The Greens) (50)

950 CPNT - Listes du Chasse, Pêche, Nature et Tradition (Hunting, Fishing, Nature and Tradition) (56)

990 Other (SPONTANEOUS)

994 Did not have the legal age to vote at that time (SPONTANEOUS)

995 Voted blank or invalid (SPONTANEOUS)

996 You did not vote in that election (SPONTANEOUS)

998 DK

999 Inap. not FR (not coded 1 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

v897 - D53A EUROPEAN ELECTIONS VOTE - GERMANY

D.53A

ASK TO EU27 EXCEPT BG AND RO - BG GO TO D.53B, RO GO TO D.53C

Which party did you vote for in the latest European Parliament elections in June 2004?

(SHOW CARD - READ OUT - ONE ANSWER ONLY)

D.53A_DE

Last vote (European elections): Germany

- 105 Die Linke (The Left) (15)
- 200 SPD - Sozialdemokratische Partei Deutschlands (Social Democratic Party) (20)
- 300 FDP - Freie Demokratische Partei (Free Democrats) (40)
- 405 CDU - Christlich Demokratische Union (Christian Democratic Union) (64)
- 406 CSU - Christlich Soziale Union (Christian Social Union) (65)
- 805 GRÜNE - Bündnis 90 / Die Grünen (Alliance '90 / The Greens) (50)
- 990 Other (SPONTANEOUS)
- 994 Was not eligible to vote at that time (SPONTANEOUS)
- 996 You did not vote in that election (SPONTANEOUS)
- 998 DK
- 999 Inap. not DE (not coded 4 or 14 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groupings (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

For meaningful results this variable needs to be weighted by W3 WEIGHT GERMANY (V12) or be used for West and East Germany separately.

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

ASK TO EU27 EXCEPT BG AND RO - BG GO TO D.53B, RO GO TO D.53C

Which party did you vote for in the latest European Parliament elections in June 2004?

(SHOW CARD - READ OUT - ONE ANSWER ONLY)

D.53A_GB-NIR

Last vote (European elections): Northern Ireland

- 100 SF - Sinn Fein (81)
- 200 Labour - The Labour Party (20)
- 201 SDLP - Social Democratic and Labour Party (15/30)
- 301 LD - The Liberal Democrats (40)
- 500 Conservatives - The Conservative Party (60)
- 700 UUP - Ulster Unionist Party (61)
- 701 DUP - Democratic Unionist Party (62)
- 800 Greens - Greens (Green Party of England & Wales) (51)
- 990 Other (SPONTANEOUS)
- 994 Did not have the legal age to vote at that time (SPONTANEOUS)
- 996 You did not vote in that election (SPONTANEOUS)
- 998 DK
- 999 Inap. not GB-NIR (not coded 10 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

Only one national field questionnaire is provided for the United Kingdom, including equally parties from Great Britain and Northern Ireland. In some cases respondents from Great Britain mention political parties from Northern Ireland and vice versa.

Please notice that the documentation for Northern Ireland is not clear, especially in the cases of "Sinn Fein" (SF) and the "Social Democratic and Labour Party" (SDLP). The original TNS code sheet documents different (region specific) coding for Great Britain and Northern Ireland. Present coding in the archive dataset is guided by the UK questionnaire with common coding for Great Britain and Northern Ireland, which comes closer to the integrated variables in the original dataset. Hereby the relative frequencies for both parties, SF and SDLP, do not correspond to their election results in the period between 2004 and 2009 (fieldwork 3-5 2008), but rather tend to be inversed for D53, D54 and D2.

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

996 You did not vote in that election (SPONTANEOUS)

998 DK

999 Inap. not PL (not coded 26 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

801 PV - Partidul Verde (Green Party)
952 Tokes Ladislau (Independent candidate)
994 Did not have the legal age to vote at that time (SPONTANEOUS)

Derivation:

This additional variable merges data for all countries in accordance with former Eurobarometer archive dataset editions.

Note:

See D.53 (V894 to V921) for complete question text and further information.

Germany (V897): For meaningful results this variable needs to be weighted by W3 WEIGHT GERMANY (V12) or be used for West and East Germany separately.

Great Britain (V902), Northern Ireland (V903): Only one national field questionnaire is provided for the United Kingdom, including equally parties from Great Britain and Northern Ireland. In some cases respondents from Great Britain mention political parties from Northern Ireland and vice versa.

