## Preliminary remarks

---

The **GESIS Variable Report Series** on the **International Social Survey Programme Studies** offers a comprehensive description of data on study and variable level.

This report is structured into six chapters:

**Chapter one** *Series Description* gives a brief overview of the ISSP.

**Chapter two** *Study Description* provides the description of the respective ISSP study including bibliographic information.

**Chapter three** *Data, Structure and Standards* provides an overview of the dataset, the content and describes data preparation and harmonization processes.

**Chapter four** provides a short explanation of the variable documentation itself.

**Chapter five** contains the core variable documentation: the documentation of each variable including complete question texts with all answer categories of the harmonized data, deviating code values in the source datasets. This is complemented by additional notes and, where applicable and necessary, a brief description of the data harmonization procedure.

**Chapter six**, the appendix, contains the ISCO88 coding scheme and the URBRURAL recode for 1991.

### Data access

Data for statistical analysis along with information about these data can be searched and accessed via GESIS Search (<https://search.gesis.org?lang=en>) or via the search function on the GESIS homepage (<https://www.gesis.org/en/home>). The use and the results of GESIS Search are free of charge. The download of datasets requires registration.

### Data anonymization

Only anonymized data are made available, according to data regulations in participating countries. Each national team is responsible for carefully checking the data in this respect before the deposit.

### Usage requirements

To provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about related research activities, all users of ISSP data are requested to send bibliographic citations for each completed manuscript or thesis abstracts to [isspservice@gesis.org](mailto:isspservice@gesis.org). Please, also see the general notes of the [terms of use](#).

### Disclaimer

Neither the original collector of the data, nor GESIS, bears any responsibility for the usage of ISSP data or any data analyses conducted with ISSP data.

### Citation of this Variable Report

Please, use the following citation for this Variable Report:

### Request

Please, alert us to any errors or problems that you might notice in the data or the documentation. All comments and remarks are very much appreciated to enhance the quality of the data: [isspservice@gesis.org](mailto:isspservice@gesis.org)

# 1 ISSP series description

---

## 1.1 Series name

The International Social Survey Programme (ISSP)

## 1.2 Series information

The ISSP is a cross-national collaboration program, which has been continuously conducting annual surveys on diverse social science topics since 1985. The topics for each ISSP survey are proposed by delegates from ISSP member countries. Then, a Basic Questionnaire is composed by a committee, elected by the General Assembly before it is pretested in various countries. Starting in 1984 with four founding nations - Australia, Germany, Great Britain, and the United States, the ISSP meanwhile has grown up to almost 50 member countries covering various cultures around the globe.

ISSP Modules 1985 – 2026:

- Citizenship: 2004/ 2014/ 2023\*
- Digital Societies: 2024
- Environment: 1993/ 2000/ 2010/ 2020
- Family and Changing Gender Roles: 1988/ 1994/ 2002/ 2012/ 2022
- Health and Health Care: 2011/ 2021
- Leisure Time and Sports: 2007
- National Identity: 1995/ 2003/ 2013/ 2023\*
- Religion: 1991/ 1998/ 2008/ 2018
- Role of Government: 1985/ 1990/ 1996/ 2006/ 2016/ 2026
- Social Inequality: 1987/ 1992/ 1999/ 2009/ 2019
- Social Networks (no replications): 1986/ 2001/ 2017
- Work Orientations: 1989/ 1997/ 2005/ 2015/ 2025

\*combined

All ISSP members agree

1. to jointly develop modules addressing important areas of social science,
2. to field the modules either as an individual survey or as supplements to the regular national surveys and
3. to make the data available to the social science community as quickly as possible.

As the surveys are designed for replication, they offer the possibility for cross-national and cross-time comparisons, creating the base for a vast range of substantive and methodological research. Since there is no external fund agency, ISSP members fund their own surveys. Beyond that, ISSP committee members fund ISSP central coordination, networking, development of source questionnaires, or methodological work.

For more information on the ISSP in general, its working principles, contact addresses of ISSP members and principal investigators, please, visit the ISSP website <http://www.issp.org>.

## 2 Study description – International Social Survey Programme: Religion I-IV Cumulation

---

### 2.1 Bibliographic information

#### 2.1.1 GESIS study number

ZA8792

#### 2.1.2 Title

International Social Survey Programme: Religion I-IV Cumulation

#### 2.1.3 Authoring entity/ principal investigators

See Codebooks and Variable Reports for the single modules on the GESIS module pages: [1991](#), [1998](#), [2008](#), [2018](#).

#### 2.1.4 Bibliographic citation

Publications based on ISSP data, which are made available through GESIS, should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations should appear in footnotes or in the reference section of publications.

#### ***How to cite the data:***

ISSP Research Group (2024): International Social Survey Programme: Religion I-IV Cumulation. GESIS, Cologne. Z8792 Data file Version 1.0.0, <http://dx.doi.org/10.4232/1.14277>.

For methodological information, such as sampling procedures, sampling universes, fieldwork times or response rates, please consult the modules' Study Monitoring Reports available on the module pages.

### 3 Data, structure, and standards

ISSP Religion I-IV cumulates the data of the integrated data files of

- ISSP 1991 (ZA2150 Data file Version 1.0.0, <https://doi.org/10.4232/1.2150>),
- ISSP 1998 (ZA3190 Data file Version 1.0.0, <https://doi.org/10.4232/1.3190>),
- ISSP 2008 (ZA4950 Data file Version 2.3.0, <https://doi.org/10.4232/1.13161>, ZA5690 Data file Version 1.0.1 <https://doi.org/10.4232/1.11762>) and
- ISSP 2018 (ZA7570 Data file Version 2.1.0, <https://doi.org/10.4232/1.13629>, ZA7630 Data file Version 1.0.0 <https://doi.org/10.4232/1.13517>)

It comprises data from all ISSP member countries that participated in at least two Religion modules. The data set contains:

- cumulated topic-related (substantial) variables, which appear in at least two Religion modules and
- background variables, mostly covering demographics, which appear in at least two Religion modules

#### 3.1 Content

Assessment of personal happiness; responsibility of government for providing jobs and reduction of the difference between rich and poor; attitudes towards sexual relations before marriage; attitudes towards sexual relations with someone other than spouse; attitudes towards homosexual relationships between adults; attitudes towards abortion in case of serious disability or illness of the baby or low income of the family; attitudes towards gender roles in marriage (husband earns money, wife's job is family, family life suffers if women works fulltime); attitude towards tax fraud and incorrect information to get benefits from government; trust in institutions (parliament, business and industry, churches and religious organizations, courts and legal system, schools and educational system); attitudes towards the influence of religious leaders on vote and government; judgement on the power of churches and religious organizations; doubt or firm belief in God (deism, scale); belief in a life after death, in heaven, in hell, in religious miracles, in reincarnation, in Nirvana, and in supernatural powers of deceased ancestors; attitudes towards the Bible (or appropriate holy book); attitudes towards a higher truth and towards meaning of life (scale: God concerns himself with every human being personally, people can do little to change the course of their lives (fatalism), life is meaningful because God exists, life does not serve any purpose, life is only meaningful if someone provides the meaning himself); own way of connecting with God; we each make our own fate; turning point in life respondent made new commitment to religion; religion of mother, of father and of husband/ wife/ spouse; religion respondent was raised in; frequency of church attendance (of attendance in religious services) of father and mother when the respondent was a child; personal frequency of church attendance of respondent at the age of 11-12 years; frequency of prayers and participation in church activities; self-assessment as religious; self-assessment as a follower of a religion and/or as a spiritual person; belief in lucky charms, fortune tellers, faith healers and horoscopes; respondent had a "born again" experience; picture of God (mother - father, master - spouse, judge - lover, friend - king); world image: much evil vs. much good, man is good vs. corrupt; trust in people or can't be too careful; attitudes towards the benefits of science and religion (scale: modern science does more harm than good, too much trust in science than faith, religions bring more conflicts than peace, intolerance of people with very strong religious beliefs); attitude towards truth in religion (very little truth in any religion, basic truths in many religions or truth only in one religion); law conflicts with religious principles; accept person from different religion: Marrying a relative; attitude towards public meetings and publications on the internet or social media/books by religious extremists; shrine/ altar in respondent's home; visit of holy place; religion helps people to make friends and to gain comfort; personal attitude towards Christians, Muslims, Hindu, Buddhist, Jews, Atheists or non-believers.

