ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

<i>Question no. and text</i>	#88 Le prossime domande si occupano più in dettaglio della situazione lavorativa del/della Suo/a coniuge/partner. Se il/la Suo/a coniuge/partner ha più di un datore di lavoro, oppure se svolge sia un lavoro dipendente che un lavoro in proprio, si riferisca al suo lavoro principale. Se attualmente il/la Suo/a coniuge/partner è in pensione o comunque non sta lavorando, si riferisca all'ultimo lavoro che ha avuto. Il/la Suo/a coniuge/partner svolge/solveva un lavoro dipendente, lavora/va in proprio, o lavora/va come coadiuvante familiare?	#88 The next questions deal with some more details on your spouse's/partner's work situation. If he/she works for more than one employer, or if he/she is both employed and self-employed, please refer to his/her main job. If he/she is retired or not currently working, please refer to his/her last main job. Is/was your spouse/partner an employee, self-employed, or working for his/her own family's business?

	5. Coadiuvante familiare	5. Working for own family's business
	9. Non risponde	9. No answer
<i>Interviewer Instruction</i>	Per lavoratore/lavoratrice dipendente si intende anche lavoratore/lavoratrice salariato/a. Per lavoratore autonomo/lavoratrice autonoma si intende anche 'freelance', 'professionista indipendente', e tutte le altre persone che lavorano in proprio. Chiunque percepisca uno stipendio da altri, anche senza essere assunto, conta come lavoratore dipendente.	By employee we mean also wage employee. By self-employed we mean also 'freelancers', 'independent professionals', and other respondents working on their own account. We consider as an employee anyone who receives a salary by someone else (even if the former is not formally an employee of the latter).

SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.
