Acknowledgements

Standard & Special Eurobarometer surveys are conducted on behalf of the European Commission, under the responsibility of the Directorate-General Communication and on occasion requested by other departments according to the policy they deal with. From the outset the European Commission is generously granting access to Eurobarometer primary data for re-use in social science research and training.

The integrated original datasets and related materials are delivered by the respective survey research institute in charge of survey implementation and fieldwork co-ordination.

Preparation and documentation of Eurobarometer primary data for long term preservation and usability happen in a cooperative arrangement between the teams at Inter-University Consortium for Political and Social Research (ICPSR) and GESIS Data Archive for the Social Sciences.

Introduction and preliminary remarks

The variable reports of the Standard & Special Eurobarometer survey series offer a comprehensive description of the data on study and variable level. For each Eurobarometer individual variable reports are provided. The reports are structured into five sections: Section one provides the description of the respective Eurobarometer Study, including bibliographic information, abstract, methodological specifications, remarks on weighting and general notes on data preparation. Section two gives an historical overview of the Eurobarometer Survey Series, including the institutional background and the development of geographical and topical coverage. A third section provides general information about the structure of Eurobarometer datasets, documentation standards and variable coding frames. Section four explains the details of the 'Variable Documentation' part in the following section five, which is the documentation of the variables with the complete question texts and answer categories of the master questionnaire and the corresponding archival remarks on data preparation or inconsistencies, if applicable. In addition, this variable report contains frequency counts, by country (sample), for almost all variables. These frequencies are based on weighted data using the adequate post-stratification weight, if applicable and as indicated in each table.

Data access

Primary data for statistical analysis and related documentation (basic bilingual questionnaires, national field questionnaire versions and variable reports) are made available online by GESIS (<http://zacat.gesis.org>), by the Inter-university Consortium for Political and Social Research through the ICPSR membership network, and through all Social Science Data Archives members of the Council of European Social Science Data Archives (CESSDA).

Usage requirement

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about related research activities, users of the data are requested to send to ICPSR or GESIS respectively bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data (surveys and respective variables) were used.

Disclaimer

The original collector of the data, ICPSR, GESIS, and the relevant funding agencies bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

1.2 Content

1.2.1 Abstract

This round of Eurobarometer surveys diverged from the Standard Eurobarometer measures and queried respondents on the following major areas of focus: (1) poverty and social exclusion, (2) social services, (3) climate change, and (4) the national economic situation and statistics. For the first major focus, poverty and social exclusion, respondents were queried about their own definition of poverty, the extent of poverty in their area, trends in the growth or decline of poverty in their area and in the world, social and personal causes of poverty and homelessness, and negative effects of poverty. Questions also included the risk of poverty for themselves and others, the importance of governmental wealth redistribution, social tension between groups, trust in individual people, trust in and reliability of institutions in fighting poverty, minimal acceptable living standards, and the level of homelessness in their area. In addition, respondents were queried on their ability to keep their job, the relationship between their job and their family, their own personal aid to help the poor, access to financial services, the respondents' satisfaction with life, and the respondents' own living conditions and income. For the second major focus, social services, respondents were asked about such services as long term care, childcare, public employment, social housing, and social assistance. Questions focused on how much they or others around them use social services, the quality and affordability of social services, preferences for elderly care and childcare, the prioritization of group assistance, and the financing of social services. For the third major focus, climate change, respondents were asked about the seriousness of climate change, governmental attempts to fight climate change, personal actions taken to fight climate change, and the relationship between environmental protection and economic growth. Finally, for the fourth major focus, the national economic situation and statistics, respondents were asked to estimate their country's official growth rate, inflation rate, and unemployment rate, and were asked to give their opinions on the importance and trustworthiness of economic statistics. Respondents were also queried on the employment and economic situations in their country. Demographic and other background information includes left-right political placement, occupation, age, gender, marital status, age at completion of full-time education, household composition, ownership of a fixed or a mobile telephone and other durable goods, internet usage, financial situation, level in society, minority group affiliation, region of residence, type and size of locality, and language of interview.

1.3 Universe

In all, Eurobarometer 72.1 interviewed 26.719 citizens in the 27 countries of the European Union after the 2004/2007 enlargement (i.e. including the Accession Countries Romania and Bulgaria). All respondents were residents in the respective country, nationals and non-nationals but EU-citizens, and aged 15 and over. They were supposed to have sufficient command of one of the respective national language(s) to answer the questionnaire. Separate samples were drawn for Northern Ireland and East Germany.

1.4 Sampling procedure

A multi-stage, random (probability) sampling design was used for this Eurobarometer. In the first stage, primary sampling units (PSU) were selected from each of the administrative regional units in every country (Statistical Office of the European Community, EUROSTAT NUTS 2 or equivalent). PSU selection was systematic with probability proportional to population size, from sampling frames stratified by the degree of urbanization. In the next stage, a cluster of starting addresses was selected from each sampled PSU, at random. Further addresses were chosen systematically using standard random route procedures as every Nth address from the initial address. In each household, a respondent was drawn, at random, following the closest birthday rule. No more than one interview was conducted in each household.

The regular sample size (in the sense of completed interviews) is 1000 respondents per country, except the United Kingdom with separate samples for Great Britain (1000) and Northern Ireland (300), Germany with separate samples for the Eastern (500) and the Western part (1000), and Luxembourg, Cyprus (Republic), Malta, and Cyprus (TCC) with 500 interviews each. The effective number of realized interviews in this round is indicated in table 1.

1.5 Fieldwork

From August 28 to September 17, 2009, the TNS Opinion & Social, a consortium created between Taylor Nelson Sofres and EOS Gallup Europe, carried out the fieldwork for this Eurobarometer, at the request of the European Commission, Directorate General Press and Communication, Opinion Polls. TNS Opinion & Social is based at Avenue Herrmann Debroux, 40, 1160 Brussels, Belgium. TNS Opinion & Social coordinates the fieldwork carried out through its network of national institutes:

1.6 Mode of data collection

In all countries, fieldwork was conducted on the basis of detailed and uniform instructions prepared by TNS Opinion Social. Interviews were conducted face-to-face in people's home in the appropriate national language. As far as the data capture is concerned, CAPI (Computer Assisted Personal Interview) was used in those countries where this technique was available.

Equivalent French and English basic questionnaires were developed for this Eurobarometer. These questionnaires were translated into other languages by the firms responsible for interviewing in each country. Backtranslation procedures were applied for controlling semantic equivalence.

1.7 Weighting

In general the Standard and Special Eurobarometer data sets provide for two types of weighting, a post-stratification sample weighting and a population size weighting.

For each sample, i.e. participating country or lower level region, a comparison between the sample composition and a proper universe description is carried out for internal weighting purposes. The universe description is made available by the National Survey Research Institutes and/or by EUROSTAT. On this basis a national weighting procedure, using marginal and intercellular weighting, is applied. As such in all countries, minimum sex, age, region NUTS II (basic regions as defined by the EUROSTAT nomenclature of territorial units for statistics), and size of locality are introduced in the iteration procedure. This **post-stratification weighting** is also referred to as redressment or non-response weighting. A design weight which would adjust for unequal selection probabilities (depending on the household size) is not made available.

For the descriptive analysis of individual samples or their comparison, up to six weighting variables are provided in each data set and documented as such in the variable description. Until Eurobarometer 31 the corresponding

weight variable is labelled NATION WEIGHT II. Weighting factors were then not included continuously for all samples and weighting procedure might have differed from the foregoing description. While weighting usually reproduces the real number of cases for each sample, between Eurobarometer 33 and 54.1 samples can also be adjusted to their predefined standard size of exactly 1000 or 500 cases. This option was applied for the official Eurobarometer reports of the period.

The **population size weighting** factor corrects for the fact that most samples are of almost identical size, no matter how large or small the populations are from which they were drawn. These weights ensure that each country as well as each lower level sample (Great Britain and Northern Ireland, East and West Germany) are represented in proportion to its population size within different groupings, or according to the historical states of European unification (e.g. founder members, new members, Euro zone) in the case of the EUROPEAN WEIGHTS, or for the United Kingdom (WEIGHT SPECIAL UNITED KINGDOM, NATION WEIGHT I until Eurobarometer 31) and for Germany as a whole (WEIGHT SPECIAL GERMANY).

The population size weights all include the post-stratification weighting factors. The EUROPEAN WEIGHTS adjust each sample in proportion to its share in the total population of the European Union (formerly European Community), aged 15 and over. These adjustments are based on population figures published by EUROSTAT in the Regional Statistics Yearbook. In some cases more than 20 European weights are provided for use in analyses of the European Union population as a whole or in accordance with its historical compositions. Between Eurobarometer 33 and 54.1 adjustments to the predefined standard sample size is taken into account. In general all samples which do not belong to the respective group of samples under consideration are excluded from calculation.

