Responsible for the preparation of this Variable Report:

Petra Brien
Christina Laßka

Introduction and preliminary remarks

The **GESIS Variable Report Series** on the **International Social Survey Programme Studies** offers a comprehensive description of data on study and variable level. For each annual module, individual Variable Reports are provided for final data set versions.

The reports are structured into six chapters:

Chapter one gives a brief overview of the worldwide ISSP project as a whole.

Chapter two provides the description of the respective ISSP study including bibliographic information, abstract, and methodological specifications.

Chapter three contains information on study-related survey materials which are essential to understand the data properly, followed by general information about the structure of ISSP data sets, documentation standards and variable coding frames in **chapter four**.

Chapter five provides a short explanation of the variable documentation itself.

Chapter six contains the core variable documentation: the documentation of each variable including complete question texts with all answer categories of the Basic Questionnaire, partially enriched with archival remarks. In addition, Variable Reports offer cross-tabulations over countries for all substantial and most of the demographic variables. Archive, protocol and country-specific variables are usually shown by descriptive statistics or frequency distributions. All cross-tabulations, descriptive statistics and frequency distributions are based on unweighted data.

The data for the annual ISSP modules are collected by independent institutions in each country. The country data are integrated into one international data file, which is documented, distributed and long-term archived by the ISSP Archive, institutionally, GESIS' Dept. Survey Data Curation (SDC) in Cologne, Germany (<https://www.gesis.org/en/institute/departments/survey-data-curation>). In every second year between ISSP modules 1997 and 2017, data processing, integration and harmonization have predominantly been prepared by our colleagues at JDS/ ASEP in Spain (<http://www.jdsurvey.net>).

Data access

Data for statistical analysis along with information about these data can be searched and accessed via the GESIS Search (<https://search.gesis.org?lang=en>) or via the search function on the GESIS homepage (<https://www.gesis.org/en/home>).

The use and the results of GESIS Search are free of charge. The download of data sets requires registration.

Data anonymization

According to data regulations in participating countries, only anonymized data are made available. Each national team is responsible for carefully checking the data in this respect before the deposit.

Usage requirements

To provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about related research activities, all users of ISSP data are requested to send bibliographic citations for each completed manuscript or thesis abstracts to isspservice@gesis.org or if possible, please, directly send a copy of the publication to GESIS (GESIS-Leibniz-Institute for the Social Sciences, Dept. Survey Data Curation - ISSP, Unter Sachsenhausen 6-8, D-50667 Cologne, Germany). Please, also observe the general notes on the [terms of use](#).

Disclaimer

Neither the original collector of the data, nor GESIS, bears any responsibility for the use of ISSP data or any data analyses.

Citation of this Variable Report

Please, use the following citation for this Variable Report:

Request

Please, alert us to any errors or problems that you might notice in the data or the documentation. All comments and remarks are very much appreciated to enhance the quality of the data: isspservice@gesis.org

1 ISSP Series Description

1.1 Series name

The International Social Survey Programme (ISSP)

1.2 Series information

The ISSP is a cross-national collaboration program, which has been continuously conducting annual surveys on diverse social science topics since 1985. The topics for each ISSP survey are proposed by delegates from ISSP member countries. Then, a Basic Questionnaire is composed by a committee, elected by the General Assembly before it is pretested in various countries. Starting in 1984 with four founding nations - Australia, Germany, Great Britain and the United States, the ISSP meanwhile has grown up to almost 50 member countries covering various cultures around the globe.

ISSP Modules 1985 – 2026:

- Citizenship: 2004/ 2014/ 2023*
- Digital Societies: 2024
- Environment: 1993/ 2000/ 2010/ 2020
- Family and Changing Gender Roles: 1988/ 1994/ 2002/ 2012/ 2022
- Health and Health Care: 2011/ 2021
- Leisure Time and Sports: 2007
- National Identity: 1995/ 2003/ 2013/ 2023*
- Religion: 1991/ 1998/ 2008/ 2018
- Role of Government: 1985/ 1990/ 1996/ 2006/ 2016/ 2026
- Social Inequality: 1987/ 1992/ 1999/ 2009/ 2019
- Social Networks (no replications): 1986/ 2001/ 2017
- Work Orientations: 1989/ 1997/ 2005/ 2015/ 2025

*combined

All ISSP members agree

1. to jointly develop modules addressing important areas of social science,
2. to field the modules either as an individual survey or as supplements to the regular national surveys and
3. to make the data available to the social science community as quickly as possible.

As the surveys are designed for replication, they offer the possibility for cross-national and cross-time comparisons, creating the base for a vast range of substantive and methodological research. Since there is no external fund agency, ISSP members fund their own surveys. Beyond that, ISSP committee members fund ISSP central coordination, networking, development of source questionnaires, or methodological work.

For more information on the ISSP in general, its working principles, contact addresses of ISSP members and principal investigators, please, visit the ISSP website (<http://www.issp.org>).

2.1.4 Bibliographic citation

Publications based on ISSP data, which are made available through GESIS, should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations should appear in footnotes or in the reference section of publications.

How to cite the data:

ISSP Research Group (2024): International Social Survey Programme: Health and Health Care II - ISSP 2021. GESIS, Cologne. ZA8000 Data file Version 2.0.0, doi: 10.4232/5.ZA8000.2.0.0.

2.2 Content

2.2.1 Abstract

The present study focuses on questions about individual health and the health care system.

2.2.2 Topic classification

Satisfaction with life (happiness); confidence in the national health care system; justification of better health care for people with higher incomes; agreement with various statements on the healthcare system (People use health care services more than necessary, the government should provide only limited health care services, in general, the health care system in the country is inefficient); willingness to pay higher taxes to improve the level of health care for all people in the country; attitude towards the access to publicly funded health care for people without citizenship of the country and even if they behave in ways that damage their health; in the country it is easier or harder to get access to health care for rich people than for poor people, for old people than for young people, for women than for men, for citizens of the country than for people who do not hold country's citizenship); opinion on causes why people suffer from severe health problems (because they behaved in ways that damaged their health, because of the environment they are exposed to at work or where they live, because of their genes, because they are poor); alternative/ traditional or folk medicine provides better solutions for health problems than mainstream/ Western traditional medicine; assessment of doctors in general in the country (doctors can be trusted, the medical skills of doctors are not as good as they should be, doctors care more about their earnings than about their patients); frequency of internet use on any device (such as computers, tablets and smartphones) to look for health or medical information during the past 12 months; frequency of internet use to look for information on the following topics during the past 12 months: information on healthy lifestyle, information related to anxiety, stress, or similar problems, information on vaccinations; agreement with the following statements: During the past 12 months, information on the internet affected my health behaviour in a positive way, information on the internet helped me understand what a doctor tried to explain to me; the internet is useful to help people decide if their symptoms are serious enough to go to the doctor, the internet is useful to check that the doctor is giving people appropriate advice, it is not easy to distinguish between reliable and unreliable health information on the internet; attitude towards vaccinations (overall, vaccinations do more harm than good, it is better to develop immunity by getting ill than having a vaccination); frequency of difficulties with work or household activities because of health problems, bodily aches or pains, unhappiness and depression, loss of self-confidence and insuperable problems in the past four weeks; frequency of visits to/ by a doctor and an alternative/ traditional/ folk health care practitioner during the past 12 months; reasons why the respondent did not receive needed medical treatment (could not pay for it, could not take the time off work or because of other commitments, the waiting list was too long); likelihood of getting the best treatment available in the country in the case of seriously illness; satisfaction with the health care system in the country; satisfaction with treatment at the last visit to a doctor and to an alternative health care practitioner; smoker status and number of smoked cigarettes per day; frequency of drinking four or more alcoholic drinks on the same day, of strenuous physical activity for at least 20 minutes, and of eating fresh fruit or vegetables; assessment of personal health status; respondent has a long-standing illness, a chronic condition, or a disability; respondent's height (in cm) and weight (in kg); attitude towards government's rights in times of severe epidemics (shut down businesses and places of employment, demand that people stay at home, use digital (mobile phone) surveillance to track infected people, require people to wear face masks, and ban public gatherings); kind of personal health insurance.

Optional items: Attitude towards government's rights in times of severe epidemics (place people known to carry the disease in isolation, suspend compulsory education and close schools and kindergartens, and

close borders to other countries); increased or decreased confidence in the health care system and in the government by the way the Covid-19 pandemic was handled in the country; employment situation considering own work activity before the Covid-19 pandemic and at present (e.g. I have the same job as before the pandemic, I lost my job due to the pandemic and now have a new job, I lost my job due to the pandemic and could not find a new job, etc.); change of household income since the Covid-19 pandemic; frequency of meeting extended family and friends in person compared with the time before the Covid-19 pandemic; agreement with the following statements: Most people become very overweight because they are lazy, most people who tested positive for Covid-19 contracted the virus because they were careless.

Demography: Sex; age; year of birth; years of full-time schooling; education (country specific): highest completed degree of education (ISCED 2011); work status (currently, formerly, or never in paid work); hours worked weekly; employment relationship; supervision of other employees; number of other employees supervised; type of organization: for-profit vs. non-profit and public vs. private; occupation (ISCO 2008); current main status; living in steady partnership; trade union membership; religious affiliation or denomination (country specific); comparative: groups of religious affiliations; frequency of the respondent's attendance at religious services; Top-Bottom self-placement; participation in the last general election; party the respondent voted for in the last general election (country-specific); placement of party the respondent voted for in the last general election on a left-right scale; ethnic group (country-specific); household size; composition of household: number of adults in the household; number of children above school entry age in household; number of children below school age in household; respondent's personal income (country-specific); household income (country-specific); legal partnership status; migration background: father's country of birth; mother's country of birth; place of living: urban – rural; region (country-specific).

Information about spouse/ partner on: work status (currently, formerly or never in paid work); hours worked weekly; employment relationship; supervision of other employees, occupation (ISCO 2008); current main status.

Additionally encoded: respondent ID, case substitution flag; date of interview (year, month, day); language of the interview; mode of data collection; weight; flag variable indicating partially completed interviews; Country ISO 3166 Code; Country/ Sample ISO 3166 Code; Country/ Sample Prefix ISO 3166 Code - alphanumeric.

2.3 Geographic coverage

Austria (AT); Australia (AU); Switzerland (CH); China (CN); Czech Republic (CZ); Germany (DE); Denmark (DK); Finland (FI); France (FR); Croatia (HR); Hungary (HU); Israel (IL); India (IN); Iceland (IS); Italy (IT); Japan (JP); Mexico (MX); Netherlands (NL); Norway (NO); New Zealand (NZ); Philippines (PH); Poland (PL); Russian Federation (RU); Slovenia (SI); Slovakia (SK); Suriname (SR); Thailand (TH); Taiwan (TW); United States (US); South Africa (ZA)

2.4 Universe

Persons aged 18 years and older

Exception: Denmark (18-80), Finland (15-74), Norway (18-79), South Africa (from 16), Austria (from 16), Suriname (18-74) and Netherlands (from 16)

2.5 Selection Method

Probability Sample: Simple Random

Probability Sample: Systematic Random

Probability Sample: Multistage Sample

2.6 Fieldwork and sample sizes

Table: Participating countries (regions) and fieldwork information for ISSP 2021

Country (Region)	ISO	Fieldwork start/ end	Fieldwork Institute	Questionnaire-versions	Sample Size (n of cases)
Austria	AT	09.01.2024 – 08.03.2024	IFES - Institut für empirische Sozialforschung GmbH, Wien, Austria	AT21	1546

2.7 Mode of data collection

Face-to-face interview: Paper-and-pencil (PAPI)

Face-to-face interview: Computer-assisted (CAPI/ CAMI)

Self-administered questionnaire: Paper

Self-administered questionnaire: Web-based (CAWI)

Telephone interview

3 Corresponding survey material

When dealing with international comparative data, data sets and documentation must be seen as two sides of the same coin. Even though ISSP members make huge efforts to produce comparable data in each country, there still remains a remarkable amount of country-specific peculiarities in the contributions to the final, international data set. These country-specific deviations from the standard either have to be harmonized if possible and definitely be documented, as they provide vital information for secondary analysts. Therefore, a set of procedures has been developed to take care for orderly technical preparation of national data sets and to allow for the systematic collection of required context information.

All corresponding survey materials are provided in English, only the national questionnaires are available in the national language(s) of each country.

3.1 Basic Questionnaire

The ISSP General Assembly concludes the design phase of an ISSP module after intensive discussions on the single items of the Basic Questionnaire roughly a year before the module is fielded. Two thirds of the module questions have to be replications from previous ISSP modules of the same subject. According to this, one third of the questions in each module are new. Subsequent to the mandatory module questions, some pre-selected optional questions can be added. Finally, ISSP member countries translate the British English Basic Questionnaire to their national language(s) as equivalently as possible.

Drafting group for the Basic Questionnaire on the Health and Health Care Module 2021:

- Czech Republic
- Iceland (Convener): Sigrún Ólafsdóttir, Guðbjörg Andrea Jónsdóttir
- India
- Israel
- South Africa
- And one additional guest member: Germany (Regina Jutz)

3.2 Background Variables Standards and Documentation

Apart from the Basic Questionnaire, covering the substantial module variables, countries also have to collect responses on a defined set of ISSP Standard Background Variables, which predominantly contain demographic information. Since the ISSP often runs with larger national surveys, the background variables are mainly taken from these surveys. Thus, demographic issues cannot always be asked in a fixed form by all member countries, since they have to meet the demands of the national studies as well. As a result, the demographic variables for the ISSP need to be post-harmonized according to a developed set of common standards.

Over the past 30 years, the Background Variable Standard has constantly been improved:

The first set of background variables was established in 1985 with the first ISSP survey. Here countries agreed on collecting the same demographic information. This list of variables underwent a revision in 2001, now providing a coding frame for each background variable. It was valid until 2009.

In 2010 a new revision process of the ISSP Background Variables started. Beginning with the ISSP module 2010, this first revised version of the ISSP Background Variable Standard, concentrating mainly on variables containing work, occupational and partnership status information, came into effect. The second round of revisions, coming into effect in 2011, had its focus on the education variables, while the last change affected the variables measuring ethnicity, effective with the module 2013. Over the following years, several minor improvements came into effect. The current standard, and a basic history of changes are documented in Background Variable Guidelines which provide detailed information and instructions on the variables' measurement goals, coding frames, filters and possible question texts. Additionally, the recommended

question texts are summarized in a background variable Master Questionnaire.

Since 2004 countries have documented the post-harmonisation processes for each variable in a special documentation template provided by the Archive. This template, always adjusted to the current standard, offers detailed country-specific information on administration, derivation, and coding of the ISSP Background Variables.

All relevant background variable documents are available from the ISSP webpages at GESIS.

3.3 National Study Description/ Technical Report

The National Study Descriptions are provided by the countries and include information on sample sizes, field dates, modes of data collection, sampling procedures, response rates and weighting processes. Starting with ISSP 2018, the National Study Descriptions are replaced by the National Technical Reports which contain additional methodological information, cross-nationally compiled in the Study Monitoring Report.

3.4 Characteristics of National Population

These documents provide statistical data on the composition of national populations in terms of gender, age, education, and employment rates and, thereby, allow assessing the representativity of the national samples.

3.5 Where to find the survey materials and the data set of the ISSP Module of 2021 – Health and Health Care II?

Via the GESIS Search function on the GESIS webpages:

https://search.gesis.org/research_data/ZA8000?lang=en

The following study-related survey materials are available for download:

Datasets (SPSS or STATA):

- the **integrated data file** ZA8000_v2.0.0

Questionnaires:

- the **Basic Questionnaire** of this module together with
- all **country questionnaires** in the respective local languages

Other documents:

- this **Codebook/ Variable Report**,
- the **National Technical Reports**,
- the **Characteristics of National Populations**,
- detailed **national documentation on phrasing and coding of the Background Variables**,
- the **Study Monitoring Report**,
- the **Report on Questionnaire Development** and
- an **Errata** file, which contains an overview of fixed and possibly still existing errors for this data set version

The GESIS Search provides the documentation of this integrated data file on variable-level along with search facilities.

4 Data set structure and standards

ISSP data sets are processed and documented by GESIS SDC.

To uniquely identify a data set, each data set version has a unique Study No., a Version No., and a Digital Object Identifier (doi). The doi is linked to the Study Description, which is research- and retrievable via GESIS Search (<https://search.gesis.org?lang=en>). Metadata filled in the Study Description of ISSP 2021 data and associated with a doi are provided to the registration agency for social science data (da|ra).

The doi: 10.4232/5.ZA8000.2.0.0 is assigned to the ISSP 2021 (v2.0.0).

4.1 Data set structure

Usually, the ISSP data sets are structured as follows:

1. Archive and Identification Variables

Administrative variables are used for identifying data sets, respondents, and countries (GESIS Study Number, GESIS Archive Version, Digital Object Identifier, Country Codes, ID Number of Respondent). The GESIS Archive Version variable includes the version and release date of the data set, composed as a string variable with three numbers (e.g. v1.0.0):

- The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases).
- The minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels).
- The third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

Country codes identify each case as belonging to one country. The country code variable, which was used according to a scheme leaning on international automobile identification codes at the beginning of the ISSP, was replaced by two country code variables based on the ISO Code 3166. One variable identifies countries as a whole, the other identifies possible subsamples, such as East and West Germany. The cross-tabulations shown in this Variable Report are based on a third, alphanumerical country code variable.

2. Substantial Variables

The substantial variables contain the mandatory module questions, often supplemented by optional questions.

Variable labels provide keywords based on the question text; these keywords are applied consistently if questions or question items are repeated over time. All substantial variables include the original question number of the Basic Questionnaire in the variable labels.

Generally, all variable names consist of the standard prefix “V” and the consecutive variable number.

ISSP 2015 is the first module in which numbering starts with the first substantial variable (v1= Q1).

Before that time, numbering started with the archive variables followed by the substantial variables (V4, V5 or V6 = Q1).

3. ISSP Background Variables

In earlier ISSP modules, all variables are numbered consecutively, beginning with the archive variables and followed by substantial and background variables. The last variable of each data set usually is the variable on weighting. Later, the background variables started with V200 et seq. Currently, these variable numbers are expressed by mnemonics with max. 8 characters (SEX, AGE, ...).

4. Country-Specific Variables

Variables, which cannot be harmonized for various reasons, are usually presented as country-specific variables. As a rule, variable names of country-specific variables have country abbreviations as prefixes.

In some of the older ISSP studies, the principle of country-specific variables was not used. Instead, all country-specific information was integrated into one variable.

5. Protocol Variables

There are seven protocol variables in the latest ISSP modules. The variable “MODE” indicates the mode of data collection, while “SUBSCASE” indicates whether a respondent in the sample is an original case or a replacement for an originally selected respondent who was not available. The variables “DATEYR”, “DATEMO” and “DATEDY” provide information on the dates and periods of fielding.

ISSP surveys prior to 2010 do not include the three DATE variables for indicating the fielding date and ISSP surveys before 2007 do not contain the SUBSCASE variable.

Starting with ISSP 2019, two additional protocol variables have been added: “INTLANG” indicates the language in which an interview or questionnaire was conducted and the variable “PARTIALS” indicate partially completed interviews (see chapter 4.2).

6. Weight

Until ISSP 2020, there was only one weighting factor (WEIGHT). The weight variable, if provided by the country, may include design and post-stratification weights.

Starting with ISSP 2021, a set of five different weight variables (DWEIGHT_HH, DWEIGHT_TS, DWEIGHT_COM, PSWEIGHT, WEIGHT_COM) has been introduced.

For more information on the weights provided, see chapter 4.4.

4.1.1 Deviating data set structure in ZA8000

Within the block of module variables, there are three notable deviations that result in three extra variables. The first one concerns Suriname (Q18c, SR_v42). This item has a different content in Suriname (“During the past 12 months did it ever happen that... because the treatment you needed was not available in your place of residence or area.”) and could not be merged into the ISSP module variable v42 (“During the past 12 months did it ever happen that... because the waiting list was too long”). The second deviation relates to Taiwan (Q33_OPT, TW_v68a and TW_v68b). Taiwan turned one question (Q33_OPT “Thinking about how often you met with your extended family and friends in person before the Covid-19 pandemic, would you say you...?”) into two questions and asked separately for the frequency of meeting family members (TW_v68a: “Thinking about how often you met with your extended family in person before the Covid-19 pandemic, would you say you ...?”) and friends (TW_v68b: “Thinking about how often you met with your friends, colleagues or classmates in person before the Covid-19 pandemic, would you say ...?”).

Data from these two countries are not comparable with data from the other countries that collected the data according to the ISSP standard, therefore extra variables were created.

4.2 Data preparation

On the basis of the Basic Questionnaire, covering the substantial variables, GESIS SDC provides a Standard Setup for each individual ISSP module, which defines the variable and value labels for module and background variables of the integrated data file. All country data sets should be processed and prepared to match the structure of the Standard Setup before the material is deposited to the ISSP Archive for integration and archiving.

After conducting the national surveys, all collaborators are supposed to deposit their data at GESIS SDC, where all the deposited data sets are prepared, integrated, and merged into one single international data set, which is finally published.

During the data preparation process, all national data sets are controlled for completeness, wild codes, for consistency of response patterns and question routing. Besides, all national data are checked for data duplicates. Decisions to delete cases, which are identified as falsified, are always made by the principal investigators.

Three test routines have been proven useful in detecting identical or similar records:

a) Test on the uniqueness of ID numbers

All national data are checked for non-unique ID's (CASEID). Non-unique ID's most likely occur due to data input or data processing errors. They are recoded into unique ID numbers.

b) Test on identical responses

In statistical terms, true cases with identical responses across all survey items are almost impossible. If two or more records are fully identical to each other, usually, one record is kept, and the other duplicated record(s) are deleted.

c) Test on similar responses

A third test, based on the substantial module variables of the data set, detects records that are suspiciously similar to one another (=Near-Duplicates). Pairs or clusters of such records are examined closely. In case the suspicion is not confirmed, these cases are kept and documented in the National Study Description/ National Technical Report of the corresponding country.

However, if two or more records show a high similarity due to a high number of missing answers, no record is deleted. Such cases are identified by our test on partial cases.

The flag variable "PARTIALS" distinguishes three degrees of completeness for a returned questionnaire or interview. A questionnaire/ an interview with...

- 1) less than 50% of valid answers is defined as *break-off* (encoded to code -1)
- 2) between 50 and 80% of valid answers is defined as *partial* interview (encoded to code 0)
- 3) more than 80% of valid answers is defined as *complete* interview (encoded to code 1).

In accordance with AAPOR standards, the count is based on module questions that respondents were asked according to the routing. The answers "Can't choose/ Don't know" are considered as valid answers.

The ISSP decided that from module 2019 on *break-off* cases won't be included in the data any longer.

Moreover, national derivation processes from source to target codes in the background variables are controlled. Missing values, especially due to filter instructions are checked and recoded, if necessary. Errors,

which are discovered during these procedures, are corrected or documented in cooperation with principal investigators.

However, not all inconsistencies are errors. Some inconsistencies might be owed to irrational response behavior or may be a consequence of different modes of data collection in or across the participating countries during the fieldwork phase. Such inconsistencies are not eliminated during the data preparation process.

Complete machine-readable DDI-XML (see chapter 4.5) compliant documentation is created for all ISSP data sets by GESIS.

4.3 Coding frames

The variables of the module questions adopt the coding frame as specified in the Basic Questionnaire, except for multiple response questions.

GESIS adds “Not applicable” (NAP) codes for questions that have filters. NAP indicates that only a subsample and not all the respondents were asked. Also, in the case of country-specific variables, all other countries are coded NAP.

GESIS adds “Not available” (NAV) for variables that in single countries may not have been conducted for whatever reason.

4.3.1 Country-specific answer categories

ISSP data include some questions (variables) which have country-specific answer categories such as DEGREE OF EDUCATION, RESPONDENT’S INCOME, FAMILY INCOME, PARTY AFFILIATION - later PARTY VOTED LAST ELECTION, REGION and SIZE OF COMMUNITY (the latter until ISSP 2009).

For country-specific income variables with response categories, the data is recoded to midpoints of the categories.

Recently additionally provided as country-specific variables: RELIGION (since ISSP 2010), ETHNIC GROUP (since ISSP 2013).

For occupation, official international occupation codes are used. While in the first years of the ISSP many countries used country-specific occupation codes, ISCO 1988 has been established as a standard over the years. Starting with ISSP 2014, ISCO 1988 has been replaced by ISCO 2008.

The educational degree variable is available for each country as a national variable with national-specific values. To facilitate international comparisons, additionally, there is one harmonized variable using the country-specific information of all countries encoded to international standard classifications of education (ISCED 1997 for ISSP 2011- 2019/ ISCED 2011 starting with ISSP 2020).

4.3.2 Missing values

Missing value scheme (ISSP 1985-2018):

- 0: Not applicable (NAP), Not available (NAV)
- 7 (97, 997, 9997, ...): Refused
- 8 (98, 998, 9998, ...): Don’t know/ Can’t choose
- 9 (99, 999, 9999, ...): No answer

From ISSP 2019 on the coding is:

- 1 Not available (NAV)
- 4 Not applicable (NAP)
- 7 Refused
- 8 Don't know/ Can't choose
- 9 No answer

4.4 Weighting

Please note, that there is **no total population weight to be used for international comparison**.

Until ISSP 2020, ISSP data sets contain a weighting variable, the weights in this variable do not incorporate a common weighting scheme that can be applied to all countries of the same ISSP module.

In the Study Description/Technical Report and/ or in the Background Variables Documentation of each country you will find more detailed information on the kind of weights that are provided. You can see whether

- a design weight
- weights to adjust for non-response bias or
- a combination of these both weights above or
- different weighting procedures

are applied. Provision of a design weight is mandatory for countries using household-based sampling methods, as these require compensation for the lower selection probabilities of persons in larger households. If no weight is provided, the variable "Weight" is coded to 1.0. Otherwise, the weighting factor is unequal 1.0 (but greater than 0).

For ISSP data until ISSP 2020, we strongly recommend consulting the National Study Descriptions/ National Technical Reports for information on the weighting factor compositions and maybe even the Characteristics of National Population for more national context information.

Starting with ISSP 2021, a set of five different weight variables (DWEIGHT_HH, DWEIGHT_TS, DWEIGHT_COM, PSWEIGHT, WEIGHT_COM) has been introduced to cover the most common cases of weights applied by the ISSP members.

The first category is "design weights", including DWEIGHT_HH, DWEIGHT_TS – together DWEIGHT_COM, a combined design weight variable. Those are weights that serve to correct such designed deviations of the sampled distributions from person-level population distributions that follow deterministically from the way the sample was set up and drawn. The two most common cases of that are 1. The application of household or address samples instead of person samples, and 2. The intentional oversampling of respondents from certain sub-national regions or demographic groups. With the common understanding being that ISSP surveys shall describe the universe of respondents in their respective countries (with some documented particularities about the universes, such as age brackets, residents vs. citizens, some remote regions being excluded from sampling...), it is usually necessary to employ such weights in all analyses that are intended to validly depict that respondent universe.

The second category of weights is that of "systematic sampling error correction" (PSWEIGHT). As probabilistic sampling processes in the real world cannot always achieve an equal selection probability for every respondent from the universe in the realised sample, many analysts deem it desirable to adjust the realised sample to what would be expected under ideal simple random sampling assumptions. Whether and when such after-data-collection corrections should be employed in analyses or not should be consciously decided by each analyst.

For users who want to employ all weights, a common weight variable WEIGHT_COM is provided.

The national Technical Reports contain detailed information on the weighting strategy and type of weights used. However, an initial overview of the national weighting procedures is provided in this Variable Report in chapter 6.

4.5 International documentation standard

The variable documentation is set up in accordance with the international metadata specifications for the social sciences, established by the [Data Documentation Initiative \(DDI\)](#). The Variable Reports are based on the XML representation of DDI version 2 (DDI-Codebook). The documentation combines the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the Basic Questionnaire with the variable description (variable name, values, and labels) of the data set. General remarks and comments referring to a certain variable are defined as variable notes. Notes mostly include additional information on country-specific deviations from the ISSP standard, information about data inconsistencies and specific characteristics.

Starting with ISSP 2021, the documentation of the data sets are based on the XML representation of DDI version 3 (DDI-Lifecycle). DDI-Lifecycle is designed to document and manage data across the entire life cycle, from conceptualization to data publication, analysis and beyond. It encompasses the DDI-Codebook specification and extends it. Based on XML-Schemas DDI-Lifecycle is modular and extensible. A new and central feature is the possibility of reusing metadata elements within and between studies.

5 Guidance on variable documentation

The variable documentation part of this Variable Report describes each variable in the data file including all relevant information for this variable, such as the single question components or further notes and statistical distributions. Until ISSP 2020, the variable documentation is set up in accordance with international metadata standards (DDI-Codebook). Starting with ISSP 2021, the variable documentation follows the international metadata standards (DDI-Lifecycle). Now the answer categories of the questions in the questionnaire and the code lists of the variables are separated from each other and kept in separate lists. In general, the following abbreviations are used to indicate countries or (sub-national) areas. As far as applicable, the ISO 3166-1 alpha-2 country codes have been applied and coded accordingly in the alphanumeric sample identification variable “c_alphan”.

AT	Austria	JP	Japan
AU	Australia	MX	Mexico
CH	Switzerland	NL	Netherlands
CN	China	NO	Norway
CZ	Czech Repblic	NZ	New Zealand
DE	Germany	PH	Philippines
DK	Denmark	PL	Poland
FI	Finland	RU	Russia
FR	France	SI	Slovenia
HR	Croatia	SK	Slovakia
HU	Hungary	SR	Suriname
IL	Iceland	TH	Thailand
IN	India	TW	Taiwan
IS	Iceland	US	United States
IT	Italy	ZA	South Africa

The example below shows the information that appears in the variable documentation part of a Variable Report for a typical substantial variable. Results are usually broken down by country or presented as frequency counts in the case of country-specific variables. In the case of variables with long lists of coded “real” values (e.g. ISCO08/ SPISCO08) results are not shown or, if appropriate, reflected by descriptive indicators such as mean or median (e.g. AGE, country-specific variable RINC and INC). The descriptive parameters mean and/ or median are sometimes also presented, despite the fact, that an open answer scale was used (e.g. WRKHRS code 96 “96 hours or more”) to give an idea of the distribution of this variable across countries.

The complete question and answer texts are taken from the final Basic Questionnaire as provided. All deviations are documented in this Variable Report.

1

ISSP 2021 - Health and Health Care II

GESIS Study No. 8000 (v2.0.0), <https://dx.doi.org/10.4232/5.ZA8000.2.0.0>

2

v5 - Q4b Government should provide only limited health care services

3

Q4

How much do you agree or disagree with the following statements?

(Please tick one box on each line.)

Q4b

The government should provide only limited health care services.

4

Answer categories:

-8 Can't choose

1 Strongly agree

2 Agree

3 Neither agree nor disagree

4 Disagree

5 Strongly disagree

5

Variable code list:

1 Strongly agree

2 Agree

3 Neither agree nor disagree

4 Disagree

5 Strongly disagree

-8 Can't choose

-9 No answer

6

Note:

Translation note by the Drafting Group: In answer category b, 'limited' can also be understood as basic.

