National Program Directors of the participating countries

Responsible for ISSP data integration in the GESIS
Data Archive for the Social Sciences:

Jaime Díez-Medrano and Javier Galán Moreno from ASEP/JDS in Spain
Petra Brien

Responsible for the preparation of this Variable Report:

Petra Brien
Sebastian Stecker

Introduction and preliminary remarks

The GESIS Variable Report Series on the International Social Survey Programme Studies offers a comprehensive description of data on study and variable level. For each annual module individual Variable Reports are provided for final data set versions.

The reports are structured into six chapters:

Chapter one gives a brief overview of the worldwide ISSP project as a whole.

Chapter two provides the description of the respective ISSP study including bibliographic information, abstract and methodological specifications.

Chapter three contains information on study related survey materials which are absolutely essential to understand the data properly, followed by general information about the structure of ISSP data sets, documentation standards and variable coding frames in chapter four.

Chapter five provides a short explanation of the variable documentation itself.

Chapter six contains the core variable documentation: the documentation of each variable including complete question texts with all answer categories of the Basic Questionnaire, partially enriched with archival remarks. In addition, this Variable Report presents cross tabulations over countries for all substantial and most of the demographic variables. Archive, protocol and country specific variables are usually shown by descriptive statistics or frequency distributions. All cross tabulations, descriptive statistics and frequency distributions are based on unweighted data.

The appendix usually contains two sorts of survey materials: the Study Descriptions and, if available, the Characteristics of National Population, basic statistics for all the participating countries of the corresponding module. The data for the annual ISSP modules are collected by independent institutions in each country. The country data is integrated into one international data file, which is documented, distributed and long-term archived by the ISSP Archive, institutionally, the GESIS Data Archive for the Social Sciences (Leibniz Institute for the Social Sciences) in Cologne, Germany (<https://www.gesis.org/en/home/>). In every second year from 1997 on, data processing, integration and harmonization have predominantly been prepared by our partners at JDS/ ASEP in Spain (<http://www.jdsurvey.net>).

Data access

Data for statistical analysis along with information about this data such as version history and errata are made available by the Data Catalogue (<https://dbk.gesis.org/dbksearch/home.asp>).

The Data Online Platform ZACAT of GESIS (<https://zacat.gesis.org>) provides data documentations and additionally enables users to analyze data online.

Access to the Data Catalogue and ZACAT is free of charge, download of data sets requires registration.

Anonymized data

According to data regulations in participating countries, only anonymized data are made available. Each national team is responsible for carefully checking the data in this respect before the deposit.

Usage requirements

To provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about related research activities, all users of ISSP data are requested to send bibliographic citations for each completed manuscript or thesis abstracts to isspservice@gesis.org or if possible, please, directly send a copy of the publication to GESIS (GESIS-Leibniz-Institute for the Social Sciences, Dept. Data Archive - ISSP, Unter Sachsenhausen 6-8, D-50667 Cologne, Germany). Please, also observe the general notes on the usage regulations as defined in section 'Terms of use' (<https://www.gesis.org/en/services/data-analysis/more-data-to-analyze/data-archive-service/>).

Disclaimer

Neither the original collector of the data, nor GESIS or JDS/ ASEP, bears any responsibility for the use of ISSP data or any data analyses.

Citation of this Variable Report

Please, use the following citation for this Variable Report:

Request

Please, alert us to any errors or problems that you might notice in the data or the documentation. All comments and remarks are very much appreciated to enhance the quality of the data: isspservice@gesis.org

1 ISSP Series Description

1.1 Series name

The International Social Survey Programme (ISSP)

1.2 Series information

The ISSP is a cross-national collaboration program, which has been continuously conducting annual surveys on diverse social science topics since 1985. The topics for each ISSP survey are proposed by delegates from ISSP member countries. Then, a Basic Questionnaire is composed by a committee, elected by the General Assembly before it is pretested in various countries. Starting in 1984 with four founding nations - Australia, Germany, Great Britain and the United States, the ISSP meanwhile has grown up to almost 50 member countries covering various cultures around the globe.

ISSP Modules 1985 – 2022:

- Citizenship: 2004/ 2014
- Environment: 1993/ 2000/ 2010/ 2020
- Family and Changing Gender Roles: 1988/ 1994/ 2002/ 2012/ 2022
- Health and Health Care: 2011/ 2021
- Leisure Time and Sports: 2007
- National Identity: 1995/ 2003/ 2013
- Religion: 1991/ 1998/ 2008/ 2018
- Role of Government: 1985/ 1990/ 1996/ 2006/ 2016
- Social Inequality: 1987/ 1992/ 1999/ 2009/ 2019
- Social Networks (no replications): 1986/ 2001/ 2017
- Work Orientations: 1989/ 1997/ 2005/ 2015

All ISSP members agree

1. to jointly develop modules addressing important areas of social science,
2. to field the modules either as an individual survey or as supplements to the regular national surveys and
3. to make the data available to the social science community as quickly as possible.

As the surveys are designed for replication they offer both cross-national and cross-time comparison, creating the base for a vast range of substantive and methodological research. Since there is no external fund agency, ISSP members fund their own surveys. Beyond that, ISSP committee members fund ISSP central coordination, networking, development of source questionnaires, or methodological work.

For more information on the ISSP in general, its working principles, contact addresses of ISSP members and principal investigators, please, visit the ISSP web site (<http://www.issp.org>).

2.1.4 Bibliographic citation

Publications based on ISSP data, which are made available through GESIS, should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations should appear in footnotes or in the reference section of publications.

How to cite the data: ISSP Research Group (2019): International Social Survey Programme: Social Networks and Social Resources – ISSP 2017. GESIS Data Archive, Cologne. ZA6980 Data file Version 2.0.0, doi: 10.4232/1.13322

2.2 Content

2.2.1 Abstract

Social relations and social network.

2.2.2 Topic classification

Topics: People with selected jobs of different branches in circle of close friends, relatives and acquaintances (e.g. bus / lorry driver, senior executive of a large company, home or office cleaner, etc.); opinion on social justice (too large income differences in the country, differences in people's standard of living should be small in fair societies, responsibility of the government to reduce income differences, social benefits cause laziness); responsibility for the provision of health care for the sick, and care for older people (government, private companies/ for-profit organizations, non-profit organizations/ charities/ cooperatives, religious organizations, family, relatives or friends); frequency of activities of groups for leisure, sports or culture, of political parties, political groups or associations, and of charitable or religious organizations that do voluntary work; opinion on personal influence in government decisions; first contact person to ask for help in household or garden, in household when ill, in depression, in giving advice in family problems, in enjoying a pleasant social occasion with (close family member, more distant family member, close friend, neighbor, workmate, someone else, no one); contact person or organization to borrow a large sum of money, to find a job with administrative problems or official paperwork, to find a place to live, to look after oneself if seriously ill (family members or close friends, other persons, private companies, public services, non-profit or religious organizations, other organizations, no person or organization); frequency of feeling companionship lacking, of isolation from others, and of feeling left out (past four weeks); how often people try to take advantage and how often try to be fair; people can be trusted vs. can't be too careful in dealing with people; trust in national courts and in major private companies; willingness to help (duty of adult children to look after their elderly parents, take care of yourself and your family first, before helping other people, people who are better off should help friends who are less well off); pressure from family members about the personal way of life; too many demands from family, relatives and friends; frequency of angry or upset reaction of important people in life.

Social activities: frequency of going out with friends or acquaintances; frequency of making new friendships or acquaintances at these occasions; number of people in contact with on a typical weekday; frequency of face-to-face contacts with these people; frequency of contact with different relatives (parent, sibling, adult child, other family member), and close friend the respondent is most frequently in contact with; amount of contact with all family members and close friends via the internet; self-rating of general health status; frequency of impairments in the last 4 weeks (felt unhappy and depressed, felt difficulties unable to overcome); easy to accomplish own goals; life satisfaction.

Optional questions: Friendship should be useful; favors should be reciprocated; frequency of domination of one person in conversations with friends; frequency of consideration who sits near whom at meetings with friends; frequency of contact with the person from home town or the region of origin most frequently in contact with; frequency of contact with the person from religious community most frequently in contact with.

Demography: sex; age; year of birth; years in school; education (country specific); highest completed education level; work status; hours worked weekly; employment relationship; number of employees; supervision of employees; number of supervised employees; type of organization: for-profit vs. non-profit and public vs. private; occupation (ISCO/ILO-08); main employment status; living in steady partnership; trade union membership; religious affiliation or denomination (country specific); groups of religious denominations; attendance of religious services; top-bottom self-placement; vote participation in last general election; country specific party voted for in last general election; party voted for (left-right); self-assessed affiliation to ethnic group 1 and 2 (country specific); number of children in the household; number of toddlers in the household; size of household; earnings of respondent (country specific); household income (country specific); father's and

mother's country of birth; marital status; place of living; urban – rural; region (country specific).

Additional obligatory background variables: difficulties to make ends meet from total household's income; language skills: number of languages in how the respondent is able to hold a conversation.

Information about spouse/ partner on: work status; hours worked weekly; employment relationship; supervision of employees; occupation (ISCO/ILO-08); main employment status. Supplementary optional background variable: highest completed education level of spouse/ partner.

Additionally encoded: respondent-ID number; date of interview (year, month, day); case substitution flag; flag variable indicating partially completed interviews; mode of data collection; weight; Country ISO 3166 Code, Country/Sample ISO 3166 Code, Country Prefix ISO 3166 Code.

2.3 Geographic coverage

Austria (AT); Australia (AU); Switzerland (CH); China (CN); Czech Republic (CZ); Germany (DE); Denmark (DK); Spain (ES); Finland (FI); France (FR); Great Britain (GB-GBN); Croatia (HR); Hungary (HU); Israel (IL); India (IN); Iceland (IS); Japan (JP); Lithuania (LT); Mexico (MX); New Zealand (NZ); Philippines (PH); Russian Federation (RU); Sweden (SE); Slovenia (SI); Slovakia (SK); Suriname (SR); Thailand (TH); Taiwan (TW); United States (US); South Africa (ZA)

2.4 Universe

Persons aged 18 years and older

Exception: Denmark (18 to 79 years), Finland (15 to 74 years), Slovakia (16 + (no cut-off)), Suriname (21 to 74 years), and Sweden (18 to 80 years)

2.5 Selection Method

Probability Sample

Probability Sample: Simple Random Sample

Probability Sample: Systematic Random Sample

Probability Sample: Stratified Sample

Probability Sample: Multistage Sample

2.6 Fieldwork and sample sizes

Table: Participating countries (regions) and fieldwork information for ISSP 2017

Country (Region)	ISO	Fieldwork start/ end	Fieldwork Institute	Questionnaire-versions	Sample Size (n of cases)
Austria	AT	03.04.2018 - 15.06.2018	IFES, Vienna, Austria	AT17	1200

2.7 Mode of data collection

Face-to-face interview

Face-to-face interview: CAPI (Computer Assisted Personal Interview)

Face-to-face interview: PAPI (Paper and Pencil Interview)

Self-administered questionnaire: CAWI (Computer Assisted Web Interview)

Self-administered questionnaire: Paper

Self-administered questionnaire: CASI (Computer Assisted Self-Interview)

Telephone interview

3 Corresponding survey material

When dealing with international comparative data, data sets and documentation must be seen as two sides of the same coin. Even though ISSP members make huge efforts to produce comparable data in each country, there still remains a remarkable amount of country specific peculiarities in the contributions to the final, international data set. These country specific peculiarities either have to be harmonized if possible and definitely be documented, as they provide vital information for secondary analysts. Therefore, a set of procedures has been developed to take care for orderly technical preparation of national data sets and to allow for the systematic collection of required context information.

All corresponding survey materials are provided in English, only the national questionnaires are available in the national language(s) of each country.

3.1 Basic Questionnaire

The ISSP General Assembly concludes the design phase of an ISSP module after intensive discussions on the single items of the Basic Questionnaire roughly a year before the module is fielded. Two thirds of the module questions have to be replications from previous ISSP modules of the same subject. According to this, one third of the questions in each module are new. Subsequent to the mandatory module questions, some pre-selected optional questions can be added. Finally, ISSP member countries translate the British English Basic Questionnaire to their national language(s) as equivalent as possible.

Drafting group for the Basic Questionnaire on the Social Networks and Social Resources Module 2017:

- China
- Denmark
- Germany
- Turkey
- Switzerland (Convenor): Dominique Joye, Marlène Sapin
- United States
- And one expert from Taiwan

3.2 Background Variables Standards and Documentation

Apart from the Basic Questionnaire, covering the substantial module variables, countries also have to collect responses on a defined set of ISSP Standard Background Variables, which predominantly contains demographic information. Since the ISSP often runs with larger national surveys, the background variables are mainly taken from these surveys. Thus, demographic issues cannot always be asked in a fixed form over all members of the ISSP. They have to also meet the demands of the national studies. As a result, the demographic variables for the ISSP need to be post-harmonized according to a developed set of common standards.

Over the past 30 years, the Background Variable Standard has constantly been improved:

The first set of background variables was established in 1985 with the first ISSP survey. Here countries agreed on collecting the same demographic information. This list of variables underwent a revision in 2001, now providing a coding frame for each background variable. It was valid until 2009.

In 2010 a new revision process of the ISSP Background Variables started. Beginning with the ISSP module 2010, this first revised version of the ISSP Background Variable Standard concentrating mainly on variables containing work, occupational and partnership status information came into effect. The second round of revisions, coming into effect in 2011, had its focus on the education variables, while the last change affected the variables measuring ethnicity, effective with the module 2013. Over the following years, several minor improvements came into effect. The current standard is documented in Background Variable Guidelines which are providing detailed information and instructions on the variables measurement goals, coding frames, filters and possible question texts. Additionally, the recommended question texts are summarized in a background variable Master

Questionnaire.

Since 2004 countries document the post-harmonisation processes for each variable in a special documentation template provided by the Archive. This template, always adjusted to the current standard, offers detailed country specific information on administration, derivation, and coding of the ISSP Background Variables. All relevant background variable documents are available from the ISSP webpages at GESIS.

3.3 National Study Description

For each country, the original National Study Description is available in the appendix of this Variable Report. The National Study Descriptions are provided by the countries and include information on sample sizes, field dates, modes of data collection, sampling procedures, response rates and weighting processes.

3.4 Characteristics of National Population

The appendix of this Variable Report also includes Characteristics of National Populations for all participating countries. These documents provide statistical data on the composition of national populations in terms of gender, age, education and employment rates and, therefore, allow assessing how representative national samples are.

3.5 Where to find the survey materials and the data set of the ISSP Module of 2017 – Social Networks and Social Resources

In the GESIS Data Catalogue on the GESIS web you find

- the Basic Questionnaire of this module together with
- all country questionnaires in the respective local languages,
- this Codebook (Variable Report) with the National Study Descriptions and the Characteristics of National Populations in its appendix,
- detailed National Documentations on phrasing and coding of the Background Variables,
- the Study Monitoring Report,
- the Report on Questionnaire Development and
- the integrated data file ZA6980_v2.0.0 for download

under the tab "Data and Documents" of:

<https://dbk.gesis.org/dbksearch/SDESC2.asp?no=6980>

Information on fixed errors and resolved problems for this and former data set versions can be found under the tab "[Errata & Versions](#)".

The GESIS online data portal ZACAT provides the documentation of this integrated data file and also further study-related materials for download:

<https://zacat.gesis.org/webview/index.jsp?object=http://zacat.gesis.org/obj/fStudy/ZA6980>

Beyond this, ZACAT enables users to perform basic online analyses like frequency distributions, cross tabulations or regressions.

4 Data set structure and standards

ISSP data sets are processed and documented by the GESIS Data Archive and by ASEP/ JDS every second year in accordance with agreed standards.

In order to uniquely identify a data set, to each data set version a GESIS Study No., a Version No., and a Digital Object Identifier (doi) is assigned. The doi is linked to the Study Description in the Data Catalogue (<https://dbk.gesis.org/dbksearch/index.asp>). Metadata filled in the Study Description of ISSP 2017 data and associated with a doi are provided to the registration agency for social science data (da|ra).

The doi: 10.4232/1.13322 is assigned to the ISSP 2017 (v2.0.0).

4.1 Data set structure

Usually, the ISSP data sets are structured as follows:

1. Archive and Identification Variables

Administrative variables are used for identifying data sets, respondents and countries (GESIS Data Archive Study Number, GESIS Archive Version, Digital Object Identifier, Country Codes, ID Number of Respondent). The GESIS Archive Version variable includes the version and release date of the data set, composed as a string variable with three numbers:

- The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases).
- The minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels).
- The third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

Country codes identify each case as belonging to one country. The country code variable, which was used according to a scheme leaning on international automobile identification codes in the beginning of the ISSP, was replaced by two country code variables based on the ISO Code 3166. One identifies countries as a whole, the other one possible subsamples, such as East and West Germany. The cross tabulations shown in this Variable Report are based on a third, alphanumerical country code variable.

2. Substantial Variables

The substantial variables contain the mandatory module questions, often supplemented by optional questions.

Variable labels provide keywords based on the question text; these keywords are applied consistently if questions or question items are repeated over time. All substantial variables include the original question number of the Basic Questionnaire in the variable labels.

Generally, all variable names consist of the standard prefix 'V' and the consecutive variable number. ISSP 2015 is the first module in which numbering starts with the first substantial variable (v1= Q1). Before that time, numbering started with the archive variables followed by the substantial variables (V4, V5 or V6 = Q1).

3. ISSP Background Variables

In the earlier ISSP modules, all variables are numbered consecutively, beginning with the archive variables and followed by substantial and background variables. The last variable of each data set usually is the variable on weighting. Later on, the background variables start with V200 et seq..

Nowadays, these variable numbers are expressed by mnemonics **with max. 8 characters (SEX, AGE, ...)**.

4. Country Specific Variables

Variables, which cannot be harmonized for various reasons, are usually presented as country specific variables. As a rule, variable names of country specific variables have country abbreviations as prefixes. In some of the older ISSP studies, the principle of country specific variables is not used. Instead all country specific information is integrated into one variable.

5. Protocol Variables

There are five protocol variables in the latest ISSP modules. **The variable 'MODE' indicates the mode of data collection, while 'SUBSCASE' indicates whether a respondent in the sample is an original case or a replacement for an originally selected respondent who was not available.** The variables **'DATEYR', 'DATEMO' and 'DATEDY' provide information on the dates and periods of fielding.**

ISSP surveys prior to 2010 do not include the three DATE variables for indicating the fielding date and ISSP surveys before 2007 do not contain the SUBSCASE variable. Starting with ISSP 2020 there is the variable PARTIALS, indicating partially completed interviews.

6. Weight

There is no population weight available for the international comparison on the ISSP across countries. Please, note that also country subsamples can be over- respectively underrepresented without any weighting factor correcting for the imbalance. This fact has to be taken into account if these countries in question are analyzed as one unit.

4.1.1 Deviating data set structure in ZA6980

In anticipation of ISSP 2020, there is an additional flag variable indicating partially completed interviews also in this data file (PARTIALS). An interview **with...**

- 1) less than 50% of valid answers is defined as *break-off* (encoded to code -1)
- 2) between 50 and 80% of valid answers is defined as *partial* interview (encoded to code 0)
- 3) more than 80% of valid answers is defined as *complete* interview (encoded to code 1).

In accordance with AAPOR standards, the count is based on applicable questions of the module, more precisely on the items that respondents were asked according to the routing. The answers **'Can't choose/ Don't know'** are considered as valid answers.

4.2 Data preparation

On the basis of the Basic Questionnaire, covering the substantial variables and the standard core set of background variables, the Archive provides a Standard Setup for each individual ISSP module, which defines the variable and value labels for the integrated data file. All country data sets should be processed and prepared to match the structure of the Standard Setup before the material is deposited to the GESIS Data Archive for integration and archiving.

After conducting the national surveys, all collaborators are supposed to deposit their data at the GESIS Data Archive, where all the deposited data sets are prepared, integrated and merged into one single international data set, which is finally published.

During the data preparation process all national data sets are controlled for completeness, wild codes and for consistency of response patterns and question routing. Besides, all national data are checked for data duplicates.

All actions of deleting cases, which were identified as falsified, are taken by the principal investigators.

Three test routines have been proven useful to detect identical or similar records:

a) Test on uniqueness of ID numbers

All national data are checked for non-unique ID's (CASEID). Non-unique ID's most likely occur due to data input or data processing errors. They are recoded into unique ID numbers.

b) Test on identical responses

In statistical terms, true cases with identical responses across all survey items are almost impossible. If two or more records are fully identical to each other one record is kept, and the other duplicated record(s) are deleted.

c) Test on similar responses

A third test, based on the substantial module variables of the data set, detects records that are suspiciously similar to one another (=Near-Duplicates). Pairs or clusters of such records are examined closely. In case the suspicion is not confirmed, these cases are kept and documented in the national study description of the corresponding country.

There is one exception from the rules in test b and c: if two or more records show a high similarity due to a high number of missing answers, no record is deleted.

Moreover, national derivation processes from source to target codes in the background variables are controlled. Missing values, especially due to filter instructions are checked and recoded, if necessary. Errors, which are discovered during these procedures, are corrected or documented in cooperation with principal investigators.

However, not all inconsistencies are errors. Some inconsistencies might be owed to irrational response behavior or may be a consequence of different modes of data-collection in or across the participating countries during the fieldwork phase. Such inconsistencies are not eliminated during the data preparation process.

Complete machine-readable DDI-XML (see chapter 4.5) compliant documentation is created for all ISSP data sets by GESIS.

4.3 Coding frames

By general rule, the variables of the module questions adopt the coding frame as specified in the Basic Questionnaire, except for multiple response questions.

GESIS adds 'Not applicable' (NAP) codes for questions that have filters. NAP indicates that only a subsample and not all of the respondents were asked. Also in the case of country specific variables, all the other countries are coded NAP.

GESIS adds 'Not available' (NAV) for variables which in single countries may not have been conducted for whatever reason.

4.3.1 Country specific answer categories

ISSP data include some questions (variables) which have country specific answer categories such as DEGREE OF EDUCATION, RESPONDENT'S INCOME, FAMILY INCOME, PARTY AFFILIATION - later PARTY VOTED LAST ELECTION, REGION and SIZE OF COMMUNITY (the latter until ISSP 2009).

For country specific income variables with answer categories, the data is recoded to midpoints of the categories.

Recently additionally provided as country specific variables: RELIGION (since ISSP 2010), ETHNIC GROUP (since ISSP 2013)

For occupation, official international occupation codes are used. While in the first years of the ISSP many countries used country specific occupation codes, ISCO 1988 has been established as a standard over the years. Starting with ISSP 2014, ISCO 2008 is used.

The education variable is available with national-specific values as well as standardized into ISCED 1997 (ISSP 2011- 2019)/ ISCED 2011 (starting with ISSP 2020).

4.3.2 Missing values

Missing value scheme (ISSP 1985-2018):

0: Not applicable (NAP), Not available (NAV)

7 (97, 997, 9997, ...): Refused

8 (98,998, 9998, ...): Don't know/ Can't choose

9 (99, 999,9999, ...): No answer

From ISSP 2019 on the coding is:

-1 Not available (NAV)

-4 Not applicable (NAP)

-7 Refused

-8 Don't know/ Can't choose

-9: No answer

4.4 Weighting

Please note, that there is no total population weight usable for international comparison. While all ISSP data sets contain a weighting variable, the weights in this variable do not incorporate a common weighting scheme that can be applied to all countries of the same ISSP module.

In the Study Description and/ or in the Background Variables Documentation of each country you will find more detailed information on the kind of weights that are provided. You can see, whether

- a design weight
- weights to adjust for non-response bias or
- a combination of these both weights above or
- different weighting procedures

are applied. Provision of a design weight is mandatory for countries using household-based sampling methods, as these require compensation for the lower selection probabilities of persons in larger households. However, some countries dispense with weighting factors at all. **If no weight is provided, the variable "Weight" is coded to 1.0.** Otherwise the weighting factor is unequal 1.0 (but greater than 0).

It may be advisable to weight data to increase representativeness in certain cases. For ISSP data we strongly recommend consulting the National Study Descriptions for information on the certain weighting factor composition and maybe even the Characteristics of National Population for more context information. An initial overview of the national weighting procedures is provided in this Variable Report in chapter 6.

4.5 International documentation standard

The variable documentation is set up in accordance with the international metadata specifications for the social sciences, established by the Data Documentation Initiative <DDI>. The Variable Reports are based on the XML representation of DDI version 2. The documentation combines the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the Basic Questionnaire with the variable description (variable name, values, and labels) of the data set. General remarks and comments referring to a certain variable are defined as variable notes. Notes mostly include additional information on country specific deviations from the ISSP standard, information about data problems or other specific characteristics.

5 Explanation of the variable documentation

The variable documentation part of this Variable Report describes each variable in the data file including all relevant information for this variable such as the single question components or further notes and statistical distributions. The variable documentation is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with international metadata standards (DDI-Codebook/XML).

In general, the following abbreviations are used to indicate countries or (sub-national) areas. As far as applicable, the ISO 3166-1 alpha-2 country codes have been applied and coded accordingly in the alphanumeric sample identification variable 'c_alphan'.

AT	Austria	IS	Iceland
AU	Australia	JP	Japan
CH	Switzerland	LT	Lithuania
CN	China	MX	Mexico
CZ	Czech Republic	NZ	New Zealand
DE	Germany	PH	Philippines
DK	Denmark	RU	Russia
ES	Spain	SE	Sweden
FI	Finland	SI	Slovenia
FR	France	SK	Slovakia
GB	Great Britain	SR	Suriname
HR	Croatia	TH	Thailand
HU	Hungary	TW	Taiwan
IL	Israel	US	United States
IN	India	ZA	South Africa

The example explained below shows the information that for a typical substantial variable appears in the variable documentation part of a Variable Report. Results are usually broken down by country or presented as frequency counts in the case of country specific variables. In the case of variables with long lists of coded "real" values (e.g. ISCO08/ SPISCO08) results are not shown or, if appropriate, reflected by descriptive indicators such as mean or median (e.g. AGE, country specific variable RINC and INC). The descriptive parameters mean and/ or median are sometimes also presented despite the fact that an open answer scale was used (e.g. WRKHRS code 96 '96 hours or more') to give an idea of the distribution of this variable across countries.

The complete question and answer texts are taken from the final Basic Questionnaire as provided. All deviations are documented in this Variable Report.

As there is neither an international weighting factor nor a national weighting factor which would be comparable for all participating countries, all frequencies and tables are calculated from unweighted data.

Header with [DIGITAL OBJECT IDENTIFIER \(DOI\)](#) linked to the Study Description in the GESIS Data Catalogue.

[VARIABLE NAME](#) (serial number assigned by the archive) and [VARIABLE LABEL](#) as defined in the data set.

[QUESTION NUMBER](#) and full [QUESTION TEXT](#) from the Basic Questionnaire, including interviewer instructions, if applicable. The numbers or letters that may appear together with the original question number, reflect the item order or indicate if a question was asked only in a single country (country abbreviation).

[CODE VALUES](#) occurring in the data for this variable and complete [ANSWER TEXT](#) from the Basic Questionnaire. Abbreviations commonly used in the code definitions are [DK](#) (don't know), [NA](#) (no answer), [NAP](#) (not applicable) and [NAV](#) (not available).

[DERIVATION](#) information refers to the construction principle of derived variables.
[NOTE](#) delineates additional explanatory text or archive remarks on data processing and other issues relevant for the understanding or application of the variable.

[CROSS-TABULATION](#): The absolute frequencies base on unweighted data. The relative frequencies (row percent) refer to the valid cases (n valid sum), i.e. the total number of cases (n sum) reduced by the number of cases defined as missing data (M).

[FREQUENCY COUNTS](#): For country specific variables relative frequencies are calculated in- and excluding missing data (M), i.e. percent on the basis of all cases (sum) and valid percent on basis of the valid cases.

[DESCRIPTIVE PARAMETERS](#): For some interval-scaled variables descriptive parameters such as minimum, maximum, and (if appropriate) median and mean are given on the basis of the valid cases.

version - GESIS Archive version

VERSION AND RELEASE DATE OF THE ARCHIVE DATA SET

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as a string.

The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

version

Value	Label	Missing	Count	Percent	Valid Percent
2.0.0 (2019-08-19)			44492	100.0	100.0
	Sum		44492	100.0	100.0
	Valid Cases		44492		

doi - Digital Object Identifier**Digital Object Identifier (DOI)**

This variable holds the Digital Object Identifier (DOI) for the data set at hand as registered via the DA|RA registration agency for economic and social science data. Each data set version (see the variable 'version') has a unique persistent DOI.

For direct access to the complete archive dissemination package for this study, including new data set versions, the DOI needs to be appended to the resolver service URL:

<http://dx.doi.org/10.4232/1.13322>.

In terms of good scientific practice, the DOI is an important element for the correct citation of a data set.

c_sample - Country/ Sample ISO 3166 Code (see country for codes for whole nation states)

Country/ Sample (see the variable 'country' for codes for whole nation states).

To indicate the subsamples within the ISSP countries a code on the basis of ISO 3166 was constructed. For all countries without subsamples the three digit ISO 3166 Code (as in the variable 'country') was used.

For those with subsamples a five digit numeric code is used. The first three-digits are based on the original ISO code and indicate the country. The following two-digit numeric appendices (01, 02) indicate the subsamples.

36 AU-Australia
40 AT-Austria

c_alphan - Country/ Sample Prefix ISO 3166 Code - alphanumeric

Sample Prefix ISO 3166 Code - Alphanumeric

ISO 3166 Country/ Sample Prefix

This alphanumeric country sample identification variable c_alphan includes country codes that are based on ISO 3166.

All countries are coded in accordance with the ISO 3166-1-alpha-2 country code, if available. ISO 3166-2 is applied for the UK's subsample Great Britain (GB-GBN).

For examining subsamples from Germany (East/ West) and Israel (Jewish/ Arab population) the variable 'c_sample' can be used as a flag variable.

This alphanumeric sample identification variable c_alphan is used for the frequency tables and cross tabulations shown in the Variable Report:

AT = Austria
AU = Australia
CH = Switzerland
CN = China
CZ = Czech Republic

v1 - Q1a In circle of friends, relatives and acquaintances: bus/ lorry driver?

Q1

Here is a list of jobs that people you know may have. These people could be family or relatives, close friends or someone else you know. By 'knowing' a person, we mean that you know him/ her by name and well enough to contact him/ her.

If you know several people who have a job from the list below, please only tick the box for the person who you feel closest to. Each of these jobs could be held by a woman or a man.

Do you know a woman or a man who is...?

(PLEASE TICK ONE BOX ON EACH LINE)

Q1a

A bus/ lorry driver

- 1 Family or relative
- 2 Close friend
- 3 Someone else I know
- 4 No one
- 8 Can't choose
- 9 No answer

v4 - Q1d In circle of friends, relatives and acquaintances: hairdresser/ barber?

Q1

Here is a list of jobs that people you know may have. These people could be family or relatives, close friends or someone else you know. By 'knowing' a person, we mean that you know him/ her by name and well enough to contact him/ her.

If you know several people who have a job from the list below, please only tick the box for the person who you feel closest to. Each of these jobs could be held by a woman or a man.

Do you know a woman or a man who is...?

(PLEASE TICK ONE BOX ON EACH LINE)

Q1d

A hairdresser/ barber

- 1 Family or relative
- 2 Close friend
- 3 Someone else I know
- 4 No one
- 8 Can't choose
- 9 No answer

v8 - Q1h In circle of friends, relatives and acquaintances: nurse?

Q1

Here is a list of jobs that people you know may have. These people could be family or relatives, close friends or someone else you know. By 'knowing' a person, we mean that you know him/ her by name and well enough to contact him/ her.

If you know several people who have a job from the list below, please only tick the box for the person who you feel closest to. Each of these jobs could be held by a woman or a man.