The application of post-stratification weights is recommended for descriptive (univariate) analysis. Meaningful descriptive results for groups of countries or for countries with separate samples (United Kingdom and Germany) require population size weighting. Official Eurobarometer reports are always based on weighted data.

Starting with Eurobarometer 66.2 a new additional weight (WEIGHT EXTRA) is provided which extrapolates the actual universe (population aged 15 or more) for each country or sample. This weight variable integrates all other available weights, but does not reproduce the number of cases in the data set, but the respective actual population size.

As needed, OVERSAMPLES (see chapter 2.4, table 4) are weighted separately as documented in the respective study and weight variable description. In some surveys special weights are made available for application with selected variables on a specific topic, e.g. for the descriptive analysis of variables regarding e-communication equipment on HOUSEHOLD level.

Eurobarometer 72.1 provides three (post-stratification) NATION WEIGHTS: W1 (WEIGHT RESULT FROM TARGET) for separate analysis or comparison of individual samples (countries or regions on sub-national level), W4 (WEIGHT SPECIAL UNITED KINGDOM) which in addition adjusts the British and the Northern Irish samples to their respective proportions in the United Kingdom for descriptive analysis of the United Kingdom as a whole, and W3 (WEIGHT SPECIAL GERMANY), which adds the adjustment of the East and West German samples to their respective proportions in the United Germany, to be used for descriptive analysis of the United Germany as a whole. W3 and W4 exclude all other countries from calculation, but include the post-stratification factors for the United Kingdom and Germany respectively.

The EUROPEAN WEIGHTS provide adjustments for each (national) sample in proportion to its share in the total population aged 15 and over, of the European Union, within groups of member countries, of accession or

candidate countries, and of Euro zone countries, representing different historical states of European integration (e.g. EU6 = six founder members) . All post-stratification factors are included.

Table 2: Overview of population size weights

European Weights in Eurobarometer 72.1	Function
W5 to W9, W11, W14, W22	grouping EU member countries
W10, W13, W24	grouping new member countries
W15, W18, W19	grouping candidate/accession countries
W25, W26	grouping member + candidate/accession countries
W81, W82, W84	grouping (non-)Eurozone countries

For more detailed information on the individual weights please see the corresponding variable description.

1.8 Data preparation

The data received by GESIS from TNS Opinion & Social were checked for completeness, missing and duplicate records, for illegal (wild) codes and for (formal) consistency of response patterns and question routing. Errors discovered by these procedures are documented or corrected, as a general rule after consulting related additional documentation (e.g. tabular reports) or the data provider. Indices and other derived summary variables were also checked and corrected as necessary. Complete machine-readable DDI-XML compliant documentation was created for this dataset by GESIS.

GESIS added 'Inappropriate' (INAP) codes to indicate intentionally skipped questions when it could be determined that the appropriate skip instruction in the original questionnaire was adhered to for (almost) every respondent. An additional INAP category was defined whenever a question or group of questions were not surveyed in one or more countries, or if variables refer to country specific items (e.g. regions).

Users should note that answers to multiple-response questions are (originally) represented by a series of binary 'dummy' variables (i.e. variables which take on values of one and zero only), creating separate 'dummy' variables also to explicitly represent 'Don't know', 'No answer/refusal' or other residual responses, such as 'None of the above'. The archive has recoded these residual responses in the case of uncommon minor inconsistencies with respect to and in favour of the series of substantial answers.

GESIS has recoded the missing answers (NA) represented in the original data set by blanks (system missing) to standard values. Their practically complete absence suggests that eventual cases of any not explicitly coded item non-response, might be collapsed with the DK (don't know) category.

Question text and contingency text appearing in the variable description is taken from English language version of the basic (bilingual) questionnaire (master questionnaire). Coding schemes and other documentation are based on the English language version of the basic questionnaire or on the respective SPSS data definition statements as provided by TNS Opinion & Social. In case of any discrepancy between questionnaires, SPSS definitions and data regarding the coding scheme of a variable, the archive, as a general rule, carried out any correction in agreement with the data provider.

If the documentation for country-specific questions or answer categories is provided in another languages than English, the archive documents the original language wording and supplies the English translation in brackets.

Specific information on data preparation, harmonization or regarding inconsistencies is noted on variable level.

1.9 Further remarks

This wave does not include standard EU and trend questions.

The special topical module QA on Poverty and Social Exclusion includes selected questions from the European Quality of Life Survey (EQLS).

2 Eurobarometer Series Description

2.1 Series name

The Standard and Special Eurobarometer (a.k.a. Euro-Barometer) Survey Series

2.2 Series information

The Standard and Special Eurobarometer surveys are the products of a unique program of cross-national and cross-temporal survey research. The effort began in early 1970, when the Commission of the European Communities sponsored simultaneous surveys of the publics of the European Community. In general they are carried out in spring and fall of each year. Three pilot studies were conducted in 1970, 1971 and 1973 under the header of European Communities Studies; "Attitudes towards Europe" (GESIS id ZA0078), the very first comparative survey across European Communities founder members in 1962, can be seen as an early forerunner. The primary data of the first explicit Eurobarometer, conducted in spring 1974, have not been preserved.

2.3 Principal investigators and institutional background

The Eurobarometer program was initially launched and managed until 1986 by Jacques-René Rabier, head of the Commission's press and information directorate and afterwards special advisor to the Commission of the European Communities. He counted with the political support of the European Parliament and the close co-operation of Ronald Inglehart. The political scientist at the University of Michigan was then developing his theory of value change in modern societies and his materialist/post-materialist items would become integral part of the Eurobarometer until the mid nineties. Between 1987 and 1996 the program was continued and considerably enlarged under the direction of Karlheinz Reif, since 1993 together with Anna Melich.

Anna Melich took over the Eurobarometer direction from 1997 to 1999, by then still within the organizational framework of the former Directorate-General X, Public Opinion Surveys and Research Unit. In 2000/2002 Eurobarometer were intermittently conducted in the framework of the DG Education and Culture, Citizens' Centre - Analysis of Public Opinion under the direction of Harald Hartung, and starting with Eurobarometer 54 under DG Press and Communication, initially directed by Thomas Christensen. Since 1999 the organisation and supervision of the surveys were consecutively executed by Rubén Mohedano-Brêthes (until 2002) and Renaud Soufflot de Magny (until 2006), with Antonis Papcostas as head of unit between 2003 and 2010.

The main survey results are regularly published on the European Commission's Public Opinion website in official standard and special topic reports.

2.4 Development of geographical and population coverage

In all European Union (formerly "European Communities") member countries Standard Eurobarometer samples were initially drawn among the national population, aged 15 and over. Starting with Eurobarometer 41.1 the target population is the population of any nationality of an European Union member country, aged 15 years and over, resident in any of the Member States. For test purposes Eurobarometer 41.0 included a non-national European Union citizens oversample.

Eurobarometer regularly include all member countries, starting with the six founder members and in accordance with the subsequent enlargement process. Norway has been in-officially included in selected waves between 1989 (EB34) and 1996 (EB46), Finland started before the actual enlargement in 1993 (EB39.0), and a few Swiss Eurobarometer were run in parallel to selected waves or topics starting in 1999 (EB51.1) in Switzerland. Candidate Countries (CC) and Accession Countries (AC) for the Eastern enlargement process were first surveyed in the Candidate Countries Eurobarometer series (2001-2004) and then all included in the standard series, even before accession as in the cases of Turkey or Macedonia.

Additional samples are drawn for Great Britain and Northern Ireland almost from the start, in Germany (East and West) after the re-unification in 1989, and in Cyprus for the Turkish Cypriote Community (Northern Cyprus) since 2004 for selected standard and topical waves.

The regular standard sample size (in the sense of completed interviews) in Eurobarometer surveys is 1000 respondents per country, except small countries like Luxembourg or Malta. The 44.2bis MEGA-survey increased the standard sample up to 6000 respondents (for the largest countries) in order to achieve more confidence for analysis on sub-national level.

Oversamples have been drawn intermittently if required by the topic, i.e. to ensure that there are enough members of the relevant population subgroup to report sufficiently reliable estimates. Intentionally more people are selected from the respective group than would typically be done if everyone in the sample had an equal chance of being selected.

