## TECHNICAL SPECIFICATIONS

The survey was conducted online (and via telephone (in Malta and Cyprus) by Kantar, on behalf of Kantar Belgium, between 11 and 29 June 2020, among 24,798 respondents in all 27 EU Member States. The survey was limited to respondents aged between 16 and 64 (16-54 in Bulgaria, Czechia, Croatia, Greece, Hungary, Poland, Portugal, Romania, Slovenia and Slovakia). Representativeness at the national level is ensured by quotas on gender, age, and region. The total EU results are weighted according to the size of the population of each country surveyed.

Readers are reminded that survey results are estimations, the accuracy of which, everything being equal, rests upon the sample size and upon the observed percentage. With samples of about 1,000 interviews, the real percentages vary within the following confidence limits:
