The data use agreement is available in [English](#) and [German](#). To obtain access to the data, the data use agreement must be appropriately filled in and signed by the data recipient and sent to the [GLES team](#) (detailed instructions can be found below).

To grant data access to additional persons (hereafter referred to as “secondary users”), the names of the secondary users must be entered under Article 2, Paragraph 3 of the data use agreement. Each secondary user must co-sign the data use agreement personally.

**To enable data access to students, the data use agreement must be submitted and signed by their supervisor. The students must be included as secondary users in the data use agreement.**