Do you know a woman or a man who is...?

(PLEASE TICK ONE BOX ON EACH LINE)

Q1h

A nurse

- 1 Family or relative
- 2 Close friend
- 3 Someone else I know
- 4 No one
- 8 Can't choose
- 9 No answer

v11 - Q2a Differences in income are too large.

Q2

To what extent do you agree or disagree with the following statements?

(PLEASE TICK ONE BOX ON EACH LINE)

Q2a

Differences in income in [COUNTRY] are too large.

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose
- 9 No answer

Note:

/ JP: The literal translation of 'agree-disagree' scale used in the Japanese questionnaire is: (1) I think so; (2) I rather think so; (3) Can't say one way or the other; (4) I rather don't think so; (5) I don't think so.

v12 - Q2b Differences in people's standard of living should be small in fair societies.

Q2

To what extent do you agree or disagree with the following statements?

(PLEASE TICK ONE BOX ON EACH LINE)

Q2b

For a society to be fair, differences in people's standard of living should be small.

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose
- 9 No answer

Note:

/ JP: The literal translation of 'agree-disagree' scale used in the Japanese questionnaire is: (1) I think so; (2) I rather think so; (3) Can't say one way or the other; (4) I rather don't think so; (5) I don't think so.

v19 - Q5c Past 12 months how often taken part in activities: of charitable or religious organisations that do voluntary work?

Some activities are done with others in organised groups, clubs or associations. The next questions are about your participation, if any, in such activities.

Q5

In the past 12 months, how often, if at all, have you taken part in activities...?

(PLEASE TICK ONE BOX ON EACH LINE)

Q5c

... of charitable or religious organisations that do voluntary work?

- 1 Once a week or more
- 2 One to three times a month
- 3 Several times in the past year
- 4 Once in the past year
- 5 Never
- 8 Can't choose
- 9 No answer

v20 - Q6 No influence on government decisions

Q6

To what extent do you agree or disagree with the following statement?

People like me don't have any say about what the government does.

(PLEASE TICK ONE BOX ONLY)

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose
- 9 No answer

Note:

/ JP: The literal translation of 'agree-disagree' scale used in the Japanese questionnaire is: (1) I think so; (2) I rather think so; (3) Can't say one way or the other; (4) I rather don't think so; (5) I don't think so.

v21 - Q7a Whom to ask for help: in household or garden?

This section is about who you would turn to for help in different situations, if you needed it.

Q7

For each of the following situations, please tick one box to say who you would turn to first. If there are several people you are equally likely to turn to, please tick the box for the one you feel closest to.

Who would you turn to first to ...

(PLEASE TICK ONE BOX ON EACH LINE)

Q7a

... help you with a household or a garden job that you can't do yourself?

- 1 Close family member
- 2 More distant family member
- 3 Close friend
- 4 Neighbour
- 5 Someone I work with
- 6 Someone else
- 7 No one
- 8 Can't choose
- 9 No answer

v23 - Q7c Whom to ask for help: in depression?

This section is about who you would turn to for help in different situations, if you needed it.

Q7

For each of the following situations, please tick one box to say who you would turn to first. If there are several people you are equally likely to turn to, please tick the box for the one you feel closest to.

Who would you turn to first to ...

(PLEASE TICK ONE BOX ON EACH LINE)

Q7c

... be there for you if you felt a bit down or depressed and wanted to talk about it?

- 1 Close family member
- 2 More distant family member
- 3 Close friend
- 4 Neighbour
- 5 Someone I work with
- 6 Someone else
- 7 No one
- 8 Can't choose
- 9 No answer

v26 - Q8a Whom or where to ask for help: borrow large sum of money?

Q8

For each of the following situations, please tick one box to say who or where you would turn to first for help. If there are several choices you are equally likely to make, please tick the box for the one you would try first.

Who or where would you turn to first to ...

(PLEASE TICK ONE BOX ON EACH LINE)

Q8a

... help you if you needed to borrow a large sum of money?

- 1 Family members or close friends
- 2 Other persons
- 3 Private companies
- 4 Public services
- 5 Non-profit or religious organisations
- 6 Other organisations
- 7 No person or organisation
- 8 Can't choose
- 9 No answer

v38 - Q13a Adult children have a duty to look after their elderly parents.

Q13

To what extent do you agree or disagree with the following statements?

(PLEASE TICK ONE BOX ON EACH LINE)

Q13a

Adult children have a duty to look after their elderly parents.

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose
- 9 No answer

Note:

/ JP: The literal translation of 'agree-disagree' scale used in the Japanese questionnaire is: (1) I think so; (2) I rather think so; (3) Can't say one way or the other; (4) I rather don't think so; (5) I don't think so.

v45 - Q18 How often: make new friends when going out with friends?

[Q17

How often do you go out to eat or drink with three or more friends or acquaintances who are not family members?]

Q18

IF NOT CODE 8 'NEVER' IN Q17

At these occasions, how often do you make new friends or acquaintances?

(PLEASE TICK ONE BOX ONLY)

- 0 Not applicable (code 8 in v44)
- 1 Never
- 2 Rarely
- 3 Sometimes
- 4 Often
- 5 Very often
- 8 Can't choose
- 9 No answer

Note:

/ SR: The filter has not been applied at all in the questionnaire. Respondents who selected 'Never' in v44 and answered in v45 with 'Never', 'Can't choose' or did not answer ('No answer'), were only retrospectively encoded to the filter code 0 in v45.

/ ZA: Even though this was foreseen in the questionnaire, the filter has been applied only partly in the interviews. Respondents, who selected 'Never' in v44 and answered in v45 with 'Never', 'Can't choose' or who did not answer ('No answer'), were retrospectively encoded to the filter code 0 in v45.

v46 - Q19 In contact with how many people on a typical weekday?

Q19

Please indicate about how many people do you have contact with on a typical weekday irrespective of whether you know them or not.

Include anyone you chat with, talk to, or text, either face-to-face, by phone, internet or any other communication device.

(PLEASE TICK ONE BOX ONLY)

- 1 0-4 people
- 2 5-9
- 3 10-19
- 4 20-49
- 5 50-99
- 6 100 or more
- 8 Can't choose
- 9 No answer

in Spain (ES):

- 1 No one/ 1-4

in Hungary (HU):

- 1 No one/ 1-4

in Taiwan (TW):

- 1 No one/ 1-4

Note:

/ ES, HU, TW: The Spanish/ Hungarian/ Taiwanese questionnaire used an answer scale with 7 categories for Q19/ v46 in contrast to the ISSP standard scale with 6 answer options. In these countries, the first category '0-4' was further split into 'No one' and '1-4'. Both categories were combined to the standard category 1 '0-4' in Q19/ v46. Respondents who answered 'No one' in Q19/ v46 can be detected by Q20/ v47, code 0 'NAP (No one in v46)'.

v47 - Q20 Therefrom in face-to-face contact on a typical weekday?

[Q19

Please indicate about how many people do you have contact with on a typical weekday irrespective of whether you know them or not.

Include anyone you chat with, talk to, or text, either face-to-face, by phone, internet or any other communication device.]

Q20

About how many of these people do you see face-to-face on a typical weekday?

(PLEASE TICK ONE BOX ONLY)

- 1 All or almost all of them
- 2 Most of them
- 3 About half of them
- 4 Some of them
- 5 None or almost none of them
- 8 Can't choose
- 9 No answer

in Spain (ES):

- 0 Not applicable (No one in v46)

in Hungary (HU):

- 0 Not applicable (No one in v46)

in Taiwan (TW):

- 0 Not applicable (No one in v46)

Note:

/ ES, HU, TW: The Spanish/ Hungarian/ Taiwanese questionnaire used an answer scale with 7 categories for Q19/ v46 in contrast to the ISSP standard scale with 6 answer options. In these countries, the first category '0-4' was further split into 'No one' and '1-4'. Both categories were combined to the standard category 1 '0-4' in Q19/ v46. Respondents who answered 'No one' in Q19/ v46 can be detected by Q20/ v47, code 0 'NAP (No one in v46)'.

v48 - Q21 How often contact with parent most frequently in contact with?

Q21

Please think about the parent you have contact with most frequently: How often do you have contact with that parent, either face-to-face, by phone, internet or any other communication device?

(PLEASE TICK ONE BOX ONLY)

- 1 Daily
- 2 Several times a week
- 3 Once a week
- 4 Two to three times a month
- 5 Once a month
- 6 Several times a year
- 7 Less often
- 8 Never
- 95 My parents are no longer alive
- 96 The parent I have contact with the most frequently lives with me
- 99 No answer

in Great Britain (GB-GBN):

- 99 Can't choose, No answer

v49 - Q22 How often contact with sibling most frequently in contact with?

Q22

Think about the brother or sister you have contact with most frequently: How often do you have contact with that brother or sister, either face-to-face, by phone, internet or any other communication device?

(PLEASE TICK ONE BOX ONLY)

- 1 Daily
- 2 Several times a week
- 3 Once a week
- 4 Two to three times a month
- 5 Once a month
- 6 Several times a year
- 7 Less often
- 8 Never
- 95 I do not have any brothers or sisters
- 96 The brother or sister I have contact with the most frequently lives with me
- 99 No answer

in Great Britain (GB-GBN):

- 99 Can't choose, No answer

in Hungary (HU):

- 99 Refused, No answer

v50 - Q23 How often contact with adult child most frequently in contact with?

Q23

Think about your adult child you have contact with most frequently: How often do you have contact with this child aged at least 18, either face-to-face, by phone, internet or any other communication device?

(PLEASE TICK ONE BOX ONLY)

- 1 Daily
- 2 Several times a week
- 3 Once a week
- 4 Two to three times a month
- 5 Once a month
- 6 Several times a year
- 7 Less often
- 8 Never
- 95 I do not have any adult children
- 96 The adult child I have contact with the most frequently lives with me
- 99 No answer

in Great Britain (GB-GBN):

- 99 Can't choose, No answer

v51 - Q24 How often contact with other family member most frequently in contact with?

Q24

Now, think about the other family member you have contact with most frequently, aside of your spouse or partner, parents, siblings or adult children. How often do you have contact with that family member, either face-to-face, by phone, internet or any other communication device?

(PLEASE TICK ONE BOX ONLY)

- 1 Daily
- 2 Several times a week
- 3 Once a week
- 4 Two to three times a month
- 5 Once a month
- 6 Several times a year
- 7 Less often
- 8 Never
- 95 I do not have other family members
- 96 The other family member I have contact with the most frequently lives with me
- 99 No answer

in Great Britain (GB-GBN):

v52 - Q25 How often contact with close friend most frequently in contact with?

Q25

And, think about the close friend you have contact with most frequently: How often do you have contact with that close friend, either face-to-face, by phone, internet or any other communication device?

(PLEASE TICK ONE BOX ONLY)

- 1 Daily
- 2 Several times a week
- 3 Once a week
- 4 Two to three times a month
- 5 Once a month
- 6 Several times a year
- 7 Less often
- 8 Never
- 95 I do not have any close friends
- 96 The close friend I have contact with the most frequently lives with me
- 99 No answer

in Great Britain (GB-GBN):

- 99 Can't choose, No answer

in Hungary (HU):

- 99 Refused

v53 - Q26 How much of contact with family and close friends via the internet?

Q26

Think about the occasions when you talk, get in touch with your family members and your close friends. How many times does this happen in the form of a text message/ a cell phone conversation or another internet communication tool?

(PLEASE TICK ONE BOX ONLY)

- 1 All or almost all of it
- 2 Most of it
- 3 About half of it
- 4 Some of it
- 5 None or almost none of it
- 7 I do not use any of these devices
- 8 Can't choose
- 9 No answer

Note:

/ HU: In the Hungarian questionnaire category 5 'None or almonst none of it' was split into category 5 'None' and category 6 'Almost none'.

Both categories were combined to the standard category 5 'None or almost none of it' to meet the ISSP standard scale.

v54 - Q27 Health status in general

Now, we would like to ask you some questions about other aspects of your life.

Q27

In general, would you say your health is...?

(PLEASE TICK ONE BOX ONLY)

- 1 Excellent
- 2 Very good
- 3 Good
- 4 Fair
- 5 Poor
- 8 Can't choose
- 9 No answer

in Hungary (HU):

- 1 Very good
- 2 Good
- 3 Satisfactory
- 4 Bad
- 5 Very bad

Note:

/ HU: The original answer scale in the Hungarian questionnaire contains slightly different answer codes and was coded in the questionnaire the other way round. To meet the ISSP standard scale, the answer scale has been reversed during the integration of the data.

v61 - Q33a Friendship should be of use to yourself.

OPTIONAL QUESTION

Q33

To what extent do you agree or disagree with the following statements?

(PLEASE TICK ONE BOX ON EACH LINE)

Q33a

It is all right to develop friendships with people just because they can be of use to you.

0 Not available (AT, DK, ES, FI, HR, IL, NZ, RU, SE, SI, SR, TW, US, ZA)

1 Strongly agree

2 Agree

3 Neither agree nor disagree

4 Disagree

5 Strongly disagree

8 Can't choose

9 No answer

Note:

/ JP: The literal translation of 'agree-disagree' scale used in the Japanese questionnaire is: (1) I think so; (2) I rather think so; (3) Can't say one way or the other; (4) I rather don't think so; (5) I don't think so.

v62 - Q33b Favours should be repaid.

OPTIONAL QUESTION

Q33

To what extent do you agree or disagree with the following statements?

(PLEASE TICK ONE BOX ON EACH LINE)

Q33b

When another person does a favour for you, you should feel obligated to pay that person back.

0 Not available (AT, DK, ES, FI, HR, IL, NZ, RU, SE, SI, SR, TW, US, ZA)

1 Strongly agree

2 Agree

3 Neither agree nor disagree

4 Disagree

5 Strongly disagree

8 Can't choose

9 No answer

Note:

/ JP: The literal translation of 'agree-disagree' scale used in the Japanese questionnaire is: (1) I think so; (2) I rather think so; (3) Can't say one way or the other; (4) I rather don't think so; (5) I don't think so.

v67 - [SPDEGREE]: Highest completed education level of spouse or partner: Categories for international comparison

SUPPLEMENTARY OPTIONAL BACKGROUND VARIABLE

SPDEGREE: Comparative - Highest completed degree of education for SPOUSE/ PARTNER: Categories for international comparison

Derived from: 'WHAT IS THE HIGHEST LEVEL OF EDUCATION THAT YOUR SPOUSE OR PARTNER ATTAINED'

Like for DEGREE, the degree of education for spouses/ partners are asked country-specific and are then harmonized into ISCED-97.

Unlike for DEGREE, the nat_DEGR variables for spouses/ partners are not included in the integrated file. Only the harmonized variable is available for the sake of international comparison.

In all circumstances, SPDEGREE should, however, be derived in the same way as DEGREE to enable comparability between the degree of education for respondents and their spouses/ partners.

- 0 No formal education
- 1 Primary school (elementary education)
- 2 Lower secondary (secondary completed that does not allow entry to university: end of obligatory school)
- 3 Upper secondary (programs that allows entry to university)
- 4 Post secondary, non-tertiary (other upper secondary programs toward the labour market or technical formation)
- 5 Lower level tertiary, first stage (also technical schools at a tertiary level)
- 6 Upper level tertiary (Master, Doctor)
- 8 Can't choose
- 9 No answer
- 99 NAP (Code 3, 7 in PARTLIV), Not available (AT, DK, ES, FI, GB, HR, IS, JP, NZ, RU, SE, SK, SR, US, ZA)

SEX - Sex of Respondent

BVQ_01. SEX

Are you...?

.....

AT: Sex.

AU: Are you...?

CH: Sex (Information coming from household composition).

CN: Interviewer fills in the blank.

CZ: Enter respondent's sex (Interviewer observation).

DE: Enter sex of respondent (Interviewer observation).

DK: Are you...?

ES: Sex (Interviewer observation).

FI: Are you...?

FR: Are you...?

GB-GBN: SEX (Interviewer observation).

HR: Respondent's sex.

HU: Sex of respondent (interviewer observation).

IL: Sex.

IN: Are you... (Question was entered by researcher observation).

IS: Are you...? (If not answered, taken from the sample list).

JP: Sex/ Please circle the appropriate.

LT: Respondent's sex. If it is obvious, don't ask this question.

MX: Sex of Respondent (Interviewer observation).

NZ: What is your gender?

PH: Are you...?

RU: Respondent's sex (Interviewer observation).

SE: Taken from national register, not asked in survey.

SI: Sex.

SK: State respondent's sex (interviewer observation).

SR: Are you male or female?

TH: SEX (Interviewer observation).

TW: Gender.

US: SEX (Interviewer observation was used instead of asking questions to respondents).

ZA: Sex of respondent (copy from contact sheet).

1 Male

2 Female

9 No answer

in Austria (AT):

9 NA incl. other

Note:

/ JP: Respondent's sex can be known also from the sampling frame.

BIRTH - Year of birth

BVQ_02. BIRTH

When were you born?

(Please, write in the year of your birth, use four digits for the year.)

COMMENT TO BIRTH: The preferred question is to ask BIRTH.

AGE however can be calculated from DATE and BIRTH.

.....

AT: When were you born? Please tell me your year of birth.

AU: When were you born?

CH: Year of birth (Information coming from household composition).

CN: When is your birthday? (Record the calendar year, if the respondent answered by the lunar calendar, Chinese Zodiac or other manners, please converse it to the Gregorian calendar year before recording it.)

CZ: What year were you born?

DE: Please tell me what month and year you were born in.

DK: Computed: BIRTH = DATEYR - AGE.

ES: What year were you born? 19 __?

FI: What year were you born?

FR: What is your year of birth?

GB-GBN: Computed: BIRTH = DATEYR - AGE.

HR: Please insert the year of respondent's birth.

HU: Year of birth.

IL: When were you born? (Interview age 18 and above)

IN: When were you born? (Please, write in the year of your birth (use four digits for the year)).

IS: When were you born? (If not answered, taken from the sample list).

JP: Year of Birth/ Circle the appropriate figure and indicate your year of birth.

LT: Computed: BIRTH = DATEYR - AGE.

MX: Year of birth:

NZ: Please indicate the year in which you were born: 19__

PH: When were you born?

RU: Year of birth.

SE: Taken from national register.

SI: When were you born? Please, tell us just the year of birth.

SK: In what year were you born, please?

SR: When were you born? Month: __ Year: 19 __

TH: Year of birth - B.E. (Please ask year of birth or ask about the age and then calculate year of birth).

TW: When were you born? R.O.C. Year ____, Month __

US: What is your date of birth (Month: Day: Year:)?

ZA: Computed by AGE (2017-AGE).

1914 1914

2002 2002

9999 No answer

in Unites States (US):

1929 1929 or earlier

Note:

/ JP: Respondents were asked to indicate the era in which they were born and then the year within the era (F2G - Era: 1 Meiji, 2 Taisho, 3 Showa, 4 Heisei; F2N - Year: Meiji 1-45 => 1868-1912, Taisho 1-15 => 1912-1926, Showa 1-64 => 1926-1989, Heisei 1-29 => 1989-2017).

/ JP: Respondent's birth year can be known also from the sampling frame.

/ TH: Data is computed from B.E. to A.D. by minus 543 (fieldwork year is 2560 B.E. which correspondes to 2017 A.D.)

/ TW: R.O.C. year = A.D. year-1911, example A.D. 2017-1911=R.O.C. year 106.

AGE - Age of respondent

BVQ_02a. AGE

This question can be asked as an alternative to asking about BIRTH. If AGE is not asked directly, it must be computed by DATEYR 'year of the interview' minus BIRTH 'year of birth'. If your country is free to choose between asking BIRTH or AGE directly, the ISSP prefers BIRTH being asked.

.....

AT: Computed: AGE = DATEYR - BIRTH.

AU: Computed: AGE = DATEYR - BIRTH.

CH: Computed: AGE = DATEYR - BIRTH.

CN: Computed: AGE = DATEYR - BIRTH.

CZ: Computed: AGE = DATEYR - BIRTH.

DE: In order to calculate age, year/ month of R's birth used (from ALLBUS 2018) and month of interview (as reported by interviewer).

DK: How old are you?

ES: Computed: AGE = DATEYR - BIRTH.

FI: Computed: AGE = DATEYR - BIRTH.

FR: Computed: AGE = DATEYR - BIRTH.

GB-GBN: What was your age last birthday?

HR: Computed: AGE = DATEYR - BIRTH.

HU: Computed: AGE = DATEYR - BIRTH.

IL: Computed: AGE = DATEYR - BIRTH.

IN: Computed: AGE = DATEYR - BIRTH.

IS: Computed: AGE = DATEYR - BIRTH.

JP: Computed: AGE = DATEYR - BIRTH (based on Era and Year in Era, see BV documentation).

LT: What was your age at your last birthday, in full years?

MX: How old are you? (Completed years)

NZ: Computed: AGE = DATEYR - BIRTH.

PH: What was your age at your last birthday, in full years?

RU: How old are you?

SE: Computed: AGE = DATEYR - BIRTH.

SI: Computed: AGE = DATEYR - BIRTH.

SK: Computed: AGE = DATEYR - BIRTH.

SR: Not asked, computed by BIRTH.

TH: Write age _ _ (Please ask about the age or calculate from year of birth - B.E.).

TW: Derived from BIRTH (R.O.C. year).

US: Computed: AGE = DATEYR - BIRTH.

ZA: Age of respondent in completed years (copy from contact sheet).

in Unites States (US):

89 89 years or older

Note:

/ NZ: All respondents taken from the electoral roll are 18 years old or over.

/ TH: Data for year of birth is computed from B.E. to A.D. by minus 543.

EDUCYRS - Education I: years of schooling

BVQ_03. EDUCYRS

How many years (full-time equivalent) have you been in formal education?

Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years.

If you are currently in education, count the number of years you have completed so far.

(Please enter number of years or tick a box as applicable.)

.....

AT: Not asked; derived from AT_DEGR.

AU: How many full years of schooling or education have you had? Please include primary and secondary schooling, university and full-time vocational training, but do not include repeated years. If you are currently in education count the number of years you have completed so far.

CH: For how many years were you in fulltime education? (Don't count the time you possibly spent doing an apprenticeship, it is asked in the next question). And, if appropriate, how many years did it take to do this apprenticeship, not including any possible repeated years? Indicate the number of years. Round up or down to the nearest year.

CN: Derived from 'What is your highest educational level currently?'.

CZ: How many years of schooling or education have you had? Please include all years of full-time study, even if you did not graduate from that school. Do not forget about primary school. Do not include vocational and requalification courses, part-time study or distance learning. Do not include repeated years.

DE: How many full years of schooling or education have you had in total, including primary and secondary schooling, university and full-time vocational training at school, but not including in-firm training. If you have ever repeated a year, please do not include these years. If you are currently at school or university, please count the number of years you have already completed at school or university. (Number of years rounded to full years. Years in kindergarden not counted.) Probe added: if respondents' answer equals respondent's age to reduce misunderstanding on question meaning: Did you state your age? With this question, we would like to know the years that you spent in school, university, or other schooling.

DK: How many years of full time schooling do you have?

ES: What are the highest level official studies you have done (obtaining the corresponding official qualification)? How many years were you in school or taking official courses with a full-time commitment? Start counting from the first year of compulsory schooling: 1st of Primary, 1st of EGB, etc.

FI: How many years have you gone to school or studied altogether? Include primary education, lower secondary education, general upper secondary education, all full-time education aiming at a vocational qualification and higher education. If you are still at school or studying, please provide the number of full years of schooling or education you have had so far.

FR: Derived from FR_EDUC 'How old were you when you stopped your studies?' and MAINSTAT.

GB-GBN: Derived by subtracting 5 (school starting age in Britain) from the answer to 'How old were you when you completed your continuous full-time education?'. (When R 'Still at school/ college or university' EDUCYRS=AGE minus 5.)

HR: How many years of formal education do you have?

HU: Taking into account all your schooling, how many years have you been studying in any full-time school? (Please do not include repeated years.)

IL: How many years (full-time equivalent) have you been in formal education?

IN: How many years (full-time equivalent) have you been in formal education? Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years. If you are currently in education, count the number of years you have completed so far.

IS: How many years (full-time equivalent) have you been in formal education? Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years. If you are currently in education, count

the number of years you have completed so far.

JP: How many years of education did you receive from the time you entered elementary school to the time you graduated or left your final place of education? Do not include any time spent at 'cram schools', higher vocational schools or schools in the miscellaneous category.

LT: How many full years of schooling or education have you had? Please indicate how many years of schooling or education in primary, secondary, vocational or gymnasium school, college, university or institute you have completed. If you repeated a school year or course several times, count only the first year. If you are currently in education, count the number of years you have completed so far. If you had part-time education, please count how many years of full-time education it would be equivalent to.

MX: Years of schooling (formal school, excluding training for work).

NZ: How many years (full-time equivalent) have you been in formal education (including primary school)?

PH: How many years (full-time equivalent) have you been in formal education? Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years. If you are currently in education, count the number of years you have completed so far.

RU: How many years (full-time equivalent) have you been in formal education? Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years. If you are currently in education, count the number of years you have studied already (including all educational institutions).

SE: How many years of full-time education have you had? Include primary school, and, if applicable, gymnasium and college/ university education. If you are currently in education, count the number of years you have completed so far.

SI: How long lasted your schooling? (Consider all types of schooling from primary school to university, including professional education, training period, but do not count class repetitions.)

SK: How long have you been in education so far? Please count all years of full time schooling even if you did not finish the school. Don't forget to count basic school. Don't count repeated years. Don't count evening or distance study. Don't include time spent on professional training or requalification. If you still study, please state the years of study finished so far.

SR: How many years have you been in formal education (starting at grade 1 of primary school)? If part-time, count back to fulltime. Include repeated years. If you are currently in education, count the number of years you have completed so far.

TH: Year of full-time formal schooling (including primary school, secondary school, vocational school, university, and full-time training, but not include repeated years; if currently in education, count number of years completed so far).

TW: How many years of school education have you had since Grade 1 in elementary school?

US: Derived from 'What is the highest grade in elementary school or high school that you finished and got credit for?' (If finished 9th-12th grade or don't know) 'Did you ever get a high school diploma or a GED certificate?'/ 'Did you ever complete one or more years of college for credit - not including schooling such as business college, technical or vocational school?' (If yes) 'How many years did you complete?'/ 'Do you have any college degrees?' (If yes) 'What degree or degrees?'

ZA: How many years of full time education have you completed? Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years. If respondent is currently in education, count the number of years completed so far.

0 No formal schooling, no years at school

1 1 year

72 72 years

98 Don't know

99 No answer

Note:

/ CH: The majority of the Swiss population does an apprenticeship.

/ IN: For 'No Formal Schooling' details – in India, open schooling is widely spread. So people may not have formally gone to school but have taken examinations directly as 'Private' student. The Indian Education boards allow them to appear different examination just by virtue of being 15/ 17 or 21 years of age. These students study on their own; without going to any formal schooling; but appear in High School, Intermediate or College examinations.

/ IS: Please note that EDUCYRS might not include full years of education. According to the 1907 law farmer's children were supposed to be at least 2 months a year in school and children who lived in towns for 6 months a year. This difference between rural and 'urban' areas stayed for a long time and in fact stayed in some form all up until 1991. Respondents could be adding up the months they attended school and transform that into whole years since they went to school for such a short periods at a time. When adding up, they might have attended school for one or two months each semester (for the age 7/ 8/ 9 until 12/ 13/ 14).

/ IS: Originally, this variable included decimal numbers to reflect the true conditions. The numbers were retrospectively rounded to whole numbers following the ISSP standards for this variable.

/ SE: Gymnasium = secondary school.

/ SR: Deviating from the ISSP standard, in which repeated years are not to be taken into account when calculating the total number of school years, repeated years are to be counted in Suriname.

DE_DEGR - Country specific highest completed degree of education: Germany

DE_DEGR - Germany: Country specific highest completed degree of education

Next we come to questions about your education and job.

Let's begin with your education:

What general school leaving certificate do you have (highest certificate)?

(If not still at school) What vocational or professional training do you have?

What is the highest university degree you have graduated with?

What is the highest polytechnical degree you have graduated with?

- 0 NAP, other countries
- 1 Still at school, less than 7 years of schooling
- 2 Still at school: 7 years of schooling and more
- 3 Left school without certificate
- 4 Lower secondary (Hauptschule)
- 5 Middle school (mittlere Reife)
- 6 Secondary, technical (Fachhochschulreife)
- 7 Higher secondary (Abitur)
- 8 Vocational training, degree from German dual system
- 9 Vocational training, master craftsmen (Meister)
- 10 University of applied sciences (Fachhochschule): Bachelor
- 11 University: Bachelor
- 12 University of applied sciences (Fachhochschule): Master or other degree
- 13 University: Master or other degree
- 14 Doctorate
- 95 Other qualification
- 99 No answer

Note:

/ DE: Please note that the original data allowed for multiple answers. Respondents with multiple educational degrees are coded according to their 'highest' educational entry in the German ISSP degree variable. For example, respondents with 'Abitur' and additional vocational training in the dual system (but no further academic education) are coded 8 'Vocational training, degree from German dual system'. Thus, the code 7 'Higher secondary (Abitur)' is only given to respondents who did not receive either any further academic or vocational training.

IS_DEGR - Country specific highest completed degree of education: Iceland

IS_DEGR - Iceland: Country specific highest completed degree of education

What is the highest level of education that you have attained?

- 0 NAP, other countries
- 1 Primary school not finished
- 2 Primary school (until around 12 years old)
- 3 Primary school (until around 14 years old)
- 4 Compulsory school, secondary school exams, the nationally co-ordinated junior college entrance examination
- 5 Short vocational training on secondary level (e.g. home economics, foundation courses in trade, shorter music studies)
- 6 Secondary education (gymnasium), exam from the university bridging course exam from the preliminary studies department
- 7 Apprenticeship - upper secondary (vocational training)
- 8 Longer vocational training on secondary school level (e.g. nursing assistant certificate programme, trade exam)
- 9 Vocational training on completion of secondary school level (e.g. Grade 4 marine captain or engineer)
- 10 Master craftsman - licence to supervise apprentices
- 11 Short, practical training at university level, diploma
- 12 Short voc training at uni level, basic diploma, 2-3 years (system analysis, business managem., music or art studies)
- 13 Undergraduate degree BA/ BS/ B.Ed. or additional diploma
- 14 Studies at university longer than 4 years, at an undergraduate level, medicine, law, pharmacology, theology
- 15 Master's degree MA/ MS
- 16 Doctoral degree PhD
- 99 No answer

Note:

/ IS: From the year 1907 compulsory school was 4 years for children aged 10-14. At that time a majority lived in rural areas as opposed to the only bigger town, Reykjavík. According to the 1907 law farmer's children were supposed to be at least 2 months a year in school but children who lived in towns for 6 months a year. This difference between rural and 'urban' areas stayed for a long time and in fact stayed in some form all up until 1991. In 1926 compulsory school was for 8-14 years old and in 1936 for 7-14 years old. But even though this was the law the reality was often very different in the rural areas (where a big proportion of the nation lived) where exemptions were given both regarding the age of the children and how much time they spent in school. In 1946 the compulsory school was split up in two ('the children's level' and 'the teenager's level') where children finished 'barnaskólapróf' (national code 2) at the age of 12 (after 5 years of school) and could then add 'unglingapróf' (national code 3) which was two more years. Even though the laws changed in the years mentioned above it took more time for things to change in the rural areas so people who are older than perhaps 70 can easily have finished compulsory school even though EDUCYRS is very low. They still graduated with 'Barnaskólapróf' or 'Unglingapróf' and could move up to the next level (e.g. short vocational training on secondary school level).

/ IS: A few respondents chose 'Other' and wrote what other was. These answers were coded into 1-16. Therefore nobody has the value 17 in the final version of the data.

