Acknowledgements

Standard & Special Eurobarometer surveys are conducted on behalf of the Commission of the European Communities, under the responsibility of the Directorate-General Communication and on occasion requested by other departments according to the policy they deal with. From the outset the European Commission is generously granting access to Eurobarometer primary data for re-use in social science research and training.

The integrated original datasets and related materials are delivered by the respective survey research institute in charge of survey implementation and fieldwork co-ordination.

Preparation and documentation of Eurobarometer primary data for long term preservation and usability happen in a cooperative arrangement between the teams at Inter-University Consortium for Political and Social Research (ICPSR) and GESIS Data Archive for the Social Sciences.

Introduction and preliminary remarks

The variable reports of the Standard & Special Eurobarometer survey series offer a comprehensive description of the data on study and variable level. For each Eurobarometer individual variable reports are provided. The reports are structured into five sections: Section one provides the description of the respective Eurobarometer Study, including bibliographic information, abstract, methodological specifications, remarks on weighting and general notes on data preparation. Section two gives an historical overview of the Eurobarometer Survey Series, including the institutional background and the development of geographical and topical coverage. A third section provides general information about the structure of Eurobarometer datasets, documentation standards and variable coding frames. Section four explains the details of the 'Variable Documentation' part in the following section five, which is the documentation of the variables with the complete question texts and answer categories of the master questionnaire and the corresponding archival remarks on data preparation or inconsistencies, if applicable. In addition, this variable report contains frequency counts, by country (sample), for almost all variables. These frequencies are based on weighted data using the adequate post-stratification weight, if applicable and as indicated in each table.

Data access

Primary data for statistical analysis and related documentation (basic bilingual questionnaires, national field questionnaire versions and variable reports) are made available online by GESIS (<http://zacat.gesis.org>), by the Inter-university Consortium for Political and Social Research through the ICPSR membership network, and through all Social Science Data Archives members of the Council of European Social Science Data Archives (CESSDA).

Usage requirement

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about related research activities, users of the data are requested to send to ICPSR or GESIS respectively bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data (surveys and respective variables) were used.

Disclaimer

The original collector of the data, ICPSR, GESIS, and the relevant funding agencies bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

1.2 Content

1.2.1 Abstract

This round of Euro-Barometer surveys investigated foreign policy attitudes and, in particular, the level of trust respondents felt toward the United States and the Soviet Union, their assessment of the abilities of both nations to deal responsibly with world problems, the importance of the North Atlantic Treaty Organization (NATO), and the use of military force against Iraq.

Respondents were also asked to evaluate the importance and influence of the European Community on their own lives, and to give their opinions on the value of a general European citizenship, the recent unification of Germany, whether aid should be given to the Soviet Union, current immigration policies, the importance of the European Parliament, the value of the proposed Single European Market, and prospective policies and composition of the European Community by the year 2000.

Other queries focused on the effectiveness of the Common Agricultural Policy and the result of potential reforms of this policy on European farmers. Another set of questions probed attitudes toward energy and environmental issues. Respondents were asked about the availability and costs of energy products, whether energy prices should be uniform throughout Community countries, the importance of possible changes in the environment, future sources of energy, the value of nuclear power, and knowledge of sources of radiation and potential risks of contamination.

As in previous Euro-Barometers, questions on political party preference asked respondents which party they felt closest to, how they voted in their country's last general election, and how they would vote if a general election were held tomorrow. Additional information was gathered on family income, number of people residing in the home, size of locality, home ownership, region of residence, occupation of the head of household, and the respondent's age, sex, education, religion, religiosity, subjective social class standing, socio-professional status, and left-right political self-placement.

1.2.2 Topic classification

- International Institutions, Relations
- Technology, Energy
- Natural Environment
- Society, Culture

1.3 Universe

The samples of Eurobarometer 35 are designed to be representative for the national population aged 15 years and over of the 12 European Community member countries, resident in and citizen of the respective country. Two separate samples have been drawn in the United Kingdom (Great Britain and Northern Ireland) and in Germany (West and East Germany).

1.4 Sampling procedure

The basic sample design applied in all member states is a multi-stage, random (probability) design. In each EC country, a number of sampling points were drawn from all administrative regional units after stratification by individual unit and type of area (degree of urbanization). In each sampling point a starting address was drawn at random. Further addresses were selected by standard random route procedures. In each household, the respondent was selected according to a random procedure. Up to two recalls were made to achieve an interview.

COMPARISON BETWEEN SAMPLES AND UNIVERSES AND WEIGHTING OF THE DATA

For each of the countries a comparison between the sample and the universe was carried out. The Universe description was derived from EUROSTAT population data.

For all EC member-countries a national weighting procedure, using marginal and intercellular weighting, was carried out based on this Universe description. As such in all countries, minimum sex, age, region NUTS II and size of locality were introduced in the iteration procedure.

For international weighting (i.e. EC averages), INRA (EUROPE) applies the official population figures as published by EUROSTAT in the Regional Statistics Yearbook of 1988. The effective number of realized interviews in this round is indicated in table 1.

1.5 Fieldwork

Between March 4 and March 29, 1991, INRA (Europe), a European Network of Market and Public Opinion Research Agencies, carried out Wave 35.0 of the STANDARD EUROBAROMETER, on request of the Commission of the European Communities.

1.6 Mode of data collection

All interviews were carried out face-to-face in people's homes in the respective national languages.

1.7 Weighting

In general the Standard and Special Eurobarometer data sets provide for two types of weighting, a post-stratification sample weighting and a population size weighting.

For each sample, i.e. participating country or lower level region, a comparison between the sample composition and a proper universe description is carried out for internal weighting purposes. The universe description is made available by the National Survey Research Institutes and/or by EUROSTAT. On this basis a national weighting procedure, using marginal and intercellular weighting, is applied. As such in all countries, minimum sex, age, region NUTS II (basic regions as defined by the EUROSTAT nomenclature of territorial units for statistics), and size of locality are introduced in the iteration procedure. This **post-stratification weighting** is also referred to as redressment or non-response weighting. A design weight which would adjust for unequal selection probabilities (depending on the household size) is not made available.

For the descriptive analysis of individual samples or their comparison, up to six weighting variables are provided in each data set and documented as such in the variable description. Until Eurobarometer 31 the corresponding weight variable is labelled NATION WEIGHT II. Weighting factors were then not included continuously for all samples and weighting procedure might have differed from the foregoing description. While weighting usually reproduces the real number of cases for each sample, between Eurobarometer 33 and 54.1 samples can also be

adjusted to their predefined standard size of exactly 1000 or 500 cases. This option was applied for the official Eurobarometer reports of the period.

The **population size weighting** factor corrects for the fact that most samples are of almost identical size, no matter how large or small the populations are from which they were drawn. These weights ensure that each country as well as each lower level sample (Great Britain and Northern Ireland, East and West Germany) are represented in proportion to its population size within different groupings, or according to the historical states of European unification (e.g. founder members, new members, Euro zone) in the case of the EUROPEAN WEIGHTS, or for the United Kingdom (WEIGHT SPECIAL UNITED KINGDOM, NATION WEIGHT I until Eurobarometer 31A) and for Germany as a whole (WEIGHT SPECIAL GERMANY).

The population size weights all include the post-stratification weighting factors. The EUROPEAN WEIGHTS adjust each sample in proportion to its share in the total population of the European Union (formerly European Community), aged 15 and over. These adjustments are based on population figures published by EUROSTAT in the Regional Statistics Yearbook. In some cases more than 20 European weights are provided for use in analyses of the European Union population as a whole or in accordance with its historical compositions. Between Eurobarometer 33 and 54.1 adjustments to the predefined standard sample size is taken into account. In general all samples which do not belong to the respective group of samples under consideration are excluded from calculation.

The application of post-stratification weights is recommended for descriptive (univariate) analysis. Meaningful descriptive results for groups of countries or for countries with separate samples (United Kingdom and Germany) require population size weighting. Official Eurobarometer reports are always based on weighted data.

Starting with Eurobarometer 66.2 a new additional weight (WEIGHT EXTRA) is provided which extrapolates the actual universe (population aged 15 or more) for each country or sample. This weight variable integrates all other available weights, but does not reproduce the number of cases in the data set, but the respective actual population size.

As needed, OVERSAMPLES (see chapter 2.4, table 3) are weighted separately as documented in the respective study and weight variable description. In some surveys special weights are made available for application with selected variables on a specific topic, e.g. for the descriptive analysis of variables regarding e-communication equipment on HOUSEHOLD level.

Eurobarometer 35.0 provides four (post-stratification) NATION WEIGHTS: WEIGHT RESULT FROM TARGET (NATION WEIGHT IIa) and WEIGHT ADJUSTED TO STANDARD SIZE (NATION WEIGHT IIb) for separate analysis or comparison of individual samples (countries or regions on sub-national level), WEIGHT SPECIAL UNITED KINGDOM (NATION WEIGHT I adjusted to standard size) which in addition adjusts the British and the Northern Irish samples to their respective proportions in the United Kingdom for descriptive analysis of the United Kingdom as a whole and WEIGHT SPECIAL GERMANY (NATION WEIGHT III adjusted to standard size), which adds the adjustment of the East and West German samples to their respective proportions in the United Germany, to be used for descriptive analysis of the United Germany as a whole. All other samples (nations) are included, likewise all post-stratification factors.

The different EUROPEAN WEIGHTS provide adjustments for each (national) sample in proportion to its share in the total population aged 15 and over, of the European Union, within groups of member countries representing different historical states of European integration (e.g. EURO6 = six founder members). All post-stratification factors are included.

For more detailed information on the individual weights please see the corresponding variable description.

