Acknowledgements

The Standard & Special Eurobarometer surveys are conducted on behalf of the European Commission under the responsibility of the Directorate-General Communication and on occasion requested by other departments according to the policy they deal with. From the outset the European Commission is generously granting access to Eurobarometer primary data for re-use in social science research and training.

The integrated original datasets and related materials are delivered by the respective survey research institute in charge of survey implementation and fieldwork co-ordination.

Long term access to and usability of Eurobarometer primary data and documentation is provided in a cooperative arrangement between the Inter-University Consortium for Political and Social Research (ICPSR) and the GESIS - Leibniz Institute for the Social Sciences.

Introduction and preliminary remarks

The variable reports of the Standard & Special Eurobarometer survey series offer a comprehensive description of the data on study and variable level. For each Eurobarometer individual variable reports are provided. The reports are structured into five sections: Section one provides the description of the respective Eurobarometer study, including bibliographic information, abstract, methodological specifications, remarks on weighting and general notes on data preparation. Section two gives an historical overview of the Eurobarometer Survey Series, including the institutional background and the development of geographical and topical coverage. A third section provides general information about the structure of Eurobarometer datasets, documentation standards and variable coding frames. Section four explains the details of the 'Variable Documentation' part in the following section five, which is the documentation of the variables with the complete question texts and answer categories of the master questionnaire and the corresponding archival remarks on data preparation or inconsistencies, if applicable. In addition, this variable report contains frequency counts by country (sample), for almost all variables. These frequencies are based on weighted data using the adequate post-stratification weight, if applicable and as indicated in each table.

Data access

Individual level micro data for statistical analysis and related documentation (basic bilingual questionnaires, national field questionnaire versions and variable reports) are made available online by GESIS through the data catalogue (https://search.gesis.org/research_data). Access to the Eurobarometer primary data is also provided by the Inter-university Consortium for Political and Social Research through the ICPSR membership network, as well as supported by the Social Science Data Archives members of the Council of European Social Science Data Archives (CESSDA).

Usage requirement

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about related research activities, users of the data are requested to send bibliographic citations for each completed manuscript or thesis abstract to the providing data archive, GESIS or ICPSR. Please indicate in a cover letter which data (surveys and variables) were used.

Disclaimer

The original collector of the data, ICPSR, GESIS, and the relevant funding agencies bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

1.1.4 Bibliographic citation and DOI reference

Publications based on data collections which are made available through ICPSR or GESIS should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications. The bibliographic citation for this data collection is:

European Commission, Brussels: Eurobarometer 90.3, November 2018.

Kantar Public, Brussels [Producer];

GESIS, Cologne [Publisher]: ZA7489, dataset version 2.0.0, DOI: [10.4232/1.14392](https://doi.org/10.4232/1.14392) (2024).

The registered Digital Object Identifier (DOI) persistently identifies this dataset version with reference to former (or more recent) versions and potential errata and update documentation in the GESIS data catalogue.

1.2 Content

1.2.1 Abstract

Eurobarometer 90.3 covered standard trend questions on living conditions, important political issues, trust in institutions, democracy satisfaction, perception of and attitudes towards the European Union and European Unification, and also on their knowledge about the European Union. Respondents' opinions were collected regarding their level of political participation and general political attitudes. Respondents were also questioned about European Citizenship, citizen rights and identification. Additional questions were asked regarding the impact of the economic crisis on the job market, and about policy measures related to the financial and economic crisis. Respondents were also asked about policy priorities, such as the Europe 2020 strategy. Additionally respondents were asked about media use and political information on national and European matters. Finally, questions were asked about respondents' opinions regarding the EU budget and policies.

Demographic and other background information collected includes left or right self-placement on political scale, age, gender, nationality, marital status, occupation, age when stopped full-time education, household composition, ownership of a fixed or mobile telephone and other goods, difficulties in paying bills self-assessed social class, Internet use, life satisfaction, political discussion frequency, and opinions on whether their voice counts in their country/EU. In addition, country-specific data includes type and size of locality, region of residence, and language of interview (select countries).

1.3 Universe

In all, Eurobarometer 90.3 interviewed 32.600 citizens in the 28 countries of the European Union after the 2013 enlargement (accession of Croatia in July 2013), in the remaining candidate countries (as of March 2015) the Former Yugoslavian Republic of Macedonia (FYROM), Montenegro, Serbia, Türkiye, and Albania, and in addition in the Turkish Cypriot Community (Northern Cyprus). All respondents were residents in the respective country, nationals and non-national EU-citizens, and aged 15 and over. They were supposed to have sufficient command of one of the respective national language(s) to answer the questionnaire. Separate samples were drawn for East and West Germany.

1.4 Sampling procedure

A multi-stage, random (probability) sampling design was used for this Eurobarometer. In the first stage, primary sampling units (PSU) were selected from each of the administrative regional units in every country (Statistical Office of the European Community, EUROSTAT NUTS 2 or equivalent). PSU selection was systematic with probability proportional to population size, from sampling frames stratified by the degree of urbanization. In the next stage, a cluster of starting addresses was selected from each sampled PSU at random. Further addresses were chosen systematically using standard random route procedures as every Nth address from the initial address. In each household, a respondent was drawn, at random, following the closest birthday rule. No more than one interview was conducted in each household.

The regular sample size (in the sense of completed interviews) is 1000 respondents per country, except Germany with separate samples for the Eastern (500) and the Western part (1000), as well as Luxembourg, Republic of Cyprus, Malta, Montenegro, and Northern Cyprus (Cyprus TCC) with 500 interviews each. Starting with Eurobarometer 89.2 no separate sample is drawn for Northern Ireland, which is now covered by the

sample for the United Kingdom. The effective number of realized interviews in this round is indicated in table 1.

1.5 Fieldwork

From November 08 to November 22, 2018, Kantar Public carried out the fieldwork for this Eurobarometer, at the request of the European Commission, Directorate-General for Communication. Kantar Public is based in Brussels, Belgium, and co-ordinates the fieldwork carried out through its network of national institutes:

1.6 Mode of data collection

In all countries, fieldwork was conducted on the basis of detailed and uniform instructions prepared by Kantar Public. Interviews were conducted face-to-face in people's home in the respective national language. As far as the data capture is concerned, CAPI (Computer Assisted Personal Interview) was used in those countries where this technique was available.

Equivalent French and English basic questionnaires were developed for this Eurobarometer. These questionnaires were translated into other languages by the firms responsible for interviewing in each country. Back-translation procedures were applied for controlling semantic equivalence. Multi-language questionnaires are applied if appropriate (Belgium, Luxembourg, Spain, Finland, Estonia, Latvia, Malta, Türkiye, and Macedonia).

In each country only the national language version(s) of the questionnaire is (are) used; in countries with more than one official language, the language version is selected at the beginning of the interview.

1.7 Weighting

In general, the Standard and Special Eurobarometer data sets provide for two types of weighting, a post-stratification sample weighting and a population size weighting.

For each sample, i.e. participating country or lower level region, a comparison between the sample composition and a proper universe description is carried out for internal weighting purposes. The universe description is made available by the National Survey Research Institutes and/or by EUROSTAT. On this basis, a national weighting procedure, using marginal and intercellular weighting, is applied. As such, in all countries, minimum sex, age, region NUTS II (basic regions as defined by the EUROSTAT nomenclature of territorial units for statistics), and size of locality are introduced in the iteration procedure. This post-stratification weighting is also referred to as redressment or non-response weighting. A design weight which would adjust for unequal selection probabilities (depending on the household size) is not made available.

For the descriptive analysis of individual samples or their comparison up to six weighting variables are provided in each data set and documented as such in the variable description. Until Eurobarometer 31 the corresponding weight variable is labelled NATION WEIGHT II. Weighting factors were then not included continuously for all samples and weighting procedure might have differed from the foregoing description. While weighting usually reproduces the real number of cases for each sample, between Eurobarometer 33 and 54.1 samples can also be adjusted to their predefined standard size of exactly 1000 or 500 cases. This option was applied for the official Eurobarometer reports of the period.

The population size weighting factors correct for the fact that most samples are of almost identical size, no matter how large or small the populations are from which they were drawn. These weights ensure that each country or lower level area sample (Great Britain and Northern Ireland, East and West Germany) is represented in proportion to its population size within different groupings according to the historical states of European unification (e.g. founder members, new members, Euro zone countries) in the case of the EUROPEAN WEIGHTS, as well as within the United Kingdom (WEIGHT UNITED KINGDOM, NATION WEIGHT I until Eurobarometer 31) or Germany as a whole (WEIGHT GERMANY).

The population size weights all include the post-stratification weighting factors. The EUROPEAN WEIGHTS adjust each sample in proportion to its share in the total population of the European Union (formerly European Community), aged 15 and over. These adjustments are based on population figures published by EUROSTAT in the Regional Statistics Yearbook. In some cases more than 20 European weights are provided for use in analyses of the European Union population as a whole or in accordance with its historical compositions. Between Eurobarometer 33 and 54.1 adjustments to the predefined standard sample size is taken into account. In general, all countries or samples which do not belong to the respective group under consideration are excluded from calculation. The special weights for the United Kingdom and Germany do exclude all other countries from calculation starting with Eurobarometer 62. The application of post-stratification weights is recommended for descriptive (univariate) analysis. Meaningful descriptive results for groups of countries or for countries with separate samples (United Kingdom and Germany) require population size weighting. Official Eurobarometer reports are always based on weighted data.

Starting with Eurobarometer 66.2, a new additional weight (WEIGHT EXTRA) is provided which extrapolates the actual universe (population aged 15 or more) for each country or sample. This weight variable integrates all other available weights, but does not reproduce the number of cases in the data set, but the respective actual population size.

As needed, OVERSAMPLES (see chapter 2.4, table 4) are weighted separately, as documented in the respective study and weight variable description. In some surveys, special weights are made available for application with selected variables on a specific topic, e.g. for the descriptive analysis of variables regarding e-communication equipment on HOUSEHOLD level.

Eurobarometer 90.3 provides two (post-stratification) NATION WEIGHTS: W1 (WEIGHT RESULT FROM TARGET) for separate analysis or comparison of individual samples (countries or regions on sub-national level), and W3 (WEIGHT GERMANY ONLY), which adds the adjustment of the East and West German samples to their respective proportions in the United Germany, to be used for descriptive analysis of the United Germany as a whole. W3 excludes all other countries from calculation but include the post-stratification factors for Germany. Starting with Eurobarometer 89.2 no separate sample is drawn for Northern Ireland, which is now covered by the sample for the United Kingdom. Accordingly, the formerly available weight variable w4 (WEIGHT UNITED KINGDOM) is obsolete and no longer included in the dataset.

Starting with Eurobarometer 75.4 and in accordance with former practice up to Eurobarometer 61, the archive started to derive (see 1.8. Data preparation) three additional weights W3A, W4A, W3A_W4A in order to provide for the analysis of the United Kingdom and/or Germany as a whole together with all other samples, as separate countries (samples). W3A (WEIGHT RESULT FROM TARGET – UNITED GERMANY) combines the weighting factors for Germany as a whole (redressment factors plus populations size factors East/West) and the redressment factors for all other countries (Great Britain and Northern Ireland separated). W4A (WEIGHT RESULT FROM TARGET – UNITED KINGDOM) combines the weighting factors for the United Kingdom as a

whole (redressment factors plus populations size factors) and the redressment factors for all other countries (Germany East and West separated). W3A_W4A (WEIGHT RESULT FROM TARGET – NATION) combines the weighting factors for the United Kingdom as a whole, the weighting factors for Germany as a whole), and the redressment factors for all other countries. Unlike the originating weights, W4 (WEIGHT UNITED KINGDOM ONLY) and W3 (WEIGHT GERMANY ONLY), all countries are included in calculations. Starting with Eurobarometer 89.2 no separate sample is drawn for Northern Ireland, which is now covered by the sample for the United Kingdom. Accordingly, the formerly available weight variable w4 (WEIGHT UNITED KINGDOM) is obsolete and no longer included in the dataset. Additionally, starting with 89.2 formerly derived weight variables w4a 'WEIGHT RESULT FROM TARGET - UNITED KINGDOM' (Germany East and West separated) and w3a4a 'WEIGHT RESULT FROM TARGET - NATION' (coding together both separate samples, Great Britain und Northern Ireland as well as East and West Germany and all other countries) are also obsolete and no longer included in the dataset. As a consequence country/sample identification variables 'cntry_gb' and 'cntry_de' (now identical to variable 'nation') are also obsolete starting with Eurobarometer 89.2.

The EUROPEAN WEIGHTS provide adjustments for each (national) sample in proportion to its share in the total population aged 15 and over, of the European Union, within groups of member countries, of accession or candidate countries, and of Euro zone countries, representing different historical states of European integration (e.g. EU6 = six founder members). All post-stratification factors are included.

Table 2: Overview of population size weights on European level

European Weights in Eurobarometer 90.3	Function
W5 to W9, W11, W14, W22, W23, W87	grouping EU member countries
W10, W13, W24, W94	grouping new member countries
W95, W97, W100	grouping candidate/accession countries
W92	grouping member + candidate/accession countries
W29, W30, W81, W82, W83, W84, W85, W86, W89, W90, W98, W99	grouping (non-)Eurozone countries
wextra	extrapolating population size (15+) for each country

For more detailed information on the individual weights please see the corresponding variable description.

1.8 Data preparation

The data received by the GESIS Eurobarometer Data Service from Kantar Public were checked for completeness, missing data and duplicate records, for illegal (wild) codes and for (formal) consistency of response patterns and question routing. Errors discovered by these procedures are documented or corrected, as a general rule after consulting related additional documentation (e.g. tabular reports) or the data provider. Indices and other derived summary variables were also checked and corrected as necessary. Complete machine-readable DDI-XML compliant documentation was created for this dataset by GESIS.

Starting with Eurobarometer 76.1, the traditional variable naming by serial V-numbers (V1 to Vn) has been replaced by a system based on question and item numbers in the questionnaire and elsewhere on standard mnemo-technical. The dot used in the original Kantar Public variable names for multiple response dummy variables is replaced by underscore in view of potential software incompatibilities.

The archive identification variables comprise the archive study identification number ('studyno'), the digital

object identifier ('doi') of the present dataset version, the version number and date ('version') and the edition type ('edition'). A unique case id ('unqid') for the complete dataset has been constructed from the Kantar country id (digits 1-2) and the Kantar case/respondent id (digits 3-8).

Three country/sample identification variables are supplied, maintaining the original country/sample codes ('tnscntry'), applying the established archive standard codes for the Eurobarometer series ('country'), and an alphanumerical variable applying the ISO 3166-1 alpha-2 codes ('isocntry') with adaptations for Great Britain and Northern Ireland (ISO 3166-2), for East and West Germany, and for Northern Cyprus (Turkish Cypriot Community). Starting with Eurobarometer 89.2 (ZA7482) no separate sample is drawn for Northern Ireland, which is now covered by the sample for the United Kingdom (GB: ISO 3166-1-alpha-2 country code).

GESIS added 'Inappropriate' (INAP) codes to indicate intentionally skipped questions when it could be determined that the appropriate skip instruction in the original questionnaire was adhered to for (almost) every respondent. An additional INAP category was defined whenever a question or group of questions were not surveyed in one or more countries, or if variables refer to country specific items (e.g. region variable P7).

Users should note that answers to multiple-response questions are (originally) represented by a series of binary 'dummy' variables (i.e. variables which take on values of one and zero only), creating separate 'dummy' variables also to explicitly represent 'Don't know', 'No answer/refusal' or other residual responses, such as 'None of the above'. GESIS has recoded these residual responses in the case of uncommon minor inconsistencies in accordance with the series of substantial answers.

GESIS has recoded the missing answers (NA) represented in the original data set by blanks (system missing) to standard values. Their practically complete absence suggests that eventual cases of any not explicitly coded item non-response might be collapsed with the DK (don't know) category.

Question text and contingency text appearing in the variable description is taken from the English language version of the basic (bilingual) questionnaire (master questionnaire). Coding schemes and other documentation are based on the English language version of the basic questionnaire or on the respective SPSS data definition statements as provided by Kantar Public. In case of any discrepancy between questionnaires, SPSS definitions and data regarding the coding scheme of a variable, GESIS, as a general rule, carried out any correction in agreement with the data provider.

If the documentation for country-specific questions or answer categories is provided in another language than English, the archive documents the original language wording and supplies the English translation in brackets.

Region NUTS 2 categories for Portugal have been edited and adapted to changes as of 2002 (NUTS version 2003) which are reflected in Eurobarometer starting with wave 62 (confirmed by TNS). Region NUTS 1 categories for Greece have been edited correcting for the non-coverage of Ionian and Aegean Islands starting with Eurobarometer 62 (confirmed by TNS).

