## Acknowledgements

---

The fieldwork of the European Values Study during the four waves was financially supported by universities and research institutes, national science foundations, charitable trusts and foundations, companies and church organizations in the EVS member countries.

Detailed information on the history of the European Values Study (EVS) is given on the [EVS website](#). For information on the origin and study design of the EVS wave 1999, as well as data and documentation provided, please go to [www.europeanvaluesstudy.eu/evs/surveys/survey-1999-2000.html](http://www.europeanvaluesstudy.eu/evs/surveys/survey-1999-2000.html).

The datasets and related materials were delivered by the European Values Study group at Tilburg University. Preparation and documentation of European Values Study primary data for long term preservation and usability proceed in cooperation between the EVS teams at Tilburg University and GESIS Data Archive for the Social Sciences Cologne.

## Introduction and preliminary remarks

The data release includes the national data and documentation of the 33 participating countries/regions in European Values Study 1999. To make the data accessible in a user-friendly way, a variable report on every national dataset is provided. The variable reports of EVS 1999 consist of two main parts

- English Variable Report offering a comprehensive description of the data on study and variable level and containing frequency counts for almost all variables.
- Bilingual variable documentation (English/original language) supporting direct comparisons of English master questions with original questions as used in the field questionnaires.

### English Variable Report

The report is structured into six sections:

- Section 1 provides brief information on the European Values Study.
- Section 2 provides information on access to data and documentation available.
- Section 3 contains methodological information on origin and content of the data.
- Section 4 refers to the structure of the dataset and standardization efforts made.
- Section 5 provides information on variable documentation and notes added.
- The last section contains the Variable Documentation. It describes variables in the data file in terms of relevant metadata and frequency distribution.

### Bilingual variable documentation

The figure below gives an overview of all languages fielded in the EVS 1999 member countries. For each language, a bilingual variable documentation is provided including the original question wording.

Figure 1: Languages fielded in EVS 1999

Integrated Dataset English Master Questionnaire						
Austria German	Belarus Russian	Belgium Flemish/Dutch French	Bulgaria Bulgarian	Croatia Croatian	Czech Republic Czech	Denmark Danish
Estonia Estonian Russian	Finland Finnish	France French	Germany German	Great Britain English	Greece Greek	Hungary Hungarian
Iceland Icelandic	Ireland English	Italy Italian	Latvia Latvian Russian	Lithuania Lithuanian	Luxembourg Luxembourgish French Portuguese	Malta Maltese
Netherlands Dutch	Northern Ireland English	Poland Polish	Portugal Portuguese	Romania Romanian		Russian Russian
Slovenia Slovenian	Spain Spanish	Sweden Swedish	Slovak Republic Slovak	Turkey Turkish	Ukraine Ukrainian Russian	

The blue boxes indicate countries sharing one or more languages, shared languages are marked in red.

#### Data access

Primary data for statistical analysis and related documentation (English Master Questionnaire, national field questionnaires, and variable reports) are made available online by GESIS (<http://gesis.org/data-catalogue/>).

#### Anonymized data

According to data regulations in participating countries, only anonymized data are made available to users. Each national team was responsible for checking their data confidentiality before depositing data.

#### Citation requirements

Publications based on EVS data should acknowledge this by means of bibliographic citations as listed in the Study Description under item "Citation". To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in the footnotes or in the reference section of publications.

#### Usage requirement

To provide funding agencies with essential information about the use of EVS data and to facilitate the exchange of information about the EVS, users of EVS data are required to send bibliographic citations and/or electronic copies of each completed report, article, conference paper or thesis abstract using EVS data to the EVS team. Then, these will be included in the EVS repository. For more information, see <http://www.europeanvaluesstudy.eu/evs/publications/>.

#### Disclaimer

EVS, GESIS, and the producers bear no responsibility for the use of EVS data, or for interpretations or inferences based on these uses. EVS, GESIS, and the producers accept no liability for indirect, consequential or incidental damages or losses arising from use of the data collection, or from the unavailability of, or break in access to the service for whatever reason.

## 1 European Values Study 1981-2008

The European Values Study is the most comprehensive research project on human values in Europe. It is a large-scale, cross-national, and longitudinal survey research program on how Europeans think about family, work, religion, politics, and society. Repeated every nine years in an increasing number of countries, the survey provides insights into the ideas, beliefs, preferences, attitudes, values, and opinions of citizens all over Europe.

The research program was initiated by the European Value System Study Group (EVSSG) in the late 1970s and has emerged as a well-established network of social and political scientists aiming at high standards in data creation and processing. From 1981 to 2008, four waves of survey were conducted in European and other countries. These surveys explore value differences, similarities, and value changes.

### Survey 1999

For the third EVS wave a new questionnaire was designed building on the experiences made with the first two waves conducted in 1981 and 1990. Administered in 33 countries, several new issues, such as solidarity, social capital, democracy, and work ethics were taken into account. Table 1 gives an overview of countries participating in EVS waves and year of fieldwork.

Guidelines for data processing and documentation<sup>1</sup> on EVS 1999 were provided by the coordinating organisation at Tilburg University.