1.8 Data preparation

ZA produced the interim version of the data collection, and ICPSR used the ZA interim version to produce the final version of the data collection. ICPSR consulted the data received from INRA (Europe) for clarification when necessary. When possible, ICPSR produced the data set and codebook to be consistent with the standard format set forth in the cooperative arrangement explained in the Preliminary Remark section of this codebook.

The data received by ICPSR from ZA were checked for missing and duplicate records, for illegal (wild) codes and for consistency of response patterns. Errors discovered by these procedures were corrected or noted in this codebook. Indices and other derived summary variables were also checked and corrected as necessary. Complete machine-readable documentation was also created for this dataset by ICPSR.

ICPSR and ZA also added "inappropriate" (INAP) codes to indicate intentionally skipped questions when it could be determined that the appropriate skip instruction in the INRA questionnaire was adhered to for (almost) every respondent.

ICPSR and ZA have either added "<NA>" codes to indicate responses that had no code values in the original data (system missing values) or recoded variables to the "<NA>" value if the variable had been inappropriately coded. Illegal (wild) codes which ICPSR has been unable to document have been labeled as "<Undocumented Code>" where they appear in this codebook. Users should also note that on occasion the number of responses to a particular question may exceed the maximum indicated in the interviewer instructions.

Question text and contingency text appearing in this codebook and ICPSR's machine-readable documentation is taken from INRA (Europe)'s English language version of the questionnaire. Whenever a discrepancy occurs between INRA (Europe)'s codebook and its English language questionnaire as to the coding scheme of a variable, the former is followed in the ICPSR documentation.

2 Eurobarometer Series Description

2.1 Series name

The Standard and Special Eurobarometer (a.k.a. Euro-Barometer) Survey Series

2.2 Series information

The Standard and Special Eurobarometer surveys are the products of a unique program of cross-national and cross-temporal survey research. The effort began in early 1970, when the Commission of the European Communities sponsored simultaneous surveys of the publics of the European Community. In general they are carried out in spring and fall of each year. Three pilot studies were conducted in 1970, 1971 and 1973 under the header of European Communities Studies; "Attitudes towards Europe" (GESIS id ZA0078), the very first comparative survey across European Communities founder members in 1962, can be seen as an early forerunner. The primary data of the first explicit Eurobarometer, conducted in spring 1974, have not been preserved.

2.3 Principal investigators and institutional background

The Eurobarometer program was initially launched and managed until 1986 by Jacques-René Rabier, head of the Commission's press and information directorate and afterwards special advisor to the Commission of the European Communities. He counted with the political support of the European Parliament and the close co-operation of Ronald Inglehart. The political scientist at the University of Michigan was then developing his theory of value change in modern societies and his materialist/post-materialist items would become integral part of the Eurobarometer until the mid nineties. Between 1987 and 1996 the program was continued and considerably enlarged under the direction of Karlheinz Reif, since 1993 together with Anna Melich.

Anna Melich took over the Eurobarometer direction from 1997 to 1999, by then still within the organizational framework of the former Directorate-General X, Public Opinion Surveys and Research Unit. In 2000/2002 Eurobarometer were intermittently conducted in the framework of the DG Education and Culture, Citizens' Centre - Analysis of Public Opinion under the direction of Harald Hartung, and starting with Eurobarometer 54 under DG Press and Communication, initially directed by Thomas Christensen. Since 1999 the organisation and supervision of the surveys were consecutively executed by Rubén Mohedano-Brèthes (until 2002) and Renaud Soufflot de Magny (until 2006), with Antonis Papcostas as head of unit between 2003 and 2010.

The main survey results are regularly published on the European Commission's Public Opinion website in official standard and special topic reports.

2.4 Development of geographical and population coverage

In all European Union (formerly "European Communities") member countries Standard Eurobarometer samples were initially drawn among the national population, aged 15 and over. Starting with Eurobarometer 41.1 the target population is the population of any nationality of an European Union member country, aged 15 years and over, resident in any of the Member States. For test purposes Eurobarometer 41.0 included a non-national European Union citizens oversample.

Eurobarometer regularly include all member countries, starting with the six founder members and in accordance with the subsequent enlargement process. Norway has been in-officially included in selected waves between 1989 (EB34) and 1996 (EB46), Finland started before the actual enlargement in 1993 (EB39.0), and a few Swiss Eurobarometer were run in parallel to selected waves or topics starting in 1999 (EB51.1) in Switzerland. Candidate Countries (CC) and Accession Countries (AC) for the Eastern enlargement process were first surveyed in the Candidate Countries Eurobarometer series (2001-2004) and then all included in the standard series, even before accession as in the cases of Turkey or Macedonia.

Additional samples are drawn for Great Britain and Northern Ireland almost from the start, in Germany (East and West) after the re-unification in 1989, and in Cyprus for the Turkish Cypriote Community (Northern Cyprus) since 2004 for selected standard and topical waves.

		<i>Switzerland</i>	<i>CH</i>	<i>1000</i>	<i>standard and selected topical modules (EFTA)</i>
		<i>Norway</i>	<i>NO</i>	<i>1000</i>	

The regular standard sample size (in the sense of completed interviews) in Eurobarometer surveys is 1000 respondents per country, except small countries like Luxembourg or Malta. The 44.2bis MEGA-survey increased the standard sample up to 6000 respondents (for the largest countries) in order to achieve more confidence for analysis on sub-national level.

Oversamples have been drawn intermittently if required by the topic, i.e. to ensure that there are enough members of the relevant population subgroup to report sufficiently reliable estimates. Intentionally more people are selected from the respective group than would typically be done if everyone in the sample had an equal chance of being selected.

Table 3: Oversamples for special topic Eurobarometer

Topic	(Over-)Sample	Eurobarometer Survey
Young Europeans	Youth aged 15-24	17, 28.1, 34.2, 47.2OVR, 55.1OVR
Elderly Europeans	Elderly aged 60+	37.2
Consumer Behaviour	Responsible for shopping	41.0
Unemployment	Unemployed	44.3OVR
Working Conditions	Professionally active	37.0+1, 39.0+1
Drug Abuse	Youth aged 15-24	43.0+1, 57.2OVR
Education Issues	Youth aged 15-24	44.0 / 44.1 (data not integrated)

2.5 Standard question program and special topics

Standard Eurobarometer surveys were designed to provide a regular monitoring of the social and political attitudes among the European publics, to obtain regular readings of support for European integration, public awareness of and attitudes toward European unification, the institutions of the European Community / European Union, and its policies in complementary fashion. Attitudes toward the organization and role of the European Parliament and electoral behavior became a major topic in pre- and post- European Elections times. The standard program was complemented by measures of general socio-political orientations, of subjective satisfaction and the perceived quality of life, or of cultural, national and European identities.

Intermittently Standard Eurobarometer have investigated SPECIAL TOPICS, such as agriculture, biotechnology, energy, environment, family planning, gender roles, health related issues, immigration, poverty and social exclusion, regional identity, science and technology, information society, working conditions, urban traffic, knowledge of languages etc. In the case of some supplementary studies, special youth and elderly samples have been drawn (see table 3).

Starting with Eurobarometer 34 (1990) additional supplementary surveys on special issues have been conducted under each main wave number, identified by dot-separated sub-numbers for each individual survey. Usually only one survey per main wave includes the standard and trend module with focus on European integration issues. The following list (table 4) identifies the surveys containing the standard module and with results reported in the corresponding official standard report, or which at least include a subset of standard indicators, or with focus on European integration in a special topic context (e.g. "The future of Europe" in Eurobarometer 65.1).

Table 4: Overview of Eurobarometer surveys with standard EU and trend question modules

Further and regularly updated information on the Eurobarometer survey series is provided through the GESIS Eurobarometer Data Service micro-site: <http://www.gesis.org/eurobarometer>

3 Dataset structure and standards

Standard and Special Eurobarometer are processed and documented by the Inter-university Consortium for Political and Social Research (ICPSR) and by the GESIS Data Archive department in accordance with agreed standards, which may in some details diverge from the usual ICPSR or GESIS archive standards. In addition and as long as reasonable it was adhered to standards once established for the Eurobarometer series in the course of the years.

3.1 Dataset structure

In general the variable structure of the analysis dataset is aligned to the basic bilingual questionnaire, preceded by a set of technical variables. These comprise the archive identification variables (archive study and version id), the survey identification variables (wave and unique respondent id), and several standard NATION variables identifying the different samples (countries or regions) and relevant groups of samples in the dataset with the corresponding WEIGHT variables provided by the fieldwork institutes (see 1.7). A special alphanumeric NATION variable is provided based on the ISO 3166 country code standard for the purpose of breaking down variables by sample in terms of clearly summarized cross-tabulations.

The questionnaire variables usually consist of three types, the substantial questions (Q), the Eurobarometer standard demographics (D) and the interview protocol variables (P). The dataset is concluded by constructed index variables (C), usually as provided by the fieldwork institute, by a questionnaire SPLIT variable if applicable, and by further original identification variables.

Variable names consist of the standard prefix 'V' and the consecutive variable number, except ISOCNTRY and VERSION variables if subsequently added to older datasets. Variable labels are standardized in the sense that they provide keywords based on the question text and that these keywords are applied consistently if questions or question items are repeated over time (trend variables). Variable label may include abbreviations if required, e.g. limitations regarding the length of variable labels in older versions of statistical analysis software. Starting with Eurobarometer 33 the variable labels include the respective question number as a reference to the basic bilingual questionnaire.

3.2 Coding frames

By general rule, the variables adopt the coding frame as specified in the basic bilingual questionnaire, except multiple response questions (see 1.8), questions with country specific answer categories and missing values.

