## Acknowledgements

---

Standard & Special Eurobarometer surveys are conducted on behalf of the European Commission, under the responsibility of the Directorate-General Communication and on occasion requested by other departments according to the policy they deal with. From the outset the European Commission is generously granting access to Eurobarometer primary data for re-use in social science research and training.

The integrated original datasets and related materials are delivered by the respective survey research institute in charge of survey implementation and fieldwork co-ordination.

Long term access to and usability of Eurobarometer primary data and documentation is provided in a cooperative arrangement between the Inter-University Consortium for Political and Social Research (ICPSR) and GESIS Data Archive for the Social Sciences (DAS).

## Introduction and preliminary remarks

---

The variable reports of the Standard & Special Eurobarometer survey series offer a comprehensive description of the data on study and variable level. For each Eurobarometer individual variable reports are provided. The reports are structured into five sections: Section one provides the description of the respective Eurobarometer study, including bibliographic information, abstract, methodological specifications, remarks on weighting and general notes on data preparation. Section two gives an historical overview of the Eurobarometer Survey Series, including the institutional background and the development of geographical and topical coverage. A third section provides general information about the structure of Eurobarometer datasets, documentation standards and variable coding frames. Section four explains the details of the 'Variable Documentation' part in the following section five, which is the documentation of the variables with the complete question texts and answer categories of the master questionnaire and the corresponding archival remarks on data preparation or inconsistencies, if applicable. In addition, this variable report contains frequency counts, by country (sample), for almost all variables. These frequencies are based on weighted data using the adequate post-stratification weight, if applicable and as indicated in each table.

### Data access

Individual level micro data for statistical analysis and related documentation (basic bilingual questionnaires, national field questionnaire versions and variable reports) are made available online by GESIS through the DBK data catalogue (<http://www.gesis.org/dbk>) and through the ZACAT online data portal (<http://zocat.gesis.org>). Access to the Eurobarometer primary data is also provided by the Inter-university Consortium for Political and Social Research through the ICPSR membership network, as well as supported by the Social Science Data Archives members of the Council of European Social Science Data Archives (CESSDA).

### Usage requirement

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about related research activities, users of the data are requested to send bibliographic citations for each completed manuscript or thesis abstract to the providing data archive, GESIS or ICPSR. Please indicate in a cover letter which data (surveys and variables) were used.

### Disclaimer

The original collector of the data, ICPSR, GESIS, and the relevant funding agencies bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

# 1 Study Description – Eurobarometer 79.2

## 1.1 Bibliographic information

### 1.1.1 Archive study numbers

GESIS: ZA5688

ICPSR: 35505

Under a co-operative arrangement for the archival processing and distribution of Standard & Special Eurobarometer, ICPSR and GESIS employ its own archive study identification number and persistent URL. Apart from that the datasets are completely congruent as far as identified by the same release version.

### 1.1.2 Title and archive subtitle

Eurobarometer 79.2

Internal market, cultural activities, non-urban road use, science and technology, and undeclared work and tax fraud

April-May 2013

### 1.1.3 Principal investigator(s)

European Commission, Brussels;

DG Communication (COMM.A.1 'Research and Speechwriting')

### 1.1.4 Bibliographic citation and DOI reference

Publications based on data collections which are made available through ICPSR or GESIS, should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications. The bibliographic citation for this data collection is:

European Commission, Brussels: Eurobarometer 79.2, April-May 2013.

TNS opinion, Brussels [Producer];

GESIS, Cologne [Publisher]: ZA5688, dataset version 6.0.0, DOI:[10.4232/1.12577](https://doi.org/10.4232/1.12577) (2016).

The registered Digital Object Identifier (DOI) persistently identifies this dataset version with reference to former (or more recent) versions and potential errata and update documentation in the GESIS data catalogue (DBK).

## 1.2 Content

### 1.2.1 Abstract

This round of Eurobarometer surveys covers the following special topics: (1) internal market (2) cultural activities (3) non-urban road use, quality and tolls (4) science and technology, and (5) undeclared work and tax fraud.

In regard to the internal market, opinions were collected on the frequency of online purchases, technology used to make orders, types of goods purchased, problems experienced with online shopping, reasons why respondents do not purchase products online from other EU member states and distrust of online retailers. Respondents were asked if they were ever employed in an European state other than their home country and ways to assess quality of professional service providers. In queries on cultural activities, the frequency in which respondents visit museums, the cinema, public libraries in their home country and other EU countries were recorded as well as why they did not participate in cultural activities. Respondents were also asked if they participated in expressive arts such as dancing, writing poems, handicrafts, or playing musical instruments. In regard to non-urban road tolls respondents are polled on the frequency in which they use roads outside of cities, the quality and amount of congestion on those roads, purpose for using those roads. Opinions were collected on whether the government should spend more money on roads and their willingness to pay higher tolls. In the science and technology section, there are questions about interests in and knowledge of developments in science and technology, whether family members have formal credentials in science and technology, their source of information about the latest developments. Additionally, respondents were asked about the usefulness of science and technology. Lastly as it relates to undeclared work in the European Union respondents were asked if they know people who do not declare income, their awareness of the risk of getting caught, the consequences of getting caught and opinions on reasons for doing undeclared work.

Demographic and other background information collected includes age, gender, nationality, marital status and parental relations, occupation, age when stopped full-time education, household composition, ownership of a fixed or a mobile telephone and other durable goods, difficulties in paying bills, level in society, and Internet use. In addition, country-specific data includes type and size of locality, region of residence, and language of interview (select countries).

## 1.3 Universe

In all, Eurobarometer 79.2 interviewed 27.563 citizens in the 27 countries of the European Union (enlargement as of 2004/2007) and in Croatia (accession in July 2013). All respondents were residents in the respective country, nationals and non-nationals but EU-citizens, and aged 15 and over. They were supposed to have sufficient command of one of the respective national language(s) to answer the questionnaire. Separate samples were drawn for Great Britain and Northern Ireland as well as for East and West Germany.

## 1.4 Sampling procedure

A multi-stage, random (probability) sampling design was used for this Eurobarometer. In the first stage, primary sampling units (PSU) were selected from each of the administrative regional units in every country (Statistical Office of the European Community, EUROSTAT NUTS 2 or equivalent). PSU selection was systematic with probability proportional to population size, from sampling frames stratified by the degree of urbanization. In the next stage, a cluster of starting addresses was selected from each sampled PSU, at random. Further addresses were chosen systematically using standard random route procedures as every Nth address from the initial address. In each household, a respondent was drawn, at random, following the closest birthday rule. No more than one interview was conducted in each household.

The regular sample size (in the sense of completed interviews) is 1000 respondents per country, except the United Kingdom with separate samples for Great Britain (1000) and Northern Ireland (300), Germany with separate samples for the Eastern (500) and the Western part (1000), and Luxembourg, Cyprus (Republic) and Malta with 500 interviews each. The effective number of realized interviews in this round is indicated in table 1.

## 1.5 Fieldwork

From April 26 to May 14, 2013, TNS opinion carried out the fieldwork for this Eurobarometer, at the request of the European Commission, Directorate General Communication. TNS opinion is based in Brussels, Belgium, and co-ordinates the fieldwork carried out through its network of national institutes:

Table 1: Participating countries (regions) and fieldwork information for Eurobarometer 79.2

## 1.6 Mode of data collection

In all countries, fieldwork was conducted on the basis of detailed and uniform instructions prepared by TNS Opinion. Interviews were conducted face-to-face in people's home in the appropriate national language. As far as the data capture is concerned, CAPI (Computer Assisted Personal Interview) was used in those countries where this technique was available.

Equivalent French and English basic questionnaires were developed for this Eurobarometer. These questionnaires were translated into other languages by the firms responsible for interviewing in each country. Back-translation procedures were applied for controlling semantic equivalence. Multi-language questionnaires are applied if appropriate (Belgium, Luxembourg, Spain, Finland, Estonia, Latvia and Malta).

In each country only the national language version(s) of the questionnaire is (are) used; in countries with more than one official language, the language version is selected at the beginning of the interview.

## 1.7 Weighting

In general the Standard and Special Eurobarometer data sets provide for two types of weighting, a post-stratification sample weighting and a population size weighting.

For each sample, i.e. participating country or lower level region, a comparison between the sample composition and a proper universe description is carried out for internal weighting purposes. The universe description is made available by the National Survey Research Institutes and/or by EUROSTAT. On this basis a national weighting procedure, using marginal and intercellular weighting, is applied. As such in all countries, minimum sex, age, region NUTS II (basic regions as defined by the EUROSTAT nomenclature of territorial units for statistics), and size of locality are introduced in the iteration procedure. This **post-stratification weighting** is also referred to as redressment or non-response weighting. A design weight which would adjust for unequal selection probabilities (depending on the household size) is not made available.

For the descriptive analysis of individual samples or their comparison, up to six weighting variables are provided in each data set and documented as such in the variable description. Until Eurobarometer 31 the corresponding weight variable is labelled NATION WEIGHT II. Weighting factors were then not included continuously for all samples and weighting procedure might have differed from the foregoing description. While weighting usually reproduces the real number of cases for each sample, between Eurobarometer 33 and 54.1 samples can also be adjusted to their predefined standard size of exactly 1000 or 500 cases. This option was applied for the official Eurobarometer reports of the period.

The population size weighting factors correct for the fact, that most samples are of almost identical size, no matter how large or small the populations are from which they were drawn. These weights ensure that each country or lower level area sample (Great Britain and Northern Ireland, East and West Germany) is represented in proportion to its population size within different groupings according to the historical states of European unification (e.g. founder members, new members, Euro zone countries) in the case of the EUROPEAN WEIGHTS, as well as within the United Kingdom (WEIGHT UNITED KINGDOM, NATION WEIGHT I until Eurobarometer 31) or Germany as a whole (WEIGHT GERMANY).

The population size weights all include the post-stratification weighting factors. The EUROPEAN WEIGHTS adjust each sample in proportion to its share in the total population of the European Union (formerly European

Community), aged 15 and over. These adjustments are based on population figures published by EUROSTAT in the Regional Statistics Yearbook. In some cases more than 20 European weights are provided for use in analyses of the European Union population as a whole or in accordance with its historical compositions. Between Eurobarometer 33 and 54.1 adjustments to the predefined standard sample size is taken into account. In general all countries or samples which do not belong to the respective group under consideration are excluded from calculation. The special weights for the United Kingdom and Germany do exclude all other countries from calculation starting with Eurobarometer 62. The application of post-stratification weights is recommended for descriptive (univariate) analysis. Meaningful descriptive results for groups of countries or for countries with separate samples (United Kingdom and Germany) require population size weighting. Official Eurobarometer reports are always based on weighted data.

Starting with Eurobarometer 66.2 a new additional weight (WEIGHT EXTRA) is provided which extrapolates the actual universe (population aged 15 or more) for each country or sample. This weight variable integrates all other available weights, but does not reproduce the number of cases in the data set, but the respective actual population size.

As needed, OVERSAMPLES (see chapter 2.4, table 4) are weighted separately as documented in the respective study and weight variable description. In some surveys special weights are made available for application with selected variables on a specific topic, e.g. for the descriptive analysis of variables regarding e-communication equipment on HOUSEHOLD level.

**Eurobarometer 79.2** provides three (post-stratification) NATION WEIGHTS: W1 (WEIGHT RESULT FROM TARGET) for separate analysis or comparison of individual samples (countries or regions on sub-national level), W4 (WEIGHT UNITED KINGDOM ONLY) which in addition adjusts the British and the Northern Irish samples to their respective proportions in the United Kingdom for descriptive analysis of the United Kingdom as a whole, and W3 (WEIGHT GERMANY ONLY), which adds the adjustment of the East and West German samples to their respective proportions in the United Germany, to be used for descriptive analysis of the United Germany as a whole. W3 and W4 exclude all other countries from calculation, but include the post-stratification factors for the United Kingdom and Germany respectively.

Starting with Eurobarometer 75.4 and in accordance with former practice up to Eurobarometer 61, the archive started to derive (see 1.8. Data preparation) three additional weights W3A, W4A, W3A\_W4A in order to provide for the analysis of the United Kingdom and/or Germany as a whole together with all other samples, as separate countries (samples). W3A (WEIGHT RESULT FROM TARGET – UNITED GERMANY) combines the weighting factors for Germany as a whole (redressment factors plus populations size factors East/West) and the redressment factors for all other countries (Great Britain and Northern Ireland separated). W4A (WEIGHT RESULT FROM TARGET – UNITED KINGDOM) combines the weighting factors for the United Kingdom as a whole (redressment factors plus populations size factors) and the redressment factors for all other countries (Germany East and West separated). W3A\_W4A (WEIGHT RESULT FROM TARGET – NATION) combines the weighting factors for the United Kingdom as a whole, the weighting factors for Germany as a whole), and the redressment factors for all other countries. Unlike the originating weights, W4 (WEIGHT UNITED KINGDOM ONLY) and W3 (WEIGHT GERMANY ONLY) all countries are included in calculations.

The EUROPEAN WEIGHTS provide adjustments for each (national) sample in proportion to its share in the total population aged 15 and over, of the European Union, within groups of member countries, of accession or candidate countries, and of Euro zone countries, representing different historical states of European integration (e.g. EU6 = six founder members) . All post-stratification factors are included.

Table 2: Overview of population size weights on European level

European Weights in Eurobarometer 79.2	Function
W5 to W9, W11, W14, W22	grouping EU member countries
W10, W13, W24	grouping new member countries
W15, W18	grouping candidate/accession countries
W23	grouping member + candidate/accession countries
W29, W30, W81, W82, W84, W89, W90	grouping (non-)Eurozone countries
wextra	extrapolating population size (15+) for each country

For more detailed information on the individual weights please see the corresponding variable description.