In order to get standardized information on the survey in the participating countries, the national representatives had to complete a methodological questionnaire. This questionnaire, developed by the EVS methodology group, provides detailed information on the translation of the questionnaire, the sampling procedures, fieldwork, weighting, national codes, the inclusion of optional and country-specific questions, etc.

More information on the 1999 Survey can be found in the Source book of the 1999 European Values Study<sup>2</sup> and the EVS website at [www.europeanvaluesstudy.eu/evs/surveys/survey-1999-2000.html](http://www.europeanvaluesstudy.eu/evs/surveys/survey-1999-2000.html).

---

## 2 Access to data and documentation

---

The data and documentation of the four EVS waves is publicly available on the EVS and GESIS websites.

**Data:** National dataset, including additional country-specific variables, is provided besides the Integrated Dataset for national rather than multinational use.

**Study Description:** Study description offers methodological information on origin and content of the data and overviews on dataset versions and errata.

**Variable documentation:** Variable reports cover the documentation of the national dataset with question texts of the English Master Questionnaire as well as frequency counts for almost all variables. The report is supplemented by bilingual (English/original language) variable documentation for each language fielded in a country.

**Questionnaires:** Field questionnaires in all languages fielded are downloadable as well.

### Access to data and documentation

#### General study information

The EVS website ([www.europeanvaluesstudy.eu](http://www.europeanvaluesstudy.eu)) covers comprehensive information on the origin of the project and provides access to all data and documentation available for EVS surveys.

#### Data and documentation download

Data and documentation can be obtained at the GESIS Data Archive for the Social Sciences in Cologne through their online download facilities GESIS Data Catalogue (<http://gesis.org/data-catalogue/>) and ZACAT-Online Study Catalogue (<http://zocat.gesis.org/>).

**GESIS Data Catalogue** contains study descriptions for all datasets providing information on the origin of data, version history, and errata. It supports direct access to data and documentation for download.

**ZACAT** provides data and documentation for retrieval purposes and data exploration. It assists users in identifying trend variables of all EVS waves. Furthermore, it enables comparisons of original questions in survey languages of the third and fourth wave.

Data analyses and data downloads are possible after registration.

#### Online variable information

Online Variable Overview (<http://info1.gesis.org/EVS/Variables/>) allows for comparisons of trend variables of the four EVS waves 1981, 1990, 1999, and 2008. In addition, comparisons of original question texts across the waves 1999 and 2008 are supported.

#### Full-text retrieval

**Question text retrieval** is a facility for word/phrase searches in EVS text documents. It supports full-text searches in the master questionnaire and variable reports on the EVS integrated datasets and national datasets.

#### Publication

EVS Repository ([www.europeanvaluesstudy.eu/evs/publications/](http://www.europeanvaluesstudy.eu/evs/publications/)) contains direct links to publications based on the data of the European Values Study. A subset of the publications is enhanced by additional information on the data, interview questions, and descriptions of variable construction.

#### Atlas of European Values "Trends and Traditions at the turn of the Century"

The Atlas of European Values ([www.atlasofeuropeanvalues.eu](http://www.atlasofeuropeanvalues.eu)) unlocks the results of the European Values Study project for the general public. It presents values, beliefs, attitudes, and opinions through graphs, charts, and maps.

#### Secondary education

For secondary education, an interactive website offers courses and modules in different languages to provide a better understanding of European values in the classroom (<http://www.europeanvaluesstudy.eu/evs/education.html>).

### 3.2 Study scope

**Abstract:** Moral, religious, societal, political, work, and family values of Europeans.

#### Topics

Leisure time: importance of areas of life; feeling of happiness; memberships and honorary activities in clubs, parties, organizations, citizens' initiatives and occupation organizations; interactions in leisure time; tolerance regarding minorities, those of other beliefs and foreigners; inter-human trust; self-effectiveness (scale); general contentment with life (scale).

Work: importance of selected characteristics of occupational work (scale); personal employment; general work satisfaction (scale); self-determination at work (scale); work ethic (scale); attitude to

achievement-based pay and following work instructions without criticism; priority of nationals over foreigners as well as men over women with shortage of jobs; assumed priority of individual or social reasons for the situation of economic need of individuals; freedom of the unemployed to reject a job offer (scale).

Politics: party preference; attitude to foreign workers in one's country; fear of the future; assimilation and integration of immigrants; concept of a just society (more welfare state or liberalism, scale); interest in political news in the media; individualism and thinking of the community; interest in politics; political participation; self-assessment on a left-right continuum (scale); self-responsibility or governmental provision (scale); attitude to competition freedom and entrepreneur freedom (scale); satisfaction with democracy; attitude to the current political system of the country and judgment on the political system of the country ten years ago (scale); preference for a democratic political system or for strong leadership of an individual politician (scale); attitude to democracy (scale); loss of national characteristics through unification of Europe.

Religion: individual or general standard for good and evil; current and possibly earlier religious denomination; current frequency of church attendance and at the age of 12; importance of religious celebration at birth, marriage and funeral; self-assessment of religiousness; ability of the religious community in moral questions, with problems in family life, with spiritual needs and current social problems of the country; belief in God, life after death, hell, heaven, sin, telepathy and reincarnation; belief in God or nihilism (scale); importance of God in one's life (scale); comfort and strength through belief; prayer and meditation; frequency of prayer; possession and belief in lucky charms or talisman (scale); reading and observing horoscopes; attitude to separation of church (religion) and state (scale).