Northern Ireland (V903): Please notice that the documentation for Northern Ireland is not clear, especially in the cases of "Sinn Fein" (SF) and the "Social Democratic and Labour Party" (SDLP). The original TNS code sheet documents different (region specific) coding for Great Britain and Northern Ireland. Present coding in the archive dataset is guided by the UK questionnaire with common coding for Great Britain and Northern Ireland, which comes closer to the integrated variables in the original dataset. Hereby the relative frequencies for both parties, SF and SDLP, do not correspond to their election results in the period between 2004 and 2009 (fieldwork 3-5 2008), but rather tend to be inversed for D53, D54 and D2.

v922 by v7, Absolute Values (Row Percent), weighted by v8

v923 - D54 VOTING BEHAVIOUR LAST NAT ELECTIONS - FRANCE

D.54

ASK ONLY TO EU27 - OTHERS GO TO Q.D1A

Which party did you vote for in the latest parliamentary elections in (OUR COUNTRY) in (DATE – ADAPT TO YOUR COUNTRY)?
(SHOW CARD - READ OUT - ONE ANSWER ONLY)

D.54_FR

Last vote (national elections): France

- 100 PCF - Parti Communiste Français (Communist Party) (10)
- 101 Extrême gauche (PT, LO, LCR) - Extrême gauche (Parti des travailleurs, Lutte ouvrière, Ligue communiste révolutionnaire)
(Extreme Left (Workers Party, Workers Struggle, Revolutionary Communist League) (5)
- 200 PS - Liste du Parti Socialiste (Socialist Party) (20)
- 300 PRG - Parti Radical de gauche (Radical Party of the Left) (30)
- 304 MoDem - Mouvement démocrate (Democratic Movement) (40)
- 403 UMP - Union pour un Mouvement Populaire (Union for a Popular Movement) (62)
- 406 NC - Le Nouveau Centre (New Centre) (63)
- 506 MPF - Mouvement pour la France (Movement for France) (69)
- 600 FN - Front National (National Front) (80)
- 690 Extrême droite (MNR, ...) - Un autre parti d'extrême droite (Mouvement National Republicain, ...) (Other extreme right party
(National Republican Movement, ...)) (91) (not mentioned)
- 700 Un parti régionaliste (Regional party) (92)
- 801 Les Verts (The Greens) (50)
- 890 Un autre parti écologiste (Other ecological party) (93)
- 950 CPNT - Chasse, Pêche, Nature et Tradition (Hunting, Fishing, Nature and Tradition) (56)
- 990 Other (SPONTANEOUS)
- 994 Did not have the legal age to vote at that time (SPONTANEOUS)
- 995 Voted blank or invalid (SPONTANEOUS)
- 996 You did not vote in that election (SPONTANEOUS)
- 998 DK
- 999 Inap. not FR (not coded 1 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

Last trend modified: EB44.1, D.5

v928 - D54 VOTING BEHAVIOUR LAST NAT ELECTIONS - LUXEMBOURG

D.54

ASK ONLY TO EU27 - OTHERS GO TO Q.D1A

Which party did you vote for in the latest parliamentary elections in (OUR COUNTRY) in (DATE – ADAPT TO YOUR COUNTRY)?
(SHOW CARD - READ OUT - ONE ANSWER ONLY)

D.54_LU

Last vote (national elections): Luxembourg

- 100 KPL - Kommunistesch Partei (Communist Party) (10) (not mentioned)
- 101 Déi Lénk (The Left) (12)
- 200 LSAP - Letzebuurger Sozialistesche Arbechterpartei (Luxembourg Socialist Workers Party) (20)
- 300 DP - Demokratesch Partei (Democratic Party) (70)
- 400 CSV - Chrëstlech-Sozial Vollekspartei (Christian Social Party) (60)
- 700 FPL - Fräi Partei Lëtzebuerg (Free Party of Luxembourg) (81) (not mentioned)
- 803 Déi Gréng (The Greens) (50)
- 957 ADR - Alternativ Demokratesch Reformpartei (Alternative Democratic Reform Party) (79)
- 990 Other (SPONTANEOUS)
- 994 Did not have the legal age to vote at that time (SPONTANEOUS)
- 996 You did not vote in that election (SPONTANEOUS)
- 998 DK
- 999 Inap. not LU (not coded 6 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