## 1.8 Data preparation

The data received by GESIS from TNS opinion were checked for completeness, missing data and duplicate records, for illegal (wild) codes and for (formal) consistency of response patterns and question routing. Errors discovered by these procedures are documented or corrected, as a general rule after consulting related additional documentation (e.g. tabular reports) or the data provider. Indices and other derived summary variables were also checked and corrected as necessary. Complete machine-readable DDI-XML compliant documentation was created for this dataset by GESIS.

Starting with Eurobarometer 76.1 the traditional variable naming by serial V-numbers (V1 to Vn) has been replaced by a system based on question and item numbers in the questionnaire and otherwise on standard mnemo-technical. The dot used in the original TNS variable names for multiple response dummy variables is replaced by underscore in view of potential software incompatibility.

The archive identification variables comprise the archive study identification number ('studyno'), the digital object identifier ('doi') of the present dataset version, the version number and date ('version') and the edition type ('edition'). A unique case id ('uniqid') for the complete dataset has been constructed from the TNS country id (digits 1-2) and the TNS case/respondent id (digits 3-8).

Three country/sample identification variables are supplied, maintaining the original country/sample codes ('tncntry'), applying the established archive standard codes for the Eurobarometer series ('country'), and a alphanumeric variable applying the ISO 3166-1 alpha-2 codes ('isocntry') with adaptations for Great Britain and Northern Ireland (ISO 3166-2), for East and West Germany, and for Northern Cyprus (Turkish Cypriot Community).

GESIS added 'Inappropriate' (INAP) codes to indicate intentionally skipped questions when it could be determined that the appropriate skip instruction in the original questionnaire was adhered to for (almost) every respondent. An additional INAP category was defined whenever a question or group of questions were not surveyed in one or more countries, or if variables refer to country specific items (e.g. region variable P7).

Users should note that answers to multiple-response questions are (originally) represented by a series of binary 'dummy' variables (i.e. variables which take on values of one and zero only), creating separate 'dummy' variables also to explicitly represent 'Don't know', 'No answer/refusal' or other residual responses, such as 'None of the above'. The archive has recoded these residual responses in the case of uncommon minor inconsistencies with respect to and in favour of the series of substantial answers.

GESIS has recoded the missing answers (NA) represented in the original data set by blanks (system missing) to standard values. Their practically complete absence suggests that eventual cases of any not explicitly coded item non-response, might be collapsed with the DK (don't know) category.

Question text and contingency text appearing in the variable description is taken from English language version of the basic (bilingual) questionnaire (master questionnaire). Coding schemes and other documentation are based on the English language version of the basic questionnaire or on the respective SPSS data definition statements as provided by TNS opinion. In case of any discrepancy between questionnaires, SPSS definitions and data regarding the coding scheme of a variable, the archive, as a general rule, carried out any correction in agreement with the data provider.

If the documentation for country-specific questions or answer categories is provided in another language than English, the archive documents the original language wording and supplies the English translation in brackets.

Region NUTS 2 categories for Portugal have been edited and adapted to changes as of 2002 (NUTS version 2003) which are reflected in Eurobarometer starting with wave 62 (confirmed by TNS). Region NUTS 1 categories for Greece have been edited correcting for the non-coverage of Ionian and Aegean Islands starting with Eurobarometer 62 (confirmed by TNS).

P7 (REGION – NUTS CODES) – variables 'nuts' and 'nutslvl': The integrated NUTS variable has been derived by the archive from the original TNS country-wise P7 variables in accordance with NUTS units and (alphanumeric) codes defined in the Nomenclature of Territorial Units for Statistics. For each country the lowest subdivision level has been considered insofar consistent with or clearly mappable to one of the NUTS levels as valid for the relevant time period ([http://epp.eurostat.ec.europa.eu/portal/page/portal/nuts\\_nomenclature/history\\_nuts](http://epp.eurostat.ec.europa.eu/portal/page/portal/nuts_nomenclature/history_nuts)).

Original coding for p13be (LANGUAGE OF INTERVIEW – BELGIUM) is reversed, coding almost all respondents from NUTS 1 regions Wallonia and Brussels as 'Dutch' and almost all respondents in the Flemish region as 'French'. The coding has been corrected by the archive.

W3A/W4A (NATION WEIGHTS) – variables 'w3a'/'cntry\_de', 'w4a'/'cntry\_gb', 'w3a4a'/'nation': Starting with Eurobarometer 62 the original SPECIAL WEIGHTS for the UNITED GERMANY (East + West) and the UNITED KINGDOM (Great Britain + Northern Ireland) automatically exclude all other samples/countries from the calculation. In accordance with former practice up to Eurobarometer 61, the archive now started to derive three additional weights (W3A, W4A, W3A\_W4A) in order to provide for the analysis of the United Kingdom and/or Germany as a whole together with all other samples, as separate countries (nations). They combine the weights W3 (population size + redressment factor for Germany) or/and W4 (population size + redressment factor for the United Kingdom) with W1 (redressment factor for all other countries).

All INDEX and TOTAL variables have been checked and documented accordingly.

More detailed information on data preparation, harmonization or regarding inconsistencies is noted on variable level, if applicable.

## **1.9 Further remarks**

Module QB (Cultural activities and participation) partly replicates questions asked in the context Eurobarometer 67.1 (QA). Module QD (Science and technology) replicates some questions asked in the context Eurobarometer 73.1.

No data are available for protocol items p8 (postal code), p9 (sample point number), p10 (interviewer number) and p11.

## 2 Eurobarometer Series Description

---

### 2.1 Series name

The Standard and Special Eurobarometer (a.k.a. Euro-Barometer) Survey Series

### 2.2 Series information

The Standard and Special Eurobarometer surveys are the products of a unique program of cross-national and cross-temporal survey research. The effort began in early 1970, when the Commission of the European Communities sponsored simultaneous surveys of the publics of the European Community. In general they are carried out in spring and fall of each year. Three pilot studies were conducted in 1970, 1971 and 1973 under the header of European Communities Studies; 'Attitudes towards Europe' (GESIS study ZA0078), the very first comparative survey across European Communities founder members in 1962, can be seen as an early forerunner. The primary data of the first explicit Eurobarometer, conducted in spring 1974, have not been preserved.

### 2.3 Principal investigators and institutional background

The Eurobarometer program was initially launched and managed until 1986 by Jacques-René Rabier, head of the Commission's press and information directorate and afterwards special advisor to the Commission of the European Communities. He counted with the political support of the European Parliament and the close co-operation of Ronald Inglehart. The political scientist at the University of Michigan was then developing his theory of value change in modern societies and his materialist/post-materialist items would become integral part of the Eurobarometer until the mid nineties. Between 1987 and 1996 the program was continued and considerably enlarged under the direction of Karlheinz Reif, since 1993 together with Anna Melich.

Anna Melich took over the Eurobarometer direction from 1997 to 1999, by then still within the organizational framework of the former Directorate-General X, Public Opinion Surveys and Research Unit. In 2000/2002 Eurobarometer were intermittently conducted in the framework of the DG Education and Culture, Citizens' Centre - Analysis of Public Opinion under the direction of Harald Hartung, and starting with Eurobarometer 54 under DG Press and Communication, initially directed by Thomas Christensen. Since 1999 the organisation and supervision of the surveys were consecutively executed by Rubén Mohedano-Brèthes (until 2002) and Renaud Soufflot de Magny (until 2006), with Antonis Papacostas as head of unit between 2003 and 2010.

At present Eurobarometer are carried out on the general responsibility of the European Commission Directorate-General Communication, COMM.A.1 'Research and Speechwriting' (starting with 2014: 'Strategy, Corporate Communication Actions and Eurobarometer'), with Ian Barber as head of the unit and David Voidies as head of the Eurobarometer sector.

The special topic modules are requested by the in each case responsible EC Directorate General, as regards the content. Since 2007 the European Parliament is commissioning its own survey ("Parlemeter") through the Public Opinion Monitoring Unit of the European Parliament, in close cooperation with the DG COMM unit and within the same survey framework.

The main survey results are regularly published on the European Commission's Public Opinion website (<http://ec.europa.eu/COMMFrontOffice/PublicOpinion/index.cfm>) in official standard and special topic reports; detailed tabular reports are published through the European Union Open Data Portal (<https://open-data.europa.eu/en/data/>).

## 2.4 Development of geographical and population coverage

In all European Union (formerly European Communities) member countries Standard Eurobarometer samples were initially drawn among the national population, aged 15 and over. Starting with Eurobarometer 41.1 the target population is the population of any nationality of an European Union member country, aged 15 years and over, resident in any of the Member States. For test purposes Eurobarometer 41.0 included a non-national European Union citizens oversample.

Eurobarometer regularly include all member countries, starting with the six founder members and in accordance with the enlargement process. Norway has been in-officially included in selected waves between 1989 (EB34) and 1996 (EB46), Finland started before the actual enlargement in 1993 (EB39.0), and a few Swiss Eurobarometer were run in parallel to selected waves or topics, starting in 1999 (EB51.1). Candidate Countries (CC) and Accession Countries (AC) for the Eastern enlargement process were first surveyed in the Candidate Countries Eurobarometer series (2001-2004) and then all included in the Standard Eurobarometer series, even before starting the accession process (e.g. Turkey or Macedonia). Further countries are continuously added in accordance with the EU membership application and accession process.

Additional samples are drawn for Great Britain and Northern Ireland almost from the start, in Germany (East and West) after the re-unification in 1989, and in Cyprus for the Turkish Cypriot Community (Northern Cyprus) since 2004 for selected standard and topical waves.

Table 3: EU enlargement and countries covered by Standard and Special Eurobarometer

	EB 82.3 11/2014	<i>Albania (CC as of June 2014)</i>	<i>AL</i>	<i>1000</i>	<i>Standard modules</i>

The regular standard sample size (in the sense of completed interviews) in Eurobarometer surveys is 1000 respondents per country, except small countries like Luxembourg or Malta. The 44.2bis MEGA-survey increased the standard sample up to 6000 respondents (for the largest countries) in order to achieve more confidence for analysis on sub-national level.

Oversamples have been drawn intermittently if required by the topic, i.e. to ensure that there are enough members of the relevant population subgroup to report sufficiently reliable estimates. Intentionally more people are selected from the respective group than would typically be done if everyone in the sample had an equal chance of being selected.

Table 4: Oversamples for special topic Eurobarometer

Topic	(Over-)Sample	Eurobarometer Survey
Young Europeans	Youth aged 15-24	17, 28.1, 34.2, 47.2OVR, 55.1OVR
Elderly Europeans	Elderly aged 60+	37.2
Consumer Behaviour	Responsible for shopping	41.0
Unemployment	Unemployed	44.3OVR
Working Conditions	Professionally active	37.0+1, 39.0+1
Drug Abuse	Youth aged 15-24	43.0+1, 57.2OVR
Education Issues	Youth aged 15-24	44.0 / 44.1 (data not integrated)
Sampling experiment	Non-Nationals	41.0

## 2.5 Standard question program and special topics

Standard Eurobarometer surveys were designed to provide a regular monitoring of the social and political attitudes among the European publics, to obtain regular readings of support for European integration, public awareness of and attitudes toward European unification, the institutions of the European Community / European Union, and its policies in complementary fashion. Attitudes toward the organization and role of the European Parliament and electoral behavior became a major topic in pre- and post- European Elections times. The standard program was complemented by measures of general socio-political orientations, of subjective satisfaction and the perceived quality of life, or of cultural, national and European identities.

Intermittently Standard Eurobarometer have investigated SPECIAL TOPICS, such as agriculture, biotechnology, energy, environment, family planning, gender roles, health related issues, immigration, poverty and social exclusion, regional identity, science and technology, information society, working conditions, urban traffic, knowledge of languages etc. In the case of some supplementary studies, special youth and elderly samples have been drawn (see table 4).

Starting with Eurobarometer 34 (1990) additional supplementary surveys on special issues have been conducted under each main wave number, identified by dot-separated sub-numbers for each individual survey. Usually only one survey per main wave includes the standard and trend module with focus on European integration issues (table 5). Selected subsets of standard trend questions appear in the context of related special topics (e.g. "The Future of Europe" or "European Parliament Eurobarometer").

Table 5: Overview of Eurobarometer surveys with standard EU and trend question modules

Standard and EU trend surveys	Fieldwork	GESIS Study ID	Standard Report	Subset	Special Topic

Further and regularly updated information on the Eurobarometer survey series is provided through the GESIS Eurobarometer Data Service micro-site: <http://www.gesis.org/eurobarometer>

## 3 Dataset structure and standards

---

Archive processing and documentation of the Standard and Special Eurobarometer are based on standards agreed between the Inter-university Consortium for Political and Social Research (ICPSR) and the GESIS Data Archive department (formerly Zentralarchiv für Empirische Sozialforschung), which may in some details diverge from the usual ICPSR or GESIS archive standards. In addition and as long as reasonable it was adhered to standards once established for the Eurobarometer series in the course of the years.

### 3.1 Dataset structures

In general the variable structure of the analysis dataset is aligned to the basic bilingual questionnaire, preceded by a set of administrative/technical variables. These comprise the ARCHIVE and dataset ID variables (studyno1, studyno2, doi, version, edition, survey, split (if applicable), caseid, uniqid), the COUNTRY ID variables with several standard variables identifying the different countries (or sub-national samples) and relevant groups of countries (or sub-national samples) in the dataset, arranged in pairs with the corresponding WEIGHT variables provided by the fieldwork institutes (see 1.7). A special alphanumeric variable ('isocntry') is provided based on the ISO 3166 country code standard (see 1.8).

