Introduction and preliminary remarks

The data release includes the national data and documentation of the 33 participating countries/regions in European Values Study 1999. To make the data accessible in a user-friendly way, a variable report on every national dataset is provided. The variable reports of EVS 1999 consist of two main parts

- English Variable Report offering a comprehensive description of the data on study and variable level and containing frequency counts for almost all variables.

- Bilingual variable documentation (English/original language) supporting direct comparisons of English master questions with original questions as used in the field questionnaires.

English Variable Report

The report is structured into six sections:

- Section 1 provides brief information on the European Values Study.
- Section 2 provides information on access to data and documentation available.
- Section 3 contains methodological information on origin and content of the data.
- Section 4 refers to the structure of the dataset and standardization efforts made.
- Section 5 provides information on variable documentation and notes added.
- The last section contains the Variable Documentation. It describes variables in the data file in terms of relevant metadata and frequency distribution.

Bilingual variable documentation

The figure below gives an overview of all languages fielded in the EVS 1999 member countries. For each language, a bilingual variable documentation is provided including the original question wording.

Figure 1: Languages fielded in EVS 1999

The blue boxes indicate countries sharing one or more languages, shared languages are marked in red.

Data access

Primary data for statistical analysis and related documentation (English Master Questionnaire, national field questionnaires, and variable reports) are made available online by GESIS (http://gesis.org/data-catalogue/).

Anonymized data

According to data regulations in participating countries, only anonymized data are made available to users. Each national team was responsible for checking their data confidentiality before depositing data.

Citation requirements

Publications based on EVS data should acknowledge this by means of bibliographic citations as listed in the Study Description under item "Citation". To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in the footnotes or in the reference section of publications.

Usage requirement

To provide funding agencies with essential information about the use of EVS data and to facilitate the exchange of information about the EVS, users of EVS data are required to send bibliographic citations and/or electronic copies of each completed report, article, conference paper or thesis abstract using EVS data to the EVS team. Then, these will be included in the EVS repository. For more information, see http://www.europeanvaluesstudy.eu/evs/publications/.

Disclaimer

EVS, GESIS, and the producers bear no responsibility for the use of EVS data, or for interpretations or inferences based on these uses. EVS, GESIS, and the producers accept no liability for indirect, consequential or incidental damages or losses arising from use of the data collection, or from the unavailability of, or break in access to the service for whatever reason.

1 European Values Study 1981-2008

The European Values Study is the most comprehensive research project on human values in Europe. It is a large-scale, cross-national, and longitudinal survey research program on how Europeans think about family, work, religion, politics, and society. Repeated every nine years in an increasing number of countries, the survey provides insights into the ideas, beliefs, preferences, attitudes, values, and opinions of citizens all over Europe.

The research program was initiated by the European Value System Study Group (EVSSG) in the late 1970s and has emerged as a well-established network of social and political scientists aiming at high standards in data creation and processing. From 1981 to 2008, four waves of survey were conducted in European and other countries. These surveys explore value differences, similarities, and value changes.

Survey 1999

For the third EVS wave a new questionnaire was designed building on the experiences made with the first two waves conducted in 1981 and 1990. Administered in 33 countries, several new issues, such as solidarity, social capital, democracy, and work ethics were taken into account. Table 1 gives an overview of countries participating in EVS waves and year of fieldwork.

Guidelines for data processing and documentation[1] on EVS 1999 were provided by the coordinating organisation at Tilburg University.

In order to get standardized information on the survey in the participating countries, the national representatives had to complete a methodological questionnaire. This questionnaire, developed by the EVS methodology group, provides detailed information on the translation of the questionnaire, the sampling procedures, fieldwork, weighting, national codes, the inclusion of optional and country-specific questions, etc.

More information on the 1999 Survey can be found in the Source book of the 1999 European Values Study[2] and the EVS website at www.europeanvaluesstudy.eu/evs/surveys/survey-1999-2000.html.

[2] Loek Halman: The European Values Study: A third wave. Source book of the 1999/2000 European Values Study. EVS, WORC, Tilburg University, 2001 at
http://www.europeanvaluesstudy.eu/evs/surveys/survey-1999-2000/dataanddocumentation/.

2   Access to data and documentation

The data and documentation of the four EVS waves is publicly available on the EVS and GESIS websites.

Data: National dataset, including additional country-specific variables, is provided besides the Integrated Dataset for national rather than multinational use.

Study Description: Study description offers methodological information on origin and content of the data and overviews on dataset versions and errata.

Variable documentation: Variable reports cover the documentation of the national dataset with question texts of the English Master Questionnaire as well as frequency counts for almost all variables. The report is supplemented by bilingual (English/original language) variable documentation for each language fielded in a country.