### Demography:

sex; age; marital status; steady life partner; education: years of schooling; highest education level; current employment status (respondent and partner); hours worked weekly; occupation (ISCO 1988) (respondent and partner); supervising function at work; trade union membership; household size; child in household; party affiliation (left-right); participation in last election; attendance of religious services; religious main groups (derived); Top Bottom self-placement; subjective social class; place of living urban – rural; household income groups (derived).

Additionally coded: ID number of respondent; unique cumulation respondent ID number; ISSP Module year; country; country sample; country sample year; weighting factor; administrative mode of data collection.

#### 3.1.1 This ISSP Cumulation

This ISSP cumulation includes all content related ISSP variables that exist for at least two years, thoroughly cumulated, harmonized if needed and documented. For the demography part of the dataset a pragmatic approach was taken. The cumulated datafile covers all key demographic indicators (see 3.1) where sufficient information for all years is available. National-specific variables (region and the un-derived information on national degree, national income and national denomination) are not included. They can easily be matched in from the original modules via the original case ID variable, if necessary. The Variable Report at hand documents all harmonization related issues. Reference is made to the documentation of the original modules at some points.

## 3.2 Countries

The cumulated dataset contains data from 38 countries. *Table 3.1* shows all these countries and the years in which each country participated. In some cases, it is important to identify subsamples within a country sample (comp. c\_sample). This pertains to three countries: Germany, Israel, and the United Kingdom. Both the German and Israeli surveys oversample parts of their respective populations: East Germans in the case of Germany and Israeli Arabs in the case of Israel. Consequently, analyses of the German and Israeli data at country-level are not representative of their respective populations unless they are properly weighted. Design weights to adjust for the overrepresentation of one part of the population are available for most but not all modules (comp. variable weights). For the United Kingdom, there are independent surveys for Great Britain and Northern Ireland. Please note that, currently, the data from these two surveys cannot be integrated to form a representative sample of the United Kingdom, because weighting factors to adjust the populations sizes are not available.

*Table 3.1:* Participation in ISSP Religion: countries, country codes and modules

	country	c_sample	1991	1998	2008	2018

### 3.3 ZA8792: Dataset structure and variable crosswalk

- **Position:** Position of variable in the cumulated dataset
- **Variable name:** Variable name in the cumulated dataset.
- **Variable label:** Variable label indicating the content of the question. All substantial variable labels contain a prefix encoding the years in which a variable has been surveyed (a = 1991, b = 1998, c = 2008, d = 2018; example: ‘ab’ means this variable was part of the surveys in 1991 and 1998).
- **ZA2150 (1991) to ZA7570/ZA7630 (2018):** Variable name in the cross-section datasets, empty if variable not part of the cross-section survey.

#### 3.3.1 Archive and identification variables

These administrative variables are used for identifying datasets, respondents, and countries.

The GESIS Archive Version variable includes the version and release date of the dataset, composed as a string variable with three numbers (e.g., v1.0.0):

- The major number is incremented when there are changes in the composition of the dataset (e.g., additional variables or cases).
- The minor or second number is incremented when significant errors have been fixed (e.g., coding errors, misleading value labels).
- The third or revision number is incremented when minor bugs are fixed (e.g., spelling errors in variable or value labels).

The dataset contains both the original case ID used in the cross-section files (caseid) and a newly created unique case id for the cumulated dataset (cumu\_id).

Different country codes identify each case as belonging to one country. All country codes have been harmonized to the current ISSP standard, which is based on ISO 3166. The variable c\_sample\_year is a cumulation-

specific variable, not available in the integrated data files. It combines country information and the year of the module).

Table 3.2: Archive and identification variables

Position	Variable name	Variable Label
1	studyno	GESIS Study Number
2	version	GESIS Version
3	doi	Digital Object Identifier
4	caseid	Original Respondent ID Number
5	cumu_id	Unique Cumulation Respondent ID Number
6	year	ISSP ModuleYear_StudyNumber
7	country	Country ISO 3166 Code (see c_sample for codes for the sample)
8	c_sample	Country/ Sample ISO 3166 Code (see country for codes for whole nation states)
9	c_sample_year	Country_Sample_Year

### 3.3.2 Substantial variables crosswalk table

The substantial variables comprise all module questions which have been surveyed at least two times.

Table 3.3: Variable correspondence table

Position	Variable name	Variable label	ZA2150 (1991)	ZA3190 (1998)	ZA4950/ ZA5690 (2008)	ZA7570/ ZA7630 (2018)

89	v80	cd: Personal attitude towards: Atheists or non-believers			v88	v62

### 3.4 Data preparation

#### 3.4.1 Harmonization of module variables

For the module variables mainly the coding of missing values needed to be harmonized. Please see section 3.5. for the missing value coding scheme.

#### 3.4.2 Harmonization of background variables

The standards for background variables used in the five cross-section surveys cumulated in this dataset have changed considerably over time. Up until the 2009 survey, the repertoire of background variables has been extended and standardized. The 2018 survey, however, used a substantially revised set of indicators. The harmonization of background variables was guided by the aim to identify the overlapping information and ensure that key demographic indicators are available from all five surveys.

This data cumulation contains two special variables, that only appear in cumulated data files. The first is the income group (**INCOME**), divided into low, middle, and high incomes. Since income in the ISSP is measured country-specifically (currency, period: monthly/yearly, individual categories) it has never been harmonized in official datasets before. For the Basic Cumulation, a rough, three-category (low, middle, high), harmonized

income-group indicator was generated. The assignment took place based on the relative position of the respondent in the national sample, which means that each category covers as close to 33.3% of the sample as possible. The second variable is **CHILDDH**. The information on the number of children in the household was collected very heterogeneously across countries and module years. Since they could not be harmonized, the new dichotomous variable at least captures the information on whether there are any children in the household at all.

### 3.4.3 Harmonization of occupational codes

ISCO-88 (ISSP 1991, 1998 and 2008) and ISCO-08 (ISSP 2018) have been used in the Religion series. To provide the broadest common code base, the available ISCO codes have been converted into ISCO-88 for this cumulated dataset (comp. ISCO88/ SPISCO88). All ISCO-Conversions are based on:

Ganzeboom, Harry B.G.; Treiman, Donald J., “International Stratification and Mobility File: Conversion Tools” <http://www.harryganzeboom.nl/ismf/index.htm>. [2019/10/05].

Table 3.3: ISCO-88: Standardization of armed forces codes

Non-standard code		ISCO-88	
111	Soldiers	110	Armed forces
112	Officers	110	Armed forces
1250	Miscellaneous officers	110	Armed forces
1251	High-grade military officer	110	Armed forces
1252	Low-grade commissioned officer	110	Armed forces
3452	Armed forces non-commiss off	110	Armed forces
5164	Enlisted soldiers	110	Armed forces

### 3.4.4 Correction of errata

#### The following errata have been corrected for ZA8792

1. Cases that were retrospectively identified as duplicates:
  - a. ZA3190 (1998) Bulgaria: deleted 71 cases, Cyprus: deleted 48 cases, Portugal: deleted 20 cases, Russia: deleted 2 cases.
  - b. ZA5690 (2008), Indonesia: deleted one case (v3 = 605), Kenya: deleted one case (v3 = 9168)
2. ZA7570 Module Variables Denmark:
  - a. As a systematic error happened during the data preparation in Denmark, for almost all module variables answers to the answer option ‘Can’t choose/Don’t know’ were erroneously encoded to ‘No answer’. To fix this the variable was recoded for v3 to v19, v21 to v32, v48 to v51, v57 to 62, v64, v65, v71, v78 (9=-8) and for v35, v37, v39 and v40 to v42 (99=-8)
3. V63 (To much trust in science):
  - a. ZA3190 (1998) United States: The variable (V28) was available on request for the original data but is now integrated in the cumulation.
4. ATTEND:
  - a. ZA3190 (1998) Cyprus: The coding of the variable V208 ‘R: Religious services: How often’ was reserved for Cyprus. To obtain the valid coding for the variable it was recoded (1=6) (2=5) (3=4) (4=3) (5=2) (6=1)
5. CLASS:
  - a. ZA2150 (1991) Australia: There was an error in the Australian variable V108 – subjective class. The variable was recoded for the cumulation (5=4) (6=5) (0=6).