Table 4: Oversamples for special topic Eurobarometer

Topic	(Over-)Sample	Eurobarometer Survey
Young Europeans	Youth aged 15-24	17, 28.1, 34.2, 47.2OVR, 55.1OVR
Elderly Europeans	Elderly aged 60+	37.2
Consumer Behaviour	Responsible for shopping	41.0
Unemployment	Unemployed	44.3OVR
Working Conditions	Professionally active	37.0+1, 39.0+1
Drug Abuse	Youth aged 15-24	43.0+1, 57.2OVR
Education Issues	Youth aged 15-24	44.0 / 44.1 (data not integrated)

2.5 Standard question program and special topics

Standard Eurobarometer surveys were designed to provide a regular monitoring of the social and political attitudes among the European publics, to obtain regular readings of support for European integration, public awareness of and attitudes toward European unification, the institutions of the European Community / European Union, and its policies in complementary fashion. Attitudes toward the organization and role of the European Parliament and electoral behavior became a major topic in pre- and post- European Elections times. The standard program was complemented by measures of general socio-political orientations, of subjective satisfaction and the perceived quality of life, or of cultural, national and European identities.

Intermittently Standard Eurobarometer have investigated SPECIAL TOPICS, such as agriculture, biotechnology, energy, environment, family planning, gender roles, health related issues, immigration, poverty and social exclusion, regional identity, science and technology, information society, working conditions, urban traffic, knowledge of languages etc. In the case of some supplementary studies, special youth and elderly samples have been drawn (see table 4).

Starting with Eurobarometer 34 (1990) additional supplementary surveys on special issues have been conducted under each main wave number, identified by dot-separated sub-numbers for each individual survey. Usually only one survey per main wave includes the standard and trend module with focus on European integration issues. The following list (table 5) identifies the surveys containing the standard module and with results reported in the corresponding official standard report, or which at least include a subset of standard indicators, or with focus on European integration in a special topic context (e.g. "The future of Europe" in Eurobarometer 65.1).

Table 5: Overview of Eurobarometer surveys with standard EU and trend question modules

Further and regularly updated information on the Eurobarometer survey series is provided through the GESIS Eurobarometer Data Service micro-site: <http://www.gesis.org/eurobarometer>

3 Dataset structure and standards

Standard and Special Eurobarometer are processed and documented by the Inter-university Consortium for Political and Social Research (ICPSR) and by the GESIS Data Archive department in accordance with agreed standards, which may in some details diverge from the usual ICPSR or GESIS archive standards. In addition and as long as reasonable it was adhered to standards once established for the Eurobarometer series in the course of the years.

3.1 Dataset structure

In general the variable structure of the analysis dataset is aligned to the basic bilingual questionnaire, preceded by a set of technical variables. These comprise the archive identification variables (archive study and version id), the survey identification variables (wave and unique respondent id), and several standard NATION variables identifying the different samples (countries or regions) and relevant groups of samples in the dataset with the corresponding WEIGHT variables provided by the fieldwork institutes (see 1.7). A special alphanumeric NATION variable is provided based on the ISO 3166 country code standard for the purpose of breaking down variables by sample in terms of clearly summarized cross-tabulations.

The questionnaire variables usually consist of three types, the substantial questions (Q), the Eurobarometer standard demographics (D) and the interview protocol variables (P). The dataset is concluded by constructed index variables (C), usually as provided by the fieldwork institute, by a questionnaire SPLIT variable if applicable, and by further original identification variables.

Variable names consist of the standard prefix 'V' and the consecutive variable number, except ISOCNTRY and VERSION variables if subsequently added to older datasets. Variable labels are standardized in the sense that they provide keywords based on the question text and that these keywords are applied consistently if questions or question items are repeated over time (trend variables). Variable label may include abbreviations if required, e.g. limitations regarding the length of variable labels in older versions of statistical analysis software. Starting with Eurobarometer 33 the variable labels include the respective question number as a reference to the basic bilingual questionnaire.

3.2 Coding frames

By general rule, the variables adopt the coding frame as specified in the basic bilingual questionnaire, except multiple response questions (see 1.8), questions with country specific answer categories and missing values.

3.2.1 Country specific answer categories

Eurobarometer include some questions (variables) with country specific answer categories like INCOME, SIZE OF COMMUNITY, REGION or variables related to VOTING BEHAVIOUR with reference to POLITICAL PARTIES. Until Eurobarometer 48 only one integrated variable is supplied with each category representing country specific meanings (e.g. geographic regions) which are not documented within the analysis dataset by means of value labels, but only in the extended variable description in the variable report. Starting with Eurobarometer 49 the integrated variables are retained but complemented by completely labeled country specific variables. The country specific coding schemes and categories are maintained as a standard over time as long as the category schemes

provided in the questionnaire are remain comparable.

Special attention is given to the coding of POLITICAL PARTIES in voting behavior variables such as VOTE INTENTION or LAST VOTE based on a standard coding scheme, originally developed for the Eurobarometer by Ronald Inglehart.

Starting with Euro-Barometer 2 the coding of this variable has been standardized following an approximate ordering of each country's political parties along a "left" to "right" continuum in the first digit of the codes. Parties coded 01-39 are generally considered on the "left", those coded 40-49 in the "centre", and those coded 60-89 on the "right" of the political spectrum. Parties coded 50-59 cannot be readily located in the traditional meaning of "left" and "right". The second digit of the codes is not significant to the "left-right" ordering. Codes 90-99 contain the response "other party" and various missing data responses. Major "party families" like the Social Democrats or Conservatives have been assigned identical values across countries, if possible.

From Eurobarometer 69.2 onwards, the "party family" harmonization approach has been sharpened following and updating the coding scheme developed by ZEUS for the Mannheim Eurobarometer Trend File. This ZEUS Code of Party Families is country specific, i.e. the categories have different meanings for different countries. It has three digits: The first represents the party family, the second and third identify an individual party in this family. Individual parties are coded consistently over time. The assignment of parties to families is done according to their overall ideological orientations.

Table 6: ZEUS Party Family Code (slightly modified)

Category		Party Family
0	(001-099)	not affiliated / electoral alliances across "families"
1	(100-199)	Communists
2	(200-299)	Socialists
3	(300-399)	Liberals
4	(400-499)	Christian Democrats
5	(500-599)	Conservatives
6	(600-699)	Extreme Rights / Nationalists
7	(700-799)	Regionalists / Ethnic
8	(800-899)	Environmental parties
9	(900-949)	Agricultural parties
9	(950-989)	other special issue parties (e.g. Eurosceptics) and independents
	990	other (spontaneous)
	994	not voting age
	995	empty ballot (blank) or invalid vote
	996	not voted / would not vote
	997	Refused
	998	DK / DK+NA if NA not coded separately
	999	INAP (inappropriate)

If available, the former standard category used up to Eurobarometer 61 is always referenced in the variable description. Due to general changes in party systems and to the ideological development of individual political

parties, the assignment of parties to party families cannot claim general validity. Users may modify these codings or part of these codings in order to suit their specific needs.

3.2.2 Missing values

In general missing value codes are defined in accordance with the standard once established for the Eurobarometer series, in particular the default use of whatever value supplied by the basic questionnaire for DK ("don't know") responses, unless a standard coding scheme is applied for demographic or protocol variables. The value 0 is applied for NA (i.e. "not ascertained" resp. "no answer") and the value 9 (99, 999, ...) for INAP (i.e. "inappropriate" resp. "not applicable"). If one of these values falls into the valid range of codes, the missing values are shifted to the next available missing value code or "level", e.g. if 0 is used in a dichotomous variable (NOT MENTIONED), value 9 is used for NA, respectively value 8 if value 9 is already used for INAP. If necessary the corresponding two- or more digit codes are used (99, 999, 98, 998 ...). Recently separate missing values are coded for INAP depending on whether the respondent was not asked a question due to questionnaire routing (filter non-response) or whether the question was not provided for in the country's field questionnaire. Other missing values (e.g. REFUSAL) are coded with the in each case next available code (e.g. 7, 97, 997, ...). In the analysis data set these codes are by default declared and treated as USER MISSING, but may be modified by the user to suit specific needs.

3.3 International documentation standard

The variable documentation is set up in accordance with the international metadata specifications for the social and behavioural sciences, established by the Data Documentation Initiative <DDI>. The variable reports are based on the XML representation of DDI version 2. The documentation combines the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the basic bilingual (master) questionnaire with the variable description (variable name, values, and labels) of the analysis dataset. General remarks and comments referring to a certain variable are defined as variable notes. Notes can be references to trend (comparability) information, standards applied for coding frames, problems in questionnaire translation, but also references to data problems or other specific characteristics.

4 Explanation of the variable documentation

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. The variable documentation is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with international metadata standards (DDI-Codebook/XML).

In general, the following abbreviations are used to indicate countries or (sub-national) areas. As far as applicable, the ISO 3166-1 alpha-2 country codes have been applied and coded accordingly in the alphanumeric sample identification variable (NATION – ALL SAMPLES ISO 3166).