SI_DEGR - Country specific highest completed degree of education: Slovenia

SI_DEGR - Slovenia: Country specific highest completed degree of education

Name the last school that you finished, regularly or irregularly:

- 0 NAP, other countries
- 1 Without formal education
- 2 Incomplete primary school
- 3 Primary school completed (primary school certificate)
- 4 Lower high school or vocational school (2 to 3-years)
- 5 High school (technical school, 4-years with leaving exam)
- 6 General high school (gymnasium with leaving exam)
- 7 Higher degree completed, 2-years college
- 8 Completed 3 years college, 1st Bologna degree
- 9 University degree completed (4-6 years program + thesis)
- 10 Bologna Master
- 11 Specialization (1 year)
- 12 Master degree
- 13 Doctorate degree, PhD
- 99 No answer

Note:

/ SI: Slovenia had some changes in its school system in the last 10 years. Compulsory primary school used to be 8 years and is now changed to 9 years. At university level, European Bologna programmes have replaced national degree programmes. Bologna master therefore now is an individual code.

DEGREE - Highest completed education level: Categories for international comparison

DEGREE: Comparative - Highest completed degree of education: Categories for international comparison

The aim of this variable is to measure the highest completed education level/ degree of the respondent in order to facilitate international comparison.

Procedure: The degree of education is asked country-specific (see variables AT_DEGR-ZA_DEGR). Then, the harmonized ISSP categories for the variable DEGREE are to be computed from the country-specific degree variables.

Correspondence lists between country specific categories and categories of the ISSP DEGREE variable must be reported in detail in the BV documentation template for each country.

Since DEGREE is a slightly re-arranged subset of ISCED-97, instructions for actually coding ISCED-97 from nat-DEGR can be used in each country to support the coding of DEGREE.

AT: What is your highest completed school degree?

AU: What is the highest year of schooling you have completed?

CH: Which is the highest educational level you achieved? (Describe carefully, indicating also the country where it has been achieved.)

CN: What is your highest educational level currently?

CZ: What is the highest level of education that you have attained?

DE: Next we come to questions about your education and job. Let's begin with your education: What general school leaving certificate do you have (highest certificate)? (If not still at school) What vocational or professional training do you have? What is the highest university degree you have graduated with? What is the highest polytechnical degree you have graduated with?

DK: What school education do you have? What business training or higher education do you have beyond school education?

ES: What are the highest level official studies you have done (obtaining the corresponding official qualification)?

FI: What is your education? Please choose the highest level of education attained, choose one alternative only.

FR: What is the highest level of education that you have achieved?

GB-GBN: Constructed by using the two questions (multicoded): 'Have you passed any of the examinations on this card?' and 'And have you passed any of the exams or got any of the qualifications on this card?'

HR: Your highest level of education (schooling completed regularly or part-time). (For respondents who are currently involved in education, mark the highest completed level).

HU: What is your highest level of education?

IL: What is the highest level of education you have attained?

IN: What is the highest level of education that you have attained? We need to know the highest level of class/ degree that you have completed?

IS: What is the highest level of education that you have attained?

JP: Please indicate the last school you attended or the school you are currently attending.

LT: What is the highest level of education that you successfully completed? (If vocational, please identify which kind of school it was and what the duration of the studies were.)

MX: Highest school level achieved (completed level).

NZ: Which one of these categories best describes your highest formal qualification?

PH: What is the highest level of education that you have attained?

RU: What is the highest level of education that you have attained?

SE: What is the highest level of education that you have attained?

SI: Name the last school that you finished, regularly or irregularly:

SK: What is your highest achieved education level?

SR: What is the highest education that you have attended? And what is your highest completed education?

TH: The highest level of education:

TW: What is your education level? Please refer to the level of education that you are currently in or the highest level of education that you have attained, regardless of whether you have graduated or not./ How many years of school education have you had since Grade 1 in elementary school?

US: What is the highest grade in elementary school or high school that you finished and got credit for? (If finished 9th-12th grade or don't know) Did you ever get a high school diploma or a GED certificate?/ Did you ever complete one or more years of college for credit - not including schooling such as business college, technical or vocational school? (If yes) How many years did you complete?/ Do you have any college degrees? (If yes) What degree or degrees?

ZA: What is the highest level of education you have ever completed?

0 No formal education

1 Primary school (elementary education)

2 Lower secondary (secondary completed that does not allow entry to university: end of obligatory school)

3 Upper secondary (programs that allows entry to university)

4 Post secondary, non-tertiary (other upper secondary programs toward the labour market or technical formation)

5 Lower level tertiary, first stage (also technical schools at a tertiary level)

6 Upper level tertiary (Master, Doctor)

9 No answer

Note:

/ DE: Question on vocational training only asked if respondent not still at school. Please note that the original data allows for multiple answers. Respondents with multiple educational degrees are coded according to their 'highest' educational entry in the ISSP degree variable.

/ GB-GBN: Primarily, the British DEGREE variable recorded qualification levels. For the sake of integration/ harmonization, respondents with 'No secondary qualifications' (see code 1 in GB_DEGR) and originally included in 'No answer' (code 9) in DEGREE were retrospectively recoded into codes 0-2 in DEGREE by means of the number of education years (if EDUCYRS <6: DEGREE=0; if EDUCYRS 6+7 years: DEGREE=1; if EDUCYRS=8-11: DEGREE=2).

/ LT: University degrees were not split into bachelor and master, so code 6 includes only doctoral degree.

/ TW: For respondents with elementary school as highest level of education (code 3 in TW_DEGR) the question on the number of years of school education (EDUCYRS) was used to assign respondents with at least 6 years of primary school into code 1 in DEGREE.

/ US: DEGREE codes 0-2 are constructed by using EDUCYRS next to US_DEGR.

WORK - Currently, formerly, or never in paid work

BVQ_05. WORK

Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

(Please tick one box only)

.....

AT: Derived from 'How many hours do you usually work every week?' and (If not working) 'Have you ever been employed?'.

AU: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work? By work we mean doing income-producing work, as an employee, self-employed or working for your own family's business, for at least one hour per week. If you temporarily are not working for pay because of temporary illness/ parental leave/ strike, etc., please refer to your normal work situation.

CH: Are you currently working for pay or did you work for pay in the past? (By work we mean doing income-producing work, as an employee or working for your own family's business, for at least one hour per week. If respondent is temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike etc., refer to normal work situation.)

CN: What is your working experience or employment status?

CZ: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work? (By work we mean work as an employee, self-employed or working for one's own family's business for at least one hour a week. If respondent is temporarily not working for pay - because of illness, leave, vacation etc. - he/ she shall respond as if asked under normal circumstances, when in paid work. Do not refer to persons on maternity/ parental leave as working for pay unless they are simultaneously working for pay for at least one hour a week.)

DE: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

DK: Are you currently employed? Have you ever been employed?

ES: Are you currently in paid work or have you ever been in paid work in the past?

FI: Are you currently in paid work? Paid work is taken to include working as an employee, own-account worker, self-employed/ entrepreneur or working for your own family's business, for at least one hour a week. If you are temporarily away from paid work because of parental or other leave, unpaid leave or some similar reason, please answer according to your normal work situation.

FR: What is your situation in relation to work?

GB-GBN: Which of these descriptions applied to what you were doing last week, that is the seven days ending last Sunday? Which others? (Code all that apply - multicoded with a maximum of 11 codes, then priority coded)? (Ask all those who are not working or waiting to take up work) How long ago did you last have a paid job of at least 10 hours a week? (Government programmes/ schemes do not count as 'paid jobs').

HR: Are you currently employed in paid work, have you ever been employed in paid work, or have you never been employed? (By paid work we mean work of at least one hour per week, based on which the respondent receives income either as an employee, self-employed or working in family business or family farm. If the respondent, because of sickness, maternity, vacation or strike is currently not having a paid job, check their status in relation to the normal situation.)

HU: Derived from 'Are you currently working/ retired?' and 'What is/ was your (last) position or job?'

IL: Are you currently:

IN: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

IS: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

JP: Are you currently working for pay, for at least one hour per week? Circle one figure only.

LT: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work? By work we mean doing income-producing work, as an employee, self-employed or working for your own family's business, for at least one hour per week. If you temporarily are not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., please refer to your normal work situation.

MX: Do you currently have a paid job, did you have one in the past, or have you never had a paid job?

NZ: Which one of these categories best describes your current employment status? (If currently unemployed, permanently sick, student,

doing housework or retired) Have you had paid work in the past?

PH: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

RU: Do you have a paid work (including work as an employee for private persons or your own business and also maternity leave or child rearing leave)? And if no - have you ever had paid work in the past or have you never had paid work?

SE: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work? By work we mean doing income-producing work, as an employee, self-employed or working for your own family's business. If you temporarily are not working for pay because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

SI: Are you currently in paid work, used to have paid work or never had paid work?

SK: Are you/ have you ever been working for pay? (If respondent is on sickness leave, on maternal leave or similar but otherwise is employed (works) - use code 1 'Currently in paid work'. Paid work includes employed as well as self-employed!)

SR: At what age did you start working? At what age did you start with your current job? If you are currently not working: in what year did you stop working?

TH: The current working status: ('Work' means doing income-producing work as an employee, self-employee, or working for your own business, for at least 1 hour per week; if R temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike etc. refer to normal situation.)

TW: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

US: Derived from 'Last week were you working full time, part time, going to school, keeping house, or what?' and '(If retired, in school, keeping house, other) Did you ever work for as long as one year?'

ZA: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

- 1 Currently in paid work,
- 2 Currently not in paid work, paid work in the past
- 3 Never had paid work
- 9 No answer

Note:

/ CZ: It is common in the Czech context to take advantage of a relatively long maternity leave (28 weeks) and parental leave (until child turns 3), therefore persons on maternity/ parental leave were not treated as economically active unless they are simultaneously working for pay for at least one hour per week.

/ DK: The answer categories for WORK are generated from the answers to the two questions above. The first question offered a long list of answer categories that establish MAINSTAT.

/ US: The first question depicts MAINSTAT.

WRKHRS - Hours worked weekly

BVQ_06. WRKHRS

How many hours, on average, do you usually work for pay in a normal week, including overtime?

If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.

On average, I work... hours a week, overtime included.

.....

AT: How many hours do you usually work every week? Additional business should be included as well. If you have more than one job, how many hours do you work altogether?

AU: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.

CH: How many hours, on average, do/ did you usually work for pay in a normal week, including overtime? If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.

CN: Derived from 'Did you work for more than one hour for income last week?'.

CZ: How many hours weekly, on average, do you work in your employment and, if applicable, in your other paid jobs, including overtime? (If respondent works for more than one employer, or if he/ she is both employed and self-employed, please count the total average weekly number of working hours).

DE: And now let's continue with employment and your occupation. Which of the categories on this card applies to you? (If in full time or part time employment) How many hours per week do you normally work in your main job including overtime? (If in less than part time employment) How many hours per week do you normally work in your less than part ('half') time employment?

DK: How many hours do/ did you normally work in a working week?

ES: Approximately how many hours do/ did you work for pay, per week, on average, including overtime? Consider all jobs, if you have/ had more than one.

FI: How many hours on average do you work in a week, including overtime? If you have more than one employer or if you are both employed and self-employed/ entrepreneur, include all hours.

FR: If you are working, how many hours do you usually work weekly?

GB-GBN: How many hours do you normally work a week in your main job - including any paid or unpaid overtime?

HR: How many hours do you work in a normal week, including overtime?

HU: How many hours, on average, do you work in a week? Please include overtime and possible extensions as well.

IL: How many hours, on average, do you usually work for pay in a normal week, including overtime?

IN: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do. (Can be asked 'daily', and result multiplied by 7/ 6/ 5).

IS: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.

JP: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you have more than one job, count the total number of working hours that you do. If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

LT: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.

MX: On average, how many hours a week do you normally work including overtime?

NZ: How many hours do you usually work in a week?

PH: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you work for more than one

employer, or if you are both employed and self-employed, please count the total number of working hours that you do. If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

RU: How many hours, on average, do you usually work for pay in a normal week, including overtime?

SE: How many hours, on average, do you usually work for pay in a normal week? (Please include, if any, overtime.) If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.

SI: On an average week, how many hours do you work, including overtime?

SK: How many hours a week - including overtime - do you work on average in paid job(s)? If you have more employers, or if you work as self employed too, state the total number of hours worked.

SR: How many hours, on average, do/ did you usually work for pay in a normal week in your first/ current/ last job, including overtime?

TH: How many hours on average do you usually work for a pay in a week? Write __ hours per week (if R works for more than one employer, or is both employed and self-employed, refer to main job; if R temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike etc. refer to normal situation).

TW: How many hours in total do you work per week, on average, including overtime?

US: How many hours did you work last week, at all jobs? (If with a job but not at work because of temporary illness, vacation, strike) How many hours a week do you usually work, at all jobs?

ZA: How many hours do/ did you normally work a week (in your main job)?

0 NAP (Code 2 or 3 in WORK)

1 One hour

96 96 hours and more

98 Don't know

99 No answer

in Great Britain (GB-GBN):

95 95 +

98 Don't know incl. varies too much

in Unites States (US):

89 89 or more hours

Note:

/ CH: This question is asked also to people having worked in the past (code 2 in WORK). They are removed for the ISSP target variable WRKHRS.

/ ES: The Spanish questionnaire for ISSP 2017 includes an instruction for interviewers to refer questions belonging to variables WRKHRS, EMPREL, NEMPLOY, WRKSUP, NSUP, TYPORG1/2, and ISCO08 to the main wage earner in the household only if the respondent has never worked. These data are not included here.

/ IS: Originally, this variable included decimal numbers, but the numbers were retrospectively rounded to whole numbers following the ISSP standards for this variable.

WRKHRS

EMPREL - Employment relationship

BVQ_07. EMPREL

Are/ were you an employee, self-employed, or working for your own family's business?

.....

AT: What is/ was your employment status?

AU: Are/ were you an employee, self-employed, or working for your own family's business?

CH: Are/ were you an employee, self-employed, or working for your own family's business? (All following questions about work concern your main work, unless stated differently.)

CN: Which of the following situation is most suitable to your employment status now?/ Which of the following situation is the most suitable to your employment status of the last non agriculture job?

CZ: Now I would like to learn about what you currently do. What is your current economic status, main source of subsistence?

DE: Please classify your (last) occupational status according to this card.

DK: Are/ were you in public or private employment or self-employed? Do/ did you have any employees?

ES: Do/ did you work as...?

FI: Are/ were you ...? How many employees there are/ were in your enterprise, not counting yourself? If you have more than one employer or if you are both employed and entrepreneur/ self-employed, answer according to your main job. If you are currently not in paid work or if you are retired/ pensioner, please answer according to your last job. Own-account workers and tradespeople are counted as self-employed.

FR: EMPREL is computed from WRKTYP (R: Working for private sector, public sector or self-employed) and NEMPLOY (Self employed: how many employees).

GB-GBN: In your (main) job are you (were you/ will you be) ...? In your work or business, do (did/ will) you have any employees, or not? (If yes) How many? (Family members may be employees only if they receive a regular wage or salary.)

HR: In the work that you do or have been doing, are/ were you: (If the respondent works for more than one employer, or if he/ she is both employed and self-employed, the answer relates to the job that the respondent is considered his/ her 'main' employment. If the respondent is retired or not currently working, the answer relates to the last employment.)

HU: Derived from 'Are you currently working/ retired?' and 'What is/ was your (last) position or job?' and 'Are you employed by your own family business?' and 'How many employees/ subordinates do/ did you have?'

IL: Are/ were you an employee, self-employed, or working for your own family's business?

IN: Are/ were you an employee, self-employed, or working for your own family's business? (If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to you last main job.)

IS: Are/ were you an employee, self-employed, or working for your own family's business?

JP: Are/ were you an employee, self-employed, or working for your own family's business? Circle one figure only.

LT: Are/ were you an employee, self-employed, or working for your own family's business? If you are working in more than one job or you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

MX: Are you or were you an employee with salary, self-employed worker or do you work in a business/ company of your own family?

NZ: Derived from 'Which one of these categories best describes your current employment status?' and 'Which one category best describes for whom you work/ worked?' and 'If self-employed, how many employees do you have?'

PH: Are/ were you an employee, self-employed, or working for your own family's business? If you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

RU: What type of enterprise, organization are you working for in your main job (or your last main job)?

SE: Are you an employee, self-employed, or working for your own family's business? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

SI: Are/ were you employed (work for an employer), self-employed or do/ did you work for your own family's business?

SK: Are/ were you an employee or an entrepreneur, sole trader or do/ did you work for a family business?

SR: The following questions refer to your first job. At what type of organization did you work in your first job?/ (If R had any other jobs after this first job) The following questions refer to your current/ last job. At what type of organization do/ did you work in your current/ last job? (No side jobs as a scholar/ student. Hustling is also a job.)

TH: Are you an employee, self-employed or working for your own family's business? (Ask if R is currently in paid work or had paid work in the past.)

TW: Are/ were you self-employed or an employee?

US: Are/ were you self-employed or do/ did you work for someone else? (If self-employed) Number of employees: ____: (WRKSLFFAM: Do you work in your own family business or farm)?

ZA: Are/ were you an employee, self-employed or working for your own family's business?

0 NAP (Code 3 in WORK)

1 Employee

2 Self-employed without employees

3 Self-employed with employees

4 Working for own family's business

8 Don't know

9 No answer

in Spain (ES):

8 Incl. other

Note:

/ CN: High number of missing values due to the fact that agriculture work is not considered as paid work and people currently working on agriculture/ worked but never did non-agricultural work in the past are filtered out.

/ DE: If respondent is a farmer with less than 50 ha, he/ she is coded as self-employed without employees; if farmer with 50 ha and above then coded as self-employed with employees.

/ ES: The Spanish questionnaire for ISSP 2017 includes an instruction for interviewers to refer questions belonging to variables WRKHRS, EMPREL, NEMPLOY, WRKSUP, NSUP, TYPORG1/2, and ISCO08 to the main wage earner in the household only if the respondent has never worked. These data are not included here.

/ GB-GBN: If R is self-employed and the number of employees is 0, coded as 'Self-employed without employees'. Category 4 'Working for own family's business' can't be computed.

/ NZ: Those self-employed with MISSING for number of employee were coded 'No employee'. Due to the fact that this question has not been directly asked to all respondents but encoded based on the answers to the questions for MAINSTAT and TYPORG2, information for some respondents is missing. Thus the number of missing answers is quite high.

/ RU: EMPREL, TYPORG1 and TYPORG2 are derived from the same question.

SR: The following questions refer to your first job. At what type of organization did you work in your first job?/ (If R had any other jobs after this first job) The following questions refer to your current/ last job. At what type of organization do/ did you work in your current/ last job? (No side jobs as a scholar/ student. Hustling is also a job.)

/ SR: Hustling is typical for Suriname; in the Surinamese situation hustling means working without a contract. For example: somebody who sells on the street, or who works as a cleaning women for a private person.

/ TW: EMPREL, TYPORG1 and TYPORG2 were derived from the same question.

NEMPLOY - Self-employed: how many employees

BVQ_08. NEMPLOY

(If self-employed with employees)

How many employees do/ did you have, not counting yourself?

.....

AT: How many employees do/ did you have?

AU: How many employees do/ did you have, not counting yourself?

CH: How many employees do/ did you have, not counting yourself?

CN: Derived from 'Which of the following situation is most suitable to your employment status now?' and 'Which of the following situation is the most suitable to your employment status of the last non agriculture job?'.

CZ: How many employees do/ did you have?

DE: Not asked.

DK: How many employees do/ did you have?

ES: Approximately, how many employees do/ did you have, excluding yourself?

FI: How many employees are/ were there in your enterprise, not counting yourself?

FR: If you are self-employed, how many employees are working for you?

GB-GBN: In your work or business, do (did/ will) you have any employees, or not? (If yes) How many? (Family members may be employees only if they receive a regular wage or salary.)

HR: How many employees do you have, not counting yourself?

HU: How many employees/ subordinates do/ did you have?

IL: How many employees do/ did you have, not counting yourself?

IN: How many employees do/ did you have, not counting yourself?

IS: How many employees do/ did you have, not counting yourself?

JP: How many employees do/ did you have, not counting yourself?

LT: How many employees do/ did you have, not counting yourself?

MX: How many employees do you currently have or had in the past without counting yourself?

NZ: If self-employed, how many employees do/ did you have?

PH: How many employees do/ did you have, not counting yourself?

RU: How many people work for you, not counting yourself, but considering your family members?

SE: How many employees do you have, not counting yourself?

SI: How many people do/ did you employ (excluding yourself)?

SK: How many employees do/ did you have? (Tell me the average number or your assessment.)

SR: Did you supervise other employees in your first job? If so, how many other employees do/ did you supervise directly or indirectly?/ (If R had any other jobs after this first job) Do/ did you supervise other employees in your current/ last job? How many other employees do/ did you supervise directly or indirectly?

TH: If you work self-employed with employees, how many employees do you have? Write in the number of employees: ____ persons.

TW: How many employees do/ did you have?

US: (IF YES) Number of employees: ____/ How many employees do/ did you have?

ZA: How many employees do/ did you have, not including yourself?

9 6-11 subordinates

19 12-25 subordinates

30 >25 subordinates

Note:

/ CN: High number of missing values due to the fact that agriculture work is not considered as paid work and people currently working on agriculture/ worked but never did non-agricultural work in the past are filtered out.

/ ES: The Spanish questionnaire for ISSP 2017 includes an instruction for interviewers to refer questions belonging to variables WRKHRS, EMPREL, NEMPLOY, WRKSUP, NSUP, TYPORG1/2, and ISCO08 to the main wage earner in the household only if the respondent has never worked. These data are not included here.

/ NZ: Due to the high number of missings answers in EMPREL (see note for New Zealand in EMPREL), the number of missing answers is also quite high for NEMPLOY.

/ SE: Part of EMPREL, code 3 'Self-employed with employees'.

/ SR: The questionnaire offered a list with ranges of employee numbers; midpoints are coded.

WRKSUP - Supervise other employees

BVQ_09. WRKSUP

Do/ did you supervise other employees?

.....

AT: Is it or was it one of your responsibilities to guide other employees or oversee their work?

AU: Do/ did you supervise other employees?

CH: (If not self-employed without employees) Do/ did you supervise the work of other people, directly or indirectly? (Do not include apprentices.)

CN: What is the situation of your administrative activity?/ In your last non agriculture job, what is the situation of your administrative activity?

CZ: Do/ did you supervise any employees in your current/ last main job? (If the respondent is employed and self-employed at the same time, ask about the main job.)

DE: Do/ did you supervise other employees?

DK: Do/ did you have a managerial function?

ES: Do/ did you supervise or are/ were you responsible for the work of other people/ employees?

FI: Do you work in a supervisory position, i.e., do/ did you have subordinates?

FR: In your current job or your last job, do/ did you supervise the work of any other people?

GB-GBN: In your job, do (did/ will) you have any formal responsibility for supervising the work of other employees (people)? (Do not include people who only supervise: Children, e.g. teachers, nannies, childminders; animals; security or buildings, e.g. caretakers, security guards).

HR: Are you currently (or have you been in the past) supervising the work of other employees? (If the respondent works for more than one employer, or if he/ she is both employed and self-employed, the answer relates to the job that the respondent considers his/ her 'main' employment. If the respondent is retired or not currently working, the answer relates to the last employment.)

HU: Derived from 'Are you currently working/ retired?' and 'What is/ was your (last) position or job?' and 'Are you employed by your own family business?' and (If self-employed or manager) 'How many employees/ subordinates do/ did you have?'

IL: Do/ did you supervise other employees?

IN: Do/ did you supervise other employees?

IS: Do/ did you supervise other employees? That means supervising and being responsible for other employees' tasks.

JP: Do/ did you supervise other employees?

LT: Are you/ have you been responsible for carrying out the work of other employees?

MX: In the fulfillment of your current job or the last one where you worked, does it include the supervision of other people's work?

NZ: In that occupation, do/ did you supervise, or are/ were you responsible for, the work of any other people?

PH: Do/ did you supervise other employees? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

RU: Do/ did you supervise other employees?

SE: Do you supervise other employees? If you are retired or not currently working, please refer to your last main job.

SI: Do you supervise now or have you ever before supervised someone at work?

SK: In your main job, do/ did you have any subordinates or are/ were you responsible for the work of others?

SR: Did you supervise other employees in your first job? If so, how many other employees do/ did you supervise directly or indirectly?/ (If R had any other jobs after this first job) Do/ did you supervise other employees in your current/ last job? How many other employees do/ did you supervise directly or indirectly?

TH: Do you supervise other employees? (If R worked in the past, ask whether R supervised other employees.)

TW: Derived from 'How many employees do/ did you supervise at your job (or your most recent job)?'

US: In your job, do you supervise anyone who is directly responsible to you?

ZA: Do/ did you supervise the work of any other people?

TYPORG1 - Type of organization, for-profit/ non profit

BVQ_11. TYPORG1

Do/ did you work for a for-profit organization or for a non-profit organization?

.....

AT: Not asked.

AU: Do/ did you work for a for-profit organisation or for a non-profit organisation?

CH: (If working as an employee or for own family's business) Do/ did you work for a for-profit organisation or a non-profit organisation? (If self-employed) Is/ was your enterprise a for-profit organisation or a non-profit organisation?

CN: What is the type of the work unit (or company) with which you are affiliated now?/ What is the type of the work unit (or company) with which you are affiliated of your last non agriculture job?

CZ: Do/ did you work in for-profit or non-profit organisation? (For-profit organisation means limited liability company, private joint stock company, cooperative, profit-seeking-state-owned business etc. Non-profit organisation means non-profit non-governmental organisation, foundation, public benefit corporation, public administration, local administration, public institution like hospitals, public schools, libraries, police, the military.)

DE: Do/ did you work for a for-profit organisation or for a non-profit organisation?

DK: Is the purpose of the business you work in to generate a financial profit, or is it a 'non-profit' business/ organization?

ES: Do/ did you work in a company or firm working for profit or in a non-profit organization?

FI: Do/ did you work for a for-profit enterprise or for a non-profit organisation?

FR: TYPORG1 is computed from WRKTYP (R: Working for private sector, public sector or self-employed).

GB-GBN: Which of the types of organisation on this card do you work (did you work/ will you be working) for?

HR: Are you currently employed (or have been employed in the past) in an organization the main work of which can be described as: (The profit designation is NOT related to the current economic situation and business success of an organization. Examples of profit organizations are those working as a private company, but also those working as a public enterprise that generates income for the owners (HEP, the Croatian forest...). An example of people working in a non-profit organization would be teachers and doctors in the state sector, whereas teachers and doctors in private schools, clinics and hospitals should be classified as working in profit companies.)

HU: Derived from 'What is/ was the business form of your employer?' and 'Are/ were you a public official, employed by a government-owned or local council owned company, or employed elsewhere?'

IL: Do/ did you work for a for-profit organization or for a non-profit organization?

IN: Do/ did you work for a for-profit organisation or for a non-profit organisation?

IS: Do/ did you work for a for-profit organisation or for a non-profit organisation? Most private companies are run as for-profit companies. Charities and public institutions such as educational and health services are examples of non-profit organizations.

JP: Do/ did you work for a for-profit organization or for a non-profit organization?

LT: Do/ did you work for a for-profit organization or for a non-profit organization? (Non-profit organizations are public agencies, associations, charity and support funds, home owners' communities, political parties, trade unions, organizations of artists and other organizations.)

MX: Do you work or did you in your last job work for a for-profit organization or for a non-profit organization?

NZ: Which one category describes for whom you work/ worked?

PH: Do/ did you work for a profit or for a non-profit organization? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

RU: What type of enterprise, organization do you work for as the main job (or working on the last main job)?

SE: Do you work for a for-profit organisation (e.g., for a company) or for a non-profit organisation (e.g., an org. in the public's interest or non-profit organisation [sic])? If you are retired or not currently working, please refer to your last main job.

SI: Do/ did you work for a for-profit or for a non-profit organization?

SK: Would you say that the organization you work/ worked for is profit-oriented, or is it not?

SR: The following questions refer to your first job. At what type of organization did you work in your first job?/ (If R had any other jobs after this first job) The following questions refer to your current/ last job. At what type of organization do/ did you work in your current/ last

job?

TH: Do you work for a for-profit organization or non-profit organization? (If R is retired or not currently working, refer to last main job.)

TW: Derived from 'Are/ were you self-employed or an employee?'

US: Do you work for a for-profit company, a non-profit or not-for-profit organization, or for the government or a government agency?

ZA: Do/ did you work for a for-profit organization or for a non-profit organization?

0 NAP (Code 3 in WORK)

1 For-profit organization

2 Non-profit organization

8 Don't know

9 No answer

in Austria (AT):

0 Not available

in Great Britain (GB-GBN):

8 Don't know incl. other type of organization

in Unites States (US):

0 NAP (Code 2, 3 in WORK)

2 Non-profit organization incl. work for the government or a governmental agency

Note:

/ CN: High number of missing values due to the fact that agriculture work is not considered as paid work and people currently working on agriculture/ worked but never did non-agricultural work in the past are filtered out.

/ DK: Due to a filtering error in the questionnaire, all respondents who answered that they are employed in the public sector (answer code 1 of three answer codes of the original question establishing code 1 in EMPREL) were not directly asked about the purpose of the business they work in. This has been compensated for by imputing the value 2 for 'Non-profit organisation' for these respondents for the variable TYPORG1.

/ ES: Due to filtering in the Spanish original questionnaire respondents working in public administration were not asked about TYPORG1, but afterwards assigned to code 2 'Non-profit organization'.

/ ES: The Spanish questionnaire for ISSP 2017 includes an instruction for interviewers to refer questions belonging to variables WRKHRS, EMPREL, NEMPLOY, WRKSUP, NSUP, TYPORG1/2, and ISCO08 to the main wage earner in the household only if the respondent has never worked. These data are not included here.

/ FR: The data includes self-employed as for-profit.

/ GB-GBN: The data includes self-employed as for-profit.

/ NZ: For-profit includes overseas-owned private sector companies or firms + NZ-owned private sector companies or firms + working for own family's business + self-employed. Non profit includes public sector organisations (e.g. government department, local authority, state-owned enterprise) + non-profit/ charity/ welfare organisations.

/ RU: EMPREL, TYPORG1 and TYPORG2 are derived from the same question.

/ SR: Answer codes were derived from the same questions as for EMPREL and TYPORG2.

/ TW: EMPREL, TYPORG1 and TYPORG2 were derived from the same question.

/ US: In the US questionnaire, there has been a third category 'Government or governmental agency' besides the two categories 'For-profit organization' and 'Non-profit organization'. The 111 respondents of the category 'Government or governmental agencies' have been a posteriori encoded to code 2 'Non-profit organization' at the stage of data harmonization during the integration procedures.

TYPORG2 - Type of organization, public/ private

BVQ_12. TYPORG2

Do/ did you work for a public or a private employer?

.....

AT: Where are you currently employed resp. where were you employed the last time?

AU: Do/ did you work for a private or a public employer?

CH: Do/ did you work for a public or a private employer?

CN: What is the ownership type of the work unit (or company) with which you are affiliated now?/ What is the ownership type of the work unit (or company) with which you are affiliated of your last non agriculture job?

CZ: Do/ did you work in public or private organisation?

DE: Do/ did you work in the public service resp. in an enterprise mostly in public ownership or do/ did you work for a private employer?

DK: Are/ were you in public or private employment or self-employed?

ES: Do/ did you work in the Public Administration, in a public company, in a private company, or in house-keeping?

FI: Do/ did you work in the public or in the private sector?

FR: TYPORG2 is computed from WRKTYP (R: Working for private sector, public sector or self-employed).

GB-GBN: Which of the types of organisation on this card do you work (did you work/ will you be working) for?

HR: Do/ did you work in the public sector or the private sector? (The public sector includes all government and public services as well as public enterprises that are at least 50% owned by the state.)