- b. ZA3190 (1998) Portugal: By a mistake, Portuguese respondents of year 1998 who marked 'Upper class' were not assigned to code 6 but to code 0 'No class affiliation' from the Portuguese PI. These codes were recoded (0=6).
6. Weight:
  - a. ZA2150 (1991) Australia: In the original data, there is no weight provided (0). For the cumulation, this weight was set to 1.
  - b. ZA7630 (2018) Indonesia, Sri Lanka: In the original data, there is no weight provided (System Missing). For the cumulation, this weight was set to 1.

### 3.5 Missing values

All missing values are coded as negative integers. As far as possible, missing value codes indicate a unique reason for missing data.

Table 3.5: Coding scheme for missing values

Code	Label	Description
-9	No answer/ No answer, refused	Respondent did not mark an answer, usually not included as an explicit option in the questionnaire
-8	Can't choose, don't know	Explicit answer option in questionnaire
-7	Refused	Explicit answer option in questionnaire
-4	NAP/ Not applicable	Respondent skipped question because of routing/ filtering.
-3	Variable not available in this module	This missing value is cumulation-specific and is coded in the case of variables that are not part of a certain module at all.
-2	Country specific variable not applicable for this country	This missing value is used only for country-specific variables. It is used to mark the cases of the other countries.
-1	Variable not available for this country in this module	This missing value is coded when a country did not provide the variable in question.

### 3.6 Weighting

Please note, that there is no total population weight to be used for international comparison. While all ISSP datasets contain a weighting variable, the weights in this variable do not incorporate a common weighting scheme that can be applied to all countries of the same ISSP module.

In the Study Description/ Technical Report and/ or in the background variables documentation of each country you will find more detailed information on the kind of weights that are provided. You can see whether

- a design weight
- weights to adjust for non-response bias or
- a combination of these both weights above or
- different weighting procedures

are applied. Provision of a design weight is mandatory for countries using household-based sampling methods, as these require compensation for the lower selection probabilities of persons in larger households. If no weight is provided, the variable WEIGHT is coded to 1.0. Otherwise, the weighting factor is unequal 1.0 (but greater than 0).

### 3.7 International documentation standard

The variable documentation is set up in accordance with the international metadata specifications for the social sciences, established by the Data Documentation Initiative <DDI>. The Variable Reports are based on the XML representation of DDI version 2. The documentation combines the wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the Basic Questionnaires

---

with the variable description (variable name, values, and labels) of the dataset. This basic variable documentation is complemented by additional information, e.g. general notes, descriptions of harmonization steps, etc.

## 4 Guidance on the variable documentation

The variable documentation part of this Variable Report describes each variable in the data file including all relevant information for this variable, such as the single question components or further notes. Due to the complex nature of the cumulated data, no crosstabulations or descriptive statistics have been added. The variable documentation is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with international metadata standards (DDI-Codebook/XML).

The example below shows the information that appears in the variable documentation for a typical substantial variable.

1	v19	abe: No objections to extra qualification unless workers were paid extra for having them
2		ISSP 1987 (ZA1680, Q4b, V20); ISSP 1992 (ZA2310, Q3b, V20); ISSP 2019 (ZA7600, Q23a, v62):
3		Do you agree or disagree with each of these statements? (PLEASE TICK ONE BOX ON EACH LINE.)  Workers would not bother to get skills and qualifications unless they were paid extra for having them.
4		ISSP 1999 (ZA3430) + ISSP 2009 (ZA5400): Variable not available in this module
5		-9 No answer -8 Can't choose, don't know -3 Variable not available in this module -1 Variable not available for this country in this module 1 Strongly agree 2 Agree 3 Neither agree nor disagree 4 Disagree 5 Strongly disagree  in ISSP 1987: 7 Not asked in version X of the questionnaire (PL)  in ISSP 2019: -8 Can't choose -1 Not available (AT, CL, CZ, DE, DK, FI, FR, GB-GBN, HR, IL, IT, JP, LT, NO, NZ, RU, SE, US, VE)
6		Derivation: / ISSP 1987 - PL_1987: Recode V20 (7=-1).
7		Note: / ISSP 2019 OPTIONAL QUESTION

- 
- 1** Variable name and variable label as defined in the dataset. All variable labels of module questions contain a prefix encoding the years in which a variable has been surveyed (a = 1987, b = 1992, c = 1999, d = 2009, e = 2019; example: 'abe' means this variable was part of the surveys in 1987, 1992 and 2019).
  - 2** Source variables for the harmonized data: module (study number) and year, original question number and variable name.
  - 3** Full question text from the Basic Questionnaire, including interviewer instructions, if applicable.
  - 4** Module (study number) and year in which no data is available.
  - 5** Code values occurring in the data for this variable and complete answer text from the Basic Questionnaire.
  - 6** Deviating code values in the source data.
  - 7** Additional information in the form of notes and derivations. Derivation information describes the harmonization of the cumulated data.

---

## 5 Variable documentation

---

(see next page)

Variable, Label

Question Text (Original Language)

studyno - GESIS Study Number

GESIS Data Archive Study Number for the ISSP Cumulation of the "Religion I-IV" modules of the years 1991, 1998, 2008 and 2018

version - GESIS Archive Version

Version and Release Date of the Archive Data Set

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as a string.

The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

#### doi - Digital Object Identifier

##### Digital Object Identifier (DOI)

This variable holds the Digital Object Identifier (DOI) for the data set at hand as registered via the DA|RA registration agency for economic and social science data. Each data set version (see variable version) has a unique persistent DOI.

For direct access to the complete archive dissemination package for this study, including new data set versions, the DOI needs to be appended to the resolver service URL:

<http://dx.doi.org/10.4232/1.14277>

In terms of good scientific practice, the DOI is an important element for the correct citation of a data set.

caseid - ID Number of Respondent

ISSP 1991 (ZA2150, V2); ISSP 1998 (ZA3190, V2); ISSP 2008 (ZA4950/ZA5690, V3); ISSP 2018 (ZA7570/ZA7630, CASEID):

Respondent Identification Numbers taken from the integrated data files (unmodified)

in ISSP 1991 + ISSP 1998:

6 up to 7-digit ID number. The first/ first and second digit identifies the country, the next five digits contain the original identification number. The ID number uniquely identifies each respondent within the respective dataset.

in ISSP 2008:

1 up to 8-digit numbers contain original identification of respondents without country identification. To provide a unique identification across the full integrated file, it is necessary to combine V3 and V4 (in ZA4950).

in ISSP 2018:

This variable holds a unique identification number for each respondent including the ISSP module year (first 4 digits: 2018), the ISO 3166 country code (next 5 digits: for countries without subsamples starting with 00 plus the three digits for the country code, for countries with subsamples starting directly with the three digits country code supplemented by an appendix two digits long) and the original identification number of the respondents (the last 7 digits), making an identification number of 16 digits in total.

cumu\_id - Unique Cumulation Respondent ID Number

Unique Cumulation ID Number

Unique 16-digit number: ISSP module year (first 4 digits, e.g.: 2018), the ISO 3166 country code (next 5 digits: for countries without subsamples starting with 00 plus three digits for the country code, for countries with subsamples starting directly with the three digits country code supplemented by an appendix two digits long) and the identification number of the respondents (the last 7 digits). For each country sample year a unique identification number was created.