AT	Austria	HR	Croatia
BE	Belgium	HU	Hungary
BG	Bulgaria	IE	Ireland
CY	Cyprus	IT	Italy
CY-TCC	Turkish Cypriote Community	LT	Lithuania
CZ	Czech Republic	LU	Luxembourg
DE	Germany (-1989)	LV	Latvia
DE-W	Germany West (1990 ff.)	MK	Macedonia (FYROM)
DE-E	Germany East (1990 ff.)	MT	Malta
EE	Estonia	NL	The Netherlands
ES	Spain	PL	Poland
FI	Finland	PT	Portugal
FR	France	RO	Romania
GB	United Kingdom	SE	Sweden
GB-GBN	Great Britain	SI	Slovenia
GB-NIR	Northern Ireland	SK	Slovakia
GR	Greece	TR	Turkey

The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable. Results are usually broken down by country (sample) or represented by frequency counts in the case of country specific variables. In the case of variables with long lists of coded "real" values (e.g. age), results are only presented for the corresponding categorized variable, if available. The content and construction of technical, administrative or other generated variables is described as appropriate.

The frequencies for substantive variables are calculated on the base of weighted data, as indicated with each table and in accordance with the European Commission's official Eurobarometer reports. Typically the sample specific post-stratification (redressment) weight is applied (WEIGHT RESULT FROM TARGET or NATION WEIGHT II). Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

The complete question and answer texts are taken from the English language part of the respective basic bilingual questionnaire (master questionnaire) as provided by the coordinating fieldwork institute.

CROSS-TABULATION: The absolute frequencies of the occurrence of values (<i>absolute values</i>) refer to the number of cases in the weighted dataset as indicated, in this case <i>weighted by V8</i> . The relative frequencies (<i>row percent</i>) refer to the valid cases (<i>n valid sum</i>), i.e. the total number of cases (<i>n sum</i>) reduced by the number of cases defined as missing data (<i>M</i>). For display and place saving reasons excluded countries or areas may be completely dropped from the table.																																																																																																																																																																																																																																																																																																																																																					
FREQUENCY COUNTS: For country specific variables relative frequencies are calculated in- and excluding missing data (<i>M</i>), i.e. <i>percent</i> on the basis of all cases (<i>sum</i>) and <i>valid percent</i> on the basis of the <i>valid cases</i> .																																																																																																																																																																																																																																																																																																																																																					

5 Variable Documentation

Variable, Label

Question Text (English Language)

v1 - ARCHIVE STUDY NUMBER - DISTRIBUTOR

ARCHIVE STUDY NUMBER - DISTRIBUTOR

Study Number of the distributing data archive.

v1

Value	Label	Missing	Count	Percent	Valid Percent
4975			26719	100.0	100.0
	Sum		26719	100.0	100.0
	Valid Cases		26719		

v2 - ARCHIVE STUDY NUMBER - PUBLISHER

ARCHIVE STUDY NUMBER - PUBLISHER

Study number of the data archive which is publishing this data set version.

v2

Value	Label	Missing	Count	Percent	Valid Percent
4975			26719	100.0	100.0
	Sum		26719	100.0	100.0
	Valid Cases		26719		

v3 - GESIS ARCHIVE VERSION

VERSION AND RELEASE DATE OF THE ARCHIVE DATA SET

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

v3

Value	Label	Missing	Count	Percent	Valid Percent
3.0.0 (2012-02-03)			26719	100.0	100.0
	Sum		26719	100.0	100.0
	Valid Cases		26719		

v4 - EUROBAROMETER NUMBER

EUROBAROMETER SURVEY NUMBER

The number identifying the Eurobarometer survey.

721 Eurobarometer 72.1

v4

Value	Label	Missing	Count	Percent	Valid Percent
721	Eurobarometer 72.1		26719	100.0	100.0
	Sum		26719	100.0	100.0
	Valid Cases		26719		

v5 - UNIQUE CASE ID (TNS COUNTRY ID + TNS INTERVIEW ID)

UNIQUE CASE ID (TNS COUNTRY ID + TNS INTERVIEW ID)

This unique respondent identification is composed of the original TNS country code and the original TNS interview number. The first two digits identify the country of interview (01: Belgium; 02: Denmark; 03: West Germany; 04: East Germany; 05: Greece; 06: Spain; 07: Finland; 08: France; 09: Ireland; 10: Italy; 11: Luxembourg; 12: Netherlands; 13: Austria; 14: Portugal; 15: Sweden; 16: Great Britain; 17: Northern Ireland; 18: Cyprus (Republic); 19: Czech Republic; 20: Estonia; 21: Hungary; 22: Latvia; 23: Lithuania; 24: Malta; 25: Poland; 26: Slovakia; 27: Slovenia; 28: Bulgaria; 29: Romania). The remaining digits contain the country-specific questionnaire numbers.

Note:

Actual number is coded.

v6 - NATION - ALL SAMPLES

NATION - ALL SAMPLES

All samples including separate samples for East and West Germany and for Great Britain and Northern Ireland.

- 1 France
- 2 Belgium
- 3 The Netherlands
- 4 Germany West
- 5 Italy
- 6 Luxembourg
- 7 Denmark
- 8 Ireland
- 9 Great Britain
- 10 Northern Ireland
- 11 Greece
- 12 Spain
- 13 Portugal
- 14 Germany East
- 15 Norway (not included)
- 16 Finland
- 17 Sweden
- 18 Austria
- 19 Cyprus (Republic)
- 20 Czech Republic
- 21 Estonia
- 22 Hungary
- 23 Latvia
- 24 Lithuania
- 25 Malta
- 26 Poland
- 27 Slovakia
- 28 Slovenia
- 29 Bulgaria
- 30 Romania

Note:

Use of weighting factor W1 (V8) is optional.

v6

	Sum		26719	100.0	100.0
	Valid Cases		26719		

v7 - NATION - ALL SAMPLES ISO 3166

NATION – ALL SAMPLES ISO 3166

All surveyed countries and regions, i.e. including separate samples for East- / West-Germany, Great Britain / Northern Ireland, and the Turkish Cypriot Community (TCC), are coded in accordance with the ISO 3166-1-alpha-2 country code, if available. ISO 3166-2 is applied for the United Kingdom subdivisions. ISO standard codes are not available for the "historical" East / West subdivision of Germany (DE-E / DE-W) and for the Turkish Cypriot Community in northern Cyprus (CY-TCC), the internationally not recognized "Turkish Republic of Northern Cyprus".

Note:

Use of weighting factor W1 (V8) is optional.

	Valid Cases		26719		

v8 - W1 WEIGHT RESULT FROM TARGET

W1 WEIGHT RESULT FROM TARGET

This POST-STRATIFICATION WEIGHT is based on a comparison for each sample with the respective universe description. As such in all countries, gender, age, region and size of locality are introduced in the iteration procedure carried out by the fieldwork institutes.

British and Northern Irish as well as East and West German samples are weighted separately. The weight reproduces the real number of cases for each country. In terms of its general function it corresponds to former NATION WEIGHT II (until EUROBAROMETER 31).

v9 - NATION - UNITED KINGDOM

NATION - UNITED KINGDOM

Great Britain and Northern Ireland are coded together.

0 Other

1 United Kingdom

Note:

Use of weighting factor W4 (V10) is mandatory.

v10 - W4 WEIGHT UNITED KINGDOM

W4 WEIGHT UNITED KINGDOM

This POPULATION SIZE WEIGHT adjusts the British and the Northern Irish (sub-national) samples to their share in the total population aged 15 and over in the United Kingdom. It must be applied whenever the United Kingdom is to be analyzed as a whole. The post-stratification weighting factors are included for both samples. All other samples are excluded from analysis. In terms of its general function the weight corresponds to former NATION WEIGHT I (until EUROBAROMETER 31).

v11 - NATION - UNITED GERMANY

NATION - UNITED GERMANY

East and West Germany are coded together.

0 Other

1 Germany

Note:

Use of weighting factor W3 (V12) is mandatory.

v26 - W11 WEIGHT EU15

W11 WEIGHT EU15

This POPULATION SIZE WEIGHT adds Austria, Finland and Sweden to the EU12+ countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU15 must be applied whenever these 15 countries as of the 1995 enlargement are to be analyzed altogether as a group.

v27 - NATION GROUP EU NMS 10

NATION GROUP EU NMS 10

NATION GROUP EU NMS 10 refers to the group of the ten new members of the enlargement in 2004.

