ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [-8] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

SPEMPREL – Spouse, partner: employment relationship

	National Language	English Translation
<i>Question no. and text</i>	#111 Le prossime domande si occupano più in dettaglio della situazione lavorativa del/della Suo/a coniuge/partner. Se il/la Suo/a coniuge/partner ha più di un datore di lavoro, oppure se svolge sia un lavoro dipendente che un lavoro in proprio, si riferisca al suo lavoro principale. Se attualmente il/la Suo/a coniuge/partner è in pensione o comunque non sta lavorando, si riferisca all'ultimo lavoro che ha avuto. Il/la Suo/a coniuge/partner svolge/svolgeva un lavoro dipendente, lavora/va in proprio, o lavora/va come coadiuvante familiare?	#111 The next questions deal with some more details on your spouse's/partner's work situation. If he/she works for more than one employer, or if he/she is both employed and self-employed, please refer to his/her main job. If he/she is retired or not currently working, please refer to his/her last main job. Is/was your spouse/partner an employee, self-employed, or working for his/her own family's business?
<i>Codes/ Categories</i>	-4. NAP	-4. NAP
	1. Lavoro dipendente	1. Employee
	2. Lavoro in proprio senza dipendenti	2. Self-employed without employees
	3. Lavoro in proprio con 1-9 dipendenti	3. Self-employed with 1-9 employees
	4. Lavoro in proprio con 10 o più dipendenti	4. Self-employed with 10 employees or more
	5. Coadiuvante familiare	5. Working for own family's business
	-9. Non risponde	-9. No answer
<i>Interviewer Instruction</i>	Per lavoratore autonomo/lavoratrice autonoma si intende anche 'freelance', 'professionista indipendente', e tutte le altre persone che lavorano in proprio. Chiunque percepisca uno stipendio da altri, anche senza essere assunto, conta come lavoratore dipendente.	By self-employed we mean also 'freelancers', 'independent professionals', and other respondents working on their own account. We consider as an employee anyone who receives a salary by someone else (even if the former is not formally an employee of the latter).

SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [-8] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.
