INTRO0 The Social Science Research Institute is carrying out the Icelandic part of a European-wide study on what people value in life. This study will interview samples representing the European people. Your name has been selected at random as part of a representative sample of the Icelandic public. We would like to ask your views on a number of different subjects. Your help will contribute to a better understanding of what people all over Europe believe and want out of life.

INTRO1 **We start with some questions about life in general, leisure time activities and work.**