HU: Are/ were you a public official, employed by a government-owned or local council owned company, or employed elsewhere?

IL: Do/ did you work for a public or a private employer?

IN: Do/ did you work for a public or a private employer?

IS: Do/ did you work for a public or a private employer?

JP: Do/ did you work for a public or a private employer?

LT: Are/were you working in the public sector or in the private sector?

MX: Do you work or did you in your last job work for a public or for a private organization/ company?

NZ: Which one category describes for whom you work/ worked?

PH: Do/ did you work for a public or a private employer? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

RU: What type of enterprise, organization do you work for as the main job (or working on the last main job)?

SE: Do you work for a public or private employer? If you are retired or not currently working, please refer to your last main job.

SI: Do/ did you work in the public or private sector?

SK: Do/ did you work for an employer from the public (state) or from the private sector?

SR: The following questions refer to your first job. At what type of organization did you work in your first job?/ (If R had any other jobs after this first job) The following questions refer to your current/ last job. At what type of organization do/ did you work in your current/ last job?

TH: Do you work for a public or a private organization? (If R is retired or not currently working, refer to last main job.)

TW: Derived from 'Are/ Were you self-employed or an employee?'

US: Are/ were you employed by the federal, state or local government or by a private employer (including non-profit organizations)?

ZA: Do/ did you work for a public or private employer?

0 NAP (Code 3 in WORK)

1 Public employer

2 Private employer

8 Don't know

9 No answer

in Spain (ES):

2 Private company + House-keeping

8 Don't know + Other

in Great Britain (GB-GBN):

8 Don't know incl. other type of organization

in Unites States (US):

1 Federal, state or local government

2 Private employer (including non-profit organizations)

Note:

/ CH: Asked only for employees, self-employed and respondents working for own family's business were recoded on 'Private employer' in TYPORG2 a posteriori.

/ CN: High number of missing values due to the fact that agriculture work is not considered as paid work and people currently working on agriculture/ worked but never did non-agricultural work in the past are filtered out.

/ DK: The question above was used to build the answer categories for TYPORG2, as well as for the generation of the basic answer codes for EMPREL.

/ ES: The Spanish questionnaire for ISSP 2017 includes an instruction for interviewers to refer questions belonging to variables WRKHRS, EMPREL, NEMPLOY, WRKSUP, NSUP, TYPORG1/2, and ISCO08 to the main wage earner in the household only if the respondent has never worked. These data are not included here.

/ FR: The data includes self-employed as private.

/ GB-GBN: The data includes self-employed as private.

/ RU: EMPREL, TYPORG1 and TYPORG2 are derived from the same question.

/ SR: Answer codes were derived from the same questions as for EMPREL and TYPORG1.

/ TW: EMPREL, TYPORG1 and TYPORG2 were derived from the same question.

ISCO08 - Occupation ISCO/ ILO 2008

BVQ_13. ISCO08

What is/ was your occupation - i.e., what is/ was the name or title of your main job?

In your main job, what kind of activities do/ did you do most of the time?

What does/ did the firm/ organisation you work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at your workplace?

.....

AT: What kind of occupation do/ did you do? (If you have more than one job please consider your main job). Please tell me the exact name of your job.

AU: What is/ was your occupation - i.e., what is/ was the name or title of your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/organisation you work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at your workplace?

CH: What is/ was your current/ last occupation? In your main job, what kind of activities do/ did you do most of the time? In what sector is/ was the company you are working for mainly active? What is/ was its main activity?

CN: What is your specific job now?/ What is your specific job of your last non agriculture job?

CZ: What is/ was your current/ last occupation, what kind of activity do/ did you do in it: a) Job title b) Job description c) Main activity of the organisation. (For self-employed persons, specify industry/ subject of activity. If respondent states having (had) several occupations, ask about his/ her main job - the one in which the respondent spends the most hours.)

DE: What work do you do in your main job? Does this job, this work have a special name? Until what year were you in full to 'half' time employment or have you never been in full to 'half' time employment? What work did you do in your last main job? Does this job, this work have a further special name?

DK: State your current or latest job (your working title), and describe what your main tasks are/ were on your workplace:

ES: And which was your last occupation or job? That is, what does/ did your work consist on, specifically? We are referring to your main occupation: the one for which you obtain/ obtained your highest earnings.

FI: What is your current or latest occupation? (Please write in your job title as specifically and clearly as possible. Write in the job title, not qualification/ degree.) What are or were your main activities at work? What does/ did the company or organisation for which you work/ worked mainly do/ make?

FR: If you are working, what is your current occupation? If you don't have a job, what was your last occupation?

GB-GBN: Now I want to ask you about your present (last/ future) job. What is (was/ will) your job (be)? What is (was) the name or title of the job? What kind of work do (did/ will) you do most of the time? What materials/ machinery do (did/ will) you use? What training or qualifications are (were) needed for that job?

HR: What is your occupation? Please state the exact title your job and your occupation. Describe what you do; what are your main tasks.

What are the educational and professional requirements for your job? (If respondent is currently not employed, retired or unemployed, ask for the last employment he/ she has had.)

HU: What is/ was your job?

IL: What is/ was your occupation - i.e., what is/ was the name or title of your main job? Your occupation is/ was: ... In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organization you work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at your workplace?

IN: What is/ was your occupation - i.e., what is/ was the name or title of your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organisation you work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at your workplace?

IS: What is/ was your occupation - i.e., what is/ was the name or title of your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organization you work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at your workplace?

JP: Please give details about the main type of work you are engaged in (e.g. bus driver, delivery worker, working at a construction site, car

mechanic, working at a general affairs section in a municipal office, a Japanese teacher at junior high school, a salesperson of printing equipment, working at a cashier desk of a supermarket, counter operations for a bank, computer programmer).

LT: What is/ was your occupation - i.e., what is/ was your functions in your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organization you work/ worked for mainly make or do - i.e., what kind of production/ function/ service is/ was performed at your workplace?

MX: Which is your current occupation (or last work)? As much detailed as possible.

NZ: What is your main occupation? If you have more than one job, please give the occupation for the job in which you spend the most time. Please describe fully, e.g. builders' labourer not labourer, etc. If you are retired, or not working for pay now, please describe your last regular paid job.

PH: What is/ was your occupation - i.e., what is/ was the name or title of your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organization you work/ worked for mainly make or do - i.e. what kind of production/ function is/ was performed at your workplace? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

RU: What is/ was your occupation - i.e., what is/ was the name or title of your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organisation you work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at your workplace?

SE: What is your occupation? If you are retired or not currently working, please refer to your last main job. In your main job, what kind of activities do you do most of the time? What kind of production/ function is performed at your current or previous workplace?

SI: What profession or work do you do now? If not employed: What was your last profession before retirement or losing your job? If you have more than one job, tell us about your main job. (a) Tell detailed name of your position at work and exact profession; b) Describe what do you do, what are your main duties; c) What is the main activity of your work organization?)

SK: Please, write the name of your main occupation. Include detailed description of your working activity: what is your principal activity, responsibility etc. If you are/ were self-employed or entrepreneur, please, specify the area of your business.

SR: What was your first occupation?/ (If R had any other jobs after this first job) What is/ was your current/ last occupation? (If no answer to open questions, the answer to the showcard question was taken including 11 different work types.)

TH: What is your occupation? (Write in and describe R's occupation, main activities, and main function of R's workplace? Then, code 4-digit according to ISCO08.)

TW: What is your main occupation (at present, or prior to retirement)? a. Full name of the company ____, main product or service ____. b. Division ____, Position ____. Detailed job description ____.

US: What do/ did you actually do in that job? Tell me, what are/ were some of your main duties?

ZA: What is your current occupation (The name and title of your main job)?

9998 Don't know, inadequately described
9999 No answer

Note:

/ CN: High number of missing values due to the fact that agriculture work is not considered as paid work and people currently working on agriculture/ worked but never did non-agricultural work in the past are filtered out.

/ CZ: ISCO08 was coded from three text variables describing the job. Some jobs were coded using 5-digit extended CZ-ISCO, see https://www.czso.cz/csu/czso/klasifikace_zamestnani_cz_isco-. Recoding into 4-digit ISCO-08 (unit groups) was made where necessary.

/ DE: Constructed from respondent's current occupation. If respondent currently not employed or part time employed but employed in the past, then last occupation taken.

/ ES: The Spanish questionnaire has a double coding of occupation: ISCO08-ILO and the Spanish National Classification of Occupations (CNO-11), which is an official adaptation of ISCO08.

/ ES: The Spanish questionnaire for ISSP 2017 includes an instruction for interviewers to refer questions belonging to variables WRKHRS, EMPREL, NEMPLOY, WRKSUP, NSUP, TYPORG1/2, and ISCO08 to the main wage earner in the household only if the respondent has never worked. These data are not included here.

/ FR: French classification of the occupations and the socioprofessionnal categories (PCS 2003) used, then transferred into ISCO 2008.

/ GB-GBN: Where the frequency of any 4-digit ISCO code in the ISSP dataset is less than 5, the code is reduced to 2 digits.

/ NZ: The occupation was manually coded into ISCO08, independent from manual coding into ANSCO1. For those who did not answer, where possible, their occupations were coded from the initial sampling information of the electoral roll was used instead. The variable was included based on a match of respondent ID.

/ SR: Open question, verbatim answers were coded into ISCO-88, then transferred into ISCO-08.

/ US: US Census 2010 codes recoded to ISCO08.

MAINSTAT - Main status

BVQ_14. MAINSTAT

Which of the following best describes your situation?

If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

.....

AT: Predominantly, are you currently...?

AU: Which of the following best describes your current situation? If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

CH: Which one of the following best describes your current situation? (If respondent is temporarily not working because of temporary illness/ parental leave/ vacation/ strike etc., refer to normal work situation.)

CN: Did you work for more than one hour for income last week?/ What was the reason you didn't work the last week?

CZ: Which of the following options best describes your job position?

DE: Which of the following best describes your current situation? If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

DK: Are you currently employed?

ES: Which of the following situations is closest to your own? If you hesitate, choose the one you consider your main activity/ situation. If you are on holiday or on temporary leave, please refer to your normal situation.

FI: Which of the following best describes your current situation? If you are temporarily away from paid work because of parental or other leave, unpaid leave or some other similar reason, please answer according to your normal work situation.

FR: Currently, which one of those situations best fits you?

GB-GBN: Which of these descriptions applied to what you were doing last week, that is the seven days ending last Sunday? Which others? (Multicoded question, see note for Great-Britain below.)

HR: What is your employment status (which best describes your current situation)?HU: Derived from 'Are you currently working/ retired?' and 'Are you looking for a job?' and 'Are you working as an apprentice or as a trainee?' and (If pensioner) 'Are you an old-age or widowed pensioner/ a disabled pensioner?'

HU: Derived from 'Are you currently working/ retired?' and 'Are you looking for a job?' and 'Are you working as an apprentice or as a trainee?' and (If pensioner) 'Are you an old-age or widowed pensioner/ a disabled pensioner?'

IL: Which one of the following best describes your current situation?

IN: Which of the following best describes your current situation? If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

IS: Which of the following best describes your current situation? If you are temporarily without a paid job due to an illness, a maternity/ paternity leave, a vacation, a strike etc., please answer according to the situation that usually applies to you.

JP: Which of the following best describes your current situation? Circle one figure only. If you temporarily are not working because of temporary illness/ parental leave/ vacation/strike etc., please refer to your normal work situation.

LT: Which of the following best describes your current situation? If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

MX: What is your current situation?

NZ: Which one of these best describes your current employment status?

PH: Which of the following best describes your current situation? If you temporarily are not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., please refer to your normal work situation.

RU: Derived from 'Do you have a paid work (including work as an employee for private persons or your own business and also maternity leave or child rearing leave)? And if no - have you ever had paid work in the past or have you never had paid work?' and '(If R is currently out of labor force) What is your main status?'

SE: Which of the following best describes your current situation? If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

SI: What from the list best describes your current position?

SK: Which of the following answers best describes your current situation? If you are currently not in paid work due to maternal/ parental leave, illness, holidays or similar, please answer on your situation in usual circumstances.

SR: What is currently your main activity? If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

TH: Which of the following best describes your situation? (If R temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike etc. refer to normal situation).

TW: Do you currently have a job?

US: Last week were you working full time, part time, going to school, keeping house, or what?

ZA: Not asked.

- 1 In paid work
- 2 Unemployed and looking for a job
- 3 In education
- 4 Apprentice or trainee
- 5 Permanently sick or disabled
- 6 Retired
- 7 Domestic work
- 8 In compulsory military service or community service
- 9 Other
- 99 No answer

in Austria (AT):

- 9 Not working for other reasons including on maternity leave

in Czech Republic (CZ):

- 9 Other incl. on maternal or parental leave

in France (FR):

- 8 In civic service

in Russia (RU):

- 9 Other incl. unemployed and not looking for a job

in Thailand (TH):

- 99 No answer incl. don't do anything

in South Africa (ZA):

- 0 Not available

Note:

/ AU: Category 8 'In compulsory military service or community service' not used.

/ CZ: It is common in the Czech context to take advantage of a relatively long maternity leave (28 weeks) and parental leave (until child turns 3), therefore persons on maternity/ parental leave were not treated as economically active unless they are simultaneously working for pay for at least one hour per week.

/ DE: Code 8 'In compulsory military service or community service' not used.

/ ES: Category 8 'In compulsory military service or community service' not used.

/ GB-GBN: This is a multicode question, which decide 'main status' by priority coding to the closest to code 1 in the original set (e.g. education would have priority over unemployed). Category 8 'In compulsory military service' was not used.

/ HR: Category 8 'In compulsory military service' not used.

/ HU: Category 8 'In compulsory military service or community service' not used.

/ IN: Category 8 'In compulsory military service or community service' not used.

/ IS: Category 8 'In compulsory military service' not used.

/ JP: Category 8 'In compulsory military service' not used.

/ RU: MAINSTAT is based on WORK and a question about the current main status if currently out of labor force.

/ SE: Category 8 'In compulsory military service or community service' not used.

/ SI: There is no compulsory military or community service in Slovenia (code 8 not used).

/ SK: Code 8 'In compulsory military service or community service' not asked, does not exist in Slovakia.

/ US: Code 4 'Apprentice or trainee' and code 8 'In compulsory military service or community service' were not used in the US data. Code 5 'Permanently sick or disabled' was coded from verbatim responses given in 'Other (SPECIFY)'.

PARTLIV - Living in steady partnership

BVQ_15. PARTLIV

Do you have a spouse or a steady partner and, if yes, do you share the same household?

.....

AT: Do you currently live together with your husband/ wife or your spouse? Or do you have a partner but don't live in the same household?

AU: Do you have a spouse or a partner and, if yes, do you share the same household?

CH: Do you have a partner, whether you are married or not? Do you currently live with this partner? (At least two days per week, in average, or who is temporarily absent but expected to return to live there.)

CN: Derived from 'What's your marital status now?'

CZ: Do you have a steady partner or wife/ husband and if yes, do you live in the same household?

DE: What is your marital status? Are you...? (If not 'Married and living with spouse' or 'Civil partnership and living together') Do you have a steady partner (A steady partner also means a partner one does not live with.)?

DK: Do you have a spouse or partner, and if so, are you living in the same household?

ES: Which of the following applies best to your current situation?

FI: Are you married, cohabiting or in a registered civil partnership and do you live together?

FR: Currently, do you have a spouse or steady partner and, if yes, do you share the same household?

GB-GBN: Not asked.

HR: Do you have a husband/ wife (are you married) or do you have a steady partner (unmarried)? If so, do you live in the same household?

HU: Derived from 'What is your marital status?' and 'Are you living with a partner?'

IL: Do you have a spouse or a steady partner and, if yes, do you share the same household?

IN: Do you have a spouse or a steady partner and, if yes, do you share the same household?

IS: Do you have a spouse or a steady partner and, if yes, do you share the same household?

JP: Do you have a spouse or a steady partner and, if yes, do you share the same household?

LT: Do you have a spouse or a steady partner? If yes, do you share the same household?

MX: Do you have a steady partner and if so, do you live with him?

NZ: (If married, in civil union or in de facto-relationship) Do you live with your partner?

PH: Do you have a spouse or a steady partner and, if yes, do you share the same household?

RU: What is your marital status?

SE: Do you have a steady partner and, if yes, do you share the same household?

SI: Are you married or do you have a steady partner? Do you share a common household?

SK: Do you have a steady partner, a husband/ spouse?

SR: Do you have a spouse or a steady partner and, if yes, do you share the same household?

TH: Do you have a spouse or a steady partner? If yes, do you share the same household?

TW: Derived from MARITAL 'What is your current marital status?'

US: Which of these statements applies to you?

ZA: Do you have a spouse/ partner and if yes, do you live in the same household?

- 1 Yes, have partner; live in same household
- 2 Yes, have partner; don't live in same household
- 3 No partner
- 7 Refused
- 9 No answer

in China (CN):

- 1 Including: Cohabit/ Married and having a spouse/ Remarried and having a spouse
- 2 Including: Separation but not divorced
- 3 Including: Not married yet/ Divorced/ Widowed

in Great Britain (GB-GBN):

- 0 Not available

in Taiwan (TW):

- 1 Including: Married, and we share the same household/ Cohabiting
- 2 Including: Married, but we don't share the same household
- 3 Including: Single and never married/ Divorced/ Separated/ Widowed

Note:

/ CH: For ISSP 2017 (and ISSP 2016, both modules were carried out together), the question wording has been changed after data verification in order to address also not married people that have a partner.

/ NZ: PARTLIV was filtered by MARITAL (only married respondents, respondents in civil union or in de facto-relationship were asked whether they live with their partner). Thus, 'No partner' (code 3) was no answer option in the questionnaire of New Zealand.

/ RU: PARTLIV and MARITAL are derived from the same question. Divorced and widowed respondents are assigned to 'No partner' although they were not asked whether they have a partner/ if they are living with a partner.

/ US: PARTLIV was recoded from the GSS items POSSLQ/ POSSLQY, each of which was asked to half of the ISSP sample. Both items offer identical answers for categories 1 ('I am married and living in the same household as my husband or wife'), 3 ('I have a husband or wife or steady partner, but we don't live in the same household') and 4 ('I don't have a steady partner'). Category 2 is however different (POSSLQ: 'I am living as married and my partner and I together live in the same household'/ POSSLQY: 'I have a steady partner, and we live in the same household').

/ US: The US data does not request further partner information for respondents whose partners (as opposed to spouses) do not cohabitate.

SPWORK - Spouse, partner: currently, formerly or never in paid work

BVQ_16. SPWORK

(If you have a spouse/ partner)

Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

.....

AT: Derived from 'How many hours does your partner usually work every week including overtime?' and (If not working) 'Has your partner ever been employed?'.

AU: Is your partner/ spouse currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work? By work we mean doing income-producing work as an employee, self-employed or working for his/ her own family's business, for at least one hour per week. If he/ she temporarily is not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., please refer to his/ her normal work situation.

CH: Is your spouse/ partner currently working for pay or did he/ she work for pay in the past? (By work we mean doing income-producing work, as an employee or working for your own family's business, for at least one hour per week. If R's spouse/ partner temporarily is not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., refer to normal work situation.)

CN: What is the working experience or employment status of your spouse or partner?

CZ: Is your partner/ spouse currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work? (By work we mean work as an employee, self-employed or working for one's own family's business for at least one hour a week. If respondent is temporarily not working for pay - because of illness, leave, vacation etc. -, he/ she shall respond as if asked under normal circumstances, when in paid work. Do not refer to persons on maternity/ parental leave as working for pay unless they are simultaneously working for pay for at least one hour a week.)

DE: Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

DK: Is your spouse/ partner currently employed? Has your spouse/ partner ever been employed?

ES: Is your spouse/ partner currently working for pay or has he/ she ever had paid work in the past?

FI: Is your spouse/ partner in paid work? Paid work is taken to include working as an employee, own-account worker, self-employed/ entrepreneur or working for your own family's business, for at least one hour a week. If your spouse/ partner is temporarily away from paid work because of parental or other leave, unpaid leave or some similar reason, please answer according to his/ her normal work situation.

FR: What is the situation of your spouse or your steady partner in relation to work?

GB-GBN: Which of these descriptions applied to what your husband (wife/ partner) was doing last week, that is the seven days ending last Sunday? Which others? (Code all that apply - multicoded with a maximum of 11 codes, then priority coded to single variable.) (Ask all those whose spouse/ partner is not working or waiting to take up work) How long ago did your husband (wife/ partner) last have a paid job of at least 10 hours a week? (Government programmes/ schemes do not count as 'paid jobs').

HR: Is or was your spouse/ steady partner working for an income? (Working for an income refers to work of at least one hour per week for which he/ she receives income as an employee, as a self-employed person or as a person working in a family business or on a family farm. If your spouse/ partner does not currently work for pay - due to illness, maternity, annual vacation, strike... - choose his/ her status in relation to the normal situation.)

HU: Derived from 'Is your partner currently working/ retired?' and 'What is/ was your partner's (last) position or job?'

IL: Is your partner/ spouse currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

IN: Is your partner/ spouse currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work? By work we mean doing income-producing work as an employee, self-employed or working for his/ her own family's business, for at least one hour per week. If he/ she temporarily is not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., please refer to his/ her normal work situation.

IS: Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

JP: Is your spouse/ partner currently working for pay, for at least one hour per week? Circle one figure only.

LT: Is your partner/ spouse currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work? By work

we mean doing income-producing work, as an employee, self-employed or working for his/ her own family's business, for at least one hour per week. If he/ she temporarily is not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., please refer to his/ her normal work situation.

MX: Does your spouse/ partner currently have a paid job, did he/ she have one in the past, or has he/ she never had a paid job?

NZ: Which one of these categories best describes your spouse's/ partner's current employment status? (If spouse/ partner currently unemployed, permanently sick, student, doing housework or retired) Has your partner had paid work in the past?

PH: Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

RU: (If married, living with partner but unmarried, living separately from partner and unmarried, living separately from spouse but not divorced)

Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

SE: Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work? By work we mean doing income-producing work, as an employee, self-employed or working for the own family's business. If he/ she temporarily is not working for pay because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

SI: Does/ did your partner have a paid job, or was he/ she never employed?

SK: Is/ was your spouse/ partner currently/ has your spouse/ partner ever been working for pay? (If partner/ spouse is on sickness leave, on maternal leave or similar but otherwise is employed (works) - use code 1 'Currently in paid work'. Currently in paid work includes employees as well as self-employed.)

SR: Is your partner currently working for pay?

TH: The current working status of your spouse? ('Work' means doing income-producing work as an employee, self-employee, or working for own business, for at least 1 hour per week; if R's spouse temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike etc. refer to normal situation.)

TW: Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

US: Derived from 'Last week was your spouse/ [cohabitating] partner working full time, part time, going to school, keeping house, or what?' and 'Did he/ she ever work one year?'

ZA: If you are married or have a partner, is he or she currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

0 NAP (Code 3, 7 in PARTLIV)

1 Currently in paid work

2 Currently not in paid work, paid work in the past

3 Never had paid work

7 Refused

8 Don't know

9 No answer, NZ: NA including no spouse/ partner

in Great Britain (GB-GBN):

0 NAP (Code 3-6 in MARITAL + no partner in household)

in New Zealand (NZ):

0 Not used

9 No answer incl. no spouse/ partner

Note:

/ DK: The answer categories for SPWORK are generated from the answers to the two questions above. The first question offered a long list of answer categories that establish SPMAINST.

/ NZ: Due to the fact that PARTLIV was asked different to the ISSP standard (see note for New Zealand in PARTLIV), married/ partnered respondents cannot be properly filtered from respondents without spouse/ partner. As a consequence, respondents without spouse/ partner are included in code 9 'No answer' in SPWORK.

/ SE: Exactly the same wording for SPWORK as for WORK except that the text refers to partner.

/ US: During the interview, respondents were asked the same question regardless of partner or spouse, with a screener to modify question text. The US data capture all spouse variables regardless of habitation status. The US data, however, capture only information from partners if living together, and not information from non-cohabitating partners. Therefore the number of missing answers might be higher for the US than for other countries.

/ US: The first question depicts SPMAINST.

SPWRKHRS - Spouse, partner: hours worked weekly

BVQ_17. SPWRKHRS

How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime?

If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does.

On average, he/ she works ____ hours a week, overtime included.

.....

AT: How many hours does your partner usually work every week including overtime? Occupational secondary activities should be considered as well. If he or she has more than one job, please report total working hours.

AU: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works for more than one employer or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does.

CH: How many hours, on average, does/ did your spouse/ partner usually work for pay in a normal week, including overtime? (If he/ she works for more than one employer or if he/ she is at the same time employed and self-employed, add the number of hours.)

CN: What is the employment status of your spouse or partner last week?

CZ: How many hours weekly, on average, does your partner/ spouse work in his/ employment employment and, if applicable, in his/ her other paid jobs, including overtime? (If partner works for more than one employer, or if he/ she is both employed and self-employed, please count the total average weekly number of working hours.)

DE: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does.

DK: How many hours does/ did your spouse/ partner normally work in a working week?

ES: How many hours does/ did your spouse/ partner work, on average (including extra hours) per week? Consider all jobs, if she/ he has/ had more than one.

FI: How many hours on average does your spouse/ partner work in a week, including overtime? If he/ she has more than one employer or if he/ she is both employed and self-employed/ entrepreneur, include all hours.

FR: Currently, how many hours does he/ she usually work each week?

GB-GBN: Not asked.

HR: How many hours does your partner usually work in a normal week, including overtime?

HU: How many hours, on average, does your spouse/ partner work in a week? Please include overtime and possible extensions as well.

IL: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime?

IN: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works for more than one employer or if he/ she is both employed and self-employed, please count the number of working hours that he/ she does. (Can be asked 'daily', and result multiplied by 7/ 6/ 5.)

IS: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours he/ she does.

JP: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she has more than one job, count the total number of working hours that he/ she does. If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

LT: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works for more than one employer or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does.

MX: On average, how many hours per week does your spouse/ partner work normally including overtime?

NZ: How many hours do your partner usually work in a week?

PH: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does. If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

RU: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime?

SE: How many hours, on average, does your spouse/ partner usually work for pay in a normal week? (Please include, if any, overtime.) If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does.

SI: On an average week, how many hours does your partner work, including overtime? (If he/ she works for more than one employer and is self-employed at the same time, count all hours that he/ she works.)

SK: How many hours weekly does your spouse/ partner usually work for pay in a week, including overtime? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does.

SR: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime?

TH: How many hours on average does your spouse usually work for pay in a week? Write __ hours per week (if R's spouse works for more than one employer, or is both employed and self-employed, refer to main job; if R's spouse temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike etc. refer to normal situation).

TW: How many hours in total does your spouse (or your cohabitating partner) work per week, on average, including overtime?

US: How many hours did he/ she (spouse, [cohabitating] partner) work last week, at all jobs? How many hours a week does he/ she (spouse, cohabitating partner) usually work, at all jobs?

ZA: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime?

0 NAP (Code 0, 2 or 3 in SPWORK)

1 One hour

96 96 hours or more

98 Don't know

99 No answer

in Great Britain (GB-GBN):

0 Not available

in New Zealand (NZ):

0 NAP (Code 2, 3 in SPWORK)

99 No answer incl. no spouse/ partner

in Unites States (US):

89 89 hours or more

Note:

/ CH: This question is also asked if partner/ spouse worked in the past (code 2 in SPWORK), and then removed for the ISSP target variable SPWRKHRS.

/ IS: Originally, this variable included decimal numbers, but the numbers were retrospectively rounded to whole numbers following the ISSP standards for this variable.

/ NZ: Due to the fact that PARTLIV was asked different to ISSP standard (see note for New Zealand in PARTLIV), married/ partnered respondents cannot be properly filtered from respondents without spouse/ partner. As a consequence, respondents without spouse/ partner are included in code 99 'No answer' in SPWRKHRS.

/ SE: Exactly the same wording for SPWRKHRS as for WRKHRS except that the text refers to partner.

/ US: During the interview, respondents were asked the same question regardless of partner or spouse, with a screener to modify question text. The US data capture all spouse variables regardless of habitation status. The US data, however, capture only information from partners if living together, and not information from non-cohabitating partners. Therefore the number of missing answers might be higher for the US than for other countries.

SPWRKHRS

SPEMPREL - Spouse, partner: employment relationship

BVQ_18. SPEMPREL

Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

.....

AT: Is your partner or was your partner...?

AU: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job.

CH: Is/ was he/ she an employee, self-employed, or working for his/ her own family's business?

CN: Which of the following situation is most suitable to the employment status of your spouse or partner now?

CZ: What is/ was your partner/ spouse's economic status, main source of subsistence? (If a partner is economically active, ask about the main economic activity.)

DE: Please classify your spouse's/ partner's occupational status according to this card. (If spouse/ partner had paid work in the past) Did your spouse/ partner work as an employee, was he/ she self-employed or did he/ she work for the own family's business?

DK: Are/ were your spouse/ partner in public or private employment or self-employed? Do/ did your spouse/ partner supervise or are/ were he/ she responsible for other people's work?

ES: What about your spouse/ partner, does/ did he/ she work as...?

FI: Is/ was your partner...? If your spouse/ partner has more than one employer or if he/ she is both employed and entrepreneur/ self-employed, answer according to his/ her main job. If he/ she is currently not in paid work or is retired/ pensioner, please answer according to his/ her last job. Own-account workers and tradespeople are counted as self-employed.

FR: Is or was he/ she in his/ her last job?

GB-GBN: In your husband's (wife's/ partner's) (main) job is (will) he/ she (be)...?

HR: In the work that your spouse/ partner is doing, is or was he/ she:

HU: Derived from 'Is your partner currently working/ retired?' and 'What is/ was your partners (last) position or job?' and 'Is your partner self-employed?' and 'How many employees/ subordinates does/ did your partner have?'

IL: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

IN: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job.

IS: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

JP: Is/ was your spouse/ partner an employee, self-employed, or working for the own family's business? Circle one figure only.

LT: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business? If he/ she is working in more than one job or he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job.

MX: Is your spouse/ partner an employee with salary, a self-employed worker or a business/ company of your own family?

NZ: Derived from 'Which one of these categories best describes your spouse's/ partner's current employment status?' and 'Which one category best describes for whom your spouse/ partner works/ worked?'

PH: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business? If he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job.

RU: What type of enterprise, organization does she/ he work for in her/ his main job (or did work for in the last main job)?

SE: Is your spouse/ partner an employee, self-employed, or working for his/ her own family's business? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job.

SI: Is/ was your partner employed (working for others), self-employed or does/ did he/ she work in his/ her own family business?

SK: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

SR: At what type of organization does your partner work currently?

TH: Is your spouse an employee, self-employed or working for his/ her own family's business? (Ask if R's spouse is currently in paid work or had paid work in the past.)

TW: Is/ was your spouse (or your cohabitating partner) self-employed or an employee?

US: Is/ was he/ she (spouse, [cohabitating] partner) self-employed or does/ did he/ she (spouse, [cohabitating] partner) work for someone else? (If self-employed) Does/ did he/ she work without employees or does/ did he/ she have employees? Does/ did he/ she work in his/ her own family business or farm?

ZA: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

0 NAP (Code 0, 3 in SPWORK)

1 Employee

2 Self-employed without employees

3 Self-employed with employees

4 Working for own family's business

8 Don't know

9 No answer

in China (CN):

0 NAP (Code 0, 2, 3 in SPWORK)

in Great Britain (GB-GBN):

0 NAP (Code 0, 2, 3 in SPWORK)

5 Self-employed with or without employees

in Hungary (HU):

0 NAP (Code 0, 2, 3 in SPWORK)

in New Zealand (NZ):

0 NAP (Code 3 in SPWORK)

9 No answer incl. no spouse/ partner

Note:

/ CN: High number of missing values due to the fact that agriculture work is not considered as paid work and spouses/ partners currently working on agriculture or who worked but never did non-agricultural work in the past are filtered out. Additionally, only information on spouse's/ partner's current status is available, no information on the past.