/ NO: Translation of the word 'limited' changed compared to ISSP 2011.

version - GESIS Archive version

Version and Release Date of the Data Set

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as a string.

The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

	Sum		44549	100,0	100,0
	Valid Cases		44549		

doi - Digital Object Identifier**Digital Object Identifier (DOI)**

This variable holds the Digital Object Identifier (DOI) for the data set at hand as registered via the DA|RA registration agency for economic and social science data. Each data set version (see the variable 'version') has a unique persistent DOI.

For direct access to the complete archive dissemination package for this study, including new data set versions, the DOI needs to be appended to the resolver service URL:

<https://doi.org/10.4232/5.ZA8000.2.0.0>

In terms of good scientific practice, the DOI is an important element for the correct citation of a data set.

c_sample - Country/ Sample ISO 3166 Code (see country for codes for whole nation states)

Country/ Sample (see the variable 'country' for codes for whole nation states).

To indicate the subsamples within the ISSP countries a code on the basis of ISO 3166 was constructed. For all countries without subsamples the three digit ISO 3166 Code (as in the variable 'country') was used.

For those with subsamples a five digit numeric code is used. The first three-digits are based on the original ISO code and indicate the country. The following two-digit numeric appendices (01, 02) indicate the subsamples.

36 AU-Australia
40 AT-Austria
156 CN-China
158 TW-Taiwan
191 HR-Croatia
203 CZ-Czech Republic
208 DK-Denmark
246 FI-Finland

c_alphan - Country/ Sample Prefix ISO 3166 Code - alphanumeric

Sample Prefix ISO 3166 Code - Alphanumeric

ISO 3166 Country/ Sample Prefix

This alphanumeric country sample identification variable c_alphan includes country codes that are based on ISO 3166.

All countries are coded in accordance with the ISO 3166-1-alpha-2 country code, if available.

For examining subsamples from Germany (East/ West) or Israel (Jews/ Arabs), the variable 'c_sample' can be used as a flag variable.

This alphanumeric sample identification variable c_alphan is used for the tables shown in the Variable Report:

AT = Austria

AU = Australia

CH = Switzerland

CN = China

CZ = Czech Republic

DE = Germany

DK = Denmark

FI = Finland

FR = France

HR = Croatia

HU = Hungary

IL = Israel

IN = India

IS = Iceland

IT = Italy

JP = Japan

MX = Mexico

NL = Netherlands

NO = Norway

NZ = New Zealand

PH = Philippines

PL = Poland

RU = Russia

SI = Slovenia

SK = Slovakia

SR = Suriname

TH = Thailand

TW = Taiwan

US = United States

ZA = South Africa

v1 - Q1 How happy or unhappy

Q1

If you were to consider your life in general these days, how happy or unhappy would you say you are, on the whole?

(Please tick one box only.)

Answer categories:

- 8 Can't choose
- 1 Completely happy
- 2 Very happy
- 3 Fairly happy
- 4 Neither happy nor unhappy
- 5 Fairly unhappy
- 6 Very unhappy
- 7 Completely unhappy

Variable code list:

v3 - Q3 Fairness: health care

Q3

Is it fair or unfair that people with higher incomes can afford better health care than people with lower incomes?

(Please tick one box only.)

Answer categories:

- 8 Can't choose
- 1 Very fair
- 2 Somewhat fair
- 3 Neither fair nor unfair
- 4 Somewhat unfair
- 5 Very unfair

Variable code list:

- 1 Very fair
- 2 Somewhat fair
- 3 Neither fair nor unfair
- 4 Somewhat unfair
- 5 Very unfair
- 1 ZA: Not available for Afrikaans and Zulu questionnaire versions
- 8 Can't choose
- 9 No answer

Note:

/ ZA: The Zulu and Afrikaans questionnaire versions posed a different question (whether people with higher income can afford better education for their children). Cases of the respective interview language (see INTLANG) were recoded to code 1 'Not available (ZA)'.

v4 - Q4a More use of health care services than necessary

Q4

How much do you agree or disagree with the following statements?

(Please tick one box on each line.)

Q4a

People use health care services more than necessary.

Answer categories:

- 8 Can't choose
- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree

Variable code list:

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose
- 9 No answer

v5 - Q4b Government should provide only limited health care services

Q4

How much do you agree or disagree with the following statements?

(Please tick one box on each line.)

Q4b

The government should provide only limited health care services.

Answer categories:

-8 Can't choose

1 Strongly agree

2 Agree

3 Neither agree nor disagree

4 Disagree

5 Strongly disagree

Variable code list:

1 Strongly agree

2 Agree

3 Neither agree nor disagree

4 Disagree

5 Strongly disagree

-8 Can't choose

-9 No answer

Note:

Translation note by the Drafting Group: In answer category b, 'limited' can also be understood as basic.

/ NO: Translation of the word 'limited' changed compared to ISSP 2011.

v7 - Q5 Pay higher taxes to improve health care system

Q5

How willing would you be to pay higher taxes to improve the level of health care for all people in [country]?

(Please tick one box only.)

Answer categories:

- 8 Can't choose
- 1 Very willing
- 2 Fairly willing
- 3 Neither willing nor unwilling
- 4 Fairly unwilling
- 5 Very unwilling

Variable code list:

- 1 Very willing
- 2 Fairly willing
- 3 Neither willing nor unwilling
- 4 Fairly unwilling
- 5 Very unwilling
- 8 Can't choose
- 9 No answer

v8 - Q6a Access to publicly funded health care: even if no citizenship of [country]

Q6

How much do you agree or disagree with the following statements?

(Please tick one box on each line.)

Q6a

People should have access to publicly funded health care even if they do not hold citizenship of [country].

Answer categories:

- 8 Can't choose
- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree

Variable code list:

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose
- 9 No answer

v14 - Q8a Causes of health problems: health damaging behaviour

Q8

Severe health problems may have many causes. How much do you agree or disagree with the following statements?

(Please tick one box on each line.)

Q8a

People suffer from severe health problems because they behaved in ways that damaged their health.

Answer categories:

- 8 Can't choose
- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree

Variable code list:

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose
- 9 No answer

v18 - Q9 Alternative medicine: better solutions than conventional medicine

Q9

To what extent do you agree or disagree with the following statement: [Alternative/traditional/folk] medicine provides better solutions for health problems than [mainstream/Western conventional] medicine?

(Please tick one box only.)

Answer categories:

- 8 Can't choose
- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree

Variable code list:

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose
- 9 No answer

Note:

Translation note by the Drafting Group: 'Alternative/ traditional/ folk medicine': Each country should choose the term that most appropriately refers to medical and health care practices and products, which are not currently part of mainstream Western medicine; 'mainstream/ Western conventional medicine': Each country should choose the term that most appropriately refers to allopathic mainstream Western medicine.

v21 - Q10c Doctors: care more about earnings

Q10

How much do you agree or disagree with the following statements about doctors in general in [country]?

(Please tick one box on each line.)

Q10c

Doctors care more about their earnings than about their patients.

Answer categories:

- 8 Can't choose
- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree

Variable code list:

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose
- 9 No answer

v22 - Q11 Past 12 months, frequency of internet usage to look for health or medical information

Q11

During the past 12 months, how often, if at all, did you use the internet on any device (such as computers, tablets and smartphones) to look for health or medical information for yourself or someone else?

(Please tick one box only.)

(IF CODE 1-6,-8: GO TO Q12)

(IF CODE -4: GO TO Q14)

Answer categories:

- 8 Can't choose
- 4 I do not have access to the internet
- 1 Several times a day
- 2 Once a day
- 3 Several times a week
- 4 Several times a month
- 5 Several times a year
- 6 Never or almost never

Variable code list:

- 1 Several times a day
- 2 Once a day
- 3 Several times a week
- 4 Several times a month
- 5 Several times a year
- 6 Never or almost never; PL: 1-2 times a year + Never
- 4 I do not have access to the internet
- 8 Can't choose
- 9 No answer

Note:

/ HU: V22 contains code -4 'No access to internet', but these cases were not filtered out in v23-v27. It was not intended in Hungary's questionnaire and neither programmed accordingly in the CAPI questionnaire.

/ NO: Access to the internet is a rather basic thing in Norway. No observations for code -4 'I do not have access to the internet' in the data are therefore not surprising.

/ PL: Poland used a 7-point scale with the response options: 1) Several times a day, 2) Once a day, 3) Several times a week, 4) Several times a month, 5) Several times a year, 6) Once or twice a year, 7) Never. Responses to categories 6) and 7) were assigned to ISSP standard code 6 'Never or almost never'.

v23 - Q12a Past 12 months, frequency of internet usage to look for: information on healthy lifestyle

Q12

IF NOT CODE -4 IN Q11 'I DO NOT HAVE ACCESS TO THE INTERNET'

During the past 12 months, how often, if at all, have you used the internet to look for information on the following topics?

(Please tick one box on each line.)

Q12a

Information on healthy lifestyle?

Answer categories:

-8 Can't choose

1 Never

2 Seldom

3 Sometimes

4 Often

5 Very often

Variable code list:

1 Never

2 Seldom

3 Sometimes

4 Often

5 Very often

-4 NAP (code -4 in v22; PL: code -4 in v22 + never looked for health or medical information in v22)

-8 Can't choose

-9 No answer

Note:

Translation note by the Drafting Group: Healthy lifestyle: behaviours that help to keep or improve people's physical and mental health.

/ HU: V22 contains code -4 'No access to internet', but these cases were not filtered out in v23-v27. It was not intended in Hungary's questionnaire and neither programmed accordingly in the CAPI questionnaire.

/ PL: In deviation from the ISSP standard, Poland also filtered out respondents who answered 'never' in Q11 (see v22).

v24 - Q12b Past 12 months, frequency of internet usage to look for: information related to anxiety, stress, or similar problems

Q12

IF NOT CODE -4 IN Q11 'I DO NOT HAVE ACCESS TO THE INTERNET'

During the past 12 months, how often, if at all, have you used the internet to look for information on the following topics?

(Please tick one box on each line.)

Q12b

Information related to anxiety, stress, or similar problems?

Answer categories:

-8 Can't choose

1 Never

2 Seldom

3 Sometimes

4 Often

5 Very often

Variable code list:

1 Never

2 Seldom

3 Sometimes

4 Often

5 Very often

-4 NAP (code -4 in v22; PL: code -4 in v22 + never looked for health or medical information in v22)

-8 Can't choose

-9 No answer

Note:

/ HU: V22 contains code -4 'No access to internet', but these cases were not filtered out in v23-v27. It was not intended in Hungary's questionnaire and neither programmed accordingly in the CAPI questionnaire.

/ PL: In deviation from the ISSP standard, Poland also filtered out respondents who answered 'never' in Q11 (see v22).

v27 - Q13b Past 12 months, information on internet: helped me understand doctor'

Q13

IF NOT CODE -4 IN Q11 'I DO NOT HAVE ACCESS TO THE INTERNET'

To what extent do you agree or disagree with the following statements?

During the past 12 months, information on the internet...

(Please tick one box on each line.)

Q13b

...helped me understand what a doctor tried to explain to me.

Answer categories:

-8 Can't choose

1 Strongly agree

2 Agree

3 Neither agree nor disagree

4 Disagree

5 Strongly disagree

Variable code list:

1 Strongly agree

2 Agree

3 Neither agree nor disagree

4 Disagree

5 Strongly disagree

-4 NAP (code -4 in v22; PL: code -4 in v22 + never looked for health or medical information in v22)

-8 Can't choose

-9 No answer

Note:

/ HU: V22 contains code -4 'No access to internet', but these cases were not filtered out in v23-v27. It was not intended in Hungary's questionnaire and neither programmed accordingly in the CAPI questionnaire.

/ PL: In deviation from the ISSP standard, Poland also filtered out respondents who answered 'never' in Q11 (see v22).

v28 - Q14a Internet useful to help people decide whether to go to the doctor

Q14

To what extent do you agree or disagree with the following statements?

(Please tick one box on each line.)

Q14a

The internet is useful to help people decide if their symptoms are serious enough to go to the doctor.

Answer categories:

- 8 Can't choose
- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree

Variable code list:

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose; PL: Don't use the internet + Don't know
- 9 No answer

Note:

/ PL: The Polish questionnaire in Q14a+b+c (v28, v29, v30) offered the possibility to code 'I don't know, I don't use the Internet' if a respondent spontaneously gave such an answer. Observations for this response are also included in ISSP standard code -8 'Can't choose', which is why the number of observations with ISSP standard code -8 is quite high for Poland.

v29 - Q14b Internet useful to check doctor's advice

Q14

To what extent do you agree or disagree with the following statements?

(Please tick one box on each line.)

Q14b

The internet is useful to check that the doctor is giving people appropriate advice.

Answer categories:

- 8 Can't choose
- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree

Variable code list:

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose; PL: Don't use the internet + Don't know
- 9 No answer

Note:

/ PL: The Polish questionnaire in Q14a+b+c (v28, v29, v30) offered the possibility to code 'I don't know, I don't use the Internet' if a respondent spontaneously gave such an answer. Observations for this response are also included in ISSP standard code -8 'Can't choose', which is why the number of observations with ISSP standard code -8 is quite high for Poland.

v30 - Q14c Not easy to distinguish between reliable and unreliable health information on internet

Q14

To what extent do you agree or disagree with the following statements?

(Please tick one box on each line.)

Q14c

It is not easy to distinguish between reliable and unreliable health information on the internet.

Answer categories:

- 8 Can't choose
- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree

Variable code list:

- 1 Strongly agree
- 2 Agree
- 3 Neither agree nor disagree
- 4 Disagree
- 5 Strongly disagree
- 8 Can't choose; PL: Don't use the internet + Don't know
- 9 No answer

Note:

/ PL: The Polish questionnaire in Q14a+b+c (v28, v29, v30) offered the possibility to code 'I don't know, I don't use the Internet' if a respondent spontaneously gave such an answer. Observations for this response are also included in ISSP standard code -8 'Can't choose', which is why the number of observations with ISSP standard code -8 is quite high for Poland.

v38 - Q17a Past 12 months: visit a doctor

Q17

During the past 12 months, how often did you visit or were visited by...

(Please tick one box on each line.)

Q17a

...a doctor?

Answer categories:

-8 Can't choose

1 Never

2 Seldom

3 Sometimes

4 Often

5 Very often

Variable code list:

1 Never

2 Seldom

3 Sometimes

4 Often

5 Very often

-8 Can't choose

-9 No answer

Note:

/ TW: The question order of questions Q17a-Q18c differed in the Taiwanese questionnaire from the question order in the ISSP source questionnaire (ISSP Q17a=E13, ISSP Q17b=E15, ISSP Q18a-c=E11/E12), with national question E11 serving as a filter question. Therefore, respondents who did not need medical treatment were subsequently coded by the PI in Q17a and b as code 1 'Never'.

v39 - Q17b Past 12 months: visit alternative health care practitioner

Q17

During the past 12 months, how often did you visit or were visited by...

(Please tick one box on each line.)

Q17b

...an [alternative/ traditional/ folk] health care practitioner?

Answer categories:

-8 Can't choose

1 Never

2 Seldom

3 Sometimes

4 Often

5 Very often

Variable code list:

1 Never

2 Seldom

3 Sometimes

4 Often

5 Very often

-8 Can't choose

-9 No answer

Note:

Translation note by the Drafting Group: 'Alternative/ traditional/ folk medicine': Each country should choose the term that most appropriately refers to medical and health care practices and products, which are not currently part of mainstream Western medicine; 'mainstream/ Western conventional medicine': Each country should choose the term that most appropriately refers to allopathic mainstream Western medicine.

/ TW: The question order of questions Q17a-Q18c differed in the Taiwanese questionnaire from the question order in the ISSP source questionnaire (ISSP Q17a=E13, ISSP Q17b=E15, ISSP Q18a-c=E11/E12), with national question E11 serving as a filter question. Therefore, respondents who did not need medical treatment were subsequently coded by the PI in Q17a and b as code 1 'Never'.

v42 - Q18c Did not get medical treatment past 12 months: waiting list too long

Q18

During the past 12 months did it ever happen that you did not get the medical treatment you needed because...

(Please tick one box on each line.)

Q18c

...the waiting list was too long?

Answer categories:

-4 Did not need medical treatment

1 Yes

2 No

Variable code list:

1 Yes

2 No

-1 SR: Not available (see SR_v42)

-4 Did not need medical treatment

-9 No answer; PH: Can't choose/ No answer

Note:

/ SR: Data from Suriname are not comparable with the data from other countries, because the item in Suriname's questionnaire read 'the treatment you needed was not available in your place of residence or area'. For Suriname's data, see SR_v42.

SR_v42 - Q18c Suriname: Did not get medical treatment past 12 month: treatment not available in the area

Q18

During the past 12 months did it ever happen that you did not get the medical treatment you needed because...

(Please tick one box on each line.)

Q18c

...the treatment you needed was not available in your place of residence or area?

Answer categories:

-4 Did not need medical treatment

1 Yes

2 No

Variable code list:

1 Yes

2 No

-1 Not available: Other countries (see v42)

-4 Did not need medical treatment

-9 No answer

Note:

/ SR: The item in Suriname's questionnaire read 'the treatment you needed was not available in your place of residence or area'. Data from Suriname were not merged into v42. An extra variable was created (SR_v42).

v43 - Q19 If seriously ill: get or not get best treatment available in [country]

Q19

How likely is it that if you become seriously ill, you would get or not get the best treatment available in [country]

(Please tick one box only.)

Answer categories:

-8 Can't choose

1 It's certain I would get

2 It's likely I would get

3 Equal chance of getting or not getting

4 It's likely I would not get

5 It's certain I would not get

Variable code list:

1 It's certain I would get

2 It's likely I would get

3 Equal chance of getting or not getting

4 It's likely I would not get

5 It's certain I would not get

-8 Can't choose

v45 - Q21a Satisfaction with treatment: last visited a doctor

Q21

How satisfied or dissatisfied were you with the treatment you received...

(Please tick one box on each line.)

Q21a

...when you last visited a doctor?

Answer categories:

- 8 Can't choose
- 4 Does not apply
- 1 Completely satisfied
- 2 Very satisfied
- 3 Fairly satisfied
- 4 Neither satisfied nor dissatisfied
- 5 Fairly dissatisfied
- 6 Very dissatisfied
- 7 Completely dissatisfied

Variable code list:

- 1 Completely satisfied
- 2 Very satisfied
- 3 Fairly satisfied
- 4 Neither satisfied nor dissatisfied
- 5 Fairly dissatisfied
- 6 Very dissatisfied
- 7 Completely dissatisfied
- 4 Does not apply
- 8 Can't choose
- 9 No answer

Note:

/ NO: Deviating from ISSP Source Questionnaire, 'Does not apply' was not offered in the Norwegian questionnaire versions (mail/ web) for question Q21a/b, as was also the case with the previous Norwegian Health module (ISSP 2011). This makes it easier to compare the data with the data from 2011. As a result, the number of cases encoded to code -8 'Can't choose' or to code -9 'No answer' may be higher, especially in Q21b.

/ PH: For questions Q21a and Q21b, the ISSP standard answer option '-4 - Does not apply' was inadvertently omitted. This omission is one reason why the Philippines has a higher percentage of '-8 - Can't choose' responses'.

v46 - Q21b Satisfaction with treatment: alternative health care practitioner

Q21

How satisfied or dissatisfied were you with the treatment you received...

(Please tick one box on each line.)

Q21b

...when you last visited an [alternative/traditional/ folk] health care practitioner?

Answer categories:

- 8 Can't choose
- 4 Does not apply
- 1 Completely satisfied
- 2 Very satisfied
- 3 Fairly satisfied
- 4 Neither satisfied nor dissatisfied
- 5 Fairly dissatisfied
- 6 Very dissatisfied
- 7 Completely dissatisfied

Variable code list:

- 1 Completely satisfied
- 2 Very satisfied
- 3 Fairly satisfied
- 4 Neither satisfied nor dissatisfied
- 5 Fairly dissatisfied
- 6 Very dissatisfied
- 7 Completely dissatisfied
- 4 Does not apply
- 8 Can't choose
- 9 No answer

Note:

Translation note by the Drafting Group: By 'alternative/ traditional/ folk' health care practitioners we mean someone who was not trained in mainstream Western medicine or does not practice it. Each country should choose the term that most appropriately refers to medical and health care practices and products, which are not currently part of mainstream Western medicine; 'mainstream/ Western conventional medicine': Each country should choose the term that most appropriately refers to allopathic mainstream Western medicine.

/ NO: Deviating from ISSP Source Questionnaire, 'Does not apply' was not offered in the Norwegian questionnaire versions (mail/ web) for question Q21a/b, as was also the case with the previous Norwegian Health module (ISSP 2011). This makes it easier to compare the data with the data from 2011. As a result, the number of cases encoded to code -8 'Can't choose' or to code -9 'No answer' may be higher, especially in Q21b.

/ PH: For questions Q21a and Q21b, the ISSP standard answer option '-4 - Does not apply' was inadvertently omitted. This omission is one reason why the Philippines has a higher percentage of '-8 - Can't choose' responses'.

v47 - Q22 Smoking cigarettes

Q22

Do you smoke cigarettes, and if so about how many cigarettes a day?

(Please tick one box only.)

Answer categories:

-8 Can't choose

1 Do not smoke and never did

2 Do not smoke now but smoked in the past

3 Smoke 1-5 cigarettes per day

4 Smoke 6-10 cigarettes per day

5 Smoke 11-20 cigarettes per day

6 Smoke 21-40 cigarettes per day

7 Smoke more than 40 cigarettes per day

Variable code list:

1 Do not smoke and never did

2 Do not smoke now but smoked in the past

3 Smoke 1-5 cigarettes per day

4 Smoke 6-10 cigarettes per day

5 Smoke 11-20 cigarettes per day

6 Smoke 21-40 cigarettes per day

7 Smoke more than 40 cigarettes per day

-8 Can't choose

-9 No answer

v48 - Q23a How often: drink 4 or more alcoholic drinks on same day

Q23

How often do you...

(Please tick one box on each line.)

Q23a

...drink 4 or more alcoholic drinks on the same day?

Answer categories:

-8 Can't choose

1 Never

2 Once a month or less often

3 Several times a month

4 Several times a week

5 Daily

Variable code list:

1 Never

2 Once a month or less often

3 Several times a month

4 Several times a week

5 Daily

-8 Can't choose

-9 No answer; TW: I don't drink like this now, but I used to

Note:

/ TW: There was an additional answer option 'I don't drink like this now, but I used to' in the Taiwanese questionnaire which has been recoded from the PI to ISSP standard code 1 'Never' to comply with the ISSP standard.

v51 - Q24 Health status

Q24

In general, would you say your health is ...

(Please tick one box only.)

Answer categories:

-8 Can't choose

1 Excellent

2 Very good

3 Good

4 Fair

5 Poor

Variable code list:

1 Excellent

2 Very good

3 Good

4 Fair

5 Poor

-8 Can't choose

-9 No answer

Note:

Translation note by the Drafting Group: This refers to both physical and mental health.

v53 - Q26a Height

Q26

What is your...

(Please enter.)

Q26a

...height: _____cm

Answer categories:

-8 I don't know

Variable code list:

52 52 cm

210 210 cm

-8 I don't know

-9 No answer; HU: Don't know/ No answer

Note:

Translation note by the Drafting Group: Countries not using metric height and weight: Please use local units and convert to metric units in the data file you deposit to the Archive.

In some countries, the number of responses to the answer option 'Don't know' for the question on height was strikingly high. This could be because in some country questionnaires, height was collected in cm, although in that country/ parts of the country it is common to measure height in feet or inches.

/ AU: 'Don't know' was not offered as a response option.

/ FR: 'Don't know' was not offered as a response option.

/ NL: 'Don't know' was not offered as a response option.

/ NO: No observations for code -8 'I don't know' as this response option was not offered in the Norwegian questionnaire versions (mail/ web), in line with the previous Norwegian Health module (ISSP 2011).

/ US: Collected in Feet and Inches, recoded to cm to meet the ISSP standard.

v55 - Q27a Government rights during severe epidemics: shut down businesses and places of employment

Q27

Do you think the [country] government should or should not have the right to do the following at times of severe epidemics?

(Please tick one box on each line.)

Q27a

Shut down businesses and places of employment.

Answer categories:

-8 Can't choose

1 Definitely should have the right

2 Probably should have the right

3 Probably should not have the right

4 Definitely should not have the right

Variable code list:

1 Definitely should have the right

2 Probably should have the right

3 Probably should not have the right

4 Definitely should not have the right

-8 Can't choose

-9 No answer

Note:

Translation note by the Drafting Group: in 'government' as in who is in executive office/ power.

v56 - Q27b Government rights during severe epidemics: demand that people stay at home

Q27

Do you think the [country] government should or should not have the right to do the following at times of severe epidemics?

(Please tick one box on each line.)

Q27b

Demand that people stay at home.

Answer categories:

-8 Can't choose

1 Definitely should have the right

2 Probably should have the right

3 Probably should not have the right

4 Definitely should not have the right

Variable code list:

1 Definitely should have the right

2 Probably should have the right

3 Probably should not have the right

4 Definitely should not have the right

-1 NL, SR: Not available

-8 Can't choose

-9 No answer

Note:

Translation notes by the Drafting Group: in 'government' as in who is in executive office/ power; 'Demand' in the sense of 'impose'. This can be done through the passing of a law, but also through a government ordinance.

v60 - Q28 Kind of health insurance

Q28

What kind of health insurance do you have?

Answer categories:

- 1 Have no health insurance
- 2 National/public health insurance (incl. coverage by public welfare) (A)
- 3 Private insurance (B)
- 4 Employer/union based insurance (C)
- 5 National/public + private/complementary (A+B)
- 6 Public/national health + employer/union (A+C)
- 7 Employer/union + private/complementary (B+C)
- 8 Employer/union + private/complem. + national/public (A+B+C)
- 9 Other (specify)

Variable code list:

- 1 Have no health insurance
- 2 National/public health insurance (incl. coverage by public welfare) (A)
- 3 Private insurance (B)
- 4 Employer/union based insurance (C)
- 5 National/public + private/complementary (A+B)
- 6 Public/national health + employer/union (A+C)
- 7 Employer/union + private/complementary (B+C)
- 8 Employer/union + private/complem. + national/public (A+B+C)
- 9 Other (specify)
- 1 CZ: Not available
- 8 IS: Don't know
- 9 No answer

Note:

Translation notes by the Drafting Group: National/ public health insurance - a system that provides a publicly defined level of health services. The label should be adapted to national terms; Coverage by public welfare system - health insurance provided by the state to those who are on welfare and cannot afford to pay. This refers to category 2.

/ CH: Universal access to health care is guaranteed since 1996 by a federal health insurance law that obligates inhabitants to take out a basic mandatory health insurance. All residents are required to purchase basic health coverage from one of a number of competing private insurers operating under market rules set by the social insurance law. Category 5 gathered respondents whose insurance is fundamentally private but also covered partially by public welfare as they receive some support to pay their primes (the subsidies are fixed by the municipality and depends of the household income). Respondents in category 9 'other' are those who have an international health insurance or a health insurance abroad.

/ NO: In Norway almost 100% of the population are by default members of the public health insurance scheme. This scheme is so inherent in the Norwegian society that when people are asked about health 'insurance', they don't think about this scheme - it is just there. So, if you add the categories in v60 that includes national/ public, you find that 55% of the respondents were conscious about the fact that they have this insurance. As many as 10% answered that they have no insurance at all.

/ NZ: More than 60% of the respondents say they have no health insurance. This should be understood to mean that more than 60% have no private health insurance and they rely on the public health system, which seems to be so inherent that respondents are not aware that it is there.

v67 - Q32_OPT Household income before the Covid-19 pandemic compared with now

OPTIONAL QUESTION

Q32_OPT

Thinking about the income of your household before the Covid-19 pandemic compared with now, would you say it has increased, decreased or stayed about the same?

(Please tick one box only.)

Answer categories:

- 8 Can't choose
- 1 Increased a lot
- 2 Increased a little
- 3 Stayed about the same
- 4 Decreased a little
- 5 Decreased a lot

Variable code list:

- 1 Increased a lot
- 2 Increased a little
- 3 Stayed about the same
- 4 Decreased a little
- 5 Decreased a lot
- 1 AT, CZ, FR, HR, IL, MX, RU, SI, US: Not available
- 8 Can't choose
- 9 No answer

Note:

/ ZA: Answer option 1 and 2 were mixed up in all questionnaire versions and read: 1 'Increased a little' and 2 'Increased a lot'. This has been corrected during the data preparation.

v68 - Q33_OPT Frequency of meeting extended family/ friends in person before Covid-19 pandemic and now

OPTIONAL QUESTION

Q33_OPT

Thinking about how often you met with your extended family and friends in person before the Covid-19 pandemic, would you say you now meet them in person more often, less often, or about the same?

(Please tick one box only.)

Answer categories:

- 8 Can't choose
- 1 Much less often
- 2 A little less often
- 3 About the same
- 4 A little more often
- 5 Much more often

Variable code list:

- 1 Much less often
- 2 A little less often
- 3 About the same
- 4 A little more often
- 5 Much more often
- 1 AT, CZ, FR, IL, MX, RU, SI, US, ZA: NAV; TW: NAV, question split (see TW_v68a+b)
- 8 Can't choose
- 9 No answer

Note:

/ TW: Data from Taiwan are not comparable with the data from other countries, because Taiwan turned one question into two and asked separately for the frequency of meeting family members. Two extra variables were created for Taiwan, see TW_v68a + TW_v68b.

SEX - Sex of respondent

BVQ_01. SEX

Are you...?

.....

AT: Sex.

AU: Are you ...?

CH: Are you a man or a woman?

CN: Gender (Interviewer record).

CZ: Are you...

DE: You are... 1) Male 2) Female 3) Diverse

DK: Are you...?

FI: Are you...?

FR: You are...

HR: Respondent sex.

HU: Sex of Respondent (household roster).

IL: Sex.

IN: Are you...? (Entered by researcher observation).

IS: To which gender do you identify?

IT: Sex.

JP: Sex/ Please circle the appropriate figure.

MX: Sex of Respondent (Interviewer observation).

NL: Please enter the name, gender and birth date of every member of your household, including yourself. Also enter this information for members not participating in the panel. Further on in this questionnaire you can indicate which of these persons are participating and which are not.

NO: Are you...?

NZ: What is your gender?

PH: Are you...?

PL: Not asked (sample information).

RU: Respondent's sex (Interviewer observation).

SI: Sex.

SK: Gender of the respondent: (interviewer observation).

SR: Are you male or female?

TH: Sex (Interviewer observation).

TW: Gender.

US: Derived from 'Do you describe yourself as male, female, or transgender?' and 'Was your sex recorded as male or female at birth?'.

ZA: What is your sex? 1) Male 2) Female 3) Other (specify)

Answer categories:

1 Male

2 Female

Variable code list:

1 Male

2 Female

-9 No answer

Note:

/ DE: Cases that were originally coded with code 3 'Diverse' were recoded randomly with code 1 'Male' or 2 'Female' for data protection reasons.

/ IS: Sex is one of the variables that also come with the sample list from the National Registry of Iceland. People who chose the options 'Other' or 'Prefer not to answer', however, were coded as 'No answer' in the data to protect the privacy of the few individuals who identified as 'other'.