The questionnaire variables usually consist of three types, the substantial questions (Q), the Eurobarometer standard demographics (D) and the interview protocol variables (P). Starting with Eurobarometer 76.1 the traditional variables naming by serial V-numbers (V1 to Vn) is replaced by a system based on question and item numbers in the questionnaire and elsewhere on standard mnemo-technicals (see 1.8). Likewise from survey 76.1 onwards, constructed total or index variables, usually as provided by the fieldwork institute, are listed right after the question variables on which they are based. The dataset is concluded by three additional weights and their corresponding NATION country variables 'w3a'/'cntry\_de', 'w4a'/'cntry\_gb', 'w3a4a'/'nation' (see 1.8).

Variable labels are standardized in the sense that they provide keywords based on the question text and that these keywords are applied consistently if questions or question items are repeated over time (trend variables). Variable label may include abbreviations if required, e.g. limitations regarding the length of variable labels in older versions of statistical analysis software. Starting with Eurobarometer 33 und up to wave 75 the variable labels include the respective question number as a reference to the basic bilingual questionnaire.

### 3.2 Coding frames

By general rule, the variables adopt the coding frame as specified in the basic bilingual questionnaire, except multiple response questions (see 1.8), questions with country specific answer categories and missing values.

#### 3.2.1 Country specific answer categories

Eurobarometer include some questions (variables) with country specific answer categories like INCOME, SIZE OF COMMUNITY, REGION or variables related to VOTING BEHAVIOUR with reference to POLITICAL PARTIES. Until Eurobarometer 48 only one integrated variable is supplied with each category representing country specific meanings (e.g. geographic regions) which are not documented within the analysis dataset by means of value labels, but only in the extended variable description in the variable report. Starting with Eurobarometer 49 the integrated variables are retained but complemented by completely labeled country specific variables. The country

specific coding schemes and categories are maintained as a standard over time as long as the category schemes provided in the questionnaire remain comparable.

Starting with Eurobarometer 74.1 an additional standardized REGION variable 'nuts' (REGION - NUTS CODES) is constructed, integrating all participating countries with regional units defined in accordance with the EUROSTAT Nomenclature of Territorial Units for Statistics (NUTS). For each country the lowest available NUTS subdivision level is considered, whereby the hierarchical structure always implies all higher subdivision levels. The official NUTS codes are coded verbatim in accordance with the in each case valid (applicable) NUTS version as documented in the official EUROSTAT classification history (History of NUTS). A second variable indicates the lowest coded NUTS LEVEL 'nutslvl' for each country. All original regional subdivisions and categories remain coded separately and unchanged in the country-wise P7 variables. Details are documented with the respective country specific and/or integrated variable.

### 3.2.2 Missing values

In general missing value codes are defined in accordance with the standard once established for the Eurobarometer series, in particular the default use of whatever value supplied by the basic questionnaire for DK ("don't know") responses, unless a standard coding scheme is applied for demographic or protocol variables. The value 0 is applied for NA (i.e. "not ascertained" resp. "no answer") and the value 9 (99, 999, ...) for INAP (i.e. "inappropriate" resp. "not applicable"). If one of these values falls into the valid range of codes, the missing values are shifted to the next available missing value code or "level", e.g. if 0 is used in a dichotomous variable (NOT MENTIONED), value 9 is used for NA, respectively value 8 if value 9 is already used for INAP. If necessary the corresponding two- or more digit codes are used (99, 999, 98, 998 ...). Recently separate missing values are coded for INAP depending on whether the respondent was not asked a question due to questionnaire routing (filter non-response) or whether the question was not provided for in the country's field questionnaire. Other missing values (e.g. REFUSAL) are coded with the in each case next available code (e.g. 7, 97, 997, ...). In the analysis data set these codes are by default declared and treated as USER MISSING, but may be modified by the user to suit specific needs.

### 3.3 International documentation standard (DDI)

The study and variable level documentation is set up in accordance with the international metadata specifications for the social and behavioural sciences, established by the Data Documentation Initiative <DDI>. The variable reports are based on the XML representation of DDI version 2. The variable level documentation combines the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the basic bilingual (master) questionnaire with the variable description (variable name, values, and labels) of the analysis dataset. General remarks and comments referring to a certain variable are defined as variable notes. Notes can be references to trend (comparability) information, standards applied for coding frames, problems in questionnaire translation, but also references to data problems or other specific characteristics.

## 4 Explanation of the variable documentation

---

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. The variable documentation is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with international metadata standards (DDI-Codebook/XML).

In general, the following abbreviations are used to indicate countries or (sub-national) areas. As far as applicable, the ISO 3166-1 alpha-2 country codes have been applied and coded accordingly in the alphanumeric sample identification variable (COUNTRY CODE - ISO 3166). In the case of Greece the non-ISO abbreviation EL\* is used in parallel, as introduced by EUROSTAT as of NUTS version 2010.

AT	Austria	IE	Ireland
BE	Belgium	IT	Italy
BG	Bulgaria	IS	Iceland
CY	Cyprus	LT	Lithuania
CY-TCC	Turkish Cypriote Community	LU	Luxembourg
CZ	Czech Republic	LV	Latvia
DE	Germany (-1989)	ME	Montenegro
DE-W	Germany West (1990 ff.)	MK	Macedonia (FYROM)
DE-E	Germany East (1990 ff.)	MT	Malta
EE	Estonia	NL	The Netherlands
ES	Spain	NO	Norway
FI	Finland	PL	Poland
FR	France	PT	Portugal
GB	United Kingdom	RO	Romania
GB-GBN	Great Britain	RS	Serbia
GB-NIR	Northern Ireland	SE	Sweden
GR / EL*	Greece	SI	Slovenia
HR	Croatia	SK	Slovakia
HU	Hungary	TR	Turkey

The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable. Results are usually broken down by country (sample) or represented by frequency counts in the case of country specific variables. In the case of variables with long lists of coded "real" values (e.g. age), results are only presented for the corresponding categorized variable, if available. The content and construction of technical, administrative or other generated variables is described as appropriate.

The frequencies for substantive variables are calculated on the base of weighted data, as indicated with each table and in accordance with the European Commission's official Eurobarometer reports. Typically the sample specific post-stratification (redressment) weight is applied (WEIGHT RESULT FROM TARGET or NATION WEIGHT II). Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

The complete question and answer texts are taken from the English language part of the respective basic bilingual questionnaire (master questionnaire) as provided by the coordinating fieldwork institute.

(SHOW CARD WITH SCALE - ONE ANSWER PER LINE) (READ OUT)																																																																																																																																																																																																																																																																																																																					
CODE VALUES occurring in the data for this variable and complete ANSWER TEXT from the basic questionnaire. Code values may differ from the questionnaire specification due to standardization. Abbreviations commonly used in the code definitions are DK (don't know), NA (not ascertained) and INAP (inappropriate).	Q.A1_2 Your professional life  1 Totally fulfilled 2 Fairly fulfilled 3 Not very fulfilled 4 Not at all fulfilled 5 Not applicable (SPONTANEOUS) 6 DK 9 Inap. not EU27 (not coded 1 to 31 in V6)  Derivation: ...  Note: Last trend: EB ... , Q. ...																																																																																																																																																																																																																																																																																																																					
DERIVATION information refers to the construction principle of indices or other derived variables (not in the example). NOTE delineates additional explanatory text subsuming trend information (last appearance of the question) or archive remarks on data processing and other issues relevant for the understanding or application of the variable.	<p>Absolute Values (Row Percent), weighted by v8</p> <table border="1"> <thead> <tr> <th></th> <th>v77</th> <th>1</th> <th>2</th> <th>3</th> <th>4</th> <th>5</th> CROSS-TABULATION: The absolute frequencies of the occurrence of values ( <i>absolute values</i> ) refer to the number of cases in the weighted dataset as indicated, in this case <i>weighted by V8</i> . The relative frequencies ( <i>row percent</i> ) refer to the valid cases ( <i>n valid sum</i> ), i.e. the total number of cases ( <i>n sum</i> ) reduced by the number of cases defined as missing data ( <i>M</i> ). For display and place saving reasons excluded countries or areas may be completely dropped from the table.																																																																																																																																																																																																																																																																																																																						
FREQUENCY COUNTS: For country specific variables relative frequencies are calculated in- and excluding missing data ( <i>M</i> ), i.e. <i>percent</i> on the basis of all cases ( <i>sum</i> ) and <i>valid percent</i> on the basis of the <i>valid cases</i> .																																																																																																																																																																																																																																																																																																																						

## **5 Variable Documentation**

**Variable, Label**

**Question Text (English Language)**

studyno1 - ARCHIVE STUDY NUMBER - DISTRIBUTOR

Archive study number – distributor

Study Number of the distributing data archive.

5688 GESIS STUDY ID ZA5688

studyno1

Value	Label	Missing	Count	Percent	Valid Percent
5688	GESIS STUDY ID ZA5688		27563	100.0	100.0
	Sum		27563	100.0	100.0
	Valid Cases		27563		

studyno2 - ARCHIVE STUDY NUMBER - PUBLISHER

Archive study number – publisher

Study number of the data archive which is publishing this data set version.

5688 GESIS STUDY ID ZA5688

studyno2

Value	Label	Missing	Count	Percent	Valid Percent
5688	GESIS STUDY ID ZA5688		27563	100.0	100.0

	Valid Cases		27563		

doi - DIGITAL OBJECT IDENTIFIER

Digital object identifier

This variable holds the Digital Object Identifier (DOI) for the dataset at hand as registered via the da|ra registration agency for economic and social science data. Each dataset version (see variable 'version') has a unique persistent DOI.

For direct access to the complete archive dissemination package for this study, including new dataset versions, the DOI needs to be appended to the resolver service URL: <http://dx.doi.org/doi:10.4232/1.12577>

In terms of good scientific practice, the DOI is an important element for the correct citation of a dataset.

doi

## version - GESIS ARCHIVE VERSION &amp; DATE

GESIS archive version &amp; date

6.0.0 '2016-08-05'

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

For details of the version history and for information on errata in current or former dataset versions, please consult the GESIS data catalogue entry (study description) persistently referenced by the dataset DOI (Digital Object Identifier).

version

Value	Label	Missing	Count	Percent	Valid Percent
6.0.0 (2016-08-05)			27563	100.0	100.0
	Sum		27563	100.0	100.0
	Valid Cases		27563		

edition - DATASET EDITION

Dataset edition

This variable identifies the type of archive release for the dataset at hand.

	Valid Cases		27563		

caseid - TNS CASE ID

TNS case ID

The original non-unique case (interview) identification numbers as provided by the fieldwork institute (TNS). The unique respondent identification variable `uniqid` adds the original country identification codes (`tnscntry`) as a prefix to the original case ID numbers in order to make them unique.

Note:

Actual number is coded.

uniqid - UNIQUE RESPONDENT ID (CASEID BY TNS COUNTRY CODE)

Unique respondent ID (caseid by tnsntry)

This unique respondent identification is composed of the original TNS country code and the original TNS interview number. The first two digits identify the country of interview (01: Belgium; 02: Denmark; 04: Greece; 05: Spain; 06: Finland; 07: France; 08: Ireland; 09: Italy; 10: Luxembourg; 11: Netherlands; 12: Austria; 13: Portugal; 14: Sweden; 20: Germany West; 21: Germany East; 22: Great Britain; 23: Northern Ireland; 31: Bulgaria; 32: Cyprus (Republic); 33: Czech Republic; 34: Estonia; 35: Hungary; 36: Latvia; 37: Lithuania; 38: Malta; 39: Poland; 40: Romania; 41: Slovakia; 42: Slovenia; 46: Croatia). The remaining digits contain the country-specific questionnaire numbers.

Note:

Actual number is coded.

split - QUESTIONNAIRE SPLIT (QD8 QD9)

Split ballot

This questionnaire split concerns QD8 and QD9.

1 SPLIT A

2 SPLIT B

isocntry - COUNTRY CODE - ISO 3166

Country code - in accordance with ISO 3166-1-alpha-2 country code

All surveyed countries and regions, i.e. including separate samples for East-/West-Germany, Great Britain/Northern Ireland, and the Turkish Cypriot Community (TCC), are coded in accordance with the ISO 3166-1-alpha-2 country code, if available. ISO 3166-2 is applied for the United Kingdom subdivisions. ISO standard codes are not available for the "historical" East/West subdivision of Germany (DE-E / DE-W) and for the Turkish Cypriot Community in northern Cyprus (CY-TCC), the internationally not recognized "Turkish Republic of Northern Cyprus".

Note:

Use of weighting factor w1 is optional.

## w1 - WEIGHT RESULT FROM TARGET

## w1 Weight result from target

This POST-STRATIFICATION WEIGHT is based on a comparison for each sample with the respective universe description. As such in all countries, gender, age, region and size of locality are introduced in the iteration procedure carried out by the fieldwork institutes.

British and Northern Irish as well as East and West German samples are weighted separately. The weight reproduces the real number of cases for each country. In terms of its general function it corresponds to former NATION WEIGHT II (until EUROBAROMETER 31 (March-April 1989)).

**w3 - WEIGHT UNITED GERMANY ONLY**

w3 Weight United Germany (only)

This POPULATION SIZE WEIGHT adjusts the East and the West German (sub-national) samples to their share in the total population aged 15 and over, of the united Germany. Weight w3 must be applied whenever Germany is to be analyzed as a whole. The post-stratification weighting factors are included for both samples. All other samples are excluded from analysis.

**w5 - WEIGHT EU6**

## w5 Weight EU6

This POPULATION SIZE WEIGHT refers to the six EC founder members: France, Belgium, Netherlands, West Germany, Italy, and Luxembourg. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w5 must be applied whenever these six EC founder countries are to be analyzed altogether as a group.