Questionnaires: Field questionnaires in all languages fielded are downloadable as well.

Access to data and documentation

General study information

The EVS website (www.europeanvaluesstudy.eu) covers comprehensive information on the origin of the project and provides access to all data and documentation available for EVS surveys.

Data and documentation download

Data and documentation can be obtained at the GESIS Data Archive for the Social Sciences in Cologne through their online download facilities GESIS Data Catalogue (http://gesis.org/data-catalogue/) and ZACAT-Online Study Catalogue (http://zacat.gesis.org/).

GESIS Data Catalogue contains study descriptions for all datasets providing information on the origin of data, version history, and errata. It supports direct access to data and documentation for download.
ZACAT provides data and documentation for retrieval purposes and data exploration. It assists users in identifying trend variables of all EVS waves. Furthermore, it enables comparisons of original questions in survey languages of the third and fourth wave.

Data analyses and data downloads are possible after registration.

Online variable information

Online Variable Overview (http://info1.gesis.org/EVS/Variables/) allows for comparisons of trend variables of the four EVS waves 1981, 1990, 1999, and 2008. In addition, comparisons of original question texts across the waves 1999 and 2008 are supported.

Full-text retrieval

Question text retrieval is a facility for word/phrase searches in EVS text documents. It supports full-text searches in the master questionnaire and variable reports on the EVS integrated datasets and national datasets.

Publication

EVS Repository (www.europeanvaluesstudy.eu/evs/publications/) contains direct links to publications based on the data of the European Values Study. A subset of the publications is enhanced by additional information on the data, interview questions, and descriptions of variable construction.

Atlas of European Values "Trends and Traditions at the turn of the Century"

The Atlas of European Values (www.atlasofeuropeanvalues.eu) unlocks the results of the European Values Study project for the general public. It presents values, beliefs, attitudes, and opinions through graphs, charts, and maps.

Secondary education

For secondary education, an interactive website offers courses and modules in different languages to provide a better understanding of European values in the classroom (http://www.europeanvaluesstudy.eu/evs/education.html).

3.2 Study scope

Abstract: Moral, religious, societal, political, work, and family values of Europeans.

Topics

Leisure time: importance of areas of life; feeling of happiness; memberships and honorary activities in clubs, parties, organizations, citizens´ initiatives and occupation organizations; interactions in leisure time; tolerance regarding minorities, those of other beliefs and foreigners; inter-human trust; self-effectiveness (scale); general contentment with life (scale).

Work: importance of selected characteristics of occupational work (scale); personal employment; general work satisfaction (scale); self-determination at work (scale); work ethic (scale); attitude to achievement-based pay and following work instructions without criticism; priority of nationals over foreigners as well as men over women with shortage of jobs; assumed priority of individual or social

reasons for the situation of economic need of individuals; freedom of the unemployed to reject a job offer (scale).

Politics: party preference; attitude to foreign workers in one´s country; fear of the future; assimilation and integration of immigrants; concept of a just society (more welfare state or liberalism, scale); interest in political news in the media; individualism and thinking of the community; interest in politics; political participation; self-assessment on a left-right continuum (scale); self-responsibility or governmental provision (scale); attitude to competition freedom and entrepreneur freedom (scale); satisfaction with democracy; attitude to the current political system of the country and judgment on the political system of the country ten years ago (scale); preference for a democratic political system or for strong leadership of an individual politician (scale); attitude to democracy (scale); loss of national characteristics through unification of Europe.

Religion: individual or general standard for good and evil; current and possibly earlier religious denomination; current frequency of church attendance and at the age of 12; importance of religious celebration at birth, marriage and funeral; self-assessment of religiousness; ability of the religious community in moral questions, with problems in family life, with spiritual needs and current social problems of the country; belief in God, life after death, hell, heaven, sin, telepathy and reincarnation; belief in God or nihilism (scale); importance of God in one´s life (scale); comfort and strength through belief; prayer and meditation; frequency of prayer; possession and belief in lucky charms or talisman (scale); reading and observing horoscopes; attitude to separation of church (religion) and state (scale).

Family and marriage: most important criteria for a successful marriage (scale); attitude to marriage and traditional family structure (scale); attitude to one´s own children (scale); attitude to traditional understanding of one´s role of man and woman in occupation and family (scale); attitude to a traditional or liberal parent-child relation; importance of educational goals; attitude to abortion.