/ DE: If spouse/ partner is a farmer with less than 50 ha, coded as self-employed without employees; if spouse/ partner is a farmer with 50 ha and above, coded as self-employed with employees.

/ GB-GBN: Category 2 and 3 can't be distinguished, so category 5 'Self-employed with or without employees' was created. Category 4 'Working for own family's business' can't be

/ NZ: Due to the fact that PARTLIV was asked different to ISSP standard (see note for New Zealand in PARTLIV), married/ partnered respondents cannot be properly filtered from respondents without spouse/ partner. As a consequence, respondents without spouse/ partner are included in code 99 'No answer' in SPEMREL.

/ SE: Exactly the same wording for SPEMPREL as for EMPREL except that the text refers to partner.

/ US: During the interview, respondents were asked the same question regardless of partner or spouse, with a screener to modify question text. The US data capture all spouse variables regardless of habitation status. The US data, however, capture only information from partners if living together, and not information from non-cohabitating partners. Therefore the number of missing answers might be higher for the US than for other countries.

SPWRKSUP - Spouse, partner: supervise other employees

BVQ_19. SPWRKSUP

Does/ did your spouse/ partner supervise other employees?

.....

AT: Is it or was it one of the responsibilities of your partner to guide other employees or oversee their work?

AU: Does/ did your spouse/ partner supervise other employees?

CH: Does/ did your spouse/ partner supervise other employees, directly or indirectly? (Do not include trainees.)

CN: In the current work of your spouse or partner, What is the situation of his/ her administrative activity?

CZ: Does/ did your partner supervise any employees in his/ her main job? (Respondent must include all employees supervised both directly and indirectly for whose work he/ she is/ was responsible. I.e., employees supervised by those supervised by him/ her as well. Attention: Teachers shall not include students, social workers shall not include clients etc. If the number of employees supervised in this job changed, inquire about the highest number.)

DE: Does/ did your spouse/ partner supervise other employees?

DK: Do/ did your spouse/ partner supervise or is/ was he/ she responsible for other people's work?

ES: Does/ did your spouse/ partner supervise other employees or is/ was he/ she responsible for the work of other employees?

FI: Does/ did your spouse/ partner work in a supervisory position, i.e., does/ did he/ she have subordinates at work?

FR: Does/ did he/ she supervise other persons?

GB-GBN: In your husband's (wife's/ partner's) job, does (did/ will) he (she) have any formal responsibility for supervising the work of other employees (people)? (Do not include people who only supervise: Children, e.g. teachers, nannies, childminders; animals; security or buildings, e.g. caretakers, security guards.)

HR: Does/ did your spouse/ partner supervise the work of other people?

HU: Derived from 'Is your partner currently working/ retired?' and 'What is/ was your partners (last) position or job?' and 'Is your partner self-employed?' and (If self-employed or manager) 'How many employees/ subordinates does/ did your partner have?'

IL: Does/ did your spouse/ partner supervise other employees?

IN: Does/ did your spouse/ partner supervise other employees?

IS: Does/ did your spouse/ partner supervise other employees?

JP: Does/ did your spouse/ partner supervise other employees?

LT: Does/ did your spouse/ partner supervise other employees?

MX: In the fulfillment of the current job or the last one where your spouse/ partner work(s/ed), is/ was the supervision of the work of other people included?

NZ: Not asked.

PH: Does/ did your spouse/ partner supervise other employees? If he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job.

RU: Does/ did your spouse/ partner supervise other employees?

SE: Does your spouse/ partner supervise other employees? If he/ she is retired or not currently working, please refer to his/ her last main job.

SI: Does/ did your partner supervise anyone at work?

SK: Does/ did your spouse/ partner in his main job have subordinates or is/ was he/ she responsible for the work of

SR: Did your partner supervise other employees in his/ her current/ last job? If so, how many other employees does/ did he/ she supervise directly or indirectly?

TH: Does your spouse supervise other employees? (If R's spouse worked in the past, ask whether R's spouse supervised other employees.)

TW: Does/ did your spouse (or your cohabitating partner) supervise other employees at his/ her job (or his/ her most recent job)?

US: In your (spouse/ [cohabiting] partner's) job, does he/ she supervise anyone who is directly responsible to him/ her?

ZA: Does/ did your spouse/ partner supervise other employees?

in Great Britain (GB-GBN):

0 NAP (Code 0, 2, 3 in SPWORK)

in New Zealand (NZ):

0 Not available

in Unites States (US):

0 NAP (Code 0, 2, 3 in SPWORK)

Note:

/ CN: High number of missing values due to the fact that agriculture work is not considered as paid work and spouses/ partners currently working on agriculture or who worked but never did non-agricultural work in the past are filtered out. Additionally, only information on spouse's/ partner's current status is available, no information on the past.

/ SE: Exactly the same wording for SPWRKSUP as for WRKSUP except that the text refers to partner.

/ US: During the interview, respondents were asked the same question regardless of partner or spouse, with a screener to modify question text. The US data capture all spouse variables regardless of habitation status. The US data, however, capture only information from partners if living together, and not information from non-cohabitating partners. Therefore the number of missing answers might be higher for the US than for other countries. In addition, in US data, this question is asked primarily of respondents, and only of spouses or partners if the respondent does not work. This is not in line with ISSP standards, and as such produces a higher proportion of NA responses.

SPISCO08 - Spouse, partner: occupation ISCO/ ILO 2008

BVQ_20. SPISCO08

What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job?

In his/ her main job, what kind of activities does/ did he/ she do most of the time?

What does/ did the firm/ organization he/ she work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace?

.....

AT: What kind of occupation does your partner have? (If he or she has more than one job please consider the main job). Please tell me the exact name of this job.

AU: What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? In his/ her main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organisation he/ she work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace?

CH: What is/ was his/ her current/ last occupation? In his/ her main job, what kind of activities does/ did he/ she do most of the time?

CN: What is the specific job of your spouse or partner now?

CZ: What is/ was the current/ last occupation of your partner, what kind of activity does/ did he/ she do in it: a) Job title b) Job description c) Main activity of the organisation. (For self-employed persons, specify industry/ subject of activity. If respondent states that partner has (had) several occupations, ask about him/ her about his/ her main job - the one in which the respondent's partner spends the most hours.)

DE: Which of the categories on the card applies to your spouse/ partner? What work does your spouse/ partner do in his/ her main job? Does this job/ this work have a special name?

DK: State your spouse's/ partner's current or latest job (working title), and describe what his/ her main tasks are/ were on the workplace:

ES: And which was his/ her last occupation or trade? That is, what does/ did his/ her work consist on specifically? We are referring to his/ her main occupation: the one for which he/ she obtains/ obtained his/ her highest earnings.

FI: What is your spouse's/ partner's current or latest occupation? (Please write in his/ her job title as specifically and clearly as possible. Write in the job title, not qualification/ degree.) What are/ were your spouse's/ partner's main activities at work? What does/ did the company or organisation for which your spouse/ partner works/ worked mainly do/ make?

FR: What is his/ her occupation or last occupation?

GB-GBN: Now I want to ask you about your husband's (wife's/ partner's) present (future) job. What is his (her) job (will that job be)? What is (will be) the name or title of the job? What kind of work does (will) he (she) do most of the time? What materials/ machinery do (will) he (she) use? What training or qualifications are (will be) needed for that job?

HR: Please state the exact title of your spouse's/ partner's job and his/ her occupation. Describe what he/ she does, what his/ her main tasks are. What are the educational and professional requirements for the job?

HU: What is/ was your partner's job?

IL: What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? In his/ her main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organization he/ she works/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace?

IN: What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? In his/ her main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organisation he/ she work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace?

IS: What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? In his/ her main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organization he/ she works/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace?

JP: Please give details about the main type of work your spouse/ partner is engaged in (e.g. bus driver, delivery worker, working at a construction site, car mechanic, working at a general affairs section in a municipal office, a Japanese teacher at junior high school, a salesperson of printing equipment, works at a cashier desk of a supermarket, counter operations for a bank, computer programmer).

LT: What is/ was your spouse's/ partner's occupation - i.e., what is/ was your spouse's/ partner's functions in his/ her main job? In your spouse's/ partner's main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organization your spouse/ partner works/ worked for mainly make or do? I.e. what kind of production/ function/ service is/ was performed at your spouse's/ partner's workplace?

MX: Which is your spouse's current occupation (or last work)? As much detailed as possible.

NZ: What is your spouse's/ partner's main occupation? If your spouse/ partner has more than one job, please give the one in which he/ she spends the most time. Please describe fully, e.g. builders' labourer not labourer, etc. If your spouse/ partner is retired, or not working for pay now, please describe last regular paid job.

PH: What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? In his/ her main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organization he/ she works/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main

RU: What is/ was your spouse's or partner's occupation? What kind of activities does/ did she/ he do most of the time? What kind of activities is/ was her/ his department specialized in? Which goods are/ were mainly produced or sold, what services are/ were provided? That is - what functions does/ did she/ he perform (execute) in the workplace?

SE: What is your spouse's/ partner's occupation? If he/ she is retired or not currently working, please refer to his/ her last main job. In his/ her main job, what kind of activities does he/ she do most of the time? What kind of production/ function is performed at his/ her current or previous workplace?

SI: What kind of work or profession does your partner do? If not working at the moment: What was his/ her last (main) occupation? (a) Tell detailed name of his/ her position at work and exact profession; b) Describe what does he/ she do, what are (were) his/ her main duties; c) What is the main activity of his/ her work organization?)

SK: Please, write the name of the main occupation of your spouse/ partner. Include detailed description of his/ her working activity: what is/ was his/ her principal activity, responsibility etc. If he/ she is/ was self-employed or entrepreneur, please, specify the area of his/ her business.

SR: What is/ was your partner's occupation?

TH: What is your spouse's occupation? (Write in and describe spouse's occupation, main activities, and main function of spouse's workplace? Then, code 4-digit according to ISCO08.)

TW: What is your spouse's (or your cohabitating partner's) present occupation? a. Full name of the company ____, main product or service _____. b. Division ____, Position _____. Detailed job description _____.

US: What kind of work does/ did your spouse/ [cohabiting] partner normally do? That is, what is the job called?

ZA: What is/ was your spouse's/ partner's occupation (The name or title of his/ her main job)?

9998 Don't know, inadequately described
9999 No answer

in China (CN):

0 NAP (Code 0, 2, 3 in SPWORK)

in Germany (DE):

0 NAP (Code 0, 2, 3 in SPWORK)

in Great Britain (GB-GBN):

0 NAP (Code 0, 2, 3 in SPWORK)

in New Zealand (NZ):

0 NAP (Code 3 in SPWORK)

9999 No answer incl. no spouse/ partner

Note:

/ CN: High number of missing values due to the fact that agriculture work is not considered as paid work and spouses/ partners currently working on agriculture or who worked but never did non-agricultural work in the past are filtered out. Additionally, only information on spouse's/ partner's current status is available, no information on the past.

/ CZ: ISCO08 was coded from three text variables describing the job. Some jobs were coded using 5-digit extended CZ-ISCO, see https://www.czso.cz/csu/czso/klasifikace_zamestnani_-cz_isco-. Recoding into 4-digit ISCO-08 (unit groups) was made where necessary.

/ DE: Constructed from spouse's/ partner's current occupation. The survey does not provide information on spouse's or partner's last occupation. Missing answers are recoded into the filter code 0 'NAP'.

/ ES: The Spanish questionnaire has a double coding of occupation: ISCO08-ILO and the Spanish National Classification of Occupations (CNO-11), which is an official adaptation of ISCO08.

/ FR: French classification of the occupations and the socioprofessionnal categories (PCS 2003) used, then transferred into ISCO 2008.

/ GB-GBN: Where the frequency of any 4-digit ISCO code in the ISSP dataset is less than 5, the code is reduced to 2 digits.

/ NZ: Due to the fact that PARTLIV was asked different to ISSP standard (see note for New Zealand in PARTLIV), married/ partnered respondents cannot be properly filtered from respondents without spouse/ partner. As a consequence, respondents without spouse/ partner are included in code 9999 'No answer' in SPISCO08.

/ SE: Exactly the same wording for SPISCO08 as for ISCO08 except that the text refers to partner.

/ SR: Open question, verbatim answers were coded into ISCO-88, then transferred into ISCO-08.

/ US: US Census 2010 codes recoded to ISCO08 Standard.

/ US: During the interview, respondents were asked the same question regardless of partner or spouse, with a screener to modify question text. The US data capture all spouse variables regardless of habitation status. The US data, however, capture only information from partners if living together, and not information from non-cohabitating partners. Therefore the number of missing answers might be higher for the US than for other countries.

SPMAINST - Spouse, partner: main status

BVQ_21. SPMAINST

Which of the following best describes your spouse's/ partner's current situation?

If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

.....

AT: Predominantly, is your partner currently...?

AU: Which of the following best describes your spouse's/ partner's current situation? If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

CH: Which one of the following best describes the current situation of your partner? If temporarily not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

CN: What was the employment status of your spouse or partner last week?/ Your spouse or partner did not work last week due to what?

CZ: Which of the following options best describes your partner/ spouse's job position?

DE: Which of the following best describes your spouse's/ partner's current situation? If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

DK: Is your spouse/ partner currently employed?

ES: Which of the following situations is closest to your spouse/ partner? If you doubt amongst several, choose the one you consider his/ her main activity/ position. In case of being on holiday or temporary leave, state his/ her regular situation.

FI: Which of the following best describes your spouse's/ partner's current situation? If he/ she is temporarily away from paid work on account of parental or other leave, unpaid leave or some other similar reason, please answer according to his/ her normal work situation.

FR: Currently, which one of these situations best fits him/ her?

GB-GBN: Which of these descriptions applied to what your wife (husband/ partner) was doing last week, that is the seven days ending last Sunday? Which others? (Code all that apply.)

HR: What is the work status of your spouse/ partner (which of following best describes his/ her current situation)?

HU: Derived from 'Is your partner currently working/ retired?' and 'Is your partner currently looking for a job?' and 'Is your partner working as an apprentice or as a trainee?' and (If pensioner) 'Is your partner an old-age or widowed pensioner/ a disabled pensioner?'

IL: Which of the following best describes your spouse's/ partner's current situation?

IN: Which of the following best describes your spouse's/ partner's current situation? If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

IS: Which of the following best describes your spouse's/ partner's current situation? If he/ she temporarily is without a paid job due to an illness, a maternity/ paternity leave, a vacation, a strike etc., please answer according to the situation that usually applies to him/ her.

JP: Which of the following best describes your spouse's/ partner's current situation? Circle one figure only. If your spouse/ partner temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

LT: Which of the following answers given on the card best describes your spouse's/ partner's current situation? If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

MX: What is the current situation of your spouse/ partner?

NZ: Which one of these categories best describes your spouse's/ partner's current employment status?

PH: Which one of the following best describes your spouse's/ partner's current situation? If he/ she is temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., please refer to his/ her normal work situation.

RU: Derived from 'Is your spouse/ partner currently working for pay? If no, did he/ she ever work?' and '(If spouse/ partner is currently out of labor force) What is your spouse's/ partner's main status?'

SE: Which of the following best describes your spouse's/ partner's current situation? If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

SI: What best describes your partner's current employment status? If he/ she is not working at the moment, because of illness, maternity leave, strike ect., think of her/ his usual employment status.

SK: Which of these answers best describes your spouse's/ partner's current situation? If your partner is currently not working for pay because of maternal/ parental leave, illness, vacation or similar, please refer to his/ her normal work situation.

SR: What is currently your partner's main activity?

TH: Which of the following best describes your spouse's current situation? (If spouse temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike etc. refer to normal situation.)

TW: Does your spouse (or your cohabitating partner) currently have a job?

US: Last week was your spouse/ [cohabiting] partner working full time, part time, going to school, keeping house, or what?

ZA: Which of the following best describes your spouse's/ partner's current situation?

0 NAP (Code 3, 7 in PARTLIV)

1 In paid work

2 Unemployed and looking for a job

3 In education

4 Apprentice or trainee

5 Permanently sick or disabled

6 Retired

7 Domestic work

8 In compulsory military service or community service

9 Other

99 No answer

in Austria (AT):

9 Not working for other reasons including on maternity leave

in Czech Republic (CZ):

9 Other incl. on maternal or parental leave

in France (FR):

8 In civic service

in Great Britain (GB-GBN):

0 NAP (Code 3-6 in MARITAL + no partner in household)

in New Zealand (NZ):

0 Not used

99 No answer incl. no spouse/ partner

in Thailand (TH):

99 No answer incl. doesn't do anything

Note:

/ AU: Category 8 'In compulsory military service or community service' not used.

/ CZ: It is common in the Czech context to take advantage of a relatively long maternity leave (28 weeks) and parental leave (until child turns 3), therefore persons on maternity/ parental leave were not treated as economically active unless they are simultaneously working for pay for at least one hour per week.

/ DE: Code 8 'In compulsory military service or community service' not used.

/ ES: Category 8 'In compulsory military service or community service' not used.

/ GB-GBN: Multicoded, then priority coded to single variable. Category 8 'In compulsory military service' was not used.

/ HU: Category 8 'In compulsory military service or community service' not used.

/ IN: Category 8 'In compulsory military service or community service' not used.

/ IS: Category 8 'In compulsory military service' not used.

/ JP: Category 8 'In compulsory military service' not used.

/ NZ: Due to the fact that PARTLIV was asked different to ISSP standard (see note for New Zealand in PARTLIV), married/ partnered respondents cannot be properly filtered from respondents without spouse/ partner. As a consequence, respondents without spouse/ partner are included in code 99 'No answer' in SPMAINST.

/ RU: SPMAINST is based on SPWORK and a question about the current main status if spouse/ partner is currently out of labor force.

/ SE: Exactly the same wording for SPMAINST as for MAINSTAT except that the text refers to partner. Category 8 'In compulsory military service or community service' not used.

/ SI: There is no compulsory military or community service in Slovenia (code 8 not used).

/ SK: Code 8 'In compulsory military service or community service' not asked, does not exist in Slovakia.

/ US: During the interview, respondents were asked the same question regardless of partner or spouse, with a screener to modify question text. The US data capture all spouse variables regardless of habitation status. The US data, however, capture only information from partners if living together, and not information from non-cohabitating partners. Therefore the number of missing answers might be higher for the US than for other countries.

/ US: Code 4 'Apprentice or trainee' and code 8 'In compulsory military service or community service' were not used in the US data. Code 5 'Permanently sick or disabled' was recoded from 'Other (Specify)'.

UNION - Trade union membership

BVQ_22. UNION

Are you or have you ever been a member of a trade union or similar organization?

If yes: is that currently or only previously?

.....

AT: Are you or have you been a member of the Austrian Trade Union?

AU: Are you or have you ever been a member of a trade union or similar organisation? If yes: is that currently or only previously?

CH: Are you or have you ever been member of a trade union or of an employer's association? (Do not consider trade associations.)

CN: Are you a member of the workers union?

CZ: Are you or have you ever been a member of a trade union?

DE: May I ask you whether you are currently a member of a trade union? (If not 'Yes') Were you once a member of a trade union?

DK: Are you/ have you been a member of a trade union?

ES: Are you currently a member of a trade union or have you been one in the past?

FI: Are you or have you ever been a member of a trade union?

FR: Are you or have you ever been a member of a trade union?

GB-GBN: May I just check, are you now a member of a trade union or staff association? (If no or don't know) Have you ever been a member of a trade union or staff association?

HR: Are you a member of trade union (or have you been a member in the past)? (Similar associations include professional associations whose mission is to promote economic and social interests of its members, especially with respect to wages, hours and working conditions.)

HU: Are you currently a member of trade union? (If no) Were you once a member of a trade union?

IL: (If currently in paid work or paid work in the past) Are you or have you ever been a member of a trade union or similar organization?

IN: Are you or have you ever been a member of a trade union or similar organisation? If yes: is that currently or only previously?

IS: Are you or have you ever been a member of a trade union?

JP: (If currently in paid work or paid work in the past) Are you a member of a trade union or similar organization?

LT: Are you or have you ever been a member of a trade union or similar organization? If yes: Is that currently or only previously?

MX: Are you currently or were you ever affiliated with a union?

NZ: (If currently in paid work or paid work in the past) Are you or have you ever been a member of a Trade Union?

PH: Are you or have you ever been a member of a trade union or similar organisation? If yes: is that currently or only previously?

RU: Are you or have you ever been a member of a trade union?

SE: Are you or have you ever been a member of a trade union?

SI: Are you a member of a trade union?

SK: Are you currently or were you in the past member of a union?

SR: Are you or have you ever been a member of a trade union or similar organisation?

TH: Are you or have you been a member of a trade union or similar organization?

TW: Are/ were you a member of a trade/ labor union?

US: Do you (...) belong to a labor union?

ZA: Are you a paid up member of a Trade Union?

1 Yes, currently

2 Yes, previously, but not currently

3 No, never

7 Refused

8 Don't know

9 No answer

in Israel (IL):

0 Not applicable (Code 3 in WORK)

in Japan (JP):

0 Not applicable (Code 3 in WORK)

in New Zealand (NZ):

0 Not applicable (Code 3 in WORK)

in Unites States (US):

1 Yes, belong

2 Not used

3 No, don't belong

Note:

/ US: The US questionnaire only asks about the current union membership for respondents (and their spouses). As a result, the data omit code 2 'Yes, previously, but not currently'.

ATTEND - Attendance of religious services

BVQ_24. ATTEND

Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

.....

AT: How often do you attend to religious services in general?

AU: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

CH: Apart from special occasions as weddings, funerals, etc., how often do you attend religious services?

CN: How often do you participate in religious activities?

CZ: Apart from such special occasions as funerals or weddings, how often do you attend religious services?

DE: (If respondent does not belong to non-Christian religion) As a rule, how often do you go to church? (If respondent belongs to non-Christian religion) As a rule, how often do you go to church resp. to the mosque, synagogue or to another house of prayer?

DK: How often do you attend religious services apart from special occasions such as weddings, funerals etc.?

ES: How often do you go to mass or other religious services, excluding the occasions related to social ceremonies, such as weddings, first communions or, funerals?

FI: Apart from weddings, funerals etc., how often do you attend worship services, church ceremonies or religious services?

FR: Apart from weddings, funerals and baptisms, how often do you attend a religious service?

GB-GBN: Apart from such special occasions as weddings, funerals and baptisms, how often nowadays do you attend services or meetings connected with your religion?

HR: Apart from special occasions like weddings, funerals and so on, how often do you attend religious services?

HU: How often do you go to religious services?

IL: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

IN: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

IS: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

JP: How often do you attend a place of worship or prayer? Exclude ceremonial occasions, such as wedding or funerals.

LT: Apart from such special occasions (such as weddings or funerals), how often do you attend religious services?

MX: Apart from special occasions such as weddings, funerals, etc., how often do you attend mass or religious services?

NZ: Apart from for weddings, funerals or tangi, and baptisms, how often do you attend religious services these days?

PH: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

RU: How often do you attend religious services?

SE: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

SI: If not counting special occasions such as weddings, funerals, etc., how often do you attend religious services?

SK: How often do you participate in religious services (such as masses and church services)?

SR: How often did you attend religious services in the past years? Apart from such special occasions as weddings, funerals, etc.

TH: Apart from such special occasion as weddings, funerals, how often do you attend religious services?

TW: How often do you participate in any religious group at present? (e.g., pilgrim group, practicing Zen, Sunday service, spirit-cultivation meeting, volunteer work, etc.)? Please answer this question regardless of whether you have a religious belief or not.

US: How often do you attend religious services?

ZA: Apart from special occasions such as weddings, funerals and baptisms, how often do you attend services or meetings connected with your religion?

- 1 Several times a week or more often (incl. every day, several times a day)
- 2 Once a week
- 3 2 or 3 times a month
- 4 Once a month

- 5 Several times a year
- 6 Once a year
- 7 Less frequently than once a year
- 8 Never
- 97 Refused
- 98 Don't know
- 99 No answer

in Switzerland (CH):

- 6 Once or twice a year

in Germany (DE):

- 1 More than once a week
- 2 Once a week
- 3 Between one and three times a month
- 4 Not used
- 5 Several times a year
- 6 Not used
- 7 Less
- 8 Never

in Great Britain (GB-GBN):

- 1 Not used
- 2 Once a week or more
- 3 At least once in two weeks
- 5 At least twice a year
- 8 Never or practically never
- 98 Don't know incl. varies too much to say

in Israel (IL):

- 1 Once a day or more/ Several times a week or more often

in Unites States (US):

- 2 Every week
- 3 Nearly every week/ 2 or 3 times a month
- 6 About once or twice a year

Note:

/ CN: The original answer scale was a 9-point-scale with the answer options 1.Never, 2.No more than once a year, 3.Once or twice a year, 4.Several times a year, 5.Once a month, 6.Twice or triple a month, 7.Almost every week, 8.Every week and 9.Several times a week. The scale has been recoded to match the ISSP standard. Cases of the original answer categories 7 and 8 were merged into the harmonized category 2 'once a week'.

/ DE: ALLBUS 2018 church attendance answer categories (six categories in total) deviate from ISSP ATTEND categories: German category 3 collapses ISSP categories 3 and 4; German category 5 implicitly includes ISSP category 6 (therefore no cases for ISSP codes 4 and 6).

/ IL: The answer list offered the following answer options: 0. Once a day or more, 1. Several times a week or more often, 2. Once a week, 3. 2 or 3 times a month, 4. Once a month, 5. Several times a year, 6. Once a year, 7. Less frequently than once a year, 8. Never. Code 0 was recoded into code 1.

/ NZ: The answer scale, originally running from 1 'Never' to 8 'Several times a week' in New Zealand's questionnaire, has been a posteriori reversed to meet the ISSP standard.

/ US: The answer scale in the US questionnaire originally has 9 answer options running from 0 'Never' to 8 'Several times a week'. It has been a posteriori reversed and recoded to meet the ISSP standard.

TOPBOT - Top-Bottom self-placement

BVQ_25. TOPBOT Top - Bottom self-placement (10 pt scale)

In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom.

Where would you put yourself on this scale?

.....

AT: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Here you see a scale that runs from the top to the bottom. Where would you put yourself on this scale?

AU: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

CH: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from top to bottom. Where would you put yourself now on this scale?

CN: In our society, some people are at the top of society and some are at the bottom of society. The ladder of this card should be viewed from the top down. The highest '10 points' represents the top level and the lowest '1 point' represents the lowest level. What level do you think you belong to now?

CZ: In our society, there are groups which tend to be associated with high social status and, in contrast, groups which tend to be associated with low social status. Where would you put yourself on this scale?

DE: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from top to bottom. Where would you put yourself now on this scale?

DK: In our society, we sometimes say that there are certain groups that are perceived as being at a higher level in society while other groups are perceived as being at a lower level. Below there is a scale which runs from top to bottom. If you should place yourself on this scale where 1 is bottom of society and 10 is top of society, where would it be?

ES: In our society, there are groups that tend to occupy a high or very high position, while others occupy middle or low positions. On a scale where number 1 represents the lowest position and 10 the highest, where would you place yourself?

FI: There are different classes in our society. Some classes are higher up and some lower down. Where would you place yourself in the following scale of people's standing in society, where 10 means the highest class and 1 the lowest class?

FR: In our society, there are groups which are rather at the top of the society and the others which are rather below. Here is a scale which runs from the highest to the lowest. Where would you put yourself on this scale?

GB-GBN: Not asked.

HR: In our society there are groups of people that hold a higher or lower social position. Where would you locate yourself on this scale, which ranges from 10 (top) to 1 (bottom)?

HU: In Hungary, there are people with higher and lower social statuses. On the answer sheet you see a ladder, the highest point of which represents the level of people with the highest social status and the lowest point represents the lowest level. Now where would you place yourself on this ladder?

IL: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself now on this scale?

IN: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

IS: Some groups tend to be near the top of the social ladder and others near to the bottom. Below is a scale that runs from the top stair of the social ladder to the bottom stair. Where would you place yourself on this scale?

JP: If current Japanese society were divided into 10 strata (1 being the lowest, and 10 being the highest), to which stratum do you think you belong?

LT: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Where would you put yourself on this scale?

MX: If we classify the families of Mexico according to their standard of living on a scale of 1 to 10, where the poorest families would be in level one and the richest families in the country in level 10. You, in what level of that scale would you place your family?

NZ: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

PH: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

RU: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale if '10' means the highest social position and '1' the lowest social position?

SE: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

SI: In our society, there are groups of people, which are close to the top and groups that are close to the bottom. Here is a scale, that runs from top to bottom. Where on this scale would you put yourself?

SK: In our society there are people who have a higher position but there are also people who are closer to lower positions. The enclosed scale is arranged from top (code 10) to bottom (code 1). Where would you put yourself on this scale?

SR: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a ladder that runs from the top to the bottom. Where would you put yourself on this scale?

TH: In our society, there are groups which tend to be towards the top to the bottom. Where would you place yourself on this scale?

TW: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from top to bottom. Where would you put yourself now on this scale?

US: In our society there are groups which tend to be towards the top and those that are towards the bottom. Here we have a scale that runs from top to bottom. Where would you put yourself on this scale?

ZA: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

- 1 Lowest, Bottom, 01
- 2 02
- 3 03
- 4 04
- 5 05
- 6 06
- 7 07
- 8 08
- 9 09
- 10 Highest, Top, 10
- 98 Don't know
- 99 No answer

in Great Britain (GB-GBN):

- 0 Not available

Note:

/ US: The design of the TOPBOT scale in the US questionnaire differ (the highest category 'TOP' was assigned to the lowest value '1' and the lowest category 'Bottom' to the highest value '10'). It has been a posteriori reversed and recoded to meet the ISSP standard.

VOTE_LE - Did respondent vote in last general election

BVQ_26. VOTE_LE

Some people don't vote nowadays for one reason or another. Did you vote in the last [country] national election in [month/ year]?

.....

AT: Have you participated in the Austrian national elections on October 15th last year [2017]?

AU: Did you vote in Australia's federal election in July 2016?

CH: And did you vote in the last national election in October 2015?

CN: Did you vote in the last neighborhood committee/ village committee election?

CZ: On the 20th and 21st of October 2017 there will be/ there were elections to the Chamber of Deputies. Are you going to vote/ did you vote in these elections?

DE: The last general election took place in September 2017. Did you vote in that election?

DK: Did you vote in the previous election the 18th of June 2015, or were there some reasons that did that you didn't have the opportunity to or the desire to vote?

ES: Could you tell me whether in the general elections of June, 26th 2016 you voted...?

FI: Some people don't vote nowadays for one reason or another. Did you vote in the last parliamentary election in April 2015?

FR: Did you vote in the first round of the 2012's French Presidential Election?

GB-GBN: Not asked.

HR: Some people do not vote in parliamentary elections for different reasons. Did you vote in the last parliamentary elections held in September 2016?

HU: The latest parliamentary elections were on April 6, 2014, did you go to vote?

IL: Some people do not vote in elections for one reason or another, did you vote in the last elections to the Knesset in March 2015?

IN: Some people don't vote nowadays for one reason or another. Did you vote in the 2014 Lok Sabha election held in April-May?

IS: Some people don't vote nowadays for one reason or another. Did you vote in the last general parliamentary election in Iceland in October 2016/ 2017 (see note below)?

JP: Did you vote in the last Japanese House of Representatives election on October 22, 2017?

LT: Did you vote in the last Seimas election on October 9th 2016?

MX: Did you vote in the recent federal elections of this year 2018?

NZ: Derived from 'For which party did you cast your party vote at the 2014 General Election?'

PH: Some people don't vote nowadays for one reason or another. Did you vote in the last Philippine national election in May 2016?

RU: Did you vote in the last elections for the State Duma of Russia on September 18 last year [2016]?