3.2.1 Country specific answer categories

Eurobarometer include some questions (variables) with country specific answer categories like INCOME, SIZE OF COMMUNITY, REGION or variables related to VOTING BEHAVIOUR with reference to POLITICAL PARTIES. Until Eurobarometer 48 only one integrated variable is supplied with each category representing country specific meanings (e.g. geographic regions) which are not documented within the analysis dataset by means of value labels, but only in the extended variable description in the variable report. Starting with Eurobarometer 49 the integrated variables are retained but complemented by completely labeled country specific variables. The country specific coding schemes and categories are maintained as a standard over time as long as the category schemes

provided in the questionnaire are remain comparable.

Special attention is given to the coding of POLITICAL PARTIES in voting behavior variables such as VOTE INTENTION or LAST VOTE based on a standard coding scheme, originally developed for the Eurobarometer by Ronald Inglehart.

Starting with Euro-Barometer 2 the coding of this variable has been standardized following an approximate ordering of each country's political parties along a "left" to "right" continuum in the first digit of the codes. Parties coded 01-39 are generally considered on the "left", those coded 40-49 in the "centre", and those coded 60-89 on the "right" of the political spectrum. Parties coded 50-59 cannot be readily located in the traditional meaning of "left" and "right". The second digit of the codes is not significant to the "left-right" ordering. Codes 90-99 contain the response "other party" and various missing data responses. Major "party families" like the Social Democrats or Conservatives have been assigned identical values across countries, if possible.

From Eurobarometer 69.2 onwards, the "party family" harmonization approach has been sharpened following and updating the coding scheme developed by ZEUS for the Mannheim Eurobarometer Trend File. This ZEUS Code of Party Families is country specific, i.e. the categories have different meanings for different countries. It has three digits: The first represents the party family, the second and third identify an individual party in this family. Individual parties are coded consistently over time. The assignment of parties to families is done according to their overall ideological orientations.

Table 5: ZEUS Party Family Code (slightly modified)

Category		Party Family
0	(001-099)	not affiliated / electoral alliances across "families"
1	(100-199)	Communists
2	(200-299)	Socialists
3	(300-399)	Liberals
4	(400-499)	Christian Democrats
5	(500-599)	Conservatives
6	(600-699)	Extreme Rights / Nationalists
7	(700-799)	Regionalists / Ethnic
8	(800-899)	Environmental parties
9	(900-949)	Agricultural parties
9	(950-989)	other special issue parties (e.g. Eurosceptics) and independents
	990	other (spontaneous)
	994	not voting age
	995	empty ballot (blank) or invalid vote
	996	not voted / would not vote
	997	Refused
	998	DK / DK+NA if NA not coded separately
	999	INAP (inappropriate)

If available, the former standard category used up to Eurobarometer 61 is always referenced in the variable description. Due to general changes in party systems and to the ideological development of individual political

parties, the assignment of parties to party families cannot claim general validity. Users may modify these codings or part of these codings in order to suit their specific needs.

3.2.2 Missing values

In general missing value codes are defined in accordance with the standard once established for the Eurobarometer series, in particular the default use of whatever value supplied by the basic questionnaire for DK ("don't know") responses, unless a standard coding scheme is applied for demographic or protocol variables. The value 0 is applied for NA (i.e. "not ascertained" resp. "no answer") and the value 9 (99, 999, ...) for INAP (i.e. "inappropriate" resp. "not applicable"). If one of these values falls into the valid range of codes, the missing values are shifted to the next available missing value code or "level", e.g. if 0 is used in a dichotomous variable (NOT MENTIONED), value 9 is used for NA, respectively value 8 if value 9 is already used for INAP. If necessary the corresponding two- or more digit codes are used (99, 999, 98, 998 ...). Recently separate missing values are coded for INAP depending on whether the respondent was not asked a question due to questionnaire routing (filter non-response) or whether the question was not provided for in the country's field questionnaire. Other missing values (e.g. REFUSAL) are coded with the in each case next available code (e.g. 7, 97, 997, ...). In the analysis data set these codes are by default declared and treated as USER MISSING, but may be modified by the user to suit specific needs.

3.3 International documentation standard

The variable documentation is set up in accordance with the international metadata specifications for the social and behavioural sciences, established by the Data Documentation Initiative <DDI>. The variable reports are based on the XML representation of DDI version 2. The documentation combines the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the basic bilingual (master) questionnaire with the variable description (variable name, values, and labels) of the analysis dataset. General remarks and comments referring to a certain variable are defined as variable notes. Notes can be references to trend (comparability) information, standards applied for coding frames, problems in questionnaire translation, but also references to data problems or other specific characteristics.

4 Explanation of the variable documentation

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. The variable documentation is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with international metadata standards (DDI-Codebook/XML).

In general, the following abbreviations are used to indicate countries or (sub-national) areas. As far as applicable, the ISO 3166-1 alpha-2 country codes have been applied and coded accordingly in the alphanumeric sample identification variable (NATION – ALL SAMPLES ISO 3166).

AT	Austria	HR	Croatia
BE	Belgium	HU	Hungary
BG	Bulgaria	IE	Ireland
CY	Cyprus	IT	Italy
CY-TCC	Turkish Cypriote Community	LT	Lithuania
CZ	Czech Republic	LU	Luxembourg
DE	Germany (–1989)	LV	Latvia
DE-W	Germany West (1990 ff.)	MK	Macedonia (FYROM)
DE-E	Germany East (1990 ff.)	MT	Malta
EE	Estonia	NL	The Netherlands
ES	Spain	PL	Poland
FI	Finland	PT	Portugal
FR	France	RO	Romania
GB	United Kingdom	SE	Sweden
GB-GBN	Great Britain	SI	Slovenia
GB-NIR	Northern Ireland	SK	Slovakia
GR	Greece	TR	Turkey

The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable. Results are usually broken down by country (sample) or represented by frequency counts in the case of country specific variables. In the case of variables with long lists of coded “real” values (e.g. age), results are only presented for the corresponding categorized variable, if available. The content and construction of technical, administrative or other generated variables is described as appropriate.

The frequencies for substantive variables are calculated on the base of weighted data, as indicated with each table and in accordance with the European Commission’s official Eurobarometer reports. Typically the sample specific post-stratification (redressment) weight is applied (WEIGHT RESULT FROM TARGET or NATION WEIGHT II). Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

The complete question and answer texts are taken from the English language part of the respective basic bilingual questionnaire (master questionnaire) as provided by the coordinating fieldwork institute.

CROSS-TABULATION: The absolute frequencies of the occurrence of values (<i>absolute values</i>) refer to the number of cases in the weighted dataset as indicated, in this case <i>weighted by V8</i> . The relative frequencies (<i>row percent</i>) refer to the valid cases (<i>n valid sum</i>), i.e. the total number of cases (<i>n sum</i>) reduced by the number of cases defined as missing data (<i>M</i>). For display and place saving reasons excluded countries or areas may be completely dropped from the table.																																																																																																																																																																																																																																																																																																																																																					
FREQUENCY COUNTS: For country specific variables relative frequencies are calculated in- and excluding missing data (<i>M</i>), i.e. <i>percent</i> on the basis of all cases (<i>sum</i>) and <i>valid percent</i> on the basis of the <i>valid cases</i> .																																																																																																																																																																																																																																																																																																																																																					

5 Variable Documentation

Variable, Label**Question Text (English Language)****v1 - ICPSR STUDY NUMBER**

ICPSR Study Number

9697 The ICPSR has attached this as a unique data collection identification number.

v1

Value	Label	Missing	Count	Percent	Valid Percent
9697	ICPSR Study Number		13121	100.0	100.0
	Sum		13121	100.0	100.0
	Valid Cases		13121		

v2 - ZA STUDY NUMBER

ZA Study Number

2031 The ZA has attached this as a unique data collection identification number.

v2

Value	Label	Missing	Count	Percent	Valid Percent
2031	ZA Study Number		13121	100.0	100.0
	Sum		13121	100.0	100.0
	Valid Cases		13121		

v3 - ICPSR EDITION NUMBER

ICPSR Edition Number

The number identifying the release edition of this dataset.

2 Second ICPSR Edition - November 1998

Note:

Please see variable VERSION ("GESIS ARCHIVE VERSION") for further information on the version number of this data set and the corresponding release date.

v3

Value	Label	Missing	Count	Percent	Valid Percent
2	ICPSR Edition Number		13121	100.0	100.0
	Sum		13121	100.0	100.0
	Valid Cases		13121		

version - GESIS ARCHIVE VERSION

VERSION AND RELEASE DATE OF THE ARCHIVE DATA SET

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

On occasion of the implementation of this versioning scheme (2010-04-13), the default version number 1.0.0 has been created automatically for this Eurobarometer.

Version 1.1.0 adds the crosstabulation variable ISOCNTRY and the VERSION variable and makes minor errata corrections which are documented on variable level, if applicable.

Former version or edition identification variables are maintained unchanged as a reference to former releases.

version

Value	Label	Missing	Count	Percent	Valid Percent
1.1.0 (2012-07-01)			13121	100.0	100.0
	Sum		13121	100.0	100.0
	Valid Cases		13121		

v4 - ICPSR PART NUMBER

ICPSR Part Number

The number identifying this part of a 1-part study.

1 Part one of a one-part study

v4

Value	Label	Missing	Count	Percent	Valid Percent
1	ICPSR Part Number		13121	100.0	100.0
	Sum		13121	100.0	100.0
	Valid Cases		13121		

v5 - ICPSR CASE ID

Sequential respondent identification number assigned by ICPSR.

A unique identification number is assigned to each respondent.