Family and marriage: most important criteria for a successful marriage (scale); attitude to marriage and traditional family structure (scale); attitude to one's own children (scale); attitude to traditional understanding of one's role of man and woman in occupation and family (scale); attitude to a traditional or liberal parent-child relation; importance of educational goals; attitude to abortion.

Society: preference for individual freedom or social equality; post-materialism (scale); preferred social development (scale); attitude to technical progress; trust in institutions; observing individual human rights in the country; attitude to environmental protection (scale); closeness to family, neighborhood, the people in the region, countrymen, Europeans and humanity; closeness to older people, the unemployed, foreigners and handicapped as well as readiness to make an effort for these groups; personal reasons for assistance with older people as well as foreigners; identification with the city, region, the nation, Europe and the world; national pride.

Morals and sexuality: moral attitudes (tax evasion, theft, use of drugs, lying, bribe money, corruption, euthanasia, suicide, environmental pollution, alcohol at the wheel; scale); moral attitudes to partnership and sexuality (homosexuality, abortion, divorce, promiscuity; scale); assumed spreading of immoral behavior in the population of the country (scale); attitude to punishment dependent on the situation of culprit or victim (scale).

Demography: sex; year of birth; marital status and living together with a partner; number of children; school education; age at termination of school training; employment; superior function and span of control; company size; occupation (ISCO88) and occupational position; length of unemployment; size of household; ages of children in household; head of household; characteristics of head of household; household income.

Additional country-specific questions were added.

Universe: adult population of the country 18 years and older (no upper age limit).

### 3.3 Methodology and processing

#### Selection method

Representative multi-stage random sample of the adult population 18 years old and older

#### Mode of data collection

Face-to-face interviews with standardized questionnaire

Number of units: 1142

Number of variables: 366

#### Fieldwork period

1999-03-01 to 1999-06-30

#### Usage regulations

Data and documents are released for academic research and teaching - Access category A.

## 4 Dataset structure and variable definition

---

The naming of variables follows several standards differentiated by type of variables. Although variable names are not harmonized across waves, all standard variables are built in the scheme "xNNN" (e.g. v130 or o45). Exceptions are constructed variables, country-specific variables, and administrative variables (see section 4.1: Administrative and ID variables).

- Constructed variables are indicated with a respective suffix (r).
- Country-specific variables, i.e. variables created for questions which could not be harmonized, or questions the country additionally included in the field questionnaire, are named by the alphanumerical country code (e.g. \_fi for Finland according to ISO 3166-1 alpha-2). Their positions in the datasets mirror their positions in the field questionnaires.

### Types of variables

- Core variables (vNNN) and optional variables (oNNN) which are part of the integrated dataset and the national dataset

- Country-specific variables which are part of the integrated dataset and the national dataset.

Example: Variable v90\_AT is the original variable for Austria comprising 4 instead of 5 answer categories of the corresponding question in the English Master Questionnaire. It was additionally inserted in the integrated dataset as its recoding was not possible.

- Country-specific variables which are only part of the national dataset.

Example 1: Variable v304\_de is the original variable for Germany. It was recoded according to the master variable v304. To provide also the original information, v304\_de is additionally included in the national dataset.

Example 2: Variable v6a\_gb is an 'extra' country-specific question. It is a supplement to a group of questions used in the English Master Questionnaire. The name of the last variable of the respective question group has been used.

- Additional country-specific variables which are only part of the national dataset are indicated by a preceding 'c\_'.

### Missing values

In general, the missing values are standardized across all EVS surveys. For all variables, a set of negative missing values is defined:

- 1 **don't know**
- 2 **no answer**
- 3 **not applicable** (missing values which result from filter questions; missing values in administrative variables)
- 4 **question not asked** (i.e. question not included in country's field questionnaire or not provided for by National Program Director of the EVS member country)
- 5 **other missing** (includes: system missing, wild codes, illogic answer-patterns in e.g. filters)

## Dummy variables

For questions that allow for multiple responses a dummy variable is created for each answer category. E.g., a question with four answer categories in an item battery has four dummy variables as final data. In general, a value "1" means that the respondent chose the particular category as an answer (mentioned, yes, ...). In case of a value "0" the respondent did not choose the particular category as answer (not mentioned, no, ...). Dummy variables are also created for "None of these", "Don't know" or other residual responses. Inconsistencies between category 'none of these' and other mentioned items of a battery are flagged by flag variables (see section 4.2.1: Flag variables indicating inconsistencies).

## 4.1 Administrative and ID variables

Administrative variables are used mainly for identifying datasets and respondents (see Table 2 below). They include different kinds of variables:

- Technical variables for identifying the dataset or cases
- Weighting variables to help adjust samples to the universe

Table 2: Overview of administrative variables

Variable	Variable label
studyno	GESIS Study Number
version	GESIS Archive Version
id_cocas	unified respondent number
caseno	original respondent number
year	survey year
intno	Interviewer number
v324	year/month of start-fieldwork
v325	year/month of end-fieldwork

### 4.1.1 Version of dataset

In order to uniquely identify a dataset, each dataset is assigned a GESIS Study No., a GESIS archive version no., and a Digital Object Identifier (DOI). The DOI name points to the Study Description in the [GESIS Data Catalogue](#) including an overview of errata and dataset versions.