## w11 - WEIGHT EU15

## w11 Weight EU15

This POPULATION SIZE WEIGHT adds Austria, Finland, and Sweden to the EU12+DE-E countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w11 must be applied whenever these 15 countries as of the 1995 enlargement are to be analyzed altogether as a group.

## w22 - WEIGHT EU27

## w22 Weight EU27

This POPULATION SIZE WEIGHT includes all 25 member countries after the 2004 enlargement, plus the new members as of 2007 Bulgaria and Romania. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of the European Union. The post-stratification weighting factors for all samples/countries are included. Weight w22 should be used whenever all 27 countries participating in this wave are to be analysed as a group.

## w24 - WEIGHT EU NMS 12

## w24 Weight EU NMS 12

This POPULATION SIZE WEIGHT refers to the group of the 12 new member countries as of the enlargement in January 2007: Republic of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Slovenia, Bulgaria and Romania. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w24 must be applied whenever these 12 countries are to be analyzed altogether as a group.

## w29 - WEIGHT EURO ZONE 15

## w29 Weight EURO ZONE 15

This POPULATION SIZE WEIGHT separates the group of countries which have adopted the EURO as their currency until 2008. These are 15 member states: Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland (introduction as of January 1, 2002), Slovenia (introduction as of January 1, 2007), Cyprus and Malta (introduction as of January 1, 2008). It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w29 must be applied whenever these countries are to be analyzed altogether as a group, e.g. when questions related to the introduction of the common European currency are concerned.

## w30 - WEIGHT NON-EURO ZONE 15

## w30 Weight NON-EURO ZONE 15

This POPULATION SIZE WEIGHT separates the group of countries (Denmark, United Kingdom, Sweden, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia, Bulgaria, Romania) which did not introduce the EURO up to January 1, 2008. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w30 must be applied whenever these countries are to be analyzed altogether as a group.

## w84 - WEIGHT NON-EURO ZONE 17 - EU NMS 12

## w84 Weight NON-EURO ZONE 17 - EU NMS 12

This POPULATION SIZE WEIGHT separates the group of countries (Czech Republic, Hungary, Latvia, Lithuania, Poland, Bulgaria, and Romania) belonging to the 12 new members after the enlargement of January 2007 which did not introduce the EURO up to January 1, 2011. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w84 must be applied whenever these 7 countries are to be analyzed altogether as a group.

## w84

## wextra - WEIGHT EXTRAPOLATED POPULATION 15+

wextra Weight extrapolated population 15+

Weight wextra extrapolates the actual universe (population aged 15 or more) for each country (sample), i.e. this weight variable integrates all other available weights, but does not reproduce the number of cases in the data set.

qa1b\_1 - ONLINE PURCHASE IN CNTRY - FREQUENCY

QA1B

How often did you in the last 12 months purchase products or services online from...?

(SHOW CARD WITH SCALE – ONE ANSWER PER LINE)

QA1B\_1 (IF CODE 1 IN QA1A) Sellers located in (OUR COUNTRY)

- 1 Several times a month
- 2 Once a month
- 3 Every 2-3 months
- 4 Less often
- 5 DK
- 9 Inap. No online purchase in own country (not coded 1 in qa1a\_1)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

QA2A\_2 Delivery costs higher than stated

- 0 Not mentioned
- 1 Mentioned
- 9 Inap. No online purchase in own country (not coded 1 in qa1a\_1)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

(SHOW CARD – MULTIPLE ANSWERS POSSIBLE PER COLUMN - READ OUT – ROTATE)

QA2A\_8 The package had been lost in the post when returned to the seller

0 Not mentioned

1 Mentioned

9 Inap. No online purchase in own country (not coded 1 in qa1a\_1)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa2a\_14 - ONLINE PURCHASE CNTRY PRBLM: FAULTY PRODUCT

QA2A

ASK QA2A IF "HAS PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY)", CODE 1 IN QA1A – OTHERS GO TO QA2B

When you have purchased products or services online from a seller located in (OUR COUNTRY), have you experienced any of the following problems?

(SHOW CARD – MULTIPLE ANSWERS POSSIBLE PER COLUMN - READ OUT – ROTATE)

QA2A\_14 The delivered product was faulty and there were problems with the guarantee

0 Not mentioned

1 Mentioned

9 Inap. No online purchase in own country (not coded 1 in qa1a\_1)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa2b\_3 - ONLINE PURCHASE EU PRBLM: DLVRY COSTS TOO HIGH

QA2B

ASK QA2B IF "HAS PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN ANOTHER EU MEMBER STATE",  
CODE 2 IN QA1A – OTHERS GO TO QA3A

When you have purchased products or services online from a seller located in another EU Member State, have you experienced any of the following problems?

(SHOW CARD – MULTIPLE ANSWERS POSSIBLE PER COLUMN - READ OUT – ROTATE)

QA2B\_3 Delivery costs are too high

0 Not mentioned

1 Mentioned

9 Inap. No online purchase in another EU member state (not coded 1 in qa1a\_2)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa2t - ONLINE PURCHASE PRBLM - SUMMARIZED

Respondents who purchased products or services in own country or in another EU country in the past 12 months and experienced problems - summarized

0 Not mentioned

1 Total 'Yes'

9 Inap. No online purchase in own country or another EU member state (not coded 1 in qa1a\_1 and qa1a\_2)

Derivation:

This variable summarizes answers to qa2a\_1 to qa2a\_15 and qa2b\_1 to qa2b\_15.

[qa2a When you have purchased products or services online from a seller located in (OUR COUNTRY), have you experienced any of the following problems?

qa2b When you have purchased products or services online from a seller located in another EU Member State, have you experienced any of the following problems?

qa2a\_1/qa2b\_1 A delay in the delivery

qa2a\_2/qa2b\_2 Delivery costs higher than stated

qa2a\_3/qa2b\_3 Delivery costs are too high

qa2a\_4/qa2b\_4 You had to return the product

qa2a\_5/qa2b\_5 It was not possible to return the product for reimbursement

qa2a\_6/qa2b\_6 The product was not delivered but was still

qa2a\_7/qa2b\_7 The product was returned to the seller but not reimbursed

qa2a\_8/qa2b\_8 The package had been lost in the post when returned to the seller

qa2a\_9/qa2b\_9 There were no means to track the delivery status

qa2a\_10/qa2b\_10 Delivery at home when nobody was there

qa2a\_11/qa2b\_11 You needed to collect the package from a collection point far away

qa2a\_12/qa2b\_12 The collection point opening hours were not convenient

qa2a\_13/qa2b\_13 The delivered product was different from the one you ordered

qa2a\_14/qa2b\_14 The delivered product was faulty and there were problems with the guarantee

qa2a\_15/qa2b\_15 Other (SPONTANEOUS)]

Note:

See qa2a and qa2b for complete question text.

qa3a\_3 - NOT PURCHASE ONLINE CNTRY: PREFER SHOPS

QA3A

ASK QA3A IF "HAS NOT PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY)", NO CODE 1 IN QA1A – OTHERS GO TO QA3B

When you have purchased products or services online from a seller located in (OUR COUNTRY), have you experienced any of the following problems?

(SHOW CARD – MULTIPLE ANSWERS POSSIBLE PER COLUMN - READ OUT – ROTATE)

QA3A\_3 You prefer to buy in shops

0 Not mentioned

1 Mentioned

9 Inap. Online purchase in own country (coded 1 in qa1a\_1)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa3a\_9 - NOT PURCHASE ONLINE CNTRY: HIGH DELIVERY COSTS

QA3A

ASK QA3A IF "HAS NOT PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY)", NO CODE 1 IN QA1A – OTHERS GO TO QA3B

When you have purchased products or services online from a seller located in (OUR COUNTRY), have you experienced any of the following problems?

(SHOW CARD – MULTIPLE ANSWERS POSSIBLE PER COLUMN - READ OUT – ROTATE)

QA3A\_9 Delivery costs are too high

0 Not mentioned

1 Mentioned

9 Inap. Online purchase in own country (coded 1 in qa1a\_1)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa3a\_15 - NOT PURCHASE ONLINE CNTRY: DK

QA3A

ASK QA3A IF "HAS NOT PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY)", NO CODE 1 IN QA1A – OTHERS GO TO QA3B

When you have purchased products or services online from a seller located in (OUR COUNTRY), have you experienced any of the following problems?

(SHOW CARD – MULTIPLE ANSWERS POSSIBLE PER COLUMN - READ OUT – ROTATE)

QA3A\_15 DK

0 Not mentioned

1 Mentioned

9 Inap. Online purchase in own country (coded 1 in qa1a\_1)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

9 Inap. Online purchase in another EU member state (coded 1 in qa1a\_2)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa3b\_11 - NOT PURCHASE ONLINE EU: REIMBURSEMENT CONCERN

QA3B

ASK QA3B IF "HAS NOT PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN ANOTHER EU MS", NO CODE 2 IN QA1A – OTHERS GO TO QA4

Why do you not purchase products or services online from sellers located in another EU Member State?

(SHOW CARD – MULTIPLE ANSWERS POSSIBLE PER COLUMN - READ OUT – ROTATE)

QA3B\_11 You are concerned about returning products or getting reimbursed

0 Not mentioned

1 Mentioned

9 Inap. Online purchase in another EU member state (coded 1 in qa1a\_2)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa5\_1 - RETAILER WEBSITE ASSESSMENT: WELL-KNOWN BRANDS

QA5

ASK QA5 IF "HAS PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY) OR IN ANOTHER EU MEMBER STATE", CODE 1 OR 2 IN QA1A – OTHERS GO TO QA6

When you are purchasing products or services online, which of the following do you do to assess if an online retailer's website is trustworthy?

(SHOW CARD WITH SCALE – ONE ANSWER PER LINE - READ OUT)

QA5\_1 You only use the websites of wellknown brands

- 1 Always
- 2 Sometimes
- 3 Never
- 4 DK
- 9 Inap. No online purchase in own country and another EU member state (not coded 1 in qa1a\_1 and qa1a\_2)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa7\_1 - NOT TRUSTED ONLINE RETAILER RSN: NEVER HEARD

QA7

ASK QA7 IF "YES", CODE 1 TO 4 IN QA6 – OTHERS GO TO QA8

Why did you not trust the online retailer?

(SHOW CARD – READ OUT - MULTIPLE ANSWERS POSSIBLE)

QA7\_1 You had not heard of the online retailer before

0 Not mentioned

1 Mentioned

9 Inap. No or DK in qa6 (not coded 1 in qa6\_1 to qa6\_4)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

QA7

ASK QA7 IF "YES", CODE 1 TO 4 IN QA6 – OTHERS GO TO QA8

Why did you not trust the online retailer?

(SHOW CARD – READ OUT - MULTIPLE ANSWERS POSSIBLE)

QA7\_2 The website did not have a trust mark label or logo

0 Not mentioned

1 Mentioned

9 Inap. No or DK in qa6 (not coded 1 in qa6\_1 to qa6\_4)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa7\_8 - NOT TRUSTED ONLINE RETAILER RSN: OTHER

QA7

ASK QA7 IF "YES", CODE 1 TO 4 IN QA6 – OTHERS GO TO QA8

Why did you not trust the online retailer?

(SHOW CARD – READ OUT - MULTIPLE ANSWERS POSSIBLE)

QA7\_8 Other (SPONTANEOUS)

0 Not mentioned

1 Mentioned

9 Inap. No or DK in qa6 (not coded 1 in qa6\_1 to qa6\_4)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa9\_1 - ONLINE PURCHASE LST12M DIGITAL: MUSIC

QA9

ASK QA9 TO QA11 IF "HAS PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY) OR IN ANOTHER EU MEMBER STATE", CODE 1 OR 2 IN QA1A – OTHERS GO TO QA12

In the last 12 months, have you purchased any of the following products or services online in (OUR COUNTRY) or in another EU Member State which were delivered to you digitally (e.g. by email, download, streaming, etc.)?

(SHOW CARD – READ OUT – ROTATE – MULTIPLE ANSWERS POSSIBLE)

QA9\_1 Music

0 Not mentioned

1 Mentioned

9 Inap. No online purchase in own country and another EU member state (not coded 1 in qa1a\_1 and qa1a\_2)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa9\_8 - ONLINE PURCHASE LST12M DIGITAL: TRAVEL TICKETS

QA9

ASK QA9 TO QA11 IF "HAS PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY) OR IN ANOTHER EU MEMBER STATE", CODE 1 OR 2 IN QA1A – OTHERS GO TO QA12

In the last 12 months, have you purchased any of the following products or services online in (OUR COUNTRY) or in another EU Member State which were delivered to you digitally (e.g. by email, download, streaming, etc.)?

(SHOW CARD – READ OUT – ROTATE – MULTIPLE ANSWERS POSSIBLE)

QA9\_8 Travel tickets (e.g. trains, flights)

0 Not mentioned

1 Mentioned

9 Inap. No online purchase in own country and another EU member state (not coded 1 in qa1a\_1 and qa1a\_2)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa9\_14 - ONLINE PURCHASE LST12M DIGITAL: DK

QA9

ASK QA9 TO QA11 IF "HAS PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY) OR IN ANOTHER EU MEMBER STATE", CODE 1 OR 2 IN QA1A – OTHERS GO TO QA12

In the last 12 months, have you purchased any of the following products or services online in (OUR COUNTRY) or in another EU Member State which were delivered to you digitally (e.g. by email, download, streaming, etc.)?

(SHOW CARD – READ OUT – ROTATE – MULTIPLE ANSWERS POSSIBLE)

QA9\_14 DK

0 Not mentioned

1 Mentioned

9 Inap. No online purchase in own country and another EU member state (not coded 1 in qa1a\_1 and qa1a\_2)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa10\_5 - ONLINE PURCHASE LST12M PHYSCL: GROCERIES

ASK QA9 TO QA11 IF "HAS PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY) OR IN ANOTHER EU MEMBER STATE", CODE 1 OR 2 IN QA1A

QA10

In the last 12 months, have you purchased any of the following products online in (OUR COUNTRY) or in another EU Member State to be delivered to you physically?

