ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [-8] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
<i>Question no. and text</i>	<p>48. Hvilken yrkestittel har/hadde du (hovedjobb)?</p> <p>49. Kan du kort beskrive dine arbeidsoppgaver? Vennligst beskriv så presist som mulig.</p> <p>50. SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [-8] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

ATTEND – Attendance of religious services

	National Language	English Translation
<i>Question no. and text</i>	63. Hvor ofte er du til stede ved gudstjenester eller andre religiøse møter? Sett ett kryss	63. How often do you attend religious services or other religious meetings? Note: Tick one
<i>Codes/ Categories</i>	1. Flere ganger i uken	1. Several times a week
	2. En gang i uken	2. Once a week
	3. tre ganger i måneden	3. 2 or 3 times a month
	4. En gang i måneden	4. Once a month
	5. Flere ganger i året	5. Several times a year
	6. En gang i året	6. Once a year
	7. Sjeldnere enn en gang i året	7. Less frequently than once a year
	8. Aldri	8. never
	9. Vet ikke/husker ikke	9. Don't know/don't remember
<i>Interviewer Instruction</i>		
<i>Translation Note</i>	It was difficult translating the term several times a week or more often. The direct translation of “several” is “flere” in Norwegian. It wouldn’t make sense to add the “more often” part as “flere” is synonymous to “mange” which can be translated to “many”. It wouldn’t make sense to say that something is more often than many times. We landed on just using the first part of the phrase “Several times a week”/“Flere ganger i uken”.	
<i>Note</i>	B26 Somehow the text saying „Regn ikke med bryllup, begravelse, dåp eller lignende.“/ „Do not include weddings, funerals, baptisms or similar.“ was left out. So it might not be directly comparable to previous years.

<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>	<p>Data from The National Population Register.</p> <p>In 2017, the government decided to merge some of the counties, reducing the number of counties from 19 to 11. This was implemented on 1 January 2020. Since we carried out our field work in early 2020, we had to use the new classification of county. We also decided to use NUTS2 for the regional level in ISSP. Previously we have used an adaptation of NUTS2.</p>