Note:

Actual number is coded.

isocntry - NATION - ALL SAMPLES ISO 3166 (CROSSTABULATION VARIABLE)

NATION - ALL SAMPLES ISO 3166 (CROSSTABULATION VARIABLE)

All surveyed countries and regions, i.e. including separate samples for East- / West-Germany, Great Britain / Northern Ireland, and the Turkish Cypriot Community (TCC), are coded in accordance with the ISO 3166-1-alpha-2 country code, if available. ISO 3166-2 is applied for the United Kingdom subdivisions. ISO standard codes are not available for the "historical" East / West subdivision of Germany (DE-E / DE-W) and for the Turkish Cypriot Community in northern Cyprus (CY-TCC), the internationally not recognized "Turkish Republic of Northern Cyprus".

	Sum		13121	100.0	100.0
	Valid Cases		13121		

v7 - WEIGHT SPECIAL UNITED KINGDOM

Weight Special United Kingdom

This variable adjusts the British and Northern Irish samples to their respective proportions in the United Kingdom. All nation weights are included.

Note:

Unlike the "Nation Weight I" in earlier Eurobarometers up to 31 this weight adjusts all samples to the standard size.

v8 - NATION II (GB AND NORTHERN IRELAND)

Nation of interview II

The two samples for the United Kingdom - Great Britain and Northern Ireland - are coded separately.

- 1 France
- 2 Belgium
- 3 Netherlands
- 4 West Germany
- 5 Italy
- 6 Luxembourg
- 7 Denmark
- 8 Ireland
- 9 Great Britain
- 10 Northern Ireland
- 11 Greece
- 12 Spain
- 13 Portugal
- 14 East Germany

v8

Value	Label	Missing	Count	Percent	Valid Percent
1	France		1000	7.6	7.6
2	Belgium		1061	8.1	8.1
3	Netherlands		1035	7.9	7.9
4	West Germany		1073	8.2	8.2
5	Italy		1007	7.7	7.7
6	Luxembourg		504	3.8	3.8
7	Denmark		1000	7.6	7.6

14	East Germany		1071	8.2	8.2
	Sum		13121	100.0	100.0
	Valid Cases		13121		

v9 - WEIGHT RESULT FROM TARGET

Weight Result from Target

This variable contains weights that adjust the weighted samples to make them representative for the countries from which they were drawn. It reproduces the real number of cases for each EC country. Great Britain and Northern Ireland are treated as independent samples.

Note:

This weight corresponds to "Nation Weight II" in earlier Eurobarometers up to 31.

v10 - WEIGHT ADJUSTED TO STANDARD SIZE

Weight Adjusted to Standard Size

This variable corresponds to "Weight Result from Target" adjusting all samples to the standard size of 1000 respectively 300 (Northern Ireland) or 500 (Luxembourg) cases. Great Britain (n=1000) and Northern Ireland (n=300) are weighted as independent samples.

v11 - NATION III (UNITED GERMANY)

Nation of interview III

East and West Germany are coded together: United Germany.

- 1 France
- 2 Belgium
- 3 Netherlands
- 4 Germany
- 5 Italy
- 6 Luxembourg
- 7 Denmark
- 8 Ireland
- 9 Great Britain
- 10 Northern Ireland
- 11 Greece
- 12 Spain
- 13 Portugal

v11

Value	Label	Missing	Count	Percent	Valid Percent
1	France		1000	7.6	7.6
2	Belgium		1061	8.1	8.1
3	Netherlands		1035	7.9	7.9
4	Germany		2144	16.3	16.3
5	Italy		1007	7.7	7.7
6	Luxembourg		504	3.8	3.8
7	Denmark		1000	7.6	7.6
8	Ireland		1015	7.7	7.7
9	Great Britain		1056	8.0	8.0
10	Northern Ireland		297	2.3	2.3
11	Greece		1001	7.6	7.6
12	Spain		1001	7.6	7.6
13	Portugal		1000	7.6	7.6
	Sum		13121	100.0	100.0
	Valid Cases		13121		

v12 - WEIGHT SPECIAL GERMANY

Weight Special Germany

This variable adjusts the East and West German samples to their respective proportions in the united Germany. All EC nation weights are included and all samples adjusted to the standard size.

v13 - WEIGHT EURO 6

European Weight 6

This variable contains the weight that adjusts each national sample in proportion to its nation's share in the total population of the European Community countries in their historic composition. This weight includes the six EC founder-members (France, Belgium, The Netherlands, West Germany, Italy, and Luxembourg) and includes national weighting for each sample adjusted to the standard size.

v14 - WEIGHT EURO 10

European Weight 10

This variable contains the weight that adjusts each national sample in proportion to its nation's share in the total population of the European Community countries in their historic composition. This weight excludes East Germany, Spain and Portugal. This weight includes national weighting for each sample adjusted to the standard size.

v15 - WEIGHT EURO 12

European Weight 12 (Great Britain and Northern Ireland together)

This variable contains the weight that adjusts each national sample in proportion to its nation's share in the total population of the European Community countries as categorized by Nation I (V5). This weight excludes East Germany.

v16 - WEIGHT EUROPE 12 +

Weight Euro 12+

This variable contains weights that adjust each national sample in proportion to its nation's share in the total population of all the European Community countries. East Germany and Northern Ireland are treated as separate samples. The national weights for each sample are included. Unlike the "EUROPEAN WEIGHT" in earlier Eurobarometers up to 31 this weight contains the adjustment to the standard size.

v17 - Q1 ELECTORAL REGISTER

Q.1.

Are you ... (NATIONALITY)? (IF YES) Do you know whether your name appears in the Electoral Register (the register of people entitled to vote at the next General Election), under your present address, at another address or does not appear at all?

(IF CODE 5 CLOSE INTERVIEW)

- 1 At present address
- 2 At another address
- 3 Don't know if registered
- 4 Does not appear at all
- 5 Is not ... (NATIONALITY)

Note:

v28 - Q10 NATO AND NATIONAL SECURITY

Q.10

ASK Q.8 TO Q.12 ALL COUNTRIES EXCEPT LUXEMBOURG AND NORTHERN IRELAND

This question concerns NATO, that is the North Atlantic Treaty Organization of Western Europe, the United States and Canada.

Some people say that NATO is still essential to (OUR COUNTRY'S) security. Others say that it is no longer essential. Which of these views is closer to your own?

(P.S. IN FRANCE, SAY "ATLANTIC ALLIANCE" INSTEAD OF "NATO." IN REPUBLIC OF IRELAND SAY "ESSENTIAL FOR WESTERN EUROPE'S SECURITY" INSTEAD OF "ESSENTIAL TO OUR COUNTRY'S SECURITY.")

0 NA

1 Still essential

2 No longer essential

v60 - Q33 EC COMMON AGRICULT POLICY - REFORM

Q.33

In order to stop the new growth in agricultural surpluses, the European Commission envisages a reform of the Common Agricultural Policy. It foresees the gradual replacement of the high prices guaranteed to all farmers by direct income support for small and medium farmers. Do you think that this reform would be a good thing or a bad thing?

- 0 NA
- 1 A good thing
- 2 A bad thing
- 3 Neither good nor bad (SPONTANEOUS)
- 4 DK

v137 - Q51A GREENH EFF CAUSE: NUCLEAR ENERGY

Q.51

FOR EACH PROBLEM MENTIONED IN Q.49

Which of the following do you think could cause the problem of...?

(SHOW CARD ** READ OUT)

a) the greenhouse effect (global warming)?

b) acid rain?

c) the destruction of the ozone layer?

Q.51_A4 a) the greenhouse effect (global warming)?

4) The use of nuclear energy

Q.51

FOR EACH PROBLEM MENTIONED IN Q.49

Which of the following do you think could cause the problem of...?

(SHOW CARD ** READ OUT)

a) the greenhouse effect (global warming)?

b) acid rain?

c) the destruction of the ozone layer?

Q.51_B3 b) acid rain?

3) The use of natural gas as a fuel

v167 - Q52A ENERGY RESOURCES: PRICE STABILITY

Q.52

Thinking now at (OUR COUNTRY's) energy resources over the next ten years or so...

(SHOW CARD ** ONLY ONE ANSWER PER COLUMN)

a) Which one do you think will be the most stable in terms of price?

b) And which one do you think will be the most reliable in terms of supplies?

c) And finally, which one involves the lowest risk of pollution for the future?

Q.52A a) Price stability

0 NA

1 Solid fuel (coal, lignite, peat, ...)

2 Oil

3 Natural gas

4 Nuclear energy

5 Renewable energy (solar, hydro-electricity, wind)

6 DK

v170 - Q53 NUCLEAR ENERGY - OPINION ABOUT

Q.53

All industrial development requires effort, time and money. It may also involve some risk. Here are three opinions about the development of nuclear power stations that is installations which use nuclear energy to produce electricity. Which of these three statements comes closest to your own opinion on this subject?

(SHOW CARD ** - ONE ANSWER ONLY)

0 NA

1 It is worthwhile to develop nuclear energy

2 The development of nuclear energy involves an unacceptable risk and should be abandoned

3 One should neither develop, nor abandon nuclear energy

v205 - Q60 RADIOACTIVITY INFO: DOCTORS

Q.60

ASK ALL

Information on radioactivity levels can come from various sources. For each information source which I read out to you, please tell me to what extent you have confidence in it to tell you the truth about levels of radioactivity in (OUR COUNTRY) : complete confidence, a fair degree of confidence, not much confidence or no confidence at all?

(SHOW CARD **)

v226 - Q63 RADIOACT SERIOUS: HAVING X-RAY DONE

Q.63

I am going to show you a certain number of situations which expose people to radiation. From this list (SHOW CARD **), could you tell me the two situations which in your opinion lead to the most serious consequences?

