EDUCYRS - Education I: years of schooling

	National Language	English Translation
<i>Question no. and text</i>	S01 Wie viele Jahre waren Sie insgesamt in Schule, Hochschule, oder anderer schulischer Ausbildung, ohne betriebliche Ausbildung? Sollten Sie ein Schuljahr wiederholt haben, zählen dieses bitte NICHT mit. Wenn Sie noch Schüler(in) oder Student(in) sind, zählen Sie bitte die Jahre, die Sie bereits in Schule oder Hochschule verbracht haben.	S01 How many full years of schooling or education have you had in total, including primary and secondary schooling, university and full-time vocational training at school, but not including in-firm training. If you have ever repeated a year, please do NOT include these years. If you are currently at school or university, please count the number of years you have already completed at school or university.**
<i>Interviewer Instruction</i>	Bitte Anzahl eintragen! Runden Sie auf volle Jahre. Bitte KEINE Altersangabe. Bitte Kindergartenzeit NICHT mitzählen!	Please enter number of years. Round to full years. Please do not enter your age. Please do not count number of years in kindergarden!***
<i>Codes/ Categories</i>	_____ Jahre	_____ years
<i>Translation Note</i>	—	
<i>Note</i>	Probe added in ISSP 2013/2014 if respondents' answer equals respondent's age to reduce misunderstanding on question meaning. <i>Haben Sie Ihr Alter angegeben? Wir sind bei dieser Frage an den Jahren interessiert, die Sie in Schule, Hochschule oder anderer schulischer Ausbildung verbracht haben.</i> <i>Did you state your age? With this question, we would like to know the years that you spent in school, university, or other schooling.**</i>

<i>Translation Note</i>	—	
<i>Note</i>	<p>Question on vocational training only asked if respondent not still at school; “general school leaving certificate”, “vocational training” and “kind of polytechnical/ university degree” taken from ALLBUS 2018.</p> <p>Please note that the German ALLBUS data allow for multiple answers. Respondents with multiple educational degrees are coded according to their “highest” educational entry in the German ISSP degree variable.</p> <p>For example, respondents with “Abitur” and additional vocational training in the dual system (but no further academic education) are coded 8 "Vocational training, degree from German dual system". Thus, the code 7 "Higher secondary (Abitur)" is only given to respondents who did not receive either any further academic or vocational training.</p>

ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes attached as a separate file. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do not enter standard ISCO08 codes here, but report any deviations. However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

--

WEIGHT – Weighting factor

Please report on whether you calculate any weighting variables. If you adjust for non-response bias, please enter the variable(s) on which the sample's distribution(s) is (are) adjusted to the population distribution(s). Please, also report if you apply any kind of rescaling.

<i>Design weight to adjust for unequal selection probabilities</i>	No <input checked="" type="checkbox"/>	[X]
	Yes <input type="checkbox"/>	[]
<i>Weight to adjust for non-response bias</i>	No <input checked="" type="checkbox"/>	[X]
	Yes <input type="checkbox"/>	[] → please specify variables used for calculation of weight
<i>Are the final weights rescaled to net sample size (thus weighted sample size=unweighted sample size)?</i>	No <input type="checkbox"/>	[] → please specify target population represented by sum of all case weights
	Yes <input type="checkbox"/>	[]
<i>Note</i>	<p>Two separate German samples: the sample for eastern Germany deliberately over-samples the five eastern federal states. If all of Germany is taken as the unit of analysis (rather than the eastern and western states), design weight is necessary: weighting factor for Western Germany: 1.21803499*; weighting factor for Eastern Germany: 0.5350193*; recoding of the country variable is necessary The two weighting factors are stored in the weight variable.</p>	

Construction/Recoding:

Country Variable Codes/Construction Rules	➔ WEIGHT
Western Germany	if (c_sample=27601)weight=1.218034994.
Eastern Germany	if (c_sample=27602)weight=0.535019295.

MODE – Administrative mode of data-collection

<i>Note</i>	Self-completion, interviewer attending, CASI (answers not forced; filter routing program-controlled). [CASI used in German ISSP since 2005]

—	14. F2f/PAPI, interpreter or translator – visuals
Applies for German ISSP 2017 interviews where respondent explicitly asks ALLBUS interviewer to continue face-to-face interview instead of self-completion (issp_c=2)	20. CAPI, no visuals
—	21. CAPI, visuals
—	22. CAPI, respondent reading questionnaire (paper or on monitor)
—	23. CAPI, interpreter or translator – no visuals
—	24. CAPI, interpreter or translator – visuals
—	30. SC, arrives with interviewer, interviewer attending
—	31. SC, arrives with interviewer, drops-off, picks up later
—	32. SC, arrives with interviewer, drops off, mailed back by R
—	33. SC, mailed to, completed by R and hold for pick up
—	34. SC, mailed to, mailed back by R
Applies for German ISSP 2017 interviews: CASI interview with interviewer attending (issp_c=1)	40. CASI, self-completion, computer-assisted

4. Country Questionnaire

Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country's field questionnaire delivered with your national ISSP data file, then just tick on the last page of this document. (PDF or MS Word format preferred.)

☐ Already included in field questionnaire provided with the country data file.

☒ **Attached file: 2017_q_de.pdf.**

BV partly included in the German ISSP 2017 field quex, partly taken from ALLBUS 2018

5. Frequency Distributions of Source Variables

Please supply frequency distributions with absolute and relative frequencies, missing values *included*, for **all** source variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)

Attached file: 2017_bv_de.spv

6. Correspondence list ISCO88<->national occupation codes

If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

☒ ISCO08 is used to code responses directly.

☐ Conversion of national coding scheme to ISCO88. Attached file:

General Note

In general, translations for the German background questions are taken from the ALLBUS 2002 translation where wording for most of the background questions was identical to the ALLBUS 2018 (Harkness and Blohm 2004). Where wording was not identical to the ALLBUS 2018 questions, translation was done by the German ISSP team itself (marked by two asterisks).

Answer categories marked by one asterisk are not read aloud.

The German ISSP 2017 data file is based on the final but GESIS inhouse version of ALLBUS 2018. Thus, variable names used in the “Construction/Recoding” part of the following documentation might differ from the variable names in the ALLBUS 2018 data file distributed by GESIS, Cologne.

ISSP 2017 Germany