Society: preference for individual freedom or social equality; post-materialism (scale); preferred social development (scale); attitude to technical progress; trust in institutions; observing individual human rights in the country; attitude to environmental protection (scale); closeness to family, neighborhood, the people in the region, countrymen, Europeans and humanity; closeness to older people, the unemployed, foreigners and handicapped as well as readiness to make an effort for these groups; personal reasons for assistance with older people as well as foreigners; identification with the city, region, the nation, Europe and the world; national pride.

Morals and sexuality: moral attitudes (tax evasion, theft, use of drugs, lying, bribe money, corruption, euthanasia, suicide, environmental pollution, alcohol at the wheel; scale); moral attitudes to partnership and sexuality (homosexuality, abortion, divorce, promiscuity; scale); assumed spreading of immoral behavior in the population of the country (scale); attitude to punishment dependent on the situation of culprit or victim (scale).

Demography: sex; year of birth; marital status and living together with a partner; number of children; school education; age at termination of school training; employment; superior function and span of control; company size; occupation (ISCO88) and occupational position; length of unemployment; size of household; ages of children in household; head of household; characteristics of head of household; household income.

Additional country-specific questions were added.

Interviewer rating: social class of respondent; willingness of respondent to cooperate.

Also coded: date of interview.

Universe: adult population of the country 18 years and older (no upper age limit).

3.3   Methodology and processing

Selection method

Representative multi-stage random sample of the adult population 18 years old and older

Mode of data collection

Face-to-face interviews with standardized questionnaire

Number of units: 1000

Number of variables: 361

Fieldwork period

1999-11-01 to 199912-31

Usage regulations

Data and documents are released for academic research and teaching - Access category A.

4 Dataset structure and variable definition

The naming of variables follows several standards differentiated by type of variables. Although variable **names are not harmonized across waves, all standard variables are built in the scheme "xNNN" (e.g.** v130 or o45). Exceptions are constructed variables, country-specific variables, and administrative variables (see section 4.1: Administrative and ID variables).

- Constructed variables are indicated with a respective suffixe (_r).

- Country-specific variables, i.e. variables created for questions which could not be harmonized, or questions the country additionally included in the field questionnaire, are named by the alphanumerical country code (e.g. _fi for Finland according to ISO 3166-1 alpha-2). Their positions in the datasets mirror their positions in the field questionnaires.

Types of variables

- Core variables (vNNN) and optional variables (oNNN) which are part of the integrated dataset and the national dataset

- Country-specific variables which are part of the integrated dataset and the national dataset.

  Example: Variable v90_AT is the original variable for Austria comprising 4 instead of 5 answer categories of the corresponding question in the English Master Questionnaire. It was additionally inserted in the integrated dataset as its recoding was not possible.

- Country-specific variables which are only part of the national dataset.

  Example 1: Variable v304_de is the original variable for Germany. It was recoded according to the master variable v304. To provide also the original information, v304_de is additionally included in the national dataset.

  Example 2: Variable v6a_gb is an 'extra' country-specific question. It is a supplement to a group of questions used in the English Master Questionnaire. The name of the last variable of the respective question group has been used.

- Additional country-specific variables which are only part of the national dataset are indicated **by a preceding 'c_'.**

Missing values

In general, the missing values are standardized across all EVS surveys. For all variables, a set of negative missing values is defined:

- - 1 **don't know**
- - 2 no answer
- - 3 not applicable (missing values which result from filter questions; missing values in administrative variables)
- - 4 **question not asked (i.e. question not included in country's fie**ld questionnaire or not provided for by National Program Director of the EVS member country)
- - 5 other missing (includes: system missing, wild codes, illogic answer-patterns in e.g. filters)

Dummy variables

For questions that allow for multiple responses a dummy variable is created for each answer category. E.g., a question with four answer categories in an item battery has four dummy variables as final data. In general, a value "1" means that the respondent chose the particular category as an answer (mentioned, yes, …). In case of a value "0" the respondent did not choose the particular category as answer (not mentioned, no, …). Dummy variables are also created for "None of these", "Don't know" or other residual responses. Inconsistencies between category 'none of these' and other mentioned items of a battery are flagged by flag variables (see section 4.2.1: Flag variables indicating inconsistencies).

4.1 Administrative and ID variables

Administrative variables are used mainly for identifying datasets and respondents (see Table 2 below). They include different kinds of variables:

- Technical variables for identifying the dataset or cases

- Weighting variables to help adjust samples to the universe

Table 2: Overview of administrative variables

Variable	Variable label
studyno	GESIS Study Number
version	GESIS Archive Version
id_cocas	unified respondent number
caseno	original respondent number
year	survey year
weight	weight
intno	interviewer number
v324	year/month of start-fieldwork
v325	year/month of end-fieldwork

4.1.1 Version of dataset

In order to uniquely identify a dataset, each dataset is assigned a GESIS Study No., a GESIS archive version no., and a Digital Object Identifier (DOI). The DOI name points to the Study Description in the GESIS Data Catalogue including an overview of errata and dataset versions.