Example for unique cumulation ID (ISSP 2018 GB): 2018826010000001

Note:

This variable was built for the cumulation.

year - ISSP ModuleYear\_StudyNumber

Year of the module

1991 ISSP 1991 Religion I - ZA2150(v1.0.0)

1998 ISSP 1998 Religion II - ZA3190(v1.0.0)

2008 ISSP 2008 Religion III - ZA4950(v2.3.0)/ZA5690(v1.0.1)

2018 ISSP 2018 Religion IV - ZA7570 (v2.1.0)/ZA7630(v1.0.0)

country - Country

ISO Code of the Countries (three digit)

All countries are coded in accordance with the ISO 3166-1-alpha-2 country code.

36 AU-Australia  
40 AT-Austria  
100 BG-Bulgaria  
144 LK-Sri Lanka

#### c\_sample - Country Sample

Country/ Sample (see the variable 'country' for codes for whole nation states).

To indicate the subsamples within the ISSP countries a code on the basis of ISO 3166 was constructed. For all countries without subsamples the three digit ISO 3166 Code (as in the variable 'country') was used.

For those with subsamples a five digit numeric code is used. The first three-digits are based on the original ISO code and indicate the country. The following two-digit numeric appendices (01, 02) indicate the subsamples.

36 AU-Australia  
40 AT-Austria  
100 BG-Bulgaria  
144 LK-Sri Lanka  
152 CL-Chile  
158 TW-Taiwan

38002 IT-Italy: 2010, second fieldwork

82601 GB-GBN-Great Britain

82602 GB-NIR-Northern Ireland

Note:

/ ISSP 2008 IT\_2008: The Italian ISSP 2008 module was fielded in two rounds (in November 2008 and from October 2009 to March 2010), owing to problems that the fielding institute encountered during the first fieldwork period. The ISSP Methodological Committee approved the sample resulting from pooling the two rounds, which can still be separated using this variable as a FLAG variable. More information is available upon request to the Principal Investigator.

c\_sample\_year - Country Sample Year

Cumulation-specific variable, not available in the integrated data files

Constructed variable contains country information (country; for Germany and Great Britain c\_sample) and the year of the module (year).

v1 - abcd: How happy or unhappy

ISSP 1991 (ZA2150, Q1, V4); ISSP 1998 (ZA3190, Q1, V4); ISSP 2008 (ZA4950/ZA5690, Q1, V6); ISSP 2018 (ZA7570/ZA7630, Q1, v1):

If you were to consider your life in general these days, how happy or unhappy would you say you are, on the whole?

-9 No answer

-8 Can't choose, don't know

1 Very happy

2 Fairly happy

3 Not very happy

4 Not at all happy

in ISSP 2008:

8 Can't choose, don't know (ID)

in ISSP 2018:

8 Can't choose

v2 - ab: Gov reps: if want job, provide job

ISSP 1991 (ZA2150, Q2a, V5); ISSP 1998 (ZA3190, Q2a, V5):

On the whole, do you think it should or should not be the government's responsibility to ...

... provide a job for everyone who wants one?

ISSP 2008 (ZA4950/ZA5690) + ISSP 2018 (ZA7570/ZA7630):

Variable not available in this module

-9 No answer

-8 Can't choose, don't know

-3 Variable not available in this module

1 Definitely should be

2 Probably should be

3 Probably should not be

4 Definitely should not be

v3 - ab: Gov reps: reduce income differences between rich and poor

ISSP 1991 (ZA2150, Q2b, V6); ISSP 1998 (ZA3190, Q2b, V6):

On the whole, do you think it should or should not be the government's responsibility to ...

... reduce income differences between the rich and the poor?

ISSP 2008 (ZA4950/ZA5690) + ISSP 2018 (ZA7570/ZA7630):

- 5 Definitely false (KR)

Derivation:

/ ISSP 2018 - KR\_2018: Recode KR\_v68 (1=1) (2=2) (3=-8) (4=3) (5=4).

Note:

/ ISSP 2018 - KR\_2018: There was an additionally variable for South Korea (KR\_v68), because the South Korean questionnaire included the middle category 'Neither true nor false'. The scale used is a 5-point scale in contrast to the ISSP 4-point scale. For the Cumulation the Variable was integrated and recoded to a 4-point scale.

v52 - abcd: Faithhealers have God-given healing powers

ISSP 1991 (ZA2150, Q35c, V68); ISSP 1998 (ZA3190, Q38c, V71); ISSP 2008 (ZA4950/ZA5690, Optional\_Q6c, V80); ISSP 2018 (ZA7570/ZA7630, O4c, v69):

Now please think about something different. Please check one box on each line below to show whether you think each statement is true or false.

Some faith healers (really) do have God-given healing powers.

v55 - abc: Picture of God: Mother - Father

ISSP 1991 (ZA2150, Q38a, V71); ISSP 1998 (ZA3190, Q37a, V65); ISSP 2008 (ZA4950/ZA5690, Optional\_Q5a, V74):

There are many different ways of picturing God. We'd like to know the kinds of images you are most likely to associate with God. Below are sets of contrasting images. On a scale of 1-7 where would you place your images of God between the two contrasting images?

The first set of contrasting images shows Mother at 1 on the scale and Father at 7. If you imagine God as a Mother, you would place yourself at 1. If you imagine God as a Father, you would place yourself at 7. If you imagine God as somewhere between Mother and Father, you would place yourself at 2, 3, 4, 5, or 6.

Where would you place your image of God on the scale for each set of images?

Mother - Father

v59 - ab: World image: much evil vs. much good

ISSP 1991 (ZA2150, Q39a, V75); ISSP 1998 (ZA3190, Q39a, V73):

People have different images of the world and human nature. We'd like to know the kinds of images you have.

Below are sets of contrasting images. On a scale of 1-7, where would you place your image of the world and human nature between the two contrasting images?

Look at the first set of contrasting images. If you think that "The world is basically filled with evil and sin", you would place yourself at 1. If you think "There is much goodness in the world which hints at God's goodness", you would place yourself at 7. If you think things are somewhere between these two, you would place yourself at 2, 3, 4, 5, or 6.

Where would you place your image of the world on each of the scales below?

Human nature is good vs. corrupt

SEX - R: Sex

ISSP 1991 (ZA2150, V77); ISSP 1998 (ZA3190, V200); ISSP 2008 (ZA4950/ZA5690, SEX); ISSP 2018 (ZA7570/ZA7630, SEX):

Sex of respondent

-9 No answer, refused

1 Male

2 Female

in ISSP 1991 + ISSP 2008 + ISSP 2018:

9 No answer

AGE - R: Age

ISSP 1991 (ZA2150, V78); ISSP 1998 (ZA3190, V201); ISSP 2008 (ZA4950/ZA5690, AGE); ISSP 2018 (ZA7570/ZA7630, AGE):

Age of respondent

-9 No answer, refused

15 15 years old

105 105 years or more

MARITAL - R: Marital status

ISSP 1991 (ZA2150, V79); ISSP 1998 (ZA3190, V202); ISSP 2008 (ZA4950/ZA5690, MARITAL); ISSP 2018 (ZA7570/ZA7630, MARITAL):

Marital status of respondent

-9 No answer, refused

1 Married, Civil Partnership

2 Widowed

3 Divorced

4 Separated (married but sep./not living with legal spouse)

5 Never married, single

in ISSP 1991:

1 Married

4 Separated

5 Never married

in ISSP 1998:

1 Married or living as married

4 Separated

5 Never married, not married, single

in ISSP 2008:

1 Married, living with legal spouse (including civil partnership)

4 Separated (married but separated/ not living with legal spouse)

9 No answer + None (KE)

in ISSP 2018:

1 Married

2 Civil partnership

3 Separated from spouse/ civil partner (still legally married/ still legally in a civil partnership) + Not used (AT)

4 Divorced from spouse/ legally separated from civil partner + Separated (AT)

5 Widowed/ civil partner died

7 Refused

9 No answer

Derivation:

/ ISSP 2018: Recode MARITAL (1=1) (2=1) (3=4) (5=2) (6=5).

