Acknowledgements

Standard & Special Eurobarometer surveys are conducted on behalf of the European Commission, under the responsibility of the Directorate-General Communication and on occasion requested by other departments according to the policy they deal with. From the outset the European Commission is generously granting access to Eurobarometer primary data for re-use in social science research and training.

The integrated original datasets and related materials are delivered by the respective survey research institute in charge of survey implementation and fieldwork co-ordination.

Preparation and documentation of Eurobarometer primary data for long term preservation and usability happen in a cooperative arrangement between the teams at Inter-University Consortium for Political and Social Research (ICPSR) and GESIS Data Archive for the Social Sciences.

Introduction and preliminary remarks

The variable reports of the Standard & Special Eurobarometer survey series offer a comprehensive description of the data on study and variable level. For each Eurobarometer individual variable reports are provided. The reports are structured into five sections: Section one provides the description of the respective Eurobarometer Study, including bibliographic information, abstract, methodological specifications, remarks on weighting and general notes on data preparation. Section two gives an historical overview of the Eurobarometer Survey Series, including the institutional background and the development of geographical and topical coverage. A third section provides general information about the structure of Eurobarometer datasets, documentation standards and variable coding frames. Section four explains the details of the 'Variable Documentation' part in the following section five, which is the documentation of the variables with the complete question texts and answer categories of the master questionnaire and the corresponding archival remarks on data preparation or inconsistencies, if applicable. In addition, this variable report contains frequency counts, by country (sample), for almost all variables. These frequencies are based on weighted data using the adequate post-stratification weight, if applicable and as indicated in each table.

Data access

Primary data for statistical analysis and related documentation (basic bilingual questionnaires, national field questionnaire versions and variable reports) are made available online by GESIS (<http://zacat.gesis.org>), by the Inter-university Consortium for Political and Social Research through the ICPSR membership network, and through all Social Science Data Archives members of the Council of European Social Science Data Archives (CESSDA).

Usage requirement

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about related research activities, users of the data are requested to send to ICPSR or GESIS respectively bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data (surveys and respective variables) were used.

Disclaimer

The original collector of the data, ICPSR, GESIS, and the relevant funding agencies bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

GESIS, Cologne [Publisher]: ZA2563, dataset version 1.0.1, doi:10.4232/1.10911.

1.2 Content

1.2.1 Abstract

This round of Eurobarometer surveys queried respondents on standard Eurobarometer measures such as public awareness of and attitudes toward the Common Market and the European Union (EU), and also focused on the image of politics in Italy, nutrition and the risk of getting cancer, and awareness of the European Community Humanitarian Office (ECHO). EU matters covered included the powers, importance, and representativeness of the European Parliament, the protection of personal interests by the European Parliament, and the relative importance of European political policy areas in future elections. Respondents were also questioned on their awareness of outcomes in recent referenda for joining the EU. Questions on the image of politics in Italy included the respondent's awareness of politics in Italy and ratings of the political and economic situations in Italy. Regarding cancer risks, respondents rated 13 food items as increasing, decreasing, or causing no change in their risk of getting cancer. Respondents were also asked about their awareness of the ECHO logo, knowledge of ECHO's humanitarian assistance to the EU as a whole, to Rwanda, and to Yugoslavia, whether ECHO should increase its humanitarian assistance to non-EU countries, whether the EU, the United States, or Japan gives the most money for humanitarian assistance to non-EU countries, the most effective way for EU countries to give humanitarian assistance, and the level of involvement by the EU in distributing money for humanitarian aid. In France only, respondents were queried on their awareness and consumption of cola drinks. Demographic and other background information was gathered on the number of people residing in the home, region of residence, and occupation of the head of household, as well as the respondent's age, sex, marital status, education, occupation, religion, religiosity, subjective social class, and left-right political self-placement.