SE: Some people don't vote nowadays for one reason or another. Did you vote in the last national election?

SI: Some people don't vote for different reasons. Did you or did you not vote on the last national elections (July 2014) for parliament?

SK: Did you vote in the last parliamentary elections that took place in March 2016?

SR: Some people don't vote nowadays for one reason or another. Did you vote in the last national election in May 25, 2015?

TH: Did you vote in the last national election in February, 2557 (February 2, 2014 A.D.)?

TW: In this presidential election on January 14th 2016 many people went to vote, while others, for various reasons, did not go to vote. Did you vote?

US: In 2016, you remember that Clinton ran for President on the Democratic ticket against Trump for the Republicans. Do you remember for sure whether or not you voted in that election?

ZA: Derived from 'For which party did you vote in the last national election, which was held in 2014?'

0 NAP, not eligible to vote at last election

1 Yes

2 No

- 7 Refused
- 8 Don't know
- 9 No answer

in Great Britain (GB-GBN):

- 0 Not available

in New Zealand (NZ):

- 2 No answer incl. was not eligible

Note:

/ CZ: The election dates were 20th and 21st of October, the field work was however done before, during and after the elections, therefore the question had different wording, depending of the date of the interview.

/ DE: In contrast to former ISSP surveys, the answer categories 'not eligible to vote' and 'refused' were not explicitly offered this time.

/ IS: A snap election was held during the fielding period (28. October 2017). Web and paper questionnaires were changed during the data collection period to reflect this change. The previous election was held on October 29th 2016.

/ NZ: Category 0 'Not eligible to vote in last election' was not used, 'not eligible' included in code 2.

CH_PRTY - Country specific party voted for in last general election: Switzerland

CH_PRTY - Switzerland: Party voted for in last election

For which party did you vote at the last federal elections in October 2015? (If respondent says he voted mixed, code 'other' and list all parties.)

- 0 NAP (Code 0, 2, 7 in VOTE_LE)
- 1 The Liberals (FDP/ PLR)
- 2 Christian-Democratic Party (CVP/ PDC/ PPD)
- 3 Social Democratic Party (SP/ PS)
- 4 Swiss People's Party (SVP/ UDC)
- 5 Conservative-democratic Party (BDP/ PBD)
- 6 Evangelical Party (EVP/ PEV)
- 7 Christian Social Party (CSP/ PCS)
- 8 Labour Party (PdA/ PST - POP/ PSdL-PST)
- 9 Green Party (GPS/ PES/ I Verdi)
- 10 Green Liberal Party (GLP/ PVL)
- 11 Swiss Democrats (SD/ DS)
- 12 Federal Democratic Union (EDU/ UDF)
- 13 Lega dei Ticinesi (Lega)
- 14 Movement of the citizens of French-speaking Switzerland (MCGe and others cantonal sections)
- 15 Solidarity
- 94 Mixed vote (Candidates of several lists)
- 95 Other Party
- 96 Invalid ballot
- 97 Refused
- 98 Don't know, don't remember
- 99 No answer
- 990 NAP, other countries

Note:

/ CH: The answers given in the category 'other' are recoded in the list, or remain in the category 'Other Party'. In Switzerland, citizens vote for candidates by giving the vote to the party in choosing a list prepared by the parties, but they can also vote only for candidates. In this case, they vote for candidates of several lists without giving any vote to the party. That is what is called 'mixed vote'.

/ CH: Information about parties in Switzerland

The last national elections were in 2015; and the categories were adjusted accordingly. Compared to ISSP 2015, one party was added to the list : 'Solidarity'. Overall, there was no substantive change in the 2015 federal election. The Swiss People's Party has become more important. Left (Green Party) and right ecology (Green Liberal Party) have lost many votes. The far left recovers one seat (for the Solidarity party, which was added in the list). The fusion within the Liberals and the Radicals seems to have been achieved: there is no longer any mention of the old parties (which were kept in the list).

The Liberals (Right, conservative)

After some years of political alliance between the Radicals and the much smaller Liberal Party, in January 2009, they merged to form the new party 'FDP.The Liberals'. The former FDP was founded in 1894, growing out of the liberal, radical and democratic movements that dominated

the first decades of the federal state. The Liberal Party as well has roots going back as far as in the 19th century and was developed mainly in French-speaking Switzerland. Very much like its precursors, 'FDP. The Liberals' relies on classical liberalism. It has two members in the Federal Council and 30 seats in the National Council. With a number of 130000, it has by far the most members of all Swiss parties. FDP. The Liberals too, they form their own faction in the National Council and are assigned 11 seats in the Council of States.

Christian-Democratic People's Party (Centre-right, conservative)

This party has been founded by conservative Catholics, who lost the short civil war of 1847. Nevertheless, they are currently also present in Protestant cantons, with more eccentric positions. They claim for a social market economy. It is the second largest party in terms of membership, but the smallest of the four-party coalition government. They form a faction of 31 seats with the evangelical people's party, in which they hold 28 seats. In the Council of States they are assigned 13 seats.

Social Democratic Party (Centre-left)

As a merge of several cantonal workers' parties, the socialist/socialdemocratic Party has been founded in 1888. It is currently the most pro-european party in Switzerland. It ranks fourth in terms of membership, but the second biggest in terms of votes and seats (46) in the National Council.

There, they form their own faction. In the Council of States they are represented with 11 seats.

Swiss People's Party (Right, conservative)

Founded in 1936 from an association of farmers and artisans, this party became more and more populist, especially its right wing. Since the 1990's, they adopted certain anti-foreigner positions from the far-right. Quite closely linked to the fact that they are represented by only one member in the Federal Council (government), they consider themselves as an opposition party. In terms of their share of total votes, they form the biggest Swiss party, while they are outreached by the Christian Democrats and the 'FDP. The Liberals' in terms of membership. The national elections of 2011 marked the end of a 20-year period of steady growth in their share of total votes with a climax of 28.9% in the 2007 national elections. They form their own faction in an alliance with the Lega (2 Seats) and a resulting total of 56 seats in the National Council (total: 200 seats). In the Council of States they've gained 5 out of 46 seats.

Conservative Democratic Party of Switzerland (Centre-right)

The Conservative Democratic Party was created in November 2008 as a split of the Swiss People's Party. The Swiss People's Party (UDC, SVP) becoming more and more populist, a fraction of this party split from it, creating the more moderate "Conservative Democratic Party of Switzerland". It has one Federal Councillor (Eveline Widmer-Schlumpf), 9 seats in the National Council and one in the Council of the States. They put forward conservative values and economic liberalism. This party is represented by its own faction in the national parliament.

Christian Social Party (Centre-left, liberal)

In 1997, merging cantonal groups have founded the Christian-social Party to create a new party on the national level. As opposed to other Christian parties, they are very liberal on societal issues such as abortion and homosexual partnerships. They share social democratic views on redistribution and take strong environmentalist positions, why they may be labelled a 'leftist Christian party'. After 2011 elections, they hold no seats in national parliaments.

Swiss labour party (Far left)

This party was founded in 1944 by the illegal Communist Party of Switzerland. In 2011, they lost their only seat in the parliament and are no longer represented.

Green party (Left, centre left)

Born from the environmental movement, this party was found in 1983 and gained strength throughout the 1980s. It is the strongest party not represented in the national executive government. They currently hold 15 seats in the national parliament and form their own faction. In the Council of States they are represented with 2 seats.

Green liberal party (Centre, liberal)

Founded in 2007, they immediately won a seat in the Council of the states and three in the national council. Since then, they successfully expanded in the cantonal elections. Sharing the idea of environmentalism with the Green Party, its party program differs strongly with respect to regulation of the economy. It aims to combine moderate economic liberalism, liberalism on civil liberties and environmental sustainability. They represent 12 seats in the National Council and form their own faction.

Swiss democrats (Far right)

Founded in 1975 as a split from the Evangelical People's Party. Beyond their social conservatism and christian values, they are eurosceptic and support strong anti-foreigner positions. No more in the national parliament since end 2007 (where they held one seat in the council of the states).

Federal Democratic Union (Far right)

The Christian, national-conservative Federal Democratic Union lost their only seat in parliament in the 2011 elections, while they won two seats in the 2003-election and one in 2007. They stand for value-oriented, biblical positions and strongly refuse European integration of Switzerland.

Evangelical People's Party (Centre)

Founded in 1919, this small protestant party stands rather centre-left on some issues (redistribution, education, immigration, environment), but is conservative on others (abortion, family, euthanasia). The economic position is centrist. Alliance with the Christian Democrats, being in the same faction at the national level.

Lega dei Ticinesi (Far right)

Founded in 1991, this populist party refers to the model of the italian Lega Lombarda. It defends national conservative and isolationist positions and is one of the major parties in the Canton Ticino. With their two seats in the National Council they belong to the Swiss People's Party faction.

Movement of the Citizens of French-speaking Switzerland (Far right)

In 2005, a member of the Swiss People's Party and a former member of the Liberal Party founded the (local) patriotic protest party 'Mouvement des Citoyens Genevois'. After their first appearance in national elections in 2007 in the canton of Geneva, in 2011 they participated also in the canton of Vaud. They bring forward anti-foreigner positions, especially against frontier workers from France. Contrarily, they take traditionally leftist stances in social welfare discourses. They are represented by one seat in the National Parliament, without belonging to a faction.

Solidarity (Far left)

Solidarity is an anticapitalist, ecologist and feminist party, present in French-speaking Switzerland, in the cantons of Geneva, Vaud, Neuchâtel and Fribourg, as well as in the German Swiss canton of Basel. Solidarity refers to the anticapitalist, ecologist and feminist left. The organization advocates a revolutionary transformation of the society based on socialist bases and democratic values. The party invests a lot into social movements; its members militate actively in labor unions, in diverse associations of the labor movement, in anti-globalization movement and are active in many other activities in relation with the class struggle. In Switzerland, Solidarity is a party associated with the Labour party (POP-PST).

Note:

/ ES: Parties with codes 5 to 12 in ES_PRTY are non-state wide parties, i.e. regionalist/ nationalist parties (or coalitions that include this type of party) whose main axis of identification/ electoral competition is not only the left-right one, but also centre-periphery (codes 07, 08, 10, 11 and 12), or just regionally based parties that so far have participated in general elections forming alliances with the new party Podemos (codes 05, 06 and 09). Unidos Podemos (code 03) is the electoral alliance formed by Podemos and the United Left for the 2016 general elections (to which the question refers to).

PH_PRTY - Country specific party voted for in last general election: Philippines

PH_PRTY - Philippines: Party voted for in last election

990 Not available; NAP, other countries

Note:

/ PH: Information is not integrated into the international data file since Philippine politics generally has a weak party system, it is personality driven. The leaders are directly elected and not due to their party affiliations. This is the reason why normally voters don't even recall the party affiliation of the leader they just elected.

PARTY_LR - R: Party voted for in last general election: left-right (derived from nat_PRTY)

Party voted for in last general election: left/ right scale

Based on 'party voted for in last general election' and derived by expert judgement from the country-specific parties (nat_PRTY) into the left-right scheme:

<Question text see nat_PRTY: AT_PRTY-ZA_PRTY>

- 0 NAP (Code 0, 2, 7 in VOTE_LE)
- 1 Far left (communist etc.)
- 2 Left, center left
- 3 Center, liberal
- 4 Right, conservative
- 5 Far right (fascist etc.)
- 6 Other
- 94 Independent candidate
- 96 Invalid ballot
- 97 Refused
- 98 Insufficient information to code into scheme
- 99 No answer

in China (CN):

- 0 Not available

in Great Britain (GB-GBN):

- 0 Not available

in Philippines (PH):

- 0 Not available

in Suriname (SR):

- 0 Not available

in Taiwan (TW):

- 0 Not available

Note:

/ ES: Data to construct PARTY_LR come from the mean location of parties in the left-right scale in surveys CIS Study 3156 (October 2016) and CIS study 3164 (January 2017), as well as from the 2014 Chapel Hill Expert Survey (for further information see BV document for Spain).

/ ES: Parties with codes 5 to 12 in ES_PRTY are non-state wide parties, i.e. regionalist/ nationalist parties (or coalitions that include this type of party) whose main axis of identification/ electoral competition is not only the left-right one, but also centre-periphery (codes 07, 08, 10, 11 and 12), or just regionally based parties that so far have participated in general elections forming alliances with the new party Podemos (codes 05, 06 and 09). Unidos Podemos (code 03) is the electoral alliance formed by Podemos and the United Left for the 2016 general elections (to which the question refers to).

/ LT: Code 6 'Other' includes parties of ethnic minorities, agrarian, nationalist, green and populist parties.

/ SR: Not applicable in Surinamese politics.

/ TW: This kind of party affiliation (left-right) does not fit for Taiwan's political situation.

AT_ETHN1 - Country specific ethnic group 1: Austria

BVQ_28. nat_ETHN

Please indicate which of the following group or groups you consider yourself to belong to. Please select one or two groups only.

[Closed list of country-specific ethnic groups plus open 'other' option]

.....

AT_ETHN1 - Austria: Country specific ethnic group 1

Derived from 'Finally, will you tell me where your father was born?' and 'And where was your mother born?'

- 0 NAP, other countries
- 1 Both parents born in Austria
- 2 One parent born abroad
- 3 Both parents born abroad
- 97 Refused
- 98 Don't know
- 99 No answer

Note:

/ AT: The questionnaire offered eight countries as answer options (Austria, Germany, Turkey, Slovenia, Serbia, Croatia, Bosnia Herzegovina, Macedonia) plus an additional category 'In a different country' which was manually assigned to the right country code in retrospect.

AT_ETHN1

Value	Label	Missing	Count	Percent	Valid Percent
1	Both parents born in Austria		983	81.9	82.1
2	One parent born abroad		64	5.3	5.3
3	Both parents born abroad		150	12.5	12.5
99	No answer	M	3	0.3	
	Sum		1200	100.0	100.0
	Valid Cases		1197		

AT_ETHN2 - Country specific ethnic group 2: Austria

AT_ETHN2 - Austria: Country specific ethnic group 2

Not asked.

0 Not available; NAP, other countries

AT_ETHN2

Value	Label	Missing	Count	Percent	Valid Percent
0	Not available; NAP, other countries	M	1200	100.0	
	Sum		1200	100.0	0.0
	Valid Cases		0		

AU_ETHN1 - Country specific ethnic group 1: Australia

AU_ETHN1 - Australia: Country specific ethnic group 1

Derived from COUNTRY of BIRTH and INDIGENOUS STATUS.

- 0 NAP, other countries
- 1 AU born: + Both parents also AU born
- 2 AU born: 1 or 2 parents born in English-speaking country
- 3 AU born: 1 or 2 parents born in non-English-speaking country
- 4 Born in English speaking country
- 5 Born in non-English speaking country
- 6 Aboriginal or Torres Strait Islander
- 7 Born in Australia - no information on parents
- 97 Refused
- 98 Don't know
- 99 No answer

Note:

/ AU: There is no single ethnicity indicator for Australia. The major considerations in Australia are whether the person is born overseas (and particularly from a non-English speaking country) and whether the person is Aboriginal or Torres Strait Islander (the two indigenous populations in Australia).

AU_ETHN1

Value	Label	Missing	Count	Percent	Valid Percent

2 Coloured

3 Indian/ Asian

4 White

97 Refused

98 Don't know

99 No answer

Note:

/ ZA: Given the apartheid history in South Africa, the race categorization of white, black (African), Indian and coloured is very commonly understood in South Africa. This is the most common variable used to categorise various the races. Among the African people there are various tribes, and the most common way - although this is seldom used - to ethnize the African group would be to use the African language that they speak, i.e. Sesotho, Setswana, Sepedi, Siswati, IsiNdebele, Isixhosa, Isizulu, Xitsonga, Tshivenda. In terms of the White groups (Europeans) it is fairly uncommon to ask origin country and the only further distinction is again based on language that is the Afrikaans speakers and the English speakers. Coloured people and the Indian population are generally treated as a homogenous group with no further distinction.

HOMPOP - How many persons in household

BVQ_29. HOMPOP

Including yourself, how many people - including children - usually live in your household?

Adults of 18 years and older

Children between [school age] - 17 years of age

Children up to the age of [school age - 1] years

This makes a total of how many people? -> HOMPOP

.....

AT: How many persons live in your household (including yourself)?

AU: Including yourself, how many people - including children - usually live in your household? Item D: This makes a total of how many people:

CH: How many persons are constantly living in your household, including yourself? (Also if living there at least 2 days per week OR if temporary absent but supposed to live there again.)

CN: How many people live together in your home?

CZ: Including yourself, how many people live in your household? By household we mean people who live in the same apartment or family house and who share resources.

DE: Apart from yourself, are there other people living in your household? Please count toddlers or people who normally live here but are currently absent, e.g. in hospital or on holiday. (If other people living in household, detailed household list is asked) Apart from yourself, there are [number] of people living in your household?

DK: How many persons live in your household (including yourself)?

ES: How many people do live in your household, including yourself, and any domestic servants you may have, if they sleep at home?

FI: Including yourself, how many people usually live in your household? a) Altogether: ____ persons

FR: How many persons currently live in your household, including yourself? This makes a total of...

GB-GBN: Thinking now of everyone living in this household, including children: Including yourself, how many people live here regularly as members of this household?

HR: Including yourself, how many persons (including children) live in your household?

HU: Altogether how many persons, including you, live in your family (household)?

IL: How many people, including yourself, usually live in your household?

IN: Including yourself how many persons - including children - usually live in your household?

IS: Including yourself, how many people - including children - usually live in your household? Adults of 18 years and older __, Children between 6-17 years of age __, Children up to the age of 5 years __. This makes a TOTAL of how many people __?

JP: Including yourself, how many people usually live in your household? Total:

LT: Including yourself, how many people - including children - usually live in your household? This makes a total of how many people: __ __ (number of people)

MX: How many people live and sleep in your home in total, including children, adults and you?

NZ: Computed from 'INCLUDING YOURSELF, how many adults (of 18 years and older) are there in your household?' and 'How many CHILDREN between 5 and 17 years of age are there in your household?' and 'How many CHILDREN under the age of 5 are there in your household?'

PH: Including yourself, how many people – including children – usually live in your household?

RU: How many people usually live in your household including yourself, your spouse/ partner and children, including persons who may be temporarily absent?

SE: How many persons – children and adults – in total are in your household (count yourself also)?

SI: Name the number of people that live together with you in your household – including yourself. Total of all people in the household:

SK: How many people – adults and children – live in your household? Include yourself.

SR: Excluding yourself and your partner, how many people – including children – usually live in your household? This question only refers to other persons in your household, so excluding yourself and your partner. Count everybody that regularly eats in your house, so also residential children and inmates.

TH: How many persons in your household?

TW: Including yourself, how many people live in your household?

US: Household size and composition.

ZA: Derived from household roster.

- 0 Not a private household
- 1 One person (only respondent)
- 2 Two persons
- 3 Three persons
- 4 Four persons

HHCHILDR - How many children in household: children between [school age] and 17 years of age

BVQ_30. HHCHILDR

Including yourself, how many people - including children - usually live in your household?

Adults of 18 years and older

Children between [school age] - 17 years of age -> HHCHILDR

Children up to the age of [school age - 1] years

This makes a total of how many people?

.....

AT: Derived from 'How many of them are children from 6 to 13?' and 'How many of them are children from 14 to 17?'

AU: Including yourself, how many people - including children - usually live in your household? Item B: Children between 5-17 years of age:

CH: Would you please indicate the first name, the year of birth and the sex of each person, children included, living in the household, beginning with the oldest one?

CN: Derived from 'Do you have a few children (including stepchildren, adoptive children, including deceased children)?' and 'How many children do you have (including children who have passed away)?' and 'How many minor children under the age of 18 (including stepchildren and adoptive children)?' and information on the household.

CZ: How many of those people are... aged 7-17?

DE: Apart from yourself, there are [number] of people living in your household? Please tell me what month and what year (person 1, 2, 3, ...) was born in.

DK: How many persons in your household are between 6 and 17 years?

ES: (If not living alone or in nursing home/ student institution) Could you tell me, starting with the eldest person: the gender, age and kinship relation that you have with each of these people? Children between the age of beginning of compulsory schooling and 17 years of age: 6-17 years of age.

FI: Including yourself, how many people usually live in your household? c) Aged 7-17 years: ____ persons

FR: How many persons currently live in your household, including yourself? Children between 6 and 17 years of age...

GB-GBN: What was (name)'s age last birthday? (Asked for all members of household after respondent.)

HR: How many children from 7 to 17 years old live in your household?

HU: I would like to ask some questions about the members of your family. Let's start with you! ... What is your date of birth?

IL: People living in your household: Children between [school age]-17 years of age.

IN: How many children between 5 to 17 years of age live in your household?

IS: Including yourself, how many people - including children - usually live in your household? Children between 6-17 years of age ____

JP: Including yourself, how many people usually live in your household? 6 years to 17 years of age:

LT: Including yourself, how many people - including children - usually live in your household? Children between 7-17 years of age (inclusive):
__ (number of people)

MX: How many people live and sleep in your home from 6 to 17 years of age?

NZ: How many CHILDREN between 5 and 17 years of age are there in your household?

PH: How many children between 7-17 years old usually live in your household? Please include step-children and adopted children.

RU: How many school-age children (between 6 and 17 years) live in your household?

SE: How many persons in your household... b) Are between 7 and 17 years?

SI: Name the number of people that live together with you in your household - including yourself. Children and teens from 6 to 17 years:

SK: How many children between 6 and 17 years live in your household?

SR: Age of people (children) in the household.

TH: The number of children between 6-17 years of age. Write in the number ____.

TW: Among those who live in your household, how many of them are aged 7-17?

US: Number of members 6 to 12 years:/ Number of members 13 to 17 years:

ZA: Derived from household roster.

- 0 No children
- 1 One child
- 2 Two children
- 3 Three children
- 4 Four children
- 5 Five children
- 6 Six children
- 7 Seven children
- 8 Eight children
- 9 Nine children
- 10 Ten children
- 96 NAP (Code 0 in HOMPOP)
- 97 Refused
- 99 No answer

in Australia (AU):

- 99 No answer incl. no children

in Sweden (SE):

- 5 Five children or more

Note:

/ DE: Composition of household constructed from household list; distinction into adult/ child/ toddler constructed from age of household members.

/ ES: Composition of household constructed from household list; distinction into adult/ child/ toddler constructed from age of household members.

/ IN: The compulsory age to start elementary schooling is 5 years.

/ HU: Composition of household constructed from household list; distinction into adult/ child/ toddler constructed from year of birth of household members.

/ SR: Variable was derived from ages of all people in the household from a household list.

/ TH: Primary school starts at the age of 6 years.

DE_RINC - Country specific personal income: Germany

DE_RINC - Germany: Country specific personal income

How high is your own net monthly income? By this I mean the amount remaining after deductions for tax and social security contributions.

(If answer refused, anonymity mentioned, card with income categories displayed and respondent asked for alphabet letter.)

CH_INC - Country specific household income: Switzerland

CH_INC - Switzerland: Country specific household income

Using this card, if you accumulate all sources of income of all the household members, which letter best describes the total net income of your household?

Use the part of the card that you know best, monthly or annual income. A rough estimation is sufficient.

0 No income

1600 Less than 2.700 CHF per month

3400 2.700-4.099 CHF

4700 4.100-5.299 CHF

5800 5.300-6.299 CHF

6900 6.300-7.499 CHF

8200 7.500-8.899 CHF

9700 8.900-10.499 CHF

11500 10.500-12.499 CHF

14350 12.500-16.199 CHF

17700 16.200 CHF or more per month

999990 NAP, all other countries

999999 No answer

Note:

/ CH: Monthly net income in Swiss Francs (CHF); the most recent available household income range (data from CNEF file 2011 corrected for 2016 by the cost of living index) has been divided in deciles and rounded to create the 10 categories. The categories are presented on the showcard for the monthly and annual income. Midpoints of the income categories are coded.

/ CH: The categories are a merge of the personal and household income categories. In this way, single person households don't have to answer to distinct questions. For the single households, the personal and household income is combined.

CZ_INC - Country specific household income: Czech Republic

CZ_INC - Czech Republic: Country specific household income

ASK ONLY IF MORE THAN ONE ADULT PERSON IN THE HOUSEHOLD

What is the total net monthly income of your household? By that we mean the incomes and pensions of all persons in your household after subtracting taxes and including all social welfare benefits and other incomes after taxation.

Categories 1-18 in CZK: 1) No income, 2) Up to 4.999; 3) 5.000-7.999, 4) 8.000-9.999, 5) 10.000-11.999, 6) 12.000-13.999, 7) 14.000-15.999, 8) 16.000-17.999, 9) 18.000-19.999, 10) 20.000-22.999, 11) 23.000-25.999, 12) 26.000-29.999, 13) 30.000-34.999, 14) 35.000-39.999, 15) 40.000-49.999, 16) 50.000-74.999, 17) 75.000-99.999, 18) 100.000 and more

Note:

/ CZ: Monthly net income in Czech crowns (CZK); midpoints of the income categories are coded.

/ CZ: If HOMPOP=1; CZ_RINC and CZ_INC merged; three additional categories added for single person households due to different income scales used for personal and household income: 5.000-9.999 CZK (midpoint: 7500), 30.000-39.999 CZK (midpoint: 35000), 60.000 CZK or more (midpoint: 75000)

DE_INC - Country specific household income: Germany

DE_INC - Germany: Country specific household income

How high is the total net monthly income of your household? By this I mean the amount remaining after deductions for tax and social security contributions.

(If answer refused, anonymity mentioned, card with income categories displayed and respondent asked for alphabet letter.)

Note:

/ DE: Monthly net income in European currency (EUR); exact amount of income or midpoints of income categories are coded. For self-employed, average net monthly income, after deductions for overheads. If categorical question answered then mean coded. Continuous and categorical variable coded into one.

/ DE: If single household then respondent's income coded.

ES_INC - Country specific household income: Spain

ES_INC - Spain: Country specific household income

(If not living alone)

At the present time, what are the incomes of every household member (including yourself), before taxes and other deductions, that is, your gross income?

I am not asking you the exact amount, but to choose the interval in the scale on the card where your household gross income from all sources is included (if you prefer, you can tell me the number that appears in that interval).

0 No income

250 300 EUR per month or less

450 301-600 EUR

750 601-900 EUR

1050 901-1.200 EUR

1500 1.201-1.800 EUR

2100 1.801-2.400 EUR

2700 2.401-3.000 EUR

3750 3.001-4.500 EUR

5250 4.501-6.000 EUR

7000 More than 6.000 EUR per month

HU_INC - Country specific household income: Hungary

HU_INC - Hungary: Country specific household income

(If not living alone)

Including everything, how much is your household's total monthly net income (after taxes are deducted and including your income as well)?

(If refused)

Would you tell me which one of the categories on the answer sheet your household belongs to?

Note:

/ LT: Monthly income after taxes and other deductions in European currency (EUR), before social insurance, including child allowances.

Exact unclassified amount of income is coded.

Household is a group of people who live in one home, have a common budget and eat together, or a person living alone. Family or marital relationship between the household members are not necessary.

Income sources are work income, property income, rent, money personally provided by somebody, social allowances such as unemployment benefits, sickness benefits, maternity benefits and pensions.

The main deductions are income tax, compulsory health insurance contributions and social insurance contributions.

999999	No answer

Note:

/ RU: Monthly net income in Rubles (RUB); the generation procedure for the answer values was as follows: 1) All valid answers given to the open question are recoded into the 14 income categories as offered in the successive question. 2) Mean income of the open question was then calculated for each of the 14 categories based on those who gave an answer on the open-ended question. 3) Then the mean values were approximated to round numbers and assigned to all respondents who answered 'Don't know' or 'Refused to answer' but gave an answer on the categorized question format.

/ RU: For one-person households, personal income was coded as household income.

SK_INC - Country specific household income: Slovak Republic

SK_INC - Slovakia: Country specific household income

Now we would like to ask about the income of your HOUSEHOLD. By household we mean a shared household of spouses or partners, who live alone, with children, eventually with parents as well as households of independently living persons who share a common budget. From the following list, please, choose the option that represents the size of net monthly income of all household members together when you include wages, pensions, scholarships and all other working and non-working incomes? Count in your own income too, please.

- 0 No income
- 75 Up to 150 EUR per month
- 225 151-300 EUR
- 375 301-450 EUR
- 525 451-600 EUR
- 675 601-750 EUR
- 825 751-900 EUR
- 1050 901-1.200 EUR
- 1350 1.201-1.500 EUR
- 1750 1.501-2.000 EUR
- 2500 2.001-3.000 EUR
- 3500 More than 3.000 EUR per month
- 999990 NAP, all other countries
- 999997 Refused
- 999998 Don't know

MARITAL - Legal partnership status

BVQ_34. MARITAL

What is your current legal marital status?

<The aim of this variable is to measure the current 'legal' marital status 'Living as married' or 'de facto married' is no legal partnership status and therefore not of relevance to this variable.>

<Note that MARITAL must not be filtered by responses to PARTLIV.>

.....

AT: Now some questions about your life situation: What is your marital status?

AU: What is your current legal marital status?

CH: Can you please tell me which letter corresponds to your current civil status?

CN: What's your marital status now?

CZ: What is your marital status?

DE: What is your marital status? Are you...?

DK: What is your current legal marital status?

ES: Which of the following best describes your current situation?

FI: Are you currently...?

FR: Are you?

GB-GBN: Derived variable from two questions, showing the legal marital status for all respondents who answered those questions.

HR: Marital status of respondent (legal status).

HU: What is your marital status? (If unmarried, married but separated, divorced or widowed) Are you living with a partner? (If having a partner) Have you registered your partnership with a notary?

IL: What is your current legal marital status?

IN: What is your current legal marital status?

IS: What is your current marital status?

JP: What is your current legal marital status?

LT: What is your current legal marital status?

MX: Marital status (legal).

NZ: Which one of these categories best describes your current marital status?

PH: What is your current legal marital status?

RU: What is your marital status?

SE: What is your current legal marital status?

SI: What is your marital status?

SK: What is your current marital status?

SR: What is your current legal marital status?

TH: What is your current marital status?

TW: What is your current marital status?

US: Are you currently – married, widowed, divorced, separated, or have you never been married?

ZA: What is your current marital status?

1 Married

2 Civil partnership

3 Separated from spouse/ civil partner (still legally married/ still legally in a civil partnership)

4 Divorced from spouse/ legally separated from civil partner

- 5 Widowed/ civil partner died
- 6 Never married/ never in a civil partnership, single
- 7 Refused
- 9 No answer

in Austria (AT):

- 3 Not used
- 4 Divorced/ Separated

in China (CN):

- 9 Cohabit

Note:

/ AT: In the national questionnaire, the two marital status categories 'Divorced' and 'Separated' are collected together. Since it is not possible to clearly separate the two categories with hindsight, they are both included in category 4 'Divorced'.

/ AU: Category 2 not used, civil partnerships are not relevant in the Australian context.

/ CZ: Code 2 means 'Registered partnership' (registrované partnerství), possibility to register partnerships for same-sex partners.

/ DK: Code 2 means 'Registered partnership' (same-sex couples).

/ FR: Code 2 includes 'Pacsé(e)', a French contract of civil partnership.

/ HR: Civil partnership is legally defined as living in a common household for a minimum period of 3 years and/ or joint parenthood.

/ IL: Code 2 means 'Living with a permanent partner with a common life agreement'.

/ IN: Code 6 includes 125 respondents living in civil partnership. However, civil partnership is only 'partially' a legal form of partnership. It is covered under domestic violence act passed by Parliament and also under the alimony laws in case of separation as mentioned by couple of court judgements. Civil partnership in India is still no 'formal relationship' Supreme Court of India has asked the Parliament to enact a law to regulate live-in relationship.