P7 (REGION – NUTS CODES) – variables 'nuts' and 'nutslvl': The integrated NUTS variable has been derived by GESIS from the original Kantar country-wise P7 variables in accordance with NUTS units and (alphanumeric) codes defined in the Nomenclature of Territorial Units for Statistics. For each country the lowest subdivision level has been considered insofar consistent with or clearly mappable to one of the NUTS levels as valid for the relevant time period (<https://ec.europa.eu/eurostat/web/nuts/history>).

Starting with 89.2 formerly derived weight variables w4a 'WEIGHT RESULT FROM TARGET - UNITED KINGDOM' (Germany East and West separated) and w3a4a 'WEIGHT RESULT FROM TARGET - NATION' (coding together both separate samples, Great Britain und Northern Ireland as well as East and West Germany and all other countries) are also obsolete and no longer included in the dataset.

All INDEX and TOTAL variables have been checked and documented accordingly.

More detailed information on data preparation, harmonization or regarding inconsistencies is noted on variable level, if applicable.

1.9 Further remarks

All question modules in the standard Eurobarometer context and largely replicating questions asked in the context of Eurobarometer 89.1 [ZA6963] and Eurobarometer 88.3 [ZA6928].].

Starting with Eurobarometer 81.3 (with 84.1 for Germany), the category scheme for country specific protocol variables P6 (SIZE OF COMMUNITY) has changed considerably. Categories for all countries have been harmonized among each other to three values (Rural area - Towns and suburbs/small urban area - Cities/large urban areas) except for Türkiye (5-point category scheme). Starting with Eurobarometer 85.2 the category scheme for Montenegro, Serbia and Albania changed from three to two categories (Rural area – Urban area).

Starting with Eurobarometer 81.3 the category scheme for country specific protocol variables P7 (REGION) has changed for some countries, in particular introducing NUTS categories for Ireland, Estonia, and Croatia.

Starting with Eurobarometer 89.2 no separate sample is drawn for Northern Ireland, which is now covered by the sample for the United Kingdom. Accordingly, the formerly available weight variable w4 'WEIGHT UNITED KINGDOM' is obsolete and no longer included in the dataset. Additionally, starting with Eurobarometer 89.2 formerly derived weight variables w4a 'WEIGHT RESULT FROM TARGET - UNITED KINGDOM' (Germany East and West separated) and w3a4a 'WEIGHT RESULT FROM TARGET - NATION' (coding together both separate samples, Great Britain und Northern Ireland as well as East and West Germany and all other countries) are also obsolete and no longer included in the dataset.

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recording this consent have not been part of the original data delivery.

Please note that gen1 to gen6 are based on age instead of year of birth, which may entail a slightly inaccurate categorization for some respondents.

The fieldwork dates implied by the values in protocol variable p1 (date of interview) differ slightly from those indicated in the technical specifications provided by Kantar for several countries.

Extrapolated population figures as calculated by WEXTRA differ from the population 15+ figures for Türkiye indicated in the technical specifications provided by Kantar Public.

Starting with dataset version v2-0-0: Since 102 respondents from the Turkish Cypriot Community are coded 1 (Mentioned) in q1_29 ('NATIONALITY: TURKEY') even though q1_29 should only have been fielded in Türkiye, the countries excluded by the corresponding filter statement are respectively coded 0 ('Not mentioned') in variable q1_29'. In former dataset versions the other countries (except Türkiye and Turkish Cypriot Community in q1_29) had been coded as missing value code 9.

Please note that qa14_1 ('EU KNOWLEDGE: EURO AREA 19 STATES') was asked only in the EU28 countries and the Turkish Cypriot Community. Respondents from other countries therefore technically cannot be coded as having three correct answers in qa14t_5 ('EU KNOWLEDGE - 3 CORRECT ANSWERS') and in euknowl ('OBJECTIVE KNOWLEDGE OF THE EU (SUMMARIZED)').

Summarized variable qa15r has been modified by GESIS by recoding additional category 'For 0 statements'.

Please note that one respondent from the Turkish Cypriot Community gives substantial answers in qd4b_1 to qd4b_9 ('POSITIVE EU RESULT 2ND') and at the same time is coded 1 ('Mentioned') in qd4b.10 ('None').

Please note that 92 respondents are coded 1 in qe4b_7 ('NAT POLIT MATTERS NEWS 2ND: DO NOT LOOK FOR (SPONT)'). According to the interviewer instruction answer category 7 'You do not look for news on national political matters (Spontaneous)' should have not be used in question qe4b. As a consequence, summarized variable qe4t_7 ('NAT POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe4a and qe4b_7.

Starting with dataset version v2-0-0 respondents coded value 9 'Inap. (coded 7 or 8 in qe4a)' in qe4b_1 to qe4b_8 are coded correspondingly to value 9 in qe4b_t. These respondents were coded 0 'Not mentioned' in qe4b_t in former versions of the dataset.

Please note that five respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)'). According to the interviewer instruction answer category 7 'You do not look for news on European political matters (Spontaneous)' should have not be used in question qe5b. As a consequence summarized variable qe5t_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe5a and qe5b_7. Additionally, from these respondents two respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)') and at the same time are coded substantial answers in (coded 1 ('Mentioned')) in qe5b_1 to qe5b_6.

Starting with dataset version v2-0-0 respondents coded value 9 'Inap. (coded 7 or 8 in qe5a)' in qe5b_1 to qe5b_8 are coded correspondingly to value 9 in qe5b_t. These respondents were coded 0 'Not mentioned' in qe5b_t in former versions of the dataset.

Please note that 16 respondents give substantial answers to qe6 ('EU INFORMATION SOURCES') and at the same time are coded 1 ('Mentioned') in qe6_15 ('EU INFORMATION SOURCES: NEVER LOOK FOR (SPONT)').

Please note that one respondent from the Turkish Cypriot Community gives substantial answers in d46_1 to d46_11 ('OWNERSHIP DURABLES') and at the same time is coded 1 ('Mentioned') in d46_12 ('None').

For Eurobarometer 90.3 no country specific Kantar case id for DE-W, DE-E and GB is provided (variable 'caseid' is coded '9999999', variable uniqid is coded '999999999'). The dataset does include an original

unique serial id across all countries (variable 'serialid').

SIZE OF COMMUNITY (p6mk) is not available for Macedonia.

The REGION variable for Romania (p7ro) was updated after the publication of the corresponding official reports and tables, which leads to a slightly different distribution of cases on this variable in the published dataset. As a consequence of this update weights referring to Romania have also been modified, which might lead to further slight deviations in the dataset results.

LANGUAGE OF INTERVIEW in Macedonia (p13mk) has been corrected according to plausibility consideration and checked against regions (p7mk) with Albanian resp. Macedonian speaking majorities.

Data for protocol variables p8 (postal code), p9 (sample point number) and p10 (interviewer number) have not been made available.

2 Eurobarometer series description

2.1 Series name

The Standard and Special Eurobarometer (a.k.a. Euro-Barometer) Survey Series

2.2 Series information

The Standard and Special Eurobarometer surveys are the products of a unique program of cross-national and cross-temporal survey research. The effort began in early 1970, when the Commission of the European Communities sponsored simultaneous surveys of the publics of the European Community. In general, they are carried out in spring and fall of each year. Three pilot studies were conducted in 1970, 1971 and 1973 under the header of European Communities Studies; 'Attitudes towards Europe' (GESIS study ZA0078), the very first comparative survey across European Communities founder members in 1962, can be seen as an early forerunner. The primary data of the first explicit Eurobarometer, conducted in spring 1974, have not been preserved.

2.3 Principal investigators and institutional background

The Eurobarometer program was initially launched and managed until 1986 by Jacques-René Rabier, head of the Commission's press and information directorate and afterwards special advisor to the Commission of the European Communities. He had the political support of the European Parliament and the close co-operation of Ronald Inglehart. The political scientist at the University of Michigan was then developing his theory of value change in modern societies and his materialist/post-materialist items would become integral part of the Eurobarometer until the mid-nineties. Between 1987 and 1996 the program was continued and considerably enlarged under the direction of Karlheinz Reif, since 1993 together with Anna Melich.

Anna Melich took over the Eurobarometer direction from 1997 to 1999, by then still within the organizational framework of the former Directorate-General X, Public Opinion Surveys and Research Unit. In 2000/2002 Eurobarometer were intermittently conducted in the framework of the DG Education and Culture, Citizens' Centre - Analysis of Public Opinion under the direction of Harald Hartung, and starting with Eurobarometer 54 under DG Press and Communication, initially directed by Thomas Christensen. Since 1999, the organisation and supervision of the surveys were consecutively executed by Rubén Mohedano-Brèthes (until 2002) and Renaud Soufflot de Magny (until 2006), with Antonis Papacostas as head of unit between 2003 and 2010.

At present, the Eurobarometer surveys are carried out on the general responsibility of the European Commission Directorate-General Communication, COMM.A.3 'Media Monitoring & Eurobarometer', with Oana Hriscu as head of the unit and Roberto Santaniello as head of the Eurobarometer sector.

The special topic modules are requested by the respectively responsible EC Directorate General, as regards the content. Since 2007, the European Parliament is commissioning its own survey ('Parlemeter') through the Public Opinion Monitoring Unit of the European Parliament, in close cooperation with the DG COMM unit and within the same survey framework.

The main survey results are regularly published on the European Commission's Public Opinion website (<https://europa.eu/eurobarometer>) in official standard and special topic reports; detailed tabular reports are published through the European Union Open Data Portal (<https://data.europa.eu/data>).

2.4 Development of geographical and population coverage

In all European Union (formerly European Communities) member countries Standard Eurobarometer samples were initially drawn among the national population, aged 15 and over. Starting with Eurobarometer 41.1 the target population is the population of any nationality of an European Union member country, aged 15 years and over, resident in any of the Member States. For test purposes Eurobarometer 41.0 included a non-national European Union citizens oversample.

Eurobarometer regularly include all member countries, starting with the six founder members and in accordance with the enlargement process. Norway has been in-officially included in selected waves between 1989 (EB34) and 1996 (EB46), Finland started before the actual enlargement in 1993 (EB39.0), and a few Swiss Eurobarometer were run in parallel to selected waves or topics, starting in 1999 (EB51.1). Candidate Countries (CC) and Accession Countries (AC) for the Eastern enlargement process were first surveyed in the Candidate Countries Eurobarometer series (2001-2004) and then all included in the Standard Eurobarometer series, even before starting the accession process (e.g. Türkiye or Macedonia). Further countries are continuously added in accordance with the EU membership application and accession process.

Additional samples are drawn for Great Britain and Northern Ireland almost from the start, in Germany (East and West) after the re-unification in 1989, and in Cyprus for the Turkish Cypriot Community (Northern Cyprus) since 2004 for selected standard and topical waves.

Table 3: EU enlargement and countries covered by Standard and Special Eurobarometer

EU History	Survey (start)	Country (Sample)	ISO Code Alpha-2	Standard Sample Size	Remarks

	EB94.3 (2021)	<i>Kosovo</i>	<i>RS-KM</i>	<i>1000</i>	<i>Standard modules</i>
	EB98.2 (2023)	<i>Moldovia</i>	<i>MD</i>	<i>1000</i>	<i>Standard modules</i>

The regular standard sample size (in the sense of completed interviews) in Eurobarometer surveys is 1000 respondents per country, except small countries like Luxembourg or Malta. The 44.2bis MEGA-survey increased the standard sample up to 6000 respondents (for the largest countries) in order to achieve more confidence for analysis on sub-national level.

Oversamples have been drawn intermittently if required by the topic, i.e. to ensure that there are enough members of the relevant population subgroup to report sufficiently reliable estimates. Intentionally more people are selected from the respective group than would typically be done if everyone in the sample had an equal chance of being selected.

Table 4: Oversamples for special topic Eurobarometer

Topic	(Over-)Sample	Eurobarometer Survey
Young Europeans	Youth aged 15-24, 16-30	17, 28.1, 34.2, 47.2OVR, 55.1OVR, 85.1OVR
Elderly Europeans	Elderly aged 60+	37.2
Consumer Behaviour	Responsible for shopping	41.0
Unemployment	Unemployed	44.3OVR
Working Conditions	Professionally active	37.0+1, 39.0+1
Drug Abuse	Youth aged 15-24	43.0+1, 57.2OVR
Education Issues	Youth aged 15-24	44.0 / 44.1 (data not integrated)
Sampling experiment	Non-Nationals	41.0

2.5 Standard question program and special topics

The Standard Eurobarometer surveys were designed to provide a regular monitoring of the social and political attitudes among the European publics, to obtain regular readings of support for European integration, public awareness of and attitudes toward European unification, the institutions of the European Community / European Union, and its policies in complementary fashion. Attitudes toward the organization and role of the European Parliament and electoral behavior became a major topic in pre- and post- European Elections times. The standard program was complemented by measures of general socio-political orientations, of subjective satisfaction and the perceived quality of life, or of cultural, national and European identities.

Intermittently, Standard Eurobarometer have investigated SPECIAL TOPICS, such as agriculture, biotechnology, energy, environment, family planning, gender roles, health related issues, immigration, poverty and social exclusion, regional identity, science and technology, information society, working conditions, urban traffic, knowledge of languages etc. In the case of some supplementary studies, special youth and elderly samples have been drawn (see table 4).

Starting with Eurobarometer 34 (1990), additional supplementary surveys on special issues have been conducted under each main wave number, identified by dot-separated sub-numbers for each individual survey. Usually only one survey per main wave includes the standard and trend module with focus on European integration issues (table 5). Selected subsets of standard trend questions appear in the context of related special topics (e.g. 'The Future of Europe' or 'European Parliament Eurobarometer').

Table 5: Overview of Eurobarometer surveys with standard EU and trend question modules

Standard and EU trend surveys	Fieldwork	GESIS Study ID	Standard Report	Subset	Special Topic
Eurobarometer 100.2	Oct-Nov 2023	ZA8779	X		
Eurobarometer 100.1	Sept-Oct 2023	ZA8778			X

Further and regularly updated information on the Eurobarometer survey series is provided through the GESIS Eurobarometer Data Service micro-site: <https://www.gesis.org/en/eurobarometer-data-service>.

3 Dataset structure and standards

The processing and documentation of the Standard and Special Eurobarometer are based on standards agreed upon between the Inter-university Consortium for Political and Social Research (ICPSR) and the GESIS Eurobarometer Data Service, which may in some details diverge from the usual ICPSR or GESIS archive standards. In addition and as long as reasonable, it was adhered to standards once established for the Eurobarometer series in the course of the years.

3.1 Dataset structures

In general, the variable structure of the analysis dataset is aligned to the basic bilingual questionnaire, preceded by a set of administrative/technical variables. These comprise the ARCHIVE and dataset ID variables (studyno1, studyno2, doi, version, edition, survey, split (if applicable), caseid, uniqid), the COUNTRY ID variables with several standard variables identifying the different countries (or sub-national samples) and relevant groups of countries (or sub-national samples) in the dataset, arranged in pairs with the corresponding WEIGHT variables provided by the fieldwork institutes (see 1.7). A special alphanumeric variable ('isocntry') is provided based on the ISO 3166 country code standard (see 1.8).

The questionnaire variables usually consist of three types, the substantial questions (Q), the Eurobarometer standard demographics (D) and the interview protocol variables (P). Starting with Eurobarometer 76.1, the traditional variables naming by serial V-numbers (V1 to Vn) is replaced by a system based on question and item numbers in the questionnaire and elsewhere on standard mnemo-technicals (see 1.8). Likewise, from survey 76.1 onwards, constructed total or index variables, usually as provided by the fieldwork institute, are listed right after the question variables on which they are based. The dataset is concluded by three additional weights and their corresponding NATION country variables 'w3a'/'cntry_de', 'w4a'/'cntry_gb', 'w3a4a'/'nation' (see 1.8).

Variable labels are standardized in the sense that they provide keywords based on the question text and that these keywords are applied consistently if questions or question items are repeated over time (trend variables). Variable label may include abbreviations if required, e.g. limitations regarding the length of variable labels in older versions of statistical analysis software. Starting with Eurobarometer 33 und up to wave 75 the variable labels include the respective question number as a reference to the basic bilingual questionnaire.

3.2 Coding frames

By general rule, the variables adopt the coding frame as specified in the basic bilingual questionnaire, except for multiple response questions (see 1.8), questions with country specific answer categories and missing values.