0 Other

1 EU NMS 10

Note:

Use of weighting factor W13 (V28) is mandatory.

v40 - W82 WEIGHT NON EURO ZONE 2009

W82 WEIGHT NON EURO ZONE 2009

This POPULATION SIZE WEIGHT separates the group of countries (Denmark, United Kingdom, Sweden, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Bulgaria, Romania) which did not introduce the EURO up to January 1, 2009. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT NON EURO ZONE 2009 must be applied whenever these countries are to be analyzed altogether as a group.

v41 - WEX WEIGHT EXTRA POPULATION 15+

WEX WEIGHT EXTRA POPULATION 15+

WEIGHT EXTRA extrapolates the actual universe (population aged 15 or more) for each country (sample), i.e. this weight variable integrates all other available weights, but does not reproduce the number of cases in the data set.

Note:

Data not available.

v42 - Q1 NATIONALITY BELGIUM

Q.1

What is your nationality? Please tell me the country(ies) that applies(y).

(MULTIPLE ANSWERS POSSIBLE)

v71 - D15B OCCUPATION OF RESPONDENT - LAST JOB

D.15B

ASK D.15B ONLY IF NOT DOING ANY PAID WORK CURRENTLY - CODES 1 TO 4 IN D.15A

Did you do any paid work in the past? What was your last occupation?

SELF EMPLOYED

- 1 Farmer
- 2 Fisherman
- 3 Professional (lawyer, medical practitioner, accountant, architect, etc.)
- 4 Owner of a shop, craftsmen, other self-employed person
- 5 Business proprietors, owner (full or partner) of a company

EMPLOYED

- 6 Employed professional (employed doctor, lawyer, accountant, architect)
- 7 General management, director or top management (managing directors, director general, other director)
- 8 Middle management, other management (department head, junior manager, teacher, technician)
- 9 Employed position, working mainly at a desk
- 10 Employed position, not at a desk but travelling (salesmen, driver, etc.)
- 11 Employed position, not at a desk, but in a service job (hospital, restaurant, police, fireman, etc.)
- 12 Supervisor
- 13 Skilled manual worker
- 14 Other (unskilled) manual worker, servant

15 Never did any paid work

99 Inap. currently doing paid work (not coded 1 to 4 in V70)

Note:

In accordance with former waves coding results to be (correctly) shifted compared to the questionnaire.

Last trend: EB71.3, D.15B

v72 - QA1 SATISFACTION LIFE GENERAL (10P-SCALE)

Now, we will talk about poverty, the image you have of it, and what it means to be poor or excluded from our society.

Q.A1

All things considered, how satisfied would you say you are with your life these days? Please use a scale from 1 to 10 where [1] means 'very dissatisfied' and [10] means 'very satisfied'.

(SHOW CARD WITH SCALE - ONE ANSWER ONLY)

- 1 Box 1 - Very dissatisfied
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - Very satisfied
- 11 DK

Note:

Replicates Q.29 in EQLS 2007 (European Quality of Life Survey 2007).

v73 - QA1 SATISFACTION LIFE GENERAL (REC)

Q.A1 Satisfaction with life in general (RECODED)

- 1 Dissatisfied (codes 1 to 4)
- 2 Neither satisfied nor dissatisfied (codes 5 and 6)
- 3 Satisfied (codes 7 to 10)
- 8 DK

Derivation:

This variable collapses answers to this item in Q.A1 into three categories.

Note:

See Q.A1 for complete question text.

v74 - QA2 SATISFACTION FAMILY LIFE (10P-SCALE)

Q.A2

ASK Q.A2 ITEM 3 IF RESPONDENT HAS PAID WORK CODES 5-18 IN D.15A

Could you please tell me on a scale of 1 to 10 how satisfied you are with each of the following items, where '1' means you are "very dissatisfied" and '10' means you are "very satisfied"?

(SHOW CARD WITH SCALE - ONE ANSWER PER LINE - READ OUT)

Q.A2_1 Your family life

- 1 Box 1 - Very dissatisfied
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - Very satisfied
- 11 DK

Note:

Replicates Q.40 in EQLS 2007 (European Quality of Life Survey 2007), order of items changed.

v77 - QA2 SATISFACTION HEALTH (REC)

Q.A2 Satisfaction with items (RECODED)

Q.A2_2 Your health

- 1 Dissatisfied (codes 1 to 4)
- 2 Neither satisfied nor dissatisfied (codes 5 and 6)
- 3 Satisfied (codes 7 to 10)
- 8 DK

Derivation:

This variable collapses answers to this item in Q.A2 into three categories.

Note:

See Q.A2 for complete question text.

v78 - QA2 SATISFACTION JOB (10P-SCALE)

Q.A2

ASK Q.A2 ITEM 3 IF RESPONDENT HAS PAID WORK CODES 5-18 IN D.15A

Could you please tell me on a scale of 1 to 10 how satisfied you are with each of the following items, where '1' means you are "very dissatisfied" and '10' means you are "very satisfied"?

(SHOW CARD WITH SCALE - ONE ANSWER PER LINE - READ OUT)

Q.A2_3 Your job

- 1 Box 1 - Very dissatisfied
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - Very satisfied
- 11 DK
- 99 Inap. no paid work (not coded 5 to 18 in V70)

Note:

Replicates Q.40 in EQLS 2007 (European Quality of Life Survey 2007), order of items changed.

Q.A2 Satisfaction with items (RECODED)

Q.A2_3 Your job

- 1 Dissatisfied (codes 1 to 4)
- 2 Neither satisfied nor dissatisfied (codes 5 and 6)
- 3 Satisfied (codes 7 to 10)
- 8 DK
- 9 Inap. no paid work (not coded 5 to 18 in V70)

Derivation:

This variable collapses answers to this item in Q.A2 into three categories.

Note:

See Q.A2 for complete question text.

v80 - QA2 SATISFACTION LIVING STANDARD (10P-SCALE)

Q.A2

ASK Q.A2 ITEM 3 IF RESPONDENT HAS PAID WORK CODES 5-18 IN D.15A

Could you please tell me on a scale of 1 to 10 how satisfied you are with each of the following items, where '1' means you are "very dissatisfied" and '10' means you are "very satisfied"?

(SHOW CARD WITH SCALE - ONE ANSWER PER LINE - READ OUT)

Q.A2_4 Your present standard of living

- 1 Box 1 - Very dissatisfied
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - Very satisfied
- 11 DK

Note:

Replicates Q.40 in EQLS 2007 (European Quality of Life Survey 2007), order of items changed.

v82 - QA3 POVERTY - DEFINITION

Q.A3

There are different ways of defining when people are poor in (OUR COUNTRY). Which of the following statements would best corresponds to your definition of being poor? People are poor when...

(SHOW CARD – READ OUT – ROTATE – ONE ANSWER ONLY)

- 1 Their resources are so limited that they cannot participate fully in the life of the society they live in
- 2 They have less than (INSERT POVERTY THRESHOLD IN EACH COUNTRY) per month to live on
- 3 They have a very low social status in our society, independently from their resources
- 4 They depend on charity or public subsidies
- 5 They cannot afford the basic goods they need to live (food, shelter, clothes, etc.) (SPONTANEOUS)
- 6 Other (SPONTANEOUS)
- 7 It is impossible to define poverty just by one statement (SPONTANEOUS)
- 8 DK

v90 - QA8 CAUSES OF POVERTY - OPINIONS

Q.A8

Why in your opinion are there people who live in poverty? Here are four opinions: which is closest to yours?

(SHOW CARD – READ OUT – ROTATE – ONE ANSWER ONLY)

- 1 Because they have been unlucky
- 2 Because of laziness and lack willpower
- 3 Because there is much injustice in our society
- 4 Because it's an inevitable part of progress
- 5 None of these (SPONTANEOUS)
- 6 DK

v170 - QA16 GENERAL TRUST IN PEOPLE (10P-SCALE)

Q.A16

Generally speaking, would you say that most people can be trusted, or that you can't be too careful in dealing with people?

Please use a scale from 1 to 10, where [1] means that 'you can't be too careful' and [10] means that 'most people can be trusted'.

(SHOW CARD WITH SCALE - ONE ANSWER ONLY)

- 1 Box 1 - You can't be too careful
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - Most people can be trusted
- 11 DK

Note:

Replicates Q.23 in EQLS 2007 (European Quality of Life Survey 2007).

v171 - QA16 GENERAL TRUST IN PEOPLE (REC)

Q.A16 General trust in people (RECODED)

- 1 Tend to trust (codes 7 to 10)
- 2 Neither trust nor untrust (codes 5 and 6)
- 3 Tend not to trust (codes 1 to 4)
- 8 DK

Derivation:

This variable collapses answers to Q.A16 into three categories.

Note:

See Q.A16 for complete question text.

v173 - QA17 TRUST IN INSTITUTIONS: PARLIAMENT (REC)

Q.A17 Trust in institutions (RECODED)

Q.A17_1 The (NATIONALITY) parliament

- 1 Tend to trust (codes 7 to 10)
- 2 Neither trust nor untrust (codes 5 and 6)
- 3 Tend not to trust (codes 1 to 4)
- 8 DK

Derivation:

This variable collapses answers to this item in Q.A17 into three categories.