COHAB - R: Steady life-partner

ISSP 1991 (ZA2150, V80); ISSP 1998 (ZA3190, V203); ISSP 2008 (ZA4950/ZA5690, COHAB); ISSP 2018 (ZA7570/ZA7630, PARTLIV):

Respondent: has/lives together with a partner or not

- 9 No answer, refused
- 4 NAP, married, no partner
- 1 Variable not available for this country in this module
- 1 Yes
- 2 No

in ISSP 1991:

- 0 Not applicable (married) + Not available (IE, IL, IT, NL, NZ, PL, RU, SI, US)

in ISSP 1998:

- 0 Not applicable (no partner, married) + Not available (JP, SI, ES, US)

in ISSP 2008:

- 0 Not applicable (married and living with legal spouse, Code 1 in MARITAL) + Not available (KE)

in ISSP 2018:

- 0 NAP (Code 3-5 in MARITAL + Singles, NZ) + Not available (GB)
- 1 Yes, have partner; live in same household
- 2 Yes, have partner; don't live in same household
- 3 No partner
- 7 Refused
- 9 No answer

Derivation:

/ ISSP 2018: Recode COHAB (1=1) (2=1) (3=2)

EDUCYRS - R: Education I: years of schooling

ISSP 1991 (ZA2150, V98); ISSP 1998 (ZA3190, V204); ISSP 2008 (ZA4950/ZA5690, EDUCYRS); ISSP 2018 (ZA7570/ZA7630, EDUCYRS):

Respondent: Education I - Years of schooling

in ISSP 2018:

If you are currently in education, count the number of years you have completed so far.

- 9 No answer, refused
- 8 Don't know
- 1 Variable not available for this country in this module
- 0 No formal schooling, other
- 1 1 year
- 89 89 years
- 95 Still at school
- 96 Still at college, university

in ISSP 1991:

- 0 No formal schooling
- 35 35 years
- 99 No answer

in ISSP 1998:

- 0 Not available (GB-NIR)
- 50 50 years and more
- 94 Other answer
- 97 No formal schooling, still at school

in ISSP 2008:

- 0 Not available (LK, GB-NIR)
- 1 1 year or less
- 89 89 years
- 97 No formal schooling, no years

in ISSP 2018:

- 0 No formal schooling, no years at school
- 64 64 years
- 99 No answer

Derivation:

/ ISSP 1998: Recode V204 (94=0).

Note:

/ ISSP 2008 - IT\_2008: Years of age respondent left school minus 6 years. The highest variable value is 89 for a respondent of 95 years of age who reports that s/he quitted school at 95. This extreme value has not been corrected.

DEGREE - R: Education II: highest education level

ISSP 1991 (ZA2150, V99); ISSP 1998 (ZA3190, V205); ISSP 2008 (ZA4950/ZA5690, DEGREE); ISSP 2018 (ZA7570/ZA7630, DEGREE):

Respondent: Education II - Highest education level: Harmonized categories of country specific degree and/ or years of education variable

- 9 No answer
- 8 Don't know
- 0 No formal qualification
- 1 Lowest formal qualification
- 2 Above lowest qualification
- 3 Higher secondary completed
- 4 Above higher secondary level
- 5 University degree completed

in ISSP 1991:

- 9 No answer (No answer, don't know)

in ISSP 1998:

- 1 None, still at school
- 2 Incomplete primary
- 3 Primary completed
- 4 Incomplete secondary, technical school
- 5 Secondary completed
- 6 Incomplete + complete semi-higher qualification, incomplete university, others
- 7 University completed

in ISSP 2008:

- 4 Above higher secondary level, others
- 5 University degree completed, graduate studies

in ISSP 2018:

- 1 Primary school (elementary education)
- 2 Lower secondary (secondary completed that does not allow entry to university: end of obligatory school)
- 3 Upper secondary (programs that allow entry to university)
- 4 Post secondary, non-tertiary (other upper secondary programs toward the labour market or technical formation)
- 5 Lower level tertiary, first stage (also technical schools at a tertiary level)
- 6 Upper level tertiary (Master, Doctor)

Derivation:

/ ISSP 1998: Recode V205 (1=0) (2=0) (3=1) (4=2) (5=3) (6=4) (7=5).

/ ISSP 2018 Recode DEGREE (6=5)

MAINSTAT - R: Current employment status

ISSP 1991 (ZA2150, V81); ISSP 1998 (ZA3190, V206); ISSP 2008 (ZA4950/ZA5690, WRKST); ISSP 2018 (ZA7570/ZA7630, MAINSTAT):

Respondent: Current employment status - current economic position, main source of living

- 9 No answer, refused, don't know
- 4 NAP, never had paid work
- 1 In paid work
- 2 Unemployed and looking for a job
- 3 In education / Apprentice or trainee
- 4 Permanently sick or disabled
- 5 Retired
- 6 Domestic work
- 7 In compulsory military service or community service
- 8 Other

in ISSP 1991 + ISSP 1998 + ISSP 2008:

- 1 Employed-full time, main job
- 2 Employed-part time, main job
- 3 Employed, less than part-time
- 4 Helping family member
- 5 Unemployed
- 6 Student, school, vocational training
- 7 Retired
- 8 Housewife, -man, home duties
- 9 Permanently disabled
- 10 Other, not in labour force

in ISSP 1991:

- 6 Student, at school, in education
- 9 Permanently disabled, sick
- 99 No answer

in ISSP 1998:

- 6 Student, at school, in education, vocational training, in government active labour market programmes, on government training scheme
- 9 Permanently disabled, sick
- 10 Others, not in labour force, not working

in ISSP 2008:

- 97 Refused
- 98 Don't know
- 99 No answer

in ISSP 2018:

- 99 No answer

Derivation:

/ ISSP 1991 + ISSP 1998 + ISSP 2008: Recode WRKST (1=1) (2=1) (3=1) (4=8) (5=2) (6=3) (7=5) (8=6) (9=4) (10=8).

/ ISSP 2018: Recode MAINSTAT (1=1) (2=2) (3=3) (4=3) (5=4) (6=5) (7=6) (8=7) (9=8).

WRKHRS - R: Hours worked weekly

ISSP 1991 (ZA2150, V82); ISSP 1998 (ZA3190, V213); ISSP 2008 (ZA4950/ZA5690, WRKHRS); ISSP 2018 (ZA7570/ZA7630, WRKHRS):

Respondent: Working hours - number of hours (usually) worked weeklyliving

- 9 No answer
- 8 Don't know
- 7 Refused
- 4 NAP, not in labour force
- 1 Variable not available for this country in this module
- 1 1 hour
- 96 96 hours and more

in ISSP 1991:

- 0 Not applicable (not in paid work, never had a job, unemployed, not in labour force) + Not available (HU, SI)
- 97 97 hours and more
- 99 No answer, no hours

in ISSP 1998:

- 0 Not applicable (not in paid work, never had a job, unemployed, not in labour force) + Not available (NZ, GB-NIR)
- 98 Don't know, can't say, varies too much
- 99 No answer, refused

in ISSP 2008:

- 0 Not applicable, not in labour force (code 5-10 in WRKST), not in paid work, never had a job + Not available (LK, TW)
- 98 Don't know, can't say, varies too much, occasional

in ISSP 2018:

- 0 NAP (Code 2 or 3 in WORK)
- 89 89 hours or more (US)
- 98 Don't know incl. varies too much (GB-GBN)

Derivation:

/ ISSP 1991: Recode V82 (97=96).