3.2.1 Country specific answer categories

Eurobarometer include some questions (variables) with country specific answer categories like INCOME, SIZE OF COMMUNITY, REGION or variables related to VOTING BEHAVIOUR with reference to POLITICAL PARTIES. Until Eurobarometer 48 only one integrated variable is supplied with each category representing country

specific meanings (e.g. geographic regions) which are not documented within the analysis dataset by means of value labels, but only in the extended variable description in the variable report. Starting with Eurobarometer 49, the integrated variables are retained but complemented by completely labeled country specific variables. The country specific coding schemes and categories are maintained as a standard over time as long as the category schemes provided in the questionnaire remain comparable.

Starting with Eurobarometer 74.1, an additional standardized REGION variable 'nuts' (REGION - NUTS CODES) is constructed, integrating all participating countries with regional units defined in accordance with the EUROSTAT Nomenclature of Territorial Units for Statistics (NUTS). For each country the lowest available NUTS subdivision level is considered, whereby the hierarchical structure always implies all higher subdivision levels. The official NUTS codes are coded verbatim in accordance with the in each case valid (applicable) NUTS version as documented in the official EUROSTAT classification history (History of NUTS). A second variable indicates the lowest coded NUTS LEVEL 'nutslvl' for each country. All original regional subdivisions and categories remain coded separately and unchanged in the country-wise P7 variables. Details are documented with the respective country specific and/or integrated variable.

3.2.2 Missing values

In general, missing value codes are defined in accordance with the standard once established for the Eurobarometer series, in particular the default use of whatever value supplied by the basic questionnaire for DK ('don't know') responses, unless a standard coding scheme is applied for demographic or protocol variables. The value 0 is applied for NA (i.e. 'not ascertained' resp. 'no answer') and the value 9 (99, 999, ...) for INAP (i.e. 'inappropriate' resp. 'not applicable'). If one of these values falls into the valid range of codes, the missing values are shifted to the next available missing value code or 'level', e.g. if 0 is used in a dichotomous variable (NOT MENTIONED), value 9 is used for NA, respectively value 8 if value 9 is already used for INAP. If necessary the corresponding two- or more digit codes are used (99, 999, 98, 998 ...). Recently separate missing values are coded for INAP depending on whether the respondent was not asked a question due to questionnaire routing (filter non-response) or whether the question was not provided for in the country's field questionnaire. Other missing values (e.g. REFUSAL) are coded with the in each case next available code (e.g. 7, 97, 997, ...). In the analysis data set these codes are by default declared and treated as USER MISSING, but may be modified by the user to suit specific needs.

As noted in chapter 1.8, missing answers (NA) represented in the original dataset by blanks (system missing) have been recoded to standard values by GESIS. Their practically complete absence suggests that eventual cases of any not explicitly coded item non-response might be collapsed with the DK (don't know) category.

3.3 International documentation standard (DDI)

The study and variable level documentation is set up in accordance with the international metadata specifications for the social and behavioural sciences, established by the Data Documentation Initiative <DDI>. The variable reports are based on the XML representation of DDI version 2. The variable level documentation combines the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the basic bilingual (master) questionnaire with the variable description (variable name, values, and labels) of the analysis dataset. General remarks and comments referring to a certain variable are defined as variable notes. Notes can be references to trend (comparability) information, standards applied for coding frames, problems in questionnaire translation, but also references to data problems or other specific characteristics.

4 Explanation of the variable documentation

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. The variable documentation is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with international metadata standards (DDI-Codebook/XML).

In general, the following abbreviations are used to indicate countries or (sub-national) areas. As far as applicable, the ISO 3166-1 alpha-2 country codes have been applied and coded accordingly in the alphanumeric sample identification variable (COUNTRY CODE - ISO 3166). In the case of Greece the non-ISO abbreviation EL* is used in parallel, as introduced by EUROSTAT as of NUTS version 2010.

The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable. Results are usually broken down by country (sample) or represented by frequency counts in the case of country specific variables. In the case of variables with long lists of coded 'real' values (e.g. age), results are only presented for the corresponding categorized variable, if available. The content and construction of technical, administrative or other generated variables is described as appropriate.

The frequencies for substantive variables are calculated on the base of weighted data, as indicated with each table and in accordance with the European Commission's official Eurobarometer reports. Typically the sample specific post-stratification (redressment) weight is applied (WEIGHT RESULT FROM TARGET or NATION WEIGHT II). Due to rounding, users may find slightly different figures if using other statistical

packages, especially if the number of cases is very low.

The complete question and answer texts are taken from the English language part of the respective basic bilingual questionnaire (master questionnaire) as provided by the coordinating fieldwork institute.

DERIVATION information refers to the construction principle of indices or other derived variables (not in the example). NOTE delineates additional explanatory text subsuming trend information (last appearance of the question) or archive remarks on data processing and other issues relevant for the understanding or application of the variable.																																																																																																																																																																																																																																																																															
CROSS-TABULATION: The absolute frequencies of the occurrence of values (<i>absolute values</i>) refer to the number of cases in the weighted dataset as indicated, in this case <i>weighted by V8</i> . The relative frequencies (<i>row percent</i>) refer to the valid cases (<i>n valid sum</i>), i.e. the total number of cases (<i>n sum</i>) reduced by the number of cases defined as missing data (<i>M</i>). For display and place saving reasons excluded countries or areas may be completely dropped from the table.																																																																																																																																																																																																																																																																															
FREQUENCY COUNTS: For country specific variables relative frequencies are calculated in- and excluding missing data (<i>M</i>), i.e. <i>percent</i> on the basis of all cases (<i>sum</i>) and <i>valid percent</i> on the basis of the <i>valid cases</i> .																																																																																																																																																																																																																																																																															

5 Variable documentation

Variable, Label

Question Text (English Language)

studyno1 - ARCHIVE STUDY NUMBER - DISTRIBUTOR

Archive study number – distributor

Study number of the distributing data archive.

7489 GESIS STUDY ID ZA7489

studyno1

Value	Label	Missing	Count	Percent	Valid Percent
7489	GESIS STUDY ID ZA7489		32600	100.0	100.0
	Sum		32600	100.0	100.0
	Valid Cases		32600		

studyno2 - ARCHIVE STUDY NUMBER - PUBLISHER

Archive study number – publisher

Study number of the data archive which is publishing this dataset version.

7489 GESIS STUDY ID ZA7489

studyno2

Value	Label	Missing	Count	Percent	Valid Percent
7489	GESIS STUDY ID ZA7489		32600	100.0	100.0
	Sum		32600	100.0	100.0
	Valid Cases		32600		

doi - DIGITAL OBJECT IDENTIFIER

Digital object identifier

This variable holds the Digital Object Identifier (DOI) for the dataset at hand as registered via the da|ra registration agency for economic and social science data. Each dataset version (see variable 'version') has a unique persistent DOI.

For direct access to the complete archive dissemination package for this study, including new dataset versions, the DOI needs to be appended to the resolver service URL: <https://dx.doi.org/10.4232/1.14392>

In terms of good scientific practice, the DOI is an important element for the correct citation of a dataset.

doi

Value	Label	Missing	Count	Percent	Valid Percent
doi:10.4232/1.14392			32600	100.0	100.0
	Sum		32600	100.0	100.0
	Valid Cases		32600		

version - GESIS ARCHIVE VERSION & DATE

GESIS archive version & date

2.0.0 '2024-12-19'

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

For details of the version history and for information on errata in current or former dataset versions, please consult the GESIS data catalogue entry (study description) persistently referenced by the dataset DOI (Digital Object Identifier).

version

Value	Label	Missing	Count	Percent	Valid Percent
2.0.0 (2024-12-19)			32600	100.0	100.0
	Sum		32600	100.0	100.0
	Valid Cases		32600		

edition - DATASET EDITION

Dataset edition

This variable identifies the type of archive release for the dataset at hand.

1 Archive pre-release

2 Archive edition

edition

Value	Label	Missing	Count	Percent	Valid Percent
2	ARCHIVE EDITION		32600	100.0	100.0
	Sum		32600	100.0	100.0
	Valid Cases		32600		

survey - SURVEY IDENTIFICATION

Survey identification

The number identifying the Eurobarometer survey.

903 Eurobarometer 90.3 (November 2018)

survey

Value	Label	Missing	Count	Percent	Valid Percent
903	Eurobarometer 90.3 (November 2018)		32600	100.0	100.0
	Sum		32600	100.0	100.0
	Valid Cases		32600		

caseid - KANTAR CASE ID (SEE NOTE)

Kantar case ID

The original non-unique case (interview) identification numbers as provided by the fieldwork institute (Kantar). The unique respondent identification variable `uniqid` adds the original country identification codes (`tnscntry`) as a prefix to the original case ID numbers in order to make them unique.

Note:

Actual number is coded.

For Eurobarometer 90.3 no country specific Kantar case ID for DE-W, DE-E and CY-TCC is provided (variable `'caseid'` is coded `'9999999'`, variable `uniqid` is coded `'999999999'`). The dataset does include an original unique serial ID across all countries (variable `'serialid'`).

uniqid - UNIQUE RESPONDENT ID (CASEID BY KANTAR COUNTRY CODE) (SEE NOTE)

Unique respondent ID (caseid by tnsctry)

This unique respondent identification is composed of the original Kantar country code and the original Kantar interview number. The first two digits identify the country of interview (01: Belgium; 02: Denmark; 04: Greece; 05: Spain; 06: Finland; 07: France; 08: Ireland; 09: Italy; 10: Luxembourg; 11: Netherlands; 12: Austria; 13: Portugal; 14: Sweden; 20: Germany West; 21: Germany East; 22: United Kingdom; 31: Bulgaria; 32: Cyprus (Republic); 33: Czech Republic; 34: Estonia; 35: Hungary; 36: Latvia; 37: Lithuania; 38: Malta; 39: Poland; 40: Romania; 41: Slovakia; 42: Slovenia; 43: Türkiye; 46: Croatia; 57: Cyprus (CY-TCC); 63: Macedonia (FYROM); 64: Montenegro; 70: Serbia; 71: Albania). The remaining digits contain the country-specific questionnaire numbers.

Note:

Actual number is coded.

For Eurobarometer 90.3 no country specific Kantar case ID for DE-W, DE-E and CY-TCC is provided (variable 'caseid' is coded '9999999', variable 'uniqid' is coded '999999999'). The dataset does include an original unique serial ID across all countries (variable 'serialid').

Starting with Eurobarometer 89.2 (ZA7482) no separate sample is drawn for Northern Ireland, which is now covered by the sample for the United Kingdom.

serialid - SERIAL CASE ID (APPOINTED BY KANTAR)

Serial case ID (provided by Kantar)

This unique respondent identification number has been provided by Kantar. It shows the position of the cases in the dataset, starting with 1 and ending with 32600 (total number of cases).

Note:

Actual number is coded.

split - QUESTIONNAIRE SPLIT (QC2)

Split ballot

This questionnaire split concerns QC2.

- 1 SPLIT BALLOT A
- 2 SPLIT BALLOT B
- 9 Inap. not EU28 (coded 0 in eu28)

split

Value	Label	Missing	Count	Percent	Valid Percent
1	SPLIT BALLOT A		13715	42.1	50.0
2	SPLIT BALLOT B		13709	42.1	50.0
9	Inap. not EU28 (coded 0 in eu28)	M	5176	15.9	
	Sum		32600	100.0	100.0
	Valid Cases		27424		

tnscntry - ORIGINAL KANTAR COUNTRY/SAMPLE ID

Original Kantar country/sample ID

The original country identification codes as applied by the fieldwork institute (Kantar).

isocntry - COUNTRY CODE - ISO 3166

Country code - in accordance with ISO 3166-1-alpha-2 country code

All surveyed countries and regions, i.e. including separate samples for East-/West-Germany, and the Turkish Cypriot Community (TCC), are coded in accordance with the ISO 3166-1-alpha-2 country code, if available. ISO 3166-2 is applied for the United Kingdom subdivisions in former waves. ISO standard codes are not available for the 'historical' East/West subdivision of Germany (DE-E / DE-W) and for the Turkish Cypriot Community in northern Cyprus (CY-TCC), the internationally not recognized 'Turkish Republic of Northern Cyprus'.

Note:

Use of weighting factor w1 is optional.

Starting with Eurobarometer 89.2 (ZA7482) no separate sample is drawn for Northern Ireland, which is now covered by the sample for the United Kingdom.

w1 - WEIGHT RESULT FROM TARGET

w1 Weight result from target

This POST-STRATIFICATION WEIGHT is based on a comparison for each sample with the respective universe description. As such in all countries, gender, age, region and size of locality are introduced in the iteration procedure carried out by the fieldwork institutes.

East and West German samples are weighted separately. The weight reproduces the real number of cases for each country. In terms of its general function it corresponds to former NATION WEIGHT II (until EUROBAROMETER 31 (March-April 1989)).

Note:

Starting with Eurobarometer 89.2 (ZA7482) no separate sample is drawn for Northern Ireland, which is now covered by the sample for the United Kingdom.

The REGION variable for Romania (p7ro) was updated after the publication of the corresponding official reports and tables, which leads to a slightly different distribution of cases on this variable in the published dataset. As a consequence of this update weights referring to Romania have also been modified, which might lead to further slight deviations in the dataset results.

w9 - WEIGHT EU12+DE-E

w9 Weight EU12 + DE-E

This POPULATION SIZE WEIGHT equals WEIGHT EU12 but in addition including East Germany (former German Democratic Republic) after the unification of Germany on October 3, 1990 (Eurobarometer 34 (October-November 1990)). It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w9 must be applied whenever these twelve member countries are to be analyzed altogether as a group including the Eastern part of Germany (new German federal states).

w10 - WEIGHT EU NMS 3

w10 Weight EU NMS 3

This POPULATION SIZE WEIGHT only refers to the three new members as of January 1995: Austria, Finland, and Sweden. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w10 must be applied whenever these three countries are to be analyzed altogether as a group.

w11 - WEIGHT EU15

w11 Weight EU15

This POPULATION SIZE WEIGHT adds Austria, Finland, and Sweden to the EU12+DE-E countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w11 must be applied whenever these 15 countries as of the 1995 enlargement are to be analyzed altogether as a group.

w14 - WEIGHT EU25

w14 Weight EU25

This POPULATION SIZE WEIGHT adds Republic of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia to the EU15 countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) group of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w14 must be applied whenever these 25 countries as of the 2004 enlargement are to be analyzed altogether as a group.

w22 - WEIGHT EU27

w22 Weight EU27

This POPULATION SIZE WEIGHT includes all 25 member countries after the 2004 enlargement, plus the new members as of 2007 Bulgaria and Romania. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of the European Union. The post-stratification weighting factors for all samples/countries are included. Weight w22 must be applied whenever these 27 countries are to be analyzed altogether as a group.

Note:

The REGION variable for Romania (p7ro) was updated after the publication of the corresponding official reports and tables, which leads to a slightly different distribution of cases on this variable in the published dataset. As a consequence of this update weights referring to Romania have also been modified, which might lead to further slight deviations in the dataset results.

w92 - WEIGHT TOTAL (ALL SAMPLES)

w92 Weight EU28 + TR + CY-TCC + MK + ME + RS + AL (all samples)

WEIGHT EU28 + TR + CY-TCC + MK + ME + RS + AL is provided for analysing all participating countries (samples) in total, including the candidate country Türkiye, plus the Turkish Cypriot Community and the Former Yugoslav Republic of Macedonia, Montenegro, Serbia, and Albania. This POPULATION SIZE WEIGHT adjusts each national sample in proportion to its share in the total population aged 15 and over, of the total population surveyed in this wave (eu34). The post-stratification weighting factors are included. Weight w92 must be applied whenever these countries are to be analyzed altogether as a group.

Note:

The REGION variable for Romania (p7ro) was updated after the publication of the corresponding official reports and tables, which leads to a slightly different distribution of cases on this variable in the published dataset. As a consequence of this update weights referring to Romania have also been modified, which might lead to further slight deviations in the dataset results.

w24 - WEIGHT EU NMS 12

w24 Weight EU NMS 12

This POPULATION SIZE WEIGHT refers to the group of the 12 new member countries as of the enlargement in January 2007: Republic of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Slovenia, Bulgaria and Romania. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w24 must be applied whenever these 12 countries are to be analyzed altogether as a group.