Variable "version" includes the GESIS archive version number of a dataset and the corresponding release date. It is composed of a sequence of three numbers (alphanumeric string).

- The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases).
- The minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels).
- The third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

#### 4.1.2 Changes from version 2.0.0 to 3.0.1

National dataset version was increased from 2.0.0 to 3.0.0 by the update of the EVS 1999 integrated dataset, version 3.0.0 (2011-11-20). This version contains additional variables, data and metadata updates, and further improvements to the second version.

After publication of the integrated dataset, some further corrections have been made to the data released as national dataset. According to the character of changes, dataset version has been changed to v.3.0.1 (2012-12-28).

The main changes between national dataset v.2.0.0 and v.3.0.1 are listed in section Errata and Version in the Study Description of the GESIS Data Catalogue (<http://gesis.org/data-catalogue/>).

#### 4.1.3 Identification variables

Each record in the dataset contains two identification variables:

- Caseno: 'Original respondent number'
- Id\_cocas: 'Unified respondent number' consisting of year/country/case\_id

#### 4.1.4 Variables with country codes

The overview in Table 3 lists variables for which country identifiers (ISO 3166-1 numeric or alphanumeric) were added to values. Information about the composition of values is given as well.

Table 3: Variables with country codes ISO 3166-1

Variable	Variable Label	Composition of values (cc=country code)
id_cocas	Unified respondent number	YYYY (year of wave) CCC (ISCO-Code for country) NNNNN (case_id)
v256 v257	which political party would you vote for (Q72) which political party appeals to you most (Q73)	CC- ISO (3 digits)+VALUE (2 digits)
v320	income household respondent (Q110)	CC- ISO (3 digits)+VALUE (2 digits)
v323	region where interview was conducted (Q113)	CC- ISO (3 digits)+VALUE (3 digits)

## 4.2 Data quality checks

The data of the EVS 1999 national datasets was checked for wild codes, system missing, filter inconsistency, and contradictions between variables of item batteries.

#### 4.2.1 Flag variables indicating inconsistencies

For the most common non-conformed interviewer instructions and illogic answer patterns across national datasets, flag variables were created which mark such non-conformities and leave decisions

on correction up to the researcher. Information about both flag and flagged variables is provided by notes in the Variable Documentation.

Example:

Flagged variable: v69 'why do people live in need: most important (Q11)'

Note added: Please see flag variable f69 which indicates inconsistencies for variables v69/v70.

Flag variable f69 'flag variable: why do people live in need - most/second important (Q11/Q12)'

Indicates inconsistencies for the variables v69/v70.

If most important reason is identical with next important reason.

if v69=v70 then f69=1

(0 consistent; 1 inconsistent)

There is one type of non-conformities which was flagged.

Variables: v69 to v70 – f69;

'first/second choice' variables which were flagged in case the value of the variable for the first choice equaled to the value of the variable for the second choice.

Table 4: *Flag variables indicating inconsistencies*

Variable	Label	N	total N	Values	Value Labels	Description
f69	Flag variable: why do people live in need - most/second important (Q11/Q12)	1135 7	1142	0 1	consistent inconsistent	If most important reason is identical with next important reason. if v69=v70 then f69=1
f86	Flag variable: important in a job: none of these (Q13)	1139	1142	0	consistent	
		0	1142	1	inconsistent1	If respondent mentions at least one aspect and "none". if v86=1 and any of v71 to v85=1 then f86=1
		3	1142	2	inconsistent2	If respondent does not mention any aspect and does not mention "none". if v86=0 and all of v71 to v85=0 then f86=2
		0	1142	3	inconsistent3	If respondent does not mention any aspect and "none" is missing. if v86=-5 and all of v71 to v85=0 then f86=3
		0	1142	4	inconsistent4	If respondent mentions at least one aspect and "none" is missing. if v86=-5 and any of v71 to v85=1 then f86=4

#### 4.2.2 Notes on deviating filtering

In case filtering in countries' field questionnaires systematically deviated from filtering in the Master Questionnaire (either by lacking filter or by adding country-specific filter) data were not corrected but marked by variable notes.

In general, two cases of inconsistencies were additionally indicated by notes.

- Respondents who should have been asked questions following filter question but were set to -3 'not applicable' (variable: v296).

- Respondents who should not have been asked questions following the filter questions but have valid codes for these questions (variables: v257, v295, v311, v314).

---

## 5 Variable documentation and types of notes added

---

For the national datasets, two types of variable documentation are available. Beside the present English documentation, bilingual (English/original languages) variable documentation facilitates a comparison of the English master and original question wording as in field questionnaire.

General remarks and comments referring to a certain variable are defined as variable notes. Notes could be references to international standards applied, problems in questionnaire translation, but also references to data problems or specific characteristics. A distinction between two types of variable notes can be made:

- Notes referring to the English documentation of national datasets,
- Notes that refer to original language documentation set up on basis of the field questionnaires.