Last trend modified: EB44.1, D.5

v932 - D54 VOTING BEHAVIOUR LAST NAT ELECTIONS - NORTHERN IRELAND

D.54

ASK ONLY TO EU27 - OTHERS GO TO Q.D1A

Which party did you vote for in the latest parliamentary elections in (OUR COUNTRY) in (DATE – ADAPT TO YOUR COUNTRY)?
(SHOW CARD - READ OUT - ONE ANSWER ONLY)

D.54_GB-NIR

Last vote (national elections): Northern Ireland

- 100 SF - Sinn Fein (81)
- 200 Labour - The Labour Party (20)
- 201 SDLP - Social Democratic and Labour Party (15/30)
- 301 LD - The Liberal Democrats (40)
- 500 Conservatives - The Conservative Party (60)
- 700 UUP - Ulster Unionist Party (61)
- 701 DUP - Democratic Unionist Party (62)
- 800 Greens - Greens (Green Party of England & Wales) (51)
- 990 Other (SPONTANEOUS)
- 994 Did not have the legal age to vote at that time (SPONTANEOUS)
- 996 You did not vote in that election (SPONTANEOUS)
- 998 DK
- 999 Inap. not GB-NIR (not coded 10 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

Only one national field questionnaire is provided for the United Kingdom, including equally parties from Great Britain and Northern Ireland. In some cases respondents from Great Britain mention political parties from Northern Ireland and vice versa.

Please notice that the documentation for Northern Ireland is not clear, especially in the cases of "Sinn Fein" (SF) and the "Social Democratic and Labour Party" (SDLP). The original TNS code sheet documents different (region specific) coding for Great Britain and Northern Ireland. Present coding in the archive dataset is guided by the UK questionnaire with common coding for Great Britain and Northern Ireland, which comes closer to the integrated variables in the original dataset. Hereby the relative frequencies for both parties, SF and SDLP, do not correspond to their election results in the period between 2004 and 2009 (fieldwork 3-5 2008), but rather tend to be inversed for D53, D54 and D2.

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

Last trend modified: EB44.1, D.5

- 998 DK
- 999 Inap. not ES (not coded 12 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

v941 - D54 VOTING BEHAVIOUR LAST NAT ELECTIONS - ESTONIA

D.54

ASK ONLY TO EU27 - OTHERS GO TO Q.D1A

Which party did you vote for in the latest parliamentary elections in (OUR COUNTRY) in (DATE – ADAPT TO YOUR COUNTRY)?
(SHOW CARD - READ OUT - ONE ANSWER ONLY)

D.54_EE

Last vote (national elections): Estonia

- 100 EVP - Eesti Vasakpartei (Estonian Left Party)
- 101 Konstitutsioonierakond (Constitution Party)
- 200 SDE - Sotsiaaldemokraatlik Erakond (Social Democratic Party)
- 300 ER - Eesti Reformierakond (Estonian Reform Party)
- 301 EK - Eesti Keskerakond (Estonian Centre Party)
- 401 EKD - Eesti Kristlikud Demokraadid (Party of Estonian Christian Democrats)
- 501 IRL - Isamaa ja Res Publica Liit (Union of Pro Patria and For the Republic)
- 600 EIP - Eesti Iseseisvuspartei (Estonian Independence Party)
- 700 VEE - Vene Erakond Eestis (Russian Party in Estonia)
- 800 EER - Erakond Eestimaa Rohelised (Estonian Greens)
- 900 ERL - Eestimaa Rahvaliit (People's Union of Estonia)
- 950 Independent candidates
- 990 Other (SPONTANEOUS)
- 994 Did not have the legal age to vote at that time (SPONTANEOUS)
- 996 You did not vote in that election (SPONTANEOUS)
- 998 DK
- 999 Inap. not EE (not coded 21 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

- 600 PRM - Partidul România Mare (Greater Romania Party)
- 700 UDMR - Uniunea Democrată a Maghiarilor din România (Democratic Union of Hungarians in Romania)
- 800 PER - Partidul Ecologist Român (Romanian Ecologist Party)
- 982 PNL-PD - Alianța Dreptate și Adevăr (Partidul Național Liberal + Partidul Democrat) (Justice and Truth Alliance (National Liberal Party + Democratic Party))
- 994 Did not have the legal age to vote at that time (SPONTANEOUS)

Derivation:

This additional variable merges data for all countries in accordance with former Eurobarometer archive dataset editions.