(TWO REPLIES ONLY)

Q.63_5 e) Having an X-ray done

v250 - D13 AGE EXACT

D.13

How old are you?

0 NA

15 Years old

95 Years old

Note:

This variable is respondent's age in years

Actual number is coded

Last trend: D.13 in EB34.0

v251 - D13R AGE RECODED - 4 CATEGORIES

D.13R1. Respondents's age recoded - four groups

- 0 NA
- 1 15-24 (years)
- 2 25-39 (years)
- 3 40-54 (years)
- 4 55 and more (years)

Derivation:

This variable collapses answers to D.13 into four age groups

Note:

See D.13 for complete question text

Last trend: D.13 in EB34.0

v255 - D16 INCOME HH

D.16

We would like to analyze the survey results according to the income of the people we interviewed.

(SHOW INCOME CARD **)

Here is an income scale; we would like to know in what group your family is, counting all wages, salaries, child allowances, pensions, and any other income that comes in. Just give me the letter of the group your household falls into before tax and other deductions.

97 Refusal

98 DK

in France (FR):

French francs per month

- 1 Less than 4.000
- 2 4.000-4.999
- 3 5.000-5.499
- 4 5.500-5.999
- 5 6.000-6.999
- 6 7.000-7.999
- 7 8.000-8.999
- 8 9.000-9.999
- 9 10.000-10.999
- 10 11.000-12.499
- 11 12.500-14.999
- 12 15.000 or more

in Belgium (BE):

Belgian francs per month

- 1 Less than 20.000
- 2 20.000-29.999
- 3 30.000-39.999
- 4 40.000-49.999
- 5 50.000-59.999
- 6 60.000-69.999
- 7 70.000-79.999
- 8 80.000-89.999

- 10 100.000-109.999
- 11 110.000-119.999
- 12 120.000 or more

in Netherlands (NL):

Dutch guilders per month

- 1 Less than 1.500
- 2 1.500-1.749
- 3 1.750-1.999

- 4 2.000-2.249
- 5 2.250-2.499
- 6 2.500-2.749
- 7 2.750-3.249
- 8 3.250-3.749
- 9 3.750-4.249
- 10 4.250-5.249
- 11 5.250-6.250
- 12 6.250 or more

in Germany - West (DE_W):

German marks per month

- 1 Less than 1.500
- 2 1.501-1.750
- 3 1.751-2.000
- 4 2.001-2.250
- 5 2.251-2.500
- 6 2.501-2.750
- 7 2.751-3.000
- 8 3.001-3.500
- 9 3.501-4.000
- 10 4.001-4.500
- 11 4.501-5.000
- 12 5.001 or more

in Italy (IT):

Italian lire per month

- 1 Less than 750.000
- 2 750.00-1.000.000
- 3 1.000.001-1.500.000
- 4 1.500.001-1.750.000
- 5 1.750.001-2.000.000
- 6 2.000.001-2.500.000
- 7 2.500.001-3.000.000
- 8 3.000.001-3.500.000
- 9 3.500.001-4.000.000
- 10 4.000.001-4.500.000
- 11 4.500.001-5.000.000
- 12 5.000.001 or more

in Luxembourg (LU):

Luxembourg francs per month

- 1 Less than 50.000
- 2 50.000-59.999
- 3 60.000-69.999
- 4 70.000-79.999
- 5 80.000-89.999

- 6 90.000-94.999
- 7 95.000-99.999
- 8 100.000-109.999
- 9 110.000-119.999
- 10 120.000-129.999
- 11 130.000-139.999
- 12 140.000 or more

in Denmark (DK):

Danish kroner PER YEAR

- 1 Less than 70.000
- 2 70.000-99.999
- 3 100.000-129.999
- 4 130.000-169.999
- 5 170.000-199.999
- 6 200.000-239.999
- 7 240.000-269.999
- 8 270.000-299.999
- 9 300.000-349.999
- 10 350.000-399.999
- 11 400.000-449.999
- 12 450.000 or more

in Ireland (IE):

Irish pounds per month

- 1 less than 240
- 2 240-319
- 3 320-399
- 4 400-479
- 5 480-599
- 6 600-729
- 7 730-829
- 8 830-999
- 9 1.000-1.149
- 10 1.150-1.664
- 11 1.665-2.000
- 12 2.000 and over

in Great Britain (GB_GBN):

U.K. pounds per month

- 1 less than 240
- 2 240-319
- 3 320-399
- 4 400-479
- 5 480-599
- 6 600-729
- 7 730-829

- 8 830-999
- 9 1.000-1.149
- 10 1.150-1.664
- 11 1.665-2.000
- 12 2.000 and over

in Northern Ireland (GB_NIR):

U.K. pounds per month

- 1 less than 240
- 2 240-319
- 3 320-399
- 4 400-479
- 5 480-599
- 6 600-729
- 7 730-829
- 8 830-999
- 9 1.000-1.149
- 10 1.150-1.664
- 11 1.665-2.000
- 12 2.000 and over

in Greece (GR):

Greek drachmas per month

- 1 Less than 40.000
- 2 40.001-60.000
- 3 60.001-80.000
- 4 80.001-100.000
- 5 100.001-120.000
- 6 120.001-140.000
- 7 140.001-160.000
- 8 160.001-180.000
- 9 180.001-200.000
- 10 200.001-240.000
- 11 240.001-280.000
- 12 280.001 or more

in Spain (ES):

Spanish pesetas per month

- 1 Less than 40.000
- 2 40.001-50.000
- 3 50.001-60.000
- 4 60.001-70.000
- 5 70.001-80.000
- 6 80.001-90.000
- 7 90.001-100.000
- 8 100.001-125.000
- 9 125.001-150.000

- 10 150.001-175.000
- 11 175.001-200.000
- 12 200.001 or more

in Portugal (PT):

Portuguese escudos per month

- 1 Less than 30.000
- 2 30.000-39.999
- 3 40.000-49.999
- 4 50.000-54.999
- 5 55.000-59.999
- 6 60.000-69.999
- 7 70.000-79.999
- 8 80.000-99.999
- 9 100.000-109.999
- 10 110.000-119.999
- 11 120.000-129.999
- 12 130.000 or more

in Germany - East (DE_E):

German marks per month

- 1 Less than 750
- 2 751-1.000
- 3 1.001-1.250
- 4 1.251-1.500
- 5 1.501-1.750
- 6 1.751-2.000
- 7 2.001-2.250
- 8 2.251-2.500
- 9 2.501-2.750
- 10 2.751-3.000
- 11 3.001-3.250
- 12 3.251 or more

v258 - D18 OCCUPATION OF RESPONDENT - LAST JOB

D.18

TO THOSE WHO ARE NOT DOING ANY PAID WORK: CODES 13 TO 17 IN D.17

Did you do any paid work in the past? (IF YES) What was your last occupation?

(WRITE IN AND CODE)

SELF EMPLOYED

- 1 Farmer
- 2 Fisherman
- 3 Professional (lawyer, medical practitioner, accountant, etc.)
- 4 Owners of shops or companies, craftsmen, business proprietors

EMPLOYED

- 5 Employed professional (employed lawyer, medical practitioner, accountant)
- 6 General management
- 7 Middle management
- 8 Other office employees
- 9 Non-office employees, non manual workers (shop assistants, etc.)
- 10 Supervisors
- 11 Skilled manual worker
- 12 Other manual worker

0 Never did any paid work

98 NA

99 INAP - Not coded 13 to 17 in V257

Note:

Last trend: D.18 in EB34.0

v264 - D24 OCCUPATION HEAD OF HH - LAST JOB

D.24

ASK THOSE WHERE HEAD OF HOUSEHOLD DOES NOT DO ANY PAID WORK: CODES 13 TO 17 IN D.23

Did the head of household do any paid work in the past?

(IF YES)

What was his/her last occupation?

(WRITE IN AND CODE)

SELF EMPLOYED

- 1 Farmer
- 2 Fisherman
- 3 Professional (lawyer, medical practitioner, accountant, etc.)
- 4 Owners of shops or companies, craftsmen, business proprietors

EMPLOYED

- 5 Employed professional (employed lawyer, medical practitioner, accountant)
- 6 General management
- 7 Middle management
- 8 Other office employees
- 9 Non-office employees, non manual workers (shop assistants, etc.)
- 10 Supervisors
- 11 Skilled manual worker
- 12 Other manual worker

WITHOUT PAID WORK

- 0 Head of household never did any paid work

98 NA

99 INAP - Currently working; Not coded 13-17 in V264 / Not head of household; Coded 1 in V263

v269 - D29 RELIGION - CHURCH ATTENDANCE

D.29

TO THOSE WITH CODE 1 TO 4 ON D.28

Do you attend religious services several times a week, once a week, a few times a week, once a year or less or never?