Variable "version" includes the GESIS archive version number of a dataset and the corresponding release date. It is composed of a sequence of three numbers (alphanumeric string).

- The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases).

- The minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels).

- The third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

4.1.2   Changes from version 2.0.0 to 3.0.1

National dataset version was increased from 2.0.0 to 3.0.0 by the update of the EVS 1999 integrated dataset, version 3.0.0 (2011-11-20). This version contains additional variables, data and metadata updates, and further improvements to the second version.

After publication of the integrated dataset, some further corrections have been made to the data released as national dataset. According to the character of changes, dataset version has been changed to v.3.0.1 (2012-12-28).

The main changes between national dataset v.2.0.0 and v.3.0.1 are listed in section Errata and Version in the Study Description of the GESIS Data Catalogue (http://gesis.org/data-catalogue/).

4.1.3   Identification variables

Each record in the dataset contains two identification variables:

- Caseno: 'Original respondent number'
- Id_cocas: 'Unified respondent number' consisting of year/country/case_id

4.1.4   Variables with country codes

The overview in Table 3 lists variables for which country identifiers (ISO 3166-1 numeric or alphanumeric) were added to values. Information about the composition of values is given as well.

Table 3:   Variables with country codes ISO 3166-1

Variable	Variable Label	Composition of values (cc=country code)
id_cocas	Unified respondent number	YYYY (year of wave) CCC (ISCO-Code for country) NNNNN (case_id)
v256 v257	which political party would you vote for (Q72) which political party appeals to you most (Q73)	CC- ISO (3 digits)+VALUE (2 digits)
v320	income household respondent (Q110)	CC- ISO (3 digits)+VALUE (2 digits)
v323	region where interview was conducted (Q113)	CC- ISO (3 digits)+VALUE (3 digits)

4.2   Data quality checks

The data of the EVS 1999 national datasets was checked for wild codes, system missing, filter inconsistency, and contradictions between variables of item batteries.

4.2.1   Flag variables indicating inconsistencies

For the most common non-conformed interviewer instructions and illogic answer patterns across national datasets, flag variables were created which mark such non-conformities and leave decisions

on correction up to the researcher. Information about both flag and flagged variables is provided by notes in the Variable Documentation.

Example:

Flagged variable: v69 'why do people live in need: most important (Q11)'
 Note added: Please see flag variable f69 which indicates inconsistencies for variables v69/v70.

 Flag variable f69 '**flag variable:** why do people live in need - most/second important (Q11/Q12)'
 Indicates inconsistencies for the variables v69/v70.
 If most important reason is identical with next important reason.
 if v69=v70 then f69=1
 (0 consistent; 1 inconsistent)

There is one type of non-conformities which was flagged.

Variables: v69 to v70 – f69;

'first/second choice' variables which were flagged in case the value of the variable for the first choice equaled to the value of the variable for the second choice.

Table 4: *Flag variables indicating inconsistencies*

Variable	Label	N	total N	Values	Value Labels	Description
f174	Flag variable: learn children at home (Q49)	974 26	1000	0 1	Limitation follo-wed Limitation ignored	If respondent named more than the allowed 5 qualities. if v164 to v174=1 > 5 then f174=1
f69	Flag variable: why do people live in need - most/second important (Q11/Q12)	981 19	1000	0 1	consistent inconsistent	If most important reason is identical with next important reason. if v69=v70 then f69=1
f86	Flag variable: important in a job: none of these (Q13)	952	1000	0	consistent	
		0	1000	1	inconsistent1	If respondent mentions at least one aspect and "none". if v86=1 and any of v71 to v85=1 then f86=1
		48	1000	2	inconsistent2	If respondent does not mention any aspect and does not mention "none". if v86=0 and all of v71 to v85=0 then f86=2
		0	1000	3	inconsistent3	If respondent does not mention any aspect and "none" is missing. if v86=-5 and all of v71 to v85=0 then f86=3
		0	1000	4	inconsistent4	If respondent mentions at least one aspect and "none" is missing. if v86=-5 and any of v71 to v85=1 then f86=4

4.2.2 Notes on deviating filtering

In case filtering in countries' field questionnaires systematically deviated from filtering in the Master Questionnaire (either by lacking filter or by adding country-specific filter) data were not corrected but marked by variable notes.

In general, two cases of inconsistencies were additionally indicated by notes.
- Respondents who should have been asked questions following filter question but were set to -3 'not applicable' (variables: v103, v104, v295).

