#### SEX - Sex of respondent

	National Language-GEO	English Translation
<i>Question no. and text</i>	წევრის სქესი	Sex of household member
<i>Codes/ Categories</i>	1. მამაკაცი	1. Male
	2. ქალი	2. Female
<i>Interviewer Instruction</i>	წევრის სქესი	Sex of household member
<i>Translation Note</i>		
	National Language-ARM	English Translation
<i>Question no. and text</i>	Անդամի սեռը	Sex of household member
<i>Codes/ Categories</i>	1 Տղամարդ	1 Male
	2 Կին	2 Female
<i>Interviewer Instruction</i>	Անդամի սեռը	Sex of household member
<i>Translation Note</i>		
	National Language-AZE	English Translation
<i>Question no. and text</i>	Cinsi	Sex of household member
<i>Codes/ Categories</i>	1 Kişi	1 Male
	2 Qadın	2 Female
<i>Interviewer Instruction</i>	Cinsi	Sex of household member
<i>Translation Note</i>		
<i>Note</i>	Field is conducted with Computer Assisted Personal Interviewing method, therefore interviewer specifies sex of all adult members of the household without asking question while filling Kish table. Therefore, there is no ‘no answer’ option.	

#### Construction/Recoding:

Country Variable Codes (in translation)	➔ SEX
For this variable no construction/recoding was made.	

# BIRTH – Year of birth

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR 'year of interview' minus AGE 'age of respondent'.

	National Language-GEO	English Translation
<i>Question no. and text</i>	#1 როდის ხართ დაბადებული?	#1 Year of birth
<i>Codes/ Categories</i>	1923-2002	1923-2002
<i>Interviewer Instruction</i>	გთხოვთ, გრაფაში ჩაწეროთ რესპონდენტის დაბადების წელი (დაბადების წლის მისათითებლად გამოიყენეთ ოთხი ციფრი)	Please, write down respondent's year of birth, (Please, use four digit number)
	National Language-ARM	English Translation
<i>Question no. and text</i>	#1 Ե՞րբ եք ծնվել :	#1 Year of birth
<i>Codes/ Categories</i>	1923-2002	1923-2002
<i>Interviewer Instruction</i>	Խնդրում ենք մուտքագրել հարցվողի ծննդյան տարեթիվը (Ծննդյան տարեթիվը մուտքագրելու համար օգտագործեք քառանիշ թիվ) :	Please, write down respondent's year of birth, (Please, use four digit number)
	National Language-AZE	English Translation
<i>Question no. and text</i>	#1 Nə vaxt anadan olmusunuz?	#1 Year of birth
<i>Codes/ Categories</i>	1923-2002	1923-2002
<i>Interviewer Instruction</i>	Zəhmət olmasa, qrafaya illərin sayını qeyd edin və ya lazım gələrsə „təhsilim yoxdur" qeyd edin	Please, write down respondent's year of birth, (Please, use four digit number)
<i>Translation Note</i>		
<i>Note</i>	For this variable no construction/recoding was made.	

**AGE - Age of respondent**

This question can be asked as an alternative to asking about BIRTH. If AGE is not asked directly, it must be computed by DATEYR 'year of interview' minus BIRTH 'year of birth'.

	National Language-GEO	English Translation
Question no. and text	ასაკი	Age
Codes/ Categories	18-97	18-97
	National Language-ARM	English Translation
Question no. and text	Անդամի տարիքը	Age
Codes/ Categories	18-97	18-97
	National Language-AZE	English Translation
Question no. and text	Yaş	Age
Codes/ Categories	18-97	18-97
Interviewer Instruction		
Translation Note		
Note	Field is conducted with Computer Assisted Personal Interviewing method, therefore interviewer specifies age of all adult members of the household without asking question while filling Kish table. Therefore, BIRTH variable was double-checked.

ISSP 2018 Georgia

### ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list. Please do **not** enter **standard** ISCO08 codes here, but report any deviations.

**However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

ISSP 2018 Georgia

**SPISCO08 – Spouse, partner: occupation ISCO 2008**

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations.

**However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

**SUBSCASE – Case substitution flag**

	National Language	English Translation
Question no. and text		
Codes/ Categories		
Interviewer Instruction		
Translation Note		
Note	This variable was created using technical variables such as psu number and res-response status	

**Filter Variable(s) and Conditions:**

--

**Construction/Recoding:**

Country Variable Codes/Construction Rules	→ SUBSCASE
Field is conducted with Computer Assisted Personal Interviewing method, therefore all skips are made automatically. Labels were added during data cleaning.	0. NAP, no substitution in this survey
Else	1. Case from original sample
If(psu=5350012 & res=1) or if(psu=5845031 & res=1)	2. Case substituted

**Optional: Recoding Syntax in STATA**

<pre>replace SUBSCASE=2 if psu==5350012 &amp; res==1 replace SUBSCASE=2 if psu==5845031 &amp; res==1</pre>
--

**WEIGHT – Weighting factor**

Please report on whether you calculate any weighting variables. If you adjust for non-response bias, please enter the variable(s) on which the sample's distribution(s) is (are) adjusted to the population distribution(s). Please, also report if you apply any kind of rescaling.

<i>Design weight to adjust for unequal selection probabilities</i>	No	[ ]
	Yes	[ X ]
<i>Weight to adjust for non-response bias</i>	No	[ ]
	Yes	[ X ] → <input type="checkbox"/> please specify variables used for calculation of weight <b>SEX and AGE</b>
<i>Are the final weights rescaled to net sample size (thus weighted sample size=unweighted sample size)?</i>	No	[ X ] → <input type="checkbox"/> please specify target population represented by sum of all case weights <b>2886862</b>
	Yes	[ ]
<i>Note</i>		

**Construction/Recoding:**

Country Variable Codes/Construction Rules	→ WEIGHT

**MODE – Administrative mode of data-collection**

<i>Note</i>	Field is conducted with Computer Assisted Personal Interviewing method, therefore all skips are made automatically.