(SHOW CARD – READ OUT – ROTATE – MULTIPLE ANSWERS POSSIBLE)

QA10\_5 Groceries

0 Not mentioned

1 Mentioned

9 Inap. No online purchase in own country and another EU member state (not coded 1 in qa1a\_1 and qa1a\_2)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa11\_1 - ONLINE PURCHASE DEVICE: DESKTOP COMPUTER

ASK QA9 TO QA11 IF "HAS PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY) OR IN ANOTHER EU MEMBER STATE", CODE 1 OR 2 IN QA1A

QA11

When you purchase products or services online in (OUR COUNTRY) or in another EU Member State, which of the following do you use?

(SHOW CARD – READ OUT – MULTIPLE ANSWERS POSSIBLE)

QA11\_1 A desktop computer

0 Not mentioned

1 Mentioned

9 Inap. No online purchase in own country and another EU member state (not coded 1 in qa1a\_1 and qa1a\_2)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa11\_7 - ONLINE PURCHASE DEVICE: DK

ASK QA9 TO QA11 IF "HAS PURCHASED PRODUCTS OR SERVICES ONLINE FROM SELLERS LOCATED IN (OUR COUNTRY) OR IN ANOTHER EU MEMBER STATE", CODE 1 OR 2 IN QA1A

QA11

When you purchase products or services online in (OUR COUNTRY) or in another EU Member State, which of the following do you use?

(SHOW CARD – READ OUT – MULTIPLE ANSWERS POSSIBLE)

QA11\_7 DK

0 Not mentioned

1 Mentioned

9 Inap. No online purchase in own country and another EU member state (not coded 1 in qa1a\_1 and qa1a\_2)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa20\_1 - COMPULSORY TRAINEESHIP: HAIRDRESSERS

QA20

As you may know, access to some professions requires by law in some countries the completion of a traineeship or achieving certain specific qualifications while in others the decision is left to the employer and to the consumer. For each of the following professions, please tell me if you think it is justified or not to place such legal requirements?

qa20\_4 - COMPULSORY TRAINEESHIP: DESIGN/BUILDING PROFESS

QA20

As you may know, access to some professions requires by law in some countries the completion of a traineeship or achieving certain specific qualifications while in others the decision is left to the employer and to the consumer. For each of the following professions, please tell me if you think it is justified or not to place such legal requirements?

(SHOW CARD WITH SCALE – ONE ANSWER PER LINE - READ OUT)

QA20\_4 Design and building professions (e.g. architects, builders, plumbers, electricians, etc.)

- 1 Totally justified
- 2 Fairly justified
- 3 Fairly unjustified
- 4 Totally unjustified

qb1t - CULTURAL PRACTICE (INDEX)

Index of cultural practice

- 1 Very high
- 2 High
- 3 Medium
- 4 Low

Derivation:

The CULTURAL PRACTICE INDEX is based on the answers to question qb1 (qb1\_1 to qb1\_9).

[qb1 How many times in the last twelve months have you...?

qb1\_1 Seen a ballet, a dance performance or an opera

qb1\_2 Been to the cinema

qb1\_3 Been to the theatre

qb1\_4 Been to a concert

qb1\_5 Visited a public library

qb1\_6 Visited a historical monument or site (palaces, castles, churches, gardens, etc.)

qb1\_7 Visited a museum or gallery

qb1\_8 Watched or listened to a cultural programme on TV or on the radio

qb1\_9 Read a book]

According to the Eurobarometer Report "Special Eurobarometer 399 – Cultural access and participation" (page 7) the index was constructed by first attributing scores to the frequency of participation ("Not in the last 12 months" or DK = scores 0; "1-2 times" = scores 1; "3-5 times" = scores 2; "More than 5 times" = scores 3) and then adding up the nine items resulting in a score between and 0 and 27 for each respondent. In addition the respondents have been qualified in accordance to the total frequency of mentioning the category "More than 5 times". This procedure ends up in four different index levels which have been derived as follows:

- 1: "Very high" if adding up a score of 21 to 27 or having selected "More than 5 times" five or more times
- 2: "High" if adding up a score of 14 to 20 or having selected "More than 5 times" three or four times
- 3: "Medium" if adding up a score of 7 to 13 or having selected "More than 5 times" once or twice
- 4: "Low" if adding up a score of 0 to 6, but excluding respondents who at least once selected "More than 5 times".

Note:

See qb1 for complete question text.

qb3\_1 - CULTURAL ACTIVITIES FROM EU: BALLET/DANCE/OPERA

Let's now discuss specifically your participation in cultural activities/events FROM other European countries than (OUR COUNTRY), and/or your participation in cultural activities/ events IN other EU countries than (OUR COUNTRY).

QB3

How many times in the last twelve months have you...?

(SHOW CARD WITH SCALE – ONE ANSWER PER LINE - READ OUT)

(INT: In the four first items (ITEM 1-4) we're talking about the troupe/company/band/artists from another European country and not about the theatre writer, the choreographer, the composer)

(INT: In the two last items (ITEM 6 AND 7) of this question, we refer to EU countries, and not to European countries outside the EU)

QB3\_1 Seen a ballet, a dance performance or an opera FROM another European country

- 1 Not in the last 12 months
- 2 1-2 times
- 3 3-5 times
- 4 More than 5 times
- 5 DK

qb3\_6 - CULTURAL ACTIVITIES IN EU: HISTORICAL SITE

Let's now discuss specifically your participation in cultural activities/events FROM other European countries than (OUR COUNTRY), and/or your participation in cultural activities/ events IN other EU countries than (OUR COUNTRY).

QB3

How many times in the last twelve months have you...?

(SHOW CARD WITH SCALE – ONE ANSWER PER LINE - READ OUT)

(INT: In the four first items (ITEM 1-4) we're talking about the troupe/company/band/artists from another European country and not about the theatre writer, the choreographer, the composer)

(INT: In the two last items (ITEM 6 AND 7) of this question, we refer to EU countries, and not to European countries outside the EU)

QB3\_6 Visited a historical monument or site (palaces, castles, churches, gardens, etc.) IN another EU country

- 1 Not in the last 12 months
- 2 1-2 times
- 3 3-5 times
- 4 More than 5 times
- 5 DK

qb5 - INTERNET USE FOR CULTURAL PURPOSES - FREQUENCY

QB5

How often do you use the Internet for cultural purposes like, for instance, searching for cultural information, buying cultural products or reading articles related to culture?

(READ OUT – ONE ANSWER ONLY)

- 1 Every day
- 2 Several times a week
- 3 Once a week
- 4 1 to 3 times a month
- 5 Less often
- 6 Never
- 7 No access to the Internet (SPONTANEOUS)
- 8 DK

qd1 - SCIENCE & TECHNOLOGY - INFORMEDNESS

D. Responsible research and innovation, science and technology

We will now ask you some questions about science, technology and innovation. In this questionnaire, 'science and technology' means the natural sciences, like physics, chemistry, biology and their application in technology and engineering, for instance computer technology, biotechnology and medical applications. 'Innovation' means the development of new products and services that are based on science and technology.

(READ OUT)

QD1

ASK ALL

How informed do you feel about developments in science and technology?

(READ OUT – ONE ANSWER ONLY)

- 1 Very well informed
- 2 Fairly well informed
- 3 Not very well informed
- 4 Not at all informed
- 5 DK

qd2 - SCIENCE & TECHNOLOGY - INTEREST

QD2

How interested are you in developments in science and technology?

(READ OUT – ONE ANSWER ONLY)

- 1 Very interested
- 2 Fairly interested
- 3 Not very interested
- 4 Not at all interested
- 5 DK

qd2t - SCIENCE & TECHNOLOGY - INFORMEDNESS+INTEREST

Developments in science and technology: informedness and interest - respondents categorized in four groups

- 1 Interested and informed
- 2 Interested but not informed
- 3 Not interested but informed
- 4 Not interested and not informed
- 5 Other

Derivation:

This variable summarizes responses to qd1 and qd2.

[qd1 How informed do you feel about developments in science and technology?

qd2 How interested are you in developments in science and technology?]

Respondents coded 1 or 2 in qd1 ("Very well/fairly well informed") and qd2 ("Very/fairly interested") are coded 1 in qd2t ("Interested and informed"). Respondents coded 3 or 4 in qd1 ("Not very well/Not at all informed") and coded 1 or 2 in qd2 ("Very/fairly interested") are coded 2 in qd2t ("Interested but not informed"). Respondents coded 1 or 2 in qd1 ("Very well/fairly well informed") and coded 3 or 4 in qd2 ("Not very/Not at all interested") are coded 3 in qd2t ("Not interested but informed"). Respondents coded 3 or 4 in qd1 ("Not very well/Not at all informed") and coded 3 or 4 in qd2 ("Not very/Not at all interested") are coded 4 in qd2t ("Not interested and not informed"). Respondents coded 5 ("DK") in qd1 or qd2 are coded 5 in qd2t ("Other").

Note:

See qd1 and qd2 for complete question texts.

qd3a\_t - NATURAL SCIENCE QUALIFICATION - SUMMARIZED

Respondents with a family member who has or had a job or a university qualification in science or technology - summarized

0 Not mentioned

1 Total 'Yes'

Derivation:

This variable summarizes answers to qd3a\_1 to qd3a\_3.

[qd3a Does or did any of your family have a job or a university qualification in science or technology?

qd3a\_1 Yes, your father

qd3a\_2 Yes, your mother

qd3a\_3 Yes, another member of your family]

Note:

See qd3a for complete question text.

qd6 - S&T DECISION MAKING - CITIZENS INVOLVEMENT

QD6

What is the level of involvement citizens should have when it comes to decisions made about science and technology?

(SHOW CARD - READ OUT – ONE ANSWER ONLY)

- 1 Citizens do not need to be involved or informed
- 2 Citizens should only be informed
- 3 Citizens should be consulted and their opinion should be considered
- 4 Citizens should participate and have an active role
- 5 Citizens' opinions should be binding
- 6 None (SPONTANEOUS)
- 7 DK

qd10 - S&T VIOLATING MORAL PRINCIPLES - ACCEPTANCE

Now I'm going to ask you some questions about ethics in science, technology and innovation. For the purpose of this questionnaire, ethics relate to concerns about values such as privacy, the protection of the health and dignity of persons participating in research, as well as the welfare of animals used in research.

QD10

Do you think that science and technology should be allowed to violate fundamental rights and moral principles in order to make a new discovery?

(READ OUT – ONE ANSWER ONLY)

- 1 Yes, in all cases
- 2 Yes, in certain cases
- 3 No
- 4 DK

qd16\_6 - RESEARCH ACC GENDER NEEDS: NONE

QD16

ASK QD16 IF "IMPORTANT THAT SCIENTIFIC RESEARCH TAKES EQUALLY INTO ACCOUNT WOMEN'S AND MEN'S NEEDS", CODE 1 OR 2 IN QD15 – OTHERS GO TO QD17

Why do you think it is important that scientific research takes equally into account women's and men's needs?

(READ OUT – ROTATE – MULTIPLE ANSWERS POSSIBLE)

QD16\_6 None (SPONTANEOUS)

0 Not mentioned

1 Mentioned

9 Inap. Not important that scientific research equally accounts gender needs or DK (not coded 1 or 2 in qd15)

qd17t - OPEN ACCESS TO PUBL FUNDED RESEARCH - SUMMARIZED

Respondents who think that results of publicly funded research should be made available online free of charge - summarized

0 Not mentioned

1 Total 'Yes'

Derivation:

This variable summarizes answers to qd17\_1 to qd17\_3.

[qd17 Where do you get information about developments in science and technology?

qd17\_1 Yes, to the general public

qd17\_2 Yes, to other researchers

qd17\_3 Yes, to industries]

Note:

See qd17 for complete question text.

d15a - OCCUPATION OF RESPONDENT

D15A

What is your current occupation?

NON-ACTIVE

- 1 Responsible for ordinary shopping and looking after the home, or without any current occupation, not working
- 2 Student
- 3 Unemployed or temporarily not working
- 4 Retired or unable to work through illness

SELF EMPLOYED

- 5 Farmer
- 6 Fisherman
- 7 Professional (lawyer, medical practitioner, accountant, architect, etc.)
- 8 Owner of a shop, craftsmen, other self-employed person
- 9 Business proprietors, owner (full or partner) of a company

EMPLOYED

- 10 Employed professional (employed doctor, lawyer, accountant, architect)
- 11 General management, director or top management (managing directors, director general, other director)
- 12 Middle management, other management (department head, junior manager, teacher, technician)
- 13 Employed position, working mainly at a desk
- 14 Employed position, not at a desk but travelling (salesmen, driver, etc.)
- 15 Employed position, not at a desk, but in a service job (hospital, restaurant, police, fireman, etc.)
- 16 Supervisor
- 17 Skilled manual worker
- 18 Other (unskilled) manual worker, servant

Comparability:

d15a\_r1 - OCCUPATION OF RESPONDENT (REC)

Occupation of respondent - recoded to employment status

- 1 Self-employed (coded 5 to 9 in d15a)
- 2 Employed (coded 10 to 18 in d15a)
- 3 Not working (coded 1 to 4 in d15a)

Derivation:

This variable collapses answers to d15a into three categories.

[d15a What is your current occupation?]