ISCO88 - R: Occupation 1988 ISCO-ILO occupation code

ISSP 1991 (ZA2150, V84 - Australia only); ISSP 1998 (ZA3190, V208); ISSP 2008 (ZA4950/ZA5690, ISCO88); ISSP 2018 (ZA7570/ZA7630, ISCO08):

Respondent's Occupation: ILO / ISCO - International Occupation Code 1988

Present occupation of respondent or for various countries last occupation (if retired or currently not working)

-4 NAP, not in labour force, never had a job

-1 Variable not available for this country in this module

in ISSP 1991:

0 Never had a job (AU) + Not available (AT, HU, IE, IL, IT, NL, NO, NZ, PH, PL, RU, SI, US, DE-W, DE-E, GB-GBN, GB-NIR)

9998 Not classifiable; inadequately described, Don't know

in ISSP 1998:

0 Not applicable, not in labour force, never had a job + Not available (CL, IT, JP, GB-GBN, GB-NIR)

9996 Not classifiable; inadequately described, Don't know

in ISSP 2008:

0 Not applicable, never had a job, not in paid work + Not available (GB-NIR)

9996 Not classifiable; inadequately described

in ISSP 2018:

0 NAP (Code 3 in WORK)

Note:

/ ISSP 1991: The occupation codes of all other countries of this module could not have been cumulated, because national occupation codes were used.

/ ISSP 1998 + 2008: Deviating country specific occupation codes were almost always recoded to ISCO88, only some codes (7500, 7510, 7520, 7900) were maintained additionally to the International Occupation Code of 1988.

/ ISSP 2008 - ES\_2008: May include information not only about respondent's but also on HOUSE HEAD'S occupation. ("Which of the following situations applies to you at present? (If respondent is working or retired respectively unemployed but previously working) And which was your last occupation or trade? That is, in what does/ did your work consist of, specifically? We are referring to your main occupation: the one for which you (or the HOUSE HEAD) obtains/ obtained your/ his/ her highest earnings.)

/ ISSP 2019: Original ISCO-08 codes were converted to ISCO-88 by using Ganzeboom, Harry B.G.; Treiman, Donald J., "International Stratification and Mobility File: Conversion Tools" <http://www.harryganzeboom.nl/ismf/index.htm>. [2019/10/05].

/ Note1: The full list of ISCO88 codes can be found in the appendix

SELFEMP - R: Self-employed

ISSP 1991 (ZA2150, V90); ISSP 1998 (ZA3190, V211); ISSP 2008 (ZA4950/ZA5690, WRKTYPE); ISSP 2018 (ZA7570/ZA7630, EMPREL):

Respondent: Self-employed or not

in ISSP 1991:

Respondent: Self employed - present or last (main) job

in ISSP 1998:

In your (main) job are you an employee or self-employed?

in ISSP 2008:

Private versus public sector or self-employed:

(If R is employee in current/ previous job) Do you work at present or did you work in your last job in the private or public sector?

in ISSP 2018:

Are/ were you an employee, self-employed, or working for your own family's business?

-9 No answer, refused, insufficient information

-4 NAP, not in labour force

-1 Variable not available for this country in this module

1 Self-employed (with, without employees)

2 Works for someone else

in ISSP 1991:

0 Not applicable (unemployed, not in labour force, never had a job, not in paid work)

1 Self-employed

9 No answer, insufficient information

in ISSP 1998:

0 Not applicable (unemployed, not in labour force, never had a job, not in paid work, not working)

9 No answer, don't know, refused

in ISSP 2008:

0 Not applicable, never had a job, not in labour force + Not available (NO, TW)

1 Work for government

2 Public owned firm, nationalized industry

3 Private firm, others

4 Self-employed

6 Voluntary sector, non-profit organizations, charity, other (AU, ZA, GB-GBN, GB-NIR)

8 Don't know

9 No answer

in ISSP 2018:

1 Employee

2 Self-employed without employees

- 3 Self-employed with 1 to 9 employees
- 4 Self-employed with 10 employees or more
- 5 Working for own family's business
- 6 Self-employed with employees; no numbers available (CL)
- 8 Don't know

- 2 Yes, previously but not currently + Not used (US)
- 3 No, never + No, don't belong (US)

Note:

/ ISSP 2008 + ISSP 2018: Recode UNION (1=1) (2=2) (3=2).

SPMAINST - S-P: Current employment status

ISSP 1991 (ZA2150, V112); ISSP 1998 (ZA3190, V207); ISSP 2008 (ZA4950/ZA5690, SPWRKST); ISSP 2018 (ZA7570/ZA7630, SPMAINST):

Spouse/ partner: Current employment status

What is the current economic status, main source of living of your spouse/ partner?

- 9 No answer, refused, don't know
- 4 NAP, not married, no spouse/partner
- 1 Variable not available for this country in this module
- 1 In paid work
- 2 Unemployed and looking for a job
- 3 In education / Apprentice or trainee
- 4 Permanently sick or disabled
- 5 Retired
- 6 Domestic work
- 7 In compulsory military service or community service
- 8 Other

in ISSP 1991 + ISSP 1998 + ISSP 2008:

- 1 Full-time employed, main job
- 2 Part-time employed, main job
- 3 Less than part-time
- 4 Helping family member
- 5 Unemployed
- 6 Student, school, education
- 7 Retired
- 8 Housewife, -man, home duties
- 9 Permanently disabled
- 10 Other, not in labour force

in ISSP 1991:

- 0 Not married + Not available (IL, NL, PH, RU)
- 9 Permanently disabled, sick
- 99 No answer

in ISSP 1998:

- 0 Not applicable (not married; no spouse/ partner) + Not available (NL, GB-NIR)
- 9 Permanently disabled, sick

in ISSP 2008:

- 0 Not applicable, neither married nor living with a partner (code 2 in COHAB) + Not available (LK, TR)
- 97 Refused
- 98 Don't know
- 99 No answer

in ISSP 2018:

- 0 NAP (Code 3, 7 in PARTLIV)
- 3 In education
- 4 Apprentice or trainee
- 5 Permanently sick or disabled
- 6 Retired
- 7 Domestic work
- 8 In compulsory military service or community service
- 9 Other
- 99 No answer

Note:

/ ISSP 1991 + ISSP 1998 + ISSP 2008: Recode SPWRKST (1=1) (2=1) (3=1) (4=8) (5=2) (6=3) (7=5) (8=6) (9=4) (10=8).

/ ISSP 2018: Recode SPMAINST (1=1) (2=2) (3=3) (4=3) (5=4) (6=5) (7=6) (8=7) (9=8).

SPISCO88 - S-P: Occupation 1988 ISCO-ILO occupation code

ISSP 1991 (ZA2150, V114 - Australia only); ISSP 1998 (ZA3190, V209); ISSP 2008 (ZA4950/ZA5690, SPISCO88); ISSP 2018 (ZA7570/ZA7630, SPISCO08):

Spouse/ partner Occupation: ILO/ISCO - International Occupation Code 1988

-4 NAP, not married, not in labour force

-1 Variable not available for this country in this module

in ISSP 1991:

0 Not married + Not available (AT, HU, IE, IL, IT, NL, NO, NZ, PH, PL, RU, SI, US, DE-W, DE-E, GB-GBN, GB-NIR)

9998 Inadequately described, not classifiable; No answer

in ISSP 1998:

0 Not applicable, neither married nor living with partner (code 2 in COHAB) or spouse/ partner never had a job, not in paid work + Not available (AT, GB-NIR)

9996 Not classifiable; inadequately described, don't know

in ISSP 2008:

0 Not applicable, neither married nor living with partner (code 2 in COHAB) or spouse/ partner never had a job, not in paid work + Not available (AT, LK, GB-NIR)

9996 Not classifiable; inadequately described

in ISSP 2018:

0 NAP (Code 0, 3 in SPWORK)

Note:

/ ISSP 1991: The occupation codes of all other countries of this module could not have been cumulated, because national occupation codes were used.

/ ISSP 1998 + 2008: Deviating country specific occupation codes were almost always recoded to ISCO88, only some codes (7500, 7510, 7520, 7900) were maintained additionally to the International Occupation Code of 1988.

/ ISSP 2018: Original ISCO-08 codes were converted to ISCO-88 by using Ganzeboom, Harry B.G.; Treiman, Donald J., "International Stratification and Mobility File: Conversion Tools" <http://www.harryganzeboom.nl/ismf/index.htm>. [2019/10/05].