/ JP: Respondent's sex can be known also from the sampling frame.

/ NL: The questionnaire was performed using a subsample of a long-running panel in the Netherlands called the LISS panel. This question comes from the background variables of this panel study.

/ NZ: Asked as free text. For cases where no response was given, SEX has imputations taken from the sampling frame.

BIRTH - Year of birth

BVQ_02. BIRTH

When were you born?

(Please, write in the year of your birth (use four digits for the year).

COMMENT ON BIRTH: The aim of this variable is to measure the respondent's year of birth. BIRTH can be asked as an alternative to asking about AGE; the ISSP prefers BIRTH being asked. If BIRTH is not asked, it must be computed by DATEYR 'year of interview' minus AGE 'age of respondent'.

.....

AT: When were you born? Please tell me your year of birth.

AU: When were you born? Please, write in the year of your birth (use four digits for the year).

CH: In which year were you born? Please, write in the year of your birth (four digits, e.g. 1947).

CN: When is your birthday?

CZ: When were you born?

DE: Please enter the month and the year of your birth: __ Month ____ Year

DK: What is your date of birth?

FI: What year were you born?

FR: Can you tell us your year of birth?

HR: Age of respondent.

HU: Year of birth (household roster).

IL: When were you born? (Use four digits for the year).

IN: When were you born? (Please, write in the year of your birth, use four digits for the year).

IS: What year were you born?

IT: Year of birth.

JP: Year of Birth/ Circle the appropriate figure and indicate your year of birth.

MX: Year of birth.

NL: Please enter the name, gender and birth date of every member of your household, including yourself. Also enter this information for members not participating in the panel. Further on in this questionnaire you can indicate which of these persons are participating and which are not.

NO: When were you born? Write in year: _____

NZ: Please indicate the year in which you were born.

PH: When were you born?

PL: Not asked (sample information).

RU: Year of birth.

SI: When were you born? Please, tell us just the year of your birth.

SK: In which year were you born, please?

SR: When were you born? (Please note: the questionnaire is only intended for people aged 18 - 74.) Month: __ Year: 19 __ / 20 __

TH: Year of birth - B.E. (Please ask year of birth or ask about the age and then calculate year of birth).

TW: When were you born? R.O.C. ____ Year, ____ Month.

US: What is your date of birth?

ZA: Computed: BIRTH = DATEYR - AGE.

Variable code list:

1910 1910

1933 1933; US: 1933 or earlier

2007 2007

-9 No answer

Note:

/ DE: The German ISSP 2021 was fielded as mail survey. All instructions reported in this documentation are not directed to the interviewer but to the respondent.

/ IS: Year of birth is one of the variables that also come with the sample list from the National Registry of Iceland. People who chose the options 'Other' or 'Prefer not to answer', however, were coded as 'No answer' in the data.

/ JP: Respondents were asked to indicate the era in which they were born and then the year within the era (F2G - Era: 1 Meiji, 2 Taisho, 3 Showa, 4 Heisei; F2N- Year: Meiji 1-45 = 1868-1912, Taisho 1-15 = 1912-1926, Showa 1-64 = 1926-1989, Heisei 1-31 = 1989-2019).

/ JP: Respondent's birth year can be known from the sampling frame.

/ NL: The questionnaire was performed using a subsample of a long-running panel in the Netherlands called the LISS panel. This question comes from the background variables of this panel study.

/ SI: Four-digit number

/ TH: Data is computed from B.E. to A.D. by minus 543 (fieldwork year is 2564 B.E. which correspondes to 2021 A.D.).

/ TW: R.O.C. year = A.D. year-1911, example A.D. 2021-1911 = R.O.C. year 110.

AGE - Age of respondent

BVQ_02a. AGE

What was your age at your last birthday, in full years?

COMMENT ON AGE: The aim of this variable is to measure the exact age in years at the time of the interview. AGE can be asked as an alternative to asking about BIRTH; the ISSP prefers BIRTH being asked. If AGE is not asked directly, it must be computed by DATEYR 'year of the interview' minus BIRTH 'year of birth'.

AT: Computed: AGE = 2023 - BIRTH.

AU: Computed: AGE = DATEYR - BIRTH.

CH: Computed: AGE = DATEYR - BIRTH.

CN: Computed: AGE = DATEYR - BIRTH.

CZ: Computed: AGE = DATEYR - BIRTH.

DE: Computed: AGE = Date of interview (year and month) - birthday (year and month).

DK: Computed: AGE = DATEYR - BIRTH.

FI: Computed: AGE = DATEYR - BIRTH.

FR: Computed: AGE = DATEYR - BIRTH.

HR: Computed: AGE = DATEYR - BIRTH.

HU: Computed: AGE = DATEYR - BIRTH.

IL: Computed: AGE = DATEYR - BIRTH.

IN: Computed: AGE = DATEYR - BIRTH.

IS: Computed: AGE = DATEYR - BIRTH.

IT: Computed: AGE = DATEYR - BIRTH.

JP: Computed: AGE = DATEYR - BIRTH (based on Era and Year in Era).

MX: How old are you? (completed years)

NL: Derived from date of birth.

NO: Computed: AGE = DATEYR - BIRTH.

NZ: Computed: AGE = DATEYR - BIRTH.

PH: What was your age at your last birthday, in full years?

PL: Computed: AGE = Interview date - birth date.

RU: How old are you?

SI: Computed: AGE = DATEYR - BIRTH.

SK: Computed: AGE = DATEYR - BIRTH.

SR: Computed: AGE = Date of interview (year and month) - birthday (year and month).

TH: How old are you? Write age _ _ _ (Please ask about the age or calculate from year of birth - B.E.).

TW: Derived from date of birth (R.O.C. year).

US: Calculated on the basis of the date of birth and interview date.

ZA: Age of respondent in completed years (copy from contact sheet).

Variable code list:

16 16 years old

89 89 years old; US: 89 years or more

111 111 years old

-9 No answer

Note:

/ AT: The survey was fielded very early in 2024. Therefore 2023 was chosen as the most accurate baseline for calculating age.

/ IS: The data collection lasted from the year 2022 to 2023; the variable AGE was recoded accordingly.

/ NZ: Recoded from BIRTH, with ages calculated for 2021.

/ TH: Data for year of birth is computed from B.E. to A.D. by minus 543.

EDUCYRS - Years of full-time schooling

BVQ_03. EDUCYRS

How many years (full-time equivalent) have you been in formal education?

Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years. If you are currently in education, count the number of years you have completed so far.

(Please enter number of years or tick a box as applicable.)

AT: How many years in total have you attended school, university or other school-based training without in-company vocational training?

AU: How many full years of schooling or education have you had? Please include primary and secondary schooling, university and full-time vocational training, but do not include repeated years. If you are currently in education count the number of years you have completed so far.

CH: Derived from 'How many years of full-time education have you completed since the first year of primary school? Please do not include the years of apprenticeship or repeated years.' and 'If you did an apprenticeship, how many years of apprenticeship did you complete, not counting any repeated years? Enter the number of years with an integer between 0 and 99. If you have not done any apprenticeship please enter '0'.

CN: Not asked. Derived from 'What is your highest educational level currently?'

CZ: How many years of schooling or education have you had? Please include all years of full-time study, even if you did not graduate from that school. Do not forget about primary school. Do not include vocational and requalification courses, part-time study or distance learning. Do not include repeated years. If respondent is currently studying, include completed years of study. Round to the nearest whole number of years and enter the number in the box.

DE: How many full years of schooling or education have you had in total, including primary and secondary schooling, university and full-time vocational training at school, but not including in-firm training. If you have ever repeated a year, please do NOT include these years. If you are currently at school or university, please count the number of years you have already completed at school or university. Please do NOT enter your age.

DK: How many years (full-time equivalent) have you been in formal education? (This includes both elementary school, upper secondary educations including common gymnasium, HF, HHX, HTX, HH and HG as well as vocational education and higher education. This does not include traineeship, vocational training and the like. If you are in training, count the number of years that you have completed so far).

FI: How many years have you gone to school or studied altogether? Include primary education, lower secondary education, general upper secondary education, all full-time education aiming at a vocational qualification, and higher education. If you are still at school or studying, please provide the number of full years of schooling or education you have completed so far.

FR: Derived from 'How old were you when you stopped your studies? If you are still in training, indicate your current age.'

HR: How many years of formal education do you have? Enter the number of years (if education is completed): ____/ Still in (high) school or at college or university -> Number of years completed so far: ____/ Was never included in formal schooling

HU: Taking all your years of schooling into account, how many years have you spent in any full-time school? Please do not include repeated years!

IL: How many years (full-time equivalent) have you been in formal education?

IN: How many years (full-time equivalent) have you been in formal education? Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years. If you are currently in education, count the number of years you have completed so far.

IS: How many years (full-time equivalent) have you been in formal education? Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years. If you are currently in education, count the number of years you have completed so far.

IT: On the whole, how many years have you been in full-time formal education? Include education years from primary schooling up until university and other post-secondary education. (If you are currently in education, please count the number of years you have completed so far.)

JP: How many years of education did you receive from the time you entered elementary school to the time you graduated or left your final place of education? Do not include any time spent at 'cram schools', higher vocational schools or schools in the miscellaneous category.

MX: Years of schooling (Please consider complete years of schooling from primary school onwards, not counting job training or repeated years).

NL: How many years of education have you had since the age of six? (If part-time, compute the full-time equivalent.)

NO: How many years (full-time equivalent) have you been in formal education? Please include all schooling and education, including compulsory school and apprenticeship. Please write number of years: _____

NZ: For how many years have you been in formal education in your life (including primary school)?

PH: How many years (full-time equivalent) have you been in formal education? Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years. If you are currently in education, count the number of years you have completed so far.

PL: How many years, did you spent on learning in total in all schools/ universities, which you ever attend? Do not count repeated grades /years of study, gaps in learning and training courses.

RU: How many years (full-time equivalent) have you been in formal education? Include all primary and secondary schooling, university and other post-secondary education, and full-time vocational training, but do not include repeated years. If you are currently in education, count the number of years you have completed so far.

SI: How long lasted your schooling? Consider all types of schooling from primary school to university, including professional education, training period, but do not count class repetitions.

SK: How long have you been in education so far? Please count all years of full time schooling even if you did not finish the school. Don't forget to count elementary school. Don't count repeated years. Don't count evening or part-time study. Don't include time spent on professional training or requalification. If you still study, please state the years of study finished so far.

SR: How many years have you been in formal education starting at grade 1 of primary school? Do not include repeated years. If you are currently in education, count the number of years you have completed so far.

TH: Write the number of education years ____ years (how many years of full-time formal schooling - or equivalent - including primary school, secondary school, vocational school, university, and full-time training, but not include repeated years; if currently in education, count number of years completed so far).

TW: How many years of school education have you had since Grade 1 in elementary school?

US: Derived from 'What is the highest grade in elementary school or high school that you finished and got credit for?' and 'Did you ever complete one or more years of college for credit - not including schooling such as business college, technical or vocational school?' and (If 'Yes') 'How many years did you complete?'.

ZA: Derived from 'What is the highest level of education that you have ever completed?'

Answer categories:

-8 Don't know

0 No formal schooling, no years at school

Variable code list:

0 No formal schooling, no years at school

1 One year

20 20 years; US: 20 or more years

79 79 years

-8 Don't know

-9 No answer

Note:

/ CH: EDUCYRS is asked in two steps, because the fact that a majority of the Swiss population does an apprenticeship has to be considered.

Apprenticeship can be done as dual education (in enterprise and school) as well as in fulltime schools. It is important to avoid its inclusion in the first question. It is asked separately in the second question. EDUCYRS is then computed by adding the numbers of years of the two questions.

/ FR: EDUCYRS=Age at the end of education minus 6 (school starting age); if still in education (MAINSTAT=3): AGE minus 6 (school starting age).

/ IN: IN_ISCD was taken into account by the PI for the final coding of EDUCYRS.

/ IS: Please note that EDUCYRS might not include full years of education. According to the 1907 law farmer's children were supposed to be at least 2

months a year in school and children who lived in towns for 6 months a year. This difference between rural and 'urban' areas stayed for a long time and in fact stayed in some form all up until 1991. Respondents could be adding up the months they attended school and transform that into whole years since they went to school for such a short periods at a time. When adding up, they might have attended school for one or two months each semester (for the age 7/ 8/ 9 until 12/ 13/ 14). Originally, the values included decimal numbers to reflect the true situation. The values were retrospectively rounded to whole numbers following the required ISSP standard for this variable.

/ NO: Responses from respondents who indicated more than 40 years of school were recoded to code -9 'No answer'.

/ NZ: Asked as free text.

/ ZA: Although the question 'How many years of full time education have you completed?' was asked, the decision was made to rather derive the number of years for EDUCYRS from the question on the highest educational qualification (see ZA_ISCD) due to extreme inaccuracies in this variable.

AT_ISCD - Country specific highest completed degree of education: Austria

BVQ_04. nat_ISCD

What is the highest level of education that you have completed?

(Please tick one box only.)

[List of country-specific categories]

COMMENT ON nat_ISCD: Original country-specific categories should be labelled in the original language. If possible, add English translations and make the labels bilingual (for non-Latin character sets, please use Romanised script).

AT_ISCD - Austria: Country specific highest completed degree of education

What is your highest completed school degree?

- Incomplete compulsory school - Keinen Pflichtschulabschluss
- Compulsory school finished - Pflichtschule
- Apprenticeship - Lehre
- Apprenticeship + master exam - Lehre mit Meisterprüfung
- Vocational middle school - Berufsbildende mittlere Schule (z.B. Handelsschule)
- General higher school - Allgemeinbildende höhere Schule (AHS)
- Vocational higher school - Berufsbildende höhere Schule (BHS, HAK, HTL)
- Vocational matriculation exam - Berufsreifeprüfung
- Apprenticeship + secondary degree - Lehre mit Matura
- Bachelor at university of applied sciences - Bachelor an Fachhochschule/Pädagogische Hochschule
- Bachelor at university - Bachelor an Universität
- Diploma or master at university of applied sciences - Diplomabschluss/Master an Fachhochschule/Pädagogische Hochschule
- Diploma or master at university - Diplomabschluss/Master an Universität
- Postgraduate university course (e.g., MBA) - Postgradualen Universitätslehrgang (z.B. MBA)
- Ph.D. - Doktorat
- Other post-secondary degree - Anderer Abschluss nach der Matura (z.B. Akademie, Kolleg, Universitätslehrgang)

Variable code list:

- 100 Incomplete compulsory school - Keinen Pflichtschulabschluss
- 244 Compulsory school finished - Pflichtschule beendet
- 344 General higher school + Vocational matriculation exam - Allg.bild. höhere Schule (AHS) + Berufsreifeprüfung
- 354 Apprenticeship + Vocational middle school - Lehre + Berufsbildende mittlere Schulen
- 453 Apprenticeship with master exam - Lehre mit Meisterprüfung
- 550 Voc higher school + Other post-sec degree - Berufsbild. höhere Sch. (BHS, HAK, HTL) + And. Abschl. nach Matura (Kolleg)
- 640 Bachelor at uni of applied sciences or at university - Bachelor an Fachhochschule oder an Uni
- 740 Diploma/Master at uni of appl. sciences/uni+Postgrad. uni course - Diplom/Master an FH/Uni+Postgrad. Unilehrgang (MBA)
- 840 Ph.D. - Doktorat

Note:

/ CH: ISCED 2011 was coded on the basis of the original 23 categories of the Swiss educational attainment measurement instrument. This measurement instrument is designed to obtain precise information about the highest level of education the respondent has successfully completed. It is suitable throughout Switzerland with its 26 cantonal educational systems, for people having completed their education outside Switzerland, and for a large span of time (the youngest respondents being 18 years old and possibly still in education, and the oldest respondents having completed their education over 80 years ago).

-9 No answer

Note:

/ IS: Original answer options 'Barnaskólapróf', 'Unglingapróf', 'Gagnfræðapróf' and 'Landspróf' refer to an older education system. A few respondents chose answer option 'Other' and wrote what other was. These answers were encoded to one of the substantive answer categories. Therefore, there are no cases for the category 'Other' in the final version of the data.

US_ISCD - Country specific highest completed degree of education: United States

US_ISCD - United States: Country specific highest completed degree of education

What is the highest grade in elementary school or high school that you finished and got credit for?

- 1st grade
- 2nd grade
- ...
- 12th grade

(If finished 9th-12th grade or 'Don't know')

Did you ever get a high school diploma or a GED certificate?

(If 'Yes')

Was that a diploma awarded by your high school at graduation at the end of 12th grade, a GED awarded after you took a test, or something else?

- High school diploma
- GED
- Other (Specify)

Did you ever complete one or more years of college for credit - not including school such as business college, technical or vocational school?

(If 'Yes')

How many years did you complete?

- 1 year
- 2 years
- ...
- 8 or more years

Do you have any college degrees?

(If 'Yes')

What degree or degrees? If you have more than one, please select the highest degree that you have.

- Bachelor's
- Graduate

ISCED - ISCED 2011: highest completed degree of education [merged variable]

ISCED 2011 (three-digit): highest completed degree of education [merged variable]

This variable collates the information on highest completed educational qualification/ degree of respondents coded in the nat_ISCD variables into a single variable for all countries.

Procedure:

- First, the highest completed educational qualification/ degree of respondents is asked country-specific (see variables AT_ISCD-ZA_ISCD).
- Then ISCED is formed from the nat_ISCD variables, whereby the coding of the ISCED variable is identical to the coding of the nat_ISCD variables (three-digit ISCED 2011 codes following the ISCED 2011 A classification (ISCED-A)).
- For ISCED, the country-specific labels of the nat_ISCD variables are transferred to the official ISCED 2011 standard labels of the three-digit A-codes.

In the ISSP project, ISCED 2011 codes including 'Orientation unspecified' (i.e. 560 660 760 860) are coded to the next level (500 600 700 800).

AT: What is your highest completed school degree?

AU: 'What is the highest year of schooling you have completed?' and 'What is the highest educational qualification you have completed outside of school?'

CH: What is the highest level of education that you have attained?

CN: What is your highest educational level currently?

CZ: What is the highest level of education that you have attained?

DE: Please enter the highest general school leaving certificate which you have.

DK: What school education do you have? What vocational or higher education do you have beyond school education?

FI: What is your education?

FR: What is your education level?

HR: Your highest level of education (schooling completed regularly or part-time).

HU: What is your highest level of education completed?

IL: What is the highest level of education that you have attained?

IN: What is the highest level of education that you have attained? We need to know the highest level of class/ degree that you have completed.

IS: What is the highest level of education that you have attained?

IT: What is the highest level of education that you have attained?

JP: Please indicate the last school you attended or the school you are currently attending.

MX: Highest level of education attained (level completed):

NL: What is the highest level of education you have COMPLETED with a diploma or certificate?

NO: What general education or study specialization have you completed? (Multiple answers possible.) Which vocational education/ training have you completed? If you have not taken vocational education as shown below, go on to the next question. (Tick one.) Which tertiary education have you achieved? If you have not completed higher education as shown below, proceed to the next question. (Tick one.)

NZ: Which one of these categories best describes your highest formal qualification?

PH: What is the highest level of education that you have attained?

PL: What education have you obtained so far?

RU: What is the highest level of education that you have attained?

SI: Name the last school that you finished, regularly or irregularly:

SK: What is your highest achieved education level?

SR: What is the highest education that you have attended? And what is your highest completed education?

TH: The highest level of education:

TW: What is your education level?

US: 'What is the highest grade in elementary school or high school that you finished and got credit for?' and 'Did you ever get a high school diploma

or a GED certificate?' and 'Did you ever complete one or more years of college for credit - not including school such as business college, technical or vocational school?' and 'How many years did you complete?' and 'Do you have any college degrees?' and 'What degree or degrees? If you have more than one, please select the highest degree that you have.'

ZA: What is the highest level of education you have ever completed?

Variable code list:

000 Less than primary education
010 Less than primary: Never attended an education programme
020 Less than primary: Some early childhood education
030 Less than primary: Some primary education (excl. level completion)
100 Primary education
200 Lower secondary education

EDULEVEL - ISCED 2011 simplified: highest completed degree of education

ISCED 2011 simplified (one-digit): highest completed degree of education (derived from ISCED)

EDULEVEL is compiled from the variable ISCED by truncation.

Reducing ISCED to the first digit takes EDULEVEL closer to an ordinal concept of educational achievement.

Variable code list:

- 0 No formal education
- 1 Primary education
- 2 Lower secondary
- 3 Upper secondary
- 4 Post secondary, non-tertiary
- 5 Short-cycle tertiary
- 6 Lower level tertiary, BA
- 7 Upper level tertiary, MA
- 8 PhD, Post Tertiary Specialization
- 9 No answer, not classifiable

Note:

/ NO: ISCED codes 700 and 800 were aggregated due to disclosure risks, respondents with a doctoral or equivalent degree are included in code 7 in EDULEVEL.

WORK - Currently, formerly, or never in paid work

BVQ_05. WORK

The next questions deal with your work situation.

By work we mean doing income-producing work, as an employee, self-employed or working for your own family's business, for at least one hour per week.

If you temporarily are not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., please refer to your normal work situation.

Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

(Please tick one box only.)

.....

AT: Derived from 'How many hours do you usually work every week?' and (If not working) 'Have you ever been employed?'.

AU: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

CH: Are you currently working for pay or did you work for pay in the past?

CN: What is your working experience or employment status?

CZ: Now I would like to learn about your current working situation. Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

DE: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

DK: Are you currently employed? (This refers to the main occupation. If you are a student or school pupil with part-time or leisure work, please tick student or school pupil. Apprentices or students (with wage): Please note that there is a special answer category for apprentices and students (with wage). If you are a public pensioner or a recipient of civil service pension, please tick these, unless you work part-time or more. Check the category housewife/ home duties only if you do not belong to any of the other categories.) Have you ever been employed?

FI: Are you currently in paid work? Paid work is taken to include working as an employee, own-account worker, self-employed/ entrepreneur or working for your own family's business, for at least one hour a week.

FR: WORK is computed from EA variables (Enquête Annuelle)

HR: Are you currently employed in paid work, have you ever been employed in paid work, or have you never been employed?

HU: Derived from 'Are you currently working/ retired?' and 'What is/ was your (last) position or job?'.

IL: Are you currently:

IN: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

IS: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

IT: The next questions concern your work situation. By work we mean doing income-producing work, as an employee, self-employed or working for your own family's business, for at least one hour per week. If you temporarily are not working for pay because of temporary illness/ parental leave/ vacation/ strike/ layoff, etc., please refer to your normal work situation. Which is your current work situation?

JP: Are you currently working for pay, for at least one hour per week? Circle one figure only.

MX: Do you currently have a paid job, have you had a paid job in the past or have you never had a paid job?

NL: Derived from 'What is, at this moment, your most important activity?' and 'Have you ever performed paid labor?'.

NO: Are you, or have you ever been, in paid work? We are interested in all kinds of work, even of just a few hours a week. Work for own family's business without a fixed salary counts as paid work.

NZ: Which one of these categories best describes your current employment status? (If Unemployed and looking for a job/ Permanently sick or disabled/ Student/ Doing housework, looking after the home, children or others/ Retired) Have you had paid work in the past?

PH: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

PL: What is your current job situation? Are you currently... (Multiple answers possible)? Did you ever worked for pay for at least one year?

RU: Do you have a paid work (including work as employee for private person or own business, and also maternity leave or child rearing leave)? and if

no - have you ever had paid work in the past or you've never had paid work?

SI: Are you currently in paid work, used to have paid work or never had paid work?

SK: Are you/ have you ever been working for pay? (If you are on sickness leave, on maternal leave or similar but you otherwise work or are employed - select code 1 'I am currently in paid work'). Paid work includes employed as well as self-employed (company owners, working for family company and similar) working for at least one hour a week!

SR: Derived from 'At what age did you start working?' and 'At what age did you start with your current job?' and 'If you are currently not working: in what year did you stop working?'.

TH: The current working status: ('Work' means doing income-producing work as an employee, self-employed, or working for your own business, for at least 1 hour per week; if R temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike etc. refer to normal situation.)

TW: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

US: Derived from 'Last week were you working full time, part time, going to school, keeping house, or what? If you were doing more than one of these last week, select the one closest to the top of the list.' and (If 'Retired', 'In school', 'Keeping house' or 'Other') 'Did you ever work for as long as one year?'.

ZA: Are you currently working for pay, did you work for pay in the past, or have you never been in paid work?

Answer categories:

- 1 Currently in paid work,
- 2 Currently not in paid work, paid work in the past
- 3 Never had paid work

Variable code list:

- 1 Currently in paid work
- 2 Currently not in paid work, paid work in the past
- 3 Never had paid work
- 9 No answer

Note:

/ DK: The first question corresponds to the one of MAINSTAT.

/ US: Respondents who answered 'Unemployed, laid off, looking for work' were not asked whether they ever had a job for as long as one year. They were assigned to ISSP standard code 2 in WORK 'Currently not in paid work, paid work in the past'.

WRKHRS - Hours worked weekly

BVQ_06. WRKHRS

How many hours, on average, do you usually work for pay in a normal week, including overtime?

If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.

(Please write in.)

On average, I work _____ hours a week, overtime included.

AT: How many hours do you usually work every week? Additional business should be included as well. If you have more than one job, how many hours do you work altogether?

AU: How many hours, on average, do you usually work for pay in a normal week, including overtime?

CH: How many hours, on average, do/ did you usually work for pay in a normal week, including overtime? If you work/ worked for more than one employer, or if you are/ were both employed and self-employed, please count the total number of working hours that you do/ did. Please enter the number of hours. Indicate an integer between 0 and 99.

CN: Did you work for more than one hour for income last week? When you were employed, how many hours did you work in a typical week, including overtime?

CZ: How many hours weekly, on average, do you work in your employment and, if applicable, in your other paid jobs, including overtime? Round to the nearest whole number of hours and enter the number in the box. If respondent works for more than one employer, or if he/ she is both employed and self-employed, please count the total average weekly number of working hours.

DE: How many hours per week do you normally work in your main job including overtime? If you are working for more than one employer or if you are both employed and self-employed, please count all working hours.

DK: How many hours do/ did you normally work in a working week?

FI: How many hours on average do you work in a week, including overtime? If you have more than one employer or if you are both employed and self-employed/ entrepreneur, include all hours.

FR: How many hours do you work weekly?

HR: How many hours do you work in a normal week, including overtime?

HU: How many hours, on average, do you usually work for pay in a normal week. Please include overtime and any side jobs you may have!

IL: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you work for more than one employer or if you are an employee and also self-employed, please indicate the total working hours you work.

IN: How many hours, on average, do you usually work for pay in a normal week, including overtime? (If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.) (Can be asked 'daily', and result multiplied by 7/ 6/ 5).

IS: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.

IT: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.

JP: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you have more than one job, count the total number of working hours that you do. If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

MX: On average, how many hours per week do you normally work including overtime?

NL: How many hours per week do/ did you work on average?

NO: How many hours do you normally work per week in total? Include overtime and work at home. Write hours per week: _____

NZ: (If Employed full-time/ Employed part time/ Employed <15 hours weekly/ Apprentice or trainee) How many hours do you usually work in a

week?

PH: How many hours, on average, do you usually work for pay in a normal week, including overtime? If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do. If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

PL: On average, how many hours a week do/ did you work at that job?

RU: How many hours, on average, do you usually work for pay in a normal week, including overtime?

SI: On an average week, how many hours do you work, including overtime?

SK: How many hours a week - including overtime - do you work on average in paid job(s)? If you have more employers, or if you work as self employed too, provide the total number of hours worked.

SR: Derived from 'How many hours, on average, do/ did you usually work for pay in a normal week in your first job, including overtime?' and 'How many hours, on average, do you usually work for pay in a normal week in your current/ last job, including overtime?'

TH: How many hours on average do you usually work for a pay in a week? Write ___ hours per week (if R works for more than one employer, or is both employed and self-employed, refer to main job).

TW: How many hours in total do you work per week, on average, including overtime?

US: (If working, full or part time) How many hours did you work last week, at all jobs?/ (If with a job, but not at work last week because of temporary illness, vacation, strike) How many hours a week do you usually work, at all jobs?

ZA: How many hours, on average, do you usually work for pay in a normal week, including overtime?

Answer categories:

-8 Don't know

Variable code list:

01 One hour

89 89 hours; US: 89 hours or more

96 96 hours or more

-4 NAP (Code 2 or 3 in WORK)

-8 Don't know

-9 No answer

Note:

/ CH: In the paper questionnaire versions, this question was asked also of people having worked in the past (code 2 in WORK). Their answers were removed for the ISSP variable WRKHRS.

/ DK: This question was asked also to people having worked in the past (code 2 in WORK). Their answers were removed for the ISSP variable WRKHRS.

/ IS: Originally, the values included decimal numbers. The values were retrospectively rounded to whole numbers following the required ISSP standard for this variable.

/ NZ: Asked as free text.

/ PL: This question was also asked of people having worked in the past (code 2 in WORK). Their answers were removed for the ISSP variable.

/ TW: This question was asked also of people having worked in the past (code 2 in WORK). Their answers were removed for the ISSP variable WRKHRS.

EMPREL - Employment relationship

BVQ_07. EMPREL

The next questions deal with some more details on your work situation.

If you work for more than one employer, or if you are both employed and self-employed, please refer to your MAIN job.

If you are retired or not currently working, please refer to your LAST main job.

Are/ were you an employee, self-employed, or working for your own family's business?

(Please tick one box only.)

.....

AT: What is your/ was your employment status?

AU: Are/ were you an employee, self-employed, or working for your own family's business? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

CH: Derived from 'Are/ were you an employee, self-employed, or working for your own family's business?' and '(If not 'Self-employed without employees') How many people does/ did your organisation employ, yourself included?'

CN: Which of the following situations is most suitable to your employment status now? How many employees? Which of the following situations is the most suitable to your employment status of the last non agriculture job? How many employees?

CZ: Now I would like to learn about what you currently do. What is your current economic status, main source of subsistence? If you are both employed and self-employed, you are talking about your main economic activity. If you were but are no longer employed, you are talking about your last job.

DE: Do/ did you work as an employee, are/ were you self-employed or do/ did you work for the own family's business? I am/ was...

DK: Are/ were you publicly employed, privately employed, self-employed or employed in your own family's business?

FI: Are/ were you...? If you have more than one employer or if you are both employed and entrepreneur/ self-employed, answer according to your main job. If you are currently not in paid work or if you are retired/ pensioner, please answer according to your last job. Own-account workers, freelancers and tradespeople are counted as self-employed.

FR: EMPREL is computed from French variable WRKTYP (R: Working for private sector, public sector or self-employed) and 'If you are self-employed, how many employees are working for you?'

HR: Are/ Were you at work: an employee, self-employed without employees (liberal professions, business owners), self-employed with employees or do/ did you work in a family business/ farm? (If self-employed with employees) How many employees do you have, not including you?

HU: Derived from 'Are you currently working/ retired?' and 'What is/ was your (last) position or job?' and 'How many employees/ subordinates do/ did you have?' and 'Are you working for your family's business?'.

IL: Are/ were you an employee, self-employed, or working for your own family's business?

IN: Are/ were you an employee, self-employed, or working for your own family's business? (If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to you last main job.)

IS: Are/ were you an employee, self-employed, or working for your own family's business?