Note:

See d15a for complete question text.

d15a\_r2 - OCCUPATION SCALE (C14)

Occupation of respondent - scale (C14)

- 1 Self-employed (coded 5 to 9 in d15a)
- 2 Managers (coded 10 to 12 in d15a)
- 3 Other white collars (coded 13 or 14 in d15a)
- 4 Manual workers (coded 15 to 18 in d15a)
- 5 House persons (coded 1 in d15a)
- 6 Unemployed (coded 3 in d15a)
- 7 Retired (coded 4 in d15a)
- 8 Students (coded 2 in d15a)

Derivation:

This scale is based on a combination/selection of answers to variable d15a.

[d15a What is your current occupation?]

Note:

See d15a for complete question text.

d15a\_r2 by isocntry, Absolute Values (Row Percent), weighted by w1

d15b - OCCUPATION OF RESPONDENT - LAST JOB

D15B

ASK D15B IF "NOT DOING ANY PAID WORK CURRENTLY", CODES 1 to 4 in D15A

Did you do any paid work in the past? What was your last occupation?

SELF EMPLOYED

- 1 Farmer
- 2 Fisherman
- 3 Professional (lawyer, medical practitioner, accountant, architect, etc.)
- 4 Owner of a shop, craftsmen, other self-employed person
- 5 Business proprietors, owner (full or partner) of a company

EMPLOYED

- 6 Employed professional (employed doctor, lawyer, accountant, architect)
- 7 General management, director or top management (managing directors, director general, other director)
- 8 Middle management, other management (department head, junior manager, teacher, technician)
- 9 Employed position, working mainly at a desk
- 10 Employed position, not at a desk but travelling (salesmen, driver, etc.)
- 11 Employed position, not at a desk, but in a service job (hospital, restaurant, police, fireman, etc.)
- 12 Supervisor
- 13 Skilled manual worker
- 14 Other (unskilled) manual worker, servant

15 Never did any paid work

99 Inap. Currently doing paid work (not coded 1 to 4 in d15a)

Note:

In accordance with former waves coding has been (correctly) shifted compared to the questionnaire.

Comparability:

Last trend: EB79.1, D15B

d15b\_r - OCCUPATION OF RESPONDENT - LAST JOB (REC)

Occupation of respondent: last job - recoded to employment status

- 1 Self-employed (coded 1 to 5 in d15b)
- 2 Employed (coded 6 to 14 in d15b)
- 3 Never paid work (coded 15 in d15b)
- 9 Inap. Currently doing paid work (not coded 1 to 4 in d15a)

Derivation:

This variable collapses answers to d15b into three categories.

[d15b Did you do any paid work in the past? What was your last occupation?]

Note:

See d15b for complete question text.

qe1 - UNDECLARED WORK - PERSONALLY KNOW PEOPLE

E. Undeclared work in the EU

The following questions are of a sensitive nature and I would like to confirm you that all the information collected is handled in strict confidentiality and anonymity. Your answers to the following questions therefore will remain absolutely ANONYMOUS.

It is widely known that part of the population is engaged in undeclared work, in the sense of activities which avoid partly or entirely declaration to tax authorities or social security institutions, but which are otherwise legal. This could be people working in certain sectors of activity like construction, transport or agriculture for example but also in hotels, restaurants and cafes. Often it concerns only part of their income from work like remuneration of overtime or other extras. Undeclared work is also common in a whole range of household services - such as gardening, babysitting and elderly care -, personal services - like hairdressing, cosmetic or medical treatment - and repair services for cars, clothes, or computers.

QE1

ASK ALL

Do you personally know any people who work without declaring their income or part of their income to tax or social security institutions?  
(ONE ANSWER ONLY)

- 1 Yes
- 2 No
- 7 Refusal (SPONTANEOUS)
- 8 DK

Note:

Original code "3" recoded to "7".

Original code "4" recoded to "8".

qe4a - UNDECLARED WORK REASONS - 1ST

QE4A

What are in your opinion the reasons for doing undeclared work? Firstly?

(SHOW CARD – ONE ANSWER PER COLUMN - READ OUT)

- 1 Bureaucracy or red tape for a regular economic activity is too complicated
- 2 Bureaucracy or red tape for minor or occasional economic activities is too complicated
- 3 Lack of control by authorities
- 4 Sanctions are too weak
- 5 In certain sectors or regions there is no real alternative
- 6 Salaries in the regular businesses are too low
- 7 Lack of regular jobs on the labour market
- 8 The State does not do anything for the people, so why should they pay taxes
- 9 Nobody would buy these goods or services at normal market prices
- 10 Taxes and/or social security contributions are too high
- 11 It is difficult to live on social welfare benefits
- 12 Others (SPONTANEOUS)
- 97 Refusal (SPONTANEOUS)
- 98 DK

qe4b - UNDECLARED WORK REASONS - 2ND

[QE4A

What are in your opinion the reasons for doing undeclared work? Firstly?]

QE4B

And secondly?

(SHOW CARD – ONE ANSWER PER COLUMN - READ OUT)

- 1 Bureaucracy or red tape for a regular economic activity is too complicated
- 2 Bureaucracy or red tape for minor or occasional economic activities is too complicated
- 3 Lack of control by authorities
- 4 Sanctions are too weak
- 5 In certain sectors or regions there is no real alternative
- 6 Salaries in the regular businesses are too low
- 7 Lack of regular jobs on the labour market
- 8 The State does not do anything for the people, so why should they pay taxes
- 9 Nobody would buy these goods or services at normal market prices
- 10 Taxes and/or social security contributions are too high
- 11 It is difficult to live on social welfare benefits
- 12 Others (SPONTANEOUS)
- 97 Refusal (SPONTANEOUS)
- 98 DK
- 99 Inap. Refusal or DK (coded 97 or 98 in qe4a)

Note:

Original code "13" recoded to "97".

qe5 - UNDECLARED WORK - PURCHASED GOODS/SERVICES

It is widely known that many people to some extent accept "undeclared work" – i.e. activities which are not declared to tax authorities or social security institutions. As mentioned earlier this work can include a variety of goods and services - such as gardening, babysitting, hairdressing, and many other things.

QE5

Have you in the last 12 months paid for any goods or services of which you had a good reason to assume that they included undeclared work (e.g. because there was no invoice or VAT receipt)?

(ONE ANSWER ONLY)

(PLEASE REMIND THE INTERVIEWEE THAT ALL ANSWERS WILL REMAIN ANONYMOUS)

- 1 Yes
- 2 No
- 7 Refusal (SPONTANEOUS)
- 8 DK

Note:

Original code "3" recoded to "7".

Original code "4" recoded to "8".

qe7a - UNDECLARED WORK PURCHASE - CASH VALUE LAST 12 M

ASK QE6 TO QE9 IF "YES", CODE 1 IN QE5

QE7A

And approximately how much have you spent on all these undeclared goods and services in the last 12 months?

(WRITE DOWN – ONE ANSWER ONLY - NO DECIMALS – IF "DON'T REMEMBER" CODE '99997' – IF "REFUSAL" CODE '99998' – IF "DON'T KNOW" CODE '99999')

1 1 euro

30000 30000 euros

99996 Don't remember

99997 Refusal

99998 DK

99999 Inap. Did not pay for undeclared goods or services, Refusal or DK (not coded 1 in qe5)

Note:

Actual number is coded.

Original code "99997" recoded to "99996".

Original code "99998" recoded to "99997".

Original code "99999" recoded to "99998".

Comparability:

Based on: EB67.3, QB11

qe7a\_r - UNDECLARED WORK PURCHASE - CASH VALUE (RECODED)

Purchase of undeclared work or services in the last 12 months (cash value) - recoded to four categories

- 1 1-50 euros
- 2 51-200 euros
- 3 201-500 euros
- 4 500+ euros
- 6 Don't remember
- 7 Refusal
- 8 DK
- 9 Inap. Did not pay for undeclared goods or services, Refusal or DK (not coded 1 in qe5)

Derivation:

This variable collapses answers to qe7a into four categories.

Note:

See qe7a for complete question text.

qe7b - UNDECLARED WORK PURCHASE - COST PER HOUR

ASK QE6 TO QE9 IF "YES", CODE 1 IN QE5

QE7B

When considering only the undeclared services which you buy most frequently, how much do they cost you approximately per hour?

(WRITE DOWN – ONE ANSWER ONLY - NO DECIMALS – IF "NEVER BUY SERVICES" CODE '99996' – IF "DON'T REMEMBER" CODE '99997' – IF "REFUSAL" CODE '99998' – IF "DON'T KNOW" CODE '99999')

1 1 euro

1000 1000 euros

9995 Never buy undeclared services

9996 Don't remember

9997 Refusal

9998 DK

9999 Inap. Did not pay for undeclared goods or services, Refusal or DK (not coded 1 in qe5)

Note:

Actual number is coded.

Original code "99996" recoded to "9995".

Original code "99997" recoded to "9996".

Original code "99998" recoded to "9997".

Original code "99999" recoded to "9998".

In accordance with the question text in the basic questionnaire and the original data set answer category "9995" has been labelled "Never buy undeclared services". Please notice the deviation in the interviewer instruction of the basic questionnaire ("Never buy services").

Please notice that several respondents indicate an undeclared service in qe6 and at the same time are coded 9995 ("Never buy undeclared services") in qe7b.

Comparability:

Based on: EB67.3, QB11

qe7b\_r - UNDECLARED WORK PURCHASE - COST PER HOUR (RECODED)

Purchase of undeclared services (cost per hour) - recoded to five categories

- 1 1-5 euros
- 2 6-10 euros
- 3 11-15 euros
- 4 16-20 euros
- 5 20+ euros
- 95 Never buy undeclared services
- 96 Don't remember
- 97 Refusal
- 98 DK
- 99 Inap. Did not pay for undeclared goods or services, Refusal or DK (not coded 1 in qe5)

Derivation:

This variable collapses answers to qe7b into five categories.

Note:

In accordance with the question text in the basic questionnaire and the original data set answer category "9995" in question qe7b has been labelled "Never buy undeclared services". Please notice the deviation in the interviewer instruction of the basic questionnaire ("Never buy services").

Please notice that several respondents indicate an undeclared service in qe6 and at the same time are coded 9995 ("Never buy undeclared services") in qe7b.

See qe7b for complete question text.

qe10 - UNDECLARED INCOME - PAID BY EMPLOYER

QE10

ASK QE10 TO QE13 IF "DEPENDENT EMPLOYEES", CODE 10 TO 18 IN D15A – OTHERS GO TO QE14

Sometimes employers prefer to pay all or part of the salary or the remuneration (for extra work, overtime hours or the part above a legal minimum) in cash and without declaring it to tax or social security authorities. Has your employer paid you any of your income in the last 12 months in this way?

(ONE ANSWER ONLY)

(PLEASE REMIND THE INTERVIEWEE THAT ALL ANSWERS WILL REMAIN ANONYMOUS)

- 1 Yes
- 2 No
- 7 Refusal (SPONTANEOUS)
- 8 DK
- 9 Inap. Non-active or self-employed (not coded 10 to 18 in d15a)

Note:

Original code "3" recoded to "7".

Original code "4" recoded to "8".

qe12 - UNDECLARED INCOME- % OF YEARLY INCOME

ASK QE10 TO QE13 IF "DEPENDENT EMPLOYEES", CODE 10 TO 18 IN D15A / ASK QE11 AND QE12 IF "YES", CODE 1 IN QE10

QE12

Approximately what percentage of your gross yearly income in your main job did you get this way?

(WRITE DOWN – ONE ANSWER ONLY - NO DECIMALS – IF "DON'T REMEMBER" CODE '997' – IF "REFUSAL" CODE '998' – IF "DON'T KNOW" CODE '999')

1 1%

100 100%

996 Don't remember

997 Refusal

998 DK

999 Inap. No undeclared income; Non-active or self-employed (not coded 1 in q10; not coded 10 to 18 in d15a)

Note:

Actual number is coded.

Original code "997" recoded to "996".

Original code "998" recoded to "997".

Original code "999" recoded to "998".

Comparability:

Last trend: EB67.3, QB17

qe12r - UNDECLARED INCOME- % OF YEARLY INCOME (RECODED)

Undeclared income in the last 12 months: percentage of gross yearly income - recoded to four categories

- 1 1-24 %
- 2 25-49 %
- 3 50-74 %
- 4 75-100 %
- 6 Don't remember
- 7 Refusal
- 8 DK
- 9 Inap. No undeclared income; Non-active or self-employed (not coded 1 in q10; not coded 10 to 18 in d15a)

Derivation:

This variable collapses answers to qe12 into four categories.

Note:

See qe12 for complete question text.

qe14 - UNDECLARED ACTIVITY - IN LAST 12 MONTHS

QE14

ASK ALL

Apart from a regular employment, have you yourself carried out any undeclared paid activities in the last 12 months?

(ONE ANSWER ONLY)

(PLEASE REMIND THE INTERVIEWEE THAT ALL ANSWERS WILL REMAIN ANONYMOUS)

- 1 Yes
- 2 No
- 7 Refusal (SPONTANEOUS)
- 8 DK

Note:

Original code "3" recoded to "7".

Original code "4" recoded to "8".

qe15b - UNDECLARED ACTIVITY - MONEY EARNED

ASK QE15A TO QE18 IF "YES", CODE 1 IN QE14

QE15B

APPROXIMATELY how much money have you earned from these undeclared activities in the last 12 months?

(WRITE DOWN – ONE ANSWER ONLY - NO DECIMALS – IF "DON'T REMEMBER" CODE '99997' – IF "REFUSAL" CODE '99998' – IF "DON'T KNOW" CODE '99999')

1 1 euro

14000 14000 euros

99996 Don't remember

99997 Refusal

99998 DK

99999 Inap. No undeclared paid activities, Refusal or DK (not coded 1 in qe14)

Note:

Actual number is coded.

Original code "99997" recoded to "99996".