Note:

See D.54 (V923 to V950) for complete question text and further information.

Germany (V926): For meaningful results this variable needs to be weighted by W3 WEIGHT GERMANY (V12) or be used for West and East Germany separately.

Great Britain (V931), Northern Ireland (V932): Only one national field questionnaire is provided for the United Kingdom, including equally parties from Great Britain and Northern Ireland. In some cases respondents from Great Britain mention political parties from Northern Ireland and vice versa.

Northern Ireland (V932): Please notice that the documentation for Northern Ireland is not clear, especially in the cases of "Sinn Féin" (SF) and the "Social Democratic and Labour Party" (SDLP). The original TNS code sheet documents different (region specific) coding for Great Britain and Northern Ireland. Present coding in the archive dataset is guided by the UK questionnaire with common coding for Great Britain and Northern Ireland, which comes closer to the integrated variables in the original dataset. Hereby the relative frequencies for both parties, SF and SDLP, do not correspond to their election results in the period between 2004 and 2009 (fieldwork 3-5 2008), but rather tend to be inversed for D53, D54 and D2.

Last trend modified: EB44.1, D.5

v952 - D2 PARTY ATTACHMENT - WHICH PARTY - FRANCE

D.2

ASK D.2 ONLY TO EU27 - OTHERS GO TO D.7

To which of the following political parties do you feel the closest to or the least furthest from?

(SHOW CARD - READ OUT - ONE ANSWER ONLY)

D.2_FR

Party attachment (national): France

- 100 PCF - Parti Communiste Français (Communist Party) (10)
- 101 Lutte Ouvrière (d'Arlette Laguiller) (Workers' Struggle by Arlette Laguiller) (5)
- 102 L.C.R -Ligue communiste révolutionnaire (d'Olivier Besancenot) (Revolutionary Communist League) (5)
- 200 PS - Liste du Parti Socialiste (Socialist Party) (20)
- 300 PRG - Parti Radical de gauche (Radical Party of the Left) (30)
- 304 MoDem - Le MoDem (Mouvement démocrate de François Bayrou) (Democratic Movement by François Bayrou) (40)
- 403 UMP - Union pour un Mouvement Populaire (Union for a Popular Movement) (62)
- 506 MPF - Mouvement pour la France (de Philippe de Villiers) (Movement for France (Philippe de Villiers)) (69)
- 600 FN - Front National (de Jean-Marie Le Pen) (National Front by Jean-Marie Le Pen) (80)
- 604 MNR - Mouvement National Republicain (de Bruno Mégret) (National Republican Movement by Bruno Mégret) (81) (not mentioned)
- 801 Les Verts (The Greens) (50)
- 804 Un autre mouvement écologiste (Génération-écologie, Mouvement Écologiste Indépendant) - Other ecological movement (Ecology Generation, Independent Ecological Movement)
- 990 Other (SPONTANEOUS)
- 995 None (SPONTANEOUS)
- 998 DK
- 999 Inap. not FR (not coded 1 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

Last trend modified: EB44.2bis, D.2

951 UKIP - UK Independence Party (70)
990 Other (SPONTANEOUS)
995 None (SPONTANEOUS)
998 DK
999 Inap. not GB-GBN (not coded 9 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

Only one national field questionnaire is provided for the United Kingdom, including equally parties from Great Britain and Northern Ireland. In some cases respondents from Great Britain mention political parties from Northern Ireland and vice versa. Because of conflicting standard codes, the Northern Irish "Democratic Unionist Party" (DUP) is coded '710' for respondents from Great Britain, while the standard code for Northern Ireland is '701'.

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

990 Other (SPONTANEOUS)
995 None (SPONTANEOUS)
998 DK
999 Inap. not GB-NIR (not coded 10 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

Only one national field questionnaire is provided for the United Kingdom, including equally parties from Great Britain and Northern Ireland. In some cases respondents from Great Britain mention political parties from Northern Ireland and vice versa. The "Scottish Nationalist Party" (SNP) is coded '711' for respondents from Northern Ireland, while the standard code for Great Britain is '700'.