Note:

The REGION variable for Romania (p7ro) was updated after the publication of the corresponding official reports and tables, which leads to a slightly different distribution of cases on this variable in the published dataset. As a consequence of this update weights referring to Romania have also been modified, which might lead to further slight deviations in the dataset results.

w29 - WEIGHT EURO ZONE 15 (EU27)

w29 Weight EURO ZONE 15 (EU27)

This POPULATION SIZE WEIGHT separates the group of countries which have adopted the EURO as their currency until 2008. These are 15 member states: Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland (introduction as of January 1, 2002), Slovenia (introduction as of January 1, 2007), Cyprus and Malta (introduction as of January 1, 2008). It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w29 must be applied whenever these countries are to be analyzed altogether as a group, e.g. when questions related to the introduction of the common European currency are concerned.

w81 Weight EURO ZONE 16 (EU27)

This POPULATION SIZE WEIGHT separates the group of countries which have adopted the EURO as their currency until 2009. These are 16 member states: Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland (introduction as of January 1, 2002), Slovenia (introduction as of January 1, 2007), Cyprus and Malta (introduction as of January 1, 2008), and Slovakia (introduction as of January 1, 2009). It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w81 must be applied whenever these countries are to be analyzed altogether as a group, e.g. when questions related to the introduction of the common European currency are concerned.

w99 - WEIGHT NON-EURO ZONE 18 (EU28)

w99 Weight NON-EURO ZONE 18 (EU28)

This POPULATION SIZE WEIGHT separates the group of countries (Denmark, United Kingdom, Sweden, Czech Republic, Hungary, Lithuania, Poland, Bulgaria, Romania, Croatia) which did not introduce the EURO up to January 1, 2014. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. It refers to the group of the EU28 countries including Croatia. Weight w99 must be applied whenever these countries are to be analyzed altogether as a group.

Note:

The REGION variable for Romania (p7ro) was updated after the publication of the corresponding official reports and tables, which leads to a slightly different distribution of cases on this variable in the published dataset. As a consequence of this update weights referring to Romania have also been modified, which might lead to further slight deviations in the dataset results.

w94 - WEIGHT EU NMS 13

w94 Weight EU NMS 13

This POPULATION SIZE WEIGHT refers to the group of the 13 new member countries as of the enlargement in January 2007 and the accession of Croatia in July 2013: Republic of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Slovenia, Bulgaria, Romania, and Croatia. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w94 must be applied whenever these 13 countries are to be analyzed altogether as a group.

Note:

The REGION variable for Romania (p7ro) was updated after the publication of the corresponding official reports and tables, which leads to a slightly different distribution of cases on this variable in the published dataset. As a consequence of this update weights referring to Romania have also been modified, which might lead to further slight deviations in the dataset results.

w85 - WEIGHT EURO ZONE 19 (EU28)

w85 Weight EURO ZONE 19 (EU28)

This POPULATION SIZE WEIGHT separates the group of countries which have adopted the EURO as their currency until 2015. These are 18 member states: Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland (introduction as of January 1, 2002), Slovenia (introduction as of January 1, 2007), Cyprus and Malta (introduction as of January 1, 2008), Slovakia (introduction as of January 1, 2009), Estonia (introduction as of January 1, 2011), Latvia (introduction as of January 1, 2014), and Lithuania (introduction as of January 1, 2015). It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. Weight w85 must be applied whenever these countries are to be analyzed altogether as a group, e.g. when questions related to the introduction of the common European currency are concerned.

w86 - WEIGHT NON-EURO ZONE 19 (EU28)

w86 Weight NON-EURO ZONE 19 (EU28)

This POPULATION SIZE WEIGHT separates the group of countries (Denmark, United Kingdom, Sweden, Czech Republic, Hungary, Poland, Bulgaria, Romania, Croatia) which did not introduce the EURO up to January 1, 2015. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. It refers to the group of the EU28 countries including Croatia. Weight w86 must be applied whenever these countries are to be analyzed altogether as a group.

Note:

The REGION variable for Romania (p7ro) was updated after the publication of the corresponding official reports and tables, which leads to a slightly different distribution of cases on this variable in the published dataset. As a consequence of this update weights referring to Romania have also been modified, which might lead to further slight deviations in the dataset results.

wextra - WEIGHT EXTRAPOLATED POPULATION 15+

wextra Weight extrapolated population 15+

Weight wextra extrapolates the actual universe (population aged 15 or more) for each country (sample), i.e. this weight variable integrates all other available weights, but does not reproduce the number of cases in the dataset.

Note:

Variable wextra was named wex in former versions of this dataset.

Extrapolated population figures as calculated by WEXTRA differ from the population 15+ figures for Türkiye indicated in the technical specifications provided by Kantar Public.

d11r1 - AGE: 4 GROUPS (RECODED)

Age of respondent - recoded to four categories

- 1 15 - 24 years
- 2 25 - 39 years
- 3 40 - 54 years
- 4 55 years and older

Derivation:

This variable collapses answers to d11 into four categories.

[d11 How old are you?]

Note:

See d11 for complete question text.

gen1 - GENERATION BEFORE 1928 (AGE 91 AND OLDER)

Generation born before 1928 (age 91 and older)

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes all respondents born before 1928 and is based on question d11 ('How old are you?'). Please note that variables gen1 to gen6 are based on age instead of year of birth, which may entail a slightly inaccurate categorization for some respondents.

Note:

See d11 for complete question text.

gen6 - GENERATION AFTER 1980 (AGE 15-37)

Generation born after 1980 (age 15-37) - 'Generation Y'

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes all respondents born after 1980 and is based on question d11 ('How old are you?'). Please note that variables gen1 to gen6 are based on age instead of year of birth, which may entail a slightly inaccurate categorization for some respondents.

Note:

See d11 for complete question text.

d71a_1 - POLITICAL DISCUSSION - NATIONAL MATTERS

D71A

DO NOT ASK D71A IN CY-TCC – CY-TCC GO TO D71B

When you get together with friends or relatives, would you say you discuss frequently, occasionally or never about...?

(READ OUT – ONE ANSWER PER LINE – CODE 'NO ANSWER' IN CODE 4)

D71A_1 National political matters

- 1 Frequently
- 2 Occasionally
- 3 Never
- 4 DK
- 9 Inap. (no consent given)
- 99 Inap. (CY-TCC in isocntry)

Note:

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recording this consent have not been part of the original data delivery.

d71b_1 - POLITICAL DISCUSSION - COMMUNITY MATTERS (CY-TCC)

D71B

ASK D71B ONLY IN CY-TCC – OTHERS GO TO QA1A

When you get together with friends or relatives, would you say you discuss frequently, occasionally or never about...?

(READ OUT – ONE ANSWER PER LINE – CODE 'NO ANSWER' IN CODE 4)

D71B_1 Our Community's political matters

- 1 Frequently
- 2 Occasionally
- 3 Never
- 4 DK
- 9 Inap. (no consent given) (not coded)
- 99 Inap. (not CY-TCC in isocntry)

Note:

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recording this consent have not been part of the original data delivery.

Comparability:

Last trend: EB89.1, D71B

polintr - POLITICAL INTEREST INDEX (D71A/B_1/2/3)

Index of interest in politics

0 DK (coded 4 in d71a/b_1, d71a/b_2 and d71a/b_3)

1 Not at all interested in politics

2 Slightly interested in politics

3 Moderately interested in politics

4 Strongly interested in politics

9 Inap. (no consent given)

Derivation:

The POLITICAL INTEREST INDEX is based on the answers to the following question: 'When you get together with friends or relatives, would you say you discuss frequently, occasionally or never about (national/European/local) political matters?' (d71a/b_1, d71a/b_2, and d71a/b_3). According to former studies the index was constructed by first attributing a score to each item in d71 ('Never' = 0; 'Occasionally' = 1; 'Frequently' = 2) and then adding together the three political dimensions (national/European/local). This procedure results in four different index levels ('Not at all interested in politics' if added up score = 0; 'Slightly' if added up score = 1 or 2; 'Moderately' if added up score = 3 or 4; 'Strongly' if added up score = 5 or 6) which have been coded accordingly into the categories 1 to 4. Furthermore combinations with DK responses in maximum two variables (d71a/b_1, d71a/b_2, and d71a/b_3) have been coded as follows: 'DK' and 'Never' = 'Not at all'; 'DK' and 'Never' and 'Occasionally' or 'Frequently' = 'Slightly'; 'DK' and 'Occasionally' and at least one 'Frequently' = 'Moderately'.

Note:

This new POLITICAL INTEREST INDEX is introduced as C2 starting with EB 73.4. Please notice that in former waves up to EB 69.2 the VALUE ORIENTATION - POST-MATERIALISM index was named C2.

Compared to the original variable the scale has been inversed by GESIS in accordance with former practice. Furthermore responses coded 'DK' to all source variables (d71a/b_1, d71a/b_2, and d71a/b_3) have been recoded to '0' (DK).

Modified by GESIS.

See d71a and d71b for complete question text.

qa3a_4 - IMPORTANT ISSUES CNTRY: TAXATION

QA3A

DO NOT ASK QA3A AND QA4A IN CY-TCC – CY-TCC GO TO QA3B

What do you think are the two most important issues facing (OUR COUNTRY) at the moment?

(SHOW SCREEN – READ OUT – MAX. 2 ANSWERS – ROTATE ANSWERS 1 TO 13 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODES 15 AND 16 ARE EXCLUSIVE)

QA3A_4 Taxation

0 Not mentioned

1 Mentioned

9 Inap. (CY-TCC in isocntry)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

9 Inap. (CY-TCC in isocntry)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa5_4 - IMPORTANT ISSUES EU: TAXATION

QA5

ASK QA5 ONLY IN EU28 – CY-TCC GO TO QA6B – OTHERS GO TO QA6A

What do you think are the two most important issues facing the EU at the moment?

(SHOW SCREEN – READ OUT – MAX. 2 ANSWERS – ROTATE ANSWERS 1 TO 13 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODES 15 AND 16 ARE EXCLUSIVE)

QA5_4 Taxation

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa5_10 - IMPORTANT ISSUES EU: PENSIONS

QA5

ASK QA5 ONLY IN EU28 – CY-TCC GO TO QA6B – OTHERS GO TO QA6A

What do you think are the two most important issues facing the EU at the moment?

(SHOW SCREEN – READ OUT – MAX. 2 ANSWERS – ROTATE ANSWERS 1 TO 13 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODES 15 AND 16 ARE EXCLUSIVE)

QA5_10 Pensions

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

ASK QA5 ONLY IN EU28 – CY-TCC GO TO QA6B – OTHERS GO TO QA6A

What do you think are the two most important issues facing the EU at the moment?

(SHOW SCREEN – READ OUT – MAX. 2 ANSWERS – ROTATE ANSWERS 1 TO 13 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODES 15 AND 16 ARE EXCLUSIVE)

QA5_16 DK

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

d73b_1 - PRESENT DIRECTION - OUR COMMUNITY (TCC)

D73B

ASK D73B ONLY IN CY-TCC – OTHERS GO TO QA8A

At the present time, would you say that, in general, things are going in the right direction or in the wrong direction, in...?

(READ OUT – ONE ANSWER PER LINE – CODE 'NO ANSWER' IN CODE 4)

D73B_1 Our Community

- 1 Things are going in the right direction
- 2 Things are going in the wrong direction
- 3 Neither the one nor the other (SPONTANEOUS)
- 4 DK
- 9 Inap. (no consent given) (not coded)
- 99 Inap. (not CY-TCC in isocntry)

Note:

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recording this consent have not been part of the original data delivery.

Comparability:

qa8t - MEDIA TRUST INDEX

Media Trust Index

- 1 High trust in the media
- 2 Medium trust in the media
- 3 Low or no trust in the media

Derivation:

This index is based on the answers to the following questions:

[qa8a/qa8b I would like to ask you a question about how much trust you have in certain media and institutions. For each of the following media and institutions, please tell me if you tend to trust it or tend not to trust it.

qa8a_1/qa8b_1 The written press

qa8a_2/qa8b_2 Radio

qa8a_3/qa8b_3 Television

qa8a_4/qa8b_4 The Internet

qa8a_5/qa8b_5 Online social networks]

According to the Eurobarometer Report 'Standard Eurobarometer 90 - Media use in the European Union' (page 35) the index was constructed by first attributing points to the relevant items in qa8a/qa8b ('Tend to trust' = 1 point; "Tend not to trust" = 0 points; 'DK' = 0 points) and then adding together the five elements. On that basis, the following media trust index is being developed: 'High trust' = 4-5 points, 'Medium trust' = 2-3 points, 'Low or no trust' = 0-1 point.

Note:

See qa8a and qa8b for complete question text.

d78 - EU IMAGE - POSITIVE/NEGATIVE

D78

ASK ALL

In general, does the EU conjure up for you a very positive, fairly positive, neutral, fairly negative or very negative image?

(ONE ANSWER ONLY)

- 1 Very positive
- 2 Fairly positive
- 3 Neutral
- 4 Fairly negative
- 5 Very negative
- 6 DK
- 9 Inap. (no consent given)

Note:

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recording this consent have not been part of the original data delivery.

qa10_1 - EU MEANING: PEACE

QA10

ASK ALL

What does the EU mean to you personally?

(SHOW SCREEN – READ OUT – MULTIPLE ANSWERS POSSIBLE – ROTATE ANSWERS 1 TO 14 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODE 16 IS EXCLUSIVE)

QA10_1 Peace

0 Not mentioned

1 Mentioned

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa10_4 - EU MEANING: SOCIAL PROTECTION

QA10

ASK ALL

What does the EU mean to you personally?

(SHOW SCREEN – READ OUT – MULTIPLE ANSWERS POSSIBLE – ROTATE ANSWERS 1 TO 14 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODE 16 IS EXCLUSIVE)

QA10_4 Social protection

0 Not mentioned

1 Mentioned

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa10_9 - EU MEANING: UNEMPLOYMENT

QA10

ASK ALL

What does the EU mean to you personally?

(SHOW SCREEN – READ OUT – MULTIPLE ANSWERS POSSIBLE – ROTATE ANSWERS 1 TO 14 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODE 16 IS EXCLUSIVE)

QA10_9 Unemployment

0 Not mentioned

1 Mentioned

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa10_14 - EU MEANING: NOT ENOUGH FRONTIER CONTROL

QA10

ASK ALL

What does the EU mean to you personally?

(SHOW SCREEN – READ OUT – MULTIPLE ANSWERS POSSIBLE – ROTATE ANSWERS 1 TO 14 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODE 16 IS EXCLUSIVE)

QA10_14 Not enough control at external borders

0 Not mentioned

1 Mentioned

Note:

Item qa10_14 ('EU MEANING: NOT ENOUGH FRONTIER CONTROL') was phrased slightly differently in the UK.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa10_15 - EU MEANING: OTHER (SPONT)

QA10

ASK ALL

What does the EU mean to you personally?

(SHOW SCREEN – READ OUT – MULTIPLE ANSWERS POSSIBLE – ROTATE ANSWERS 1 TO 14 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODE 16 IS EXCLUSIVE)

QA10_15 Other (SPONTANEOUS)

0 Not mentioned

1 Mentioned

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qa14t_1 - EU KNOWLEDGE - AT LEAST ONE CORRECT

Knowledge of the European Union: At least one correct answer

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes answers to qa14_1 to qa14_3. It subsumes respondents who are coded at least one correct answer.

[qa14 For each of the following statements about the EU could you please tell me whether you think it is true or false.

qa14_1 (ASK ONLY IN EU 28 AND CY-TCC) The Euro area currently consists of 19 Member States

qa14_2 The members of the European Parliament are directly elected by the citizens of each Member State

qa14_3 Switzerland is a Member State of the EU]

Note:

See qa14 for complete question text.

Variable qa14t_1 was named qa14t1 in former versions of this dataset.

Please note that qa14_1 ('EU KNOWLEDGE: EURO AREA 19 STATES') was asked only in the EU28 countries and the Turkish Cypriot Community.

Respondents from other countries therefore technically cannot be coded as having three correct answers in qa14t_5 ('EU KNOWLEDGE - 3 CORRECT ANSWERS') and in euknowl ('OBJECTIVE KNOWLEDGE OF THE EU (SUMMARIZED)').

qa14t_6 - EU KNOWLEDGE - AT LEAST ONE WRONG

Knowledge of the European Union: At least one wrong answer

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes answers to qa14_1 to qa14_3. It subsumes respondents who are coded at least one wrong answer.

[qa14 For each of the following statements about the EU could you please tell me whether you think it is true or false.

qa14_1 (ASK ONLY IN EU 28 AND CY-TCC) The Euro area currently consists of 19 Member States

qa14_2 The members of the European Parliament are directly elected by the citizens of each Member State

qa14_3 Switzerland is a Member State of the EU]

Note:

See qa14 for complete question text.

Variable qa14t_6 was named qa14t6 in former versions of this dataset.

Please note that qa14_1 ('EU KNOWLEDGE: EURO AREA 19 STATES') was asked only in the EU28 countries and the Turkish Cypriot Community.

