ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

PARTLIV – Living in steady partnership

	National Language	English Translation
Question no. and text	BVQ_14. هل أنت متزوج؟	BVQ_14. Do you have a spouse or a steady partner and, if yes, do you share the same household?
Codes/ Categories	1. نعم، أنا متزوج و نعيش معا في نفس المنزل (اكمل في BVQ_16)	1. Yes, I am married and we live in same household
	2. نعم، أنا متزوج و لا نعيش معا في نفس المنزل (اكمل في BVQ_16)	2. Yes, I am married but we do not live in same household
	3. لا، أنا غير متزوج (اكمل في BVQ_22)	3. No, I am not married
Interviewer Instruction		
Translation Note		
Note	This is mostly a Muslim society in which no other form of union between a man and a woman is socially and legally recognised, except marriage (i.e., the traditional marriage between a man and a woman). 'Partner' refers in the table below solely to legal husband/ wife relationship. Separation through 'divorce' though legal, remains mostly socially undesirable.

SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
Question no. and text	<p>BVQ_19.</p> <p>أ- ما هي أو ماذا كانت وظيفة الزوجة/ الزوج ؟ اسم الوظيفة</p> <p>ب- ما نوع الأنشطة التي كان/ كانت يقوم أو تقوم بها؟</p> <p>ج- ما هي الأنشطة الأساسية للمؤسسة التي توظفه أو توظفها أو كانت توظفه أو توظفها؟</p>	<p>BVQ_19.</p> <p>a. What is/was your spouse's/partner's occupation – i.e., what is/was the name or title of his/her main job? Please write in and describe as clearly as possible. His/her occupation is/was:</p> <p>b. In his/her main job, what kind of activities does/did he/she do most of the time? Please write in and describe as clearly as possible.</p> <p>c.