- Respondents who should not have been asked questions following the filter questions but have valid codes for these questions (variables: v296, v311, v312).

5   Variable documentation and types of notes added

For the national datasets, two types of variable documentation are available. Beside the present English documentation, bilingual (English/original languages) variable documentation facilitates a comparison of the English master and original question wording as in field questionnaire.

General remarks and comments referring to a certain variable are defined as variable notes. Notes could be references to international standards applied, problems in questionnaire translation, but also references to data problems or specific characteristics. A distinction between two types of variable notes can be made:

- Notes referring to the English documentation of national datasets,

- Notes that refer to original language documentation set up on basis of the field questionnaires.

5.1   Notes in English variable documentation according to Master Questionnaire

- Standardized variables (income, region, parties) containing country identifier (ISO 3166-1) and the given order of country-specific categories in the field questionnaires.

- Standardized variables with reference to international standards (occupation – ISCO88 2, 3, and 4 digits code).

- Country-specific variables additionally added to dataset (e.g. v320_dk, v190_gb, etc.).

- Information on coding of open-ended questions and multiple response questions.

- Information on data processing.

- Reference on deviations between the master and the field questionnaire.

5.2   Notes in the original language documentation of the dataset

- Notes documenting translation problems.

- Standard note added to the original language documentation referring to the recoding and documentation of missing values.

- Notes on harmonized variables with reference to the original country-specific variables.

- Notes on errors in field questionnaires (e.g. typing error).

6   Explanation of the variable documentation

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. It is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with the international metadata specification for the social and behavioral sciences, established by the Data Documentation Initiative (DDI-Codebook/XML).

The documentation combines the variable description (variable name, values, and labels) of the dataset with the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the questionnaire.

The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable. In the case of variables with long lists of coded "real values" (e.g. age), results are only presented for the corresponding categorized variable, if available. The content and construction of technical, administrative, or other generated variables is described as appropriate.

If an adequate weight is provided in the dataset, the frequencies are calculated on the base of weighted data, as indicated with each table. Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

The complete question and answer texts are taken from the English Master Questionnaire as provided by the European Values Study.

Digital Object Identifier (doi): Header with doi linked to the Study Description in the GESIS Data Catalogue.

VARIABLE NAME (serial number from questionnaire or assigned by the archive) and VARIABLE LABEL as defined in the dataset, including question number from questionnaire. The numbers or letters that may appear together with the variable name reflect the item order (multiple item or multiple response questions) or indicate if a question was recoded (R), harmonized, or if asked only in a single country (country abbreviation).

QUESTION NUMBER and full QUESTION TEXT from the questionnaire, including interviewer instructions.

CODE VALUES occurring in the data for this variable and complete ANSWER TEXT from the questionnaire. Code values may differ from the questionnaire specification due to standardization and harmonization.

European Values Study 1999

GESIS Study No. 3776 (v3.0.1), http://dx.doi.org/doi:10.4232/1.11533

v72 - important in a job: pleasant people (Q13B)

Q.13

<Show card 13>

Here are some aspects of a job that people say are important. Please look at them and tell me which ones you personally think are important in a job?

<Code all mentioned>

Q.13B Pleasant people to work with

-5 other missing

-4 question not asked

-3 not applicable

-2 no answer

-1 don't know

0   not mentioned

1   mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 0 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

v72, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
0	not mentioned		566	35.0	35.0
1	mentioned		1049	65.0	65.0
	Sum		1615	100.0	100.0
	Valid Cases		1615		

NOTES delineate additional explanatory text subsuming archive remarks on data processing, deviations between released data in dataset, and other issues relevant for the understanding and application of the variable. Further information refers to the construction principle of indices or other derived variables (not in the example).

FREQUENCY COUNTS: The absolute frequencies of the occurrence of values (count) refer to the number of cases in the dataset, which is not weighted in some countries, in this example weighted by weight. Relative frequencies are calculated including (percent) and excluding (valid percent) missing data (M), i.e. percent on the basis of all cases (sum) and valid percent on the basis of the valid cases.