Respondents from other countries therefore technically cannot be coded as having three correct answers in qa14t_5 ('EU KNOWLEDGE - 3 CORRECT ANSWERS') and in euknowl ('OBJECTIVE KNOWLEDGE OF THE EU (SUMMARIZED)').

euknowl - OBJECTIVE KNOWLEDGE OF THE EU (SUMMARIZED)

Objective knowledge of the European Union - summarized

- 1 Bad (no correct answer / DK)
- 2 Average (one or two correct answers)
- 3 Good (three correct answers)

Derivation:

This variable is based on the answers to the following questions:

[qa14 For each of the following statements about the EU could you please tell me whether you think it is true or false.

qa14_1 (ASK ONLY IN EU 28 AND CY-TCC) The Euro area currently consists of 19 Member States

qa14_2 The members of the European Parliament are directly elected by the citizens of each Member State

qa14_3 Switzerland is a Member State of the EU]

Respondents coded 3 ('DK') in qa14_1 to qa14_3 or respondents who are coded no correct answer are coded 1 ('Bad') in summarized variable euknowl. Respondents who are coded one or two correct answers are coded 2 ('Average') in the summarized variable. Respondents coded three correct answers are coded 3 ('Good') in the summarized variable.

Note:

See qa14 for complete question text.

Generated by GESIS in accordance with former surveys, and available starting with dataset version v2.0.0.

Please note that qa14_1 ('EU KNOWLEDGE: EURO AREA 19 STATES') was asked only in the EU28 countries and the Turkish Cypriot Community.

Respondents from other countries therefore technically cannot be coded as having three correct answers in qa14t_5 ('EU KNOWLEDGE - 3 CORRECT ANSWERS') and in euknowl ('OBJECTIVE KNOWLEDGE OF THE EU (SUMMARIZED)').

qa15_1 - EU PROPOSALS: SINGLE CURRENCY

QA15

QA15_2, QA15_4 TO QA15_9: ASK ONLY IN EU28

What is your opinion on each of the following statements? Please tell me for each statement, whether you are for it or against it.

(READ OUT – ONE ANSWER PER LINE – ROTATE ITEMS 1 TO 9)

QA15_1 A European economic and monetary union with one single currency, the euro

- 1 For
- 2 Against
- 7 Refusal (SPONTANEOUS)
- 8 DK
- 9 Inap. (no consent given)

Note:

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recoding this consent have not been part of the original data delivery.

Original code '3' recoded to '7'.

Original code '4' recoded to '8'.

Comparability:

- 8 DK
- 9 Inap. (no consent given)
- 99 Inap. not EU28 (coded 0 in eu28)

Note:

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recoding this consent have not been part of the original data delivery.

Original code '3' recoded to '7'.

Original code '4' recoded to '8'.

qa15_7 - EU PROPOSALS: COMMON ENERGY POLICY

QA15

QA15_2, QA15_4 TO QA15_9: ASK ONLY IN EU28

What is your opinion on each of the following statements? Please tell me for each statement, whether you are for it or against it.

(READ OUT – ONE ANSWER PER LINE – ROTATE ITEMS 1 TO 9)

QA15_7 (ASK ONLY IN EU28) A common energy policy among EU Member States

- 1 For
- 2 Against
- 7 Refusal (SPONTANEOUS)
- 8 DK
- 9 Inap. (no consent given)
- 99 Inap. not EU28 (coded 0 in eu28)

Note:

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recoding this consent have not been part of the original data delivery.

Original code '3' recoded to '7'.

Original code '4' recoded to '8'.

qa15r - EU PROPOSALS: SUMMARIZED

EU proposals - summarized (EU28 only)

- 1 For 7-9 statements
- 2 For 4-6 statements
- 3 For 1-3 statements
- 4 For 0 statements
- 9 Inap. (no consent given)
- 99 Inap. not EU28 (coded 0 in eu28)

Derivation:

This variable summarizes the number of 'For'-answers given by the respondent to qa15 in four categories:

[qa15 For each of the following statements about the EU could you please tell me whether you think it is true or false.

qa15_1 A European economic and monetary union with one single currency, the euro

qa15_2 (ASK ONLY IN EU28) A common foreign policy of the 28 Member States of the EU

qa15_3 Further enlargement of the EU to include other countries in future years

qa15_4 (ASK ONLY IN EU28) A common defence and security policy among EU Member States

qa15_5 (ASK ONLY IN EU28) The EU's common trade policy

qa15_6 (ASK ONLY IN EU28) A common European policy on migration

qa15_7 (ASK ONLY IN EU28) A common energy policy among EU Member States

qa15_8 (ASK ONLY IN EU28) A digital single market within the EU

qa15_9 (ASK ONLY IN EU28) The free movement of EU citizens who can live, work, study and do business anywhere in the EU]

Note:

See qa15 for complete question text.

Summarized variable qa15r has been modified by GESIS by recoding additional category 'For 0 statements'.

qb2 - FIGHT IRREGULAR IMMIGRATION - DECISION MAKING LEVEL

ASK QB ONLY IN EU28 – OTHERS GO TO QC1

QB2

In your opinion, should additional measures be taken to fight irregular immigration of people from outside the EU?

(READ OUT – ONE ANSWER ONLY)

- 1 Yes, preferably at an EU level
- 2 Yes, preferably at a national level
- 3 Yes, at both levels (EU and national) (SPONTANEOUS)
- 4 No, there is no need for additional measures
- 7 Refusal (SPONTANEOUS)
- 8 DK
- 9 Inap. (no consent given)
- 99 Inap. not EU28 (coded 0 in eu28)

Note:

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recoding this consent have not been part of the original data delivery.

Original code '5' recoded to '7'.

Original code '6' recoded to '8'.

qc1 - CRISIS JOB MARKET IMPACT - PHASE APPRAISAL

Now, let's talk about another topic.

QC1

ASK ALL

Some analysts say that the impact of the economic crisis on the job market has already reached its peak and things will recover little by little.

Others, on the contrary, say that the worst is still to come. Which of the two statements is closer to your opinion?

(READ OUT – ONE ANSWER ONLY)

- 1 The impact of the crisis on jobs has already reached its peak
- 2 The worst is still to come
- 3 DK

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qc4_10 - EU ENERGY UNION PRIORITY: NEGOTIATING POWER

ASK QC2 TO QC4 ONLY IN EU28

QC4

In your opinion, which of the following objectives should be given top priority in a European energy union?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – ROTATE ANSWERS 1 TO 11 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODES 13 AND 14 ARE EXCLUSIVE)

QC4_10 Pooling EU's negotiating power towards energy providers

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

ASK ALL

Which of the following do you think is the most positive result of the EU? Firstly?

(SHOW SCREEN – READ OUT – ONE ANSWER ONLY)

- 1 Peace among the Member States of the EU
- 2 The free movement of people, goods and services within the EU
- 3 The euro
- 4 Student exchange programmes such as ERASMUS
- 5 The Common Agricultural Policy
- 6 The economic power of the EU
- 7 The political and diplomatic influence of the EU in the rest of the world
- 8 The level of social welfare (healthcare, education, pensions) in the EU
- 9 Other (SPONTANEOUS)
- 10 None (SPONTANEOUS)
- 11 DK

qd4b_1 - POSITIVE EU RESULT 2ND: PEACE AMONG EU MEMBERS

[QD4A

Which of the following do you think is the most positive result of the EU? Firstly?]

QD4B

And then?

(SHOW SCREEN – READ OUT – MAX. 2 ANSWERS – ITEM MENTIONED IN QD4A CANNOT BE PROPOSED IN QD4B (EXCEPT CODE 9) – IF CODE 10 OR 11 IN QD4A THEN QD4B IS SKIPPED – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODES 10 AND 11 ARE EXCLUSIVE)

QD4B_1 Peace among the Member States of the EU

0 Not mentioned

1 Mentioned

9 Inap. None or DK (coded 10 or 11 in qd4a)

Note:

Please note that one respondent from the Turkish Cypriot Community gives substantial answers in qd4b_1 to qd4b_9 ('POSITIVE EU RESULT 2ND') and at the same time is coded 1 ('Mentioned') in qd4b_10 ('None').

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qd4b_4 - POSITIVE EU RESULT 2ND: STUDENT EXCHANGE

[QD4A

Which of the following do you think is the most positive result of the EU? Firstly?]

QD4B

And then?

(SHOW SCREEN – READ OUT – MAX. 2 ANSWERS – ITEM MENTIONED IN QD4A CANNOT BE PROPOSED IN QD4B (EXCEPT CODE 9) – IF CODE 10 OR 11 IN QD4A THEN QD4B IS SKIPPED – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODES 10 AND 11 ARE EXCLUSIVE)

QD4B_4 Student exchange programmes such as ERASMUS

0 Not mentioned

1 Mentioned

9 Inap. None or DK (coded 10 or 11 in qd4a)

Note:

Please note that one respondent from the Turkish Cypriot Community gives substantial answers in qd4b_1 to qd4b_9 ('POSITIVE EU RESULT 2ND') and at the same time is coded 1 ('Mentioned') in qd4b_10 ('None').

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qd4b_9 - POSITIVE EU RESULT 2ND: OTHER (SPONT)

[QD4A

Which of the following do you think is the most positive result of the EU? Firstly?]

QD4B

And then?

(SHOW SCREEN – READ OUT – MAX. 2 ANSWERS – ITEM MENTIONED IN QD4A CANNOT BE PROPOSED IN QD4B (EXCEPT CODE 9) – IF CODE 10 OR 11 IN QD4A THEN QD4B IS SKIPPED – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ – CODES 10 AND 11 ARE EXCLUSIVE)

QD4B_9 Other (SPONTANEOUS)

0 Not mentioned

1 Mentioned

9 Inap. None or DK (coded 10 or 11 in qd4a)

Note:

Please note that one respondent from the Turkish Cypriot Community gives substantial answers in qd4b_1 to qd4b_9 ('POSITIVE EU RESULT 2ND') and at the same time is coded 1 ('Mentioned') in qd4b_10 ('None').

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qd5_1 - EU FEELING ISSUES: HISTORY

QD5

ASK QD5 TO QD8 ONLY IN EU28 - OTHERS GO TO QD9

In your opinion, among the following issues, which are those that most create a feeling of community among EU citizens?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – ROTATE ANSWERS 1 TO 12 – CODES 14, 15 AND 16 ARE EXCLUSIVE – DISPLAY '96' ON SCREEN INSTEAD OF 'OTHER')

QD5_1 History

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qd5_4 - EU FEELING ISSUES: GEOGRAPHY

QD5

ASK QD5 TO QD8 ONLY IN EU28 - OTHERS GO TO QD9

In your opinion, among the following issues, which are those that most create a feeling of community among EU citizens?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – ROTATE ANSWERS 1 TO 12 – CODES 14, 15 AND 16 ARE EXCLUSIVE – DISPLAY '96' ON SCREEN INSTEAD OF 'OTHER')

QD5_4 Geography

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qd5_10 - EU FEELING ISSUES: HEALTHCARE/EDUCATION/PENSIONS

QD5

ASK QD5 TO QD8 ONLY IN EU28 - OTHERS GO TO QD9

In your opinion, among the following issues, which are those that most create a feeling of community among EU citizens?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – ROTATE ANSWERS 1 TO 12 – CODES 14, 15 AND 16 ARE EXCLUSIVE – DISPLAY '96' ON SCREEN INSTEAD OF 'OTHER')

QD5_10 Healthcare, education and pensions

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qd5_16 - EU FEELING ISSUES: DK

QD5

ASK QD5 TO QD8 ONLY IN EU28 - OTHERS GO TO QD9

In your opinion, among the following issues, which are those that most create a feeling of community among EU citizens?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – ROTATE ANSWERS 1 TO 12 – CODES 14, 15 AND 16 ARE EXCLUSIVE – DISPLAY '96' ON SCREEN INSTEAD OF 'OTHER')

QD5_16 DK

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qd6_6 - IMPORTANT VALUES PERS: PEACE

ASK QD5 TO QD8 ONLY IN EU28 - OTHERS GO TO QD9

QD6

In the following list, which are the three most important values for you personally?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – CODES 13 AND 14 ARE EXCLUSIVE)

QD6_6 Peace

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qd7_5 - IMPORTANT VALUES EU: DEMOCRACY

ASK QD5 TO QD8 ONLY IN EU28 - OTHERS GO TO QD9

QD7

In the following list, which values best represent the EU?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – CODES 13 AND 14 ARE EXCLUSIVE)

QD7_5 Democracy

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qd7_11 - IMPORTANT VALUES EU: SELF-FULFILMENT

ASK QD5 TO QD8 ONLY IN EU28 - OTHERS GO TO QD9

QD7

In the following list, which values best represent the EU?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – CODES 13 AND 14 ARE EXCLUSIVE)

QD7_11 Self-fulfilment

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qd9_6 - STATEMENTS: HAVING CONFIDENCE IN THE FUTURE

QD9

ASK ALL / QD9_1, QD9_2 AND QD9_4: ASK ONLY IN EU28

To what extent do you agree or disagree with each of the following statements?

(SHOW SCREEN – READ OUT – ONE ANSWER PER LINE – DISPLAY ‘99’ INSTEAD OF ‘DK’ – ROTATE ITEM 1 TO 6)

QD9_6 You have confidence in the future

- 1 Totally agree
- 2 Tend to agree
- 3 Tend to disagree
- 4 Totally disagree
- 5 DK (SPONTANEOUS)

qd12a_r - EUROPEAN UNIFICATION SPEED: CURRENT (SUM)

Current speed of European unification - recoded to three categories

- 1 Total 'Rather standstill' (coded 1 and 2 in qd12a)
- 2 Total 'Moderate speed' (coded 3 to 5 in qd12a)
- 3 Total 'Rather running' (coded 6 and 7 in qd12a)
- 8 DK
- 9 Inap. not EU28 (coded 0 in eu28)

Derivation:

This variable groups answers to question qd12a.

[qd12a In your opinion, what is the current speed of building Europe? Please look at these figures. N°1 is standing still, N°7 is running as fast as possible. Choose the one which best corresponds with your opinion of the current speed of building Europe.]

Note:

See qd12a for the complete question text.

Variable qd12a_r was named qd12ar in former versions of this dataset.

qd12b_r - EUROPEAN UNIFICATION SPEED: PREFERRED (SUM)

Preferred speed of European unification - recoded to three categories

- 1 Total 'Rather standstill' (coded 1 and 2 in qd12b)
- 2 Total 'Moderate speed' (coded 3 to 5 in qd12b)
- 3 Total 'Rather running' (coded 6 and 7 in qd12b)
- 8 DK
- 9 Inap. not EU28 (coded 0 in eu28)

Derivation:

This variable groups answers to question qd12b.

[qd12a In your opinion, what is the current speed of building Europe? Please look at these figures. N°1 is standing still, N°7 is running as fast as possible. Choose the one which best corresponds with your opinion of the current speed of building Europe.

qd12b

And which corresponds best to the speed you would like?]

Note:

See qd12b for the complete question text.

Variable qd12b_r was named qd12br in former versions of this dataset.

qe3t_1_2 - MEDIA USE - TELEVISION (SUM)

Media use - Television (summarized)

QE3T_1_2 Watch television on a TV set / Watch television via the Internet (summarized)

- 1 Everyday/Almost everyday
- 2 Two or three times a week
- 3 About once a week
- 4 Two or three times a month
- 5 Less often
- 6 Never
- 7 No access to this medium (SPONTANEOUS)
- 8 DK (SPONTANEOUS)
- 9 Inap. not EU28 (coded 0 in eu28)

Derivation:

This variable summarizes answers to qe3_1 and qe3_2.

[qe3 Could you tell me to what extent you...?

qe3_1 Watch television on a TV set

qe3_2 Watch television via the Internet]

Note:

See qe3 for complete question text.

Variable qe3t_1_2 was named qe3_1_2 in former versions of this dataset.

qe3t - MEDIA USE INDEX

Media Use Index

- 1 Very high
- 2 High
- 3 Poor
- 4 Very poor / none
- 9 Inap. DK (coded 8 in qe3_1 to qe3_6)
- 99 Inap. not EU28 (coded 0 in eu28)

Derivation:

This index is based on variables qe3_1 to qe3_6.

[qe3 Could you tell me to what extent you...?

qe3_1 Watch television on a TV set

qe3_2 Watch television via the Internet

qe3_3 Listen to the radio

qe3_4 Read the written press

qe3_5 Use the internet

qe3_6 Use online social networks]

For each variable the answer category '1' ('Everyday/Almost everyday') gets 3 points. Categories '2' ('Two or three times a week') and '3' ('About once a week') get 2 points. Categories '4' ('Two or three times a month') and '5' ('Less often') get 1 point. Categories '6' ('Never') and '7' ('No access to this medium') get 0 points.