Please notice that the documentation for Northern Ireland is not clear, especially in the cases of “Sinn Fein” (SF) and the “Social Democratic and Labour Party” (SDLP). The original TNS code sheet documents different (region specific) coding for Great Britain and Northern Ireland. Present coding in the archive dataset is guided by the UK questionnaire with common coding for Great Britain and Northern Ireland, which comes closer to the integrated variables in the original dataset. Hereby the relative frequencies for both parties, SF and SDLP, do not correspond to their election results in the period between 2004 and 2009 (fieldwork 3-5 2008), but rather tend to be inversed for D53, D54 and D2.

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

v964 - D2 PARTY ATTACHMENT - WHICH PARTY - PORTUGAL

D.2

ASK D.2 ONLY TO EU27 - OTHERS GO TO D.7

To which of the following political parties do you feel the closest to or the least furthest from?

(SHOW CARD - READ OUT - ONE ANSWER ONLY)

D.2_PT

Party attachment (national): Portugal

- 9 MPT - Partido da Terra (Earth Party) (90)
- 13 PH - Partido Humanista (The Humanist Party) (not mentioned)
- 100 CDU (PCP-PEV) - Coligação Democrática Unitária (Partido Comunista Português-Partido Ecologista "Os Verdes") (Democratic Unity Coalition (Portuguese Communist Party-Ecologist Party "The Greens")) (10)
- 101 PCP - Partido Comunista Português (Portuguese Communist Party)
- 105 BE - Bloco de Esquerda (Left Bloc) (11)
- 154 PCTP/MRPP - Partido Comunista dos Trabalhadores Portugueses (Communist Party of Portuguese Workers) (17)
- 155 PSR - Partido Socialista Revolucionário (Revolutionary Socialist Party) (16) (not mentioned)
- 200 PS - Partido Socialista Portuguesa (Socialist Party) (20)
- 201 CDS-PP -Centro Democrático e Social / Partido Popular (The Democratic and Social Centre - People's Party) (60)
- 300 PPD/PSD - Partido Social Democrata (Social Democratic Party) (30)
- 600 PPM - Partido Popular Monárquico (People's Monarchist Party) (81)
- 601 PNR - Partido Nacional Renovador (The National Renovator Party) (82) (not mentioned)
- 712 PDA - Partido Democrático do Atlântico (The Democratic Party of the Atlantic) (90) (not mentioned)
- 800 PEV - Partido Ecologista "Os Verdes" (Ecologist Party "The Greens") (not mentioned)
- 950 PND - Partida da Nova Democracia (New Democracy Party) (not mentioned)
- 990 Other (SPONTANEOUS)
- 995 None (SPONTANEOUS)
- 998 DK
- 999 Inap. not PT (not coded 13 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

Last trend modified: EB44.2bis, D.2

- 900 ERL - Eestimaa Rahvaliid (People's Union of Estonia)
- 990 Other (SPONTANEOUS)
- 995 None (SPONTANEOUS)
- 998 DK
- 999 Inap. not EE (not coded 21 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

Note:

At the time of data processing no official reports were available for verifying the results of questions D.53, D.54 and D.2.

v978 - D2 PARTY ATTACHMENT - WHICH PARTY - BULGARIA

D.2

ASK D.2 ONLY TO EU27 - OTHERS GO TO D.7

To which of the following political parties do you feel the closest to or the least furthest from?

(SHOW CARD - READ OUT - ONE ANSWER ONLY)

D.2_BG

Party attachment (national): Bulgaria

- 200 BSP - Bulgarska sotsialisticheska partiya (Bulgarian Socialist Party)
- 300 NDSV - Nacionalno dvizhenie za stabilnost i vǎzhod (National Movement for Stability and Progress)
- 301 Novoto Vreme (Emil Koshlukov) (New Time Party)
- 400 SDS - Sayuz na demokratichnite sili (Union of Democratic Forces)
- 500 GERB - Grazhdani za evropeysko razvitie na Balgariya (Citizens for European Development of Bulgaria)
- 503 RZS - Red, zakonnost i spravedlivost (January Janev and D. Markov) (Order, Lawfulness & Justice)
- 504 DSB - Demokrati za Silna Balgariya (Democrats for a Strong Bulgaria)
- 505 SSD - Sajuz na svobodnite demokrati (v. Sofiyanski) (The Union of Free Democrats) (not mentioned)
- 600 ATAKA - Natsionalen Sayuz Ataka (National Union Attack)
- 601 Dvizhenie Gergyovden (Luben Dilov Jr.) (St. George's Day Movement)
- 700 DPS - Dvizhenie za prava i svobodi (Movement for Rights and Freedoms)
- 701 Euroroma (Tsvetelin Kanchev)
- 990 Other (SPONTANEOUS)
- 995 None (SPONTANEOUS)
- 998 DK
- 999 Inap. not BG (not coded 29 in V6)