IT: Are/ were you an employee, self-employed, or working for your own family's business? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job. (By self-employed we mean also 'freelancers', 'independent professionals', and other respondents working on their own account. We consider as an employee anyone who receives a salary by someone else - even if the former is not formally an employee of the latter.)

JP: Are/were you an employee, self-employed, or working for your own family's business? Circle one figure only.

MX: Are/ were you employed, self-employed or do/ did you work in your own family's business/ enterprise?

NL: Derived from 'In what type of organisation are you currently working/ did you work in your last job?' and 'Do you/ did you supervise others in your current/ last job? If yes, how many people work/ worked directly or indirectly under your supervision?'.

NO: Are/ were you in your main job... If you work for more than one employer, or if you are both an employee and self-employed, please answer about

your main job. If you are retired or not currently working, please answer about your most recent main job.

NZ: What is/ was the nature of your employment in that occupation?

PH: Are/ were you an employee, self-employed, or working for your own family's business? If you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

PL: Derived from 'What is/ was the form of ownership of this place of work?' and 'Are/ were you self-employed (owner/ co-owner of the firm/ farm), or an employee?' and 'How many people work/ worked in this company/ farm not counting you? If it is/ was a multi-plant enterprise, please indicate the number of employees at the plant where you work/ worked.'

RU: Derived from 'What type of enterprise, organization are you working for as the main job (or were you working for on the last main job)?' and '(If own business, farm, private enterprise, business with employees) 'How many people work(ed) for you, not counting yourself, but taking into account your family members?'

SI: Are/ were you employed (work for other employer), self-employed or work for your own family's business?

SK: Are/ were you an employee or an entrepreneur, sole trader or do/ did you work for a family business?

SR: Derived from 'The following questions refer to your first job. At what type of organization did you work in your first job? Do/ Did you supervise other employees in your first job? If so, how many other employees do/ did you supervise directly or indirectly?' and '(If R had any other jobs after this first job) The following questions refer to your current/ last job. At what type of organization do/ did you work in your current/ last job? Do/ did you supervise other employees in your current/ last job? How many other employees do/ did you supervise directly or indirectly?' (No side jobs as a scholar/ student. Hustling is also a job.)

TH: Are you an employee, self-employed or working for own family's business?

TW: Are/ Were you self-employed or an employee?

US: Derived from 'Are/ were you self-employed or do/ did you work for someone else?' and '(If 'Self-employed') 'Do/ did you have any employees?' and '(If 'Yes') 'How many employees do/ did you have?' and 'Do/ did you work in your own family business or farm?'

ZA: Are/ were you an employee, self-employed or working for your own family's business?

Answer categories:

- 1 Employee
- 2 Self-employed without employees
- 3 Self-employed with 1 to 9 employees
- 4 Self-employed with 10 employees or more
- 5 Working for own family's business

Variable code list:

- 1 Employee
- 2 Self-employed without employees
- 3 Self-employed with 1 to 9 employees; SR: Self-empl. with 1 to 11 empl.
- 4 Self-employed with 10 employees or more; SR: Self-empl. with 12 or more
- 5 Working for own family's business
- 4 NAP (Code 3 in WORK)
- 9 No answer

Note:

/ CN: High number of missing values, as agricultural work is not counted as paid work and both, people who are currently working in agriculture but have never done non-agricultural work in the past just like respondents who are currently unemployed and have never done non-agricultural work in the past, were filtered out before the above question was asked. Their missing answers are included in code -9 'No answer'.

/ DK: The data generated with the question documented above was used to generate both EMPREL and TYPORG2.

/ SR: The ranges in the numbers of employees for the self-employed respondents, described in codes 3 and 4 in EMPREL, differ from the standard.

/ TW: EMPREL, TYPORG1 and TYPORG2 were derived from the same question.

WRKSUP - Supervise other employees

BVQ_08. WRKSUP

Do/ did you supervise other employees?

(Please tick one box only.)

.....

AT: Is it or was it one of your responsibilities to guide other employees or oversee their work?

AU: Do/ did you supervise other employees?

CH: (If not 'Self-employed without employees') Do/ did you supervise directly or indirectly other employees?

CN: In your present job, what is the situation of your administrative activity? The number of people under your management is: / In your last non agriculture job, what is the situation of your administrative activity? The number of people under your management is:

CZ: Do (did) you supervise any employees in your current (last) main job? If you are both employed and self-employed, you are talking about your main economic activity.

DE: Do/ did you supervise other employees?

DK: Do/ did you have a managerial function?

FI: Do you work in a supervisory position, i.e., do/ did you have subordinates?

FR: Is your current job to supervise the work of any other people?

HR: Are you currently/ Were you in the past supervising the work of other employees? That implies the role of leading, supervising and being responsible for the work of others.

HU: Derived from 'How many employees/ subordinates do/ did you have?' and 'What is/ was your (last) position or job?'

IL: Do/ did you supervise other employees?

IN: Do/ did you supervise other employees?

IS: Do/ did you supervise other employees? Supervision is to be understood as a leadership function of monitoring and being responsible for the work of others.

IT: Do/ did you supervise other employees? (Supervision is to be understood as a leadership function of monitoring and being responsible for the work of others.)

JP: Do/ did you supervise other employees?

MX: Does carrying out your current job or the last one where you worked include supervising the work of other people?

NL: Derived from 'Do/ did you supervise others in your current/ last job? If yes, how many people work/ worked directly or indirectly under your supervision?'

NO: Does/ did your position involve supervising other employees, or deciding what tasks they are/ were to undertake?

NZ: In that occupation, do/ did you supervise, or are/ were you responsible for, the work of any other people?

PH: Do/ did you supervise other employees? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

PL: As an official part of your main job, do/ did you supervise the work of other employees or tell other employees what to do?

RU: Do/ did you supervise other employees?

SI: Do you now or have you ever before supervised someone at work?

SK: In your main job, do/ did you have any subordinates or are/ were you responsible for the work of others?

SR: Derived from 'Did you supervise other employees in your first job? If so, how many other employees do/ did you supervise directly or indirectly?' and '(If R had any other jobs after this first job) Do/ did you supervise other employees in your current/ last job? How many other employees do/ did you supervise directly or indirectly?'

TH: Do you supervise/ Have you ever supervised other employees? ('Supervision' is to be understood as a leadership function of monitoring and being responsible for the work of others.)

TW: Derived from 'How many employees do/ did you supervise at your job (or your most recent job)?'

US: (If currently in paid work) In your job, do you supervise anyone who is directly responsible to you?

ZA: Do/ did you supervise other employees?

Answer categories:

- 1 Yes
- 2 No

Variable code list:

- 1 Yes
- 2 No
- 4 NAP (Code 3 in WORK; US: Code 2,3 in WORK)
- 9 No answer

Note:

/ CH: As self-employed without employees (EMPREL code 2) were filtered out, they are coded on category 2 in WRKSUP (no supervision) in retrospect.

/ CN: High number of missing values, as agricultural work is not counted as paid work and both, people who are currently working in agriculture but have never done non-agricultural work in the past just like respondents who are currently unemployed and have never done non-agricultural work in the past, were filtered out before the above question was asked. Their missing answers are included in code -9 'No answer'.

/ DK: Respondents working self-employed with employees were not asked about having a managerial function. Instead they were encoded to code 1 'YES' in WRKSUP from the Danish ISSP team.

/ HU: The question was not addressed to all professional groups, this could be the reason why the number of respondents with a supervising function is lower in Hungary than for the other countries.

/ TW: If the answer was 0, recoded to code 2 'No'. Since self-employed without employees (EMPREL code 2) were filtered out, they were subsequently recoded on code 2 'No' in WRKSUP.

/ US: The question on WRKSUP is only asked if the respondent is currently working. If that is not the case, the question on SPWRKSUP is asked instead (see SPWRKSUP), provided the spouse/ partner is currently working and the respondent is married and/ or living with the partner.

NSUP - Number of other employees supervised

BVQ_09. NSUP

(If you supervise(d) other employees)

How many other employees do/ did you supervise?

(Please write in _____ employees)

.....

AT: How many employees do/ did you supervise?

AU: How many employees do/ did you supervise?

CH: How many employees do/ did you supervise, directly or indirectly? Do not count apprentices.

CN: The number of people under your management is:

CZ: How many employees do (did) you supervise? Include all employees supervised both directly and indirectly for whose work you are/ were responsible. I.e., employees supervised by those supervised by him/ her as well. Attention: Teachers shall not include students, social workers shall not include clients etc. If the number of employees supervised in this job changed inquire about the highest number.

DE: How many employees do/ did you supervise?

DK: How many employees are/ were you manager for?

FI: If Yes, how many? _____ subordinates/ employees

FR: How many persons are/ were you responsible for?

HR: How many employees do/ did you supervise: ____?

HU: Derived from 'How many employees/ subordinates do/ did you have?' and 'What is/ was your (last) position or job?'

IL: How many other employees do/ did you supervise?

IN: How many employees do/ did you supervise?

IS: How many employees do/ did you supervise?

IT: And how many other employees or coworkers do/ did you supervise?

JP: How many other employees do/ did you supervise?

MX: How many people do you supervise or did you supervise in your last job?

NL: Do/ did you supervise others in your current/ last job? If yes, how many people work/ worked directly or indirectly under your supervision?

NO: How many employees are/were under your supervision? Enter the number of employees: _____

NZ: How many people?

PH: How many other employees do/did you supervise? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

PL: How many employees do/ did you supervise counting all levels?

RU: If so, how many employees do/did you supervise?

SI: How many people are/ were you in charge of?

SK: How many subordinates do/ did you have, or for the work of how many others are/ were you responsible in your main job?

SR: Did you supervise other employees in your first job? If so, how many other employees do/ did you supervise directly or indirectly? (If R had any other jobs after this first job) Do/ did you supervise other employees in your current/ last job? How many other employees do/ did you supervise directly or indirectly?

TH: Number of employees you supervise(d)? Write in the number: _____ persons.

TW: How many employees do/ did you supervise at your job (or your most recent job)?

US: How many people do you supervise directly?

ZA: How many other employees do/ did you supervise?

Variable code list:

1 1 employee; SR: 0-1 subordinate, not supervised
4 4 employees; NL, SR: 2-5 subordinates
8 8 employees; NL: 6-9 subordinates
9 9 employees; SR: 6-11 subordinates
18 18 employees; NL: 10-25 subordinates
19 19 employees; SR: 12-25 subordinates
30 30 employees; NL, SR: More than 25 subordinates
1000 1000 employees; FI: 1000 employees or more
9995 9995 employees or more
-4 NAP (code 2, -4 in WRKSUP)
-9 No answer

Note:

/ CN: High number of missing values, as agricultural work is not counted as paid work and both, people who are currently working in agriculture but have never done non-agricultural work in the past just like respondents who are currently unemployed and have never done non-agricultural work in the past, were filtered out before the above question was asked. Their missing answers are included in code -9 'No answer'.

/ FI: NSUP top-coded for anonymisation purposes.

/ NL: In the Netherlands, this question was collected in a different format with categorized answer options; midpoints of the answer categories were coded.

/ NZ: Asked as free text.

/ SR: In Suriname, this question was collected in a different format with categorized answer options; midpoints of the answer categories were coded.

TYPORG1 - Type of organisation, for-profit/non-profit

BVQ_10. TYPORG1

Do/did you work for a for-profit organisation or for a non-profit organisation?

(Please tick one box only.)

COMMENT ON TYPORG1: TYPORG1 deals with the main goal of the organisation the respondent is working for. 'For-profit' refers to material profit, understood as a gain for the benefit of the owners of the business. Organisations which generate revenue, but use this to subsidise a designated organisational purpose other than the owners' profit, are counted as non-profit organisations. Thus, economic activities of charitable, scientific, political, or environmental organisations, etc. should not be understood as for-profit economic activities. State-owned companies or collectively owned organisations such as cooperatives will in contrast often be for-profit organisations - if the main goal is material profit.

.....

AT: Do you work/ have you worked for a for-profit or a non-profit organization?

AU: Do/ did you work for a for-profit organisation or for a non-profit organisation?

CH: Do/ did you work for a for-profit organisation or a non-profit organisation?

CN: What is the type of the work unit (or company) with which you are affiliated now?/ What is the type of the work unit (or company) with which you are affiliated of your last non agriculture job?

CZ: Do you (did you) work in for-profit or Non-profit organisation? For-profit organisation means limited liability company, private joint stock company, cooperative, profit-seeking state-owned business etc. Non-profit organisation means non-profit non governmental organisation, foundation, public benefit corporation, public administration, local administration, public institution like hospitals, public schools, libraries, police, the military.

DE: Do/ did you work for a for-profit organisation or for a non-profit organisation?

DK: Is/ was the purpose of the business you work/ worked in to generate a financial profit, or is it a 'non-profit' business/ organization?

FI: Do/ did you work for a for-profit enterprise or for a non-profit organisation?

FR: TYPORG1 is computed from French variable WRKTYP (R: Working for private sector, public sector or self-employed).

HR: Are you currently/ Have you been in the past employed in the organization which main work can be described as: Profit (realization of financial gain and profit for the owners)/ Non-profit (Profit designation is NOT related to the current economic situation and business success of an organization. Examples of profit organizations are those working as a private company, but also those working as a public enterprise that generates income to the owners (HEP, the Croatian forest ...). An example of non-profit organization would be teachers and doctors in the state sector, while teachers and doctors in private schools, clinics and hospitals should define their work in for-profit companies.)

HU: Derived from 'What is/ was you employer's form of management' and 'Are you/ were you a public official, public employee/ employed by a government-owned or local council owned company/ employed elsewhere?' and 'What is/ was your (last) position or job?'.

IL: Do/ did you work for a for-profit organisation or for a non-profit organisation?

IN: Do/ did you work for a for-profit organisation or for a non-profit organisation?

IS: Do/ did you work for a for-profit organisation or for a non-profit organisation? Most private companies are run as for-profit companies. Charities and public institutions such as educational and health services are examples of non-profit organisations.

IT: Do/ did you work for a for-profit organisation or for a non-profit organisation? (If necessary, clarify for-profit or non-profit organisation by giving examples. Please keep in mind that there can be partially public owned companies which are for-profit. In contrast, public universities are non-profit public organisations.)

JP: Do/ did you work for a for-profit organisation or for a non-profit organisation?

MX: Do you work or in your last job did you work for a for-profit organization or a non-profit organization?

NL: In what type of organisation are you currently working/ did you work in your last job?

NO: Do/ did you work for an organisation that have/ had profit for its owners as an objective, or in an organisation without such objective (government, civil service, trust etc.)?

NZ: And is/ was that job in a for-profit or a non-profit organisation?

PH: Do/did you work for a profit or for a non-profit organization? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

PL: What is/ was the form of ownership of this place of work?

RU: What type of enterprise, organisation are you working for as the main job (or were you working for on the last main job)?

SI: Do/ did you work for a for-profit or non-profit organisation?

SK: Would you say that the organization you work/ have worked for is profit-oriented, or is it not?

SR: The following questions refer to your first job. At what type of organization did you work in your first job?/ (If R had any other jobs after this first job) The following questions refer to your current/ last job. At what type of organization do/ did you work in your current/ last job?

TH: Do you work for a for-profit organization or non-profit organization?

TW: Are/ Were you self-employed or an employee?

US: Not asked.

ZA: Do/ did you work for a for profit organisation or for a non-profit organisation?

Answer categories:

- 8 Don't know
- 1 For-profit organisation
- 2 Non-profit organisation

Variable code list:

- 1 For-profit organisation
- 2 Non-profit organisation
- 1 Not available (US)
- 4 NAP (Code 3 in WORK)
- 8 Don't know
- 9 No answer

Note:

/ CN: High number of missing values, as agricultural work is not counted as paid work and both, people who are currently working in agriculture but have never done non-agricultural work in the past just like respondents who are currently unemployed and have never done non-agricultural work in the past, were filtered out before the above question was asked. Their missing answers are included in code -9 'No answer'.

/ DK: All respondents who answered that they are employed in the public sector were not asked about the purpose of the business they work in. This has been compensated for by the Danish ISSP team by imputing the value '2' for these respondents for the variable 'TYPORG1'.

/ FR: 'Works for publicly owned firm', 'Works for a private firm', 'Self-employed' and 'Works for family's business' are encoded to code 1 'For-profit'.

'Works for government or local communities' and 'Works for an association, a mutual company or a cooperative' are encoded to code 2 'Non-profit'.

/ TW: EMPREL, TYPORG1 and TYPORG2 were derived from the same question.

TYPORG2 - Type of organisation, public/private

BVQ_11. TYPORG2

Do/did you work for a public or a private employer?

(Please tick one box only.)

COMMENT ON TYPORG2: TYPORG2 deals with the main ownership status of the organisation or firm the respondent is working for. Identifying the main ownership status of an organisation or firm will be easiest for a respondent by being asked about his/ her actual employer. A 'public employer' includes any of state, government, public administration, local government, army, police, juridical/ legal system, civil service, municipality or federation of municipalities, and local communities, as well as other types of organisations where the main owner is the state: publicly owned for-profit organisations (e.g., a state owned oil-company) or publicly owned non-profit organisations (e.g. a publicly owned hospital). Note that the public category should be read to mean only state-ownership in a strict sense. Charities, foundations, cooperatives, etc. are therefore usually private owners. For mixed ownership, a 50% rule can suffice to determine public vs. private ownership, e.g., a company with 60% private ownership should be assigned to 'private employer'.

.....

AT: Where are you currently employed resp. where were you employed the last time?

AU: Do/ did you work for a public or a private employer?

CH: Do/ did you work for a public or a private employer?

CN: What is the ownership type of the work unit (or company) with which you are affiliated now? What is the type of the work unit (or company) with which you are affiliated now?/ What is the ownership type of the work unit (or company) with which you are affiliated of your last non agriculture job? What is the type of the work unit (or company) with which you are affiliated of your last non agriculture job?

CZ: Do you (did you) work in public or private organisation?

DE: Do/ did you work in the public service resp. in an enterprise mostly in public ownership or do/ did you work for a private employer?

DK: Are/ were you in public or private employment, self-employed or employed in your own family business?

FI: Do/ did you work in the public or in the private sector?

FR: TYPORG2 is computed from French variable WRKTYP (R: Working for private sector, public sector or self-employed).

HR: Do/ Did you work in public or private sector? (The public sector includes all government and public services as well as public enterprises that are at least 50% owned by the state.)

HU: Are/ were you a public official, public employee/ employed by a government-owned or local council owned company/ employed elsewhere?

IL: Do/ did you work for a public or a private employer?

IN: Do/ did you work for a public or a private employer?

IS: Do/ did you work for a public or a private employer?

IT: Do/ did you work for a public or a private employer? (Please keep in mind that there can be partially public owned companies which are for-profit. In contrast, public universities are non-profit public organisations.)

JP: Do/ did you work for a public or a private employer?

MX: Do you work or in your last job did you work for a public or private organization/ company?

NL: In what type of organisation are you currently working/ did you work in your last job?

NO: And is/ was the organisation you work/ worked for: a) Private firm; b) Organisation, trust; c) Local government; d) Central government; e) Other public or semi-public; f) Other.

NZ: Which one category best describes for whom you work/ worked?

PH: Do/ did you work for a public or a private employer? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

PL: What is/ was the form of ownership of this place of work?

RU: What type of enterprise, organisation are you working for as the main job (or were you working for on the last main job)?

SI: Do/ did you work in public or private sector?

SK: Do/ did you work for an employer from the public (state) or from the private sector?

SR: The following questions refer to your first job. At what type of organization did you work in your first job?/ (If R had any other jobs after this first job) The following questions refer to your current/ last job. At what type of organization do/ did you work in your current/ last job?

TH: Do you work for a public or a private organization?

TW: Are/ Were you self-employed or an employee?

US: Are/ Were you employed by the government? (Please consider federal, state, or local government.) Are/ Were you employed by a private employer (including non-profit organizations)?

ZA: Do/ did you work for a public or private employer?

Answer categories:

- 8 Don't know
- 1 Public employer
- 2 Private employer

Variable code list:

- 1 Public employer
- 2 Private employer
- 4 NAP (Code 3 in WORK)
- 8 Don't know; NO: Other
- 9 No answer

Note:

/ CN: High number of missing values, as agricultural work is not counted as paid work and both, people who are currently working in agriculture but have never done non-agricultural work in the past just like respondents who are currently unemployed and have never done non-agricultural work in the past, were filtered out before the above question was asked. Their missing answers are included in code -9 'No answer'.

/ DK: The data generated with the question documented above was used to generate both TYPORG2 and EMPREL. Self-employed and respondents working for own family's business were encoded to 'Private employer' in TYPORG2.

/ FR: 'Works for government or local communities' and 'Works for publicly owned firm' are encoded to code 1 'Public'. 'Works for an association, a mutual company or a cooperative', 'Works for a private firm', 'Self-employed' and 'Works for family's business' are encoded to code 2 'Private'.

/ NO: Norwegian response options c, d, e have been assigned to ISSP standard code 1 'Public employer', while Norwegian response options a+b have been coded with ISSP standard code 2 'Private employer'. Answer option f 'Other' was coded as -8 'Don't know'.

/ NZ: TYPORG2 code 1 includes 'Public sector organisation, e.g. government department, local authority, state-owned enterprise'. TYPORG2 code 2 includes 'Overseas-owned private sector company or firm' and 'NZ-owned private sector company or firm'.

/ TW: EMPREL, TYPORG1 and TYPORG2 were derived from the same question.

ISCO08 - Occupation ISCO 2008

BVQ_12. ISCO08

- a. What is/was your occupation - i.e., what is/was the name or title of your main job? My occupation is/was: _____
- b. In your main job, what kind of activities do/did you do most of the time? _____
- c. What does/did the firm/organisation you work/worked for mainly make or do - i.e., what kind of production/function is/was performed at your workplace? _____

(Please write in and describe as clearly as possible.)

.....

AT: What kind of occupation do/ did you do? (If you have more than one job please consider your main job).

AU: What is/ was your occupation - i.e., what is/ was the name or title of your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organisation you work/ worked for mainly make or do – i.e., what kind of production/ function is/ was performed at your workplace?

CH: What is/ was your current/ last occupation? (OPEN on paper/ Web questionnaire: Please enter the first letters of your main job name or title. An automatic list will be displayed allowing you to specify your occupation. If there is no proposal that matches your occupation, write the full name or title of your main job). In your main job, what kind of activities do/ did you do most of the time?

CN: What is your specific job now? Name of the job/ What is your specific job of your last non agriculture job? Name of the job

CZ: What is (was) your current (last) occupation, what kind of activity do (did) you do in it? Please give the title of your job, briefly describe the work activity(s) you do or have done in this job and what the main activity(s) of the organisation you work for is (were). For self-employed persons, specify industry/ subject of activity. If respondent states having (had) several occupations, ask about his/ her main job = the one in which the respondent spends most hours.

DE: What work do you do in your main job? If you are currently not working for pay, but had paid work in the past, please refer to your last main job. Does this job, this work have a special name?

DK: What exactly is/ was your position and industry? Enter your full position (your title) and briefly describe what you mainly do/ did at your workplace.

FI: What is your current or latest occupation? Please write in your job title as specifically and clearly as possible, ... Write in the job title, not qualification/ degree. What are or were your main activities at work? What does/did the company or organisation for which you work/worked mainly do/make?

FR: If you are working, what is your current occupation? If you don't have a job, what was your last occupation?

HR: Occupation of respondent. Please state the exact name of your job title and occupation. Describe what you do; what are your main tasks. What are the educational and professional requirements for your job?

HU: What is/ was your (last) position or job?

IL: What is/ was your occupation - i.e., what is/ was the name or title of your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organisation you work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at your workplace?

IN: What is/ was your occupation - i.e., what is/ was the name or title of your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organisation you work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at your workplace?

IS: What is/ was your occupation - i.e., what is/ was the name or title of your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organisation you work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at your workplace?

IT: What is/ was your occupation – i.e., what is/ was the name or title of your main job? Please describe it as clearly as possible. In your main job, what kind of activities do/ did you do most of the time? Please describe them as clearly as possible.

JP: Please give details about the main type of work you are engaged in (e.g. bus driver, delivery worker, working at a construction site, car mechanic, working at a general affairs section in a municipal office, a Japanese teacher at junior high school, a salesperson of printing equipment, working at

a cashier desk of a supermarket, counter operations for a bank, computer programmer).

MX: Regarding your current main occupation or your last job, could you tell me...? (Description of your position, main tasks or activities, equipment used and characteristics of the workplace.)

NL: What exactly is/ was your current/ former job? (Two fields: job description and most important tasks/ responsibilities.)

NO: What is/ was your work title (main job)? Please make a short description of your work tasks. What does/ did the organisation you work/ worked for mainly make or do?

NZ: What is/ was your main occupation? If you are retired, or not working for pay now, please describe your last regular paid job. If more than one job, please give the occupation for the job in which you spend/ spent the most time.

PH: What is/ was your occupation – i.e. what is/was the name or title of your main job? If you work for more than one employer, or if you are both employed and self-employed, please refer to your main job. If you are retired or not currently working, please refer to your last main job.

PL: What kind of work do/ did you normally do? What is/ was your job called? What do/ did you actually do in that job? What are/ were your main duties? How is/ was your job title? What do/ did they produce, what services do/ did they provide, what is/ was the main profile of the place you work/ worked in?

RU: What is/ was your occupation – i.e., what is/was the name or the title of your main job? In your main job, what kind of activities do/ did you do most of the time? What does/ did the firm/ organisation you work/ worked for mainly make or do – i.e., what kind of production/ function is/ was performed at your workplace?

SI: What profession or work do you do now? If he/ she is not employed: what was your last profession before retirement or losing your job? If you have more than one job, tell us about your main.

SK: Please, fill-in the name of your main occupation. Provide a detailed description of your working activity: what is your principal activity, responsibility etc. Use two or more words, exclude abbreviations. If you are/ were self-employed or entrepreneur, please, specify the area of your business.

SR: What was your first occupation?/ (If R had any other jobs after this first job) What is/ was your current/ last occupation?

TH: What is your occupation? (Write in and describe R's occupation, main activities, and main function of R's workplace? Then, code 4-digit codes according to ISCO 2008.)

TW: What is your main occupation (at present, or prior to retirement)? a. Full name of the company _____, main product or service _____ b. Division _____, Position _____ Detailed job description _____.

US: What kind of work do/ did you normally do? What is/ was your job called? What do/ did you actually do in that job? What are/ were some of your main duties?

ZA: What is your current occupation (the name or title of your main job)?

Answer categories:

-8 Don't know

- 9624 Water and firewood collectors
- 9629 Elementary workers not elsewhere classified
- 4 NAP (Code 3 in WORK)
- 6 NO: Answer to open-ended questions on ISCO08 not retrievable for respondents of paper questionnaire
- 8 Don't know, inadequately described

-9 No answer

Note:

/ CN: High number of missing values, as agricultural work is not counted as paid work and both, people who are currently working in agriculture but have never done non-agricultural work in the past just like respondents who are currently unemployed and have never done non-agricultural work in the past, were filtered out before the above question was asked. Their missing answers are included in code -9 'No answer'.

/ DE: In order to protect individual respondents from data disclosure it was necessary to combine some original 4 digit-categories before data publication, thereby coarsening the information.

/ FR: French classification of the occupations and the socio-professional categories (PCS 2003) used, then transferred into ISCO 2008.

/ HR: It was an open-ended question which then was coded into ISCO08 codes by the research team.

/ NO: Data from the open-ended questions in the survey are missing for respondents who completed the survey on paper. The data material has been anonymized and therefore, this information is no longer retrievable (N=704 out of 728 respondents who answered the survey by paper).

/ NO: As source code, the Norwegian standard classification of occupations 2008 (STYRK-08) - based on the International Standard Classification of Occupations 2008 (ISCO-08) - has been used. Some insufficiently described occupations may have been coded with -9 'No answer' instead of code -8 'Don't know, inadequately described'.

/ NZ: Asked as free text and coded manually to ISCO08.

/ SR: Open question, verbatim answers were coded into ISCO88, then transferred into ISCO08.

/ US: US Census 2010 codes recoded to ISCO08.

MAINSTAT - Main status

BVQ_13. MAINSTAT

Which of the following BEST describes your current situation?

If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

(Please tick one box only.)

AT: Predominantly, are you currently...?

AU: Which of the following best describes your current situation?

CH: Which one of the following best describes your current situation? If you temporarily are not working because of temporary illness/ parental leave/ vacation etc., please refer to your normal work situation.

CN: What was the reason that you did not work last week? Which of the following manner did you adopt for finding a job in the last three month? What is your working experience or employment status?

CZ: Which of the following options best describes your job position? If you are temporarily absent from work (e.g. due to illness, vacation, holidays, etc.), you answer as if you were normally asked during the working period.

DE: Which of the following best describes your current situation? If you temporarily are not working for pay because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation. I am...

DK: Are you currently employed? (This refers to the main occupation. If you are a student or school pupil with part-time or leisure work, please tick student or school pupil. Apprentices or students (with wage): Please note that there is a special answer category for apprentices and students (with wage). If you are a public pensioner or a recipient of civil service pension, please tick these, unless you work part-time or more. Check the category housewife/ home duties only if you do not belong to any of the other categories.)

FI: Which of the following best describes your current situation? If you are temporarily away from paid work because of parental or other leave, unpaid leave or some other similar reason, please answer according to your normal work situation.

FR: What is your current situation in relation to work? (If year of birth > 1990) Are you currently on a Civic Service mission?

HR: What is your employment status (which best describes your current situation)?

HU: Derived from 'Are you currently working/ retired?' and (If employee) 'Are you currently working in community service?' and (If pensioner) 'Are you...?' and (If student) 'Are you working as an apprentice or as a trainee?' and 'Are you looking for a job?'

IL: Which of the following best describes your current situation?

IN: Which of the following best describes your current situation? (If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.)

IS: Which of the following best describes your current situation? If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

IT: Which of the following best describes your current situation? If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike/ layoff etc., please refer to your normal work situation.

JP: Which of the following best describes your current situation? Circle one figure only. If you temporarily are not working because of temporary illness/parental leave/vacation/strike etc., please refer to your normal work situation.

MX: What is your current situation?

NL: What is, at this moment, your most important activity?

NO: What do you consider as your current main activity? If you are temporarily absent due to illness, leave or the like, answer based on your normal situation.

NZ: Which one of these categories best describes your current employment status?

PH: Which of the following best describes your current situation? If you temporarily are not working for pay because of temporary illness/ parental leave/vacation/strike, etc., please refer to your normal work situation.

PL: What is your current job situation? Are you currently ... (Multiple answers possible)?

RU: Derived from 'Do you have a paid work (including work as an employee for private persons or own business and also if currently on maternity leave or child rearing leave)? And if no - have you ever had paid work in the past or have you never had paid work?' and (If R is currently not in paid work/ never had paid work) 'What is your main status?'

SI: What from the list best describes your current position?

SK: Which of the following answers best describes your current situation? If you are currently not in paid work due to maternal/ parental leave, illness, holidays or similar, please refer your answer to your normal work situation.

SR: What is currently your main activity? Choose the answer that best describes your situation. If you temporarily are not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to your normal work situation.

TH: Which of the following best describes your current situation?

TW: Do you currently have a job?