### 5.1 Notes in English variable documentation according to Master Questionnaire

- Standardized variables (income, region, parties) containing country identifier (ISO 3166-1) and the given order of country-specific categories in the field questionnaires.
- Standardized variables with reference to international standards (occupation – ISCO88 2, 3, and 4 digits code).
- Country-specific variables additionally added to dataset (e.g. v320\_dk, v190\_gb, etc.).
- Information on coding of open-ended questions and multiple response questions.
- Information on data processing.
- Reference on deviations between the master and the field questionnaire.

### 5.2 Notes in the original language documentation of the dataset

- Notes documenting translation problems.
- Standard note added to the original language documentation referring to the recoding and documentation of missing values.
- Notes on harmonized variables with reference to the original country-specific variables.
- Notes on errors in field questionnaires (e.g. typing error).

## 6 Explanation of the variable documentation

---

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. It is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with the international metadata specification for the social and behavioral sciences, established by the Data Documentation Initiative (DDI-Codebook/XML).

The documentation combines the variable description (variable name, values, and labels) of the dataset with the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the questionnaire.

The example explained below reproduces the information appearing in the variable documentation part for a **typical substantive variable**. In the case of variables with long lists of coded "real values" (e.g. age), results are only presented for the corresponding categorized variable, if available. The content and construction of technical, administrative, or other generated variables is described as appropriate.

If an adequate weight is provided in the dataset, the frequencies are calculated on the base of weighted data, as indicated with each table. Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

The complete question and answer texts are taken from the English Master Questionnaire as provided by the European Values Study.

Digital Object Identifier (doi):  
Header with doi linked to the  
Study Description in the GESIS  
Data Catalogue.

**VARIABLE NAME** (serial number  
from questionnaire or assigned  
by the archive) and **VARIABLE  
LABEL** as defined in the da-  
taset, including question num-  
ber from questionnaire. The  
numbers or letters that may  
appear together with the  
variable name reflect the item  
order (multiple item or multi-  
ple response questions) or  
indicate if a question was  
recoded (R), harmonized, or if  
asked only in a single country  
(country abbreviation).

**QUESTION NUMBER** and full  
**QUESTION TEXT** from the ques-  
tionnaire, including interviewer  
instructions.

**CODE VALUES** occurring in the  
data for this variable and  
complete **ANSWER TEXT** from  
the questionnaire. Code values  
may differ from the question-  
naire specification due to  
standardization and harmoni-  
zation.

#### v72 - important in a job: pleasant people (Q13B)

Q.13

<Show card 13>

Here are some aspects of a job that people say are important. Please look at them and tell me which ones you personally think are important in a job?

<Code all mentioned>

Q.13B Pleasant people to work with

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 0 not mentioned
- 1 mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 0 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

v72, weighted by weight

Value	Label	Missing	Count	Percent	Valid Percent
0	not mentioned		566	35.0	35.0
1	mentioned		1049	65.0	65.0
	Sum		1615	100.0	100.0
	Valid Cases		1615		

**NOTES** delineate additional explanatory text subsuming archive remarks on data processing, deviations between released data in dataset, and other issues relevant for the understanding and application of the variable. Further information refers to the construction principle of indices or other derived variables (not in the example).

**FREQUENCY COUNTS:** The absolute frequencies of the occurrence of values (count) refer to the number of cases in the dataset, which is not weighted in some countries, in this example weighted by weight. Relative frequencies are calculated including (percent) and excluding (valid percent) missing data (M), i.e. percent on the basis of all cases (sum) and valid percent on the basis of the valid cases.

## Variable Documentation

**Variable, Label**

**Question Text (English Language)**

studyno - GESIS study number (EVS wave)

GESIS Study Number:

ZA3801

studyno

Value	Label	Missing	Count	Percent	Valid Percent
3801			1142	100.0	100.0
	Sum		1142	100.0	100.0
	Valid Cases		1142		

## version - GESIS archive version

GESIS Archive Version:

3.0.1 '2012-12-28'

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

## version

Value	Label	Missing	Count	Percent	Valid Percent
3.0.1 (2012-12-28)			1142	100.0	100.0

4	not at all important		128	11.2	11.4
	Sum		1142	100.0	100.0
	Valid Cases		1124		

## v7 - how often discuss politics with friends (Q2)

Q.2

When you get together with your friends, would you say you discuss political matters frequently, occasionally or never?

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 frequently
- 2 occasionally
- 3 never

v7

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	10	0.9	
1	frequently		241	21.1	21.3
2	occasionally		649	56.8	57.3
3	never		242	21.2	21.4
	Sum		1142	100.0	100.0
	Valid Cases		1132		

v8 - environment: giving part of income (Q3A)

Q.3

&lt;Show card 3&gt;

I am now going to read out some statements about the environment. For each one read out, can you tell me whether you agree strongly, agree, disagree or strongly disagree?

&lt;Read out each statement and code an answer for each&gt;

Q.3A I would give part of my income if I were certain that the money would be used to prevent environmental pollution

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 strongly agree
- 2 agree
- 3 disagree
- 4 strongly disagree

v8

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	9	0.8	
-1	don't know	M	22	1.9	
1	strongly agree		320	28.0	28.8
2	agree		593	51.9	53.4
3	disagree		162	14.2	14.6
4	strongly disagree		36	3.2	3.2
	Sum		1142	100.0	100.0
	Valid Cases		1111		

v9 - environment: increase taxes to prevent environmental pollution (Q3B)

Q.3

&lt;Show card 3&gt;

I am now going to read out some statements about the environment. For each one read out, can you tell me whether you agree strongly, agree, disagree or strongly disagree?