1.2.2 Topic classification

1.3 Universe

In all, Eurobarometer 42 interviewed 13.063 citizens of the 12 countries in the European Community (nationals and non-nationals but EU-citizens). Respondents were aged 15 and over. Separate samples were drawn for Northern Ireland and East Germany. In addition, 1082 Austrian, 501 Swedish, 1000 Finnish, and 1031 Norwegian citizens aged 15 and over were interviewed with a subset of questions.

1.4 Sampling procedure

A multi-stage sampling design was used for this Eurobarometer. In the first stage, primary sampling units (PSU) were selected from each of the administrative regions in every country (i.e., Statistical Office of the European Community, EUROSTAT regions). PSU selection was systematic with probability proportional to population size, from sampling frames stratified by the degree of urbanization. In the next stage, a cluster of addresses was selected from each sampled PSU. Addresses were chosen systematically using standard random route procedures, beginning with an initial address selected at random. In each household, a respondent was selected, by a random procedure. Up to three recalls were made to obtain an interview with the selected respondent. No more than one interview was conducted in each household. Interviews were conducted face-to-face in respondents' homes. In Sweden the interviews were carried out via telephone. The effective number of realized interviews in this round is indicated in table 1.

1.5 Fieldwork

From November 14 to December 31, 1994, International Research Associates of Europe, INRA (Europe), carried out the fieldwork for this Eurobarometer, at the request of the 'Survey, Research, Analysis' Unit of the Directorate General X, 'Information, Communication and Culture', of the European Commission. INRA (Europe) is a European network of market and public opinion research agencies, co-ordinated by the European Co-ordination Office (ECO), Avenue R.Vandendriessche 18, B-1150 Brussels.

1.6 Mode of data collection

In all member states, fieldwork was conducted on the basis of detailed and uniform instructions prepared by the ECO.

INRA (Europe) developed equivalent French and English questionnaires for this Eurobarometer. These questionnaires were translated into other languages by the firms responsible for interviewing in each country.

1.7 Weighting

In general the Standard and Special Eurobarometer data sets provide for two types of weighting, a post-stratification sample weighting and a population size weighting.

For each sample, i.e. participating country or lower level region, a comparison between the sample composition and a proper universe description is carried out for internal weighting purposes. The universe description is made available by the National Survey Research Institutes and/or by EUROSTAT. On this basis a national weighting procedure, using marginal and intercellular weighting, is applied. As such in all countries, minimum sex, age, region NUTS II (basic regions as defined by the EUROSTAT nomenclature of territorial units for statistics), and size of locality are introduced in the iteration procedure. This **post-stratification weighting** is also referred to as redressment or non-response weighting. A design weight which would adjust for unequal selection probabilities (depending on the household size) is not made available.

For the descriptive analysis of individual samples or their comparison, up to six weighting variables are provided in each data set and documented as such in the variable description. Until Eurobarometer 31 the corresponding weight variable is labelled NATION WEIGHT II. Weighting factors were then not included continuously for all samples and weighting procedure might have differed from the foregoing description. While weighting usually reproduces the real number of cases for each sample, between Eurobarometer 33 and 54.1 samples can also be adjusted to their predefined standard size of exactly 1000 or 500 cases. This option was applied for the official Eurobarometer reports of the period.

The **population size weighting** factor corrects for the fact that most samples are of almost identical size, no matter how large or small the populations are from which they were drawn. These weights ensure that each country as well as each lower level sample (Great Britain and Northern Ireland, East and West Germany) are represented in proportion to its population size within different groupings, or according to the historical states of European unification (e.g. founder members, new members, Euro zone) in the case of the EUROPEAN WEIGHTS, or for the United Kingdom (WEIGHT SPECIAL UNITED KINGDOM, NATION WEIGHT I until Eurobarometer 31A) and for Germany as a whole (WEIGHT SPECIAL GERMANY).

The population size weights all include the post-stratification weighting factors. The EUROPEAN WEIGHTS adjust each sample in proportion to its share in the total population of the European Union (formerly European Community), aged 15 and over. These adjustments are based on population figures published by EUROSTAT in the Regional Statistics Yearbook. In some cases more than 20 European weights are provided for use in analyses of the European Union population as a whole or in accordance with its historical compositions. Between Eurobarometer 33 and 54.1 adjustments to the predefined standard sample size is taken into account. In general all samples which do not belong to the respective group of samples under consideration are excluded from calculation.