On that basis, the following media use index is being developed: 'Very high' = 12-18 points, 'High' = 8-11 points, 'Poor' = 4-7 points, 'Very poor/None' = 0-3 points.

Note:

See qe3 for complete question text.

Variable is slightly modified by GESIS.

qe4a_t - NAT POLIT MATTERS NEWS - 1ST NEWS SOURCE (TOTAL INTERNET)

Sources of news on national political matters - 1st news source: internet sources (summarized)

0 Not mentioned

1 Total 'Internet'

9 Inap. not EU28 (coded 0 in eu28)

Derivation:

This variable summarizes responses to answer category 4 'Websites' and answer category 5 'Online social networks' in variable qe4a.

[qe4a Where do you get most of your news on national political matters? Firstly?]

Note:

See qe4a for complete question text.

Variable qe4a_t was named qe4at in former versions of this dataset.

0 Not mentioned

1 Mentioned

9 Inap. Do not look for news or DK (coded 7 or 8 in qe4a)

99 Inap. not EU28 (coded 0 in eu28)

Note:

Please note that 92 respondents are coded 1 in qe4b_7 ('NAT POLIT MATTERS NEWS 2ND: DO NOT LOOK FOR (SPONT)'). According to the interviewer instruction answer category 7 'You do not look for news on national political matters (Spontaneous)' should have not be used in question qe4b. As a consequence, summarized variable qe4t_7 ('NAT POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe4a and qe4b_7.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

0 Not mentioned

1 Mentioned

9 Inap. Do not look for news or DK (coded 7 or 8 in qe4a)

99 Inap. not EU28 (coded 0 in eu28)

Note:

Please note that 92 respondents are coded 1 in qe4b_7 ('NAT POLIT MATTERS NEWS 2ND: DO NOT LOOK FOR (SPONT)'). According to the interviewer instruction answer category 7 'You do not look for news on national political matters (Spontaneous)' should have not be used in question qe4b. As a consequence, summarized variable qe4t_7 ('NAT POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe4a and qe4b_7.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

According to the interviewer instruction answer category 7 'You do not look for news on national political matters (Spontaneous)' should have not be used in question qe4b. As a consequence, summarized variable qe4t_7 ('NAT POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe4a and qe4b_7.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qe4b_t - NAT POLIT MATTERS NEWS 2ND: TOTAL INTERNET

Sources of news on national political matters - 2nd news source: internet sources (summarized)

- 0 Not mentioned
- 1 Total 'Internet'
- 9 Inap. Do not look for news or DK (coded 7 or 8 in qe4a)
- 99 Inap. not EU28 (coded 0 in eu28)

Derivation:

This variable summarizes answers to qe4b_4 and qe4b_5.

[qe4a

Where do you get most of your news on national political matters? Firstly?

qe4b

And then?

qe4b_4 Websites

qe4b_5 Online social networks]

Note:

See qe4a and qe4b for complete question text.

Variable qe4b_t was named qe4bt in former versions of this dataset.

Please note that 92 respondents are coded 1 in qe4b_7 ('NAT POLIT MATTERS NEWS 2ND: DO NOT LOOK FOR (SPONT)'). According to the interviewer instruction answer category 7 'You do not look for news on national political matters (Spontaneous)' should have not be used in question qe4b. As a consequence, summarized variable qe4t_7 ('NAT POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe4a and qe4b_7.

Starting with dataset version v2-0-0 respondents coded value 9 'Inap. (coded 7 or 8 in qe4a)' in qe4b_1 to qe4b_8 are coded correspondingly to value 9 in qe4b_t. These respondents were coded 0 'Not mentioned' in qe4b_t in former versions of the dataset.

qe5a_t - EUROP POLIT MATTERS NEWS - 1ST NEWS SOURCE (TOTAL INTERNET)

Sources of news on European political matters - 1st news source: internet sources (summarized)

0 Not mentioned

1 Total 'Internet'

Derivation:

This variable summarizes responses to answer category 4 'Websites' and answer category 5 'Online social networks' in variable qe5a.

[qe5a Where do you get most of your news on European political matters? Firstly?]

Note:

See qe5a for complete question text.

Variable qe5a_t was named qe5at in former versions of this dataset.

0 Not mentioned

1 Mentioned

9 Inap. Do not look for news or DK (coded 7 or 8 in qe5a)

Note:

Please note that five respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)'). According to the interviewer instruction answer category 7 'You do not look for news on European political matters (Spontaneous)' should have not be used in question qe5b. As a consequence summarized variable qe5t_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe5a and qe5b_7. Additionally, from these respondents two respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)') and at the same time are coded substantial answers in (coded 1 ('Mentioned')) in qe5b_1 to qe5b_6.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

9 Inap. Do not look for news or DK (coded 7 or 8 in qe5a)

Note:

Please note that five respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)'). According to the interviewer instruction answer category 7 'You do not look for news on European political matters (Spontaneous)' should have not be used in question qe5b. As a consequence summarized variable qe5t_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe5a and qe5b_7. Additionally, from these respondents two respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)') and at the same time are coded substantial answers in (coded 1 ('Mentioned')) in qe5b_1 to qe5b_6.

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qe5b_t - EUROP POLIT MATTERS NEWS 2ND: TOTAL INTERNET

Sources of news on European matters - 2nd news source: internet sources (summarized)

0 Not mentioned

1 Total 'Internet'

9 Inap. Do not look for news or DK (coded 7 or 8 in qe5a)

Derivation:

This variable summarizes answers to qe5b_4 and qe5b_5.

[qe5a

Where do you get most of your news on European political matters? Firstly?

qe5b

And then?

qe5b_4 Websites

qe5b_5 Online social networks]

Note:

See qe5a and qe5b for complete question text.

Variable qe5b_t was named qe5bt in former versions of this dataset.

Please note that five respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)'). According to the interviewer instruction answer category 7 'You do not look for news on European political matters (Spontaneous)' should have not be used in question qe5b. As a consequence summarized variable qe5t_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe5a and qe5b_7. Additionally, from these respondents two respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)') and at the same time are coded substantial answers in (coded 1 ('Mentioned')) in qe5b_1 to qe5b_6.

Starting with dataset version v2-0-0 respondents coded value 9 'Inap. (coded 7 or 8 in qe5a)' in qe5b_1 to qe5b_8 are coded correspondingly to value 9 in qe5b_t. These respondents were coded 0 'Not mentioned' in qe5b_t in former versions of the dataset.

Derivation:

This variable summarizes answers to this item in qe5a and qe5b.

Note:

See qe5a and qe5b for complete question text.

Please note that five respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)'). According to the interviewer instruction answer category 7 'You do not look for news on European political matters (Spontaneous)' should have not be used in question qe5b. As a consequence summarized variable qe5t_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe5a and qe5b_7. Additionally, from these respondents two respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)') and at the same time are coded substantial answers in (coded 1 ('Mentioned')) in qe5b_1 to qe5b_6.

qe5t_8 - EUROP POLIT MATTERS NEWS: DK (QE5A ONLY)

[QE5A

Where do you get most of your news on European political matters? Firstly?

QE5B

And then?]

QE5T_8 DK (QE5A ONLY)

0 Not mentioned

1 Mentioned

Derivation:

This variable repeats answers to category '8' (DK) in qe5a, while all other substantial answers to qe5a are summarized with qe5b in variables qe5t_1 to qe5t_6.

Note:

Please note that five respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)'). According to the interviewer instruction answer category 7 'You do not look for news on European political matters (Spontaneous)' should have not be used in question qe5b. As a consequence summarized variable qe5t_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SUM)') subsumes answers from qe5a and qe5b_7. Additionally, from these respondents two respondents are coded 1 in qe5b_7 ('EUROP POLIT MATTERS NEWS: DO NOT LOOK FOR (SPONT)') and at the same time are coded substantial answers in (coded 1 ('Mentioned')) in qe5b_1 to qe5b_6.

Comparability:

See qe5a and qe5b for complete question text.

Note:

Please note that 16 respondents give substantial answers to qe6 ('EU INFORMATION SOURCES') and at the same time are coded 1 ('Mentioned') in qe6_15 ('EU INFORMATION SOURCES: NEVER LOOK FOR (SPONT)').

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qe6_7 - EU INFORMATION SOURCES: OFFICIAL WEBSITES

QE6

When you are looking for information about the EU, its policies, its institutions, which of the following sources do you use?

(SHOW SCREEN – READ OUT – MULTIPLE ANSWERS POSSIBLE - CODES 15 AND 16 ARE EXCLUSIVE - DISPLAY '96' ON SCREEN INSTEAD OF 'OTHER')

QE6_7 Institutional and official websites (governmental websites, etc.)

0 Not mentioned

1 Mentioned

Note:

Please note that 16 respondents give substantial answers to qe6 ('EU INFORMATION SOURCES') and at the same time are coded 1 ('Mentioned') in qe6_15 ('EU INFORMATION SOURCES: NEVER LOOK FOR (SPONT)').

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qe6_12 - EU INFORMATION SOURCES: BOOKS/BROCHURES

QE6

When you are looking for information about the EU, its policies, its institutions, which of the following sources do you use?

(SHOW SCREEN – READ OUT – MULTIPLE ANSWERS POSSIBLE - CODES 15 AND 16 ARE EXCLUSIVE - DISPLAY '96' ON SCREEN INSTEAD OF 'OTHER')

QE6_12 Books, brochures, information leaflets

0 Not mentioned

1 Mentioned

Note:

Please note that 16 respondents give substantial answers to qe6 ('EU INFORMATION SOURCES') and at the same time are coded 1 ('Mentioned') in qe6_15 ('EU INFORMATION SOURCES: NEVER LOOK FOR (SPONT)').

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qe11_1f - ONLINE SOC NETWORKS & POLITICS: KEEPING ABREAST (QE11 & QE3_6)

Online social networks & politics: keeping abreast - regular users of online social networks only (at least once a week)

QE11_1F Online social networks are a modern way to keep abreast of political affairs

- 1 Totally agree
- 2 Tend to agree
- 3 Tend to disagree
- 4 Totally disagree
- 5 DK (SPONTANEOUS)
- 9 Inap. Use online social networks less than once a week (not coded 1 to 3 in qe3_6)
- 99 Inap. not EU28 (coded 0 in eu28)

Derivation:

Additional variables qe11_1f to qe11_4f are based on variables qe3_6 and qe11_1 to qe11_4 and represent results for regular users of online social networks only (at least once a week). Respondents who use the internet less than once a week are recoded '9' (Inap.) in each variable.

[qe3 Could you tell me to what extent you...?

qe3_6 Use online social networks

qe11 Regardless of whether you participate in online social networks or not (social networking websites, blogs, video hosting websites), please tell me whether you totally agree, tend to agree, tend to disagree or totally disagree with each of the following statements.]

qf1 - EU BUDGET - APPRAISAL STATEMENT

Now, let's talk about another topic.

QF1

ASK QF ONLY IN EU28 – OTHERS GO TO DEMOGRAPHICS

With which of the following two statements do you most agree?

(READ OUT – ONE ANSWER ONLY)

- 1 The EU should have greater financial means given its political objectives
- 2 The EU's financial means match its political objectives
- 3 DK
- 9 Inap. not EU 28 (coded 0 in EU28)

qf2a - EU BUDGET - SPENT ON (1ST)

ASK QF ONLY IN EU28 – OTHERS GO TO DEMOGRAPHICS

The EU budget funds a wide range of different activities and investments, across all Member States and outside the EU.

QF2A

On which of the following do you think most of the EU budget is spent? Firstly?

(SHOW SCREEN – READ OUT – ONE ANSWER ONLY - ROTATE ANSWERS 1 TO 15)

- 1 Economic and monetary policy
- 2 Scientific research and innovation
- 3 Education, training, culture and media
- 4 Transport and energy infrastructures
- 5 SMEs and competitiveness
- 6 Digital infrastructures
- 7 Climate change and environmental protection
- 8 Agriculture and rural development
- 9 Regional investment
- 10 Assistance to EU neighbours, including candidate countries
- 11 Development and humanitarian aid to countries outside the EU
- 12 Defence and security
- 13 Immigration issues
- 14 Employment, social affairs and public health
- 15 Administrative and personnel costs, buildings
- 16 Other (SPONTANEOUS)
- 17 None (SPONTANEOUS)
- 18 DK
- 99 Inap. not EU28 (coded 0 in eu28)

qf2b_1 - EU BUDGET SPENT ON 2ND: ECONOMIC POLICY

ASK QF ONLY IN EU28 – OTHERS GO TO DEMOGRAPHICS

[QF2A

On which of the following do you think most of the EU budget is spent? Firstly?]

QF2B

Any others?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – IF ‘NONE’ OR ‘DK’ IN QF2A THEN SKIP QF2B – DO NOT PROPOSE ANSWER GIVEN IN QF2A (EXCEPT FOR CODE 16) – ROTATE ANSWERS 1 TO 15 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ - CODES 17 AND 18 ARE EXCLUSIVE)

QF2B_1 Economic and monetary policy

0 Not mentioned

1 Mentioned

9 Inap. None or DK (coded 17 or 18 in qf2a)

99 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qf2b_2 - EU BUDGET SPENT ON 2ND: SCIENTIFIC RESEARCH

ASK QF ONLY IN EU28 – OTHERS GO TO DEMOGRAPHICS

[QF2A

On which of the following do you think most of the EU budget is spent? Firstly?]

QF2B

Any others?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – IF ‘NONE’ OR ‘DK’ IN QF2A THEN SKIP QF2B – DO NOT PROPOSE ANSWER GIVEN IN QF2A (EXCEPT FOR CODE 16) – ROTATE ANSWERS 1 TO 15 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ - CODES 17 AND 18 ARE EXCLUSIVE)

QF2B_2 Scientific research and innovation

0 Not mentioned

1 Mentioned

9 Inap. None or DK (coded 17 or 18 in qf2a)

99 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qf2b_7 - EU BUDGET SPENT ON 2ND: ENVIRONMENT/CLIMATE

ASK QF ONLY IN EU28 – OTHERS GO TO DEMOGRAPHICS

[QF2A

On which of the following do you think most of the EU budget is spent? Firstly?]

QF2B

Any others?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – IF ‘NONE’ OR ‘DK’ IN QF2A THEN SKIP QF2B – DO NOT PROPOSE ANSWER GIVEN IN QF2A (EXCEPT FOR CODE 16) – ROTATE ANSWERS 1 TO 15 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ - CODES 17 AND 18 ARE EXCLUSIVE)

QF2B_7 Climate change and environmental protection

0 Not mentioned

1 Mentioned

9 Inap. None or DK (coded 17 or 18 in qf2a)

99 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qf2b_13 - EU BUDGET SPENT ON 2ND: IMMIGRATION ISSUES

ASK QF ONLY IN EU28 – OTHERS GO TO DEMOGRAPHICS

[QF2A

On which of the following do you think most of the EU budget is spent? Firstly?]

QF2B

Any others?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – IF ‘NONE’ OR ‘DK’ IN QF2A THEN SKIP QF2B – DO NOT PROPOSE ANSWER GIVEN IN QF2A (EXCEPT FOR CODE 16) – ROTATE ANSWERS 1 TO 15 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ - CODES 17 AND 18 ARE EXCLUSIVE)

QF2B_13 Immigration issues

0 Not mentioned

1 Mentioned

9 Inap. None or DK (coded 17 or 18 in qf2a)

99 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qf2b_18 - EU BUDGET SPENT ON 2ND: DK

ASK QF ONLY IN EU28 – OTHERS GO TO DEMOGRAPHICS

[QF2A

On which of the following do you think most of the EU budget is spent? Firstly?]

QF2B

Any others?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – IF ‘NONE’ OR ‘DK’ IN QF2A THEN SKIP QF2B – DO NOT PROPOSE ANSWER GIVEN IN QF2A (EXCEPT FOR CODE 16) – ROTATE ANSWERS 1 TO 15 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ - CODES 17 AND 18 ARE EXCLUSIVE)

QF2B_18 DK

0 Not mentioned

1 Mentioned

9 Inap. None or DK (coded 17 or 18 in qf2a)

99 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qf3b_1 - EU BUDGET PREFERENCE 2ND: ECONOMIC POLICY

ASK QF ONLY IN EU28 – OTHERS GO TO DEMOGRAPHICS

[QF3A

And on which of the following would you like EU budget to be spent? Firstly?]