Derivation:

Starting with EB69.2 the coding of this variable is basically standardized in accordance with the "ZEUS Party Family Code" which was developed for the "Mannheim Eurobarometer Trend File" (GESIS study ZA3521). The standard is based on a three digit coding. The first digit represents the party family and is consistent across countries. The second and third digits identify the individual party within this family and are country-specific (not comparable across countries). The assignment of parties to families is done according to their OVERALL ideological orientations. Nevertheless the consistency of party coding over time is maintained with priority. Former standard party codes as applied for archive dataset editions up to Eurobarometer 56.3 are reported in brackets, if applicable.

The slightly modified ZEUS Party Family Codes are: The ZEUS Party Family codes are: (001-099) Not-assigned; (100-199) Communists; (200-299) Socialists; (300-399) Liberals; (400-499) Christian-Democrats; (500-599) Conservatives; (600-699) Extreme Right / Nationalists; (700-799) Regionalists, Ethnic parties (modified); (800-899) Environmental Parties; (900-949) Agricultural Parties; (950-979) Independent candidates, special issue parties or splinter groups (modified); (980-989) electoral alliances across party family groups (new). Codes 990-999 contain the response "Other party" and various missing value responses. Users may modify these codings or part of these codings in order to suit their needs such as possible alternative ideological party classifications.

- 300 SZDSZ - Szabad Demokraták Szövetsége (Alliance for Free Democrats)
- 400 FIDESZ-KDNP - Fidesz - Magyar Polgári Szövetség / Kereszténydemokrata Néppárt (Hungarian Civic Union / Christian Democratic Peoples' Party)
- 500 MDF - Magyar Demokrata Fórum (Hungarian Democratic Forum)

in Latvia (LV):

- 200 LSDSP - Latvijas Sociāldemokrātiskā Strādnieku partija (Latvian Social Democratic Workers' Party)
- 201 SC - Saskaņas Centrs (The Harmony Centre)
- 400 LPP/LC - Latvijas Pirmās partijas / Partijas „Latvijas Ceļš” (Latvia's First Party / Latvia's Way)
- 500 TP - Tautas Partija (The People's Party)
- 501 JL - Jaunais Laiks (New Era)
- 600 TB/LNNK - „Tēvzemei un Brīvībai”/LNNK (For Fatherland and Freedom)
- 700 PCTVL - Par cilvēka tiesībām vienotā Latvijā (For Human Rights in United Latvia)
- 800 ZZS - Zaļo un Zemnieku Savienība (Union of Greens and Farmers)

in Lithuania (LT):

- 200 LSDP - Lietuvos socialdemokratų partija (Social Democratic Party of Lithuania)
- 300 DP - Darbo partija (Labour Party)
- 303 LS - Liberalų sąjūdis (Liberals' Movement of the Republic of Lithuania)
- 304 NS - Naujoji sąjunga (Socialliberalai) (New Union (Social Liberals))
- 502 TS - Tėvynės sąjunga (Homeland Union)
- 600 TT - Partija Tvarka ir teisingumas (Order and Justice)
- 701 Lietuvos lenkų rinkimų akcija / Akcja Wyborcza Polaków na Litwie (Lithuanian Poles' Electoral Action)
- 900 LVLS - Lietuvos valstiečių liaudininkų sąjunga (Lithuanian Peasant Popular Union)

in Malta (MT):

- 200 MLP - Partit Laburista (Malta Labour Party)

- 400 PN - Partit Nazzjonalista (Nationalist Party)
- 600 AN - Azzjoni Nazzjonali (National Action) (not mentioned)
- 800 AD - Alternattiva Demokratika (Democratic Alternative)

in Poland (PL):