/ IS: Code 6 includes 'in unregistered cohabitation'/ 'in registered cohabitation'/ 'I have never been married'/ 'I have never been in a civil partnership'.

/ LT: There is no legal civil partnership in Lithuania.

/ MX: Code 2 'Civil partnership' reads 'Sociedad de convivencia' (= same-sex civil unions).

/ NZ: Code 2 'Civil partnership' includes 'De facto relationship' (for couples living together as a couple but who are not married to or in a civil union with one another; length of relationship at least three years) and 'Civil union'.

/ SE: Code 2 'Civil partnership' reads 'Registered partnership' (same-sex partners).

/ SI: Code 2 'Civil partnership' includes extramarital unions and registered homosexual partnerships.

/ SR: Code 2 'Civil partnership' includes 'Common law marriage'.

/ US: MARITAL now encompasses both opposite-sex and same-sex marriages (code 1). The US General Social Survey uses POSSLQ and POSSLQY (see note in PARTLIV for US) to track long-term cohabitation, but does not ask about civil partnerships separate from marriage (code 2 not used).

/ ZA: Previously there were not many of these types of marriages, but the common form of African marriages (Lobola) are now recognized under code 2 'Siviele Verhouding'.

F_BORN - Father's country of birth

BVQ_35. F_BORN

In which country was your father born?

Countries were recoded according to the numerical 3 digits ISO3166 code.

<'Country' refers here to states only, not to sub-national regions or areas. If the father's country of birth does not exist anymore under the former name, the current term of the country where the birthplace is located should be written in.>

.....

AT: Finally, will you tell me where your father was born? Austria/ Germany/ Turkey/ Slovenia/ Serbia/ Croatia/ Bosnia Herzegovina/ Macedonia/ In a different country

AU: And what country was your father born in? Australia/ Overseas (Please specify country):

CH: In which country was your father born?

CN: Imputed.

CZ: Tell me please, where was your father born? 1. Czech Republic, 2. Slovakia, 3. Poland, 4. Germany, 5. Ukraine, 6. Hungary, 7. Vietnam, 8. Russia, 9. Other, specify

DE: And now some questions about your parents. In which country was your father born? Within the current borders of Germany/ Former Eastern German territories (e.g., Silesia, East Prussia)/ Greece/ Italy/ Former Yugoslavia/ Poland/ Romania/ Former Soviet Union (USSR)/ Former Czechoslovakia/ Turkey/ Other country, please specify

DK: Where are you and your parents born? Denmark/ In a foreign country? (If in a foreign country) Specify - Your father:

ES: In which country was your father born? In Spain/ In other country, which one?

FI: In which country was your father born?

FR: In which country was your father born?

GB-GBN: Not asked.

HR: In which country/ state was your father born? (If the country of birth doesn't exist any more, write in the name of the state where the birthplace is currently located.)

HU: In which country was your father born? Hungary, Ukraine, Romania, Slovakia, Czech Republic, Serbia, Croatia, Slovenia, Austria, Germany, Russia, Poland, Other European countries, Other non-European country

IL: In which country was your father born?

IN: In which country was your father born?

IS: In which country was your father born? Iceland/ Other country, which?

JP: In which country was your father born? Japan, Other country (please specify), I don't know.

LT: In which country was your father born?

MX: Father's country of birth:

NZ: In what country was your father born? 1) New Zealand 2) Australia 3) England 4) China (People's Republic of) 5) India 6) South Africa 7) Samoa 8) Cook Islands 9) Korea (Republic of) 10) Philippines 11) Other

PH: In which country was your father born?

RU: In which country was your father born?

SE: In which country was your father born? 1. Sweden, 2. Other country, which?

SI: In which country was your father born? (Current name of the country where father's place of birth is.)

SK: In which country was your father born? 1. In Slovakia, 2. In Czechia, 3. Elsewhere, please specify.

SR: In which country was your father born? Suriname/ The Netherlands/ Guyana/ French-Guyana/ Brazil/ Netherlands Antilles/ Haiti/ Other, specify:

TH: In which country was your father born? Specify country ____.

TW: In which country was your father born? 1. Taiwan 2. China 3. Other country, please specify.

US: Were both your parents born in this country?

ZA: Not asked.

in Switzerland (CH):

990 Not applicable (Unknown paternity)

in Great Britain (GB-GBN):

0 Not available

in Iceland (IS):

950 Not in Iceland (not specified)

in Unites States (US):

950 Outside of US

in South Africa (ZA):

0 Not available

Note:

/ AT: The questionnaire offered eight countries as answer options (Austria, Germany, Turkey, Slovenia, Serbia, Croatia, Bosnia Herzegowina, Macedonia) plus an additional category 'In a different country' which was manually assigned to the right country code in retrospect.

/ CZ: Pre-coded list (1. Czech Republic, 2. Slovakia, 3. Poland, 4. Germany, 5. Ukraine, 6. Hungary, 7. Vietnam, 8. Russia, 9. Other, specify). Countries coded 1-8 including text answers from code 9 were encoded into ISO 3166 country codes.

/ DE: Former East German territories coded as Germany.

/ ES: Open ended question for those who were not born in Spain. Countries coded based on a country list used by the Spanish Statistic Institute, then transferred into ISO 3166 codes.

/ FI: Open-ended question, in retrospect classified according to ISO3166-1.

/ FR: Open ended question.

/ HU: Pre-coded list: Hungary, Ukraine, Romania, Slovakia, Czech Republic, Serbia, Croatia, Slovenia, Austria, Germany, Russia, Poland, Other European countries, Other non-European country.

/ MX: Open-ended question, country encoded to ISO 3166.

/ RU: Open-ended question.

/ SE: Category 2 open responses recoded following the ISO 3166. Category 1 recoded to 752. Countries not existing today were recoded to present ones, e.g. Soviet Union coded as Russian federation. Those ticking the box that mother or father not born in Sweden but did not write in country of origin were coded as 'Don't know'.

/ SI: Open ended question. Expected most frequent answers were pre-coded for CAPI (1. Slovenia, 2. Croatia, 3. Bosnia and Hercegovina, 4. Serbia, 5. Montenegro, 6. Former Yugoslav Republic of Macedonia, 7. Kosovo, 8. Yugoslavia, 9. Albania, 10. Austria, 11. Italy, 12.

Germany, 13. Hungary), other answers were coded as 'other' and then included in additional variable. Both variables were used to create F_BORN. For very specific countries that could be the basis for the identification of respondents, code 'other countries' was kept. During the harmonization procedure those cases were recoded into code 950 'Outside of COUNTRY (without specification, no official ISO 3166 code)'.

/ US: Respondents are not asked for parents' country of birth, only if their parents (one or both) were born in the United States or not. As a result, only two codes are available for the US: Born in the US (code 840 'United Stated') and born outside the US (code 950 'Outside of COUNTRY').

M_BORN - Mother's country of birth

BVQ_36. M_BORN

In which country was your mother born?

Countries were recoded according to the numerical 3 digits ISO3166 code.

<'Country' refers here to states only, not to sub-national regions or areas. If the mother's country of birth does not exist anymore under the former name, the current term of the country where the birthplace is located should be written in.>

.....

AT: And where was your mother born? Austria/ Germany/ Turkey/ Slovenia/ Serbia/ Croatia/ Bosnia Herzegowina/ Macedonia/ In a different country

AU: What country was your mother born in? Australia/ Overseas (Please specify country):

CH: In which country was your mother born?

CN: Place where mother was born.

CZ: Tell me please, where was your mother born? 1. Czech Republic, 2. Slovakia, 3. Poland, 4. Germany, 5. Ukraine, 6. Hungary, 7. Vietnam, 8. Russia, 9. Other, specify

DE: And in which country was your mother born? Within the current borders of Germany/ Former Eastern German territories (e.g., Silesia, East Prussia)/ Greece/ Italy/ Former Yugoslavia/ Poland/ Romania/ Former Soviet Union (USSR)/ Former Czechoslovakia/ Turkey/ Other country, please specify

DK: Where are you and your parents born? Denmark/ In a foreign country? (If in a foreign country) Specify - Your mother:

ES: In which country was your mother born? In Spain/ In other country, which one?

FI: In which country was your mother born?

FR: In which country was your mother born?

GB-GBN: Not asked.

HR: In which country/ state was your mother born? (If the country of birth doesn't exist any more, write in the name of the state where the birthplace is currently located.)

HU: In which country was your mother born? Hungary, Ukraine, Romania, Slovakia, Czech Republic, Serbia, Croatia, Slovenia, Austria, Germany, Russia, Poland, Other European countries, Other non-European country

IL: In which country was your mother born?

IN: In which country was your mother born?

IS: In which country was your mother born? Iceland/ Other country, which?

JP: In which country was your mother born? Japan, Other country (please specify), I don't know.'

LT: In which country was your mother born?

MX: Mother's country of birth:

NZ: In what country was your mother born? 1) New Zealand 2) Australia 3) England 4) China (People's Republic of) 5) India 6) South Africa 7) Samoa 8) Cook Islands 9) Korea (Republic of) 10) Philippines 11) Other

PH: In which country was your mother born?

RU: In which country was your mother born?

SE: In which country was your mother born? 1. Sweden, 2. Other country, which?

SI: In which country was your mother born? (Current name of the country where mother's place of birth is.)

SK: In which country was your mother born? 1. In Slovakia, 2. In Czechia, 3. Elsewhere, please specify.

SR: In which country was your mother born? Suriname/ The Netherlands/ Guyana/ French-Guyana/ Brazil/ Netherlands Antilles/ Haiti/ Other, specify:

TH: In which country was your mother born? Specify country ____.

TW: In which country was your mother born? 1. Taiwan 2. China 3. Other country, please specify.

US: Were both your parents born in this country?

ZA: Not asked.

Note:

/ AT: The questionnaire offered eight countries as answer options (Austria, Germany, Turkey, Slovenia, Serbia, Croatia, Bosnia Herzegowina, Macedonia) plus an additional category 'In a different country' which was manually assigned to the right country code in retrospect.

/ CZ: Countries coded 1-8 including text answers from code 9 were encoded into ISO 3166 country codes.

/ DE: Former East German territories coded as Germany.

/ ES: Open ended question for those who were not born in Spain. Countries coded based on a country list used by the Spanish Statistic

Institute, then transferred into ISO 3166 codes.

/ FI: Open-ended question, in retrospect classified according to ISO3166-1.

/ FR: Open ended question.

/ MX: Open-ended question, country encoded to ISO 3166.

/ RU: Open-ended question.

/ SE: Category 2 open responses recoded following the ISO 3166. Category 1 recoded to 752. Countries not existing today were recoded to present ones, e.g. Soviet Union coded as Russian federation. Those ticking the box that mother or father not born in Sweden but did not write in country of origin were coded as 'Don't know'.

/ SI: Open ended question. Expected most frequent answers were pre-coded for CAPI (1. Slovenia, 2. Croatia, 3. Bosnia and Hercegovina. 4. Serbia, 5. Montenegro, 6. Former Yugoslav Republic of Macedonia, 7. Kosovo, 8. Yugoslavia. 9. Albania. 10. Austria, 11. Italy, 12. Germany, 13. Hungary), other answers were coded as 'other' and then included in additional variable. Both variables were used to create M_BORN.

/ US: Respondents are not asked for parents' country of birth, only if their parents (one or both) were born in the United States or not. As a result, only two codes are available for the US: Born in the US (code 840 'United Stated') and born outside the US (code 950 'Outside of COUNTRY').

URBRURAL - Place of living: urban - rural

BVQ_37. URBRURAL

Would you describe the place where you live as ...

<Based on self-assessment by Respondent.>

.....

AT: Respondent lives...

AU: Would you describe the place where you live as ...?

CH: Which expression of this card describes best the place where you live?

CN: Supervisor records: Type of respondents living in the region: ____

CZ: Would you describe the place where you live as...?

DE: Which category of this list applies best to the place where you are living?

DK: Is the place you live...?

ES: Would you describe the place where you live as...?

FI: Do you live...?

FR: Would you say that you live in...?

GB-GBN: Can I just check, would you describe the place where you live as...?

HR: Where do you live?

HU: Is your place of living...?

IL: Would you describe the place where you live as...?

IN: Would you describe the place where you live as...?

IS: Would you describe the place where you live as...?

JP: What kind of community do you currently live in?

LT: How would you describe the place where you live?

MX: You live in:

NZ: Would you describe the place where you live as...

PH: Would you describe the place where you live as...?

RU: Where do you live?

SE: The place where you live, is it...?

SI: How would you describe the place that you live in? Is it...?

SK: How would you describe the location you live in?

SR: Not asked.

TH: Would you describe the place where you live as...?

TW: Would you describe the place where you live as...?

US: Derived variable, see note for US below.

ZA: Derived from geotype variable.

- 1 A big city
- 2 The suburbs or outskirts of a big city
- 3 A town or a small city
- 4 A country village
- 5 A farm or home in the country
- 8 Don't know
- 9 No answer

in Czech Republic (CZ):

9 No answer incl. other type of settlement

in Great Britain (GB-GBN):

7 Other answer

in Suriname (SR):

0 Not available

in South Africa (ZA):

1 Urban

2 Urban, informal

3 Not used

4 Tribal

5 Rural, formal

Note:

/ AT: The categories are used in the following way: 1=A big city (over 100.000 inhabitants), 2=The suburbs or outskirts of a big city, 3=In a bigger city (40.000 – 100.000 inhabitants) + In a small or middle city (5.000 – under 40.000 inhabitants), 4=A village, 5=In a single house or farm house at the countryside.

/ CN: The categories are used in the following way: 1. The city center of city/county, 2. The edge of city/county / The fringe of city/county, 3. The town outside city/county area, 4. Rural.

/ JP: The categories are used in the following way: 1. Large city, 2. Suburbs or outskirts of a large city, 3. Regional city, 4. Regional town/village, 5. House in rural area.

/ SR: URBRURAL was omitted because it did not seem applicable to the Surinamese situation.

/ US: Constructed by using XNORCSIZ in US GSS. The XNORCSIZ indicates NORC size of place. Codes for XNORCSIZ are: 1 'Within an SMSA and a large central city (over 250.000)', 2 'A medium size central city (50.000 to 250.000)', 3 'A suburb of a large central city', 4 'A suburb of a medium size central city', 5 'An unincorporated area of a large central city (division, township, etc.)', 6 'An unincorporated area of a medium central city', 7 'Not within an SMSA (within a county) and a small city (10.000 to 49.999)', 8 'A town or village (2.500 to 9.999)', 9 'An incorporated area less than 2.500 or an unincorporated area of 1.000 to 2.499' and 10 'Open country within larger civil divisions e.g., township, division'. The mapping between XNORCSIZ and URBRURAL is as follows: XNORCSIZ=1 | XNORCSIZ=2 -> URBRURAL=1; XNORCSIZ=3 | XNORCSIZ=4 | XNORCSIZ=5 | XNORCSIZ=6 -> URBRURAL=2; XNORCSIZ=7 -> URBRURAL=3; XNORCSIZ=8 | XNORCSIZ=9 -> URBRURAL=4; XNORCSIZ=10 -> URBRURAL=5.

CASEID - ID Number of Respondent

CASEID - Respondent Identification Number

This variable holds a unique identification number for each respondent including the ISSP module year (first 4 digits: 2017), the ISO 3166 country code (next 5 digits: for countries without subsamples starting with 00 plus the three digits for the country code, for countries with subsamples starting directly with the three digits country code supplemented by an appendix two digits long) and the original identification number of the respondents (the last 6 digits), making an identification number of 15 digits in total.

SUBSCASE - Case substitution flag

Case substitution flag

Substitution in this survey

SUBSCASE is to indicate whether a respondent is from the original sampling frame or is substituted for some reason (interview not obtained because of invalid address, no contact, refusal, etc.)

- 0 No substitution in this survey
- 1 Case from original sample
- 2 Case substituted

Note:

/ DE: ALLBUS uses a two stage random sample. In the first step there is a random selection of communities/ sample points. In a second step, there is a random sample of persons officially registered at their first place of residence (Germans are legally obliged to register). The German register is not organized in one central register, but organized in 5.283 local registers administered by municipalities. The local registers are allowed but not obliged to submit information for scientific purposes. 5 municipalities did/ could not cooperate and did not deliver information. These sample points had to be replaced by others with the same structural characteristics. Substitution of any individual case was not allowed during the fieldwork.

WEIGHT - Weighting factor

Weighting factor

No total weight usable for international comparison.

NATIONAL weighting procedures/ variables used for calculation of NATIONAL weights:

.....

AT: Combination of design weight for size of household and post-stratification weight for 1) federal states, 2) age-cohorts by sex, 3) level of education.

AU: The data were weighted to account for non-response (AGE, SEX, and EDUCATIONAL ATTAINMENT derived from AU_DEGR).

CH: The sample frame is individual based and the sampling is pure random, so that every resident in Switzerland has equal chance to participate - all weights are equal to 1. No adjustment for non-response bias.

CN: First design weight computed and then post-stratification adjusted based on gender, age group, education, and urban/ rural.

CZ: Post-stratification weights used based on highest education level, age group, gender and size of municipality for regions (NUTS3).

DE: Two separate German samples: the sample for eastern Germany deliberately over-samples the five eastern federal states. If all of Germany is taken as the unit of analysis (rather than the eastern and western states), design weight is necessary. The two weighting factors are stored in the weight variable (weighting factor for Western Germany: 1.21803499; weighting factor for Eastern Germany: 0.53501930).

DK: Post-stratification weight based on sex and age (age groups: 18-25, 26-35, 36-45, 46-55, 56-65, older than 65).

ES: Design weight to adjust for unequal selection probabilities + Weight to adjust for non-response (variables used for calculation of weight: Autonomous Community (ES_REG), Size of habitat).

FI: The design of the survey was systematic sampling. In order to improve the efficiency of estimation and to reduce bias due to non-response a calibration method was used for the creation of the weights. The following marginal distributions of the population were used: 1) gender, 2) age classes, 3) NUTS3 regions, 4) type of community.

FR: Post stratification weighting computed on sex, age (4 groups : 18 to 29 years old, 30 to 39 years old, 40 to 54 years old, 55 years old or more) and occupation (6 groups: Farmers, Tradesmen, Shopkeepers and Business Owners; Managers and Secondary/ University Teachers; Intermediate Professions, White Collar Workers; Blue Collar Workers; Unemployed).

GB-GBN: The weighting strategy takes into account 1) Selection weights to correct for unequal probability of selection at 3 levels, address, household and individual. 2) Non-response model, to correct for unequal probability of responding among different sub-groups within the population (A number of area level and interviewer observation variables were used to model response). 3) Calibration weighting, to adjust the final non-response weight so that the weighted sample matched the population in terms of age, sex and region (This applies to the whole BSA dataset, of which the ISSP dataset is a part, thus, for the ISSP data, weighted base=1.582 and unweighted base=1.595).

HR: No weighting.

HU: Weight to adjust for non-response bias (variables used for calculation of weight: gender, age, level of education, type of settlement).

IL: No weighting.

IN: Weight to adjust for non-response bias - multiple weighting done on following variables: Age, Gender, Social status, Income, Education.

IS: No weighting.

JP: No weighting.

LT: Post-stratification weight used to make survey sample representative of the population by gender, age and type/ size of settlement size.

MX: No weighting.

NZ: Weighting factor adjusts for unequal selection probabilities and for non-response bias in terms of sex, age, deprivation (neighbourhood deprivation quintiles), urbanicity, occupation and, Auckland (either respondent lived/ did not live in the Auckland region).

PH: Weighting variable is based on people aged 18+ (voting age) and area/ region (NCR, Balance Luzon, Visayas, Mindanao). The weight applied was based on the 2018 census population.

RU: The procedure of weighting was aimed at minimizing the sum of squares of the deviation of weighted survey data and statistical data by each of 9 socio-demographic groups by sex, age, education in each region/ strata.

SE: No weighting.

SI: No weighting.

SK: Weight was constructed according to the stratification criteria (8 counties and 3 community/ municipality categories by size) following demography characteristics: age group (7 categories), education (4 categories) and sex. No characteristics were combined in the procedure. An internal program of the fieldwork agency was used for weighting.

SR: Weighting factor adjusts for non-response bias in terms of a) district and b) household composition (gender, age, education, main activity, relationship to head of household).

TH: No weighting.

TW: The data was weighted including design weight and an iterative proportional raking scheme. For each respondent, sample data were weighted by sex, age, urbanization and education-degree groups. Weights were then generated to match the population characteristics of Taiwan.

US: The US weight variable takes into consideration a) the sub-sampling of non-respondents, and b) the number of adults in the household. It also essentially maintains the original sample size.

ZA: Explicit stratification variables: Province, population group and geography type (viz. urban formal, urban informal, tribal and rural formal, including commercial farms). Non-response adjustment = number of drawn HHs per EA (census enumerator area) / number of responding HHs (i.e. where a person 16+ is successfully interviewed) provided that at least 50% of households responded. Otherwise two similar (i.e. in the same explicit stratum) and neighbouring EAs are combined and a combined adjustment factor calculated. Person and household weights are benchmarked, for persons using province, population group, gender and different age groups (i.e. 16-19, 20-24, 25-34, 35-44, 45-54, 55-64 and 65 and older) as benchmark variables and for households using province and population group of the respondent in the household. The marginal totals for the benchmark variables are obtained from the applicable midyear estimates as published by Statistics South Africa.

1 No weighting

in Switzerland (CH):

1 Design weight with all Respondents having same probability of inclusion

PARTIALS - Flag variable indicating partially completed interviews

Flag variable indicating partially completed interviews

The test is based on the mandatory module questions of an ISSP module. For ISSP 2017, questions Q1-Q32 were mandatory for all countries.

In accordance with AAPOR standards, the count is based on applicable questions of the module, more precisely on the items that respondents were asked according to the routing.

An interview with...

- less than 50% of valid answers is defined as BREAK-OFF;
- between 50 and 80% of valid answers is defined as PARTIAL interview;
- more than 80% of valid answers is defined as COMPLETE interview.

-1 Break-off (<50 % answered)

0 Partial interview (50-80 % answered)

1 Complete interview (> 80 % answered)

ISSP Study Description Form

Please use this form for reporting on Module 2006 and later!

Study title: 'official' title of the study/survey in your country

Fieldwork dates: April 3 to June 15, 2018

Principal investigators: Johanna Muckenhuber, Franz Höllinger, Markus Hadler

Sample type: Stratified multistage-probability-sample

Fieldwork institute: IFES, Vienna

Fieldwork methods: CAPI

N. of respondents: 1.200

Details about issued sample:

Please follow the standards laid down in AAPOR Standard Definitions:
http://www.aapor.org/AAPOR_Main/media/publications/Standard-Definitions20169theditionfinal.pdf
 The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.

1. Total number of starting or issued names/addresses (gross sample size) *2.348
2. Interviews (1.0)1.200
3. Eligible, Non-Interview	
A. Refusal/Break-off (2.10)725
B. Non-Contact (2.20)362
C. Other	
i. Language Problems (2.33)34
ii. Miscellaneous Other (2.31, 2.32, 2.35)27
4. Unknown Eligibility, Non-Interview (3.0)
5. Not Eligible	
A. Not a Residence (4.50)
B. Vacant Residence (4.60)
C. No Eligible Respondent (4.70)
D. Other (4.10,4.90)

Language(s): German

Weight present: yes

Weighting procedure: Combination of design weight for size of household and post-stratification weight for 1) federal states, 2) age-cohorts by sex, 3) level of education.

Known systematic properties of sample: Respondents in single-person households are overrepresented; age cohort 18 to 29 years is underrepresented; age cohort 60+ is overrepresented; higher educated are slightly overrepresented.

Deviations from ISSP questionnaire: none

Publications: list of publications using the present data set

Study title: Australian Survey of Social Attitudes

Fieldwork dates: 2017-05-29 to 2018-04-10

Principal investigators: Betsy Blunsdon, Australian Consortium for Social and Political Research, Incorporated
Ann Evans, Australian National University
Steven McEachern, Australian National University
Nicola McNeil, Latrobe University

Sample type: One-stage systematic random sample

Fieldwork institute: Australian Consortium for Social and Political Research, Incorporated

Fieldwork methods: Mail (SC, mailed to, mailed back by Respondent)

N. of respondents: 1317

Details about issued sample:

Please follow the standards laid down in AAPOR Standard Definitions:
http://www.aapor.org/AAPOR_Main/media/publications/Standard-Definitions20169theditionfinal.pdf
The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.

1. Total number of starting or issued names/addresses (gross sample size) *	5000
2. Interviews (1.0)	1317
3. Eligible, Non-Interview	3406
A. Refusal/Break-off (2.10)
B. Non-Contact (2.20)
C. Other	
i. Language Problems (2.33)
ii. Miscellaneous Other (2.31, 2.32, 2.35)
4. Unknown Eligibility, Non-Interview (3.0)	0
5. Not Eligible	277
A. Not a Residence (4.50)
B. Vacant Residence (4.60)
C. No Eligible Respondent (4.70)
D. Other (4.10,4.90)

* When new sample units are added during the field period via a new dwelling units list or other standard updating procedure, these additional issued units are added to the starting number of units to make up the total gross sample size. Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases.

Language(s): English

Weight present: Yes

Weighting procedure: A post-stratification or non-response weight was calculated with the aim of rebalancing the Australian sample so the weighted sample frequencies are equal to the expected frequencies in population in a the three-way tabulation by age group (five groups), sex, and highest level of education (five levels) .
The cross tabulation by age, sex and highest level of education from

the Australian population was done using the 2016 Census Table Builder. A table was created using sex and age (single years) in the rows, and Australian Citizenship, and education in the columns. The final table was created by excluding those who did not have Australian citizenship (this included those who did not state their citizenship). Individuals with no stated year of schooling and schooling up to and including year 12 were combined into one category.

In the sample not all individuals had complete information on both age, sex and year of schooling. However imputations of weight were used to deal so that all individuals were assigned a weight even if they had missing data.

When age was missing, in some cases, this was imputed from other information available in the questionnaire. If age was missing but the person was retired, the respondent's age was estimated to be equal to the mean for retired people of that sex. For people who were missing on gender, they had a weight allocated to them that was the average of the weights over gender for their level of education and age. To avoid extreme weights, the weights were trimmed at the 1 per cent and 99 per cent level, before being rescaled so that they averaged to one across all cases in each subsample.

*Known systematic
properties of sample:*

Gross sample

Using a sampling frame derived from the AEC Electoral Roll (2016) excludes permanent and temporary residents of Australia (who are not citizens) and any other adults in Australia who are non-citizens except for British subjects on a Commonwealth electoral roll as at 25 January 1984. These exclusions amount to approximately 8 percent of the adult population. Citizens are able to provisionally enrol at the age of 17 but are unable to vote until they turn 18.

Net sample

The sample demographics were compared with statistics available from the Australian Bureau of Statistics (ABS) including the 2016 Census. The major biases are: age (median age is older than the Census population), education (under-representation of persons who had only completed year 10 or below).

Sample type:

Sampling-procedure: A representative sample (simple random sample) was drawn from the Central Population Register (CPR) – which is a national register of all Danish citizens – from which respondent's name and address were identified. Thus, the sampled unit was 'named individuals'.

*Fieldwork methods:*Data collection:

May 15 – digital mails were sent to the respondents through E-boks which is a digital mailbox. The mail contained a link to a web questionnaire.

May 29-September 2 – Follow-up phone calls, encourage to answer the web questionnaire. During this period mail addresses for non-responding respondents were collected. Follow-up mails were sent to respondents, who were not be reached by phone.

N. of respondents:

1079

Details about issued sample:

Please follow the standards laid down in AAPOR/WAPOR, Standard Definitions: http://www.aapor.org/uploads/standarddefs_4.pdf. The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.

1. Total number of starting or issued names/addresses (gross sample size) *	<u>2500</u>
2. Interviews (1.0)	<u>1079</u>
A. Complete Interviews (1.1)	1010
B. Partial interviews (1.2)	69
3. Eligible, Non-Interview	<u>1094</u>
A. Refusal/Break-off (2.10)	345
B. Non-Contact (2.20)	683
C. Other	66
i. Language Problems (2.33)	39
ii. Physically or mentally unable (2.32)	24
iii. Miscellaneous Other (2.31, 2.35)	3
3. Unknown Eligibility, Non-Interview (3.0)	<u>327</u>
4. Not Eligible	
A. Not a Residence (4.50)
B. Vacant Residence (4.60)
C. No Eligible Respondent (4.70)
D. Other (4.10,4.90)

2017-25-11

* When new sample units are added during the field period via a new dwelling units list or other standard updating procedure, these additional issued units are added to the starting number of units to make up the total gross sample size. Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases. See AAPOR/WAPOR Standard Definitions, pp. 9-10 for further clarification.

Language(s): Danish

Weight present: Yes.

Weighting procedure: Post-stratification weight based on sex and age (age groups: 18-25, 26-35, 36-45, 46-55, 56-65, older than 65).

Known systematic properties of sample: Due to nonresponse, age groups 18-25 and 26-35 are a bit under-represented in the net sample. Especially men within these age groups are under-represented.

Deviations from ISSP questionnaire: Supplementary obligatory background variables missing (v59 + v60) due to miscommunication with the Danish data collection agency.

Publications: None.

Study Description**

ISSP Study Description Form

Please use this form for reporting on Module 2006 and later!

Study title: Social networks and social resources/Redes sociales (ISSP)

Fieldwork dates: (this module has been fielded together with the 2018 Religion)

Principal investigators: Mónica Méndez Lago (mmendez@cis.es) / María Cuesta (mcuesta@cis.es)

Sample type: Stratified two-stage sample design. The strata are obtained by crossing two population classification criteria. The first criterion is the Autonomous Community, or region of residence. There are 17 of them plus another one grouping the North-African autonomous cities of Ceuta and Melilla. The second criterion used is the size of habitat classified in seven brackets: "2,001 inhabitants or less/2,001-10,000/10,001-50,000/50,001-100,000/100,001-400,000/400,001-1,000,000-1,000,001 and over".

Primary sampling units are census sections. They are randomly selected within each strata proportionally to the resident population aged 18 and over. Individuals within census section are selected from each section by the National Statistics Institute (Instituto Nacional de Estadística INE, National Statistical Institute) using a systematic selection procedure. To avoid the selection of members of the same household, the list is ordered by dwelling number.

The sampling frame used is the Continuous Population Register (Padron Continuo), as of January 2017.

Fieldwork institute: Centro de Investigaciones Sociológicas

Fieldwork methods: Face to face, PAPI

N. of respondents: There are 1733 respondents in the final ISSP file.

<p><i>Details about issued sample:</i></p> <p>Please follow the standards laid down in AAPOR/WAPOR, Standard Definitions: http://www.aapor.org/uploads/standarddefs_4.pdf. The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.</p>	1. Total number of starting or issued names/addresses (gross sample size) *	3000
	2. Interviews (1.0)	1733

Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases. See AAPOR/WAPOR Standard Definitions, pp. 9-10 for further clarification.

** Estimates of fieldwork results of non-achieved interviews based on the latest information sent by interviewers during fieldwork and on the projections from the ISSP 2016 Role of Government figures.

Language(s): Spanish

Weight present: Yes

Weighting procedure: There are two variables included in the dataset “DESIGNWEIGHT” and “WEIGHT”. The main goal of the design weight is to correct for the fact that some respondents have different probabilities than others to be part of the sample due to the sampling design used, so it refers to the correction of inclusion probabilities.

The variable “WEIGHT” corresponds to the design weights corrected by response rates according to the stratification variables (NUT'S II regions (Autonomous Communities, CCAA (E_REC) and size of municipality (Tamaño de habitat).