Variable Documentation

Variable, Label

Question Text (English Language)

studyno - GESIS study number (EVS wave)

GESIS Study Number:

ZA3797

studyno

Value	Label	Missing	Count	Percent	Valid Percent
3797			1000	100.0	100.0
	Sum		1000	100.0	100.0
	Valid Cases		1000		

version - GESIS archive version

GESIS Archive Version:

3.0.1 '2012-12-28'

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

version

Value	Label	Missing	Count	Percent	Valid Percent
3.0.1 (2012-12-28)			1000	100.0	100.0
	Sum		1000	100.0	100.0
	Valid Cases		1000		

id_cocas - unified respondent number

Unified respondent number

Code comprises 12 digits: YYYY (year of wave), CCC (ISO-Code for country), and NNNNN (case number)

caseno - original respondent number

Original respondent number

intno - interviewer number

Interviewer number

year - survey year

Survey year: 1999

year

Value	Label	Missing	Count	Percent	Valid Percent
1999			1000	100.0	100.0
	Sum		1000	100.0	100.0
	Valid Cases		1000		

weight - weight

Weight:

The distribution of population according to age-group, gender, type of settlement and Education-group - as based on the census 1990 and corrected by 01.01.1999 Microcensus - was re-established with the help of an iterative mathematical procedure.

Note:

For detailed information on the sampling procedures, fieldwork, weighting, etc., please see the Source Book of the 1999/2000 European Values Study (Halman: 2001) and the national Variable Report.

v1 - how important in your life: work (Q1A)

Q.1

<Show card 1>

Please say, for each of the following, how important it is in your life.

Q.1A Work

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

1   very important

2   quite important

3   not important

4   not at all important

v1, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	1	0.1	
-1	don't know	M	1	0.1	
1	very important		567	56.7	56.8
2	quite important		318	31.8	31.9
3	not important		78	7.8	7.8
4	not at all important		35	3.5	3.5
	Sum		1000	100.0	100.0
	Valid Cases		998		

v2 - how important in your life: family (Q1B)

Q.1

<Show card 1>

Please say, for each of the following, how important it is in your life.

Q.1B Family

-5   other missing

	Sum		1000	100.0	100.0
	Valid Cases		997		

v7 - how often discuss politics with friends (Q2)

Q.2

When you get together with your friends, would you say you discuss political matters frequently, occasionally or never?

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

1   frequently

2   occasionally

3   never

v7, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	7	0.7	
-1	don't know	M	4	0.4	
1	frequently		100	10.0	10.1
2	occasionally		433	43.3	43.8
3	never		456	45.6	46.1
	Sum		1000	100.0	100.0
	Valid Cases		989		

v8 - environment: giving part of income (Q3A)

Q.3

<Show card 3>

I am now going to read out some statements about the environment. For each one read out, can you tell me whether you agree

strongly, agree, disagree or strongly disagree?

<Read out each statement and code an answer for each>

Q.3A I would give part of my income if I were certain that the money would be used to prevent environmental pollution

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

1   strongly agree

2   agree

3   disagree

4   strongly disagree

v8, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	6	0.6	
-1	don't know	M	23	2.3	
1	strongly agree		121	12.1	12.5
2	agree		378	37.8	39.0
3	disagree		203	20.3	20.9
4	strongly disagree		268	26.8	27.6
	Sum		1000	99.9	100.0
	Valid Cases		971		

v9 - environment: increase taxes to prevent environmental pollution (Q3B)

Q.3

<Show card 3>

I am now going to read out some statements about the environment. For each one read out, can you tell me whether you agree

strongly, agree, disagree or strongly disagree?

<Read out each statement and code an answer for each>

Q.3B I would agree to an increase in taxes if the extra money is used to prevent environmental pollution

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

1   strongly agree

2   agree

3   disagree

4   strongly disagree

v9, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	6	0.6	
-1	don't know	M	31	3.1	
1	strongly agree		74	7.4	7.7
2	agree		248	24.8	25.8
3	disagree		316	31.6	32.8
4	strongly disagree		325	32.5	33.7
	Sum		1000	100.0	100.0
	Valid Cases		963		

v10 - environment: government should reduce environmental pollution (Q3C)

Q.3

<Show card 3>

I am now going to read out some statements about the environment. For each one read out, can you tell me whether you agree

strongly, agree, disagree or strongly disagree?

<Read out each statement and code an answer for each>

Q.3C The Government has to reduce environmental pollution but it should not cost me any money

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

1   strongly agree

2   agree

3   disagree

4   strongly disagree

v10, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	5	0.5	
-1	don't know	M	21	2.1	
1	strongly agree		550	55.0	56.5
2	agree		285	28.5	29.3
3	disagree		96	9.6	9.9
4	strongly disagree		42	4.2	4.3
	Sum		1000	99.9	100.0
	Valid Cases		974		

v11 - taking all things together how happy are you (Q4)

Q.4

<Show card 4>

Taking all things together, would you say you are:

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

1   very happy

2   quite happy

3   not very happy

4   not at all happy

v11, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	5	0.5	
-1	don't know	M	4	0.4	
1	very happy		167	16.7	16.8
2	quite happy		539	53.9	54.3
3	not very happy		220	22.0	22.2
4	not at all happy		66	6.6	6.7
	Sum		1000	100.1	100.0
	Valid Cases		991		

v12 - do you belong to: welfare organisation (Q5a_A)

Q.5a

<Show card 5>

Please look carefully at the following list of voluntary organisations and activities and say ... a) which, if any, do you belong to?