- 200 LiD (SLD, SDPL, PD, UP) - Lewica i Demokraci (Sojusz Lewicy Demokratycznej, Socjaldemokracja Polska, Partia Demokratyczna - demokraci.pl, Unia Pracy) (Left and Democrats (Democratic Left Alliance (SLD), Social Democracy of Poland (SDPL), Democratic Party (PD), Labour Union (UP))
- 400 PO - Platforma Obywatelska Rzeczypospolitej Polskiej (Civic Platform)
- 500 PiS - Prawo i Sprawiedliwość (Law and Justice)
- 600 LPR - Liga Polskich Rodzin (League of Polish Families)
- 900 PSL - Polskie Stronnictwo Ludowe (Polish People's Party)
- 901 SRP - Samoobrona Rzeczypospolitej Polskiej (Self-Defense of the Republic of Poland)

in Slovakia (SK):

- 100 KSS - Komunistická strana Slovenska (Communist Party of Slovakia)
- 200 SMER-SD - Smer - Sociálna demokracia (The Direction - Social Democracy)
- 300 ANO - Aliancia nového občana (Alliance of the New Citizen)
- 400 SDKU-DS - Slovenská demokratická a kresťanská únia - Demokratická strana (The Slovak Democratic and Christian Union - Democratic Party)
- 401 KDH - Kresťansko-demokratické hnutie (Christian Democratic Movement)
- 600 SNS - Slovenská národná strana (Slovak National Party)
- 602 L'S HZDS - Ľudová strana - Hnutie za demokratické Slovensko (People's Party - Movement for a Democratic Slovakia)
- 700 SMK-MPK - Strana maďarskej koalície / Magyar Koalíció Pártja (The Party of the Hungarian Coalition)

in Slovenia (SI):

- 200 SD - Socialni Demokrati (Social Democrats)
- 300 LDS - Liberalna Demokracija Slovenije (Liberal Democracy of Slovenia)
- 301 ZARES - Zares "nova politika" (Party 'For Real' "New Politics")
- 400 N.Si - Nova Slovenija - Krščanska Ljudska Stranka (New Slovenia - Christian People's Party)
- 500 SDS - Slovenska Demokratska Stranka (Slovenian Democratic Party)
- 501 SLS - Slovenska Ljudska Stranka (Slovenian People's Party)
- 600 SNS - Slovenska Nacionalna Stranka (Slovene National Party)
- 601 LIPA (Party Lime Tree)
- 950 DeSUS - Demokracna Stranka Upokojencev Slovenij (Democratic Party of Retired Persons of Slovenia)

in Bulgaria (BG):

- 200 BSP - Bulgarska sotsialisticheska partiya (Bulgarian Socialist Party)
- 300 NDSV - Nacionalno dvizhenie za stabilnost i vzhod (National Movement for Stability and Progress)
- 301 Novoto Vreme (Emil Koshlukov) (New Time Party)
- 400 SDS - Sayuz na demokratichnite sili (Union of Democratic Forces)
- 500 GERB - Grazhdani za evropeysko razvitie na Balgariya (Citizens for European Development of Bulgaria)
- 503 RZS - Red, zakonnost i spravedlivost (January Janev and D. Markov) (Order, Lawfulness & Justice)
- 504 DSB - Demokrati za Silna Balgariya (Democrats for a Strong Bulgaria)
- 505 SSD - Sajuz na svobodnite demokrati (v. Sofiyanski) (The Union of Free Democrats) (not mentioned)
- 600 ATAKA - Natsionalen Sayuz Ataka (National Union Attack)
- 601 Dvizhenie Gergyovden (Luben Dilov Jr.) (St. George's Day Movement)
- 700 DPS - Dvizhenie za prava i svobodi (Movement for Rights and Freedoms)
- 701 Euroroma (Tsvetelin Kanchev)

in Romania (RO):

- 200 PSD - Partidul Social Democrat (Social Democratic Party)
- 300 PNL - Partidul Național Liberal (National Liberal Party)
- 302 PD-L - Partidul Democrat-Liberal (Democratic Liberal Party)
- 400 PNG-CD - Partidul Noua Generație -Creștin Democrat (New Generation - Christian Democratic)
- 401 PNT-CD - Partidul Național Țărănesc-Creștin Democrat (Christian-Democratic National Peasants' Party)
- 500 PC - Partidul Conservator (Conservative Party)
- 502 PIN - Partidul Inițiativa Națională (National Initiative Party)
- 600 PRM - Partidul România Mare (Greater Romania Party)
- 700 UDMR - Uniunea Democrată a Maghiarilor din România (Democratic Union of Hungarians in Romania)

Derivation:

This additional variable merges data for all countries in accordance with former Eurobarometer archive dataset editions.