US: Last week were you working full time, part time, going to school, keeping house, or what? If you were doing more than one of these last week, select the one closest to the top of the list.

ZA: What is your current employment status? (Which of the following best describes your present work situation?)

Answer categories:

- 1 In paid work (as an employee, self-employed, or working for your own family's business)
- 2 Unemployed and looking for a job
- 3 In education (not paid for by employer), in school/student/pupil even if on vacation
- 4 Apprentice or trainee
- 5 Permanently sick or disabled
- 6 Retired
- 7 Doing housework, looking after the home, children or other persons
- 8 In compulsory military service or community service
- 9 Other

Variable code list:

- 1 In paid work
- 2 Unemployed and looking for a job
- 3 In education
- 4 Apprentice or trainee
- 5 Permanently sick or disabled
- 6 Retired
- 7 Domestic work
- 8 In compulsory military service or community service
- 9 Other
- 9 No answer

Note:

/ AT: Respondents on parental leave are included in Code 9 'Other' i.e. respondents were not asked for their 'normal work situation'.

/ AU: Category 8 'In compulsory military service or community service' not used.

/ CN: Category 4 'Apprentice or trainee' not used.

/ CZ: There is no such thing as compulsory military service or community service in the Czech Republic. We recoded this category to "Other".

/ DE: Code 8 'In compulsory military service or community service' not asked (no compulsory military service).

/ FI: Finnish male nationals are required to do either military service or its alternative, civilian service.

/ FR: Category 8 includes 'In Civic Service'. Civic Service is a 6 to 12 months commitment to a mission for the community.

/ HR: Category 8 'In compulsory military service or community service' was omitted in the questionnaire because Croatia doesn't have compulsory military service or community service obliges.

/ HU: Category 8 'In compulsory military service or community service' not used.

/ IN: Category 8 'In compulsory military service or community service' not used.

/ IS: Category 8 'In compulsory military service or community service' not used.

/ IT: Category 8 ('In compulsory military service or community service') was omitted because there is no such thing as compulsory military or community service in Italy.

/ NL: Code 4 'Apprentice or trainee' and code 8 'In compulsory military service or community service' not used.

/ NZ: Code 8 'In compulsory military service or community service' and code 9 'Others' not used.

/ PL: Multiple choice question - respondent can work and at the same time be retired, work and study, etc. In case there were multiple answers, coded in the way that in a case of two codes indicating MAINSTAT the priority was given to answers coded by lower codes over answers coded by higher codes.

/ PL: Code 8 'In compulsory military service or community service' not used.

/ SK: Code 8 'In compulsory military service or community service' not asked.

/ US: Code 4 'Apprentice or trainee' and code 8 'In compulsory military service or community service' were not used in the US data. Code 5 'Permanently sick or disabled' was coded from verbatim responses given in 'Other (Specify)' - no cases for this code in the 2021 data from the US.

/ ZA: Code 8 'In compulsory military service or community service' not used.

PARTLIV - Living in steady partnership

BVQ_14. PARTLIV

Do you have a spouse or a steady partner and, if yes, do you share the same household?

(Please tick one box only.)

COMMENT TO PARTLIV: Note that PARTLIV must not be filtered by responses to MARITAL.

.....

AT: Do you currently have a husband/ wife or partner? And if yes, do you live in the same household?

AU: Do you have a spouse or a partner and, if yes, do you share the same household?

CH: Do you have a spouse or a steady partner and, if yes, are you currently living with him or her?

CN: Derived from 'What's your marital status now?' and 'Are you currently living with your spouse or common-law partner?'.

CZ: Do you have a steady partner or wife/ husband and if yes, do you live in the same household?

DE: Do you have a spouse or a steady partner and, if yes, do you share the same household?

DK: Do you have a spouse or partner, and if so, are you living in the same household?

FI: Do you have a spouse or a steady partner and do you live together?

FR: Do you have a spouse or steady partner?

HR: Do you have a spouse (married) or permanent partner and if so, do you live in the same household?

HU: Derived from 'What is your marital status?' and (If 'Married and live together with spouse': Next question skipped) If not 'Married and live together with spouse': 'Do you live in a partnership?'.

IL: Do you have a spouse or a steady partner and, if yes, do you share the same household?

IN: Do you have a spouse or a steady partner and, if yes, do you share the same household?

IS: Do you have a spouse or a steady partner and, if yes, do you share the same household?

IT: Do you share the same household with your spouse or steady partner? (If the respondent is widowed, ask her/ him if she/ he has a new spouse/ partner and if she/ he lives with her/ him.)

JP: Do you have a spouse or a steady partner and, if yes, do you share the same household? Circle one figure only.

MX: Do you have a steady spouse/ partner and if so, do you live with him/ her?

NL: Do you factually live with a committed partner?

NO: Do you have a spouse or a steady partner, and do you share the same household?

NZ: Now we would like to ask some questions about your living situation. Do you have a spouse or steady partner and, if yes, do you share the same household?

PH: Do you have a spouse or a steady partner and, if yes, do you share the same household?

PL: What is your marital status? (If married) Does your husband/ wife live in the same household with you? (If husband/ wife is not living in the same household OR if never married, divorced, separated or widowed) Are you staying currently in any relationship with a partner who is not your formal husband/ wife? (If yes) Do you live with this person in the same household?

RU: Derived from 'What is your marital status?'

SI: Are you married, have a steady partner? Do you share a common household?

SK: Do you have a steady partner, a husband/ spouse?

SR: Do you have a spouse or a steady partner and, if yes, do you share the same household?

TH: Do you have a spouse or a steady partner? If yes, do you share the same household?

TW: Derived from the question on MARITAL 'What is your current marital status?'

US: Which of these statements applies to you?

ZA: Do you have a spouse/ partner and if yes, do you live in the same household?

Answer categories:

-7 Refused

1 Yes, have partner; live in same household

2 Yes, have partner; don't live in same household

3 No partner

Variable code list:

1 Yes, have partner; live in same household

2 Yes, have partner; don't live in same household

3 No partner; TW: (Divorced, widowed or never married) & not cohabitating

-7 Refused

-9 No answer

Note:

/ CN: The question of whether or not respondents have a partner was not asked to respondents in this strict format. In fact, code 3 for China includes respondents who are not yet married, divorced or widowed.

/ IT: In the Italian questionnaire, the question on PARTLIV is following the question on MARITAL.

/ RU: PARTLIV and MARITAL are derived from the same question. In fact, divorced and widowed respondents were not asked about having a partner and if they are living together with a steady partner or not. The PI encoded divorced and widowed respondents to code 3 'No partner' in PARTLIV in hindsight.

/ TW: Code 3 has not been collected. Code 3 includes people who are divorced, widowed or have never been married but are not currently living with someone.

/ US: PARTLIV was recoded from POSSLQ and POSSLQY, each of which was asked to half of the ISSP sample. Both variables differ only in their second answer option: 'I am living as married and my partner and I together live in the same household' (POSSLQ)/ 'I have a steady partner, and we live in the same household' (POSSLQY). The US data does not request further partner information for respondents whose partners (as opposed to spouses) do not cohabit.

SPWORK - Spouse, partner: currently, formerly or never in paid work

BVQ_15. SPWORK

(If you have a spouse/ partner)

The next questions deal with the work situation of your spouse/ partner.

By work we mean doing income-producing work, as an employee, self-employed or working for his/ her own family's business, for at least one hour per week. If he/ she temporarily is not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., please refer to his/ her normal work situation.

Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

(Please tick one box only.)

AT: Derived from 'How many hours does your partner usually work every week including overtime?' and (If not working) 'Has your partner ever been employed?'.

AU: Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been paid work?

CH: Is your spouse/ partner currently working for pay or did he/ she work for pay in the past?

CN: What is the working experience or employment status of your spouse or partner?

CZ: Is your partner/ spouse currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work? If respondent is temporarily not working for pay (because of illness, leave, vacation etc.), he/ she shall respond as if asked under normal circumstances, when in paid work. Do not refer to persons on maternity/ parental leave as working for pay unless they are simultaneously working for pay at least one hour a week.

DE: Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

DK: Is your spouse/ partner currently employed? (Here we are thinking of main occupation: If your spouse/ partner is a student or a pupil with part-time or after-school job, please mark your spouse/ partner as student or pupil; Apprentices or students (with wage): Please note that there is a special response category for apprentices and students (with wage); If your spouse/ partner is retired or receives a retirement pension, please check these unless he/ she works part-time or more; Check the category housewife/ home duties only if your spouse/ partner does not belong to any of the other categories.) Has your spouse/ partner ever been employed?

FI: Is your spouse/ partner in paid work? Paid work is taken to include working as an employee, own-account worker, self-employed/ entrepreneur or working for your own family's business, for at least one hour a week. If your spouse/ partner is temporarily away from paid work because of parental or other leave, unpaid leave or some similar reason, please answer according to his/ her normal work situation.

FR: SPWORK is computed from EA variables. (Enquête Annuelle)

HR: Does your spouse/ steady partner is currently working for an income?

HU: Derived from 'Is your partner currently working/ retired?' and 'What is/ was your partner's (last) position or job?'.

IL: Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

IN: Is your partner/ spouse currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

IS: Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

IT: The next questions concern your spouse/ partner's work situation. By work we mean doing income-producing work, as an employee, self-employed or working for her/ his own family's business, for at least one hour per week. If your spouse/ partner temporarily is not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., please refer to her/ his normal work situation. Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work? My spouse/ partner...

JP: Is your spouse/ partner currently working for pay, for at least one hour per week? Circle one figure only.

MX: Is your spouse/ partner currently in paid work, had paid work in the past, or has never had paid work?

NL: Derived from 'What is at this moment the most important activity of your partner?' and 'In what type of organisation does/ did your partner

work? If your partner does not currently work, then please answer about his/ her last job.'

NO: Is your spouse/ partner, or has she/ he ever been, in paid work? We are interested in all kinds of work, even of just a few hours a week. Work for own family's business without a fixed salary counts as paid work.

NZ: Which one of these categories best describes your spouse's/ partner's current employment status? (If Unemployed and looking for a job/ Permanently sick or disabled/ Student/ Doing housework, looking after the home, children or others/ Retired) Has your spouse/ partner had paid work in the past?

PH: Is your spouse/ partner currently working for pay, did he/she work for pay in the past, or has he/ she never been in paid work?

PL: What is your wife's/ husband's/ partner's current job situation? Is she/ he currently... (Multiple answers possible)? Did your wife/ husband/ partner ever worked for pay for at least one year?

RU: (If married/ living together with partner (unmarried)/ living separately from partner (unmarried)/ living separated from spouse (but not divorced)) Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

SI: Does/ Did your partner have a paid job, or was he/ she never employed?

SK: Is/ was your spouse/ partner currently/ has ever been working for pay? (If partner/ spouse is on sickness leave, on maternal leave or similar but otherwise is employed (works) - use code 1 'He/ She is currently in paid work'.)

SR: Is your partner currently working for pay?

TH: The current working status of your spouse? ('Work' means doing income-producing work as an employee, self-employed, or working for own business, for at least 1 hour per week; if R's spouse temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike etc. refer to normal situation.)

TW: Is your spouse/ partner currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

US: Derived from 'Last week was your spouse/ [cohabitating] partner working full time, part time, going to school, keeping house, or what? If your spouse/ [cohabitating] partner was doing more than one of these last week, select the one closest to the top of the list.' and (If spouse/ [cohabitating] partner 'Retired', 'Going to school', 'Keeping house' or 'Other') 'Did your spouse/ [cohabitating] partner ever work for as long as one year?'

ZA: If you are married or have a partner, is he or she currently working for pay, did he/ she work for pay in the past, or has he/ she never been in paid work?

Answer categories:

- 1 Currently in paid work
- 2 Currently not in paid work, paid work in the past
- 3 Never had paid work

Variable code list:

- 1 Currently in paid work
- 2 Currently not in paid work, paid work in the past
- 3 Never had paid work
- 4 NAP (C. 3 or -7 in PARTLIV; US: C. 2 (if neither married nor cohabitating with partner), 3 in PARTLIV)
- 9 No answer

Note:

/ DK: The first question corresponds to the one of SPMAINST.

/ US: During the interview, respondents were asked the same question regardless of partner or spouse, with a screener to modify question text. The US data capture all spouse variables regardless of habitation status. In contrast, the US data only capture the variables of cohabiting partners, but not information from non-cohabiting partners.

/ US: Respondents with spouses/ [cohabitating] partners 'Unemployed, laid off, looking for work' were not asked whether their spouses/ [cohabitating] partners ever had a job for as long as one year. These cases were assigned to ISSP standard code 2 in SPWORK 'Currently not in paid work, paid work in the past'.

SPWRKHRS - Spouse, partner: hours worked weekly

BVQ_16. SPWRKHRS

How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime?

If he/ she works for more than one employer, or if he/ she is both employed and self employed, please count the total number of working hours that he/ she does.

(Please write in.)

On average, he/ she works _____ hours a week, overtime included.

AT: How many hours does your partner usually work every week including overtime? Occupational secondary activities should be considered as well. If he or she has more than one job, please report total working hours.

AU: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime?

CH: How many hours, on average, does/ did your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works/ worked for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does/ did. Enter an integer between 0 and 99.

CN: What is the employment status of your spouse or partner last week? In a typical week when your spouse or common-law partner is employed, how many hours does your spouse or common-law partner work, including overtime hours?

CZ: How many hours weekly, on average, does your partner/ spouse work in his/ employment employment and, if applicable, in his/ her other paid jobs, including overtime? Round to the nearest whole number of hours and enter the number in the box. If partner works for more than one employer, or if he/ she is both employed and self-employed, please count the total average weekly number of working hours.

DE: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does.

DK: How many hours does/ did your spouse/ partner normally work in a working week?

FI: How many hours on average does your spouse/ partner work in a week, including overtime? If he/ she has more than one employer or if he/ she is both employed and self-employed/ entrepreneur, include all hours.

FR: How many hours does he/ she usually work each week?

HR: How many hours does your partner usually work in a normal week, including overtime?

HU: How many hours, on average, does your spouse/ partner usually work for pay in a normal week? Please include overtime and any side jobs!

IL: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If the spouse works for more than one employer or if he/ she is also employed and self-employed, please indicate the total working hours he/ she works in addition.

IN: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? (If he/ she works for more than one employer or if he/ she is both employed and self-employed, please count the number of working hours that he/ she does.) (Can be asked 'daily', and result multiplied by 7/ 6/ 5.)

IS: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does.

IT: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does.

JP: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she has more than one job, count the total number of working hours that he/ she does. If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

MX: On average, how many hours a week does your spouse/ partner normally work, including overtime?

NL: Derived from 'How many hours per week does your partner work/ did your partner work on average in this job?' and 'In what type of organisation does/ did your partner work? If your partner does not currently work, then please answer about his/ her last job.'

NO: How many hours does your spouse/ partner normally work per week? Include overtime and work at home. Write hours per week: _____

NZ: How many hours does your spouse/ partner usually work in a week?

PH: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does. If he/she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/her normal work situation.

PL: On average, how many hours a week does your wife/ husband/ partner work at that job?

RU: How many hours, on average, does your spouse/partner usually work for pay in a normal week, including overtime?

SI: On an average week, how many hours does your partner work, including overtime?

SK: How many hours weekly does your spouse/ partner usually work for pay in a week, including overtime? (If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please count the total number of working hours that he/ she does.)

SR: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime?

TH: How many hours on average does your spouse usually work for pay in a week? Write _____ hours per week (if R's spouse works for more than one employer, or is both employed and self-employed, refer to main job).

TW: How many hours in total does your spouse (or your cohabitating partner) work per week, on average, including overtime?

US: (If working, full or part time) How many hours did your spouse/ [cohabitating] partner work last week, at all jobs?/ (If with a job, but not at work because of temporary illness, vacation, strike) How many hours a week does your spouse/ [cohabitating] partner usually work, at all jobs?

ZA: How many hours, on average, does your spouse/ partner usually work for pay in a normal week, including overtime?

Answer categories:

-8 Don't know

Variable code list:

1 One hour

89 89 hours; US: 89 or more hours

96 96 hours or more

-4 NAP (Code -4, 2 or 3 in SPWORK)

-6 IL: Invalid answers

-8 Don't know

-9 No answer

Note:

/ CH: In the paper questionnaire versions, this question was asked also of people whose partners had worked in the past (code 2 in SPWORK). These answers were removed for the ISSP variable SPWRKHRS.

/ DK: This question was also asked if respondent's partner/ spouse worked in the past (code 2 in SPWORK). These answers were removed for the ISSP variable SPWRKHRS.

/ IL: 141 respondents answered '96 hours or more', which is a very high number for this response option. As it is common practice in Israel to measure working time in terms of hours worked per month, some respondents may have incorrectly reported monthly working hours for their spouse/ partner instead of weekly working hours. In consultation with the national principal investigator, responses for code 96 were recoded to code -6 'Invalid answers' during data integration.

/ IS: Originally, the values included decimal numbers. The values were retrospectively rounded to whole numbers following the required ISSP standard for this variable.

/ NZ: Asked as free text.

/ PL: This question was also asked of spouses/ partners of respondents who had worked in the past (code 2 in SPWORK). Their answers were removed for the ISSP variable.

/ TW: This question was asked also if respondent's partner/ spouse worked in the past (code 2 in SPWORK). These answers were removed for the ISSP variable SPWRKHRS.

/ US: The US data capture all spouse variables regardless of habitation status. In contrast, the US data only capture the variables of COHABITING

partners, but not information from non-cohabiting partners.

SPEMPREL - Spouse, partner: employment relationship

BVQ_17. SPEMPREL

The next questions deal with some more details on your spouse's/ partner's work situation.

If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please refer to his/ her MAIN job.

If he/ she is retired or not currently working, please refer to his/ her LAST MAIN job.

Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

(Please tick one box only.)

.....

AT: Is your partner or was your partner...?

AU: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

CH: Is/ was your partner an employee, self-employed, or working for his/ her own family's business? If your partner is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or currently not working, please refer to his/ her last main job.

CN: Which of the following situation is most suitable to the employment status of your spouse or partner now? The number of employees employed by your spouse or common-law partner is:

CZ: What is/ was your partner/ spouse's economic status, main source of subsistence? If a partner is economically active ask about the main economic activity.

DE: Does/ did your spouse/ partner work as an employee, is/ was he/ she self-employed or does/ did he/ she work for the own family's business? He/ she is/ was...

DK: Is/ was your spouse/ partner in public or private employment, self-employed or employed in his/ her own family business?

FI: Is/ was your partner...? If your spouse/ partner has more than one employer or if he/ she is both employed and entrepreneur/ self-employed, answer according to his/ her main job. If he/ she is currently not in paid work or is retired/ pensioner, please answer according to his/ her last job. Own-account workers, freelancers and tradespeople are counted as self-employed.

FR: SPEMPREL is computed from EA variables. (Enquête Annuelle)

HR: Is/ Was your spouse or steady partner: employee, self-employed without employees (liberal professions, business owners), self-employed with employees, working for own family's business/ farm?

HU: Derived from 'Is your spouse/ partner currently working/ retired?' and 'What is/ was your partner's (last) position or job?' and 'How many employees/ subordinates does/ did your partner have?' and 'Is your spouse/ partner an employee of your own family business?'

IL: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

IN: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business? (If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job.)

IS: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

IT: The next questions deal with some more details on your spouse's/ partner's work situation. If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job. Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business? (By self-employed we mean also 'freelancers', 'independent professionals', and other respondents working on their own account. We consider as an employee anyone who receives a salary by someone else - even if the former is not formally an employee of the latter.)

JP: Is/ was your spouse/ partner an employee, self-employed, or working for your own family business? Circle one figure only.

MX: Is or was your spouse/ partner employed, self-employed or does/ did he/ she work in his/ her own family business/ enterprise?

NL: Derived from 'In what type of organisation does/ did your partner work? If your partner does not currently work, then please answer about his/ her last job.' and 'Does/ did your partner supervise others in this current/ last job? If yes, how many people work/ worked directly or indirectly under supervision of your partner?'

NO: Is/ was your spouse/ partner...?

NZ: What is/ was the nature of your spouse's/ partner's employment in that occupation?

PH: Is/ was your spouse/ partner an employee, self-employed, or working for his/her own family's business? If he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job.

PL: Derived from 'What is/ was the form of ownership of this place of work?' and 'Are/ were your wife/ husband self-employed (owner/ co-owner) of the firm/ farm, or an employee?' and 'How many people work/ worked in this company/ farm excluding your husband/ wife/ partner? If it is/ was a multi-plant enterprise, please provide number of employees of the unit where your husband/ wife/ partner works/ worked.'

RU: Derived from 'What type of enterprise, organisation does she/ he work for in her/ his main job (or were he/ she working for on the last main job)?' and '(If own business, farm, private enterprise, business with employees) 'How many people work(ed) for her/ him, not counting herself/ himself, but taking into account the family members?'

SI: Is/ was your partner employed (working for others), self-employed or works (worked) in his/ her own family business?

SK: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

SR: Derived from 'At what type of organization does/ did your partner work currently/ in his/ her last job?' and 'Does/ did your partner supervise other employees in his/ her current/ last job? If so, how many other employees does/ did he/ she supervise directly or indirectly?'

TH: Is your spouse an employee, self-employed or working for his/ her own family's business?

TW: Is/ Was your spouse (or your cohabitating partner) self-employed or an employee?

US: Derived from 'At this job, is/ was your spouse/ [cohabitating] partner self-employed or does/ did your spouse/ [cohabitating] partner work for someone else?' and '(If 'Self-employed') 'Does/ Did your spouse/ [cohabitating] partner work without employees or does/ did he/ she have employees?' and 'Does/ Did your spouse/ [cohabitating] partner work in his/ her own family business or farm?'

ZA: Is/ was your spouse/ partner an employee, self-employed, or working for his/ her own family's business?

Answer categories:

- 1 Employee
- 2 Self-employed without employees
- 3 Self-employed with 1 to 9 employees
- 4 Self-employed with 10 employees or more
- 5 Working for own family's business

Variable code list:

- 1 Employee
- 2 Self-employed without employees
- 3 Self-employed with 1 to 9 employees; SR: Self-employed with 1 to 11 employees
- 4 Self-employed with 10 employees or more; SR: Self-employed with 12 or more employees
- 5 Working for own family's business
- 6 HR, SK, US: Self-employed with employees, no numbers available
- 4 NAP (Code -4 or 3 in SPWORK; SR: Code -4, 2, 3 in SPWORK)
- 8 PL: Hard to say
- 9 No answer

Note:

/ CN: High number of missing values, as SPENPREL was only asked of respondents whose spouse or partner is currently in paid work, i.e. only in the case where their partner or spouse is engaged in non-agriculture work.

/ HR: For Croatia, there are no cases for codes 3 and 4 since the questionnaire missed the question about the number of employees if a respondent's spouse/ partner is/ was self-employed. Respondents whose spouse/ partner is/ was self-employed with employees were coded as code 6 'Self-employed with employees, no numbers available'.

/ SK: SPENPREL has been provided according to the former format for SPENPREL including the four categories 1 'Employee', 2 'Self-employed without employees', 3 'Self-employed with employees' and 4 'Working for own family's business', following the ISSP Guidelines in effect until ISSP 2018. Hence, for the self-employed respondents no information is available about their number of employees. They were encoded to code 6 'Self-

employed with employees; no numbers available'.

/ SR: The ranges in the numbers of employees for the self-employed partners, described in codes 3 and 4 in SPEMPREL, differ from the standard. Info for spouses/ partners currently not in paid work, paid work in the past (SPWORK=2) not available.

/ US: The US data capture all spouse variables regardless of habitation status. In contrast, the US data only capture the variables of cohabiting partners, but not information from non-cohabiting partners.

/ US: SPEMPREL was collected using the previous format for SPEMPREL that was mandatory until ISSP 2018. As a consequence, no information is available on the exact number of employees for the self-employed spouses/ partners. Spouses/ Partners working self-employed with employees are encoded to the extra code 6 'Self-employed with employees; no numbers available'.

SPWRKSUP - Spouse, partner: supervise other employees

BVQ_18. SPWRKSUP

Does/ did your spouse/ partner supervise other employees?

(Please tick one box only.)

.....

AT: Is it or was it one of the responsibilities of your partner to guide other employees or oversee their work?

AU: Does/ did your spouse/ partner supervise other employees?

CH: (If spouse/ partner not 'Self-employed without employees') Does/ did he/ she supervise other employees, either directly or indirectly? Do not count apprentices.

CN: In your spouse's or common law partner's current work, his/ her management activities are? How many people are managed?

CZ: Does (did) your partner supervise any employees in his/ her main job? It is necessary to count all the staff he/ she manages/ directs directly and indirectly if he/ she is responsible for their work. This includes staff managed by subordinates of the partner(s). If the partner is an entrepreneur, indicate the number of employees. Please note: teachers do not list their pupils, social workers their clients, etc. If the number of subordinates in a given job varies, indicate the highest number.

DE: Does/ did your spouse/ partner supervise other employees?

DK: Does/ did your spouse/ partner supervise or is/ was he/ she responsible for the work of others?

FI: Does/ did your spouse/ partner work in a supervisory position, i.e., does/ did he/ she have subordinates at work?

FR: Does or did he/ she supervise other persons?

HR: Does/ Did your spouse/ partner supervise the work of other people?

HU: Derived from 'How many employees/ subordinates does/ did your partner have?'

IL: Does/ did your spouse/ partner supervise other employees?

IN: Does/ did your spouse/ partner supervise other employees?

IS: Does/ did your spouse/ partner supervise other employees? Supervision is to be understood as a leadership function of monitoring and being responsible for the work of others.

IT: Does/ did your spouse/ partner supervise other employees? (Supervision is to be understood as a leadership function of monitoring and being responsible for the work of others.)

JP: Does/ did your spouse/ partner supervise other employees?

MX: Does the performance of the current job or the last one where your spouse/ partner worked include the supervision of other people's work?

NL: Derived from 'Does/ did your partner supervise others in this current/ last job? If yes, how many people work/ worked directly or indirectly under supervision of your partner?'

NO: Does/ did your spouse's/ partner's work imply supervising other employees, or deciding their work tasks?

NZ: In that occupation, does/ did your spouse/ partner supervise, or are/ were they responsible for, the work of any other people?

PH: Does/ did your spouse/ partner supervise other employees? If he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job.

PL: As an official part of your wife's/ husband's/ partner's main job, does/ did she/ he supervise the work of other employees or tell other employees what to do?

RU: Does/ did your wife/ husband/ partner supervise other employees? If so, how many employees does/ did she/ he supervise?

SI: Does / did your partner supervise anyone at work?

SK: Does/ did your spouse/ partner in his main job have subordinates or is/ was he/ she responsible for the work of others?

SR: Does/ did your partner supervise other employees in his/ her current/ last job? If so, how many other employees does/ did he/ she supervise directly or indirectly?

TH: Does/ Did your spouse supervise other employees? ('Supervision' is to be understood as a leadership function of monitoring and being responsible for the work of others. If the spouse's respondents work for more than one employer, or if he/ she is both employed and self-employed, please refer to the main job. If he/ she is retired or not currently working, please refer to the last main job.)

TW: Does/ Did your spouse (or your cohabitating partner) supervise other employees at his/ her job (or his/ her most recent job)?

US: (If spouse/ [cohabiting] partner currently in paid work) In your spouse's/ [cohabiting] partner's job, does he/ she supervise anyone who is directly responsible to him/ her?

ZA: Does/ did your spouse/ partner supervise other employees?

Answer categories:

-8 Don't know

1 Yes

2 No

Variable code list:

1 Yes

2 No

-4 NAP (Code -4 or 3 in SPWORK; SR, US: Code -4, 2, 3 in SPWORK)

-8 Don't know

-9 No answer

Note:

/ CH: As self-employed spouses/ partners without employees (SPEMPREL code 2) were filtered out, they are coded on code 2 in SPWRKSUP (no supervision) in retrospect.

/ CN: High number of missing values, as SPWRKSUP was only asked of respondents whose spouse or partner is currently in paid work, i.e. only in the case where their partner or spouse is engaged in non-agriculture work.

/ DK: Spouses/ partners working self-employed with employees were not asked about their supervising function resp. about being responsible for the work of others. Instead, they were encoded to code 1 'YES' in SPWRKSUP from the Danish ISSP team.

/ SR: Info for spouses/ partners currently not in paid work, paid work in the past (SPWORK=2) not available.

/ US: The US data capture all spouse variables regardless of habitation status. In contrast, the US data only capture the variables of cohabiting partners, but not information from non-cohabiting partners.

/ US: This question is only asked if spouse/ [cohabiting] partner is currently working.

SPISCO08 - Spouse, partner: occupation ISCO 2008

BVQ_19. SPISCO08

a. What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? His/ her occupation is/ was:

b. In his/ her main job, what kind of activities does/ did he/ she do most of the time? _____

c. What does/ did the firm/ organisation he/ she work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace? _____

(Please write in and describe as clearly as possible.)

.....

AT: What kind of occupation does your partner have? (If he or she has more than one job please consider the main job). Please tell me the exact name of the job.

AU: What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? In his/ her main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organisation he/ she work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace?

CH: What is/ was your partner's occupation? (OPEN on paper/ Web questionnaire: Please enter the first letters of his/ her main job name or title. An automatic list will be displayed allowing you to specify his/ her occupation. If there is no proposal that matches his/ her occupation, write the full name or title of his/ her main job). In his/ her main job, what kind of activities does/ did he/ she do most of the time?

CN: What is the specific job of your spouse or partner now? Name of the job

CZ: What is/ was the current/ last occupation of your partner, what kind of activity does/ did he/ she do in it? For self-employed persons, specify industry/ subject of activity. 1. Job title; 2. Job description; 3. Main activity of the organisation. If respondent states having (had) several occupations, ask about his/ her main job = the one in which the respondent spends the most hours.

DE: What work does your spouse/ partner do in his/ her main job? If he/ she is currently not working for pay, but had paid work in the past, please refer to his/ her last main job. Does this job, this work have a special name?

DK: State your spouse's/ partner's current or last job (the job title), and describe what his/ her main tasks are/ were in the workplace:

FI: What is your spouse's/ partner's current or latest occupation? Please write in his/ her job title as specifically and clearly as possible, ... Write in the job title, not qualification/ degree. What are/ were your spouse's/ partner's main activities at work? What does/ did the company or organisation for which your spouse/ partner works/ worked mainly do/ make?

FR: What is the occupation or last occupation of your spouse or partner?

HR: What is/ was the occupation of your spouse/ partner? Please state the exact job title and occupation of your spouse/ partner. Describe what he/ she does; what his/ her main tasks are. What are the educational and professional requirements for the job?

HU: What is/ was your spouse's/ partner's (last) position or job?

IL: What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? In his/ her main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organisation he/ she works/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace?

IN: What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? In his/ her main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organisation he/ she work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace?

IS: What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? In his/ her main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organisation he/ she work/ worked for mainly make or do - i.e., what kind of production/ function is/ was performed at his/ her workplace?

IT: What is/ was your spouse's/ partner's occupation - i.e., what is/ was the name or title of his/ her main job? Please describe it as clearly as possible. In his/ her main job, what kind of activities does/ did he/ she do most of the time? Please describe them as clearly as possible.