Note:

See Q.A17 for complete question text.

v174 - QA17 TRUST IN INSTITUTIONS: GOVERNMENT (10P-SCALE)

Q.A17

Please tell me how much you personally trust each of the following institutions using a scale from 1 to 10 where [1] means 'you do not trust the institution at all' and [10] means 'you trust it completely'.

(SHOW CARD WITH SCALE - ONE ANSWER PER LINE - READ OUT)

Q.A17_2 The (NATIONALITY) Government

- 1 Box 1 - Do not trust at all
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - Trust completely
- 11 DK

Note:

Replicates Q.27 in EQLS 2007 (European Quality of Life Survey 2007).

v264 - QA36 HOUSEHOLD CAN AFFORD: MEAL WITH MEAT

Q.A36

There are some things that many people cannot afford, even if they would like them. For each of the following things on this card, can I just check whether your household can afford it if you want it?

(SHOW CARD - ONE ANSWER PER LINE - READ OUT)

Q.A36_3 A meal with meat, chicken or fish every second day if you wanted it

- 1 Yes, can afford if want
- 2 No, cannot afford it
- 3 DK

Note:

Replicates Q.19 in EQLS 2007 (European Quality of Life Survey 2007).

v276 - QA42 LOWEST HH INCOME TO MAKE ENDS MEET

Q.A42

ASK ALL

In your opinion, what would be the very lowest net monthly income that your household would need in order to have a minimum acceptable standard of living, given the present circumstances and composition of your household? Net income is after tax and social security contributions have been deducted, and after including any social benefits you are entitled to.

(CODE SPONTANEOUS ANSWER – IF "REFUSAL", CODE '9999999998' – IF "DK", CODE '9999999999')

56 56 euros

10000 10000 euros

99997 Refusal

99998 DK

Note:

Original code "9999999998" recoded to "99997".

Original code "9999999999" recoded to "99998".

Actual number is coded.

Last trend: EB67.1, Q.B2

v277 - QA42 LOWEST HH INCOME TO MAKE ENDS MEET (REC)

Q.A42 Lowest net monthly household income for minimum standard of living (RECODED)

- 1 Less than 500 euros
- 2 From 500 to 999 euros
- 3 From 1.000 to 1.499 euros
- 4 From 1.500 to 1.999 euros
- 5 From 2.000 to 2.499 euros
- 6 From 2.500 to 2.999 euros
- 7 3.000 euros and more
- 97 Refusal
- 98 DK

Derivation:

This variable collapses answers to Q.A42 into seven categories.

Note:

See Q.A42 for complete question text.

v278 - QA43 INCOME LEVEL HH - COMPARED TO Q42

Q.A43

DO NOT ASK IF "REFUSAL" OR "DK" IN Q.A42

Is the total net monthly income of your household ... as this figure?

(SHOW CARD - SHOW THE FIGURE – READ OUT – ONE ANSWER ONLY)

- 1 Much higher
- 2 Somewhat higher
- 3 More or less the same
- 4 Somewhat lower
- 5 Much lower
- 6 DK
- 9 Inap. Refusal or DK in Q.A42 (coded 99997 or 99998 in V276)

Note:

Last trend modified: EB71.1, Q.A4

v279 - QA44 HOUSEHOLD SITUATION - POOR/WEALTHY

Q.A44

On this card, please select the letter that would best describe the situation of your household.

(SHOW CARD - ONE ANSWER ONLY)

- 1 Box 1 - E Very poor
- 2 Box 2 - B
- 3 Box 3 - V
- 4 Box 4 - Z
- 5 Box 5 - R
- 6 Box 6 - P
- 7 Box 7 - A
- 8 Box 8 - G
- 9 Box 9 - O
- 10 Box 10 - T Very wealthy
- 97 Refusal
- 98 DK

Note:

Original code "11" recoded to "97".

Original code "12" recoded to "98".

v280 - QA44 HOUSEHOLD SITUATION - POOR/WEALTHY (REC)

Q.A44 Situation of household: poor/wealthy (RECODED)

- 1 Poor (codes 1 to 4)
- 2 Neither poor nor wealthy (codes 5 and 6)
- 3 Rich (codes 7 to 10)
- 7 Refusal
- 8 DK

Derivation:

This variable collapses answers to Q.A44 into three categories.

Note:

See Q.A44 for complete question text.

v305 - QA48AB ELDERLY BEST CARE: DK (QA48A ONLY)

Q.A48AB Best care option for elderly people in total

Q.A48AB_ DK (Q.A48A only)

0 Not mentioned

1 Mentioned

Derivation:

This variable repeats answers to this item in Q.A48A (V296).

Note:

See Q.A48A and Q.A48B for complete question text. Variable repeats answers to category '8' (DK) in Q.A48A (V296), while all other answers to Q.A48A are summarized with Q.A48B (V297) in variables V298 to V304.

v350 - QA54 PARENTS CARE - REASONABLE INCOME SHARE

The following questions are about the financing, organisation and provision of social services of general interest.

Q.A54

In your opinion, approximately what percentage of the total income of one's household is reasonable to pay for the care of one's parents?

(WRITE DOWN – IF "NONE" CODE '000' – IF "REFUSAL" CODE '998' – IF "DK" CODE '999')

0 0 %

100 100 %

997 Refusal

998 DK

Note:

Original code "998" recoded to "997".

Original code "999" recoded to "998".

Actual number is coded.

v351 - QA54 PARENTS CARE - REASONABLE INCOME SHARE (REC)

Q.A54 Reasonable income share for care of parents (RECODED)

- 1 0 %
- 2 From 1 to 19 %
- 3 From 20 to 29 %
- 4 From 30 to 49 %
- 5 50 % and more
- 7 Refusal
- 8 DK

Derivation:

This variable collapses answers to Q.A54 into five categories.

Note:

See Q.A54 for complete question text.

v360 - QA57 PUBLIC SERVICE QUALITY: HEALTH SERVICES (REC)

Q.A57 Rating of public service quality (RECODED)

Q.A57_1 Health services

- 1 Bad (codes 1 to 4)
- 2 Neither bad nor good (codes 5 and 6)
- 3 Good (codes 7 to 10)
- 8 DK

Derivation:

This variable collapses answers to this item in Q.A57 into three categories.

Note:

See Q.A57 for complete question text.

v362 - QA57 PUBLIC SERVICE QUALITY: PENSION SYSTEM (REC)

Q.A57 Rating of public service quality (RECODED)

Q.A57_2 State pension system

- 1 Bad (codes 1 to 4)
- 2 Neither bad nor good (codes 5 and 6)
- 3 Good (codes 7 to 10)
- 8 DK

Derivation:

This variable collapses answers to this item in Q.A57 into three categories.

Note:

See Q.A57 for complete question text.

v363 - QB1A SERIOUS WORLD PROBLEMS - FIRST

Now let's talk about another topic.

Q.B1A

In your opinion, which of the following do you consider to be the most serious problem currently facing the world as a whole?

Firstly?

(SHOW CARD - READ OUT - ONE ANSWER ONLY)

- 1 Climate change
- 2 International terrorism
- 3 Poverty, lack of food and drinking water
- 4 The spread of an infectious disease
- 5 A major global economic downturn
- 6 The proliferation of nuclear weapons
- 7 Armed conflicts
- 8 The increasing world population
- 9 Other (SPONTANEOUS)
- 10 None (SPONTANEOUS)
- 11 DK

Note:

Last trend (no more split): EB71.1, Q.E1A

v364 - QB1B SERIOUS WORLD PROBLEMS: CLIMATE CHANGE

[Q.B1A

In your opinion, which of the following do you consider to be the most serious problem currently facing the world as a whole?

Firstly?]

Q.B1B

DO NOT ASK IF "NONE" OR "DK" IN Q.B1A

Any others?

(SHOW CARD - READ OUT - MAX. 3 ANSWERS)

Q.B1B_1 Climate change

0 Not mentioned

1 Mentioned

9 Inap. None or DK in Q.B1A (not coded 1 to 9 in V363)

Note:

Last trend (no more split): EB71.1, Q.E1B

v378 - QB1AB SERIOUS WORLD PROBLEMS: ECONOM DOWNTURN

Q.B1AB Most serious problem currently facing the world as a whole in total

Q.B1AB_5 A major global economic downturn

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes responses to this item in Q.B1A (V363) and Q.B1B (V364 TO V373).