The application of post-stratification weights is recommended for descriptive (univariate) analysis. Meaningful descriptive results for groups of countries or for countries with separate samples (United Kingdom and Germany) require population size weighting. Official Eurobarometer reports are always based on weighted data.

Starting with Eurobarometer 66.2 a new additional weight (WEIGHT EXTRA) is provided which extrapolates the actual universe (population aged 15 or more) for each country or sample. This weight variable integrates all other available weights, but does not reproduce the number of cases in the data set, but the respective actual population size.

As needed, OVERSAMPLES (see chapter 2.4, table 3) are weighted separately as documented in the respective study and weight variable description. In some surveys special weights are made available for application with selected variables on a specific topic, e.g. for the descriptive analysis of variables regarding e-communication equipment on HOUSEHOLD level.

Eurobarometer 42 provides four (post-stratification) NATION WEIGHTS: NATION WEIGHT IIa (WEIGHT RESULT FROM TARGET) and NATION WEIGHT IIb (WEIGHT ADJUSTED TO STANDARD SIZE) for separate analysis or comparison of individual samples (countries or regions on sub-national level), NATION WEIGHT I (WEIGHT SPECIAL UNITED KINGDOM) which in addition adjusts the British and the Northern Irish samples to their respective proportions in the United Kingdom for descriptive analysis of the United Kingdom as a whole and NATION WEIGHT III (WEIGHT SPECIAL GERMANY), which adds the adjustment of the East and West German samples to their respective proportions in the United Germany, to be used for descriptive analysis of the United Germany as a whole. All other samples (nations) are included, likewise all post-stratification factors.

The different EUROPEAN WEIGHTS provide adjustments for each (national) sample in proportion to its share in the total population aged 15 and over, of the European Union, within groups of member countries representing different historical states of European integration (e.g. EURO6 = six founder members). All post-stratification factors are included.

For more detailed information on the individual weights please see the corresponding variable description.

1.8 Data preparation

The data received by ZA from INRA (EUROPE) were checked for missing and duplicate records, for illegal (wild) codes and for consistency of response patterns. Errors discovered by these procedures were corrected or noted in this codebook. Indices and other derived summary variables were also checked and corrected as necessary. Complete machine-readable documentation was also created for this dataset by ZA.

To facilitate analyses of the data, ZA created new variables which consolidate information dispersed over two or more variables in the original INRA dataset. Five variables containing condensed information were created by ZA for this Eurobarometer: NATION I, NATION III, AGE RECODED, AGE EDUCATION RECODED and REGION II. Users should be aware that ZA's process of condensing information sometimes produces coding schemes that differ from those in earlier Eurobarometers.

ZA also added "Inappropriate" (Inap.) codes to indicate intentionally skipped questions when it could be determined that the appropriate skip instruction in the INRA questionnaire was adhered to for (almost) every respondent.

Users should note that INRA has occasionally represented answers to a question by a series of binary "dummy" variables (i.e. variables which take on values of one and zero only) creating separate "dummy" variables to explicitly represent "Don't know", "No answer" or other residual responses, such as "None of the above". ZA has recoded these residual responses in the case of inconsistencies with respect to the series of principal answers.

ZA has recoded the missing answers (NA) represented in the INRA data set by blanks.

Question text and contingency text appearing in this codebook and ZA's machine-readable documentation is taken from INRA's English language version of the basic bilingual questionnaire. Coding schemes and other documentation are based on INRA's English language version of the basic bilingual questionnaire, INRA's codebook (in English) and INRA's SPSS setup for its dataset as received by ZA. Whenever a discrepancy occurs between INRA's codebook, questionnaires, SPSS setup and dataset with respect to the coding scheme of a variable, ZA has carried out any correction in agreement with INRA.