JP: Please give details about the main type of work your spouse/ partner is engaged in (e.g. bus driver, delivery worker, working at a construction site, car mechanic, working at a general affairs section in a municipal office, a Japanese teacher at junior high school, a salesperson of printing

equipment, working at a cashier desk of a supermarket, counter operations for a bank, computer programmer).

MX: Regarding your spouse's/ partner's current main occupation or his/ her last job, could you tell me...? (Description of his/ her position, main tasks or activities, equipment used and characteristics of the workplace.)

NL: What is/ was exactly your partner's job? (Also indicate his/ her most important tasks/ responsibilities.)

NO: What is/ was your spouse's/ partner's work title (main job)? Please make a short description of her/ his work tasks. What does/ did the organisation he/ she work/ worked for mainly make or do?

NZ: What is/ was your spouse's/ partner's main occupation?

PH: What is/ was your spouse's/ partner's occupation – i.e., what is/ was the name or title of his/ her main job? In his/ her main job, what kind of activities does/ did he/ she do most of the time? What does/ did the firm/ organisation he/ she work/ worked for mainly make or do – i.e., what kind of production/ function is/ was performed at his/her workplace? If he/ she works for more than one employer, or if he/ she is both employed and self-employed, please refer to his/ her main job. If he/ she is retired or not currently working, please refer to his/ her last main job.

PL: What kind of work does/ did your wife/ husband normally do? What is/ was her/ his job called? What does/ did your wife/ husband actually do in that job? What are/ were her/ his main duties? How is/ was your wife's/ husband's job title? What do/ did they produce, what services do/ did they provide, what is/ was the main profile of the work-place?

RU: What is/ was your spouse's or partner's occupation and in what position does/ did she/ he work at her/ his main job? What kind of activities does/ did she/ he do most of the time? What kind of activities is/ was her/ his department specialized in? Which goods are/ were mainly produced or sold, what services are/ were provided? That is - what functions does/ did she/ he perform in the workplace?

SI: What kind of work or occupation does your partner do? If not working at the moment: what was his/ her last (main) occupation?

SK: Please, write the name of the main occupation of your spouse/ partner. Include detailed description of his/ her working activity: what is/ was his/ her principal activity, responsibility etc. Use two or more words, exclude abbreviations. If he/ she is/ was self-employed or entrepreneur, please, specify the area of his/ her business.

SR: What is/ was your partner's occupation?

TH: What is your spouse's occupation? (Write in and describe spouse's occupation, main activities, and main function of spouse's workplace? Then, code 4-digit codes according to ISCO 2008.)

TW: What is your spouse's (or your cohabitating partner's) present occupation? a. Full name of the company _____, main product or service _____
b. Division _____, Position _____ Detailed job description _____.

US: What kind of work does/ did your spouse/ [cohabitating] partner normally do? That is, what is the job called?

ZA: What is/ was your spouse's/ partner's occupation (the name or title of his/ her main job)?

- 4 NAP (Code -4 or 3 in SPWORK)
- 6 NO: Answer to open-ended questions on SPISCO08 not retrievable for respondents of paper questionnaire
- 8 Don't know, inadequately described
- 9 No answer

Note:

/ CN: High number of missing values, as SPISCO08 was only asked of respondents whose spouse or partner is currently in paid work, i.e. only in the case where their partner or spouse is engaged in non-agriculture work.

/ DE: In order to protect individual respondents from data disclosure it was necessary to combine some original 4 digit-categories before data publication, thereby coarsening the information.

/ FR: French classification of the occupations and the socio-professional categories (PCS 2003) used, then transferred into ISCO 2008.

/ HR: It was an open-ended question which then was coded into ISCO08 codes by the research team.

/ NO: Data from the open-ended questions in the survey are missing for respondents who completed the survey on paper. The data material has been anonymized and therefore, this information is no longer retrievable (N=541 out of 728 respondents who answered the survey by paper).

/ NO: As source code, the Norwegian standard classification of occupations 2008 (STYRK-08) - based on the International Standard Classification of Occupations 2008 (ISCO-08) - has been used.

/ NZ: Asked as free text and coded manually to ISCO08.

/ SR: Open question, verbatim answers were coded into ISCO88, then transferred into ISCO08.

/ US: The US data capture all spouse variables regardless of habitation status. In contrast, the US data only capture the variables of cohabiting partners, but not information from non-cohabiting partners.

/ US: US Census 2010 codes recoded to ISCO08.

SPMAINST - Spouse, partner: main status

BVQ_20. SPMAINST

Which of the following BEST describes your spouse's/ partner's current situation?

If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

(Please tick one box only.)

AT: Predominantly, is your partner currently...?

AU: Which of the following best describes your spouse's/ partner's current situation?

CH: Which one of the following best describes your partner's current situation? If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation, etc., please refer to his/ her normal work situation.

CN: What was the reason that your spouse or partner did not work last week? Which of the following manner did your spouse or partner adopt for finding a job in the last three month? What is the working experience or employment status of your spouse or partner? What is the type of the work unit (or company) with which your spouse or partner are affiliated now?

CZ: Which of the following options best describes your partner/ spouse's job position? If partner is temporarily not working for pay (because of illness, leave, vacation etc.) respondent shall respond as if asked under normal circumstances, when in paid work.

DE: Which of the following best describes your spouse's/ partner's current situation? If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation. He/ She is...

DK: Is your spouse/ partner currently employed? (Here we are thinking of main occupation: If your spouse/ partner is a student or a pupil with part-time or after-school job, please mark your spouse/ partner as student or pupil; Apprentices or students (with wage): Please note that there is a special response category for apprentices and students (with wage); If your spouse/ partner is retired or receives a retirement pension, please check these unless he/ she works part-time or more; Check the category housewife/ home duties only if your spouse/ partner does not belong to any of the other categories.)

FI: Which of the following best describes your spouse's/ partner's current situation? If he/ she is temporarily away from paid work on account of parental or other leave, unpaid leave or some other similar reason, please answer according to his/ her normal work situation.

FR: SPMAINST is computed from EA variables. (What is the situation of your spouse or your steady partner in relation to work? Is your spouse currently on a Civic Service mission?)

HR: What is the work status of your spouse/ partner (which of following best describes his/ her current situation)?

HU: Derived from 'Is your partner currently working/ retired?' and (If employee) 'Is your spouse/ partner working in community service?' and (If pensioner) 'Your spouse/ partner is ...?' and (If student) 'Is your partner working as an apprentice or as a trainee?' and 'Is your spouse/ partner looking for a job?'

IL: Which of the following best describes your spouse's/ partner's current situation?

IN: Which of the following best describes your spouse's/ partner's current situation? (If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.)

IS: Which of the following best describes your spouse's/ partner's current situation? If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

IT: Which of the following best describes your spouse's/ partner's current situation? If he/ she temporarily is not working because of temporary illness/ parental leave/ vacation/ strike/ layoff etc., please refer to his/ her normal work situation.

JP: Which of the following best describes your spouse's/ partner's current situation? Circle one figure only. If your spouse/ partner temporarily is not working because of temporary illness/ parental leave/ vacation/ strike etc., please refer to his/ her normal work situation.

MX: What is the current situation of your spouse/ partner?

NL: What is at this moment the most important activity of your partner?

NO: What is your spouse's/ partner's current main activity? If she/ he is on sick leave, parental leave etc., refer to her/ his normal situation.

NZ: Which one of these categories best describes your spouse's/ partner's current employment status?

PH: Which of the following best describes your spouse's/ partner's current situation? If he/ she is temporarily not working for pay because of temporary illness/ parental leave/ vacation/ strike, etc., please refer to his/ her work situation.

PL: What is your wife's/ husband's/ partner's current job situation? Is she/ he currently... (Multiple answers possible)?

RU: Derived from 'Is your spouse/ partner currently working for pay? If no, did he/ she ever work?' and (If spouse/ partner is currently not in paid work/ never had paid work) 'What is your spouse's/ partner's main status?'

SI: What best describes your partner's current employment status? If he/ she is not working at the moment, because of an illness, maternity leave, strike ect., think of her/ his usual employment status.

SK: Which of these answers best describes your spouse's/ partner's current situation? If your partner is currently not working for pay because of maternal/ parental leave, illness, vacation or similar, please refer to his/ her normal work situation.

SR: What is currently your partner's main activity?

TH: Which of the following best describes your spouse's current situation?

TW: Does your spouse (or your cohabitating partner) currently have a job?

US: Last week was your spouse/ partner working full time, part time, going to school, keeping house, or what?

ZA: Which of the following best describes your spouse's/ partner's current situation?

Answer categories:

- 1 In paid work (as an employee, self-employed, or working for his/her own family's business)
- 2 Unemployed and looking for a job
- 3 In education (not paid for by employer), in school/student/pupil even if on vacation
- 4 Apprentice or trainee
- 5 Permanently sick or disabled
- 6 Retired
- 7 Doing housework, looking after the home, children or other persons
- 8 In compulsory military service or community service
- 9 Other

Variable code list:

- 1 In paid work
- 2 Unemployed and looking for a job
- 3 In education
- 4 Apprentice or trainee
- 5 Permanently sick or disabled
- 6 Retired
- 7 Domestic work
- 8 In compulsory military service or community service
- 9 Other
- 4 NAP (C. 3 or -7 in PARTLIV; US: C. 2 (if neither married nor cohabitating with partner), 3 in PARTLIV)
- 9 No answer

Note:

/ AT: Partners on parental leave are included in Code 9 'Other', i.e. respondents were not asked for their partner's 'normal work situation'.

/ AU: Category 8 'In compulsory military service or community service' not used.

/ CN: Category 4 'Apprentice or trainee' not used.

/ CZ: There is no compulsory military service or community service in the Czech Republic.

/ DE: Code 8 'In compulsory military service or community service' not asked (no compulsory military service).

/ FI: Finnish male nationals are required to do either military service or its alternative, civilian service.

/ FR: Category 8 includes 'In Civic Service'. Civic Service is a 6 to 12 months commitment to a mission for the community.

/ HR: Category 8 'In compulsory military service or community service' was omitted in the questionnaire because Croatia doesn't have compulsory military service or community service obliges.

/ HU: Category 8 'In compulsory military service or community service' not used.

/ IS: Category 8 'In compulsory military service or community service' not used.

/ IT: Category 8 ('In compulsory military service or community service') was omitted because there is no such thing as compulsory military or community service in Italy.

/ NL: Code 8 'In compulsory military service or community service' not used.

/ NZ: Code 8 'In compulsory military service or community service' and code 9 'Others' not used.

/ PL: Multiple choice question – respondent's spouse/ partner can work and at the same time be retired, work and study, etc. In case there were multiple answers, coded in the way that in a case of two codes indicating SPMAINST the priority was given to answers coded by lower codes over answers coded by higher codes.

/ PL: Code 8 'In compulsory military service or community service' not used.

/ SI: Code 8 'In compulsory military service or community service' not used.

/ SK: Code 8 'In compulsory military service or community service' not asked.

/ US: The US data capture all spouse variables regardless of habitation status. In contrast, the US data only capture the variables of cohabiting partners, but not information from non-cohabiting partners.

/ US: Code 4 'Apprentice or trainee' and code 8 'In compulsory military service or community service' were not used in the US data. Code 5 'Permanently sick or disabled' was coded from verbatim responses given in 'Other (Specify)' - no cases for this code in the 2021 data from the US.

/ ZA: Code 8 includes 'In community service' and refers to an individual who works for an organization such as a Non-Profit or Non-Government Organisation with no pay or remuneration; for example, an individual might be providing care for the elderly or children in the community. They may also assist in cleaning the community to ensure a cleaner and safer environment.

ATTEND - Attendance of religious services

BVQ_23. ATTEND

Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

(Please tick one box only.)

.....

AT: How often do you attend religious services in general?

AU: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

CH: Apart from special occasions as weddings, funerals, etc., how often do you attend religious services?

CN: How often do you participate in religious activities?

CZ: Apart from such special occasions as funerals or weddings, how often do you attend religious services?

DE: In general, how often do you attend religious services? Please do not count special occasions as weddings or funerals.

DK: How often do you attend religious services apart from special occasions such as weddings, funerals etc.?

FI: Apart from weddings, funerals etc., how often do you attend worship services, church ceremonies or religious services?

FR: Except the marriages, the funerals and the baptisms, how often do you attend a religious cult?

HR: Apart from special occasions like weddings, funerals and so on, how often do you attend religious services?

HU: How often do you go to mass, worship, church?

IL: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

IN: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

IS: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

IT: Now think about your present situation. Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services? ('Religious services' refer to situations where an organized group of people pray, e.g. the mass for the Catholic, the Friday worship at the Mosque for the Muslim, the Saturday worship at the synagogue for the Jewish, etc. 'Mass and religious services' do not include private prayers, made at home or elsewhere.)

JP: How often do you attend a place of worship or prayer? Circle one figure only. Exclude ceremonial occasions, such as wedding or funerals.

MX: Apart from special occasions such as weddings, funerals, etc., how often do you attend mass or religious services?

NL: How often have you on average during the past year experienced a celebration of service of a religious community? (Special occasions like a wedding or funeral do not count.)

NO: How often do you attend religious services or other religious meetings?

NZ: Apart from for weddings, funerals or tangi, and baptisms, how often do you attend religious services now?

PH: Apart from such special occasions as weddings, funerals, etc., how often do you attend religious services?

PL: How often do you attend mass and religious services?

RU: Do you attend religious services, and if yes, how often?

SI: If not counting special occasions such as weddings, funerals... how often do you attend religious services?

SK: How often do you participate in religious services (such as masses and church services)?

SR: How often did you attend religious services in the past years? (Not counting special events such as weddings and funerals.)

TH: Apart from such special occasion as wedding, funerals, how often do you attend religious services?

TW: How often do you participate in any religious group at present? (e.g., pilgrim group, practicing Zen, Sunday service, spirit-cultivation meeting, volunteer work, etc.)? Please answer this question regardless of whether you have a religious belief or not.

US: How often do you attend religious services?

ZA: Apart from special occasions such as weddings, funerals and baptisms, how often do you attend services or meetings connected with your religion?

Answer categories:

- 8 Don't know
- 7 Refused
- 1 Several times a week or more often
- 2 Once a week
- 3 2 or 3 times a month
- 4 Once a month
- 5 Several times a year
- 6 Once a year
- 7 Less frequently than once a year
- 8 Never

Variable code list:

- 1 Several times a week or more often
- 2 Once a week
- 3 2 or 3 times a month
- 4 Once a month
- 5 Several times a year
- 6 Once a year; CH, HU, US: Once or twice a year
- 7 Less frequently than once a year
- 8 Never
- 7 Refused
- 8 Don't know
- 9 No answer

Note:

/ CN: The original answer scale was a reversed 9-point-scale with the answer options 1) Never, 2) No more than once a year, 3) Once or twice a year, 4) Several times a year, 5) Once a month, 6) Two or three times a month, 7) Almost every week, 8) Every week, and 9) Several times a week. The scale has been recoded to match the ISSP standard. Observations for the original answer categories 7 and 8 were merged into the harmonized category 2 'Once a week'.

/ HU: The answer scale indicated in the questionnaire started with code 8 'Never' and ran to code 1 'Several times a week'. Code 6 read 'Once or twice a year'.

/ IL: Israel used a 9-point scale with separate categories each for 'Once a day or more' and for 'Several times a week or more'. Answers to these two categories were merged to the ISSP standard category 1 'Several times a week or more often (incl. every day, several times a day)' to meet the ISSP standard.

/ NO: In ISSP 2021, the request 'Do not include weddings, funerals, baptisms or similar' following the main question was left out, so it might not be directly comparable to previous years. As it is also difficult translating the term 'more often' in code 1 'Several times a week or more often' in Norwegian, it was landed on just using the first part of the phrase 'Several times a week'.

/ PL: A reversed 9-point answer scale was used with the response options 1) Never, 2) Less than once a year, 3) About once or twice a year, 4) Several times a year, 5) About once a month, 6) 2-3 times a month, 7) Nearly every week, 8) Every week, 9) Several times a week. ATTEND was recoded to the ISSP standard with answers from two original response options (codes 6 + 7) to ISSP standard code 3 '2 or 3 times a month'.

/ US: The original answer scale was a reversed 9-point-scale with the answer options 0) Never, 1) Less than once a year, 2) About once or twice a year, 3) Several times a year, 4) About once a month, 5) 2-3 times a month, 6) Nearly every week, 7) Every week and 8) Several times a week. Responses to the original answer options have been recoded to match the ISSP standard. Observations for the original answer category 6) Nearly every week were encoded to ISSP code 3 '2 or 3 times a month'.

TOPBOT - Top-Bottom self-placement

BVQ_24. TOPBOT

In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom.

Below is a scale that runs from the top to the bottom.

Where would you put yourself on this scale?

(Please tick one box only.)

AT: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Here you see a scale that runs from the top to the bottom. Where would you put yourself on this scale? 1 means 'bottom' and 10 means 'top'.

AU: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale which runs from top to bottom. Where would you put yourself on this scale?

CH: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from top to bottom. Where would you put yourself on this scale?

CN: What level do you think you belong to now? Note: '10' stands for the highest class and '1' stands for the lowest class.

CZ: Not asked.

DE: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you place yourself on this scale?

DK: On a scale from 1 to 10, 1 being the bottom of society and 10 being the top, where would you place yourself?

FI: There are different classes in our society. Some classes are towards the top and others towards the bottom. Where would you put yourself on a scale where 10 means the top and 1 the bottom?

FR: In our society, there are groups which are rather at the top of the society and the others which are rather below. Here is a scale which runs from top to bottom. Where do you think you stand on this scale?

HR: In our society there are groups of people that hold higher or lower social position. Where would you locate yourself on the scale, that ranges from 10 (top) to 1 (bottom)?

HU: In Hungary, there are people of higher and lower social status. Imagine a ladder with ten rungs, the top rung representing people of the highest social status and the bottom rung representing the lowest. Where would you place yourself on this ladder now?

IL: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

IN: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

IS: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

IT: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Where would you put yourself on the scale below?

JP: If current Japanese society were divided into 10 strata (1 being the lowest, and 10 being the highest), to which stratum do you think you belong? Circle one figure only.

MX: If we were to classify Mexican families according to their standard of living on a scale from 1 to 10, where at level one would be the poorest families and at level 10 the richest families in the country. On that scale, on which level would you place your family?

NL: There are groups that stand approximately at the top of our society, but there are also groups that find themselves approximately at the bottom. Here, you see a ladder with ten steps. Where do you place yourself on the ladder?

NO: In Norway, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

NZ: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

PH: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale?

PL: In our society there are social groups that occupy higher positions and others that occupy lower positions. Below is a scale that runs from top to bottom. Where would you put yourself on this scale?

RU: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from the top to the bottom. Where would you put yourself on this scale if '10' means the highest social position and '1' - the lowest social position?

SI: In our society, there are groups of people, which are close to the top and groups that are close to the bottom. Here is a scale, which goes from top to bottom. Where on this scale would you put yourself?

SK: In our society there are people who have a higher position but there are also people who are closer to lower positions. The enclosed scale is arranged from top (code 10) to bottom (code 1). Where would you put yourself on this scale?

SR: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a ladder with ten steps. Where would you put yourself on this scale?

TH: In our society, there are groups which tend to be towards the top and groups which tend to the bottom. Where would you place yourself on this scale?

TW: In our society, there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale that runs from top to bottom. Where would you put yourself now on this scale?

US: Not asked.

ZA: In our society there are groups which tend to be towards the top and groups which tend to be towards the bottom. Below is a scale which runs from top to bottom. Where would you put yourself now on this scale?

-1 CZ, US: Not available

-8 Don't know

-9 No answer

Note:

/ CZ: The Czech survey mistakenly included v61 from ISSP 2019 ("Which social class would you say you belong to?") instead of the TOPBOT question.

Therefore, there is no Czech data available for this variable.

/ HU: In the Hungarian questionnaire, a horizontal rather than a vertical scale was used, starting with the lowest rather than the highest category on the left.

/ MX: No vertical but horizontal scale used (with richest on the left and poorest on the right).

/ US: TOPBOT was inadvertently excluded from the questionnaire for the ballot of the GSS which included the ISSP Health and Healthcare module.

VOTE_LE - Did respondent vote in last general election?

BVQ_25. VOTE_LE

Some people don't vote nowadays for one reason or another. Did you vote in the last [country] national election in [month/ year]?

(Please tick one box only.)

AT: Have you participated in the previous Austrian national elections in September 2019?

AU: Did you vote in Australia's federal election in May 2019?

CH: Some people don't vote nowadays for one reason or another. Did you vote in the last national election in October 2019?

CN: Did you vote in the last neighborhood committee/ village committee election?

CZ: On the 8th and 9th of October 2021 there were elections to the Chamber of Deputies. Did you vote in these elections?

DE: Do you hold the German citizenship? (If yes) The last federal election took place in September 2017. Did you vote in that election?

DK: Did you vote in the previous election on the 5th of June 2019, or were there some reason that you didn't have the opportunity to or the desire to vote?

FI: Some people do not vote nowadays for one reason or another. Did you vote in the last parliamentary election in April 2019?

FR: Did you vote in the first round of the 2022's French Presidential Election?

HR: Some people do not vote on parliamentary elections for different reasons. Did you vote on the last parliamentary elections held in July 2020?

HU: Did you participate in the last parliamentary election in April 2018?

IL: Some people do not vote in elections for one reason or another, did you vote in the last Knesset elections that were held in November 2022?

IN: Some people don't vote nowadays for one reason or another. Did you vote in the 2019 Lok Sabha election held in April-May?

IS: Some people don't vote nowadays for one reason or another. Did you vote in the last Icelandic national election in September 2021? (... Icelandic national election in October 2017?, see note).

IT: Did you vote in the last national election (25 September 2022)?

JP: Did you vote in the last Japanese House of Representatives election in October 2021?

MX: Did you vote in the last federal elections of 2021?

NL: Did you vote during the last second chamber elections, on 15-17 March 2021?

NO: Did you vote in the last parliamentary election in 2021?

NZ: Derived from 'For which party did you cast your party vote at the 2020 General Election?'

PH: Some people don't vote nowadays for one reason or another. Did you vote in the last Philippine national election in May 2016?

PL: Did you vote in the elections to the Sejm and Senate in October 2019?

RU: Did you vote in the State Duma elections on September, 2021?

SI: Some people don't vote for different reasons. Did you or did you not vote on last national elections (June 2018) for parliament?

SK: Did you vote in the last parliamentary elections in February 2020?

SR: Some people don't vote nowadays for one reason or another. Did you vote in the last national election on May 25, 2020?

TH: Some people don't vote for one reason or another. Did you vote in the last national election on March 24, 2562 [March 24, 2019 A.D.]?

TW: For the presidential election in January of 2020, did you go to vote? Who did you vote for?

US: In 2020, you remember that Joe Biden ran for President on the Democratic ticket against Donald Trump for the Republicans. Do you remember for sure whether or not you voted in that election?

ZA: Some people don't vote nowadays for one reason or another. Did you vote in the last South African national election in 2019?

Answer categories:

-7 Refused

-4 I was not eligible to vote in the last election

1 Yes, I did vote

2 No, I did not vote

Variable code list:

1 Yes

2 No

-4 Not eligible to vote in last election

-7 Refused

-8 FR: Don't know; NZ: Don't know / Can't remember

-9 No answer; PL: No answer + Don't remember

Note:

/ IS: The above wording is from the web version of the questionnaire which majority of the respondents answered. An error occurred in the paper version of the Icelandic questionnaire, where the year 2017 appeared instead of 2021.

/ NZ: Answer option 'I was not eligible to vote' was encoded to -4 'NAP, not eligible to vote in last election' in VOTE_LE and answer option 'I chose not to vote' to VOTE_LE code 2 'No'.

/ PL: Code -4 includes people who were under 18 years of age on election day.

/ TW: Code -4 'Not eligible to vote at last election' includes 'R under 20 years old at that time' and 'R 20 years old or older at the time but did not have the right to vote for the President'.

Note:

/ CH: Information about the parties in Switzerland in ISSP 2021:

The last national elections were in 2019 and the categories were adjusted accordingly. Compared to ISSP 2019, three parties were removed from the list: 'Christian Social Party', 'Swiss Democrats', and 'Movement of the citizens of French-speaking Switzerland'. For Swiss standards, there are massive shifts in the 2019 parliamentary elections. Carried along by the new 'Green wave' in Europe, the left and right ecological parties (Green Party and Green Liberal Party) are the resounding winners of the 2019 parliamentary elections. The Swiss People's Party instead loses many votes and a big number of seats in the National Council.

Swiss People's Party ==> Right, conservative

Founded in 1936 from an association of farmers and artisans, this party became more and more populist, especially its right wing. Since the 1990's, they adopted certain anti-foreigner positions from the far-right. In terms of share of total votes, they form the biggest Swiss party, while they are outreached by the Christian Democrats and the 'FDP.The Liberals' in terms of membership. Since 2016, they are represented with two members in the Federal Council (national government). After achieving their best result ever in the 2015 national elections with a share of total votes of 29.4 %, the party is the big loser in the 2019 national elections and has to give up 13 seats in the National Council. They form their own faction in an alliance with the Lega (1 Seat) and the Federal Democratic Union in a resulting total of 55 seats in the National Council (total: 200 seats). In the Council of States they've gained 6 out of 46 seats.

Social Democratic Party (= social democrats) ==> Centre-left

As a merge of several cantonal workers' parties, the socialist/ socialdemocratic Party has been founded in 1888. It is currently the most pro-european party in Switzerland. It ranks fourth in terms of membership, but is the second biggest party in terms of votes and seats (39) in the National Council. There, they form their own faction. In the Council of States they are represented with 9 seats.

FDP. The Liberals ==> Right, conservative

After some years of political alliance between the Radicals and the much smaller Liberal Party, in January 2009, they merged to form the new party 'FDP.The Liberals'. The former FDP was founded in 1894, growing out of the liberal, radical and democratic movements that dominated the first decades of the federal state. The Liberal Party as well has roots going back as far as in the 19th century and was developed mainly in French-speaking Switzerland. Very much like its precursors, 'FDP. The Liberals' relies on classical liberalism. It has two members in the Federal Council and 29 seats in the National Council. With a number of 120'000, it has by far the most members of all Swiss parties.

FDP.The Liberals too, they form their own faction in the National Council and are assigned 12 seats in the Council of States.

Christian-Democratic People's Party ==> Centre-right, conservative

This party has been founded by conservative Catholics, who lost the short civil war of 1847. Nevertheless, they are currently also present in Protestant cantons, with more eccentric positions. They claim for a social market economy. It is the second largest party in terms of membership, but the smallest of the four-party coalition government. Together with the Evangelical People's Party and the Conservative Democratic Party they form the third largest faction (44 seats), in which they hold 38 seats. In the Council of States they are assigned 13 seats.

Conservative Democratic Party of Switzerland ==> Centre right

The Conservative Democratic Party was created in November 2008 as a split of the Swiss People's Party. The Swiss People's Party (UDC, SVP) becoming more and more populist, a fraction of this party split from it, creating the more moderate 'Conservative Democratic Party of Switzerland'. They put forward conservative values and economic liberalism. In the 2019 parliamentary elections, the party loses 6 of its nine seats in the National Council and also its only seat in the Council of States. In the National Council, the party forms a faction together with the Christian-Democratic People's Party and the Evangelical People's Party, in which they hold 3 seats.

Green party ==> Left, centre left

Born from the environmental movement, this party was founded in 1983 and gained strength throughout the 1980s. It is the strongest party not represented in the national executive government. In the 2019 parliamentary elections, the Green party gains a historic number of 17 seats, outpaces the Christian-Democratic People's Party and is now the fourth strongest party. Never since 1919 has a party gained so many seats in a single election. They currently hold 28 seats in the national parliament and form a faction together with the Swiss labour party (1 seat) and Solidarity (1 seat). In the Council of States they are represented with 5 seats.

Green liberal party ==> Centre, liberal

Founded in 2007, they immediately won a seat in the Council of the states and three in the National Council. Since then, they successfully expanded in the cantonal elections. Sharing the idea of environmentalism with the Green Party, its party program differs strongly with respect to regulation of the economy. It aims to combine moderate economic liberalism, liberalism on civil liberties and environmental sustainability. Just like the Green party, the Green-Liberals also gain many seats in the 2019 elections. They are now represented with 16 seats in the National Council and form their

own faction.

Evangelical People's Party ==> Centre

Founded in 1919, this small protestant party stands rather centre-left on some issues (redistribution, education, immigration, environment), but is conservative on others (abortion, family, euthanasia). The economic position is centrist. Alliance with the Christian Democrats, being in the same faction at the national level.

Federal Democratic Union ==> Far right

The Christian, national-conservative Federal Democratic Union lost their only seat in parliament in the 2011 elections, while they won two seats in the 2003-election and one in 2007. They stand for value-oriented, biblical positions and strongly refuse European integration of Switzerland.

Lega dei Ticinesi ==> Far right

Founded in 1991, this populist party refers to the model of the Italian Lega Lombarda. It defends national conservative and isolationist positions and is one of the major parties in the Canton Ticino. With one seat in the National Council they belong to the Swiss People's Party faction.

Swiss labour party ==> Far left

This party was founded in 1944 by the illegal Communist Party of Switzerland. They have one seat in the National parliament and belong to the Faction of the Green party.

Solidarity ==> Far left

Solidarity is an anticapitalist, ecologist and feminist party, present in French-speaking Switzerland, in the cantons of Geneva, Vaud, Neuchâtel and Fribourg, as well as in the German Swiss canton of Basel. Solidarity refers to the anticapitalist, ecologist and feminist left. The organization advocates a revolutionary transformation of the society based on socialist bases and democratic values. The party invests a lot into social movements; its members militate actively in labor unions, in diverse associations of the labor movement, in anti-globalization movement and are active in many other activities in relation with the class struggle. In Switzerland, Solidarity is a party associated with the Labour party (POP-PST) and the electoral coalition Ensemble à gauche (EaG).

IS_PRTY - Country specific party voted for in last general election: Iceland

IS_PRTY - Iceland: Party voted for in last election

Thinking back to the last general election in September 2021 (...October 2017, see note).

Which party did you vote for?