Note:

See Q.B1A to Q.B1B for complete question text. Variables summarize answers to Q.B1A (V363) and Q.B1B (V364 TO V373), except for categories '10' (None) (V383) and '11' (DK) (V384).

v385 - QB2 CLIMATE CHANGE - PERCEPTION

Q.B2

And how serious a problem do you think climate change is at this moment? Please use a scale from 1 to 10, '1' would mean that it is "not at all a serious problem" and '10' would mean that it is a problem extremely serious".

(SHOW CARD - ONE ANSWER ONLY)

- 1 Box 1 - Not at all a serious problem
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box10 - A problem extremely serious
- 11 DK

v386 - QB2 CLIMATE CHANGE - PERCEPTION (REC)

Q.B2 Perception of climate change as a serious problem (RECODED)

- 1 Not a serious problem (codes 1 to 4)
- 2 A fairly serious problem (codes 5 and 6)
- 3 A very serious problem (codes 7 to 10)
- 8 DK

Derivation:

This variable collapses answers to Q.B2 into three categories.

Note:

See Q.B2 for complete question text.

v394 - QB4 CLIMATE CHANGE: CO2 HAS MARGINAL IMPACT (A)

Q.B4

ASK ITEMS 3 and 6 ONLY TO SPLIT A, ASK ITEMS 4 and 7 ONLY TO SPLIT B

For each of the following statements, please tell me whether you totally agree, tend to agree, tend to disagree or totally disagree.

(SHOW CARD WITH SCALE - ONE ANSWER PER LINE - READ OUT – ROTATE ITEMS 1 TO 7)

(If necessary, explain that CO2 (carbon dioxide) is a gas generated notably in the combustion of fossil fuels, for example by all types of transport that use hydrocarbons and by industrial plants and power generators using fossil)

Q.B4_3 (SPLIT A) Emissions of CO2 (Carbon dioxide) and other greenhouse gases have only a marginal impact on climate change

- 1 Totally agree
- 2 Tend to agree
- 3 Tend to disagree
- 4 Totally disagree
- 5 DK
- 9 Inap. Split ballot B (coded 2 in V555)

v398 - QB4 CLIMATE CHANGE: USE ALTERNATIVE FUELS (B)

Q.B4

ASK ITEMS 3 and 6 ONLY TO SPLIT A, ASK ITEMS 4 and 7 ONLY TO SPLIT B

For each of the following statements, please tell me whether you totally agree, tend to agree, tend to disagree or totally disagree.

(SHOW CARD WITH SCALE - ONE ANSWER PER LINE - READ OUT – ROTATE ITEMS 1 TO 7)

(If necessary, explain that CO₂ (carbon dioxide) is a gas generated notably in the combustion of fossil fuels, for example by all types of transport that use hydrocarbons and by industrial plants and power generators using fossil fuels))

Q.B4_7 (SPLIT B) Alternative fuels should be used to reduce greenhouse gas emissions

- 1 Totally agree
- 2 Tend to agree
- 3 Tend to disagree
- 4 Totally disagree
- 5 DK
- 9 Inap. Split ballot A (coded 1 in V555)

v403 - QB5 CLIMATE CH ACTION: RED ENERGY CONSUMPTION

Q.B5

ASK Q.B5 IF "YOU PERSONALLY HAVE TAKEN ACTIONS AIMED AT HELPING TO FIGHT CLIMATE CHANGE", CODE 1
OR 2 IN Q.B4_8 - OTHERS GO TO Q.B6A

Which of the following actions aimed at fighting climate change have you personally taken?

(SHOW CARD – READ OUT – MULTIPLE ANSWERS POSSIBLE)

Q.B5_4 You are reducing your consumption of energy at home (for example by turning down air conditioning or heating, not leaving appliances on standby, buying energy efficient products such as low-energy light bulbs or appliances)

v409 - QB5 CLIMATE CH ACTION: BUY LOCAL PRODUCTS

Q.B5

ASK Q.B5 IF "YOU PERSONALLY HAVE TAKEN ACTIONS AIMED AT HELPING TO FIGHT CLIMATE CHANGE", CODE 1
OR 2 IN Q.B4_8 - OTHERS GO TO Q.B6A

Which of the following actions aimed at fighting climate change have you personally taken?

(SHOW CARD – READ OUT – MULTIPLE ANSWERS POSSIBLE)

Q.B5_10 You buy seasonal and local products to avoid products that come from far away, and thus contribute to CO2
emissions (because of the transport)

0 Not mentioned

1 Mentioned

9 Inap. No action against fight climate change or DK (not coded 1 or 2 in V399)

v415 - QB7 CLIMATE FRIENDLY ENERGY - PAY MORE

Q.B7

ASK ALL

Personally, how much would you be prepared to pay more for energy produced from sources that emit less greenhouse gases in order to fight the climate change? In average, how much, in percent, would you be ready to pay more?

(CODE THE EXACT VALUE - PLEASE WRITE DOWN NNN - IF "NO", CODE "998" - IF "DK", PLEASE CODE "999")

0 0%

100 100%

998 No

999 DK

Note:

Actual number is coded.

Last trend: EB69.2, Q.E9

v416 - QB7 CLIMATE FRIENDLY ENERGY - PAY MORE (REC)

Q.B7 Willingness to pay more for climate friendly energy (RECODED)

- 1 0 %
- 2 1 - 5 %
- 3 6 - 10 %
- 4 11 - 20 %
- 5 21 - 30 %
- 6 31 - 40 %
- 7 41 - 50 %
- 8 More than 50%
- 9 No
- 98 DK

Derivation:

This variable collapses answers to Q.B7 into eight categories.

Note:

See Q.B7 for complete question text.

v417 - QC1A ECONOMY: GROWTH RATE GDP 2008

Now let's talk about another topic.

Q.C1A

ASK Q.C1A TO SPLIT A – OTHERS GO TO Q.C1B

What was the official growth rate of the economy (measured in terms of Gross Domestic Product) in (OUR COUNTRY) in 2008?

I can tell you that this figure is between -5% and +10%.

(WRITE DOWN – ONE ANSWER ONLY - IF "DK", PLEASE CODE '99999')

-5 -5%

10 10%

99 DK

999 Inap. Split ballot B (coded 2 in V555)

Note:

Original code "99999" recoded to "99".

Actual number is coded.

Question text corrected by the Archive (+10%) according to official reports and national field questionnaires.

Last trend modified: EB67.2, Q.A50A

v418 - QC1A ECONOMY: GROWTH RATE GDP 2008 (REC)

Q.C1A Growth rate of the economy in 2008 (RECODED)

- 1 From -5% to 0%
- 2 From 0.1% to 3%
- 3 From 3.1% to 5%
- 4 From 5.1% to 10%
- 8 DK
- 9 Inap. Split ballot B (coded 2 in V555)

Derivation:

This variable collapses answers to Q.C1A into four categories.

Note:

See Q.C1A for complete question text.

v421 - QC1AB ECONOMY: GROWTH RATE GDP - CORRECT

Q.C1A and Q.C1B Growth rate of the economy in 2008 (Correct answers)

- 1 Wrong answer/DK
- 2 Correct answer

Derivation:

This variable collapses answers to Q.C1A and Q.C1B into two categories.

Note:

See Q.C1A and Q.C1B for complete question texts.

According to official reports correct answers are answers not differing more than 20% from the official growth rate.

v422 - QC1AB ECONOMY: GROWTH RATE GDP 2008

Q.C1A and Q.C1B Growth rate of the economy in 2008 (Summarized)

-5 -5%

10 10%

99 DK

Derivation:

This variable summarizes Q.C1A and Q.C1B.

Note:

See Q.C1A and Q.C1B for complete question texts.

Actual number is coded.

v423 - QC1AB ECONOMY: GROWTH RATE GDP 2008 (REC)

Q.C1A and Q.C1B Summarized growth rate of the economy in 2008 (RECODED)

- 1 From -5% to 0%
- 2 From 0.1% to 3%
- 3 From 3.1% to 5%
- 4 From 5.1% to 10%
- 8 DK

Derivation:

This variable collapses summarized variable V422 into four categories.

Note:

See Q.C1A and Q.C1B for complete question texts.

v424 - QC2 ECONOMY: OFFICIAL INFLATION RATE 2008

Q.C2

TO ALL

What was the official inflation rate, the rate of which consumer prices increased or decreased, in (OUR COUNTRY) in 2008? I can tell you that the exact figure is between -5% and 20%.

(WRITE DOWN – ONE ANSWER ONLY - IF "DK", PLEASE CODE '99999')

-5 -5%

20 20%

99 DK

Note:

Original code "99999" recoded to "99".

Actual number is coded.

Question text corrected by the Archive (+20%) according to official reports and national field questionnaires.