Note:

See D.2 (V952 to V979) for complete question text and further information.

The Netherlands (V954): Political party "List Pim Fortuyn" is not listed in the field questionnaire but included in the original data set.

Germany (V955): For meaningful results this variable needs to be weighted by W3 WEIGHT GERMANY (V12) or be used for West and East Germany separately.

Great Britain (V960): Only one national field questionnaire is provided for the United Kingdom, including equally parties from Great Britain and Northern Ireland. In some cases respondents from Great Britain mention political parties from Northern Ireland and vice versa. Because of conflicting standard codes, the Northern Irish "Democratic Unionist Party" (DUP) is coded '710' for respondents from Great Britain, while the standard code for Northern Ireland is '701'.

Northern Ireland (V961): Only one national field questionnaire is provided for the United Kingdom, including equally parties from Great Britain and Northern Ireland. In some cases respondents from Great Britain mention political parties from Northern Ireland and vice versa. The "Scottish Nationalist Party" (SNP) is coded '711' for respondents from Northern Ireland, while the standard code for Great Britain is '700'.

Please notice that the documentation for Northern Ireland is not clear, especially in the cases of "Sinn Féin" (SF) and the "Social Democratic and Labour Party" (SDLP). The original TNS code sheet documents different (region specific) coding for Great Britain and Northern Ireland. Present coding in the archive dataset is guided by the UK questionnaire with common coding for Great Britain and Northern Ireland, which comes closer to the integrated variables in the original dataset. Hereby the relative frequencies for both parties, SF and SDLP, do not correspond to their election results in the period between 2004 and 2009 (fieldwork 3-5 2008), but rather tend to be inversed for D53, D54 and D2.

Last trend modified: EB44.2bis, D.2

v981 - C5 EUROPEAN POLITICAL PARTY PREFERENCE

C.5 EUROPEAN PARTY PARLIAMENTARY PREFERENCE INDEX

- 0 Other answers (Did not have the legal age to vote at that time, Did not vote in that election, DK)
- 1 EPP-ED - Group of the European People's Party (Christian Democrats) and European Democrats
- 2 PES - Socialist Group in the European Parliament
- 3 ALDE - Group of the Alliance of Liberals and Democrats for Europe
- 4 GREENS/EFA - Group of the Greens / European Free Alliance
- 5 GUE/NGL - Confederal Group of the European United Left - Nordic Green Left
- 6 ID - Independence/Democracy Group
- 7 UEN - Union for Europe of the Nations Group
- 8 Non-attached
- 9 No clear attribution
- 10 Not represented (other parties)
- 99 Inap. not EU27 (not coded 1 to 30 in V6)

Derivation:

This index is based upon the last vote question D.53A: "Which party did you vote for in the latest European Parliament elections in June 2004?", D.53B: "Which party did you vote for in the latest European Parliament elections in May 2007?" and D.53C: "Which party did you vote for in the latest European Parliament elections in November 2007?".

Answers are grouped according to the affiliation of the representatives of the respective party to a group in the European Parliament after the elections in 2004 and 2007. The variable is constructed by the Archive mapping the country specific variables V894 to V921 to the party group structure of the 6th EU-Parliament period (2004/2007-2009).

Unlike EUROPEAN PARTY PARLIAMENTARY PREFERENCE INDEX variables up to EB56.3, supporters of parties not represented in the 6th EU-Parliament but represented in former election periods are NOT coded as belonging to the European Parliament group their party has previously been affiliated with. Supporters of parties represented in the European Parliament whose MEPs are not affiliated with any group are labelled "Non-attached", supporters of parties not represented in the European Parliament are labelled "Not represented (other parties)". In some cases "No clear attribution" may be possible.

The official website of the EP was used for information on the respective party affiliations (reference date 6th July, 2011):

http://www.europarl.europa.eu/parliament/archive/elections2009/en/hist_results_be_en.html.