Original code "99998" recoded to "99997".

Original code "99999" recoded to "99998".

qe15b\_r - UNDECLARED ACTIVITY - MONEY EARNED (RECODED)

Undeclared activities in the last 12 months: annual earning - recoded to five categories

- 1 1-100 euros
- 2 101-200 euros
- 3 201-500 euros
- 4 501-1000 euros
- 5 1000+ euros
- 6 Don't remember
- 7 Refusal
- 8 DK
- 9 Inap. No undeclared paid activities, Refusal or DK (not coded 1 in qe14)

Derivation:

This variable collapses answers to qe15b into five categories.

Note:

See qe15b for complete question text.

qe20\_3 - LEGITIMACY: PRIVATE UNDECLARED WORK

QE20

Now I would like to know how you assess various behaviours. For each of them, please tell me to what extent you find it acceptable or not. Please use the following scale: '1' means that you find it "absolutely unacceptable" and '10' means that you find it "absolutely acceptable". (SHOW CARD WITH SCALE – ONE ANSWER PER LINE - READ OUT)

QE20\_3 A private person is hired by a private household for work and he/she does not report the payment received in return to tax or social security institutions although it should be reported

- 1 Box 1 - Absolutely unacceptable
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - Absolutely acceptable
- 97 Refusal (SPONTANEOUS)

qe20\_5 - LEGITIMACY: UNDECLARED WORK FIRM BY FIRM

QE20

Now I would like to know how you assess various behaviours. For each of them, please tell me to what extent you find it acceptable or not. Please use the following scale: '1' means that you find it "absolutely unacceptable" and '10' means that you find it "absolutely acceptable". (SHOW CARD WITH SCALE – ONE ANSWER PER LINE - READ OUT)

QE20\_5 A firm is hired by another firm for work and it does not report its activity to tax or social security institutions

- 1 Box 1 - Absolutely unacceptable
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - Absolutely acceptable
- 97 Refusal (SPONTANEOUS)
- 98 DK

qe20\_7 - LEGITIMACY: NOT DECLARED INCOME

QE20

Now I would like to know how you assess various behaviours. For each of them, please tell me to what extent you find it acceptable or not. Please use the following scale: '1' means that you find it "absolutely unacceptable" and '10' means that you find it "absolutely acceptable". (SHOW CARD WITH SCALE – ONE ANSWER PER LINE - READ OUT)

QE20\_7 Someone evades taxes by not or only partially declaring income

- 1 Box 1 - Absolutely unacceptable
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - Absolutely acceptable
- 97 Refusal (SPONTANEOUS)
- 98 DK

Note:

Original code "11" recoded to "97".

d7 - MARITAL STATUS

DEMOGRAPHICS

D7

ASK ALL

Could you give me the letter which corresponds best to your own current situation?

(SHOW CARD – READ OUT – ONE ANSWER ONLY)

MARRIED OR REMARRIED

- 1 Living without children
- 2 Living with the children of this marriage
- 3 Living with the children of a previous marriage
- 4 Living with the children of this marriage and of a previous marriage

SINGLE LIVING WITH A PARTNER

- 5 Living without children
- 6 Living with the children of this union
- 7 Living with the children of a previous union
- 8 Living with the children of this union and of a previous union

SINGLE

- 9 Living without children
- 10 Living with children

DIVORCED OR SEPARATED

- 11 Living without children
- 12 Living with children

WIDOW/ER

- 13 Living without children
- 14 Living with children

15 Other (SPONTANEOUS)

97 Refusal (SPONTANEOUS)

d7r1 - MARITAL STATUS: 5 CAT (RECODED)

Marital status recoded to five categories with focus on partnership

- 1 (Re-)Married (coded 1 to 4 in d7)
- 2 Single living with partner (coded 5 to 8 in d7)
- 3 Single (coded 9 to 10 in d7)
- 4 Divorced or separated (coded 11 to 12 in d7)
- 5 Widow (coded 13 to 14 in d7)
- 6 Other (SPONTANEOUS)
- 7 Refusal (SPONTANEOUS)

Derivation:

This variable collapses answers to d7 into five categories.

[d7 Could you give me the letter which corresponds best to your own current situation?]

Note:

See d7 for complete question text.

d7r2 - MARITAL STATUS: 4 CAT (RECODED)

Marital status recoded to four categories with focus on marriage

- 1 Unmarried (coded 9 to 10 in d7)
- 2 (Re)Married/Single with partner (coded 1 to 8 in d7)
- 3 Divorced or separated (coded 11 to 12 in d7)
- 4 Widow (coded 13 to 14 in d7)
- 5 Other (SPONTANEOUS)
- 7 Refusal (SPONTANEOUS)

Derivation:

This variable collapses answers to d7 into four categories.

[d7 Could you give me the letter which corresponds best to your own current situation?]

Note:

See d7 for complete question text.

d8 - AGE EDUCATION

D8

How old were you when you stopped full-time education?

(IF "STILL STUDYING", CODE '00' – IF "NO EDUCATION" CODE '01' – IF "REFUSAL" CODE '98' – IF "DK" CODE '99')

0 Refusal

6 6 years

70 70 years

97 No full-time education

98 Still studying

99 DK

Note:

Original code "00" recoded to "98".

Original code "01" recoded to "97".

Original code "98" recoded to "0".

Please notice that pre-school ages (outliers) might be considered as with "no full-time education" or be excluded from valid answers.

Actual number is coded.

Comparability:

Last trend: EB79.1, D8

d8r1 - AGE EDUCATION: 11 CAT (RECODED)

Age when finished full-time education - recoded to 11 categories

- 1 Up to 14 years
- 2 15 years
- 3 16 years
- 4 17 years
- 5 18 years
- 6 19 years
- 7 20 years
- 8 21 years
- 9 22 years and older
- 10 Still studying
- 11 No full-time education
- 97 Refusal
- 98 DK

Derivation:

This variable collapses answers to question d8 for indicated ages lowest (6) to 14 and 22 to highest (70).

[d8 How old were you when you stopped full-time education?]

Note:

See d8 for complete question text.

d11r1 - AGE: 4 GROUPS (RECODED)

Age of respondent - recoded to four categories

- 1 15 - 24 years
- 2 25 - 39 years
- 3 40 - 54 years
- 4 55 years and older

Derivation:

This variable collapses answers to d11 into four categories.

[d11 How old are you?]

Note:

See d11 for complete question text.

d40a\_r - HOUSEHOLD COMPOSITION: AGED 15+ (REC)

n of people in household aged 15 years or more - recoded to four categories

- 1 One
- 2 Two
- 3 Three
- 4 Four or more

Derivation:

This variable groups answers to question d40a.

[d40a Could you tell me how many people aged 15 years or more live in your household, yourself included?]

Note:

See d40a for complete question text.

d40c\_r - HOUSEHOLD COMPOSITION: AGED 10-14 (REC)

n of people in household aged 10 to 14 years - recoded to five categories

- 0 None
- 1 One
- 2 Two
- 3 Three
- 4 Four or more

Derivation:

This variable groups answers to question d40c.

[d40c Could you tell me how many children aged 10 to 14 years old live in your household?]

Note:

See d40c for complete question text.

d40t - HOUSEHOLD COMPOSITION: SIZE (SUMMARIZED)

n of people in household - summarized

- 1 One
- 2 Two
- 3 Three
- 4 Four
- 5 Five
- 6 Six
- 7 Seven
- 8 Eight
- 9 Nine
- 10 Ten
- 11 Eleven
- 12 Twelve
- 13 Thirteen
- 14 Fourteen
- 16 Sixteen
- 18 Eighteen

Derivation:

This variable summarizes d40a, d40b, and d40c.

[d40a Could you tell me how many people aged 15 years or more live in your household, yourself included?

d40b Could you tell me how many children aged 10 to 14 years old live in your household?

d40c Could you tell me how many children less than 10 years old live in your household?]

Note:

See d40a, d40b, and d40c for complete question text.

Generated by the Archive in accordance with former surveys.

d40t\_r - HOUSEHOLD COMPOSITION: SIZE A+B+C (REC)

n of people in household - recoded to four categories

- 1 One
- 2 Two
- 3 Three
- 4 Four or more

Derivation:

This variable groups the summarized variable d40t.

[d40a Could you tell me how many people aged 15 years or more live in your household, yourself included?

d40b Could you tell me how many children aged 10 to 14 years old live in your household?

d40c Could you tell me how many children less than 10 years old live in your household?]

Comparability:

See d40a, d40b, and d40c for complete question text.

d43t - PHONE AVAILABLE (SUMMARIZED)

Availability of mobile and/or landline phones - summarized

- 1 Mobile only (coded 1 in d43b and 2 in d43a)
- 2 Landline only (coded 1 in d43a and 2 in d43b)
- 3 Landline and mobile (coded 1 in d43a and 1 in d43b)
- 4 No telephone (coded 2 in d43a and 2 in d43b)

Derivation:

This variable summarizes answers to question d43a and d43b.

[d43a Do you own a fixed telephone in your household?

d43b Do you own a personal mobile telephone?]

Respondents coded 2 in d43a and 1 in d43b are coded 1 ("Mobile only") in d43t. Respondents coded 1 in d43a and 2 in d43b are coded 2 ("Landline only") in d43t. Respondents coded 1 in d43a and d43b are coded 3 ("Landline and mobile") in d43t. Respondents coded 2 in d43a and d43b are coded 4 ("No telephone") in d43t.

Note:

See d43a and d43b for complete question text.

d46t - OWNERSHIP APPARTM/HOUSE (D46\_7+D46\_8)

Ownership of an apartment or house - summarized

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes responses to d46\_7 and d46\_8.

[d46 Which of the following goods do you have?

d46\_7 An apartment / a house which you have finished paying for

d46\_8 An apartment / a house which you are paying for]

Note:

See variable d46 for complete question text.

d61r - LEVEL IN SOCIETY - SELF PLACEMENT (REC)

Self placement on level in society - recoded to three categories

- 1 Lower level (coded 1 to 4 in d61)
- 2 Middle level (coded 5 to 6 in d61)
- 3 Upper level (coded 7 to 10 in d61)
- 7 Refusal (SPONTANEOUS)

Derivation:

This variable collapses answers to d61 into three categories.

[d61 On the following scale, step '1' corresponds to "the lowest level in the society"; step '10' corresponds to "the highest level in the society". Could you tell me on which step you would place yourself?]

Note:

See d61 for complete question text.

d62\_2 - INTERNET USE FREQ: AT PLACE OF WORK

D62

Could you tell me if...?

(SHOW CARD WITH SCALE – ONE ANSWER PER LINE - READ OUT)

D62\_2 You use the Internet at your place of work

- 1 Everyday/Almost everyday
- 2 Two or three times a week
- 3 About once a week
- 4 Two or three times a month
- 5 Less often
- 6 Never
- 7 No Internet access (SPONTANEOUS)

Comparability:

Last trend: EB79.1, D62

d62t1 - INTERNET USE - INDEX 1 (3 CAT)

Frequency of internet use - index with three categories

- 1 Everyday/Almost everyday (at least once coded 1 in d62\_1 to d62\_3)
- 2 Often/sometimes (at least once coded 2 to 5 in d62\_1 to d62\_3)
- 3 Never to all (coded 6 in d62\_1 to d62\_3)
- 9 Inap. Never and/or no access (codes 6 and/or 7 in d62\_1 to d62\_3)

Derivation:

This variable summarizes responses to d62 in three categories.

[d62 Could you tell me if...?

d62\_1 You use the Internet at home

d62\_2 You use the Internet at your place of work

d62\_3 You use the Internet somewhere else (school, university, cyber-café, etc.)]

Respondents coded 1 at least once in d62\_1 to d62\_3 are coded 1 in d62t1 ("Everyday/Almost everyday"). Respondents coded 2, 3, 4 or 5 in each variable d62\_1 to d62\_3 are coded 2 ("Often/sometimes") in d62t1. Respondents coded 6 ("Never") in each variable d62\_1 to d62\_3 are coded 3 ("Never to all") in d62t1. Respondents coded 6 at least once in d62\_1 to d62\_3 and coded 7 ("No internet access") in the other variable(s), or respondents coded 7 ("No internet access") in each variable d62\_1 to d62\_3 are coded 9 ("Inap. Never and/or no access (codes 6 and/or 7 in d62\_1 to d62\_3)") in d62t1.

Note:

See d62 for complete question text.

d62t2 - INTERNET USE - INDEX 2 (7 CAT)

Frequency of internet use - index with seven categories

- 1 Everyday/Almost everyday (at least once coded 1 in d62\_1 to d62\_3)
- 2 Two or three times a week (not coded 1 and at least once coded 2 in d62\_1 to d62\_3)
- 3 About once a week (not coded 1 to 2 and at least once coded 3 in d62\_1 to d62\_3)
- 4 Two or three times a month (not coded 1 to 3 and at least once coded 4 in d62\_1 to d62\_3)
- 5 Less often (not coded 1 to 4 and at least once coded 5 in d62\_1 to d62\_3)
- 6 Never/No access (coded 6/7 or coded 6 in d62\_1 to d62\_3)
- 7 No Internet access at all (coded 7 in d62\_1 to d62\_3)

Derivation:

This variable summarizes responses to d62.

[d62 Could you tell me if...?

d62\_1 You use the Internet at home

d62\_2 You use the Internet at your place of work

d62\_3 You use the Internet somewhere else (school, university, cyber-café, etc.)]

