## INTRODUCTION

### Respondents who are younger than 11 years

Hi, I'm (Interviewer: NAME), your name is [NAME TARGET CHILD], right?

I think it's great that you're doing an interview with us! I'm going to ask you a few questions now. So don't worry, this is not a test and there are no right or wrong answers. Most questions are about you and your personal opinion.

Everything you say is between us. I won't tell anyone what you say. Not even your parents. This is why it's important that we do this interview alone.

If you don't want to answer a question, you can just say so.

Do you have any questions before we start? Then I'd like to start.

**Interviewer: If the answer format changes, please read out loud where applicable. During long series of questions, periodically ask the child if he/she still remembers all the answer categories –especially with elementary-school children.**

### Respondents who are older than 10 years

Hi, I'm (Interviewer: NAME), your name is [NAME TARGET CHILD], right?

I think it's great that you're doing an interview with us! In this study, we are interviewing children and teenagers with parents who live together and parents who don't live together. I'm going to ask you a few questions now. Most questions are about you and your family life. So don't worry, this is not a test and there are no right or wrong answers.

All your answers will be treated confidentially. Everything you say stays between us. This is why it's important that we do this interview privately.

If you don't want to answer a question, you can just say so.

Do you have any questions before we start? Then I'd like to start.
