An issue of position of men and women in family and their role in bringing up the children is often discussed today. Making one's own carrier is often preferred to making a family and bringing up the children. Institute of Sociology AS CR in co-operation with SC&C therefore decided to conduct a survey and examine the conditions of bringing up the children and importance given to family and carrier in employment. We would like also describe your professional career and find out your opinion on social processes occurring in our society. The survey is anonymous and all information disclosed is confidential. May I ask you for your co-operation?