(ONE ANSWER ONLY)

- 0 NA
- 1 Several times a week
- 2 Once a week
- 3 A few times a year
- 4 Once a year or less
- 5 Never
- 6 DK
- 9 INAP - Not coded 1 to 4 in V268

v278 - P6 SIZE OF COMMUNITY

P.6 (Objective) Size of Locality (Population Size)

in France (FR):

- 1 Less Than 2000 Inhabitants
- 2 2.000-20.000
- 3 20.001-100.000
- 4 More Than 100.000
- 5 Paris

in Belgium (BE):

- 1 Grand Centre
- 2 Localite Urbaine
- 3 Localite Secondaire
- 4 Autre Localite

in Netherlands (NL):

- 1 Less Than 5.000 Inhabitants
- 2 5.000-10.000
- 3 10.000-20.000
- 4 20.000-50.000
- 5 50.000-100.000
- 6 100.000-400.000
- 7 More Than 400.000

in Germany - West (DE_W):

- 1 Less Than 2.000 Inhabitants
- 2 2.000-4.999
- 3 5.000-19.999
- 4 20.000-49.999
- 5 50.000-99.999
- 6 100.000-499.999
- 7 500.000 And More

in Italy (IT):

- 1 Up To 10.000 Inhabitants
- 2 10.001-100.000
- 3 100.001-250.000
- 4 More Than 250.000

in Luxembourg (LU):

- 1 Up To 2.500 Inhabitants
- 2 2.501-5.000
- 3 5.001-10.000

- 4 10.001-20.000
- 5 20.001-50.000
- 6 More Than 50.000 - Luxembourg Ville

in Denmark (DK):

- 1 Less Than 2.000 Inhabitants
- 2 2.000-4.999
- 3 5.000-9.999
- 4 10.000-19.999
- 5 20.000-49.999
- 6 50.000-99.999
- 7 100.000 And More

in Ireland (IE):

- 1 Less Than 2.000 Inhabitants
- 2 2.000-20.000
- 3 20.001-100.000
- 4 More Than 100.000

in Great Britain (GB_GBN):

- 1 Metropolitan
- 2 Other 100% Urban
- 3 Mixed Urban-rural
- 4 Rural

in Northern Ireland (GB_NIR):

- 1 Less Than 2.000 Inhabitants
- 2 2.000-20.000
- 3 20.001-100.000
- 4 More Than 100.000

in Greece (GR):

- 1 Up To 2.000 Inhabitants
- 2 2.001-10.000
- 3 10.001-50.000
- 4 50.001-1.000.000
- 5 1.100.001 and More

in Spain (ES):

- 1 Up To 2.000 Inhabitants
- 2 2.001-10.000
- 3 10.001-50.000
- 4 50.001-100.000
- 5 100.001-300.000
- 6 300.001-500.000
- 7 500.001-1.000.000
- 8 More Than 1.000.000

in Portugal (PT):

- 1 Less Than 100 Inhabitants
- 2 101-200
- 3 201-500
- 4 501-1.000
- 5 1.001-2.000
- 6 2.001-5.000
- 7 5.001-10.000
- 8 10.001-30.000
- 9 30.001-100.000
- 10 100.001-500.000
- 11 More Than 500.000

in Germany - East (DE_E):

- 1 Up To 2.000 Inhabitants
- 2 2.001-20.000
- 3 20.001-100.000
- 4 100.001-500.000
- 5 500.001 And More

v280 - P7R REGION II

P.7R Region II (NUTS I Level / Recoded)

99 INAP - (not coded)

in France (FR):

(Eurostat NUTS I Level)

- 1 Ile de France
- 2 Bassin Parisien
- 3 Nord-pas de Calais
- 4 East
- 5 West
- 6 South West
- 7 Centre East
- 8 Mediterranee

in Belgium (BE):

(Eurostat NUTS I Level) (Regions)

- 1 Wallonie
- 2 Bruxelles
- 3 Vlaanderen

in Netherlands (NL):

(Eurostat NUTS I Level) (Landsdelen)

- 1 North
- 2 East
- 3 West
- 4 South

in Germany - West (DE_W):

(Eurostat NUTS I Level) (Bundeslaender)

- 1 Schleswig Holstein
- 2 Hamburg
- 3 Niedersachsen
- 4 Bremen
- 5 Nordrhein - Westfalen
- 6 Hessen
- 7 Rheinland Pfalz
- 8 Baden Wuerttemberg
- 9 Bayern
- 10 Saarland
- 11 Berlin (West)

in Italy (IT):

(Eurostat NUTS I Level) (Gruppi di regioni)

- 1 North West
- 2 Lombardia
- 3 North East
- 4 Emilia Romagna
- 5 Centre
- 6 Lazio
- 7 Molise e Abruzzi
- 8 Campania
- 9 South
- 10 Sicilia
- 11 Sardegna

in Luxembourg (LU):

- 99 INAP - (not coded)

in Denmark (DK):

- 99 INAP - (not coded)

in Ireland (IE):

- 1 Dublin
- 2 Rest of Leinster
- 3 Munster
- 4 Connaught/Ulster

in United Kingdom (GB):

(Eurostat NUTS I Level - modified) (Standard Regions)

- 1 Scotland
- 2 North, Yorkshire, Humberside and North West
- 3 East and West Midlands, East Anglia
- 4 Wales
- 5 GLC (coded 12 through 18 in V279)
- 6 South East and South West
- 7 Northern Ireland

in Greece (GR):

- 99 INAP - (not coded)

in Spain (ES):

- 1 Galicia
- 2 North
- 3 North-East
- 4 Aragon, Rioja
- 5 Madrid
- 6 Centre
- 7 Cataluna
- 8 East
- 9 South

10 Canarias

in Portugal (PT):

99 INAP - (not coded)

in Germany - East (DE_E):

(Eurostat NUTS I Level)

11 Berlin (Ost)

12 Brandenburg

13 Mecklenburg-Vorpommern

14 Sachsen

15 Sachsen-Anhalt

16 Thuringen

Note:

Only in the case of West Germany "Region II" corresponds to the variable "Region" in earlier Eurobarometers up to 31. If indicated, "Region II" units are consistent with the EUROSTAT nomenclature for regional statistics (NUTS)

Starting with Eurobarometer 34 and up to survey 61, NUTS 1 level data (REGION II) for the NETHERLANDS are not (re-)coded in accordance with the official EUROSTAT nomenclature of territorial unit statistics. The NUTS 2 level province ZEELAND should be coded as belonging to NUTS 1 region (landsdel) WEST instead of SOUTH Netherlands. Archive releases have been corrected from EB 51 onwards.

v281 - C1 OPINION LEADERSHIP INDEX

C.1. Opinion Leadership Index

0 NA - Coded 0 or 5 for V20 and 0 or 4 for V21

1 (+4) ++ high (Coded 1 or 2 for V20 and 1 for V21)

2 (+3) + (Coded 3, 4, 5, or 0 for V20 and 1 for V21; or coded 1 or 2 for V20 and 2, 4, or 0 for V21; or coded 0 or 5 for V20 and 2 for V21)

3 (+2) - (Coded 3 or 4 for V20 and 2, 4, or 0 for V21; or coded 1, 2, 0 or 5 V20 and 3 for V21)

4 (+1) -- low (Coded 3 or 4 for V20 and 3 for V21)

Derivation:

Cognitive mobilization index is based on the answers to the following two questions:

(Q.4/V20) "When you, yourself hold a strong opinion, do you ever find yourself persuading your friends, relatives or fellow workers to share your views? If so, does this happen often, from time to time or rarely?" AND

(Q.5/V21) "When you get together with your friends, would you say you discuss political matters frequently, occasionally or never?"
">

Labels are: ++, +, -, --.

Interviewees giving affirmative answers to both questions are labeled ++.

Interviewees giving negative answers to both questions are labeled --.

Middle categories (+ and -) are constituted correspondingly.

This variable forms an indicator of the individual's potential to take an active role in the political process.

For a complete discussion of this variable and its correlates, see Ronald Inglehart, THE SILENT REVOLUTION: CHANGING VALUES AND POLITICAL STYLES AMONG WESTERN PUBLICS (Princeton University Press, 1977), Chapter 11.

Note:

This variable is labeled the Opinion Leadership Index in the codebooks for Euro-Barometers 3, 4, 5, and 6.

v282 - C2 VALUE ORIENTATION POST-MATERIALISM

C.2. Value Orientation (Materialist/Post-materialist values index)

0 NA - (Coded 0 or 5 for V22 and 0 or 5 for V23)

1 Materialist - (coded 1 for V22 and 3 for V23; or coded 3 for V22 and 1 for V23)

2 Mixed - (coded 1 or 3 for V22 and 2 or 4 for V23; or coded 2 or 4 for V22 and 1 or 3 for V23; or coded 0 or 5 for V22 and 1, 2, 3, or 4 for V23; or coded 1, 2, 3, or 4, for V22 and 0 or 5 for V23; or coded the same in value in both V22 and V23)

3 Post materialist - (coded 2 for V22 and 4 for V23; or coded 4 for V22 and 2 for V23)

Derivation:

This index was constructed from responses to Q.6_1/V22 and Q.6_2/V23: "There is a lot of talk these days about what this country's goals should be for the next ten or fifteen years. On this card are listed some of the goals that different people say should be given top priority (show card). Would you please say which of them you yourself consider most important in the long run?" (one answer only) "And what would be your second choice?"

Card:

- (1) Maintaining order in the nation
- (2) Giving the people more say in important government decisions
- (3) Fighting rising prices
- (4) Protecting freedom of speech

Respondents combining item (1) and (3) are labeled "materialist",

Those combining items (2) and (4) are labeled "post-materialist"

Respondents combining items (1) and (1) or (3) and (3) are labeled "materialist",

Respondents combining items (2) and (2) or (4) and (4) are labeled "post-materialist", and

Others are labeled "mixed."