<Code all mentioned under (a)>

Q.5a_A Social welfare services for elderly, handicapped or deprived people

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

0   not mentioned

1   mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 0 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

The Master Questionnaire contains two additional items: 'I don't know' (v28/v46) and 'No answer' (v29/v47). They were first recoded into -1 and -2 for each item of the question battery. For reasons of comparability they have been recoded in a second step into 0 ('not belonging to a voluntary organisation'/'not doing voluntary work for those organisations').

v12, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
0	not mentioned		981	98.1	98.1
1	mentioned		19	1.9	1.9
	Sum		1000	100.0	100.0
	Valid Cases		1000		

v13 - do you belong to: religious organisation Q5a_B)

Q.5a

<Show card 5>

Q.5a

<Show card 5>

Please look carefully at the following list of voluntary organisations and activities and say ... a) which, if any, do you belong to?

<Code all mentioned under (a)>

Q.5a_K Sports or recreation

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

0   not mentioned

1   mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 0 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

The Master Questionnaire contains two additional items: 'I don't know' (v28/v46) and 'No answer' (v29/v47). They were first recoded into -1 and -2 for each item of the question battery. For reasons of comparability they have been recoded in a second step into 0 ('not belonging to a voluntary organisation'/'not doing voluntary work for those organisations').

v22, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
0	not mentioned		962	96.2	96.2
1	mentioned		38	3.8	3.8
	Sum		1000	100.0	100.0
	Valid Cases		1000

v45 - do you work unpaid for: none (Q5b_P)

Q.5b

<Show card 5>

Please look carefully at the following list of voluntary organisations and activities and say ...b) which, if any, are you currently doing

unpaid voluntary work for?

<Code all mentioned under (b)>

Q.5b_P None

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

0   not mentioned

1   mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 0 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

The Master Questionnaire contains two additional items: 'I don't know' (v28/v46) and 'No answer' (v29/v47). They were first recoded into -1 and -2 for each item of the question battery. For reasons of comparability they have been recoded in a second step into 0 ('not belonging to a voluntary organisation'/'not doing voluntary work for those organisations').

v45, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
0	not mentioned		148	14.8	14.8
1	mentioned		852	85.2	85.2
	Sum		1000	100.0	100.0
	Valid Cases		1000		

v48 - how often spend time with friends (Q6A)

Q.6

<Show card 6>

I'm going to ask how often you do certain things. For each activity, would you say you do them every week or nearly every week;

once or twice a month; only a few times a year; or not at all?

Q.6A Spend time with friends

-5 other missing

0   HU: not mentioned

1   HU: mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 0 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

Variables v52_hu to v65_hu are not comparable to the Master Questionnaire variables v52-v65. In the Hungarian field questionnaire each item was read to the respondent, so the respondent had to decide in each case (and did not choose from a list as is the case in the other countries).

v64_hu, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
0	HU: not mentioned		556	55.6	55.6
1	HU: mentioned		444	44.4	44.4
	Sum		1000	100.0	100.0
	Valid Cases		1000		

v65 - don't like as neighbours: gypsies (Q7N)

See v65_HU.

v65_hu - don't like as neighbours: gypsies (Q7N_HU)

Q.7_hu

On this list are various groups of people. Could you please sort out any that you would not like to have as neighbours?

Q.7N_hu Gypsies

6	Hindu		1	0.1	0.2
8	Orthodox		3	0.3	0.5
	Sum		1000	100.0	100.0
	Valid Cases		563		

v103 - did you belong to a religious denomination (Q24a)

Q.24a

Were you ever a member of a religious denomination?

<Interviewer instruction: if respondent is currently a member, please ask: Were you ever a member of another religious

denomination?>

<if "no" - go to Q.25>

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

1   yes

2   no

Different question format: question part "ever member of another religious denomination" has not been implemented in the field

questionnaire.

Due to additional filter on v102, respondents belonging to a religious denomination (v101=1) have not been asked v103, v104.

v103, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-3	not applicable	M	572	57.2	
-2	no answer	M	18	1.8	
1	yes		85	8.5	20.7
2	no		325	32.5	79.3
	Sum		1000	100.0	100.0
	Valid Cases		410		

v104 - which former religious denomination (Q24b_r)

Q.24b

<Show card 24>

Which one?