&lt;Read out each statement and code an answer for each&gt;

Q.3B I would agree to an increase in taxes if the extra money is used to prevent environmental pollution

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 strongly agree
- 2 agree
- 3 disagree
- 4 strongly disagree

v9

Value	Label	Missing	Count	Percent	Valid Percent
-5	other missing	M	1	0.1	
-2	no answer	M	14	1.2	
-1	don't know	M	19	1.7	
1	strongly agree		214	18.7	19.3
2	agree		504	44.1	45.5
3	disagree		304	26.6	27.4
4	strongly disagree		86	7.5	7.8
	Sum		1142	100.0	100.0
	Valid Cases		1108		

v10 - environment: government should reduce environmental pollution (Q3C)

Q.3

&lt;Show card 3&gt;

I am now going to read out some statements about the environment. For each one read out, can you tell me whether you agree strongly, agree, disagree or strongly disagree?

&lt;Read out each statement and code an answer for each&gt;

Q.3C The Government has to reduce environmental pollution but it should not cost me any money

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 strongly agree
- 2 agree
- 3 disagree
- 4 strongly disagree

v10

Value	Label	Missing	Count	Percent	Valid Percent

0 not mentioned

1 mentioned

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 0 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

The Master Questionnaire contains two additional items: 'I don't know' (v28/v46) and 'No answer' (v29/v47). They were first recoded into -1 and -2 for each item of the question battery. For reasons of comparability they have been recoded in a second step into 0 ('not belonging to a voluntary organisation'/'not doing voluntary work for those organisations').

Note:

Multiple response questions are split into a set of dichotomized variables (1 mentioned, 0 not mentioned) which represent each of the original categories and are identified by the respective original category code as question number suffix.

The Master Questionnaire contains two additional items: 'I don't know' (v28/v46) and 'No answer' (v29/v47). They were first recoded into -1 and -2 for each item of the question battery. For reasons of comparability they have been recoded in a second step into 0 ('not belonging to a voluntary organisation'/not doing voluntary work for those organisations').

v42

Value	Label	Missing	Count	Percent	Valid Percent

v49\_filt - how often spend time with colleagues (Q6B) (category -3 'nap' reconstructed with filter)

Q.6

<Show card 6>

I'm going to ask how often you do certain things. For each activity, would you say you do them every week or nearly every week; once or twice a month; only a few times a year; or not at all?

<Interviewer: Code 'Not applicable' when respondent is not involved in work, church or club>

Q.6B Spend time with colleagues from work or your profession outside the workplace

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 every week
- 2 once or twice a month
- 3 a few times a year
- 4 not at all

Variable constructed on basis of v87 and v306 to correct for inconsistencies between filter instructions of countries. Category -3 'not applicable' was reconstructed according to this filter (v87 respondent is employed or v306 has paid employment. If v87=1 or range (v306=1,3)). In case of no deviation v49\_filt=v49.

v49\_filt

Value	Label	Missing	Count	Percent	Valid Percent
-3	not applicable	M	426	37.3	
-2	no answer	M	7	0.6	
1	every week		178	15.6	25.1
2	once/twice a month		218	19.1	30.7
3	few times a year		204	17.9	28.8
4	not at all		109	9.5	15.4
	Sum		1142	100.0	100.0
	Valid Cases		709		

v50\_filt - how often spend time in church (Q6C) (category -3 'nap' reconstructed with filter)

Q.6

&lt;Show card 6&gt;

I'm going to ask how often you do certain things. For each activity, would you say you do them every week or nearly every week; once or twice a month; only a few times a year; or not at all?

<Interviewer: Code 'Not applicable' when respondent is not involved in work, church or club>

Q.6C Spend time with people at your church, mosque or synagogue

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 every week
- 2 once or twice a month
- 3 a few times a year
- 4 not at all

Variable constructed on basis of v13 and v103 to correct for inconsistencies between filter instructions of countries. Category -3 'not applicable' was reconstructed according to this filter (v101 belonging to a religious denomination or v13 belonging to religious or church organisations: If any (1,v101,v13)). In case of no deviation v50\_filt=v50.

v50\_filt

Value	Label	Missing	Count	Percent	Valid Percent
-5	other missing	M	2	0.2	
-3	not applicable	M	192	16.8	
-2	no answer	M	18	1.6

f86 - flag variable: important in a job: none of these (Q13)

Flag variable:

Indicates inconsistencies for the variables v71 to v86.

Inconsistent 1

If respondent mentions at least one aspect and "none".

if v86=1 and any of v71 to v85=1 then f86=1

Inconsistent 2

If respondent does not mention any aspect and does not mention "none".

if v86=0 and all of v71 to v85=0 then f86=2

Inconsistent 3

If respondent does not mention any aspect and "none" is missing.

if v86=-5 and all of v71 to v85=0 then f86=3

Inconsistent 4

If respondent mentions at least one aspect and "none" is missing.

if v86=-5 and any of v71 to v85=1 then f86=4

0 consistent

1 inconsistent 1

2 inconsistent 2

3 inconsistent 3

4 inconsistent 4

Note:

For detailed information, see EVS 1999 national variable report.

v100 - good and evil: clear/no clear guidelines (Q21)

Q.21

&lt;Show card 21&gt;

Here are two statements which people sometimes make when discussing good and evil. Which one comes closest to your own point of view?