/ Note1: The full list of ISCO88 codes can be found in the appendix

#### HOMPOP - How many persons in household

ISSP 1991 (ZA2150, V116); ISSP 1998 (ZA3190, V252); ISSP 2008 (ZA4950/ZA5690, HOMPOP); ISSP 2018 (ZA7570/ZA7630, HOMPOP):

Size of household:

Number of people currently living in local household of Respondent, including

- 9 No answer, refused, insufficient information
- 4 NAP, not a private household
- 1 Variable not available for this country in this module
- 1 1 person
- 28 28 persons

in ISSP 1991:

- 0 Not available (HU, NL, RU)
- 7 7 or more persons (NO)
- 8 8 or more persons (AU, IT, PL, SI)
- 9 9 or more persons (AT)
- 13 13 or more persons (PH)
- 99 No answer, refused

in ISSP 1998:

- 0 Not available (AU)
- 8 8 or more persons (CZ, HU, SE)
- 99 No answer, don't know, refused

in ISSP 2008:

- 0 Not available (LK, TW)
- 6 6 persons or more (IT)
- 8 8 persons or more (SE)
- 13 13 persons or more (DK)

in ISSP 2018:

- 8 Eight or more persons (AT)
- 96 NAP (Not a private household)

Note:

/ ISSP 1991 - AU\_1991: Asked of adults only - "How many adults (over 18) live in this household?"

CHILDHH - Child in household

ISSP 1991 (ZA2150, V154); ISSP 1998 (ZA3190, V253); ISSP 2008 (ZA4950/ZA5690, HHCYCLE); ISSP 2018 (ZA7570/ZA7630, HHCHILDR/HHTODD):

Child in household

in ISSP 1991 + ISSP 1998 + ISSP 2008:

Household cycle - Household composition: number of adults and of children under 18 years living in household

in ISSP 2018:

And how many children between [school entry age] and 17 usually live in your household?

How many children below [school entry age] live in your household?

-9 No answer, refused, insufficient information

-4 NAP, not a private household

-1 Variable not available for this country in this module

1 Yes

2 No

in ISSP 1991 + ISSP 1998 + ISSP 2008:

1 Single household

2 1 adult, 1 child

3 1 adult, 2 children

4 1 adult, 3 or more children

5 2 adults

6 2 adults, 1 child

7 2 adults, 2 children

8 2 adults, 3 or more children

9 3 adults

10 3 adults + children

11 4 adults

12 4 adults + children

13 5 adults

14 5 adults + children

15 6 adults

16 6 adults + children

17 7 adults

18 7 adults + children

19 8 adults

20 8 adults + children

21 9 adults

22 9 adults + children

23 10 adults

24 10 adults + children

25 11 adults

26 11 adults + children

27 12 adults

28 12 adults + children

95 Other

in ISSP 1991:

0 Not available (AU, IL, IT, NZ, NO, PL, US, DE-W, DE-E)

99 No answer, insufficient information

in ISSP 1998:

0 Not available (AU, FR, IL, SI, ES)

99 No answer, refused

in ISSP 2008:

0 Not available (LK, TW)

15 6 or more adults (IT)

95 10 and more persons in institution/ care (AU)

99 No answer, refused

in ISSP 2018:

0 No children (below age of school entry)/ (school entry age to 17)

1 One child (below age of school entry)/ (school entry age to 17)

2 Two children (below age of school entry)/ (school entry age to 17)

3 Three children (below age of school entry)/ (school entry age to 17)

4 Four children (below age of school entry)/ (school entry age to 17)

5 Five children (below age of school entry)/ (school entry age to 17)

6 Six children (below age of school entry)/ (school entry age to 17)

7 Seven children (below age of school entry)/ (school entry age to 17)

8 Eight children (below age of school entry)/ (school entry age to 17)

9 Nine children (below age of school entry)/ (school entry age to 17)

10 Ten children (below age of school entry)/ (school entry age to 17)

96 NAP (Not a private household)

97 Refused

99 No answer

ATTEND - R: Attendance of religious services

ISSP 1991 (ZA2150, V107); ISSP 1998 (ZA3190, V218); ISSP 2008 (ZA4950/ZA5690, ATTEND); ISSP 2018 (ZA7570/ZA7630, ATTEND):

Respondent: Attendance of religious services

- 9 No answer, refused
- 8 Don't know, varies too much
- 4 NAP, no religion
- 1 Variable not available for this country in this module
- 1 Several times a week
- 2 Once a week
- 3 2 or 3 times a month
- 4 Once a month
- 5 Several times a year
- 6 Once a year
- 7 Less frequently than once a year
- 8 Never

in ISSP 1991 + ISSP 1998:

- 0 Not applicable (no Christian religion) + Not available (1991: AT, IL, SI; 1998: BG, IL)
- 1 Once a week or more, nearly every week
- 2 2-3 times a month
- 3 Once a month
- 4 Several times a year
- 5 Less frequently
- 6 Never
- 7 Not used
- 8 Don't know

in ISSP 2008:

- 0 Not available (LK)
- 1 Not used (GB-GBN)
- 2 Once a week or more (GB-GBN)
- 4 Not used (DE)
- 5 At least twice a year (GB-GBN) + A couple of times a year, big holidays and special events (SI)
- 6 Not used (DE)
- 7 Less (than several times a year, DE)
- 97 Refused
- 98 No answer

in ISSP 2018:

- 1 More than once a week (DE) + Not used (GB-GBN)
- 3 Between one and three times a month (DE) + Less often but at least once in two weeks (GB-GBN)
- 4 Not used (DE) + Less often but at least once a month (GB-GBN)
- 5 Less often but at least twice a year (GB-GBN)
- 6 Once or twice a year (HU) + Not used (DE) + Less often but at least once a year (GB-GBN)

7 Less (DE) + Less often than once a year (GB-GBN)

8 Never or practically never (GB-GBN)

Derivation:

/ ISSP 1991: Recode V107 (1=2) (2=3) (3=4) (4=5) (5=7) (6=8).

/ ISSP 1998: Recode V218 (1=2) (2=3) (3=4) (4=5) (5=7) (6=8).

/ ISSP 2008, CH: An error has occurred in the programming of the questionnaire by the survey institute. The questions for variables ATTEND should have been posed to all respondents, but unfortunately were not posed to people who answered "No religion" in RELIG. These missing cases in ATTEND were originally coded as "No answer" in ISSP 2008. In the course of data harmonization for this data set, these cases were recoded into the filter code 0 "NAP, no religion".

RELIGGRP - R: Religious main groups (derived)

ISSP 1991 (ZA2150, V106); ISSP 1998 (ZA3190, V217); ISSP 2008 (ZA4950/ZA5690, RELIGGRP); ISSP 2018 (ZA7570/ZA7630, RELIGGRP):

Religious main groups (derived)

- 9 No answer, refused
- 8 Don't know
- 0 No religion
- 1 Roman Catholic
- 2 Protestant
- 3 Christian Orthodox
- 4 Other Christian Religions
- 5 Jewish
- 6 Islam
- 7 Buddhism
- 8 Hinduism
- 9 Other Eastern/Asian Religions
- 10 Other Religions

in ISSP 1991:

- 91 No (Christian) denomination given

in ISSP 1998:

- 91 No (Christian) denomination given

in ISSP 2008:

- 1 No religion, not religious (HU)

in ISSP 2018:

- 4 Christian (NZ)
- 97 Refused
- 98 Information insufficient
- 99 No answer

Derivation:

/ ISSP 1991: The answers to respondent's religion were recoded into the scheme of compressed religion groups of ISSP 2008 (variable RELIGGRP), supplemented by additional code 91 of 1991: Recode V106 (10=1) (11=1) (20=5) (30=6) (40 thru 49=2) (51=8) (52=7) (53=9) (54=3) (60=2) (90=0) (91=-9) (92=10); for DE, IE, PL and GB-GBN 92=4) (93=10).

/ ISSP 1998: The answers to respondent's religion were recoded into the scheme of compressed religion groups of ISSP 2008 (variable RELIGGRP), supplemented by additional code 91 of 1998: Recode V217 (10=1) (11=1) (12=4) (20=5) (30=6) (31=10) (40 thru 49=2) (50=9) (51=8) (52=7) (53=9) (54=3) (55=2) (60=10) (61=10) (62=10) (63=10) (64=10) (65=2) (66=10) (67=2) (68=10) (69=10) (90=0) (91=-9) (92=4) (93=10) (94=10).