<NB: PRESENT COUNTRY SPECIFIC LIST! RECODE INTO:>

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

1   Roman Catholic

2   Protestant

3   Free Church/ Non-Conformist/ Evangelical

4   Jew

5   Muslim

6   Hindu

7   Buddhist

8   Orthodox

9   other

Due to the different question structure on v102 and v103, respondents belonging to a religious denomination have not been asked

v104, so that change from one to another denomination has not been captured.

v104, weighted by weight

3	50 and more years		402	40.2	40.3
	Sum		1000	100.0	100.0
	Valid Cases		998		

v293 - having steady relationship (Q86)

Q.86

Whether you are married or not: Do you live in a stable relationship with a partner?

<if "no" - go to 88>

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

1   yes

2   no

v293, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	5	0.5	
-1	don't know	M	0	0.0	
1	yes		693	69.3	69.7
2	no		301	30.1	30.3
	Sum		1000	99.9	100.0
	Valid Cases		995		

v294 - are you legally married to partner (Q87)

Q.87

Are you legally married to this partner?

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

1   yes

2   no

Additional filter on both answer categories in the field questionnaire (v294=1 go to v297; v294=2 go to v296). Empirically only filter on v294=2 has been applied. All respondents with v294=1 have been asked v295.

v294, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-3	not applicable	M	301	30.1	
-2	no answer	M	8	0.8	
1	yes		567	56.7	82.1
2	no		124	12.4	17.9
	Sum		1000	100.0	100.0
	Valid Cases		691		

v295 - did you live with a partner before (Q88)

Q.88

Did you ever live in a stable relationship before, i.e. without being married?

-5 other missing

-4 question not asked

-3 not applicable

-2 no answer

-1 don't know

1 yes

2 no

According to the additional filter on v294 none of the respondents with v294=2 has been asked v295. Filter on v294=1 has been obviously ignored: all respondents with v294=1 have valid answers on v295.

v295, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-3	not applicable	M	124	12.4	
-2	no answer	M	26	2.6	
1	yes		148	14.8	17.4
2	no		702	70.2	82.6
	Sum		1000	100.0	100.0
	Valid Cases		850		

v296 - current legal marital status respondent (Q89)

Q.89

What is your current legal marital status?

<if "divorced" or "never married"- go to Q.91>

-5 other missing

-4 question not asked

-3 not applicable

-2 no answer

-1 don't know

1 married

2 widowed

3 divorced

4 separated

5 never married

6 cohabiting

7 single

Note:

Response categories 6 and 7 were not included in Master Questionnaire but in several national data sets. Thus, for the integrated data set these additional response categories were adopted.

According to the additional filter on v294 none of the respondents with v294=1 should have been asked v296. Filter has been obviously ignored: all respondents with v294=1 have valid cases on v296.

v296, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	1	0.1	
1	married		581	58.1	58.2
2	widowed		121	12.1	12.1

v298 - how many children have you yourself ever had (Q91)

Q.91

How many children, including deceased children, have you yourself ever had?

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

0   no child

1   1 child

2   2 children

3   3 children

4   4 children

5   5 children

6   6 children

7   more than 6 children

v298, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	6	0.6	
0	no child		207	20.7	20.8
1	1 child		229	22.9	23.0
2	2 children		371	37.1	37.3
3	3 children		141	14.1	14.2
4	4 children		28	2.8	2.8
5	5 children		12	1.2	1.2
6	6 children		1	0.1	0.1
7	more than 6 children		5	0.5	0.5
	Sum		1000	100.0	100.0
	Valid Cases		994		

v299 - number of people in household aged 18+ (Q92A)

Q.92

How many people, including yourself, are currently living in your household?

Q.92A Aged 18 and over

-5   other missing

-4   question not asked

-3   not applicable

-2   no answer

-1   don't know

3 respondents with v299=1 (persons, including yourself, aged 18 and over living in household: 1) nonetheless reported to live with their parents (v305=1); none of them did ever marry (v296=5).

v299, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	34	3.4	
1			148	14.8	15.3
2			465	46.5	48.0
3			192	19.2	19.8
4			117	11.7	12.1
5			34	3.4	3.5
6			10	1.0	1.0
7			2	0.2	0.2
	Sum		1000	100.2	100.0
	Valid Cases		966		

v300 - number of people in household aged 13-17 (Q92B)

Q.92

How many people, including yourself, are currently living in your household?

Q.92B Aged between 13 and 17

-5 other missing

v320 - income household respondent (Q110)

Q.110

<Ask all; show income card>

Here is a scale of incomes and we would like to know in what group your household is, counting all wages, salaries, pensions and
other incomes that come in. Just give the letter of the group your household falls into, after taxes and other deductions.
(Incomes in ten categories from 10% lowest to 10% highest income category)