A: There are absolutely clear guidelines about what is good and evil. These always apply to everyone, whatever the circumstances.

B: There can never be absolutely clear guidelines about what is good and evil. What is good and evil depends entirely upon the circumstances at the time.

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 agree with statement A
- 2 agree with statement B
- 3 disagree with both

v100

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	6	0.5	
-1	don't know	M	10	0.9	
1	clear guidelines good and evil		180	15.8	16.0

1	yes		1094	95.8	96.0
2	no		46	4.0	4.0
	Sum		1142	100.0	100.0
	Valid Cases		1140		

v102 - which religious denomination (Q23)

RELIGIOUS DENOMINATION - HARMONIZED VARIABLE

[Q.22 Do you belong to a religious denomination?]

Q.23

&lt;Show card 23&gt;

Which one?

&lt;NB: PRESENT COUNTRY SPECIFIC LIST! RECODE INTO:&gt;

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 Roman Catholic
- 2 Protestant
- 3 Free Church/ Non-Conformist/ Evangelical
- 4 Jew
- 5 Muslim
- 6 Hindu
- 7 Buddhist
- 8 Orthodox
- 9 other

v102

Value	Label	Missing	Count	Percent	Valid Percent
-3	not applicable	M	46	4.0	
-2	no answer	M	4	0.4	
1	Roman Catholic		17	1.5	1.6
4	Jew		5	0.4	0.5
8	Orthodox		1067	93.4	97.7
9	other		3	0.3	0.3
	Sum		1142	100.0	100.0
	Valid Cases		1092		

v103 - did you belong to a religious denomination (Q24a)

Q.24a

Were you ever a member of a religious denomination?

<Interviewer instruction: if respondent is currently a member, please ask: Were you ever a member of another religious denomination?>

<if "no" - go to Q.25>

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 yes
- 2 no

Different question format: question part "ever member of another religious denomination" dropped; all respondents have been asked whether they were ever a member of a religious denomination; empirical consequence: members of a denomination (v101=1) who did not change their denomination gave the same answer to v102 and v104. Answers have been adapted to Master Questionnaire by comparing v102 and v104.

v103

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	11	1.0	
1	yes		54	4.7	4.8
2	no		1077	94.3	95.2
Sum			1142	100.0	100.0
Valid Cases			1131		

v104 - which former religious denomination (Q24b\_r)

Q.24b

&lt;Show card 24&gt;

Which one?

&lt;NB: PRESENT COUNTRY SPECIFIC LIST! RECODE INTO:&gt;

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 Roman Catholic
- 2 Protestant
- 3 Free Church/ Non-Conformist/ Evangelical
- 4 Jew
- 5 Muslim
- 6 Hindu
- 7 Buddhist
- 8 Orthodox
- 9 other

Due to the different question format of v103 all respondents have been asked whether they were ever a member of a religious denomination. Empirical consequence: members of a denomination (v101=1) who did not change their denomination gave the same answer to v102 and v104. Answers have been corrected by comparison with v102.

v104

Value	Label	Missing	Count	Percent	Valid Percent

- 4 45-54
- 5 55-64
- 6 65 and more years

age\_r

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	31	2.7	
1	15-24		307	26.9	27.6
2	25-34		304	26.6	27.4
3	35-44		197	17.3	17.7
4	45-54		180	15.8	16.2
5	55-64		73	6.4	6.6
6	65 and more years		50	4.4	4.5
	Sum		1142	100.0	100.0
	Valid Cases		1111		

age\_r2 - age (recoded into 3 intervals)

Age - recoded (3 intervals)

Source variable: age

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 15-29 years
- 2 30-49 years
- 3 50 and more years

age\_r2

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	31	2.7	
1	15-29 years		479	41.9	43.1
2	30-49 years		438	38.4	39.4
3	50 and more years		194	17.0	17.5
	Sum		1142	100.0	100.0
	Valid Cases		1111		

## v293 - having steady relationship (Q86)

Q.86

Whether you are married or not: Do you live in a stable relationship with a partner?

&lt;if "no" - go to 88&gt;

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 yes
- 2 no

v293

Value	Label	Missing	Count	Percent	Valid Percent
1	yes		768	67.3	67.3
2	no		374	32.7	32.7
	Sum		1142	100.0	100.0
	Valid Cases		1142		

v294 - are you legally married to partner (Q87)

Q.87

Are you legally married to this partner?

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 yes
- 2 no

Additional filter on both answer categories in the field questionnaire (v294=1 go to v297; v294=2 go to v296). Most of the interviewers obviously ignored this filter instruction.

v294

Value	Label	Missing	Count	Percent	Valid Percent
-3	not applicable	M	374	32.7	
1	yes		485	42.5	63.2
2	no		283	24.8	36.8
	Sum		1142	100.0	100.0
	Valid Cases		768		

## v295 - did you live with a partner before (Q88)

Q.88

Did you ever live in a stable relationship before, i.e. without being married?