/ ISSP 2008: This variable including the compressed groups of respondent's religion is derived from variable RELIG (detailed religious denominations).

/ ISSP 2018: Recode RELIGGRP (98=-8).

TOPBOT - R:Top Bottom self-placement 10 pt scale

ISSP 2008 (ZA4950/ZA5690, TOPBOT); ISSP 2018 (ZA7570/ZA7630, TOPBOT):

In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from top to bottom.

Where would you put yourself on this scale?

ISSP 1991 (ZA2150) + ISSP 1998 (ZA3190):

Variable not available in this module

0 Not available (LK, TW, US, GB-GBN, GB-NIR)

98 Can't say/ Hard to say (LV, PL)

in ISSP 2018:

0 Not available (GB-GBN)

CLASS - R: Subjective social class

ISSP 1991 (ZA2150, V108); ISSP 1998 (ZA3190, V219):

Respondent: Subjective social class

ISSP 1991 (ZA2150, V108); ISSP 1998 (ZA3190, V219):

Variable not available in this module

- 9 No answer, classification refused
- 8 Don't know, can't choose
- 7 Refused
- 3 Variable not available in this module
- 1 Variable not available for this country in this module
- 0 None of these classes, other
- 1 Lower class
- 2 Working class
- 3 Upper working class/ lower middle class
- 4 Middle class
- 5 Upper middle class
- 6 Upper class

in ISSP 1991:

- 0 None of these, I don't feel I belong to any particular class + Not available (IL, PL, RU, SI, GB-GBN, GB-NIR)
- 7 Classification refused
- 8 Don't know
- 9 No answer

in ISSP 1998:

- 0 None of these, no class affiliation, other + Not available (NL, GB-GBN, GB-NIR)

URBRURAL - Place of living: urban - rural

ISSP 1991 (ZA2150, V122); ISSP 1998 (ZA3190, V254); ISSP 2008 (ZA4950/ZA5690, URBRURAL); ISSP 2018 (ZA7570/ZA7630, URBRURAL):

Would you describe the place where you live as...

- 9 No answer
- 8 Don't know, can't choose
- 7 Refused
- 1 Variable not available for this country in this module
- 1 A big city
- 2 The suburbs or outskirts of a big city
- 3 A town or a small city
- 4 A country village
- 5 A farm or home in the country

in ISSP 1991:

- 0 Not available (AT, DE-E, IT, IL, GB-GBN, GB-NIR)

in ISSP 1998:

- 0 Not available (CH, ES, DE, IT, JP, SK, GB-GBN, GB-NIR)
- 1 Urban area
- 2 Suburbs of a large town/city
- 3 Rural area

in ISSP 2018:

- 7 Other answer (GB-GBN)

Derivation:

/ ISSP 1998: Recode V251 (1=1) (2=2) (3=4)

/ ISSP 2018: Recode (7=-9)

Note:

/ ISSP 1991: The variable is derived from the national-specific categories. For further information about categories and recoding syntax check the appendix.

INCOME - R:Household income groups (derived)

ISSP 1991 (ZA2150, V117/V118); ISSP 1998 (ZA3190, V216); ISSP 2008 (ZA4950/ZA5690, NAT\_INC); ISSP 2018 (ZA7570/ZA7630, NAT\_INC):

Income group household

- 9 No answer
- 8 Don't know
- 7 Refused
- 1 Variable not available for this country in this module
- 1 Low
- 2 Middle
- 3 High

in ISSP 1991:

- 0 Not available (PH)

in ISSP 1998:

- 0 Not available (GB-NIR)

in ISSP 2008:

- 0 Not available (LK)

Note:

The variable is an indicator derived from the national-specific income variables that was clustered into three categories (low, middle, and high). The classification was made based on the relative income position of the respondent in the sample. Further information on coding can be found in the introduction in section Income.

#### WEIGHT - Weighting factor

ISSP 1991 (ZA2150, V131); ISSP 1998 (ZA3190, V316); ISSP 2008 (ZA4950/ZA5690, WEIGHT); ISSP 2018 (ZA7570/ZA7630, WEIGHT):

Weighting factor

NATIONAL weighting variables. No total weight for international comparism.

1 No weighting

Note:

/ ISSP 1991 + 1998 + 2008 - Weighting factor: For detailed information and explanation about the construction of the national weights see 'Study Description' for each country or for each participating country of 2008 additionally 'Background Variables Documentations'.

/ ISSP 1991 - V131 for Russia: Probably by mistake, 62 cases of the original data set were still on code 0. As this is a problem for all following statistical procedures, these cases were retrospectively recoded to 1 = no weighting, although this of course has an influence on the mean.

/ ISSP 1991 - V131 for Philippines: The original weighting factors for the Philippines cause an significant increase of the sample size. These factors have been rescaled to meet a mean value of 1. The weighting itself remained unchanged.

MODE - Administrative mode of data-collection

ISSP 2008 (ZA4950/ZA5690, MODE); ISSP 2018 (ZA7570/ZA7630, MODE):

Administrative mode of data-collection

This variable records the administrative mode/ method of data-collection.

ISSP 1991 (ZA2150) + ISSP 1998 (ZA3190):

Variable not available in this module

- 9 No answer, information missing
- 3 Variable not available in this module
- 10 Face-to-face, PAPI, no visuals
- 11 Face-to-face, PAPI, visuals

- 9 Incorporated area less than 2500 or unincorporated area of 1.000 to 2.499
- 10 Open country within larger civil divisions e.g. township, division

Recode V122 US (1=1) (2=1) (3=2) (4=2) (5=2) (6=2) (7=3) (8=3) (9=4) (10=5)

### HU – Place of residence

- 1 Central city (or suburb of a city) (Budapest and 5 major towns of the country)
- 2 Smaller City (or suburb of a smaller city) (All other minor towns 5.000 - 9.999)
- 3 Rural less than 4.999 (large and small village)

Recode V122 HU (1=1) (2=3) (3=4)

### IE – Area

- 1 100.000 and more
- 2 10.000 - 99.999
- 3 5.000 - 9.999
- 4 1.500 - 4.999
- 5 500 - 1.499
- 6 Village
- 7 Open country

Recode V122 IE (1=1) (2=2) (3=3) (4=3) (5=4) (6=4) (7=5)

### NO – Municipalities

- 1 Cities > 100.000
- 2 Urban 3.000 - 99.999
- 3 Rural 3.000 - 99.999, and rural less than 3.000

Recode V122 NO (1=1) (2=3) (3=4)

PH, NZ (Do you live in a rural or urban area), PL

- 1 Urban
- 2 Rural

Recode V122 PH, NZ, PL (1=2) (2=4)

SI

- 1 City
- 2 Suburb
- 3 Rural

Recode V122 SI (1=1) (2=2) (3=4)

NL

- 1 Cities >= 100.000
- 2 Cities 5.000 - 50.000
- 3 Urban 2 - 50.000
- 4 Rural 5 - 30.000
- 5 Rural
- 6 Suburbs

Recode V122 NL (1=1) (2=2) (3=2) (4=3) (6=2) (5=4)

RU – Place where the poll was conducted

- 1 Moscow or Leningrad
- 2 Capital of a union republic
- 3 In regional centre, capital of an autonomous republic (region)
- 4 In district centre, centre of an autonomous republic (region)
- 5 In other urban settlements
- 6 In a rural settlement

Recode V122 RU (1=1) (2=1) (3=2) (4=2) (5=3) (6 = 4)

AU

- 1 Metropolitan area, over 500.000
- 2 City 100.000 - 500.000 inhabitants
- 3 Middle-sized city, 20.000 - 99.999 inhabitants
- 4 Country town, 1.000 - 20.000 inhabitants
- 5 Village under 1.000 Inhabitants
- 6 Farm of property

Recode V122 AU (1=1) (2=1) (3=2) (4=3) (5=4) (6=5)