Respondents coded 1 at least once in d62\_1 to d62\_3 are coded 1 in d62t2 ("Everyday/Almost everyday"). Respondents coded 2 at least once in d62\_1 to d62\_3 and not coded 1, are coded 2 in d62t2 ("Two or three times a week"). Respondents coded 3 at least once in d62\_1 to d62\_3 and not coded 1 or 2, are coded 3 in d62t2 ("About once a week"). Respondents coded 4 at least once in d62\_1 to d62\_3 and not coded 1 to 3, are coded 4 in d62t2 ("Two or three times a month"). Respondents coded 5 at least once in d62\_1 to d62\_3 and not coded 1 to 4, are coded 5 in d62t2 ("Less often"). Respondents coded 6 ("Never") in each variable d62\_1 to d62\_3, or at least once coded 6 in d62\_1 to d62\_3 and coded 7 ("No internet access") in the other variable(s), are coded 6 ("Never/No access") in d62t2. Respondents coded 7 ("No internet access") in each variable d62\_1 to d62\_3 are coded 7 ("No internet access at all") in d62t2.

Note:

See d62 for complete question text.

## p6gb - SIZE OF COMMUNITY - UNITED KINGDOM

p6gb Objective size of community: United Kingdom

- 1 Rural
- 2 Urban
- 3 Metropolitan
- 99 Inap. (not GB-GBN/GB-NIR in isocntry)

## Note:

The original variable separates data for Northern Ireland (codes 1-3) and Great Britain (codes 4-6). In order to facilitate analysis for the United Kingdom (GB) as a whole, corresponding categories have been coded together (matched).

For meaningful (descriptive) results this variable needs to be used for Great Britain and Northern Ireland separately (select if '9' OR '10' in country) or be weighted by special weighting variables for the UNITED KINGDOM (GB) w4 or w4a.

## Comparability:

Last trend: EB79.1, P6

p6gb, weighted by w4

Value	Label	Missing	Count	Percent	Valid Percent
1	Rural		217	16.6	16.6
2	Urban		644	49.3	49.3
3	Metropolitan		446	34.2	34.1

p7it - REGION - ITALY NUTS 2 MOD

p7it Italy (EUROSTAT NUTS 2 LEVEL – modified) – Regioni

- 1 Piemonte & Valle d'Aosta / Vallée d'Aoste
- 2 Liguria
- 3 Lombardia (Lombardy)
- 5 Provincia Autonoma di Trento & Provincia Autonoma di Bolzano / Bozen
- 6 Veneto
- 7 Friuli-Venezia Giulia
- 8 Emilia-Romagna
- 9 Toscana (Tuscany)
- 10 Marche
- 11 Umbria
- 12 Lazio
- 13 Abruzzo & Molise
- 14 Campania
- 15 Puglia & Basilicata
- 17 Calabria
- 18 Sicilia (Sicily)
- 19 Sardegna (Sardinia)
- 99 Inap. (not IT in isocntry)

Note:

The combination of regions (Piemonte & Valle d'Aosta / Vallee d'Aoste; Abruzzo & Molise; Puglia & Basilicata) does not comply with the official EUROSTAT specifications for NUTS 2.

Starting with Eurobarometer wave 77 (NUTS version 2010 with regular amendment as of January 1, 2012) NUTS 1 codes for Italy have changed for North-East (ITH instead of ITD) and Center (ITI instead of ITE). The reason for this are minor boundary shifts on NUTS 2 and 3 level (IT13: Marche and ITH5: Emilia Romagna).

Comparability:

Last trend: EB79.1, P7

## p7pt - REGION - PORTUGAL NUTS 2

p7pt Portugal (EUROSTAT NUTS 2 LEVEL) – Comissaoes de Coordenação regional + Regioes autonomas

- 1 Norte (North)
- 2 Centro (Center)
- 3 Lisboa (Lisbon)
- 4 Alentejo (Alentejo Region)
- 5 Algarve
- 99 Inap. (not PT in isocntry)

## Note:

The autonomous regions of the Azores (PT20 - Região Autónoma dos Açores) and of Madeira (PT30 - Região Autónoma da Madeira) are not covered.

Since 2002 the region “Lisboa e vale do tejo” is split up and the subregion “Lezíria do Tejo” reinstated to the “Alentejo” Region and the “Médio Tejo” and “Oeste” reinstated to the “Centro” Region. The relative frequencies for each region indicate that this is reflected in the Eurobarometer P.7 regions starting with Eurobarometer 62.0. The original label for category ‘3’ (“Lisboa e vale do Tejo”) has been edited accordingly. According to the NUTS 2 specifications for Portugal this now only includes “Grande Lisboa” and “Península de Setúbal”.

The official NUTS categories are coded and documented in the integrated alphanumeric NUTS CODES variable 'nuts'.

- 9 Etelä-Savo (Southern Savonia)
- 10 Pohjois-Savo (Northern Savonia)
- 11 Pohjois-Karjala (North Karelia)
- 12 Keski-Suomi (Central Finland)
- 13 Etelä-Pohjanmaa (Southern Ostrobothnia)
- 14 Pohjanmaa (Ostrobothnia)
- 15 Keski-Pohjanmaa (Central Ostrobothnia) (not coded)
- 16 Pohjois-Pohjanmaa (Northern Ostrobothnia)
- 17 Kainuu
- 18 Lappi (Lapland) (category not coded)
- 99 Inap. (not FI in isocntry)

Note:

The Åland Islands (FI200 - Landskapet Åland / Avenanmaan maakunta) are not covered.

Former regions of "Uusimaa" (FI181) and "Itä-Uusimaa" (FI182) have been consolidated to the region of "Helsinki-Uusimaa" (FI1B1) on January 1, 2011. The official NUTS codes have changed accordingly starting with NUTS version 2010 (regular amendment as of January 1, 2012). Eurobarometer did never code "Itä-Uusimaa" (East Uusimaa) separately. "Uusimaa" always included the capital area of Helsinki. For this reason the NUTS CODES variable 'nuts' is already coded in accordance with NUTS version 2010.

The NUTS version history documents a minor boundary shift between "Satakunta" (NUTS 2003: FI191; NUTS 2006/2010: FI196) and "Pirkanmaa" (NUTS 2003: FI192; NUTS 2006/2010: FI197). One municipality has been transferred between these NUTS level 3 regions. Please notice that the NUTS CODES variable 'nuts' is based on the NUTS 2006/2010 codes for "Satakunta" and "Pirkanmaa" although it could not be verified if and when the boundary shift is actually reflected in Eurobarometer data.

Please notice that weighted relative frequencies may vary considerably over time (compared across surveys). Weighted frequencies for NUTS2 are adjusted.

The official NUTS categories are coded and documented in the integrated alphanumeric NUTS CODES variable 'nuts'.

## p7fi\_r1 - REGION - FINLAND NUTS 2 (2003/2006)

p7fi\_r1 Finland (EUROSTAT NUTS 2 LEVEL 2003 / 2006) – Suuralueet / Storumråden

- 1 Itä-Suomi (East Finland)
- 2 Etelä-Suomi (South Finland)
- 3 Länsi-Suomi (West Finland)
- 4 Pohjois-Suomi (North Finland)
- 99 Inap. (not FI in isocntry)

## Note:

The Åland Islands (FI200 - Landskapet Åland / Avenanmaan maakunta) are not covered.

This variable corresponds to the NUTS 2 breakdown in accordance with NUTS versions 2003 und 2006, i.e. before separating "Helsinki-Uusimaa" (NUTS version 2010: FI1B) from "Etelä-Suomi" (NUTS 2003/2006: FI18; NUTS 2010: FI1C), and before merging "Pohjois-Suomi" (NUTS 2003/2006: FI1A) with "Itä-Suomi" (NUTS 2003/2006: FI13) to "Pohjois- ja Itä-Suomi" (NUTS 2010: FI1D). This coding corresponds to former Eurobarometer waves (p7fi\_r).

The NUTS CODES variable 'nuts' and the new recoded variable p7fi\_r2 represent NUTS version 2010 with regular amendment as of January 1, 2012.

The official NUTS categories are coded and documented on NUTS 3 level in the integrated alphanumeric NUTS CODES variable 'nuts'.

Non-NUTS subdivisions

HR Croatia

Derivation:

This additional alphanumeric NUTS CODES variable is produced by the archive. It integrates all country specific p7 variables given that the regional units are defined in accordance with the EUROSTAT Nomenclature of Territorial Units for Statistics (NUTS) respectively in accordance with the Statistical Regions for Candidate and EFTA Countries 2010. For each country the lowest available NUTS subdivision level is considered.

[http://ec.europa.eu/eurostat/ramon/documents/nuts/Statistical\\_Regions.zip](http://ec.europa.eu/eurostat/ramon/documents/nuts/Statistical_Regions.zip)

Note:

The official NUTS codes are coded verbatim in accordance with the in each case valid (applicable) NUTS version. All version details and changes are documented in the official EUROSTAT classification history (History of NUTS). A second variable (nutslvl) indicates the coded NUTS LEVEL for each country.

France:

The territorial unit of Corse (FR83) and the Oversea departments (Départements d'outre-mer: FR9) are not covered.

Italy:

Starting with Eurobarometer wave 77 (NUTS version 2010 with regular amendment as of January 1, 2012) NUTS 1 codes for Italy have changed for North-East (ITH instead of ITD) and Center (ITI instead of ITE). The reason for this are minor boundary shifts on NUTS 2 and 3 level (ITI3: Marche and ITH5: Emilia Romagna).

Greece:

The Aegean Islands (EL41 - Βόρειο Αιγαίο/Voreio Aigaio and EL42 - Νότιο Αιγαίο/Notio Aigaio) as well as the Ionian Islands (EL22 - Ιόνια Νησιά/Ionia Nisia) are not covered.

Starting with Eurobarometer wave 77 (NUTS version 2010 with regular amendment as of January 1, 2012) the standard country prefix 'GR' is replaced by 'EL'. The remaining numerical part of the codes remains unaffected.

Spain:

The autonomous cities of Ceuta (ES63 - Ciudad Autónoma de Ceuta) and Melilla (ES64 - Ciudad Autónoma de Melilla) are not covered.

Portugal:

The autonomous regions of the Azores (PT20 - Região Autónoma dos Açores) and of Madeira (PT30 - Região Autónoma da Madeira) are not covered.

Finland:

The Åland Islands (FI200 - Landskapet Åland / Avenanmaan maakunta) are not covered.

Former regions of "Uusimaa" (FI181) and "Itä-Uusimaa" (FI182) have been consolidated to the region of "Helsinki-Uusimaa" (FI1B1) on January 1, 2011. The official NUTS codes have changed accordingly starting with NUTS version 2010 (regular amendment as of January 1, 2012). Eurobarometer did never code "Itä-Uusimaa" (East Uusimaa) separately. "Uusimaa" always included the capital area of Helsinki. For this reason the NUTS CODES variable 'nuts' for Finland is already coded in accordance with NUTS version 2010. Only the country specific NUTS 2 variable (p7fi\_r) is still coded in accordance with NUTS version 2003/2006 in order to remain consistent with former Eurobarometer waves.

The NUTS version history documents a minor boundary shift between "Satakunta" (NUTS 2003: FI191; NUTS 2006/2010: FI196) and "Pirkanmaa" (NUTS 2003: FI192; NUTS 2006/2010: FI197). One municipality has been transferred between these NUTS level 3 regions. Please notice that NUTS CODES variable 'nuts' is based on the NUTS 2006/2010 codes for "Satakunta" and "Pirkanmaa" although it could not be verified if and when the boundary shift is actually reflected in Eurobarometer data.

Comparability:

w3a - WEIGHT RESULT FROM TRAGET - UNITED GERMANY

w3a Weight result from target - United Germany

This weight combines the weighting factors for Germany as a whole (redressment factors plus populations size factors East/West) and the redressment factors for all other countries (Great Britain and Northern Ireland separated). This weight has been derived by the archive from original TNS weights w1 and w3. Unlike weighting variable w3 (WEIGHT UNITED GERMANY (ONLY)) the other countries/samples are not excluded from calculation.

Note:

Starting with Eurobarometer 75.4 (June 2011) and according to available weights up to Eurobarometer 61 (February-March 2004), the archive is deriving three additional weights (w3a, w4a, w3a4a) in order to provide for the analysis of the United Kingdom and/or Germany, each as a whole and together with all other countries. Minimal deviations in frequencies for weighted data are possible due to rounding differences.

## nation - NATION (UNITED KINGDOM AND UNITED GERMANY) ISO3166

nation (United Kingdom and United Germany) ISO3166

NATION (UNITED KINGDOM AND UNITED GERMANY) ISO3166 equals country/sample identification variable isocntry (COUNTRY CODE - ISO 3166) but coding together both separate samples, Great Britain und Northern Ireland as well as East and West Germany. Unlike variables "gb" (NATION – UNITED KINGDOM (ONLY)) and "de" (NATION – UNITED GERMANY (ONLY)) all other countries are included for calculation.

## Note:

Use of weighting factor w3a4a is mandatory for descriptive analysis.

w3a4a - WEIGHT RESULT FROM TRAGET - NATION

w3a\_w4a Weight result from target – Nation

This weight combines the weighting factors for the United Kingdom as a whole (redressment factors plus populations size factors), the weighting factors for Germany as a whole (redressment factors plus populations size factors East/West), and the redressment factors for all other countries. This weight has been derived by the archive from original TNS weights w1, w3 and w4. Unlike weighting variables w4 (WEIGHT UNITED KINGDOM (ONLY)) and w3 (WEIGHT UNITED GERMANY (ONLY)) the other countries are not excluded from calculation.

Note:

Starting with Eurobarometer 75.4 (June 2011) and according with available weights up to Eurobarometer 61 (February-March 2004), the archive is deriving three additional weights (w3a, w4a, w3a4a) in order to provide for the analysis of the United Kingdom and/or Germany, each as a whole and together with all other countries. Minimal deviations in frequencies for weighted data are possible due to rounding differences.

w3a4a