QF3B

Any others?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – IF ‘NONE’ OR ‘DK’ IN QF3A THEN SKIP QF3B – DO NOT PROPOSE ANSWER GIVEN IN QF3A (EXCEPT FOR CODE 16) – ROTATE ANSWERS 1 TO 15 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ - CODES 17 AND 18 ARE EXCLUSIVE)

QF3B_1 Economic and monetary policy

0 Not mentioned

1 Mentioned

9 Inap. None or DK (coded 17 or 18 in qf3a)

99 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qf3b_15 - EU BUDGET PREFERENCE 2ND: ADMINISTRATION

ASK QF ONLY IN EU28 – OTHERS GO TO DEMOGRAPHICS

[QF3A

And on which of the following would you like EU budget to be spent? Firstly?]

QF3B

Any others?

(SHOW SCREEN – READ OUT – MAX. 3 ANSWERS – IF ‘NONE’ OR ‘DK’ IN QF3A THEN SKIP QF3B – DO NOT PROPOSE ANSWER GIVEN IN QF3A (EXCEPT FOR CODE 16) – ROTATE ANSWERS 1 TO 15 – DISPLAY ‘96’ ON SCREEN INSTEAD OF ‘OTHER’ - CODES 17 AND 18 ARE EXCLUSIVE)

QF3B_15 Administrative and personnel costs, buildings

0 Not mentioned

1 Mentioned

9 Inap. None or DK (coded 17 or 18 in qf3a)

99 Inap. not EU28 (coded 0 in eu28)

Note:

Multiple response questions are split into a set of dichotomized dummy variables (0 NOT MENTIONED / 1 MENTIONED) which represent each of the original categories and which are identified by the respective original category code as question number suffix. As a result the references to specific categories in the question text or in interviewer instructions should now be read as referring to the respective dummy variable if selected (code 1).

qf3t_16 - EU BUDGET PREFERENCE: OTHER (SPONT) (SUM)

[QF3A

And on which of the following would you like EU budget to be spent? Firstly?

QF3B

Any others?]

QF3T_16 Other (SPONTANEOUS)

0 Not mentioned

1 Mentioned

9 Inap. not EU28 (coded 0 in eu28)

Derivation:

This variable summarizes answers to this item in qf3a and qf3b.

Note:

See qf3a and qf3b for complete question text.

d1 - LEFT-RIGHT PLACEMENT

DEMOGRAPHICS

D1

ASK ALL

In political matters people talk of 'the left' and 'the right'. How would you place your views on this scale?

(SHOW SCREEN – DO NOT PROMPT – IF CONTACT HESITATES, TRY AGAIN – CODE 'NO ANSWER' IN CODE 11)

- 1 Box 1 - left
- 2 Box 2
- 3 Box 3
- 4 Box 4
- 5 Box 5
- 6 Box 6
- 7 Box 7
- 8 Box 8
- 9 Box 9
- 10 Box 10 - right
- 97 Refusal (Spontaneous)
- 98 DK
- 99 Inap. (no consent given)

Note:

Original code '11' recoded to '97'.

Original code '12' recoded to '98'.

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recording this consent have not been part of the original data delivery.

- 3 (7 -10) Right
- 9 DK/Refusal (Spontaneous)/No consent given

Derivation:

This variable collapses answers to d1 into three categories.

[d1 In political matters people talk of 'the left' and 'the right'. How would you place your views on this scale?]

Note:

See d1 for complete question text.

d1r2 - LEFT-RIGHT PLACEMENT: 5 CAT (RECODED)

Left-right placement - recoded to five categories

- 1 (1 - 2) Left
- 2 (3 - 4)
- 3 (5 - 6) Centre
- 4 (7 - 8)
- 5 (9 -10) Right
- 9 DK/Refusal (Spontaneous)/No consent given

Derivation:

This variable collapses answers to d1 into five categories.

[d1 In political matters people talk of 'the left' and 'the right'. How would you place your views on this scale?]

Note:

See d1 for complete question text.

d7r1 - MARITAL STATUS: 5 CAT (RECODED)

Marital status recoded to five categories with focus on partnership

- 1 (Re-)Married (coded 1 to 4 in d7)
- 2 Single living with partner (coded 5 to 8 in d7)
- 3 Single (coded 9 to 10 in d7)
- 4 Divorced or separated (coded 11 to 12 in d7)
- 5 Widow (coded 13 to 14 in d7)
- 6 Other (SPONTANEOUS)
- 7 Refusal (SPONTANEOUS)

Derivation:

This variable collapses answers to d7 into five categories.

[d7 Which of the following best corresponds to your own current situation?]

Note:

See d7 for complete question text.

d7r3 - MARITAL STATUS: HH & CHILDREN (RECODED)

Marital status recoded to four categories with focus on children (family status)

- 1 Single household without children (coded 9, 11, and 13 in d7)
- 2 Single household with children (coded 10, 12, and 14 in d7)
- 3 Multiple occupancy household without children (coded 1 and 5 in d7)
- 4 Multiple occupancy household with children (coded 2 to 4 and 6 to 8 in d7)
- 5 Other (SPONTANEOUS)
- 7 Refusal (SPONTANEOUS)

Derivation:

This variable collapses answers to d7 into four categories.

[d7 Which of the following best corresponds to your own current situation?]

Note:

See d7 for complete question text.

d8 - AGE EDUCATION

D8

How old were you when you stopped full-time education?

(CANNOT BE LARGER THAN D11 - IF 'STILL STUDYING' CODE '00' - IF 'NO EDUCATION' CODE '01' - IF 'REFUSAL' CODE '98' - IF 'DK' CODE '99')

(MAKE SURE THE RESPONDENT UNDERSTANDS THAT D8 IS ABOUT FULL-TIME EDUCATION)

0 Refusal

2 2 years

94 94 years

97 No full-time education

98 Still studying

99 DK

Note:

Original code '00' recoded to '98'.

Original code '01' recoded to '97'.

Original code '98' recoded to '0'.

Please note that users might be advised to consider pre-school ages (outliers) as with 'no full-time education' or to treat them as missing values.

Actual number is coded.

Comparability:

Last trend: EB90.2, D8

d8r1 - AGE EDUCATION: 11 CAT (RECODED)

Age when finished full-time education - recoded to 11 categories

- 1 Up to 14 years
- 2 15 years
- 3 16 years
- 4 17 years
- 5 18 years
- 6 19 years
- 7 20 years
- 8 21 years
- 9 22 years and older
- 10 Still studying
- 11 No full-time education
- 97 Refusal
- 98 DK

Derivation:

This variable collapses answers to question d8 for indicated ages lowest (2) to 14 and 22 to highest (94).

[d8 How old were you when you stopped full-time education?]

Note:

See d8 for complete question text.

d8r2 - AGE EDUCATION: 5 CAT (RECODED)

Age when finished full-time education - recoded to five categories

- 1 Up to 15 years
- 2 16-19 years
- 3 20 years and older
- 10 Still studying
- 11 No full-time education
- 97 Refusal
- 98 DK

Derivation:

This variable collapses answers to question d8 into three age groups.

[d8 How old were you when you stopped full-time education?]

Note:

See d8 for complete question text.

d15a - OCCUPATION OF RESPONDENT

D15A

What is your current occupation?

(DO NOT SHOW SCREEN – IF D15A=2 THEN D8=00 – IF D15<>2 AND D8=00 THEN CORRECT D8 OR CHANGE THE ANSWER IN D15A)

NON-ACTIVE

- 1 Responsible for ordinary shopping and looking after the home, or without any current occupation, not working
- 2 Student
- 3 Unemployed or temporarily not working
- 4 Retired or unable to work through illness

SELF EMPLOYED

- 5 Farmer
- 6 Fisherman
- 7 Professional (lawyer, medical practitioner, accountant, architect, etc.)
- 8 Owner of a shop, craftsmen, other self-employed person
- 9 Business proprietors, owner (full or partner) of a company

EMPLOYED

- 10 Employed professional (employed doctor, lawyer, accountant, architect)
- 11 General management, director or top management (managing directors, director general, other director)
- 12 Middle management, other management (department head, junior manager, teacher, technician)
- 13 Employed position, working mainly at a desk
- 14 Employed position, not at a desk but travelling (salesmen, driver, etc.)
- 15 Employed position, not at a desk, but in a service job (hospital, restaurant, police, fireman, etc.)
- 16 Supervisor
- 17 Skilled manual worker
- 18 Other (unskilled) manual worker, servant

Note:

Please note for d15a that answer category 19 'Never did any paid work' is listed in the questionnaires, but has not been included as a possible item. The answer category 'Never did any paid work' only becomes relevant in the follow-up question d15b.

Comparability:

Last trend: EB90.2, D15A

d15a_r1 - OCCUPATION OF RESPONDENT (RECODED)

Occupation of respondent - recoded to employment status

- 1 Self-employed (coded 5 to 9 in d15a)
- 2 Employed (coded 10 to 18 in d15a)
- 3 Not working (coded 1 to 4 in d15a)

Derivation:

This variable collapses answers to d15a into three categories.

[d15a What is your current occupation?]

Note:

See d15a for complete question text.

d15a_r2 - RESPONDENT OCCUPATION SCALE (C14)

Occupation of respondent - scale (C14)

- 1 Self-employed (coded 5 to 9 in d15a)
- 2 Managers (coded 10 to 12 in d15a)
- 3 Other white collars (coded 13 or 14 in d15a)
- 4 Manual workers (coded 15 to 18 in d15a)
- 5 House persons (coded 1 in d15a)
- 6 Unemployed (coded 3 in d15a)
- 7 Retired (coded 4 in d15a)
- 8 Students (coded 2 in d15a)

Derivation:

This scale is based on a combination/selection of answers to variable d15a.

[d15a What is your current occupation?]

Note:

See d15a for complete question text.

d15b - OCCUPATION OF RESPONDENT - LAST JOB

[D15A

What is your current occupation?]

D15B

ASK D15B IF 'NOT DOING ANY PAID WORK CURRENTLY', CODES 1 TO 4 IN D15A

Did you do any paid work in the past? What was your last occupation?

(DO NOT SHOW SCREEN)

SELF EMPLOYED

- 1 Farmer
- 2 Fisherman
- 3 Professional (lawyer, medical practitioner, accountant, architect, etc.)
- 4 Owner of a shop, craftsmen, other self-employed person
- 5 Business proprietors, owner (full or partner) of a company

EMPLOYED

- 6 Employed professional (employed doctor, lawyer, accountant, architect)
- 7 General management, director or top management (managing directors, director general, other director)
- 8 Middle management, other management (department head, junior manager, teacher, technician)
- 9 Employed position, working mainly at a desk
- 10 Employed position, not at a desk but travelling (salesmen, driver, etc.)
- 11 Employed position, not at a desk, but in a service job (hospital, restaurant, police, fireman, etc.)
- 12 Supervisor
- 13 Skilled manual worker
- 14 Other (unskilled) manual worker, servant

15 Never did any paid work

99 Inap. Currently doing paid work (not coded 1 to 4 in d15a)

Note:

In accordance with former waves coding has been (correctly) shifted compared to the questionnaire.

Comparability:

Last trend: EB90.2, D15B

d15b_r - OCCUPATION OF RESPONDENT - LAST JOB (RECODED)

Occupation of respondent: last job - recoded to employment status

- 1 Self-employed (coded 1 to 5 in d15b)
- 2 Employed (coded 6 to 14 in d15b)
- 3 Never paid work (coded 15 in d15b)
- 9 Inap. Currently doing paid work (not coded 1 to 4 in d15a)

Derivation:

This variable collapses answers to d15b into three categories.

[d15b Did you do any paid work in the past? What was your last occupation?]

Note:

See d15b for complete question text.

d40c_r - HOUSEHOLD COMPOSITION: AGED 10-14 (RECODED)

n of people in household aged 10 to 14 years - recoded to five categories

- 0 None
- 1 One
- 2 Two
- 3 Three
- 4 Four or more

Derivation:

This variable groups answers to question d40c.

[d40c Could you tell me how many children aged 10 to 14 years old live in your household?]

Note:

See d40c for complete question text.

d40t - HOUSEHOLD COMPOSITION: SIZE (SUMMARIZED)

n of people in household - summarized

- 1 One
- 2 Two
- 3 Three
- 4 Four
- 5 Five
- 6 Six
- 7 Seven
- 8 Eight
- 9 Nine
- 10 Ten
- 11 Eleven
- 12 Twelve
- 13 Thirteen
- 14 Fourteen
- 15 Fifteen
- 16 Sixteen
- 17 Seventeen
- 18 Eighteen
- 19 Nineteen
- 20 Twenty
- 21 Twenty-one

Derivation:

This variable summarizes d40a, d40b, and d40c.

[d40a Could you tell me how many people aged 15 years or more live in your household, yourself included?

d40b Could you tell me how many children aged 10 to 14 years old live in your household?

d40c Could you tell me how many children less than 10 years old live in your household?]

Note:

See d40a, d40b, and d40c for complete question text.

Variable d40t was named d40abc in former versions of this dataset.

Generated by GESIS in accordance with former surveys.

d40t by isocntry, Absolute Values (Row Percent), weighted by w1

d40t_r - HOUSEHOLD COMPOSITION: SIZE A+B+C (RECODED)

n of people in household - recoded to four categories

- 1 One
- 2 Two
- 3 Three
- 4 Four and more

Derivation:

This variable groups the summarized variable d40t.

[d40a Could you tell me how many people aged 15 years or more live in your household, yourself included?

d40b Could you tell me how many children aged 10 to 14 years old live in your household?

d40c Could you tell me how many children less than 10 years old live in your household?]

Note:

See d40a, d40b, and d40c for complete question text.

Variable d40t_r was named d40abc_r in former versions of this dataset.

d40t_r by isocntry, Absolute Values (Row Percent), weighted by w1

d40_d11 - ONE-PERSON HOUSEHOLD COMPOSITION BY AGE

One-person households – recoded to three age categories

- 1 15 - 29 years
- 2 30 - 59 years
- 3 60 years and older
- 9 Inap. No one-person-household (not coded 1 in d40t)

Derivation:

This variable collapses answers to d11 into three age categories, but only for one-person households.

[d11 How old are you?

d40a Could you tell me how many people aged 15 years or more live in your household, yourself included?

d40b Could you tell me how many children aged 10 to 14 years old live in your household?

d40c Could you tell me how many children less than 10 years old live in your household?]

Note:

See d11 and d40a, d40b, and d40c for complete question text.

d43t - PHONE AVAILABLE (SUMMARIZED)

Availability of mobile and/or landline phones - summarized

- 1 Mobile only
- 2 Landline only
- 3 Landline & mobile
- 4 No telephone

Derivation:

This variable summarizes answers to question d43a and d43b.

[d43a Do you own a fixed telephone in your household?

d43b Do you own a personal mobile telephone?]

Respondents coded 2 in d43a and 1 in d43b are coded 1 ('Mobile only') in d43t. Respondents coded 1 in d43a and 2 in d43b are coded 2 ('Landline only') in d43t. Respondents coded 1 in d43a and d43b are coded 3 ('Landline and mobile') in d43t. Respondents coded 2 in d43a and d43b are coded 4 ('No telephone') in d43t.

Note:

See d43a and d43b for complete question text.

d46t1 - OWNERSHIP APARTM/HOUSE (D46_10+D46_11)

Ownership of an apartment or house - summarized

0 Not mentioned

1 Mentioned

Derivation:

This variable summarizes responses to d46_10 and d46_11.

[d46 Which of the following goods do you have?

d46_10 An apartment / a house which you have finished paying for

d46_11 An apartment / a house which you are paying for]

Note:

See variable d46 for complete question text.

Please note that one respondent from the Turkish Cypriot Community gives substantial answers in d46_1 to d46_11 ('OWNERSHIP DURABLES') and at the same time is coded 1 ('Mentioned') in d46_12 ('None').

d62t1 - INTERNET USE - INDEX 1 (4 CAT)

Frequency of internet use - index with four categories

- 1 (Almost) everyday (at least once coded 1 in d62_1 to d62_4)
- 2 Often / sometimes (at least once coded 2 to 5 in d62_1 to d62_4)
- 3 Never/no access (coded 6 or 6/7 in d62_1 to d62_4)
- 4 No Internet access at all (coded 7 in d62_1 to d62_4)

Derivation:

This variable summarizes responses to d62 in four categories.

[d62 Could you tell me if ...?

d62_1 You use the Internet at home, in your home

d62_2 You use the Internet on your place of work

d62_3 You use the Internet on your mobile device (laptop, smartphone, tablet, etc.)

d62_4 You use the Internet somewhere else (school, university, cyber-café, etc.)]