For a complete discussion of this variable, see Ronald Inglehart, the SILENT REVOLUTION: CHANGING VALUES AND POLITICAL STYLES AMONG WESTERN PUBLICS (Princeton University Press, 1977).

v283 - C3 TYPOLOGY OF EUROPEAN ATTITUDES

C.3. Typology of European Attitudes

- 1 Positive (attitudes - coded 1 for V36 and either 1 or 2 for V35)
- 2 Ambivalent (attitudes - coded either 0, 2, or 3 for V36 and either 1 or 2 for V35; or coded either 0, 1, or 3 for V36 and either 3 or 4 for V35; or coded 0 for V36 and 0 for V35)
- 3 Negative (attitudes - coded 2 for V36 and either 3 or 4 for V35)

Derivation:

This variable was constructed from responses to questions Q.17/V35 and Q.18/V36:

"Generally speaking, do you think that (your country's) membership of (in) the European Community is: good thing; bad thing; neither good nor bad?" (= MEMBERSHIP) and "In general, are you for or against efforts being made to unify Western Europe? are you... for very much; for, to some extent; against, to some extent; against, very much?" (= UNIFICATION). Positive Attitudes: MEMBERSHIP "Good" and UNIFICATION "For...". Ambivalent Attitudes: MEMBERSHIP "Neither good nor bad" or MEMBERSHIP "Good" + UNIFICATION "Against..." or MEMBERSHIP "Bad" and UNIFICATION "For..." or DK/NA or MEMBERSHIP: "No answer" + UNIFICATION "No answer". Negative Attitudes = MEMBERSHIP: "Bad" + UNIFICATION: "Against...".

v284 - C4 OCCUPATION RECODED - SOC PROF STATUS

C.4. - Socio Professional Status

- 0 NA
- 1 Farmer & fisher
- 2 Professionals
- 3 Shops/company owners
- 4 Employed professionals
- 5 General management
- 6 Middle management
- 7 Other office employees
- 8 Non office employees
- 9 Supervisors
- 10 Skilled manuals
- 11 Other manuals

Derivation:

Roughly half of the representative sample of the European Community public was without paid work. Basing cross- analyses on "occupation" (D.17/V257) would exclude half of the respondents from analysis. An alternative, also used in past Euro-barometer reports, is to base analyses on a (non-Marxist) concept of "objective social class" using "occupation of the head of household" as reference. In order to classify as many respondents as possible with respect to their socio- professional setting, a new classification was created called "socio-professional status."

The following standards were used:

For those in paid work (D.17/V257), it is based on their own present occupation.

For those not in paid work, "former occupation" (D.18/V258) was used, if applicable (retired, housewives having been in paid work in the past, temporarily not working, unemployed).

For those never having been in paid work, "occupation of the head of household" (D.23/V263) was used. If the head of household was not in paid work at the time of the interview, his or her "former occupation" (D.24/V264) was used, if applicable.

Consequently, socio-professional status is a classification "that comes as close to the respondent himself/herself as possible" but that draws upon additional background information to the extent necessary and available, in order to avoid a single measure of interviewees' socio-professional setting and to include the maximum number of respondents in the respective analyses.

v285 - C5 EUROPEAN POL PARTY PREFERENCE

C.5. - European Political Party Preference

- 0 NA
- 1 (S) Socialist Group
- 2 (PPE) Group of the European People's Party (Christian Democrats)
- 3 (LDR) Liberal and Democratic Reformist Group
- 4 (DE) European Democratic Group (Conservatives)
- 5 (V) The Green Group
- 6 (GUE) Group for the European Unitarian Left
- 7 (RDE) Group of the European Renewal and Democratic Alliance (Gaullist/FF (IRL))
- 8 (DR) Group Technical of the Right
- 9 (CG) (Comm.) Left Unity
- 10 (ARC) Rainbow Group
- 11 (NI) Non-attached
- 12 Non-represented/Others
- 13 Other Answer

Derivation:

This index is a 13 category recode of two vote intention questions (D.4/V235 and the follow-up question D.5/V236): "If there were a general election tomorrow (say if contact under 18: and you had a vote), which party would you support?"

Answers are grouped according to the affiliation of the representatives of the respective party to a group in the European Parliament.

If a party was not represented in the European Parliament at the time the survey was carried out but had been represented before, its supporters are included in the European Parliament group their party has previously been affiliated with. Supporters of parties represented in the European Parliament whose members (of the European Parliament) are not affiliated with any group are labeled N.I. Supporters of parties not represented in the European Parliament are labeled "other." Labels are presented in the order in which they occur in the "List of Members" of the European Parliament of October 1989.

v286 - C6 COMMITMENT TO THE COMMON MARKET

C.6. Support for the European Community Index (Commitment to the Common Market)

- 1 Strong opposition (coded 2 for V36 and 3 for V38)
- 2 Moderate opposition (coded 0, 3, or 4 for V36 and 3 for V38; or coded 2 for V36 and 0, 2 or 4 for V38)
- 3 Neutral opposition (coded 0, 3 or 4 for V36 and 0, 2, or 4 for V38; or coded 1 for V36 and 3 for V38 or coded 2 for V36 and 1 for V38);
- 4 Moderate support (coded 0, 3, or 4 for V36 and 1 for V38; or coded 1 for V36 and 0, 2, or 4 for V38)
- 5 Strong support (coded 1 for V36 and 1 for V38)

Derivation:

This index of support for the E.C. was constructed from responses to the questions: "Generally speaking, do you think that (your country's) membership of the European Community (Common Market) is... a good thing, a bad thing, or neither good nor bad?" (Q.18/V36) and "If you were told tomorrow that the European Community (Common Market) had been scrapped, would you be very sorry about it, indifferent or very relieved?" (Q.20/V38).

v287 - C9 TYPOLOGY OF SINGLE MARKET ATTITUDES

C.9. Typology of Single Market Attitudes

0 NA - (coded 0 for V93 and 0 for V94)

1 Positive attitudes (coded 1 or 2 for V93 and 1 for V94)

2 Ambivalent attitude/undecided (coded 1, 2 or 5 for V93 and 2, 3, 4 or 0 for V94; or coded 3, 4 or 5 for V93 and 1, 3, 4 or 0 for V94; or coded 0 for V93 and 3 or 4 for V94)

3 Negative attitudes (coded either 3 or 4 for V93 and 2 for V94)

Derivation:

This variable was constructed from responses to two different questions (Q.42/V93 and Q.43/V94): Whether respondents react to the single market with hope or fear and their evaluation ("good thing"/"bad thing") of the single market. It combines answers to those two questions in the following way: POSITIVE = "Very Hopeful" or "Rather Hopeful" and "A Good Thing"; AMBIVALENT = "Neither a Good nor a Bad Thing" or DK/NA; NEGATIVE = "Rather Fearful" or "Very Fearful" and "A Bad Thing"

v288 - C10 NATIONAL POL PARTY PREFERENCE

C.10. European Party Preference

0 NA - (code 0 in V235 and 0 in V236)

in France (FR):

- 5 (PSU) Parti Socialiste Unifie et extreme gauche (Lutte Ouvriere) (Unified Socialists and extreme left (Workers Struggle))
- 10 (PCF) Parti Communiste Francais (Communist Party)
- 20 (PS) Parti Socialiste (Socialist Party)
- 30 (MRG) Mouvement des Radicaux de Gauche (Left Radicals)
- 50 Ecologistes - Les Verts (Green Party)
- 60 (RPR) Rassemblement pour la Republique (Rally for the Republic)
- 70 (UDF-PR) Union pour la Democratie Francais-Parti Republicain (Union for French Democracy: Republican Party)
- 71 (UDF-CDS) Union pour la Democratie-Centre des Democratres Sociaux Francais (Union for French Democracy: Social Democratic Centre)
- 72 (UDF-RAD) Union pour la Democratie Francais-Radicaux (Union for French Democracy: Radical Party)
- 80 (FN) Front National et extreme droite (National Front and extreme right)
- 90 Other answer

in Belgium (BE):

- 10 (PCB-KPB) Parti Communiste Belge (Communist Party)
- 20 (PSB) Parti Socialiste Belge (Socialist Party - French)
- 21 (SP) Belgische Socialistische Partij (Socialist Party - Flemish)
- 41 (PVV) Partij voor Vrijheid en Vooruitgang (Liberal Conservative Party - Flemish)
- 50 (VU) Volksunie (Flemish Nationalists)
- 51 (FDF/RW) Front Democratique Francophone et Rassemblement Wallon (Parti pour le Wallonie) (Francophone Democratic Front / Walloon Rally)
- 52 (VIB) Vlaams Blok (Flemish Blok)
- 53 (PRL) Parti Reformateur Liberal; Parti des Reforms et de La Liberte (Liberal Reform Party)
- 55 (ECOLO) Ecologistes Confederes pour l'Organisation de Luttes Originales (Ecologists)
- 56 (AGALEV) Anders Gaan Leven (Live Differently (Ecologists))
- 60 (PSC) Parti Social Chretien (Christian Social Party - French)
- 61 (CVP) Christelijke Volkspartij (Christian People's Party - Flemish)
- 90 Other answer

in Netherlands (NL):

- 17 Groen Links (Regenboog) (Green Left): (PPR) Politieke Partij Radicalen (Radical Political Party), (PSP) Pacifistisch-Socialistische Partij (Pacifist Socialist Party), (CPN) Communistische Partij Nederland (Netherlands Communist Party), (EVP) Evangelische Volkspartij (Evangelical People's Party)
- 20 (PvdA) Partij van de Arbeid (Labour Party)
- 22 (D'66) Democraten '66 (Democrats '66)
- 57 (CD) Centrum Democraten (Centre Democrats)
- 63 (CDA) Christen-Democratisch Appel (Christian Democratic Appeal)
- 70 (VVD) Volkspartij voor Vrijheid en Democratie (Liberal Party)
- 81 (SGP) Staatkundig Gereformeerde Partij (Political Reformed Party)

- 82 (GPV) Gereformeerd Politiek Verbond (Reformed Political Union)
- 84 (RPF) Reformatorische Politieke Federatie (Reformed Political Federation)
- 90 Other Answer

in Germany - West (DE_W):