Last trend modified: EB67.2, Q.A52

v425 - QC2 ECONOMY: OFFICIAL INFLATION RATE 2008 (REC)

Q.C2 Official inflation rate in 2008 (RECODED)

- 1 From -5% to 0%
- 2 From 0.1% to 2%
- 3 From 2.1% to 5%
- 4 From 5.1% to 20%
- 8 DK

Derivation:

This variable collapses answers to Q.C2 into four categories.

Note:

See Q.C2 for complete question text.

v428 - QC4 ECONOMY: OFFIC UNEMPLOYMENT RATE 2008

Q.C4

What was the official unemployment rate, the percentage of active people who do not have a job, in (OUR COUNTRY) in 2008?

I can tell you that the exact figure is between 0% and 20%.

(WRITE DOWN – ONE ANSWER ONLY - IF "DK", PLEASE CODE '99999')

0 0%

20 20%

99 DK

Note:

Original code "99999" recoded to "99".

Actual number is coded.

Last trend modified: EB67.2, Q.A54

v429 - QC4 ECONOMY: OFFIC UNEMPLOYMENT RATE 2008 (REC)

Q.C4 Official unemployment rate in 2008 (RECODED)

- 1 From 0% to 5%
- 2 From 5.1% to 8%
- 3 From 8.1% to 10%
- 4 From 10.1% to 20%
- 8 DK

Derivation:

This variable collapses answers to Q.C4 into four categories.

Note:

See Q.C4 for complete question text.

v430 - QC4 ECONOMY: OFFIC UNEMPLOYMENT RATE - CORRECT

Q.C4 Official unemployment rate in 2008 (Correct answers)

- 1 Wrong answer/DK
- 2 Correct answer

Derivation:

This variable collapses answers to Q.C4 into two categories.

Note:

See Q.C4 for complete question text.

According to official reports correct answers are answers not differing more than 20% from the official unemployment rate.

v437 - D7 MARITAL STATUS

DEMOGRAPHICS

D.7

Could you give me the letter which corresponds best to your own current situation?

(SHOW CARD - READ OUT - ONE ANSWER ONLY)

MARRIED OR REMARRIED

- 1 Married or remarried: Living without children
- 2 Married or remarried: Living with the children of this marriage
- 3 Married or remarried: Living with the children of a previous marriage
- 4 Married or remarried: Living with the children of this marriage and of a previous marriage

SINGLE LIVING WITH A PARTNER

- 5 Single living with a partner: Living without children
- 6 Single living with a partner: Living with the children of this union
- 7 Single living with a partner: Living with the children of a previous union
- 8 Single living with a partner: Living with the children of this union and of a previous union

SINGLE

- 9 Single: Living without children
- 10 Single: Living with children

DIVORCED OR SEPARATED

- 11 Divorced or separated: Living without children
- 12 Divorced or separated: Living with children

WIDOW

- 13 Widow: Living without children
- 14 Widow: Living with children

15 Other (SPONTANEOUS)

97 Refusal (SPONTANEOUS)

Note:

Original code "16" recoded to "97".

Original answer text for categories '5, '6' and '7' in the basic bilingual questionnaire is not correct. "Marriage" should be read "marriage/partnership" as documented in the UK field questionnaire.

v438 - D7 MARITAL STATUS (REC)

D.7 Marital Status (RECODED)

- 1 Married or remarried (codes 1 to 4)
- 2 Single living with a partner (codes 5 to 8)
- 3 Single (codes 9 and 10)
- 4 Divorced or separated (codes 11 and 12)
- 5 Widow (codes 13 and 14)
- 6 Other (SPONTANEOUS)
- 7 Refusal (SPONTANEOUS)

Derivation:

This variable collapses answers to D.7 into five categories.

Note:

See D.7 for complete question text.

v439 - D8 AGE EDUCATION

D.8

How old were you when you stopped full-time education?

(IF "STILL STUDYING", CODE '00' - IF "NO EDUCATION" CODE '01' - IF "REFUSAL" CODE '98' - IF "DK" CODE '99')

- 0 Refusal
- 2 2 years
- 66 66 years
- 97 No full-time education
- 98 Still studying
- 99 DK

Note:

Original code "00" recoded to "98".

Original code "01" recoded to "97".

Original code "98" recoded to "0".

Actual number is coded.

Due to a deviant specification in the coding instruction in the Portuguese field questionnaire data for Portugal have been corrected according to the basic questionnaire.

Last trend: EB71.3, D.8

v440 - D8 AGE EDUCATION - RECODED

D.8R Age when finished full-time education - RECODED

- 1 Up to 14 years
- 2 15 years
- 3 16 years
- 4 17 years
- 5 18 years
- 6 19 years
- 7 20 years
- 8 21 years
- 9 22 years and older
- 10 Still studying
- 11 No full-time education
- 97 Refusal
- 98 DK

Note:

See D.8 for complete question text.

Due to a deviant specification in the coding instruction in the Portuguese field questionnaire data for Portugal have been corrected according to the basic questionnaire.

v442 - D11 AGE EXACT

D.11

How old are you?

15 15 years

98 98 years

Note:

Actual number is coded.

Last trend: EB71.3, D.11

v443 - D11 AGE RECODED - FOUR GROUPS

D.11R1 AGE - RECODED IN FOUR GROUPS

- 1 15 - 24 years
- 2 25 - 39 years
- 3 40 - 54 years
- 4 55 years and older

Derivation:

This variable collapses answers to D.11 into four categories.

Note:

See D.11 for complete question text.

v450 - D40C HOUSEHOLD COMPOSITION: AGED 10-14

D.40C

Could you tell me how many children aged 10 to 14 years old live in your household?

(READ OUT - WRITE DOWN)

- 0 None
- 1 One
- 2 Two
- 3 Three
- 4 Four
- 5 Five
- 6 Six
- 7 Seven
- 9 Nine
- 10 Ten
- 11 Eleven

Note:

Last trend: EB71.3, D.40C

v452 - D40 HOUSEHOLD COMPOSITION: SIZE A+B+C

D.40 HOUSEHOLD COMPOSITION: SIZE (A+B+C)

- 1 One
- 2 Two
- 3 Three
- 4 Four
- 5 Five
- 6 Six
- 7 Seven
- 8 Eight
- 9 Nine
- 10 Ten
- 11 Eleven
- 12 Twelve
- 13 Thirteen
- 14 Fourteen
- 15 Fifteen
- 19 Nineteen
- 20 Twenty

Derivation:

This variable summarizes V446, V448 and V450.

Note:

See V446, V448 and V450 for complete question text.

v467 - D61 LEVEL IN SOCIETY - SELF PLACEMENT

D.61

On the following scale, step '1' corresponds to "the lowest level in the society"; step '10' corresponds to "the highest level in the society". Could you tell me on which step you would place yourself?

(SHOW CARD – ONE ANSWER ONLY)

- 1 Box 1 - The lowest level in the society
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - The highest level in the society
- 97 Refusal (SPONTANEOUS)

Note:

Original code "11" recoded to "97".

v470 - D62 INTERNET USE FREQ: SOMEWHERE ELSE

D.62

Could you tell me if...?

(SHOW CARD WITH SCALE – ONE ANSWER PER LINE - READ OUT)

D.62_3 You use the Internet somewhere else (school, university, cyber-café, etc.)

- 1 Everyday/Almost everyday
- 2 Two or three times a week
- 3 About once a week
- 4 Once or twice a month
- 5 Less often
- 6 Never
- 7 No Internet access (SPONTANEOUS)

Note:

Last trend: EB71.3, D.62

v485 - P6 SIZE OF COMMUNITY - UNITED KINGDOM

P.6_GB (Objective) Size of community: United Kingdom

- 1 Rural
- 2 Urban
- 3 Metropolitan
- 99 Inap. not GB (not coded 9 or 10 in V6)

Note:

The original variable integrated data for Northern Ireland (codes 1-2, 6) and Great Britain (codes 3-5). The original categories (value label) were corrected after consultation with TNS OPINION & SOCIAL. In order to facilitate the analysis for the United Kingdom as a whole, identical categories have been combined. For Northern Ireland code 3 ("Metropolitan") has been recoded from code 6 (DK) in accordance with P7 Region I for the United Kingdom (if coded 1 = "Belfast"). In Eurobarometer 62 to 66 "Belfast" is coded as "Urban" together with other communities; former Eurobarometer have different categories for community size in Northern Ireland.

For meaningful results this variable needs to be weighted by W4 WEIGHT UNITED KINGDOM (V10) or be used for Great Britain and Northern Ireland separately.

Last trend: EB71.3, P.6

v485, weighted by v10

Value	Label	Missing	Count	Percent	Valid Percent
1	Rural		221	16.6	16.6
2	Urban		656	49.3	49.3
3	Metropolitan		454	34.1	34.1
