### ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [-8inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
<i>Question no. and text</i>	<b>OCC10:</b> What (do/did) you actually do in that job? Tell me, what (are/were) some of your main duties?

**SPMAINST – Spouse, partner: main status**

	National Language	English Translation
<i>Question no. and text</i>	<b>5. SPWRKSTA:</b> Last week was your spouse working full time, part time, going to school, keeping house, or what?	
<i>Codes/ Categories</i>	1 Working full time	
	2 Working part time	
	3 With a job, but not at work because of temporary illness, vacation, strike	
	4 Unemployed, laid off, looking for work	
	5 Retired	
	6 In school	
	7 Keeping house	
	8 OTHER (SPECIFY)	
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>	SPMAINST=5 was coded from verbatim responses given in “8 Other (SPECIFY)”  During the interview, respondents were asked the same question regardless of partner or spouse, with a screener to modify question text. The US data capture all spouse variables regardless of habitation status. The US data only capture cohabitating partner variables, not information from non-cohabitating partners.