Respondents coded 1 at least once in d62_1 to d62_4 are coded 1 in d62t1 ('Everyday/Almost everyday'). Respondents coded 2, 3, 4 or 5 in each variable d62_1 to d62_4 are coded 2 ('Often/sometimes') in d62t1. Respondents coded 6 ('Never') in each variable d62_1 to d62_4 are coded 3 ('Never to all') in d62t1. Respondents coded 6 ('Never') in each variable d62_1 to d62_4, or at least once coded 6 in d62_1 to d62_4 and coded 7 ('No internet access') in the other variable(s), are coded 3 ('Never/No access') in d62t1. Respondents coded 7 ('No internet access') in each variable d62_1 to d62_4 are coded 4 ('No internet access at all') in d62t1.

Note:

See d62 for complete question text.

Variable d62t1 was named d62t in former versions of this dataset.

d62t2 - INTERNET USE - INDEX 2 (7 CAT)

Frequency of internet use - index with seven categories

- 1 (Almost) everyday (at least once coded 1 in d62_1 to d62_4)
- 2 Two or three times a week (not coded 1 and at least once coded 2 in d62_1 to d62_4)
- 3 About once a week (not coded 1 to 2 and at least once coded 3 in d62_1 to d62_4)
- 4 Two or three times a month (not coded 1 to 3 and at least once coded 4 in d62_1 to d62_4)
- 5 Less often (not coded 1 to 4 and at least once coded 5 in d62_1 to d62_4)
- 6 Never/no access (coded 6 or 6/7 in d62_1 to d62_4)
- 7 No Internet access at all (coded 7 in d62_1 to d62_4)

Derivation:

This variable summarizes responses to d62.

[d62 Could you tell me if ...?

d62_1 You use the Internet at home, in your home

d62_2 You use the Internet on your place of work

d62_3 You use the Internet on your mobile device (laptop, smartphone, tablet, etc.)

d62_4 You use the Internet somewhere else (school, university, cyber-café, etc.)]

Respondents coded 1 at least once in d62_1 to d62_4 are coded 1 in d62t2 ('Everyday/Almost everyday'). Respondents coded 2 at least once in d62_1 to d62_4 and not coded 1, are coded 2 in d62t2 ('Two or three times a week'). Respondents coded 3 at least once in d62_1 to d62_4 and not coded 1 or 2, are coded 5 in d62t2 ('About once a week'). Respondents coded 4 at least once in d62_1 to d62_4 and not coded 1 to 3, are coded 4 in d62t2 ('Two or three times a month'). Respondents coded 5 at least once in d62_1 to d62_4 and not coded 1 to 4, are coded 5 in d62t2 ('Less often'). Respondents coded 6 ('Never') in each variable d62_1 to d62_4, or at least once coded 6 in d62_1 to d62_4 and coded 7 ('No internet access') in the other variable(s), are coded 6 ('Never/No access') in d62t2. Respondents coded 7 ('No internet access') in each variable d62_1 to d62_4 are coded 7 ('No internet access at all') in d62t2.

Note:

See d62 for complete question text.

Generated by GESIS in accordance with former surveys.

Variable d62t2 was named netuse in former versions of this dataset.

d63 - SOCIAL CLASS - SELF-ASSESSMENT (5 CAT)

D63

Do you see yourself and your household belonging to...?

(SHOW SCREEN – READ OUT – ONE ANSWER ONLY)

- 1 The working class of society
- 2 The lower middle class of society
- 3 The middle class of society
- 4 The upper middle class of society
- 5 The higher class of society
- 6 Other (SPONTANEOUS)
- 7 None (SPONTANEOUS)
- 97 Refusal (SPONTANEOUS)
- 98 DK

Note:

Original code '8' recoded to '97'.

Original code '9' recoded to '98'.

Starting with Eurobarometer 82.3 demographic variable d63 'SOCIAL CLASS - SELF-ASSESSMENT (5 CAT)' consists of five categories instead of three categories.

d72_1 - MY VOICE COUNTS - IN THE EU

D72

Please tell me to what extent you agree or disagree with each of the following statements.

(SHOW SCREEN – READ OUT – ONE ANSWER PER LINE - CODE 'NO ANSWER' IN CODE 5 - DISPLAY '99' INSTEAD OF 'DK')

D72_1 My voice counts in the EU

- 1 Totally agree
- 2 Tend to agree
- 3 Tend to disagree
- 4 Totally disagree
- 5 DK
- 9 Inap. (no consent given)

Note:

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recording this consent have not been part of the original data delivery.

opls - OPINION LEADERSHIP INDEX (D71&D77 SUMMARIZED)

Index of Opinion Leadership

0 DK (coded 5 in d77 and coded 0 in polintr)

1 - - low (coded 4 in d77 and coded 0, 1, 2 or 3 in polintr; or coded 5 in d77 and coded 1, 2, 3 or 4 in polintr)

2 - (coded 3 in d77 and coded 0, 1, 2 or 3 in polintr; coded 4 in d77 and coded 4 in polintr)

3 + (coded 3 in d77 and coded 4 in polintr; coded 2 in d77 and coded 0, 1, 2 or 3 in polintr; coded 1 in d77 and coded 0, 1 or 2 in polintr)

4 ++ high (coded 1 in d77 and coded 3 or 4 in polintr; or coded 2 in d77 and coded 4 in polintr)

9 Inap. (no consent given)

Derivation:

The OPINION LEADERSHIP INDEX is based on the answers to the following two questions: 'When you hold a strong opinion, do you ever find yourself persuading your friends, relatives or fellow workers to share your views? Does this happen often ...?' (d77) and 'When you get together with friends or relatives, would you say you discuss frequently, occasionally or never about (national/European/local) political matters?' (d71), the latter first being summarized in the POLITICAL INTEREST INDEX (polintr). Interviewees giving affirmative answers to both questions are labelled ++. Interviewees giving negative answers to both questions are labelled - -. Middle categories (+ and -) are constituted correspondingly.

This variable forms an indicator of the individual's potential to take an active role in the political process. For a complete discussion of this variable and its correlates see Ronald Inglehart, *The Silent Revolution: Changing Values and Political Styles among Western Publics* (Princeton University Press, 1977).

Note:

Starting with EB 73.4 the OPINION LEADERSHIP INDEX (C1) is constructed via the new POLITICAL INTEREST INDEX. For the background and derivation of this index variable see polintr.

Compared to the original variable the scale has been inversed by GESIS in accordance with former practice. Furthermore responses coded 'DK' to both source variables (d77 and polintr) have been recoded to '0' (DK), if applicable.

See d77 and d71 for complete question text.

From Eurobarometer 89.3 to Eurobarometer 90.3 respondents were asked for consent to being asked sensitive questions in order to achieve compliance with European GDPR regulations. Respondents that refused to give consent in the beginning of the interview are assigned the value '9' or '99' and labelled 'Inap. (No consent given)' on questions requiring prior consent. The variables recording this consent have not been part of the original data delivery.

p1 - DATE OF INTERVIEW

INTERVIEW PROTOCOLE

p1 Date of the interview

- 1 Saturday, 8th November 2018
- 2 Sunday, 9th November 2018
- 3 Monday, 10th November 2018
- 4 Tuesday, 11th November 2018
- 5 Wednesday, 12th November 2018
- 6 Thursday, 13th November 2018
- 7 Friday, 14th November 2018
- 8 Saturday, 15th November 2018
- 9 Sunday, 16th November 2018
- 10 Monday, 17th November 2018
- 11 Tuesday, 18th November 2018
- 12 Wednesday, 19th November 2018
- 13 Thursday, 20th November 2018
- 14 Friday, 21st November 2018
- 15 Saturday, 22nd November 2018

Note:

The fieldwork dates implied by the values in protocol variable p1 (date of interview) differ slightly from those indicated in the technical specifications provided by Kantar for several countries.

Comparability:

Last trend: EB90.2, P1

p6fr - SIZE OF COMMUNITY - FRANCE

p6fr Objective size of community: France

- 1 Rural area
- 2 Towns and suburbs/small urban area
- 3 Cities/large urban area
- 99 Inap. (not FR in isocntry)

Note:

Starting with Eurobarometer 81.3 (with 84.1 for Germany), the category scheme for country specific protocol variables P6 (SIZE OF COMMUNITY) has changed considerably. Categories for all countries have been harmonized among each other to three values (Rural area - Towns and suburbs/small urban area - Cities/large urban areas) except for Türkiye (5-point category scheme). Starting with Eurobarometer 85.2 the category scheme for Montenegro, Serbia and Albania changed from three to two categories (Rural area – Urban area).

Comparability:

Last trend: EB90.2, P6

p6fr, weighted by w1

Value	Label	Missing	Count	Percent	Valid Percent
1	Rural area		330	1.0	32.6
2	Towns and suburbs/ small urban area		218	0.7	21.6
3	Cities/ large urban area		463	1.4	45.8
99	Inap. (not FR in isocntry)	M	31589	96.9	
	Sum		32600	100.0	100.0

p7pt - REGION - PORTUGAL NUTS 2

p7pt Portugal (EUROSTAT NUTS 2 LEVEL) – Comissaoes de Coordenação regional + Regioes autonomas

- 1 Norte (North) [PT]
- 2 Centro (Center) [PT]
- 3 Área Metropolitana de Lisboa (Lisbon metropolitan area)
- 4 Alentejo (Alentejo Region)
- 5 Algarve
- 99 Inap. (not PT in isocntry)

Note:

The autonomous regions of the Azores (PT20 - Região Autónoma dos Açores) and of Madeira (PT30 - Região Autónoma da Madeira) are not covered.

Since 2002 the region 'Lisboa e vale do tejo' is split up and the subregion 'Lezíria do Tejo' reinstated to the 'Alentejo' Region and the 'Médio Tejo' and 'Oeste' reinstated to the 'Centro' Region. The relative frequencies for each region indicate that this is reflected in the Eurobarometer P.7 regions starting with Eurobarometer 62.0. The original label for category '3' ('Lisboa e vale do Tejo') has been edited accordingly. According to the NUTS 2 specifications for Portugal this now only includes 'Grande Lisboa' and 'Península de Setúbal'.

Please note that according to the NUTS version 2013 with regular amendment as of January 1, 2015, and starting with Eurobarometer 83.1 category '3' is labelled 'Área Metropolitana de Lisboa'.

The official NUTS categories are coded and documented in the integrated alphanumeric NUTS CODES variable 'nuts'.

Derivation:

This additional alphanumeric NUTS CODES variable is produced by GESIS. It integrates all country specific p7 variables given that the regional units are defined in accordance with the EUROSTAT Nomenclature of Territorial Units for Statistics (NUTS) respectively in accordance with the Statistical Regions for Candidate and EFTA Countries. For each country the lowest available NUTS subdivision level is considered.

Note:

The official NUTS codes are coded verbatim in accordance with the in each case valid (applicable) NUTS version. All version details and changes are documented in the official EUROSTAT classification history (History of NUTS). A second variable (nutslvl) indicates the coded NUTS LEVEL for each country.

France:

The territorial unit of Corse (FR83) and the Oversea departments (Départements d'outre-mer: FR9) are not covered.

Italy:

Starting with Eurobarometer wave 77 (NUTS version 2010 with regular amendment as of January 1, 2012) NUTS 1 codes for Italy have changed for North-East (ITH instead of ITD) and Center (ITI instead of ITE). The reason for this are minor boundary shifts on NUTS 2 and 3 level (ITI3: Marche and ITH5: Emilia Romagna).

Ireland:

Starting with EB 81.3 the category scheme for country specific protocol variable P7 (REGION) has changed for Ireland introducing NUTS 3 categories.

Greece:

The Aegean Islands (EL41 - Βόρειο Αιγαίο/Voreio Aigaio and EL42 - Νότιο Αιγαίο/Notio Aigaio) as well as the Ionian Islands (EL22 - Ιόνια Νησιά/Ionia Nisia) are not covered.

Starting with Eurobarometer wave 77 (NUTS version 2010 with regular amendment as of January 1, 2012) the standard country prefix 'GR' is replaced by 'EL'. The remaining numerical part of the codes remains unaffected.

Spain:

The autonomous cities of Ceuta (ES63 - Ciudad Autónoma de Ceuta) and Melilla (ES64 - Ciudad Autónoma de Melilla) are not covered.

Portugal:

The autonomous regions of the Azores (PT20 - Região Autónoma dos Açores) and of Madeira (PT30 - Região Autónoma da Madeira) are not covered. Please note that according to the NUTS version 2013 with regular amendment as of January 1, 2015, and starting with Eurobarometer 83.1 category '3' is labelled 'Área Metropolitana de Lisboa'.

Finland:

Starting with EB 81.3 for Finland only one country specific protocol variable P7 (REGION) is available. The variable p7fi corresponds to the NUTS 2 breakdown in accordance to NUTS 2010 with regular amendment as of January 1, 2012. The NUTS 3 breakdown is no longer available for Finland.

Estonia:

Starting with EB 81.3 the category scheme for country specific protocol variable P7 (REGION) has changed for Estonia introducing the official NUTS 3 categories.

Bulgaria:

Starting with EB 81.3 for Bulgaria only one country specific protocol variable P7 (REGION) is available. The NUTS 3 breakdown is no longer available for Bulgaria.

Croatia:

Starting with EB 81.3 the category scheme for country specific protocol variable P7 (REGION) has changed for Croatia introducing the NUTS 2 and NUTS 3 categories.

Comparability:

nuts (REGION - NUTS CODES) in EB90.3

nutslvl - REGION - NUTS LEVEL

nutslvl REGION - NUTS LEVEL

0 No NUTS units

1 NUTS level 1

2 NUTS level 2

3 NUTS level 3

Derivation:

This variable identifies the lowest available NUTS LEVEL as coded for each country in variable NUTS CODES variable 'nuts'.

Starting with EB 81.3 the category scheme for country specific protocol variables P7 (REGION) have changed for some countries, in particular introducing NUTS categories for Ireland, Estonia and Croatia, and modifying NUTS categories for Finland and Bulgaria.

nation - NATION (UNITED GERMANY) ISO3166

nation (United Germany) ISO3166

NATION (UNITED GERMANY) ISO3166 equals country/sample identification variable isocntry (COUNTRY CODE - ISO 3166) but coding East and West Germany together. Unlike variable 'de' (NATION – UNITED GERMANY (ONLY)) all other countries (samples) are included for calculation.

Comparability:

Starting with Eurobarometer 75.4 and according to available weights up to Eurobarometer 61, GESIS was deriving three additional weights (w3a, w4a, w3a4a) in order to provide for the analysis of the United Kingdom and/or Germany, each as a whole and together with all other countries. Minimal deviations in frequencies for weighted data are possible due to rounding differences.

Starting with Eurobarometer 89.2 no separate sample is drawn for Northern Ireland, which is now covered by the sample for the United Kingdom. Accordingly, the formerly available weight variable w4 'WEIGHT UNITED KINGDOM' is obsolete and no longer included in the dataset. Additionally, starting with Eurobarometer 89.2 formerly derived weight variables w4a 'WEIGHT RESULT FROM TARGET - UNITED KINGDOM' (Germany East and West separated) and w3a4a 'WEIGHT RESULT FROM TARGET - NATION' (coding together both separate samples, Great Britain und Northern Ireland as well as East and West Germany and all other countries) are also obsolete and no longer included in the dataset. As a consequence country/sample identification variables 'cntry_gb' and 'cntry_de' (now identical to variable 'nation') are also obsolete starting with Eurobarometer 89.2.

Use of weighting factor w3a is mandatory for descriptive analysis.

w3a - WEIGHT RESULT FROM TARGET - UNITED GERMANY

w3a Weight result from target - United Germany

This weight combines the weighting factors for Germany as a whole (redressment factors plus populations size factors East/West) and the redressment factors for all other countries. This weight has been derived by GESIS from original Kantar weights w1 and w3. Unlike weighting variable w3 (WEIGHT UNITED GERMANY (ONLY)) the other countries/samples are not excluded from calculation.

Note:

Starting with Eurobarometer 75.4 and according to available weights up to Eurobarometer 61, GESIS was deriving three additional weights (w3a, w4a, w3a4a) in order to provide for the analysis of the United Kingdom and/or Germany, each as a whole and together with all other countries. Minimal deviations in frequencies for weighted data are possible due to rounding differences.

Starting with Eurobarometer 89.2 no separate sample is drawn for Northern Ireland, which is now covered by the sample for the United Kingdom. Accordingly, the formerly available weight variable w4 'WEIGHT UNITED KINGDOM' is obsolete and no longer included in the dataset. Additionally, starting with Eurobarometer 89.2 formerly derived weight variables w4a 'WEIGHT RESULT FROM TARGET - UNITED KINGDOM' (Germany East and West separated) and w3a4a 'WEIGHT RESULT FROM TARGET - NATION' (coding together both separate samples, Great Britain und Northern Ireland as well as East and West Germany and all other countries) are also obsolete and no longer included in the dataset.