Algorithm:

$$\hat{P} = \frac{1}{n^r} \cdot \sum_{h=1}^H \sum_{k=1}^K \sum_{i=1}^{n_{h,k}^r} w_{i,h,k} \cdot y_{i,h,k}$$

where,

n^r , is the size of the sample collected

$n_{h,k}^r$, is the size of the sample collected in strata h,k

$w_{i,h,k}$: final weight, defined as

$$w_{i,h,k} = \frac{1}{N} \cdot \frac{1}{\pi_{i,h,k}^*} \cdot n^r = \frac{1}{N} \cdot \frac{1}{\pi_{i,h,k} \cdot r_{h,k}} \cdot n^r = \frac{n^r}{N} \cdot \frac{N_{h,k}}{n_{h,k}^r}$$

where,

π_i , is the inclusion probability for i element

$r_{h,k}$, is the response rate in the strata h,k

$N_{h,k}$, is the population size in the strata h, k ; and,

N , is the population size.

*Known systematic
properties of sample:*

Language(s): Finnish questionnaire (95,2 % of total sample)
Swedish questionnaire (4,8 % of total sample)

Weight present: Yes

2018-03-13

Weighting procedure: The design of the survey was systematic sampling. In order to improve the efficiency of estimation and to reduce bias due to non-response a calibration method was used for the creation of the weights.

The following marginal distributions of the population were used:

- 1) gender (male, female),
- 2) age classes (15–24, 25–34,..., 65–74),
- 3) NUTS3 regions with following modifications: the Greater Helsinki Area was dealt as a separate region,
- 4) type of community (urban - semi-urban - rural).

Weight expands the results to the population level (the sum of the weights is the size of the population aged 15 to 74).

Known systematic properties of sample: Sampling frame is updated and covers total population with the appropriate language restriction. A cross-sectional sample does not contain attrition by definition.
After having used our standard sampling procedures for over 20 years, we have not encountered any bias due to using systematic sampling. Design effect of the sampling procedure ≤ 1 by definition.

Deviations from ISSP questionnaire: List of deviations and coding specifications compared to ISSP source questionnaire:
- AGE (at the end of year 2017)
Age is computed from a variable for year of birth in the Finnish questionnaire.

ISSP Study Description Form

Please use this form for reporting on Module 2006 and later!

Study title: British Social Attitudes 2017

Fieldwork dates: 2017-07-10 to 2017-11-12

Principal investigators: Liz Clery, Miranda Phillips
National Centre for Social Research

Sample type: Adults aged 18+ living in private households in Great Britain excluding areas north of the Caledonian Canal. Clustered random sample: addresses were selected in a stratified clustered design. One person aged 18+ was interviewed per address. If there are more than two adults at an address, the adult to be interviewed is selected randomly.

Fieldwork institute: National Centre for Social Research

Fieldwork methods: The ISSP module is implemented as a self-completion questionnaire, completed by the respondent after the main face-to-face interview and collected by the interviewer or posted by the respondent.

N. of respondents: 1595

Details about issued sample:

Please follow the standards laid down in AAPOR Standard Definitions:
http://www.aapor.org/AAPOR_Main/media/publications/Standard-Definitions20169theditionfinal.pdf
The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.

Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases.

Language(s): English

Weight present: Yes

Weighting procedure: Selection weights are required because not all the units covered in the survey had the same probability of selection. The weighting reflects the relative selection probabilities of the individual at the three main stages of selection: address, DU and individual. First, because addresses in Scotland were selected using the MOI, weights

were needed to compensate for the greater probability of an address with an MOI of more than one being selected, compared with an address with an MOI of one (this stage was omitted for the English and Welsh data). Secondly, data were weighted to compensate for the fact that a DU at an address that contained a large number of DUs was less likely to be selected for inclusion in the survey than a DU at an address that contained fewer DUs (we used this procedure because in most cases where the MOI is greater than one, the two stages will cancel each other out, resulting in more efficient weights.) Thirdly, data were weighted to compensate for the lower selection probabilities of adults living in large households, compared with those in small households.

At each stage the selection weights were trimmed to avoid a small number of very high or very low weights in the sample; such weights would inflate standard errors, reducing the precision of the survey estimates and causing the weighted sample to be less efficient. A maximum of 1% of the selection weights were trimmed at each stage.

It is known that certain subgroups in the population are more likely to respond to surveys than others. These groups can end up over represented in the sample, which can bias the survey estimates. Where information is available about non-responding households, the response behaviour of the sample members can be modelled and the results used to generate a non-response weight. This non-response weight is intended to reduce bias in the sample resulting from differential response to the survey.

The data was modelled using logistic regression, with the dependent variable indicating whether or not the selected individual responded to the survey. Ineligible households¹ were not included in the non-response modelling. A number of area-level and interviewer observation variables were used to model response. Not all the variables examined were retained for the final model: variables not strongly related to a household's propensity to respond were dropped from the model.

The variables found to be related to response, once controlled for the rest of the predictors in the model, were: region, type of dwelling, whether there were entry barriers to the selected address, the relative condition of the address and population density. The model shows that response increases if there are no barriers to entry (for instance, if there are no locked gates around the address and no entry phone) and if the general condition of the address is better than other addresses in the area, rather than being about the same or worse. Response is also higher for flats than detached houses. Response increases if the relative condition of the immediate surrounding area is mainly good, and decreases as population density increases. Response is also generally higher for addresses in Yorkshire and The

¹ This includes households not containing any adults aged 18 or over, vacant dwelling units, derelict dwelling units, non-resident addresses and other deadwood.

Humber.

The non-response weight was calculated as the inverse of the predicted response probabilities saved from the logistic regression model. The non-response weight was then combined with the selection weights to create the final non-response weight. The top 1% of the weight were trimmed before the weight was scaled to the achieved sample size (resulting in the weight being standardised around an average of one).

The final stage of weighting was to adjust the final non-response weight so that the weighted sample matched the population in terms of age, sex and region.

The survey data were weighted to the marginal age/sex and region distributions using calibration weighting. As a result, the weighted data should exactly match the population across these three dimensions.

The calibration weight is the final non-response weight to be used in the analysis of the 2017 survey; this weight has been scaled to the responding sample size.

Sample excludes Scotland north of the Caledonian Canal.

ISSP Study Description Form***Please use this form for reporting on Module 2006 and later!****Study title:* Social Networks ISSP 2017*Fieldwork dates:* 2017-07-20 – 2017-08-25*Principal investigators:* Dinka Marinović Jerolimov, Institute for Social Research, Zagreb Croatia

Sample type: Sampling frame: list of settlements derived from Census 2011. Stratified random multi-staged sample: level of settlements, level of household, level of individual.

Two-way stratification: by 6 regions (defined as the traditional groups of counties) and 4 settlement sizes (defined by the number of residents). The size of each stratum is based on the proportion of the number of 18+ residents within the stratum in the total 18+ population.

Multistage sampling procedure:

1. Selection of primary sampling units (settlements) was conducted by the “probability proportionate to size” method. Each settlement had a probability of being in the sample proportionate to its population size. The selection of settlements was based on a random sampling procedure. All settlements in a stratum were alphabetically ordered and their respective populations were cumulated. Assignment of random numbers from cumulative population of all settlement was conducted. Those settlements under which randomly assigned numbers fell into were chosen. Within each primary sampling unit, the “random starting points method” was used to select starting points. There were 100 starting points in total. On average allocation of 10 respondents was assigned to each starting point.
2. Selection of households within the starting points was conducted by the “random walk method”. Interviewers were instructed to follow a specified route from the starting point, conducting an interview at every 6th dwelling/housing unit (systematic sampling). Non-contacts were re-visited 5 times before being declared as non-response.
3. Selection of the respondent within a household was conducted by random selection by last birthday key.

2017-10-28 to 2017-11-05

Principal investigators: name and institution
Hiroshi ARAMAKI, Hiroko MURATA (NHK Broadcasting Culture Research Institute)

Sample type: description of the sampling procedure
Two-stage stratified random sample of residents of Japan 18 or older. First, urban and rural areas are divided into a number of groups (strata) based on similarities in local features and industrial structures. From each of those groups, streets and village-sections are again grouped together to form sampling units. From among such sampling units, 200 survey spots are selected at random. Then, from *the Basic Resident Registers* for these spots, 12 sample individuals aged 18 or over are selected according to a fixed random number.

Study title: Evaluations Of Social Networks and Social Welfare in Lithuania: Implementation of International Social Survey Programme (parts of the survey: “Social Policy and Societal wellbeing”, ISSP module “Social Networks III 2017”, “e.social networks“).

Fieldwork dates: *Start: 2018-07-14*
End: 2018-07-31

Principal investigators: *Prof. Algis Krupavičius, Vytautas Magnus University*

Sample type: description of the sampling procedure
Multistage. First stage - The territory of the Republic of Lithuania divided into 10 administrative units (counties) based on Nomenclature of Territorial Units as used in the official EU statistics. Each county is represented in the sample proportionally to its population size. Second stage - The total number of interviews in each survey region (county) allocated to 6 strata in proportion to the population of each stratum. The stratum is defined on the basis of a settlement size. Third stage – number of PSU’s (“PSU” -clusters) allocated by size of settlement depending on the share of population living in a certain type of settlement. PSU’s selected randomly from each stratum (county and settlement size combination cell) list. In total 109 for this survey. Selection to identify household – random route procedure; respondent – 18+years, last birthday.

<i>Weight present:</i>	yes or no, whether a weighting factor exists in the data-set <i>Yes</i>
<i>Weighting procedure:</i>	exact description of the weighting procedure / algorithm <i>Weighting factor: Interlocking grid: sex by age by type of settlement Three above variables used for data weighting. Statistics on percentage of males and females of different age groups counted and used in counts of weighing factor as required total. Weighting factor is counted by required total for the group (e.g. males aged 20-29y. living in rural area) by the achieved survey sample total for this group. Weight factor makes survey sample representative of the total population by gender, age and urban/rural population. Second step: weighting data by the settlement size. At this step percentage of the residents of major cities (Vilnius, Kaunas, Klaipeda, Siauliai and Panevezys), other towns and rural area is counted based on official statistics as required total. Finally weighting factor is counted by dividing the required total for each city or settlement size. This weight makes survey sample representative of the population by gender, age and settlement size.</i>

Study title: Social Networks III (2017 ISSP Module)

Fieldwork dates: 2018-07-26 to 2018-08-13

Principal investigators: Research team of Instituto de Mercadotecnia y Opinión (IMO) integrated by César Morones, Mauricio Morán and Felipe Palacios.

Sample type: The survey was based upon a multi stage stratified random sample through one partition of the universe of the national population aged 18 years and over, and three selection stages for the urban and the rural cases.

The partition within each stratum the universe was divided by urban (more than 2,500 inhabitants) and rural zones (less than 2,500 inhabitants).

First selection stage: After the assigned cases for stratum, AGEB's were selected.

Second selection stage: Within each selected AGEB were chosen the households.

Third selection stage: It was selected the individual respondent by using the Kish Grid Method.

The AGEB means Basic Geo-Statistic Area, they are perfectly defined geographical units and with inhabitants group with known demographic and economic variables, its delimitation is smaller than the municipality and it facilitates studies for clusters.

Fieldwork institute: Instituto de Mercadotecnia y Opinión (IMO).

Fieldwork methods: Face to face interviews.

ISSP Study Description Form

Please use this form for reporting on Module 2006 and later!

Study title: 2017 International Social Survey Programme (ISSP) for New Zealand

Fieldwork dates: 2017-04-12 to 2017-08-22

Principal investigators: Dr Barry Milne

Sample type: Based on the NZ electoral roll (which includes New Zealanders 18 years and older), 14768 were randomly selected as the initial sample. Each person was categorized into one of the nine strata defined by the response rate patterns from the 2016 ISSP for New Zealand. A random sample was selected from each strata to be mailed out a survey. The number selected from each strata was inversely proportional to their (estimated) likely response rate. The final mail-out sample consists of 3876 participants whom were invited by post (mail survey) to take part in the study (ethical approval granted by university committee; ref: 018740). After the initial mail out (2017-04-12), for those yet to complete the survey, a reminder postcard was sent on 2017-05-15. Final sample size of 1358 was collected at 2017-08-22.

Fieldwork institute: Centre of Methods and Policy Application in the Social Sciences (COMPASS) (The University of Auckland, NZ)

Fieldwork methods: (a) Mailed (posted) and (b) online (www.surveymonkey.com) options.

N. of respondents: 1358

Details about issued sample:

Please follow the standards laid down in AAPOR Standard Definitions:
http://www.aapor.org/AAPOR_Main/media/publications/Standard-Definitions20169theditionfinal.pdf
 The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.

1. Total number of starting or issued names/addresses (gross sample size) *	3876
2. Interviews (1.0)	1358 (211 - Online 1147 - Offline)
3. Eligible, Non-Interview A. Refusal/Break-off (2.10) B. Non-Contact (2.20) C. Other i. Language Problems (2.33) ii. Miscellaneous Other (2.31, 2.32, 2.35)	180 (Invalid address/overseas) 155 (Refused) 2163 (Did not return) 0 20 (2 deceased, 18 unable)
4. Unknown Eligibility, Non-Interview (3.0)	0
5. Not Eligible A. Not a Residence (4.50) B. Vacant Residence (4.60) C. No Eligible Respondent (4.70) D. Other (4.10,4.90)	0 0 0 0

* When new sample units are added during the field period via a new dwelling units list or other standard updating procedure, these additional issued units are added to the starting number of units to make up the total gross sample size. Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases.

Language(s): English

Weight present: Yes

Weighting procedure: Demographic and geographic variables were supplied by the electoral roll that allowed us to determine whether or not the sample respondents were representative of the initial 14768 electoral sample. The seven variables used to compare were sex, age, Māori descent, region, urbanicity, NZ Deprivation Index quintiles, and occupation.

Comparisons revealed that the 1358 sample was over-representing female, contained fewer individuals living in Auckland and more in Canterbury, over-representing those from professional occupations and slightly under-representing those living in most deprived areas.

To account for this pattern of over- and under-representation, weights were computed based on the inverse probability of responding. This was achieved by conducting a logistic regression with responded (yes/no) as the outcome. With sex, occupation, region included as predictors. Sex was included in the model to ensure that the weights did not inadvertently over-weight one sex relative to the other, and also to allow for the possibility of sex interactions. A main effects model was first computed, and then all

2016-09-09

two-way interactions were tested in separate models. One interaction was found to be significant, gender x occupation. This interaction and all the main effects were included in the final model.

From the final model, a predicted probability of response was generated for each respondent based on their covariates. This probability was then inverted and standardised to have mean=1 to form a response weight, which ranged from 0.49 – 2.80 across the n=1358 respondents. The effect of weighting variable was then assessed. This was done by applying the weighting variable to the 1358-case dataset and comparing the result with the 14768 electoral roll random sample. All percentage counts appeared equivalent across the samples.

Weighting procedure: exact description of the weighting procedure / algorithm

To yield representative figures at the national level, census-based population weights are applied to the survey data. The weight projection is computed by dividing the projected population in the area by the sample size of the same area. Appropriate projected factors were applied so that original population proportions were reflected in the data tables using this formula.

	Projection factors (Weight)	Population No. of Interviews	
	2018 NSO Projected Population Age 18 and above	Total Sample Size (1200)	Projection factor for 1 probability Respondent (000)
NCR	8,885,216	300	29.6173871948
Luzon	28,320,739	300	94.4024636689
Visayas	12,438,291	300	41.4609703354
Mindanao	14,443,023	300	48.1434095965
	-----	-----

Study title **ISSP
2017 Module on
Social Networks
and Social
Resources**

:

Fieldwork dates: 2017-10-12 till 2017-10-18
please use format yyyy-mm-dd

*Principal
investigators:* Ludmila Khakhulina

Sample type: The module ““Social Networks and Social Resources”
was fielded as a part of a larger survey - the omnibus survey “The
Courier” which is based on the nationwide, multi-stage, stratified and
probability sample (N=1560) that represents the adult population in
age 18+ .

On the first stage urban settlements and rural administrative districts
as primary sampling units were selected.

Stratification. The nationwide sample (N=1560) was divided among:

- a) 8 federal regions (1 - North-Western, 2 - Central, 3 -Volga, 4
- Southern, 5 - North Caucasian, 6 - Ural, 7 - Siberian, and 8 -
Far Eastern)
- b) within each district – among 5 strata of settlements
proportionally to a number of its population in age of 18+
years:
 - 1) cities > 1,000 000 inhabitants
 - 2) cities 500 000 - 1,000 000 inhabitants
 - 3) cities 100 000 – 500 000
 - 4) urban settlements < 100 000 inhabitants
 - 5) rural settlements

If to take into account that in the North-West region there are no
cities of 500-1,000 thousands of residents, in the Far East region there
are no cities of more then 1,000 thousands of residents, in North
Caucasia there are no cities more then 500,000 residents the total
number of strata is 37.

Selection of primary sampling units (PSUs). All cities over
1,000,000 inhabitants are included in the sample as self-
representative units.

Urban settlements and rural districts were considered as primary
sample units (PSUs). In each stratum (except stratum of cities over
1,000,000 inhabitants) the number of PSUs was calculated with the
limitation of 7-13 interviews per PSU and the PSUs as well are
selected with the probability proportionally to the size (PPS). The
total numbers of interviews accounted for a stratum were distributed
approximately equally among selected PSUs. Totally 131 PSUs are
selected including 95 urban and 36 rural PSUs.

On the second stage the secondary sampling units (SSUs) are randomly selected from the lists of electoral districts (blocks, streets) in urban settlements and villages in rural districts.

The number of surveyed SSUs was defined by condition of 7-13 interviews per SSU (at least 2 SSUs per PSU; 12 SSUs were selected in Moscow, 5 SSUs - in S-Petersburg).

Totally about 278 SSUs are selected.

On the third stage the households are selected by a random route method.

On the fourth stage one household member is selected by the next birthday to the date of the interview.

If members of a household refuse to participate in the survey, an interviewer is required to visit the next address from the route list. If nobody at home or a member of a household selected as a respondent refused to participate in the survey, or if a household or a respondent was not achieved for a visit, the interviewer was required to follow the next address from the route list. Substitutions of addresses were not allowed.

Fieldwork institute: Levada-Center

Language(s): Russian

Weight present: Yes; a weighting factor exists in the data-set

Weighting procedure: The expected number N of respondents for a region/stratum was treated equal

$$N = N_0 * P,$$
 where N_0 - the sample size, P - the share of the population of a

region/stratum in the entire population.

The procedure of weighting was aimed at minimization of sum of squares of deviation of weighted survey data and statistical data by each of 9 socio-demographic groups by sex, age, education in each region/strata.

As a result of correction, every respondent $X[k]$ becomes supplied with definite weight coefficient $W[k]$ being within the limits $0 < W[k] < \sim 5$, so that the following conditions were valid :

- 1) the value of $\sum(W[k])$ for a region/stratum concerned was equal to N and
- 2) for every controlled socio-demographic group $G[i]$ the value $Q[i]$ - a proportion of a group $G(i)$ in the weighted survey data - was equal to $Q[i] = \sum(W[ik]) / N$, where $[ik]$ means that respondent R_k belongs to a group $G[i]$, and $Q[i] \sim P[i]$, $i=1,2,\dots,9$; i.e. $Q[i]$ is close to $P[i]$ where $P[i]$ was a proportion of a group $G[i]$ in the population of a region/stratum

The value of J serves as the criterion for minimization of the weights' coefficient variety

being equal to the sum of squares:

$$J = \sum((Q[i]-P[i])**2) + (\sum(W[k])/N - 1)**2 .$$

The set of values of J depends on the deviation of the survey data from the statistics. Used software programs are aimed at selecting the minimum value of J among them.

The weighting procedure is based on the Census 2010.

ISSP Study Description Form

Please use this form for reporting on Module 2006 and later!

Study title: Slovene Public Opinion Survey 2018
(Slovensko javno mnenje 2018)

Fieldwork dates: Start 2018-03-14 / End 2018-06-12

Principal investigators: Mitja Hafner-Fink, Brina Malnar; Public Opinion and Mass Communication Research Centre (CJMMK), University of Ljubljana.

Sample type: Universe: The adult residents of SR Slovenia, older than 18 years, living on permanent address.

Excluded: Institutionalised people.

Central Register of Population (a list of names and addresses constantly undated by public administration) is employed as a sampling frame.

Sampling procedure: The sample is two-stage stratified random sample from Central Register of Population. First stage PSU selection is made by probability proportional to size of CEA (Clusters of Enumeration Areas) (200 PSUs). CEA are stratified according to 12 regions*6 type of settlement. At second stage systematic random selection inside CEA brings fixed numbers of persons (200x10=2000) with name and address. All units at the second stage (individuals) have known probability of selection (equal for units in the same CEA).

Fieldwork institute: Public Opinion and Mass Communication Research Centre (CJMMK), University of Ljubljana.

Fieldwork methods: CAPI (Computer Assisted Personal Interviewing)

N. of respondents: 1047

<i>Details about issued sample:</i> Please follow the standards laid down in AAPOR Standard Definitions: http://www.aapor.org/AAPOR_Main/media/publications/Standard-Definitions20169theditionfinal.pdf The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.	1. Total number of starting or issued names/addresses (gross sample size) *	2000
	2. Interviews (1.0)	1047
	3. Eligible, Non-Interview	
	A. Refusal/Break-off (2.10)	470
	B. Non-Contact (2.20)	227
	C. Other	
	i. Language Problems (2.33)	13
	ii. Miscellaneous Other (2.31, 2.32, 2.35)	88
	4. Unknown Eligibility, Non-Interview (3.0)	0
	5. Not Eligible	
	A. Not a Residence (4.50)	39
	B. Vacant Residence (4.60)	3
	C. No Eligible Respondent (4.70)	113
	D. Other (4.10,4.90)	0

2018-01-24

* When new sample units are added during the field period via a new dwelling units list or other standard updating procedure, these additional issued units are added to the starting number of units to make up the total gross sample size. Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases.

5. Not Eligible A. Not a Residence (4.50) B. Vacant Residence (4.60) C. No Eligible Respondent (4.70) D. Other (4.10,4.90)	308

* When new sample units are added during the field period via a new dwelling units list or other standard updating procedure, these additional issued units are added to the starting number of units to make up the total gross sample size. Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases.

Language(s): Slovak

Weight present: yes

Weighting procedure: Weight was constructed according to the stratification criteria (8 counties and 3 community / municipality categories by size) following demography characteristics: age group (7 categories), education (4 categories) and sex. No characteristics were combined in the procedure. An internal program of the fieldwork agency was used for weighting. Weight was limited to the interval 0,5 to 2.

Known systematic properties of sample: Respondents not speaking Slovak language and those living in non-private accommodation were not included. People from the lowest and from the highest educational group were under-represented.

2016-09-09

Study title: Opinions on Social Issues in Suriname

Fieldwork dates: start and end dates of field-work: 2018-01-11 to 2018-06-21

Principal investigators: Drs. Tamira Sno, Anton de Kom University of Suriname

Sample type: The sample was obtained from ABS (General Bureau of Statistics Suriname). It consisted of the following steps:

- Strata: all 13 (sub-)districts * urban/rural subdistricts were represented.
- Clusters: 94 PSU's were randomly selected within the subdistricts, proportional to size.
- For each PSU 20 (in urban areas) and 30 (in rural areas) addresses were obtained, using systematic random sampling within PSU (addresses are ordered by location). In the Interior subdistricts, where there is no proper address system, names of head of households substituted the addresses.
- Interviewers obtained a response form with the address or name of head of household. In case an address was uninhabited, they were instructed to go for the nearest inhabited dwelling to the right.
- Within household: selection was random by a birthday method. Each response form contained a random date and interviewers were instructed to interview the household member aged 21-74, whose birthday was first after this random date.

Fieldwork institute: Anton de Kom University of Suriname

Fieldwork methods: Face-to-face interviews and leave behind

N. of respondents: 1273

<i>Details about issued sample:</i> Please follow the standards laid down in AAPOR/WAPOR, Standard Definitions: http://www.aapor.org/uploads/standarddefs_4.pdf . The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.	1. Total number of starting or issued names/addresses (gross sample size) *	1904

2019-02-05

substitute cases. See AAPOR/WAPOR Standard Definitions, pp. 9-10 for further clarification.

Language(s): Dutch

Weight present: yes

Weighting procedure: The file contains two post-stratification weights

www1 reflects response patterns and is proportional inverse to the response rate by stratum.

www2 reflects response patterns within households and is constructed using information from the household box: position in household, gender, age, education and main activity. The weight is the inverse of response rates per category, being 1 for households with only 1 eligible adult (or no information).

Both weights are rescaled to an average of 1.00. The overall weight **www** is constructed as $www1 * www2$.

Known systematic properties of sample: NA

Deviations from ISSP questionnaire: URBRURAL was omitted, because it did not seem applicable to the Surinamese situation.

Study Description**

ISSP Study Description Form***Please use this form for reporting on Module 2006 and later!****Study title:* International Social Survey Programme: 2017 Social Networks III*Fieldwork dates:* Start at 2017-06-01 and end at 2017-08-09*Principal investigators:* Thawilwadee Bureekul, King Prajadhipok's Institute, Thailand
Stithorn Thananithichot, King Prajadhipok's Institute, Thailand
Ratchawadee Sangmahamad, King Prajadhipok's Institute, Thailand*Sample type:* The sampling technique used in this survey is multi-stage systematic random sampling. For the purpose of this survey, the country was divided in five regions corresponding to the four regions of Thailand from which Bangkok was extracted to be considered as a region in itself.
1) For the first stage of sampling, a list of district per region was randomly selected whose number per region was determined in proportion to the population of the region.
2) The second stage consisted in randomly selecting a number of sub-district in each district in proportion to the population in the selected district per region
3) The third stage of sampling determined the number of people to be surveyed according to the number of selected sub-district per region
4) The last stage, the respondents were selected from the selected sub-district, using the systematic sampling.

Target population: Thai voting-age adults (18 years old and above), who had registered in the household system in Thailand Province. The baseline information and addresses were drawn from the household information compiled by Community Development Department. For the respondents in Bangkok, the baseline information and addressed were from District Offices.

Fieldwork institute: King Prajadhipok's Institute
A network of local university professors in each region*Fieldwork methods:* Face-to-face interview*N. of respondents:* number of respondents in the final ISSP file: 1,500*Details about issued sample:*Please follow the standards laid down in AAPOR Standard Definitions:

PLEASE NOTE:

For Thailand, the implemented test routines for duplicated records detected several matches. A considerable number of records showed similar responses with more or less identical answers to all module variables. This answer pattern occurred mainly in the south region.

After consultation with the Principal Investigators for Thailand all records were kept because Thailand explained the existence of the high overlap in responses in the south region by the following factors:

- a. The population is homogenous in its attitudes and situation in life.
- b. Some interviews seem to have been done in public settings where a collectivist culture reinforced homogeneity.
- c. The civil strife and suspicion of outsiders, including interviewers, affected responses, perhaps by increasing acquiescing.

**South Africa
ISSP 2017 –
Social Networks and Social Resources
Study Description**

ISSP Study Description Form***Please use this form for reporting on Module 2006 and later!****Study title:* South African Social Attitudes Survey (SASAS)*Fieldwork dates:* start dates: 2017-11-01, end date 2018-01-29*Principal investigators:* Jare Struwig –Human Sciences Research Council

Sample type: A sample of 3500 respondents was selected throughout South Africa in 500 census enumerator areas (SALs) as determined in the 2001 census. Each SAL was classified in terms of the dominant lifestyle category by the Human Sciences Research Council (HSRC) in its analysis of the 2011 census data. In order to ensure adequate representation in the sample from each province and from each of the four dominant population groups, the sample was stratified by province and by population group. Disproportionately large samples were selected from areas known to be inhabited by the two smallest components of the population, namely (i) areas with dominantly Indian populations and (ii) the Northern Cape. Within the SALs, the households were randomly selected and within the household, the respondent were selected using a Kish grid.

Fieldwork institute: Human Sciences Research Council*Fieldwork methods:* Face to face*N. of respondents:* 3098:*Details about issued sample:*

Please follow the standards laid down in AAPOR Standard Definitions:

* When new sample units are added during the field period via a new dwelling units list or other standard updating procedure, these additional issued units are added to the starting number of units to make up the total gross sample size. Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases.

2019-08-01

Language(s): English, Afrikaans, Tsonga, Tswana, Xhosa, Zulu

Weight present: Yes

Weighting procedure: Explicit stratification variables: Province, population group and geography type (viz. urban formal, urban informal, tribal and rural formal, including commercial farms).

The SAL (small area layers) is used as PSU (primary sampling unit) and the number of households (HHs) in the SAL as the MOS (measure of size). SAL's are drawn within the explicit strata pps and a fixed number of households drawn per drawn SAL. Within each drawn HH one person 16 years or older is drawn at random using Kish's grid.

Non-response adjustment = number of drawn HHs per SAL / number of responding HHs (i.e. where a person 16+ is successfully interviewed) provided that at least 50% of households responded. Otherwise two similar (i.e. in the same explicit stratum) and neighbouring SALs are combined and a combined adjustment factor calculated.

Person and household weights are benchmarked using the SAS CALMAR macro and province, population group, gender and 5 age groups (i.e. 16-24, 25-34, 35-49, 50-59 and 60 and older) as benchmark variables for persons and province and population group of the respondent in the household for households as benchmark variables. The marginal totals for the benchmark variables are obtained from the applicable midyear estimates as published by Statistics South Africa. In other words, the estimated South African population for the applicable year is used as target population.

Rescaling not explicitly but only implicitly

I assume that this question relates to whether sample sizes are rescaled with the view to do cross-tabulating analyses using STATA. Sub-class analyses are done by using SAS surveymeans, using the "domain" facility.

Known systematic properties of sample: Disproportionately large samples were selected from areas known to be inhabited by the two smallest components of the population, namely (i) areas with dominantly Indian populations and (ii) the Northern Cape

SCHOOL DEGREES (GROUPS) ²

Still at School	2 544 000
Lowest formal qualification of Germany's tripartite secondary school system, after 8 or 9 years of schooling	21 465 000
Intermediary secondary qualification, after 10 years of schooling	16 360 000
Intermediary secondary qualification, after 10 years of schooling in the former GDR	4 698 000
Higher qualification, entitling holders to study at a university or a polytechnical college	22 543 000
No answer on type of degree	93 000
Without general school education ³	2 849 000
Total ⁴	70 688 000

VOCATIONAL AND UNIVERSITY DEGREES

Certificate from dual vocational training system	33 608 000
Specialized vocational college certificate	5 560 000
Specialized vocational college certificate from former DDR	641 000
Bachelor	1 536 000
Master	969 000
Diploma	9 088 000
Doctoral Degree	823 000
No answer on type of vocational or university degree	98 000
Without vocational qualification	18 091 000
Total ⁵	70 688 000

² For distribution of school degree and vocational degree, see micro census, code 12211-0040 and code 12211-0041 date 05.03.19

Including population over 15 https://www-genesis.destatis.de/genesis/online/data:sid=BF49115C18BBA4D1A914D0E79B59033D.GO_2_1?operation=begriffsRecherche&suchanweisung=Schulabschluss&x=13&y=9

³ Including persons who have finished school after 7 years at a max

⁴ Including persons without information on general school education

⁵ Including persons without information on vocational qualification

EMPLOYMENT STATUS⁶

Employed ⁷	44 843 000
Unemployed ⁸	1 444 000
Not in labor force ⁹	36 550 000
Total	82 837 000

⁶ Results from 3th Quarter 2018, retrieved on 14.02.2019

<https://www.destatis.de/DE/ZahlenFakten/Indikatoren/Konjunkturindikatoren/VolkswirtschaftlicheGesamtrechnungen/vgr910.html>

⁷ Persons above 15 doing income-producing work, as an employee, self-employed or working for their own family's business, for at least one hour per week.

⁸ Persons aged 15 to 74 who are looking for a job and are immediately available.

⁹ "Not in labor force" also includes persons not engaged in economic activity who are looking for a job but are not immediately available. "Not in labor force" is calculated as difference between total population and (Employed + Unemployed)

**Denmark