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 yes
- 2 no

By following the additional filter from v294 of the Greek questionnaire none of the respondents with a valid code on v294 should have been asked v295; but: empirically the vast majority of interviewers obviously ignored the additional filter.

v295

Value	Label	Missing	Count	Percent	Valid Percent
-3	not applicable	M	107	9.4	
-2	no answer	M	30	2.6	
1	yes		614	53.8	61.1
2	no		391	34.2	38.9
	Sum		1142	100.0	100.0
	Valid Cases		1005		

## v296 - current legal marital status respondent (Q89)

Q.89

What is your current legal marital status?

&lt;if "divorced" or "never married"- go to Q.91&gt;

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 married
- 2 widowed
- 3 divorced
- 4 separated
- 5 never married
- 6 cohabiting
- 7 single

Note:

Response categories 6 and 7 were not included in Master Questionnaire but in several national data sets. Thus, for the integrated data set these additional response categories were adopted.

Due to the additional filter on v294 none of the respondents with v293=1 and v294=1 has been asked v296; hence, for these respondents the legal marital status has been inferred from v294. In 12 cases information on v294 and v296 contradicts each other: v294=married and v296= widowed.

v296

Value	Label	Missing	Count	Percent	Valid Percent
-2	no answer	M	20	1.8	
1	married		474	41.5	42.2
2	widowed		40	3.5	3.6
3	divorced		23	2.0	2.0
4	separated		18	1.6	1.6
5	never married		567	49.6	50.5
	Sum		1142	100.0	100.0
	Valid Cases		1122		

v297 - have you ever been divorced (Q90)

Q.90

Have you ever been divorced?

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 yes
- 2 no

v297

Value	Label	Missing	Count	Percent	Valid Percent
-3	not applicable	M	607	53.2	
-2	no answer	M	21	1.8

Note:

Open-ended question

If a wild code could not be identified, it was recoded into the next identifiable higher level profession unit (starting with minor group, sub major group then major group). N= 22. Source for recodes: International Standard Classification of Occupations (ISCO-88) provided by the International Labour Organization. 18 September 2004. Web: 10 December 2011 [www.ilo.org](http://www.ilo.org).

Filter on v306 has been ignored in some cases: housewives, students, unemployed and other (v306=5-8) have valid ISCO-codes (n=18).

v311\_2 - kind of job respondent - 2 digit ISCO88 code (Q101) (recoded)

Job profession/industry (2 digit ISCO88)

Source variable: v311

## v320 - income household respondent (Q110)

Q.110

&lt;Ask all; show income card&gt;

Here is a scale of incomes and we would like to know in what group your household is, counting all wages, salaries, pensions and other incomes that come in. Just give the letter of the group your household falls into, after taxes and other deductions.

(Incomes in ten categories from 10% lowest to 10% highest income category)

wsex\_gr - weightings for SEX

Weightings for SEX:

A general weighting variable computed for the EVS1999 Integrated Dataset is not provided.

Three (alternative) weighting variables were added to the data file. A weighting factor for each of the three stratification variables (age, gender and educational level) was computed on the basis of sampling deviations from Greek population distributions (1991 census).

Note:

For detailed information on the sampling procedures, fieldwork, weighting, etc., please see the Source Book of the 1999/2000 European Values Study (Halman: 2001) and the national Variable Report.

Comparability:

Extra Greek variable.

wage\_gr - weightings for age-bands

Weightings for age-bands:

A general weighting variable computed for the EVS1999 Integrated Dataset is not provided.

Three (alternative) weighting variables were added to the data file. A weighting factor for each of the three stratification variables (age, gender and educational level) was computed on the basis of sampling deviations from Greek population distributions (1991 census).

Note:

For detailed information on the sampling procedures, fieldwork, weighting, etc., please see the Source Book of the 1999/2000 European Values Study (Halman: 2001) and the national Variable Report.

Comparability:

Extra Greek variable.

weduc\_gr - weightings for education level

Weightings for education level:

A general weighting variable computed for the EVS1999 Integrated Dataset is not provided.

Three (alternative) weighting variables were added to the data file. A weighting factor for each of the three stratification variables (age, gender and educational level) was computed on the basis of sampling deviations from Greek population distributions (1991 census).

Note:

For detailed information on the sampling procedures, fieldwork, weighting, etc., please see the Source Book of the 1999/2000 European Values Study (Halman: 2001) and the national Variable Report.

Comparability:

Extra Greek variable.

v324 - year/month of start-fieldwork (constructed)

Year/month of start-fieldwork (constructed)

Source variable: Period of fieldwork as reported on the Source Book of the 1999/2000 European Values Study (Halman: 2001) and on the Study Description of GESIS Data Catalogue.

v324

Value	Label	Missing	Count	Percent	Valid Percent
199903			1142	100.0	100.0
	Sum		1142	100.0	100.0
	Valid Cases		1142		

v325 - year/month of end-fieldwork (constructed)

Year/month of end-fieldwork (constructed)

Source variable: Period of fieldwork as reported on the Source Book of the 1999/2000 European Values Study (Halman: 2001) and on the Study Description of GESIS Data Catalogue.

v325