1.9 Further remarks

Special Release: European Election Study 1994 Special Release: European Election Study 1994

Please notice the special release of codebook and data sets of European Election Study 1994 (ZA study numbers 2866-2869). A number of pertinent variables from Eurobarometer 42 are documented and included here. The complete study essentially consists of a survey conducted immediately after the European Parliament election of June 1994 in the framework of Eurobarometer 41.1. In addition pertinent variables from Eurobarometers 40 and

41.0 are also included. Identical questions have been asked in all member states of the European Community, some of them have been included in two, a few in three or four of the interviews. As a consequence the study offers wide opportunities for comparative and longitudinal analyses of voter behavior and voter orientations. Longitudinal analysis are particularly supported by the fact that 1994 study contents are partially overlapping with those of the European Election Study 1989 (ZA study number 2320).

The special data release EES 1994 was prepared in the framework of the 'European Elections Study Research Group' by Hermann Schmitt (Mannheimer Zentrum fuer Europaeische Sozialforschung, University of Mannheim), Franz Urban Pappi (University of Mannheim), Cees van der Eijk (University of Amsterdam) and Evi Scholz (ZEUS, University of Mannheim) in collaboration with Pilar del Castillo (UNED, Madrid), Roland Cayrol (CEVIPOF, Paris), Mark Franklin (University of Houston), Renato Mannheimer (University of Genova), Michael Marsh (Trinity College, University of Dublin), Karlheinz Reif (European Commission), and Colette Ysmal (CEVIPOF, Paris).

2 Eurobarometer Series Description

2.1 Series name

The Standard and Special Eurobarometer (a.k.a. Euro-Barometer) Survey Series

2.2 Series information

The Standard and Special Eurobarometer surveys are the products of a unique program of cross-national and cross-temporal survey research. The effort began in early 1970, when the Commission of the European Communities sponsored simultaneous surveys of the publics of the European Community. In general they are carried out in spring and fall of each year. Three pilot studies were conducted in 1970, 1971 and 1973 under the header of European Communities Studies; "Attitudes towards Europe" (GESIS id ZA0078), the very first comparative survey across European Communities founder members in 1962, can be seen as an early forerunner. The primary data of the first explicit Eurobarometer, conducted in spring 1974, have not been preserved.

2.3 Principal investigators and institutional background

The Eurobarometer program was initially launched and managed until 1986 by Jacques-René Rabier, head of the Commission's press and information directorate and afterwards special advisor to the Commission of the European Communities. He counted with the political support of the European Parliament and the close co-operation of Ronald Inglehart. The political scientist at the University of Michigan was then developing his theory of value change in modern societies and his materialist/post-materialist items would become integral part of the Eurobarometer until the mid nineties. Between 1987 and 1996 the program was continued and considerably enlarged under the direction of Karlheinz Reif, since 1993 together with Anna Melich.

Anna Melich took over the Eurobarometer direction from 1997 to 1999, by then still within the organizational framework of the former Directorate-General X, Public Opinion Surveys and Research Unit. In 2000/2002 Eurobarometer were intermittently conducted in the framework of the DG Education and Culture, Citizens' Centre - Analysis of Public Opinion under the direction of Harald Hartung, and starting with Eurobarometer 54 under DG Press and Communication, initially directed by Thomas Christensen. Since 1999 the organisation and supervision of the surveys were consecutively executed by Rubén Mohedano-Brèthes (until 2002) and Renaud Soufflot de Magny (until 2006), with Antonis Papcostas as head of unit between 2003 and 2010.

The main survey results are regularly published on the European Commission's Public Opinion website in official standard and special topic reports.

2.4 Development of geographical and population coverage

In all European Union (formerly "European Communities") member countries Standard Eurobarometer samples were initially drawn among the national population, aged 15 and over. Starting with Eurobarometer 41.1 the target population is the population of any nationality of an European Union member country, aged 15 years and over, resident in any of the Member States. For test purposes Eurobarometer 41.0 included a non-national European Union citizens oversample.

