March-April 2022

BASIC BILINGUAL QUESTIONNAIRE

Kantar Public

Note: The basic questionnaire is provided only as a guide to the survey questions. Please see the SPSS data definitions and document statements or the codebook for changes in coding schemes and for country specific answer categories (political parties, regions etc.).

S01c

Hello, we are looking for people aged 15 or over who are willing to share their opinions about current events and political or social issues for a study we are conducting across Europe. We would greatly appreciate your input. It should take no more than *?RC_TEXT1BTag minutes.

EB97.1 RC_TEXT1B_CAWI

CAWI SURVEY ONLY

S01a

Hello, My name is ..., from Behaviour and Attitudes and I'm conducting an interview for Kantar, on behalf of one of our clients.

EB97.1 RC_TEXT001A

CAPI SURVEY ONLY

Scripting team used ""GOTO 9918236" in script node, as we need to show "RC_TEXT001A/RC_TEXT1B/RE_TEXT1C/RC_COVID1/RC_COVID2/RC_SEL1" questions only for CAPI

S01b

We are looking for people aged 15 or over who are willing to share their opinions about current events and political or social issues for a study we are conducting across Europe. We would greatly appreciate your input. It should take no more than *?RC_TEXT1BTag minutes.

EB97.1 RC_TEXT1B

CAPI SURVEY ONLY

S02

I would like to reassure you that the interview will take place in compliance to physical distancing rules required by the authorities. I want to confirm that I do not have any coronavirus symptoms, I have not recently returned from a high-risk area, I have not been advised to self-isolate and I have not been in touch with others who have self-isolated.

EB97.1 RC_TEXT1C

CAPI SURVEY ONLY

DO NOT ASK IF CAPIMETHOD = CATI (CODE 2)

S03

Before I start, may I check that in the last 14 days you or anyone in your household have been feeling unwell or have had any coronavirus symptoms? Have been diagnosed with coronavirus? Have been in close contact with any individuals having coronavirus symptoms, or diagnosed with coronavirus? Are caring for people with coronavirus?

Yes

No

1

2

S01c

Bonjour. Nous recherchons des personnes âgées de 15 ans et plus, désireuses de partager leurs opinions sur l'actualité et sur des questions politiques ou sociales pour une étude que nous menons dans l'ensemble de l'Europe. Nous apprécierions vraiment votre contribution. L'entretien ne devrait pas durer plus de *?RC_TEXT1BTag minutes.

EB97.1 RC_TEXT1B_CAWI

Nous apprécierions vraiment votre contribution. L'entretien ne devrait pas durer plus de *?RC_TEXT1BTag minutes.

EB97.1 RC_TEXT1B

CAPI SURVEY ONLY

S02

Je souhaiterais vous rassurer sur le fait que l'entretien se déroulera dans le respect des règles de distanciation physique imposées par les autorités. Je tiens à préciser que je ne présente aucun symptôme du coronavirus, que je ne suis pas revenu(e) récemment d'une zone à risque, que l'on ne m'a pas conseillé de m'isoler et que je n'ai pas été en contact avec d'autres personnes qui se seraient isolées.

EB97.1 RC_TEXT1C

CAPI SURVEY ONLY

DO NOT ASK IF CAPIMETHOD = CATI (CODE 2)

S03

Avant de commencer, j'aimerais savoir si au cours des 14 derniers jours vous ou l'un des membres de votre foyer ne vous êtes pas senti(e) bien ou avez eu l'un des symptômes du coronavirus ? Avez été diagnostiqué(e) positif/ve au coronavirus ? Avez été en contact étroit avec des individus présentant des symptômes du coronavirus, ou ayant été diagnostiqués positifs au coronavirus ? Avez pris soin de personnes souffrant du coronavirus ?

Oui

Non

QA5 intro	Maintenant, parlons de corruption en général, y compris offrir, donner, demander ou accepter des pots-de-vin, des rétro-commissions, des cadeaux de valeur ou des faveurs importantes, mais aussi n'importe quel abus de pouvoir pour un bénéfice personnel. Veuillez noter que vos réponses doivent être basées sur votre expérience personnelle.

You have changed your home heating system from a higher-emission system (e.g. coal, oil or wood-fired) to a lower one (natural gas, pellets, electricity, solar, etc.)	1,
You have better insulated your house (e.g. walls, basement, roof or replaced windows) and made it more energy efficient.	2,
You have replaced older energy-intensive equipment (hot water boiler, oven, dishwasher, etc.) with newer equipment with a better energy efficiency rating (for instance products labelled A+++)	3,
You have frequently used public transport or a bicycle, or chosen to walk instead of taking your car	4,
You have bought an electric vehicle as your primary mode of transport (car, motorbike, bicycle)	5,
You have used your open fire or barbecue with less or with low-emission fuel (e.g. briquettes instead of coal)	6,

Technical Specifications

Between the 21st of March and 20th of April 2022, Kantar carried out wave 97.2 of the EUROBAROMETER survey, at the request of the European Commission, Directorate-General for Communication, "Media monitoring and Eurobarometer" Unit.

Wave 97.2 covers the population of the respective nationalities of the European Union Member States, resident in each of the 27 Member States and aged 15 years and over.

The basic sample design applied in all countries and territories is a multi-stage, random (probability) one. In each country, a number of sampling points were drawn with probability proportional to population size (for a total coverage of the country) and to population density.