- 10 (PDS) Linke Liste / Partei des Demokratischen Sozialismus (Party of Democratic Socialism / Left List)
- 20 (SPD) Sozialdemokratische Partei Deutschlands (Social Democratic Party)
- 40 (FDP) Freie Demokratische Partei (Free Democrats)
- 50 Die Gruenen (Buendnis 90 / Gruene) (The Greens (Alliance '90 / Greens))
- 60 (CDU-CSU) Christlich Demokratische Union - Christlich Soziale Union (Christian Democratic Union / Christian Social Union)
- 80 (NPD) Nationaldemokratische Partei Deutschlands (National Democratic Party)
- 81 Die Republikaner (Republicans)
- 90 Other answer

in Italy (IT):

- 4 (DP) Democrazia Proletaria (Proletarian Democracy and other left)
- 5 (PR) Partito Radicale (Radical Party)
- 10 (PCI) Partito Comunista Italiano (Communist Party)
- 11 (PDS) Partito Democratico della Sinistra (Democratic Party of the Left)
- 20 (PSI) Partito Socialista Italiano (Italian Socialist Party)
- 30 (PSDI) Partito Socialdemocratico Italiano (Italian Social Democratic Party)
- 40 (PRI) Partito Repubblicano Italiano (Italian Republican Party)
- 50 Federazione delle Liste Verdi (Greens)
- 55 Lega Lombarda (Lombard League)
- 57 (PsdA) Partito Sardo d'Azione
- 60 (DC) Democrazia Cristiana (Christian Democrats)
- 70 (PLI) Partito Liberale Italiano (Liberal Party)
- 80 (MSI) Movimento Sociale Italiano Destra Nazionale (Italian Social Movement - National Right)
- 90 Other Answer

in Luxembourg (LU):

- 10 (KP/PC) Kommunistische Partei (Communist Party)
- 20 (LSAP-POSL) Letzebuurger Sozialistesche Arbechterpartei (Socialist Workers Party)
- 50 (GAP) De Greng Alternativ (Green Alternative Party)
- 51 (GLEI) Greng Lescht Ekologesch Initiativ (Green Ecological Initiative List)
- 60 (CSV-PCS) Chrestlech-Sozial Vollekspartei (Christian Social Party)
- 70 (DP-PD) Demokratesch Partei (Democratic Party - liberal)
- 79 5/6 Rentesch (Aktionskomitee 5/6)
- 80 National Bewegung (National Movement)
- 90 Other answer

in Denmark (DK):

- 10 (DKP) Danmarks Kommunistiske Parti (Komunister) (Communist Party)
- 14 Enhedslisten - De Rød-Grønne (United Red-Green)
- 15 (SF) Socialistisk Folkeparti (Socialist People's Party)
- 20 (S) Socialdemokratiet (Social Democrats)
- 30 (FK) Fælles Kurs (Common Course)

- 40 (CD) Centrum Demokraterne (Centre Democrats)
- 41 (RV) Radikale Venstre (Social Liberals)
- 50 De Gronne (The Greens)
- 51 Retsforbundet (Single Taxers)
- 60 (KF) Konservative Folkeparti (Conservative People's Party)
- 61 (KRF) Kristeligt Folkeparti (Christian People's Party)
- 70 (V) Venstre (Liberals)
- 80 (FRP) Fremskridtspartiet (Progress Party)
- 90 Other Answer

in Ireland (IE):

- 20 The Labour Party
- 21 (WP) Workers Party
- 22 (PD) The Progressive Democratic Party
- 30 (FG) Fine Gael (United Ireland Party)
- 50 The Green Party
- 60 (FF) Fianna Fail (Soldiers of Destiny - Republican Party)
- 81 (SF) Sinn Fein (Political Wing of Irish Republican Army)
- 90 Other Answer

in Great Britain (GB_GBN):

- 20 The Labour Party
- 30 (SDP) The Social Democratic Party
- 40 The Liberal Democrats
- 50 (SNP) The Scottish National Party
- 51 The Green Party
- 52 Plaid Cymru (Welsh Nationalists)
- 60 The Conservative Party
- 90 Other Answer

in Northern Ireland (GB_NIR):

- 15 (S.D.L.P.) Social Democratic Labour Party
- 60 The Conservatives
- 61 Ulster Unionist Party
- 62 Democratic Unionist Party
- 65 Alliance
- 80 (WP) The Worker's Party (Nationalist Party in Northern Ireland)
- 81 (SF) Sinn Fein (Political Wing of Irish Republican Army)
- 90 Other Answer

in Greece (GR):

- 10 (SAP) Synaspismos Taes Aristeras (Left Progressive Alliance): (KKE) Koomounistikou Komma Ellados (Communist Party of Greece - reformers) (EAR) Eleniki Aristera (Hellenic Left) (and others)
- 20 (PA.SO.K) Panellinio Socialistiko Kinema (Pan Hellenic Socialist Movement)
- 50 (OIKIPA) Ikologiko Kinima Politikis Anagennesis / Ikologi Enallaktiki (Ecology Movement / Ecologists Alternating)
- 60 (ND) Nea Dimokratia (New Democracy)
- 71 (DI.ANA.) Dimokratiki Ananeosi (Democratic renewal)

90 Other Answer

in Spain (ES):

- 10 (I.U.) Izquierda Unida (United Left)
- 11 (PCPE) Partido Comunista de los Pueblos de Espana (Communist Party of the Peoples of Spain)
- 12 (PTE-UC) Partido de los Trabajadores de Espana--Unidad Comunista
- 20 (PSOE) Partido Socialista Obrero Espanol (Socialist Workers' Party)
- 50 (LV) Lista Verde (Partido Verde) (Green List)
- 51 Verdes Ecologistas (Ecological Greens)
- 54 (PA) Partido Andalucista (Andalusian Party)
- 55 (HB) Herri Batasuna (Basque United Party - left regional party)
- 56 (CIU) Convergencia i Unio (Convergence and Unity - Centre Catalan)
- 57 (EA) Eusko Alkartasuna (Basque Solidarity - Pais Basco)
- 58 (PNV) Partido Nacionalista Vasco (Basque Nationalist Party)
- 60 (CDS) Centro Democratico y Social (Democratic and Social Centre)
- 70 (PP) Partido Popular ((AP) Alianza Popular) (Popular Party (formerly: Popular Alliance))
- 71 Agrupacion de Electores de Jose M. Ruiz Mateos (Ruiz Mateos List)
- 80 (FE JONS) Falange Espanola Tradicionalista y de las Juntas de Ofensiva Nacional Sindicalista (Spanish Phalanx of the Boards of the National-Syndicalist Offensive)
- 90 Other Answer

in Portugal (PT):

- 5 (PRD) Partido Renovador Democratico (Democratic Renewal Party)
- 10 (CDU) Coligacao Democratica Unitaria (United Democratic Coalition)
- 20 (PS) Partido Socialista Portuguesa (Socialist Party)
- 30 (PSD) Partido Social Democrata (Social Democratic Party)
- 31 (MDP-CDE) Movimento Democratico Portugues (Democratic Movement)
- 60 (CDS) Centro Democratico Social (Centre Social Democrats)
- 61 (PDC) Partido da Democracia Crista (Christian Democratic Party)
- 90 Other Answer

in Germany - East (DE_E):

- 10 (PDS) Linke Liste / Partei des Demokratischen Sozialismus (Party of Democratic Socialism / Left List)
- 20 (SPD) Sozialdemokratische Partei Deutschlands (Social Democratic Party)
- 40 (FDP) Freie Demokratische Partei (Free Democrats)
- 50 Die Gruenen (Buendnis 90 / Gruene) (The Greens (Alliance '90 / Greens))
- 51 Buendnis 90 (Alliance '90 - East Germany until 1992)
- 52 (DA) Demokratischer Aufbruch - Sozial und Okologisch (Democratic Awakening - Social and Ecologic)
- 60 (CDU-CSU) Christlich Demokratische Union - Christlich Soziale Union (Christian Democratic Union / Christian Social Union)
- 61 (DSU) Deutsche Soziale Union (German Social Union)
- 62 (DBD) Demokratische Bauernpartei Deutschlands (Democratic Farmer's Party)
- 81 Die Republikaner (Republicans)
- 90 Other Answer

Derivation:

This variable combines the responses to the question D.4 (V235) and the follow-up question D.5 (V236), into a single variable in the following way: party codes in D.4 and D.5 were coded the same in C.10; all other responses to D.4 and D.5 (including "NA", "Other

party", "Would vote blank", "Would not vote", "No Answer", and "DK", were coded as 99 "INAP" in C.10.

v289 - C11 MEDIA USE INDEX

C.11. Media Use (News on TV, Radio and papers)

- 0 DK/NA (Coded 0 or 6 for either V174 or V175 or V176)
- 1 +++ (Coded 1 or 2 for V174, V175 and V176)
- 2 ++ (Coded 1 or 2 for two of these variables and coded 3, 4 or 5 for the third variable)
- 3 -- (Coded 1 or 2 for one of these variables and coded 3, 4 or 5 for the two other variables)
- 4 --- (Coded 3, 4 or 5 for V174, V175 and V176)

Derivation:

This index is based upon answers to question Q.55 (V174-V176): "About how often do you watch the news in television, read the news in the daily paper, and listen to the news broadcasts on the radio?" It combines the answers in the following way:

- +++ News on TV, radio and papers every day or several times a week;
- ++ Two media every day or several times a week, the third medium not more than once or twice a week;
- One of the three media every or several times a week, the two others not more than once or twice a week;
- The three media less than once or twice a week.