- Responsible Future - Ábyrg framtíð (Y)
- People's Party - Flokk fólksins (F)
- Liberal Democratic Party - Frjálslynda lýðræðisflokkinn (O)
- Progressive Party - Framsóknarflokkinn (B)
- Centre Party - Miðflokkinn (M)
- Pirate Party - Pírata (P)
- Social Democratic Alliance - Samfylkinguna (S)
- Independence Party - Sjálfstæðisflokkurinn (D)
- Icelandic Socialist Party - Sósíalistaflokk Íslands (J)
- The Reform Party - Viðreisn (C)
- Left-Green Movement - Vinstri hreyfinguna - grænt framboð (V)
- Other party, which one? _____

Variable code list:

- 1 Socialist Party of Iceland - Sosialistaflokkur islands (J)
- 4 Peoples Party - Flokkur fólksins (F)
- 5 Progressive Party - Framsoknarflokkurinn (B)
- 6 Centre Party - Midflokkurinn (M)
- 7 Pirate Party - Piratar (P)
- 8 Social Democratic Alliance - Samfylkingin (S)
- 9 Independence Party - Sjalfstaedisflokkurinn (D)
- 10 The Reform Party - Vidreisn (C)
- 11 Left-Green Movement - Vinstri hreyfingin/ graent frambod (V)
- 14 Peoples Party - Flokkur fólksins (F), 2017
- 15 Progressive Party - Framsoknarflokkurinn (B), 2017
- 17 Pirate Party - Piratar (P), 2017
- 18 Social Democratic Alliance - Samfylkingin (S), 2017
- 19 Independence Party - Sjalfstaedisflokkurinn (D), 2017
- 20 The Reform Party - Vidreisn (C), 2017

- 96 Invalid ballot
- 2 NAP, other countries
- 4 NAP (Code 2, -4, -7 in VOTE_LE)
- 7 Refused
- 9 No answer

Note:

/ IS: The above question wording is from the web version of the questionnaire. An error occurred in the paper version of the Icelandic questionnaire, where the year 2017 appeared instead of 2021. 29 people answered the paper version, some may have answered according to 'last elections' as the question indicates, and some may have answered according to the elections held in 2017. Majority of those who answered the paper list are older

people (mean=74,3; median=74) who may be less likely to change voting habits and majority of them voted for the two oldest and most established political parties. Therefore, it is probable that if people were answering according to how they voted in 2017 that majority of them voted in the same way in 2021. However, new codes were added in the data for the paper list responses: 14 'Flokkur fólksins (Peoples Party (F), 2017)'; 15 'Framsóknarflokkurinn (Progressive Party (B), 2017)'; 17 'Píratar (Pirate Party (P), 2017)'; 18 'Samfylkingin (Social Democratic Alliance (S), 2017)'; 19 'Sjálfstæðisflokkurinn (Independence Party (D), 2017)'; 20 'Viðreisn (The Reform Party(C), 2017)'; 21 'Vinstri hreyfingin - grænt framboð (Left-Green Movement (V), 2017)':

IT_PRTY - Country specific party voted for in last general election: Italy

IT_PRTY - Italy: Party voted for in last election

Thinking about the last national elections of 25 September 2022, which party did you vote for in the election of the Chamber of Deputies?

- Brothers of Italy - Fratelli d'Italia (Giorgia Meloni)
- League - Lega (Salvini Premier)
- Go Italy - Forza Italia (Berlusconi Presidente)
- Calenda (Action + Italy Alive) - Calenda (Azione + Italia Viva)
- 5 Star Movement - Movimento 5 Stelle
- Democratic Party - Partito Democratico
- More Europe - +Europa (Emma Bonino)
- Italexit - Italexit (Gianluigi Paragone)
- Green-Left Alliance (Green Europe + Italian Left) - Alleanza Verdi Sinistra (Europa Verde + Sinistra Italiana)
- Civic Commitment - Impegno Civico (Luigi Di Maio)
- Other party
- Blank or invalid ballot

Variable code list:

- 1 Brothers of Italy - Fratelli d'Italia (Giorgia Meloni)
- 2 League - Lega (Salvini Premier)
- 3 Go Italy - Forza Italia (Berlusconi Presidente)
- 4 Calenda (Action + Italy Alive) - Calenda (Azione + Italia Viva)
- 5 5 Star Movement - Movimento 5 Stelle
- 6 Democratic Party - Partito Democratico
- 7 More Europe - +Europa (Emma Bonino)
- 8 Italexit - Italexit (Gianluigi Paragone)
- 9 Green-Left Alliance (Green Europe + Italian Left) - Alleanza Verdi Sinistra (Europa Verde + Sinistra Italiana)
- 10 Civic Commitment - Impegno Civico (Luigi Di Maio)
- 95 Other party
- 96 Invalid ballot
- 2 NAP, other countries
- 4 NAP (Code 2, -4, -7 in VOTE_LE)
- 7 Refused
- 9 No answer

Note:

/ IT: In the interviews conducted before 25 September 2022, the question asked read: 'Thinking about the next national elections of 25 September 2022, which party are you going to vote for in the election of the Chamber of Deputies?'. In the final data from Italy, there was just one respondent who was asked this question (original answer to IT_PRTY=-9 'No answer'). During the data preparation, this case was kept to code -9 'No answer' in IT_PRTY (and PARTY_LR).

- 2 NAP, other countries
- 4 NAP (Code 2, -4, -7 in VOTE_LE)
- 7 Refused
- 8 Don't know/ Can't remember
- 9 No answer

Note:

/ PH: Philippine politics generally has a weak party system, it is personality driven. The leaders are directly elected and not due to their party

affiliations. A particular party is only elected if it's for the party list representation in the Lower House of Congress (but even this normally gets low turnouts among voters). This is the reason why normally voters don't even recall the party affiliation of the leader they just elected.

ZA_PRTY - Country specific party voted for in last general election: South Africa

ZA_PRTY - South Africa: Party voted for in last election

Not asked.

Variable code list:

-1 Not available

-2 NAP, other countries

Note:

/ ZA: The survey was fielded close to the election period so the question on party vote was a very sensitive question. Therefore, another question was used instead, a question which asks the respondents of how close they feel to a specific party. However, this question is different from the ISSP standard and therefore not included here.

ZA_PRTY

Value	Label	Missing	Count	Percent	Valid Percent
-2	NAP, other countries	M	41720	93,6	
-1	Not available	M	2829	6,4	
	Sum		44549	100,0	0,0
	Valid Cases		0		

PARTY_LR - Party respondent voted for in last general election: left-right scale

Party R voted for in last general election: left/ right scale

The aim of this variable is to assess the ideological position of the political party the respondent has voted for (as measured by nat_PRTY), placed on an ideological left-right continuum by expert judgment on party positions.

Variable code list:

- 1 Far left (communist, etc.)
- 2 Left / center left
- 3 Center / liberal
- 4 Right / conservative
- 5 Far right (fascist, etc.)
- 6 Other; PH also: no party affiliation
- 96 Invalid ballot
- 1 Not available (CN, SR, TW, ZA)
- 4 NAP (Code 2, -4, -7 in VOTE_LE)
- 7 Refused
- 8 Insufficient information to code into scheme
- 9 No answer

Note:

/ PH: Philippine politics generally has a weak party system, it is personality driven. The leaders are directly elected and not due to their party affiliations. A particular party is only elected if it's for the party list representation in the Lower House of Congress (but even this normally gets low turnouts among voters). This is the reason why normally voters don't even recall the party affiliation of the leader they just elected.

/ SR: Not applicable in Surinamese politics.

/ TW: This kind of party affiliation (left-right) does not fit for Taiwan's political situation.

AT_ETHN1 - Country specific ethnic group 1: Austria

BVQ_27. nat_ETHN1+2

Please indicate which of the following group or groups you consider yourself to belong to.

(Please select one or two groups only.)

[Closed list of country-specific ethnic groups plus open 'other' option, use multiple-response format for up to two responses.]

COMMENT ON nat_ETHN1+2: The aim of these variables is to capture the respondent's self-assessed affiliation with one or two particular ethnic groups. In case the respondent uses the opportunity to name two ethnic groups he/ she feels affiliated with, there is no ranking implied between the two responses.

.....

ZA_ETHN1 - Country specific ethnic group 1: South Africa

ZA_ETHN1 - South Africa: Country specific ethnic group 1

What is your race group?

- Black African
- Coloured
- Indian / Asian
- White
- Other (specify)

Variable code list:

- 1 Black African
- 2 Coloured
- 3 Indian / Asian
- 4 White
- 5 Other
- 2 NAP, other countries

Note:

/ ZA: Given the apartheid history in South Africa, the race categorization of White, Black African, Indian and Coloured is very commonly understood in South Africa. This is the most common variable used to categorise various the races. Among the African people there are various tribes, and the most common way - although this is seldom used - to ethnize the African group would be to use the African language that they speak, i.e. Sesotho, Setswana, Sepedi, Siswati, IsiNdebele, IsiXhosa, IsiZulu, Xitsonga, Tshivenda. In terms of the White groups (Europeans) it is fairly uncommon to ask origin country and the only further distinction is again based on language that is the Afrikaans speakers and the English speakers. Coloured people and the Indian population are generally treated as a homogenous group with no further distinction.

HOMPOP - How many persons in household

BVQ_28. HOMPOP

Including yourself, how many people - including children - usually live in your household?

Adults of 18 years and older _____

Children between [school entry age] to 17 years of age _____

Children below [school entry age] _____

This makes a total of how many people? _____ -> HOMPOP

(Please write in.)

COMMENT ON HOMPOP: Depending on interview mode, different options for presenting the questions BVQ_28.-BVQ_31. would be preferable. One option is a household grid that can easily be presented in self-administered modes. In a face to face interview, the interviewer has the chance to ask for the different groups of household members separately and discuss possible inconsistencies, so the above mentioned grid can be broken up into individual questions.

.....

AT: How many persons live in your household (including yourself)?

AU: Including yourself, how many people - including children - usually live in your household? This makes a total of how many people?

CH: Now please think about the people who regularly live in your household. Including yourself, how many people in total usually live in your household? Enter an integer between 0 and 99.

CN: What is the relationship between these family members and you? Is he/ she living with you at present?

CZ: Including yourself, how many people live in your household? By household we mean people who live in the same apartment or family house and who share resources. Write the number of members: Write out the answer. We ask about all household members, including those under 18.

DE: How many people are living in your household, including yourself? Please also count toddlers and persons who regularly live here but are currently absent, e.g. in hospital or on holiday. Please tick or enter the number of persons: __ Only myself / In total _____ persons

DK: How many people live in your household (including yourself)? Please write how many there are in the different age groups. d) This gives in total how many people? Number: _____

FI: Including yourself, how many people usually live in your household? a) Altogether: _____ persons

FR: How many persons live in your household, including yourself? This makes a total of: _____

HR: Including you, how many persons (including children) live in your household? Total:

HU: In total, how many people live in your household with you? _____ persons.

IL: d) How many people in total, including yourself, usually live in your household?

IN: Including yourself, how many people - including children - usually live in your household?

IS: Next we ask how many people usually live in your home? d) How many people live in the home on a regular basis/ Total?

IT: Including yourself, how many people usually live in your household?

JP: Including yourself, how many people usually live in your household?

MX: How many people live and sleep in your household in total, including children, adults and yourself?

NL: How many members does your household consist of, including yourself? (Also count persons not participating in the panel.)

NO: Including yourself, how many people live normally in your household, and how are the household members distributed on age groups? d) In total, including yourself: _____

NZ: Derived from "We would like to know about who is currently living with you in your household. We don't need to know names, just their ages, genders, and relationships to you. Please list all people living in the household at the moment in the grid below.": Total.

PH: Including yourself, how many people - including children - usually live in your household? Total persons in HH: _____

PL: Please think about all persons living together with you in your household. How many people, including yourself, live in your household?

RU: How many people usually live in your household including yourself, spouse/partner, children and temporarily away members? Total number of people _____

SI: Name the number of people that live together with you in household - including yourself. All people in household:

SK: How many people live altogether in your household? Include yourself.

SR: Derived from two sources: the household box and from the questions 'How many people – including yourself and your partner - usually live in your household? This question refers to all persons in your household, so including yourself and your partner. Count everybody that regularly eats in your house, so also residential children and inmates.' and 'What is your official marital status?' and 'Do you have a steady partner and do you live together with your partner?'.

TH: How many persons are there in your home, including you and the children: _____ (If there is only the respondent in the household, code 01; If it isn't a private household, code 96; Include also: who is only temporarily staying within the household, and who is temporarily away but expected to come back).

TW: Including yourself, how many people live in your household?

US: Household size and composition - Household size: _____ / Household size and composition.

ZA: Derived from household roster (from the question 'Please list all persons in the household who eat from the same cooking pot and who were resident 15 out of the past 30 days').

Variable code list:

- 01 One person (only respondent)
- 02 Two persons
- 03 Three persons
- 04 Four persons
- 05 Five persons
- 06 Six persons
- 07 Seven persons
- 08 Eight persons
- 09 Nine persons
- 10 Ten persons
- 11 Eleven persons
- 12 Twelve persons
- 13 Thirteen persons
- 14 Fourteen persons
- 15 Fifteen persons
- 16 Sixteen persons
- 17 Seventeen persons
- 18 Eighteen persons
- 25 Twenty-five persons
- 31 Thirty-one persons
- 50 Fifty persons
- 4 NAP (Not a private household)
- 7 HR: Refused
- 9 No answer

Note:

/ AT: This question summarizes more than 8 people as '8 or more persons'. No individual reported '8 or more persons'.

/ CH: The household composition was checked and inconsistencies corrected based on information from the national register. However, if respondents did not answer the question about the household composition at all, as a rule, their answers were left in the dataset as 'No answer' and these were not supplemented with the information from the national register for ethical reasons in the context of sample data.

/ NL: The questionnaire was performed using a subsample of a long-running panel in the Netherlands called the LISS panel. This question comes from the background variables of this panel study.

/ NZ: Asked in much more detail, as 'who else is living in the household with you', and then summarised for the variables required. Also performed some correction, as it has been discovered that a large number of people failed to include their spouse or partner, possibly because they had just been answering questions about them separately.

/ SR: The household box contained age information for all household members. However, this information is often incomplete and does not necessarily match the answers to the HOMPOP questions. In fact, both sources are incomplete, the available information was combined in the best possible way.

/ US: HOMPOP is computed from two different sources, based on the GSS variable FORM. It is either equal to the number of people in the household roster (FORM=1) or the sum of KIDS0TO6+KIDS7TO12+KIDS13TO17+OVER18 (FORM=2)

HHADULT - How many adults in household

BVQ_29. HHADULT

Again including yourself, how many adults of 18 years and older live in your household?

Adults of 18 years and older _____ -> HHADULT

Children between [school entry age] to 17 years of age _____

Children below [school entry age] _____

This makes a total of how many people? _____

(Please write in.)

COMMENT ON HHADULT: Depending on interview mode, different options for presenting the questions BVQ_28.-BVQ_31. would be preferable. One option is a household grid that can easily be presented in self-administered modes. In a face to face interview, the interviewer has the chance to ask for the different groups of household members separately and discuss possible inconsistencies, so the above mentioned grid can be broken up into individual questions.

AT: How many of them are adults of 18 years or older?

AU: Including yourself, how many people - including children - usually live in your household? Adults of 18 years and older

CH: Now please think about the people who regularly live in your household. Among them (please specify): Number of adults of 18 years and older:

CN: Not asked.

CZ: How many of those people are adults aged 18 and more? The sum of persons in rows A, B and C should equal the total number of persons in the household in [HOMPOP]. If not, correct the number of adults and children.

DE: Number of persons aged 18 + derived from '(If HOMPOP>1) How old are the people you live with? Please enter the age for each of these persons in the household! Person 1 AGE: _____, Person 2 AGE: _____, Person 3 AGE: _____, ... Person 10 AGE: _____'.

DK: How many people live in your household (including yourself)? Please write how many there are in the different age groups. a) Adults 18 years or older? Number: _____

FI: Including yourself, how many people usually live in your household? b) Aged 18 years or older: _____persons

FR: How many persons live in your household, including yourself? Adults of 18 years and more: _____

HR: Including you, how many persons (including children) live in your household? How many adults (18 years old and higher):

HU: Derived from household roster 'Now I would like to ask a few questions about the members of the household. Let's start with you!' ... 'What is your data of birth (birth year, birth month)?'.

IL: c) And how many adults of 18 years and older, including you, live in the household?

IN: How many adults in household (18 years or above)?

IS: Next we ask how many people usually live in your home? a) Including yourself, how many adults, 18 years and older, usually live in the household?

IT: Again including yourself, how many adults of 18 years and older usually live in your household?

JP: Including yourself, how many people usually live in your household? Adults of 18 years and older:

MX: How many adults (over 18 years of age) live and sleep in your household?

NL: Computed: HHADULT = HOMPOP - HHCHILDR (HHCHILDR includes all children of the household, regardless of their age).

NO: Including yourself, how many people live normally in your household, and how are the household members distributed on age groups? a) Number of people 18 years or more: _____

NZ: Derived from 'We would like to know about who is currently living with you in your household. We don't need to know names, just their ages, genders, and relationships to you. Please list all people living in the household at the moment in the grid below.': HHADULT (18+).

PH: Including yourself, how many adults of 18 years old and older live in your household? Total adults 18 and above in HH: _____

PL: Computed: HHADULT = HOMPOP - CHILDREN.

RU: How many adults live in your household including yourself? Number _____

SI: Name the number of people that live together with you in household - including yourself. Adults 18 years +

SK: (If no single household) How many adults aged 18 and more live in your household? Include yourself.

SR: Derived from 'Age and month of birth' of all people in the household (household box).

TH: The number of adults of 18 years and older: _____.

TW: Computed: HHADULT = HOMPOP - HHCHILDR - HHTODD.

US: Household size and composition - Household composition: Number of members over 17 years old: _____ / Including yourself, how many individuals 18 or older live in this household? If you have roommates, please include them. Please also include those who usually live here but are away temporarily, such as those on business trips, at school, or temporarily in a hospital.

ZA: Derived from household roster (from the question 'Please list all persons in the household who eat from the same cooking pot and who were resident 15 out of the past 30 days').

Variable code list:

- 01 One adult (only respondent)
- 02 Two adults
- 03 Three adults
- 04 Four adults
- 05 Five adults
- 06 Six adults
- 07 Seven adults
- 08 Eight adults
- 09 Nine adults; SR: Nine or more
- 10 Ten adults
- 11 Eleven adults
- 13 Thirteen adults
- 14 Fourteen adults
- 15 Fifteen adults
- 18 Eighteen adults
- 20 Twenty adults
- 32 Thirty-two adults
- 40 Forty adults
- 44 Forty-four adults
- 49 Forty-nine adults
- 50 Fifty adults
- 59 Fifty-nine adults
- 63 Sixty-three adults
- 1 Not available (CN)
- 4 NAP (Not a private household)
- 7 HR: Refused
- 9 No answer

Note:

/ CH: The household composition was checked and inconsistencies corrected based on information from the national register. However, if respondents did not answer the question about the household composition at all, as a rule, their answers were left in the dataset as 'No answer' and these were not supplemented with the information from the national register for ethical reasons in the context of sample data.

/ HU: In the questionnaire, up to nine people could be specified for a household.

/ NZ: Asked in much more detail, as 'who else is living in the household with you', and then summarised for the variables required. Also performed some correction, as it has been discovered that a large number of people failed to include their spouse or partner, possibly because they had just been answering questions about them separately.

/ US: HHADULT is computed from two different sources, based on the GSS variable FORM. It is either equal to the number of people over 18 in the household roster, publicly released as ADULTS (FORM=1) or ADULTS_EXP (FORM=2), whose question text is above.

HHCHILDR - How many children above school entry age in household

BVQ_30. HHCHILDR

And how many children between [school entry age] and 17 usually live in your household?

Adults of 18 years and older _____

Children between [school entry age] to 17 years of age _____ -> HHCHILDR

Children below [school entry age] _____

This makes a total of how many people? _____

(Please write in.)

COMMENT ON HHCHILDR: Depending on interview mode, different options for presenting the questions BVQ_28.-BVQ_31. would be preferable. One option is a household grid that can easily be presented in self-administered modes. In a face to face interview, the interviewer has the chance to ask for the different groups of household members separately and discuss possible inconsistencies, so the above mentioned grid can be broken up into individual questions.

AT: How many of them are children from 14 to 17? How many of them are children from 6 to 13?

AU: Including yourself, how many people - including children - usually live in your household? Children between 5 -17 years of age

CH: Now please think about the people who regularly live in your household. ... Among them (please specify): Number of children between 6 to 17 years of age:

CN: Not asked.

CZ: How many of those people are aged 7–17. The sum of persons in rows A, B and C should equal the total number of persons in the household in [HOMPOP]. If not, correct the number of adults and children.

DE: Number of persons aged 6 to 17 derived from '(If HOMPOP>1) How old are the people you live with? Please enter the age for each of these persons in the household! Person 1 AGE: _____, Person 2 AGE: _____, Person 3 AGE: _____, ... Person 10 AGE: _____'.

DK: How many people live in your household (including yourself)? Please write how many there are in the different age groups. b) Children between 6 and 17 years? Number: _____

FI: Including yourself, how many people usually live in your household? c) Aged 7 - 17 years: _____ persons

FR: How many persons live in your household, including yourself? Children between 6 and 17 years of age: _____

HR: Including you, how many persons (including children) live in your household? How many children from 7 to 17 years:

HU: Derived from household roster 'Now I would like to ask a few questions about the members of the household. Let's start with you!' ... 'What is your data of birth (birth year, birth month)?'.

IL: b) How many children aged 6-17 (school age) live in the household?

IN: How many children between 5 to 17 years of age live in your household?

IS: Next we ask how many people usually live in your home? b) How many children aged 6-17 usually live in the home?

IT: And how many children between 6 and 17 usually live in your household?

JP: Including yourself, how many people usually live in your household? 6 years to 17 years of age:

MX: How many people live and sleep in your household between 6 and 17 years of age?

NL: HHCHILDR includes children between 0 and 17 years. Derived from 'How many members does your household consist of, including yourself? (Also count persons not participating in the panel)' and 'Would you indicate what the relationship is between you and the persons in your household in the below overview?'.

NO: Including yourself, how many people live normally in your household, and how are the household members distributed on age groups? b) Number of children 6-17 years old: _____

NZ: Derived from 'We would like to know about who is currently living with you in your household. We don't need to know names, just their ages,

genders, and relationships to you. Please list all people living in the household at the moment in the grid below.: HHCHILDR (5-17).

PH: How many children between 7-17 years old usually live in your household? Please include step-children and adopted children. Total children 7-17 in HH: _____

PL: How many people living with you in your household are aged: from 6 to 12 years + from 13 to 17 years?

RU: How many school-age children live in your household (7 to 17 years)? Number _____

SI: Name the number of people that live together with you in household - including yourself. Children and teens from 6 to 17 years:

SK: (If no single household) How many children between 6 and 17 years live in your household?

SR: Derived from 'Age and month of birth' of all people in the household (household box).

TH: The number of children between 6 -17 years of age: _____.

TW: Among those who live in your household, how many of them are aged 7-17?

US: Household size and composition - Household composition: Number of members 6 to 12 years: _____ + Number of members 13 to 17 years: _____ / How many individuals are there in this household between the ages of 7 and 12? + How many individuals are there in this household between the ages of 13 and 17?

ZA: Derived from household roster (from the question 'Please list all persons in the household who eat from the same cooking pot and who were resident 15 out of the past 30 days').

Variable code list:

- 0 No children [school entry age] to 17; NL: No children (0 to 17)
- 01 One child [school entry age] to 17; NL: One child (0 to 17)
- 02 Two children [school entry age] to 17; NL: Two children (0 to 17)
- 03 Three children [school entry age] to 17; NL: Three children (0 to 17)
- 04 Four children [school entry age] to 17; NL: Four children (0 to 17)
- 05 Five children [school entry age] to 17; NL: Five children (0 to 17)
- 06 Six children [school entry age] to 17; NL: Six children (0 to 17)
- 07 Seven children [school entry age] to 17
- 08 Eight children [school entry age] to 17
- 09 Nine children [school entry age] to 17
- 10 Ten children [school entry age] to 17
- 11 Eleven children [school entry age] to 17
- 12 Twelve children [school entry age] to 17
- 13 Thirteen children [school entry age] to 17
- 15 Fifteen children [school entry age] to 17
- 17 Seventeen children [school entry age] to 17
- 1 Not available (CN)
- 4 NAP (Not a private household)
- 7 HR: Refused
- 9 No answer, AU: No answer and no children between 5 to 17

Note:

/ AU: Many of the respondents did not answer this question. Although it can be assumed for a large part that these respondents do not have children of this age, one cannot be sure. For this reason, the rather few cases originally encoded to 0 were added to code -9 'No answer' with a country-specific answer for Australia 'No answer also including no children of that age'.

/ CH: The household composition was checked and inconsistencies corrected based on information from the national register. However, if respondents did not answer the question about the household composition at all, as a rule, their answers were left in the dataset as 'No answer' and these were not supplemented with the information from the national register for ethical reasons in the context of sample data.

/ HU: In the questionnaire, up to nine people could be specified for a household.

/ IN: Enrolment in school takes place at the age of five.

/ NL: The questionnaire was performed using a subsample of a long-running panel in the Netherlands called the LISS panel. This question comes from the background variables of this panel study.

/ NZ: Asked in much more detail, as 'who else is living in the household with you', and then summarised for the variables required.

/ TH: Primary school starts at the age of 6 years.

/ US: HHCHILDR is computed from two different sources, based on the GSS variable FORM. It is either equal to the number of people between 7 and 17 in the household roster, publicly released as PRETEEN and TEENS (FORM=1) or PRETEEN_EXP and TEENS_EXP (FORM=2), whose question text is above.

HHTODD - How many children below school age in household

BVQ_31. HHTODD

How many children below [school entry age] live in your household?

Adults of 18 years and older _____

Children between [school entry age] to 17 years of age _____

Children below [school entry age] _____ -> HHTODD

This makes a total of how many people? _____

(Please write in.)

COMMENT ON HHCHILDR: Depending on interview mode, different options for presenting the questions BVQ_28.-BVQ_31. would be preferable. One option is a household grid that can easily be presented in self-administered modes. In a face to face interview, the interviewer has the chance to ask for the different groups of household members separately and discuss possible inconsistencies, so the above mentioned grid can be broken up into individual questions.

.....

AT: How many of them are children from 3 to 5? How many of them are children from 2 to 0?

AU: Including yourself, how many people - including children - usually live in your household? Children up to and including the age of 4

CH: Now please think about the people who regularly live in your household. ... Among them (please specify): Number of toddlers (below 6 years of age):

CN: Not asked.

CZ: How many of those people are 0-6 years old? The sum of persons in rows A, B and C should equal the total number of persons in the household in [HOMPOP]. If not, correct the number of adults and children.

DE: Number of persons aged 5 or below derived from '(If HOMPOP>1) How old are the people you live with? Please enter the age for each of these persons in the household! Person 1 AGE: _____, Person 2 AGE: _____, Person 3 AGE: _____, ... Person 10 AGE: _____'.

DK: How many people live in your household (including yourself)? Please write how many there are in the different age groups. c) Children between 0 and 5 years? Number: _____

FI: Including yourself, how many people usually live in your household? d) Aged 6 years or under: _____ persons

FR: How many persons live in your household, including yourself? Children up to the age of 5 years: _____

HR: Including you, how many persons (including children) live in your household? How many children from 1 to 6 years:

HU: Derived from household roster 'Now I would like to ask a few questions about the members of the household. Let's start with you!' ... 'What is your data of birth (birth year, birth month)?'.

IL: a) How many children under the age of 6, under school age, usually live in the household?

IN: How many toddlers up to the age of 4 years live in your household?

IS: Next we ask how many people usually live in your home? c) And how many children, aged 5 and under, usually live in the household?

IT: And how many children below 6 usually live in your household?

JP: Including yourself, how many people usually live in your household? Up to the age of 5 years:

MX: How many people live and sleep in your household from 0 years (months) to 5 years of age?

NL: Not available, see variable HHCHILDR.

NO: Including yourself, how many people live normally in your household, and how are the household members distributed on age groups? c) Number of children less than 6 years old: _____

NZ: Derived from 'We would like to know about who is currently living with you in your household. We don't need to know names, just their ages, genders, and relationships to you. Please list all people living in the household at the moment in the grid below.': HHTODD (0-4).

PH: How many children aged from zero years to six years old live in your household? Please include step-children and adopted children. Total

children 0-6 in HH: _____

PL: How many people living with you in your household are aged: from 0 to 5 years?

RU: How many pre-school children live in your household (0 to 6 years)? Number _____

SI: Name the number of people that live together with you in household - including yourself. Children younger than 6 years:

SK: (If no single household) How many children younger than 6 years live in your household?

SR: Derived from 'Age and month of birth' of all people in the household (household box).

TH: The number of children at 5 years of age and below: _____.

TW: Among those who live in your household, how many of them are aged 0-6?

US: Household size and composition - Household composition: Number of members under 6 years: _____ / How many individuals are there in this household between the ages of 0 and 6?

ZA: Derived from household roster (from the question 'Please list all persons in the household who eat from the same cooking pot and who were resident 15 out of the past 30 days').

Variable code list:

- 0 No children below [age of school entry]
- 01 One child below [age of school entry]
- 02 Two children below [age of school entry]
- 03 Three children below [age of school entry]
- 04 Four children below [age of school entry]
- 05 Five children below [age of school entry]
- 06 Six children below [age of school entry]
- 07 Seven children below [age of school entry]
- 08 Eight children below [age of school entry]
- 19 Nineteen children below [age of school entry]
- 1 Not available (CN, NL, FI-responses from Swedish paper questionnaire)
- 4 NAP (Not a private household)
- 7 HR: Refused
- 9 No answer; AU: No answer and no children below 5

Note:

/ AU: Many of the respondents did not answer this question. Although it can be assumed for a large part that these respondents do not have children of this age, one cannot be sure. For this reason, the rather few cases originally encoded to 0 were added to code -9 'No answer' with a country-specific answer for Australia 'No answer also including no children of that age'.

/ CH: The household composition was checked and inconsistencies corrected based on information from the national register. However, if respondents did not answer the question about the household composition at all, as a rule, their answers were left in the dataset as 'No answer' and these were not supplemented with the information from the national register for ethical reasons in the context of sample data.

/ FI: HHTODD top-coded for anonymisation purposes. Respondents who used the Swedish paper questionnaire (n=28) were recoded to code -1 'FI: Not available' due to a typo in the Swedish paper questionnaire (instead of 'Aged 6 years ...', 'Aged 66 years ...' was asked in this questionnaire version).

/ HU: In the questionnaire, up to nine people could be specified for a household.

/ NZ: Asked in much more detail, as 'who else is living in the household with you', and then summarised for the variables required.

/ TH: Primary school starts at the age of 6 years.

/ US: HHTODD is computed from two different sources, based on the GSS variable FORM. It is either equal to the number of people between 0 and 5 in the household roster, publicly released as BABIES (FORM=1) or BABIES_EXP (FORM=2), whose question text is above.

HU_RINC - Country specific personal income: Hungary

HU_RINC - Hungary: Country specific personal income

What is your monthly net income after taxes? If you have income from more than one source, how much in total and on average?

_____ HUF

(If refused or don't know)

And could you please tell me which of the categories you fall into?

(Int.: Turn to the respondent with the laptop/ tablet!)

- 20 000 HUF or less
- 21 000 - 40 000 HUF
- 41 000 - 70 000 HUF
- 71 000 - 100 000 HUF
- 101 000 - 150 000 HUF
- 151 000 - 200 000 HUF
- 201 000 - 300 000 HUF
- 301 000 - 500 000 HUF
- More than 500 000 HUF

Variable code list:

- 6000 6 000 HUF per month, net
- 10000 10 000 HUF / 20 000 HUF or less per month, net
- 30000 30 000 HUF / 21 000 - 40 000 HUF per month, net
- 55000 55 000 HUF / 41 000 - 70 000 HUF per month, net
- 85000 85 000 HUF / 71 000 - 100 000 HUF per month, net
- 125000 125 000 HUF / 101 000 - 150 000 HUF per month, net
- 175000 175 000 HUF / 151 000 - 200 000 HUF per month, net

NL_RINC - Country specific personal income: Netherlands

NL_RINC - Netherlands: Country specific personal income

What is the average net income of yourself and your household (if applicable)?