In order to do so, the sampling points were drawn systematically from each of the "administrative regional units", after stratification by individual unit and type of area. They thus represent the whole territory of the countries surveyed according to the EUROSTAT NUTS II (or equivalent) and according to the distribution of the resident population of the respective nationalities in terms of metropolitan, urban and rural areas¹⁵.

In each of the selected sampling points, a starting address was drawn, at random. Further addresses (every Nth address) were selected by standard "random route" procedures, from the initial address. In each household, the respondent was drawn, at random (following the "closest birthday rule"). If no one answered the interviewer in a household, or if the respondent selected was not available (not present or busy), the interviewer revisited the same household up to three additional times (four contact attempts in total). Interviewers never indicate that the survey is conducted on behalf of the European Commission beforehand; they may give this information once the survey is completed, upon request.

The recruitment phase was slightly different in the Netherlands, Finland, and Sweden. In these countries, a sample of addresses within each areal sampling point (1km² grid) were selected from the address or population register (in Finland, selection is not done in all sample points, but in some where response rates are expected to improve). The selection of addresses was done in a random manner. Households were then contacted by telephone and recruited to take part in the survey. In the Netherlands a dual frame RDD sample (mobile and landline numbers) are used. The selection of numbers on both frames is done in a random manner with each number getting an equal probability of selection. Unlike Sweden and Finland, the sample is un-clustered.

CAPI : Computer-Assisted Personal interviewing

CAWI : Computer-Assisted Web interviewing

Consequences of the coronavirus pandemic on fieldwork

Face-to-face interviewing

Where feasible, interviews were conducted face to face in people's homes or on their doorstep and in the appropriate national language. In all countries and territories where face-to-face interviewing was not feasible CAWI (Computer-Assisted Web Interviewing) was used.

For face-to-face all interviews conducted, hygiene and physical distancing measures were respected at all times in line with government regulations, and whenever possible, interviews were conducted outside homes, on doorsteps, in order to stay outside and maintain social distance.

Face-to-face and online interviewing

In Belgium, Czechia, Denmark, Latvia, Lithuania, Malta, the Netherlands, Slovenia, Finland and Sweden, face-to-face interviewing was feasible, but it was not possible to reach the target number of face-to-face interviews within the fieldwork period due to the impact of COVID-19 restrictions: many potential respondents are reluctant to open their homes to interviewers, even if they respect hygiene rules and physical distancing, such as wearing masks and using hydroalcoholic gel. Therefore, to hit the target number of interviews within the fieldwork period, additional interviews were conducted online with Computer-Assisted Web Interviewing (CAWI) technique.

Recruitment for online interviews

The online design in each country differed based on what was feasible within the fieldwork period. Where feasible, the online sample was based on a probabilistic sample design. Those recruited to the online survey were recruited through a single mobile frame or dual frame Random Digit Dialling (RDD) design. In this way the entire phone owning population in each country had a non-zero chance of being sampled. The choice of whether to use a single mobile frame or dual frame (mobile and landline) was dependent on the countries' landline infrastructure. Where the landline infrastructure is suitably advanced to support a significant minority of residential households with landline phones a dual frame design is employed. The mix of mobile and landline sample is designed to maximise the representation of the responding sample. The RDD sample for both the mobile and landline sample is drawn from the country's telephone numbering plan. The landline sample frame is stratified by NUTS3 regions based on their prefix and the mobile by operator before a systematic random sample of numbers is generated proportional in size to the total generatable numbers in each stratum. Respondents were recruited using this sample design in Belgium, Czechia, Latvia, Lithuania, Malta and Slovenia.

In Finland, Denmark, and Sweden, RDD samples were not used, instead the telephone sample was drawn from the country telephone directory. In these three countries the telephone directories offer comprehensive coverage of the phone owning population, storing both landline and mobile phone numbers for each individual.

In the Netherlands, two survey modes were used to collect responses, face to face and online. For the online mode, the respondents were initially recruited to take part through an offline mode of recruitment via a probability-based dual frame overlapping RDD sample design. In this way the entire phone owning population in the Netherlands had a non-zero chance of being sampled. The mix of mobile and landline sample is designed to maximise the representation of the responding sample. The RDD sample for both the mobile and landline sample is drawn from the country's telephone numbering plan. The landline sample frame is stratified by NUTS3 regions based on their prefix and the mobile by operator before a systematic random sample of numbers is generated proportional in size to the total generatable numbers in each stratum.

Response rates

For each country a comparison between the responding sample and the universe (i.e. the overall population in the country) is carried out. Weights are used to match the responding sample to the universe on gender by age, region and degree of urbanisation. For European estimates (i.e. EU average), an adjustment is made to the individual country weights, weighting them up or down to reflect their 15+ population as a proportion of the EU 15+ population.

Special Eurobarometer 524

Air Quality in the European Union

The response rates are calculated by dividing the total number of complete interviews with the number of all the addresses visited, apart from ones that are not eligible but including those where eligibility is unknown. For wave 97.2 of the EUROBAROMETER survey, the response rates for the EU27 countries, calculated by Kantar, are visible on the table to the right:

Margins of error

Readers are reminded that survey results are estimations, the accuracy of which, everything being equal, rests upon the sample size and upon the observed percentage. With samples of about 1,000 interviews, the real percentages vary within the confidence limits shown below.

	COUNTRIES	CAPI Response rates	CAWI Response rates
BE	Belgium	53.2%	17.5%