Eurobarometer regularly include all member countries, starting with the six founder members and in accordance with the subsequent enlargement process. Norway has been in-officially included in selected waves between 1989 (EB34) and 1996 (EB46), Finland started before the actual enlargement in 1993 (EB39.0), and a few Swiss Eurobarometer were run in parallel to selected waves or topics starting in 1999 (EB51.1) in Switzerland. Candidate Countries (CC) and Accession Countries (AC) for the Eastern enlargement process were first surveyed in the Candidate Countries Eurobarometer series (2001-2004) and then all included in the standard series, even before accession as in the cases of Turkey or Macedonia.

Additional samples are drawn for Great Britain and Northern Ireland almost from the start, in Germany (East and West) after the re-unification in 1989, and in Cyprus for the Turkish Cypriote Community (Northern Cyprus) since 2004 for selected standard and topical waves.

Table 2: EU enlargement and countries covered by Standard and Special Eurobarometer

| | | Norway | NO | 1000 | |

The regular standard sample size (in the sense of completed interviews) in Eurobarometer surveys is 1000 respondents per country, except small countries like Luxembourg or Malta. The 44.2bis MEGA-survey increased the standard sample up to 6000 respondents (for the largest countries) in order to achieve more confidence for analysis on sub-national level.

Oversamples have been drawn intermittently if required by the topic, i.e. to ensure that there are enough members of the relevant population subgroup to report sufficiently reliable estimates. Intentionally more people are selected from the respective group than would typically be done if everyone in the sample had an equal chance of being selected.

Table 3: Oversamples for special topic Eurobarometer

| Topic | (Over-)Sample | Eurobarometer Survey |
|--------------------|--------------------------|-----------------------------------|
| Young Europeans | Youth aged 15-24 | 17, 28.1, 34.2, 47.2OVR, 55.1OVR |
| Elderly Europeans | Elderly aged 60+ | 37.2 |
| Consumer Behaviour | Responsible for shopping | 41.0 |
| Unemployment | Unemployed | 44.3OVR |
| Working Conditions | Professionally active | 37.0+1, 39.0+1 |
| Drug Abuse | Youth aged 15-24 | 43.0+1, 57.2OVR |
| Education Issues | Youth aged 15-24 | 44.0 / 44.1 (data not integrated) |

2.5 Standard question program and special topics

Standard Eurobarometer surveys were designed to provide a regular monitoring of the social and political attitudes among the European publics, to obtain regular readings of support for European integration, public awareness of and attitudes toward European unification, the institutions of the European Community / European Union, and its policies in complementary fashion. Attitudes toward the organization and role of the European Parliament and electoral behavior became a major topic in pre- and post- European Elections times. The standard program was complemented by measures of general socio-political orientations, of subjective satisfaction and the perceived quality of life, or of cultural, national and European identities.

Intermittently Standard Eurobarometer have investigated SPECIAL TOPICS, such as agriculture, biotechnology, energy, environment, family planning, gender roles, health related issues, immigration, poverty and social exclusion, regional identity, science and technology, information society, working conditions, urban traffic, knowledge of languages etc. In the case of some supplementary studies, special youth and elderly samples have been drawn (see table 3).

Starting with Eurobarometer 34 (1990) additional supplementary surveys on special issues have been conducted under each main wave number, identified by dot-separated sub-numbers for each individual survey. Usually only one survey per main wave includes the standard and trend module with focus on European integration issues. The following list (table 4) identifies the surveys containing the standard module and with results reported in the corresponding official standard report, or which at least include a subset of standard indicators, or with focus on European integration in a special topic context (e.g. "The future of Europe" in Eurobarometer 65.1).

Table 4: Overview of Eurobarometer surveys with standard EU and trend question modules

| Standard and trend surveys | Fieldwork Dates | GESIS ID | Standard Report | Special topic | Subset |
|----------------------------|-----------------|----------|-----------------|---------------|--------|

Further and regularly updated information on the Eurobarometer survey series is provided through the GESIS Eurobarometer Data Service micro-site: <http://www.gesis.org/eurobarometer>

3 Dataset structure and standards

Standard and Special Eurobarometer are processed and documented by the Inter-university Consortium for Political and Social Research (ICPSR) and by the GESIS Data Archive department in accordance with agreed standards, which may in some details diverge from the usual ICPSR or GESIS archive standards. In addition and as long as reasonable it was adhered to standards once established for the Eurobarometer series in the course of the years.