(Net means what your household receives on average monthly 'clean', i.e. after payment of wage and income tax, social insurance contributions and pension contributions.)

We first ask you about your own income, approximately, per month.

On the next screen we ask you about the household income for all members of your household together.

We ask you here about YOUR INCOME, approximately, per month.

- No income
- 500 Euro or less
- 501 Euro to 1 000 Euro
- 1 001 Euro to 1 500 Euro
- 1 501 Euro to 2 000 Euro
- 2 001 Euro to 2 500 Euro
- 2 501 Euro to 3 000 Euro

Note:

/ CZ: Monthly net income in Czech crowns (CZK), midpoints of income categories are coded for multiple person households. For one-person households this variable contains the values coded for CZ_RINC, which can either be an exact value or, if the respondent refused to answer the open question, the midpoint of an income category.

-9 No answer

Note:

/ RU: Monthly net income in Rubles (RUB).

/ RU: The generation procedure for the answer values was as follows: 1) All valid answers to the open-ended question on INC were recoded into the 14 income categories, offered in the second question. 2) For each of these 14 income categories, the average income of respondents who answered the open-ended question on INC has been calculated. 3) The average income was approximated to round numbers and assigned to all respondents who answered 'I don't know' or 'Refused to answer' in the open-ended question on INC, but who gave an answer to the second question by choosing one of the 14 income categories.

/ RU: For one-person households, personal income was coded as household income. The average income was also assigned to all respondents who live alone and answered 'I don't know' or 'Refused to answer' in RINC, but who gave the answer to the question on household income by choosing one of the 14 categories

(IF HOMPOP > 1)

Now we would like to ask about the income of your HOUSEHOLD.

By household we mean a shared household of spouses or partners, who live alone, with children, eventually with parents as well as households of independently living persons who share a common budget.

From the following list, please, choose the option that represents the size of net monthly income of all household members together when you include wages, pensions, scholarships and all other working and non-working incomes? Count in your own income too, please.

- 0 € - 350 €

MARITAL - Legal partnership status

BVQ_34. MARITAL

What is your current legal marital status?

(Please tick one box only.)

COMMENT ON MARITAL: The aim of this variable is to measure the current 'legal' marital status of the respondent. 'Civil partnership' is a government recognized partnership without being married. The specific conditions for civil partnerships vary widely across countries. Depending on country's regulations, this includes any legal homo- or heterosexual partnerships distinct from legal marriage. In contrast, 'living as married' or 'de facto married' is no legal partnership status and therefore not of relevance to this variable. In the national survey, some guidelines in the introduction of the question shall be added to clarify what 'civil partnership' means in the respective country by using the country-specific legal term in the national language. Countries with governments that do not formally recognize legal civil partnerships can omit category 2 'Civil partnership'. Note that MARITAL must not be filtered by responses to PARTLIV.

.....

AT: Now some questions about your life situation: What is your marital status?

AU: What is your current legal marital status?

CH: What is your current legal marital status?

CN: What's your marital status now?

CZ: What is your marital status?

DE: What is your current marital status?

- 2 Civil partnership; IS: Registered cohabitation; SR: Common law marriage (concubinaat)
- 3 Separated from spouse/civil partner (still legally married/still legally in a civil partnership)
- 4 Divorced from spouse/legally separated from civil partner
- 5 Widowed/civil partner died
- 6 Never married/never in a civil partnership
- 7 Refused
- 9 No answer; CN: Cohabit

Note:

/ AT: Code 3 'Separated from spouse/ civil partner (still legally married/ still legally in a civil partnership)' not used.

/ AU: Code 2 'Civil Partnership' not used; civil partnerships are not relevant in the Australian context.

/ CH: Code 2 'Civil partnership' includes same-sex partnerships registered on federal level.

/ CN: One answer option was 'Cohabitation'. 80 respondents selected this answer option. Since cohabitation is no legal marital status and due to the fact that the true legal status of these respondents is not known, observations for this answer code are recoded to code -9 'Cohabit' in the integrated data file.

/ DE: Civil partnerships include same-sex, formally legalised partnerships (since 2000). As of 2017, marriages of same-sex couples are possible.

/ DK: Code 2 contains 'Registreret partnerskab' and includes same-sex partnerships (same-sex marriage became legal in 2012).

/ FI: Code 2 'Civil partnership' includes registered civil partnerships available for same-sex couples.

/ FR: Code 2 includes 'Pacsé(e)', a French contract of civil partnership (PACS). At the start, it intended to legally recognize the cohabitation of same-sex couples. In the meantime, PACS contracts are often concluded by partners of different sexes.

/ HR: Code 2 'Civil partnership' includes extramarital unions legally defined as living in a common household for a minimum period of 3 years and/ or joint parenthood.

/ IN: Original category 2 'Civil partnership' comprised 'live-in' (n=116) which is no legal status in India. These cases were recoded to category 6 'Never married' during the data preparation. In combination with PARTLIV, however, you will find 68 of the 116 cases (coded in MARITAL in the last step to code 6) in PARTLIV code 1 and 47 of the 116 cases in PARTLIV code 2.

/ IS: The Marriage Act has been gender-neutral in Iceland from 2010 and applies to both same-sex and opposite-sex couples. What used to be civil partnership is now considered marriage. Therefore, the Icelandic legislation has two basic structures that govern adult relationships. One is marriage and the other is registered cohabitation (Í skráðri sambúð), included in code 2.

/ IT: Code 2 includes same-sex unions ('Unione civile').

/ JP: Code 2 'Civil partnership' not used.

/ MX: Code 2 includes 'Sociedad de convivencia' (same-sex marriage).

/ NL: The questionnaire was performed using a subsample of a long-running panel in the Netherlands called the LISS panel. This information is collected as a standard part of the LISS panel.

/ NO: Code 2 'Civil partnership' includes registered partner (same-sex partnership).

/ NZ: Answers to the original category 'De facto' (living as married) were converted to code 6 'Never married'. Category 2 includes civil unions (same-sex partners).

/ PH: Code 2 'Civil Partnership' not used.

/ PL: Code 2 'Civil partnership' not used.

/ RU: One answer option in MARITAL was 'Living together but unmarried', which is no legal marital status in the official sense. Such cases were recoded to code 6 'Never married' in MARITAL (in PARTLIV they are coded 1).

/ SI: Code 2 'Civil partnership' includes registered partnership of same-sex-couples and extramarital community (cohabitation).

/ SK: Code 2 'Civil partnership' not asked.

/ SR: Code 2 'Civil partnership' includes 'Concubinaat', which is a SR expression for 'Common-law marriage'. The answers for 'Concubinaat' come from the answer option 'Other, specify'. Common law is not based on formal laws or contracts, but rather on jurisprudence. In common law practice people can claim rights in court, if needed. Being in an common-law marriage would give partners a right to common ownership, insurance and pensions.

/ TW: One answer option in the national question on MARITAL was 'Cohabitation'. Respondents cohabitating needed to answer a subsequent question regarding their marital status before cohabitating, the answer to this question was used for MARITAL.

/ US: MARITAL now encompasses both opposite-sex and same-sex marriages. The General Social Survey (GSS) uses POSSLQ and POSSLQY (see PARTLIV) to track long-term cohabitation, but does not ask about civil partnerships separate from marriage. Hence, there are no observations for code 2 'Civil partnership' in US data.

/ ZA: Code 6 includes 'Never married but engaged' and 'Never married and not engaged'.

F_BORN - Father's country of birth

BVQ_35. F_BORN

In which country was your father born? _____

(Please write in.)

COMMENT ON F_BORN: Countries were recoded according to the numerical 3 digits ISO3166-1 code. 'Country' refers here to states only, not to sub-national regions or areas. If the father's country of birth does not exist anymore under the former name, the current term of the country where the birthplace is located should be written in. For reasons of data anonymization, responses on countries could also be recoded to supranational level according to the United Nations country or area codes of the M49 standard.

.....

AT: And where was your father born?

AU: And what country was your father born in?

CH: In which country was your father born? Switzerland/ Italy/ France/ Germany/ Austria/ Portugal/ Spain/ Other country, specify: _____ / Don't know/ Father unknown.

CN: Not asked, imputed by principal investigators.

CZ: Tell me please where was your father born?

DE: In which country was your father resp. your mother born? Within the current borders of Germany/ Former Eastern German territories (e.g., Silesia, East Prussia)/ Greece/ Italy/ Former Yugoslavia/ Poland/ Romania/ Former Soviet Union (USSR)/ Former Czechoslovakia/ Turkey/ Other country, please specify

DK: Where were you and your parents born? b) Your father: Denmark/ Foreign country (write which) _____

FI: In which country was your father born?

FR: In which country was your father born?

HR: In which country/ state was your father born? (If the country no longer exists under the name it had at the time of your father's birth, enter the current name of the country where he was born.) My father was born in _____.

HU: In which country was your father born? (Int.: Write it down, then code it!) Hungary/ Ukraine/ Romania/ Slovakia/ Czech Republic/ Serbia/ Croatia/ Slovenia/ Austria/ Germany/ Russia/ Poland/ Other European country/ Other non-European country

IL: In which country was your father born? 1) Israel 2) Another country: _____

IN: In which country was your father born? My father was born in _____

IS: In which country was your father born? Iceland/ Other country, which?

IT: In which country was your father born?

JP: In which country was your father born?

MX: Father's country of birth:

NL: In what country was your father born? 1) The Netherlands, 2) Morocco, 3) Turkey, 4) Suriname, 5) The Dutch Antilles, 6) Indonesia, 7) Another Western country (Europe, North-America, Japan, Oceania), 8) Another non-Western country (Africa, Latin-America, Asia with the exception of Japan)

NO: In which country was your father born? Norway/ Another country, fill in: _____

NZ: In what country was your father born? New Zealand/ Australia/ United Kingdom/ China (People's Republic)/ India/ South Africa/ Samoa/ Cook Islands/ Tonga/ Fiji/ Korea (Republic)/ Philippines/ Netherlands/ Malaysia/ Other, please enter the country here: _____ / Don't know

PH: In which country was your father born? Verbatim response: _____

PL: In what country was your father born? In Poland/ Outside Poland/ Don't know (If 'Outside Poland') In what country?

RU: In which country was your father born?

SI: In which country was your father born?

SK: In which country was your father born? 1. My father was born in Slovakia, 2. My father was born in Czechia, 3. My father was born elsewhere (please specify).

SR: In which country was your father born? Suriname/ The Netherlands/ Guyana/ French-Guyana/ Brazil/ Netherlands Antilles/ Haiti/ Other, specify

TH: In which country was your father born? Please specify country _____.

TW: In which country was your father born? Taiwan/ China/ Other country, please specify.

US: Was your father born in this country? 1) Yes 2) No

ZA: In which country was your father born?

950 Outside of COUNTRY/ Not [COUNTRY] citizenship, other countries or specific regions/ former nations (no official ISO code)

-4 CH: Not applicable, father unknown

-6 NO: Answer to open-ended question on F_BORN not retrievable for respondents of paper questionnaire

-7 Refused

-8 DE, JP: Don't know

-9 No answer

Note:

/ DE: Father's and mother's country of origin asked in tabular design. Preliminary data coded according to ISO 3166. In order to protect individual respondents from data disclosure it was necessary to combine some original ISO 3166-categories into regional M49 codes before data publication.

/ DK: For privacy reasons, countries with a higher risk of identification or with few observations were recoded into the subcontinental categories of the M49 standard.

/ FI: Open-ended question. With the exception of Finland, countries were coded according to the M49-classification for anonymisation purposes. For some reason, all respondents of Finland's paper questionnaire in Finnish language did not answer this question.

/ HR: Open-ended question, subsequently answers encoded to ISO 3166.

/ IL: For data protection reasons, M49 codes were used for many respondents.

/ IS: Behind the second option there was an open textbox. The answers were coded afterwards. Some responses have been assigned to broader categories following the M49 standard to better protect the privacy of respondents.

/ IT: Open-ended question.

/ NL: Answers to code 7 and 8 have been summarized and recorded under the collective code 950.

/ NO: To avoid disclosure risk, some of the data in F_BORN and M_BORN have been aggregated using the UN M49 standard.

/ NO: Data from the open-ended questions in the survey are missing for respondents who completed the survey on paper. The data material has been anonymized and therefore, this information is no longer retrievable (N=75 out of 728 respondents who answered the survey by paper).

/ NZ: For privacy reasons, respondents from countries with few observations, with a higher risk of respondent's identification, were recoded into subcontinental categories of the M49 standard.

/ PL: The answer 'Kresy' (a former Polish territory) was recoded to code 950 'Not [COUNTRY] nationality, other countries or certain regions/former nations'.

/ RU: Open-ended question.

/ SK: Category 3 open responses recoded following ISO 3166.

/ TH: Open-ended question, subsequently countries encoded to ISO 3166.

/ US: Respondents are not asked for parents' country of birth, only if their parents were born in the United States or not. As a result, only two codes are available for the US: Born in the US (code 840 'United States') and born outside the US (code 950 'Outside of COUNTRY').

M_BORN - Mother's country of birth

BVQ_36. M_BORN

In which country was your mother born? _____

(Please write in.)

COMMENT ON M_BORN: Countries were recoded according to the numerical 3 digits ISO3166-1 code. 'Country' refers here to states only, not to sub-national regions or areas. If the mother's country of birth does not exist anymore under the former name, the current term of the country where the birthplace is located should be written in. For reasons of data anonymization, responses on countries could also be recoded to supranational level according to the United Nations country or area codes of the M49 standard.

950 Outside of COUNTRY/ Not [COUNTRY] citizenship, other countries or specific regions/ former nations (no official ISO code)

-6 NO: Answer to open-ended question on M_BORN not retrievable for respondents of paper questionnaire

-7 Refused

-8 DE, JP: Don't know

-9 No answer

Note:

/ DE: Father's and mother's country of origin asked in tabular design. Preliminary data coded according to ISO 3166. In order to protect individual respondents from data disclosure it was necessary to combine some original ISO 3166-categories into regional M49 codes before data publication.

/ DK: For privacy reasons, countries with a higher risk of identification or with few observations were recoded into the subcontinental categories of the M49 standard.

/ FI: Open-ended question. With the exception of Finland, countries were coded according to the M49-classification for anonymisation purposes. For some reason, all respondents of Finland's paper questionnaire in Finnish language did not answer this question.

/ HR: Open-ended question, subsequently answers encoded to ISO 3166.

/ IL: For data protection reasons, M49 codes were used for many respondents.

/ IS: Behind the second option there was an open textbox. The answers were coded afterwards. Some responses have been assigned to broader categories following the M49 standard to better protect the privacy of respondents.

/ IT: Open-ended question.

/ NL: Answers to code 7 and 8 have been summarized and recorded under the collective code 950.

/ NO: To avoid disclosure risk, some of the data in F_BORN and M_BORN have been aggregated using the UN M49 standard.

/ NO: Data from the open-ended questions in the survey are missing for respondents who completed the survey on paper. The data material has been anonymized and therefore, this information is no longer retrievable (N=68 out of 728 respondents who answered the survey by paper).

/ NZ: For privacy reasons, respondents from countries with few observations, with a higher risk of respondent's identification, were recoded into subcontinental categories of the M49 standard.

/ RU: Open-ended question.

/ SK: Category 3 open responses recoded following ISO 3166.

/ TH: Open-ended question, subsequently countries encoded to ISO 3166.

/ US: Respondents are not asked for parents' country of birth, only if their parents were born in the United States or not. As a result, only two codes are available for the US: Born in the US (code 840 'United Stated') and born outside the US (code 950 'Outside of COUNTRY').

URBRURAL - Place of living: urban - rural

BVQ_37. URBRURAL

Would you describe the place where you live as...

(Please tick one box only.)

[Based on self-assessment by Respondent.]

.....

AT: Where do you live?

AU: Would you describe the place where you live as ...

CH: Would you describe the place where you live as...?

CN: Not asked.

CZ: Would you describe the place where you live as...?

DE: Which of the following categories applies best to the place where you are living?

DK: Is the place you live...?

FI: Do you live...?

FR: Would you say that you live in...?

HR: Where do you live?

HU: This place, where you live, is...?

IL: Would you describe the place where you live as...?

IN: Would you describe the place where you live as...?

IS: Would you describe the place where you live as...?

IT: Would you describe the place where you live as...?

JP: What kind of community do you currently live in? Circle one figure only.

MX: You live in:

NL: How would you describe the place you live now?

NO: Do you live in...?

NZ: Would you describe the place where you live as...?

PH: Would you describe the place where you live as...

PL: How would you describe the place where you live?

RU: Where do you live?

SI: How would you describe the place that you live in? Is it...

SK: How would you describe the location you live in?

SR: How would you describe the place: Where you live now?

TH: Would you describe the place where you live as...

TW: Would you describe the place where you live as...?

US: Constructed variable, see note for US below.

ZA: Would you describe the place where you live as...?

Answer categories:

- 1 A big city
- 2 The suburbs or outskirts of a big city
- 3 A town or a small city
- 4 A country village

5 A farm or home in the country

Variable code list:

- 1 A big city; SR: Paramaribo
- 2 The suburbs or outskirts of a big city; SR: The suburbs or outskirts of Paramaribo
- 3 A town or a small city
- 4 A country village, SR: Rural, not Interior
- 5 A farm or home in the country; SR: Interior (Amazon forest)
- 1 Not available (CN)
- 9 No answer; PL: Hard to say

Note:

/ SR: High missing rate, possibly due to the fact that the question was often understood to refer to migrants.

/ US: URBRURAL was constructed by using XNORCSIZ in US GSS. The XNORCSIZ indicates NORC size of place. Codes for XNORCSIZ are: 1) Within an SMSA and a large central city (over 250.000), 2) A medium size central city (50.000 to 250.000), 3) A suburb of a large central city, 4) A suburb of a medium size central city, 5) An unincorporated area of a large central city (division, township, etc.), 6) An unincorporated area of a medium central city, 7) Not within an SMSA (within a county) and a small city (10.000 to 49.999), 8) A town or village (2.500 to 9.999), 9) An incorporated area less than 2.500 or an unincorporated area of 1.000 to 2.499 and 10) Open country within larger civil divisions e.g., township, division. XNORCSIZ is coded based on R's residential address. The mapping between XNORCSIZ and URBRURAL is as follows: XNORCSIZ=1 | XNORCSIZ=2 -> URBRURAL=1; XNORCSIZ=3 | XNORCSIZ=4 | XNORCSIZ=5 | XNORCSIZ=6 -> URBRURAL=2; XNORCSIZ=7 -> URBRURAL=3; XNORCSIZ=8 | XNORCSIZ=9 -> URBRURAL=4; XNORCSIZ=10 -> URBRURAL=5.

Note:

/ MX: Mexico consists of a total of 32 federal entities (31 states and the capital Mexico City as a separate entity that is not formally a state). Not all states are represented in the sample, but the 18 states included in the sample are intended to statistically represent all of Mexico's geographic regions and therefore the entire country.

CASEID - ID Number of respondent

CASEID - Respondent Identification Number

This variable holds a unique identification number for each respondent including the ISSP module year (first 4 digits: 2021), the ISO 3166 country code (next 5 digits: for countries without subsamples starting with 00 plus the three digits for the country code, for countries with subsamples starting directly with the three digits country code supplemented by an appendix two digits long) and the original identification number of the respondents (the last 7 digits), making an identification number of 16 digits in total.

SUBSCASE - Case substitution flag

Case substitution flag

SUBSCASE is to indicate whether a respondent is from the original sampling frame or is substituted for some reason (interview not obtained because of invalid address, no contact, refusal, etc.)

- 0 No substitution in this survey
- 1 Case from original sample
- 2 Case substituted; SR: Address substitution
- 3 SR: Case substituted: Within-household substitution

Note:

/ DE: ISSP 2021 uses a two-stage random sample. In the first step, there is a random selection of communities/ sample points. In a second step, there is a random sample of persons officially registered at their first place of residence (Germans are legally obliged to register). The German register is not organized in one central register, but organized in 5.283 local registers administered by municipalities. The local registers are allowed but not obliged to submit information for scientific purposes. 6 municipalities did not cooperate and did not deliver information. These sample points had to be replaced by others with the same structural characteristics prior to the fieldwork. Substitution of any individual case was not allowed during the fieldwork.

/ SR: Code 2 - Address substitution included: Interviewers obtained a response form with the address. In case an address was uninhabited, they were instructed to go for the nearest inhabited dwelling to the right; Code 3 - Within-household substitution was used when: the targeted respondent was deceased, ill, or long-term absent from the household. In particular in the Interior, there is no way to revisit. Dwellings and (head of) households are often ill-defined here.

DWEIGHT_HH - Design weight - household samples

DWEIGHT_HH: Design weight - household sample

This weight variable serves to compensate for unequal selection probabilities introduced by the sampling design, specifically, the use of household sampling.

COMMENT ON DWEIGHT_HH: DWEIGHT_HH should be computed such that the sum of the individual case weights equals the case count of the unweighted net sample (=number of cases in the data set). If no such design weight is computed, the variable DWEIGHT_HH must be set to the constant '1'.

Details about construction of the household-sampling design weight must be provided with the national Technical Report.

AT: No.

AU: No.

CH: No (the sample frame is individual based and the sampling is pure random, so that every resident in Switzerland has equal chance to participate).

CN: Yes.

CZ: No.

DE: No.

DK: No.

FI: No.

FR: No.

HR: No.

HU: No.

IL: No.

IN: No.

IS: No.

IT: No.

JP: No.

MX: No (not necessary despite household sample).

NL: Yes (based on the number of household members 16 years and over since the lower age cut-off for the survey was 16).

NO: No.

NZ: No.

PH: No.

PL: No.

RU: No.

SI: No.

SK: Yes.

SR: No.

TH: No.

TW: No (because DWEIGHT_HH cannot be provided, see errata).

US: Yes.

ZA: Yes, but currently there is no separate weighting factor for the design weight, only a combined weight (see WEIGHT_COM and errata).

1 No weighting

Note:

/ ZA: Separate weighting factors for the design weight will be delivered as soon as possible (see errata).

DWEIGHT_TS - Design weight - target stratification

DWEIGHT_TS: Design weight - target stratification

In addition to DWEIGHT_HH, this weight variable serves as compensation for relevant non-proportional deviations from a 'nationally representative' sampling strategy that some ISSP members intentionally employ in their data collection, such as an intended oversampling of particular regions or groups.

COMMENT ON DWEIGHT_TS: DWEIGHT_TS should be computed such that the sum of the individual case weights equals the case count of the unweighted net sample (=number of cases in the data set). If no such design weight is computed, the variable DWEIGHT_TS must be set to the constant '1'.

Details about construction of all DWEIGHT_TS elements must be provided with the national Technical Report.

AT: No.

AU: No.

CH: No (the sample frame is individual based and the sampling is pure random, so that every resident in Switzerland has equal chance to participate).

CN: No.

CZ: No.

DE: Yes, two separate German samples (see variable c_sample): the sample for Eastern Germany deliberately over-samples the five eastern federal states. If all of Germany is taken as the unit of analysis (rather than the eastern and western states), this design weight needs to be used (weighting factor for Western Germany: 1.2503012; weighting factor for Eastern Germany: 0.50410410).

DK: No.

DWEIGHT_COM - HH + TS combination of all design aspects

DWEIGHT_COM: HH + TS Combination of all design aspects

This weight variable combines DWEIGHT_HH and other weights pertaining to any stratification elements that countries may have added for country-specific reasons covered by DWEIGHT_TS.

DWEIGHT_COM is provided for the convenience of ISSP users, who in most cases will want to have both design weights enabled.

COMMENT on DWEIGHT_COM: All design weight variables should be computed such that the sum of the individual case weights equals the case count of the unweighted net sample (=number of cases in the data set). If a sample has no additional relevant design components outside DWEIGHT_HH, the variable DWEIGHT_COM must be an exact copy of the variable DWEIGHT_HH. If no household sampling has been applied, DWEIGHT_COM must be an exact copy of DWEIGHT_TS. If no design weight at all is computed, the variable DWEIGHT_COM must be set to the constant '1'.

Details about construction of all weight elements must be provided with the national Technical Report.

PSWEIGHT - Post-stratification weight

PSWEIGHT: Post-stratification weight

This post-stratification weight serves as compensation for possible biases introduced by unit non-response or non-random sampling error that may occur during data collection. Post-stratification weights are usually calculated by comparing the relative frequency distribution of certain (usually demographic, such as age, gender, education) characteristics as found in the sample to a known reference distribution of the same characteristics, reported e.g. in recent official statistics.

It is not mandatory that ISSP members provide such weights, but if such weights are present, they are to be offered in this variable. ISSP users may want to enable this weight if they want sample distributions that match population reference distributions on demographic core characteristics. Whether this kind of weighting is desirable or not is debated in the methodological literature and is therefore left to the informed choice of the users.

COMMENT ON PSWEIGHT: PSWEIGHT should be computed such that the sum of the individual case weights equals the case count of the unweighted net sample (=number of cases in the data set). If no poststratification weight was provided, the variable PSWEIGHT must be set to '1'.

Detailed reporting about construction of the post-stratification weight is mandatory and must be provided with the national Technical Report.

AT: Yes, the post-stratification weight adjusts for: age, gender, education and age x education.

AU: Yes, post-stratification and non-response; the post-stratification weight adjusts for: age, sex and education.

CH: No.

CN: Yes, post-stratification and non-response weight; post-stratification weights adjust for: gender, age, education, urbanization.

CZ: Yes, the post-stratification weight adjusts for: SIZE6AM x REG (size of resident's site x region), SEX, AGE (age category), CZ_ISCD (B2, education category), WORK (B04, working status)

DE: No.

DK: Yes, based on GENDER, AGE in four groups (18-34/ 35-49/ 50-64 and 65+), ETHNICITY in two groups (Danish origin/ Immigrants and remnants), FAMILY TYPE in four groups (Single without children/ Single with children/ Couple without children/ Couple with children), EDUCATION in three groups (Primary school and missing/ General upper secondary school, vocational education, combined general and vocational upper secondary school, short-cycle tertiary education/ University bachelor degree, medium and long tertiary education, researcher, officer and masters course), SOCIOECONOMIC STATUS in three groups (Employed/ Retired/ Other).

FI: Yes, post-stratification weight provided based on gender, age, degree of urbanization, and region.

FR: Yes, post stratification weighting computed on sex, age (4 groups : 18 to 29 years old, 30 to 39 years old, 40 to 54 years old, 55 years old or more), occupation (6 groups: Farmers; Tradesmen, Shopkeepers and Business Owners; Managers and Secondary/ University Teachers; Intermediate Professions, White Collar Workers; Blue Collar Workers; Unemployed) and education level (4 levels).

HR: Post-stratification weight provided based on region, settlement size, gender and age.

HU: Yes, post-stratification weights used based on sex, age, education and type of settlement.

IL: Yes, post-stratification weight used based on the variables c_sample(Jews/ Arabs)*SEX*EDUCYRS.

IN: Yes, multiple weighting done on the following variables: Age, Gender, Social status, Income, Education.

IS: No.

IT: No.

JP: No.

MX: No.

NL: No.

NO: No.

NZ: Yes, post-stratification weights were based on logistic regression models of Responded (yes/no) by age group, Māori descent, occupation, region, deprivation quintile, and urbanicity. This was not to correct directly for the disproportionate sampling of the stratification, but it did this in the process of adjusting the sample back closer to the distributions of these variables in the initial sample from the New Zealand electoral rolls. The

stratification, especially the oversampling of minority ethnic groups, was designed to account for known lower response rates among these groups - the primary aim was to achieve sufficient responses from these groups to allow analysis by ethnicity to be conducted.

PH: Yes, a post-stratification weight was used which is based on people aged 18+ (voting age) and area (NCR, Balance Luzon: North/ Central and South Luzon, Visayas, Mindanao).

PL: Yes, based on voivodship (16), age group by sex (10), type and size of the city (4).

RU: Yes, post-stratification weights used based on sex, age, education.

SI: Yes.

SK: Yes, based on the variables/ information on gender, age, education, region and size of municipality.

SR: Yes, post-stratification weights used (based on stratum, gender, age, education, main activity, position in household).

TH: No.

TW: Yes, based on sex, age, urbanization and education-degree groups.

US: Yes, post-stratification weight provided based on region, marital status, hispanic ethnicity, education, US born, gender, race and age.

ZA: Yes, but currently there is no separate weighting factor for the post-stratification, only a combined weight (see WEIGHT_COM and errata).

1 No weighting

Note:

/ SI: The database includes a post-stratification weight, which equalizes the structural shares of the obtained sample with the population shares derived from statistical sources (sample frame, source: National statistical office).

The weight is based on a combination of variables: Gender x Age (2x4) and Statistical region x Type of settlement (12x6).

/ ZA: Separate weighting factors for the design weight will be delivered as soon as possible (see errata).

WEIGHT_COM - Combination of all weights

WEIGHT_COM: Combination of all weights

This weight variable combines all available design and post-stratification weights. The variable is provided for the convenience of ISSP users.

COMMENT on WEIGHT_COM: WEIGHT_COM must be computed as the product of DWEIGHT_COM and PSWEIGHT. All weight variables should be computed such that the sum of the individual case weights equals the case count of the unweighted net sample (=number of cases in the data set). If a sample has no relevant design components and no post-stratification is needed, WEIGHT_COM must equal '1'. If only one weight is available, WEIGHT_COM must equal this weight variable.

Details about construction of all weight elements must be provided with the national Technical Report.

MODE - Administrative mode of data-collection

Administrative mode of data-collection

This variable records the administrative mode/ method of data-collection.

- 10 F2F/PAPI, no visuals
- 11 F2F/PAPI, visuals
- 12 F2F/PAPI, respondent reading questionnaire
- 13 F2F/PAPI, interpreter or translator - no visuals
- 14 F2F/PAPI, interpreter or translator - visuals
- 20 CAPI, no visuals
- 21 CAPI, visuals
- 22 CAPI, respondent reading questionnaire (paper or on monitor)
- 23 CAPI, interpreter or translator - no visuals
- 24 CAPI, interpreter or translator - visuals
- 30 SC, arrives with interviewer, interviewer attending
- 31 SC, arrives with interviewer, drops off, picks up later
- 32 SC, arrives with interviewer, drops off, mailed back by R
- 33 SC, mailed to, completed by R and hold for pick up
- 34 SC, mailed to, mailed back by R
- 40 CASI, self-completion, computer-assisted
- 50 CAWI, self-completion, web questionnaire
- 60 CATI, computer assisted telephone interview
- 9 No information

PARTIALS - Flag variable indicating partially completed interviews

Flag variable indicating partially completed interviews

This variable indicates cases of partially completed interviews.

The test run for identifying incomplete cases is based on the compulsory module questions of an ISSP module. For ISSP 2021, questions Q1-Q28 are mandatory for all countries. In accordance with AAPOR standards, the count is based on applicable questions of the module, more precisely on the items that respondents were asked according to the routing. The answers 'Can't choose/ Don't know' are counted as valid answers.

An interview with...

- less than 50% of valid answers is defined as break-off and NOT included in the data;
- between 50 and 80% of valid answers is defined as PARTIAL interview/ case;
- more than 80% of valid answers is defined as COMPLETE interview/ case.

0 Partial case (50-80 % answered)

1 Complete case (> 80 % answered)
