Most people in Australia don't realise how much our lives are controlled by plots hatched in secret places. The people that really run Australia are known to everyone. I often feel that the really important matters in Australia are decided by people we never even hear about. No sooner do most foreign immigrants get here than they try to bring Australia down by refusing to abide by our laws. The true Australian way if life is disappearing so fast that we may have to use force to save it. Regardless of what some people say, racial background has no bearing on who can be a real Australian. I am afraid there isn't going to be as much freedom in Australia as time goes on.