3.1 Dataset structure

In general the variable structure of the analysis dataset is aligned to the basic bilingual questionnaire, preceded by a set of technical variables. These comprise the archive identification variables (archive study and version id), the survey identification variables (wave and unique respondent id), and several standard NATION variables identifying the different samples (countries or regions) and relevant groups of samples in the dataset with the corresponding WEIGHT variables provided by the fieldwork institutes (see 1.7). A special alphanumeric NATION variable is provided based on the ISO 3166 country code standard for the purpose of breaking down variables by sample in terms of clearly summarized cross-tabulations.

The questionnaire variables usually consist of three types, the substantial questions (Q), the Eurobarometer standard demographics (D) and the interview protocol variables (P). The dataset is concluded by constructed index variables (C), usually as provided by the fieldwork institute, by a questionnaire SPLIT variable if applicable, and by further original identification variables.

Variable names consist of the standard prefix 'V' and the consecutive variable number, except ISOCNTRY and VERSION variables if subsequently added to older datasets. Variable labels are standardized in the sense that they provide keywords based on the question text and that these keywords are applied consistently if questions or question items are repeated over time (trend variables). Variable label may include abbreviations if required, e.g. limitations regarding the length of variable labels in older versions of statistical analysis software. Starting with Eurobarometer 33 the variable labels include the respective question number as a reference to the basic bilingual questionnaire.

3.2 Coding frames

By general rule, the variables adopt the coding frame as specified in the basic bilingual questionnaire, except multiple response questions (see 1.8), questions with country specific answer categories and missing values.

3.2.1 Country specific answer categories

Eurobarometer include some questions (variables) with country specific answer categories like INCOME, SIZE OF COMMUNITY, REGION or variables related to VOTING BEHAVIOUR with reference to POLITICAL PARTIES. Until Eurobarometer 48 only one integrated variable is supplied with each category representing country specific meanings (e.g. geographic regions) which are not documented within the analysis dataset by means of value labels, but only in the extended variable description in the variable report. Starting with Eurobarometer 49 the integrated variables are retained but complemented by completely labeled country specific variables. The country specific coding schemes and categories are maintained as a standard over time as long as the category schemes

provided in the questionnaire are remain comparable.

Special attention is given to the coding of POLITICAL PARTIES in voting behavior variables such as VOTE INTENTION or LAST VOTE based on a standard coding scheme, originally developed for the Eurobarometer by Ronald Inglehart.

Starting with Euro-Barometer 2 the coding of this variable has been standardized following an approximate ordering of each country's political parties along a "left" to "right" continuum in the first digit of the codes. Parties coded 01-39 are generally considered on the "left", those coded 40-49 in the "centre", and those coded 60-89 on the "right" of the political spectrum. Parties coded 50-59 cannot be readily located in the traditional meaning of "left" and "right". The second digit of the codes is not significant to the "left-right" ordering. Codes 90-99 contain the response "other party" and various missing data responses. Major "party families" like the Social Democrats or Conservatives have been assigned identical values across countries, if possible.

From Eurobarometer 69.2 onwards, the "party family" harmonization approach has been sharpened following and updating the coding scheme developed by ZEUS for the Mannheim Eurobarometer Trend File. This ZEUS Code of Party Families is country specific, i.e. the categories have different meanings for different countries. It has three digits: The first represents the party family, the second and third identify an individual party in this family. Individual parties are coded consistently over time. The assignment of parties to families is done according to their overall ideological orientations.

Table 5: ZEUS Party Family Code (slightly modified)

| Category | | Party Family |
|----------|-----------|--|
| | | |
| 0 | (001-099) | not affiliated / electoral alliances across "families" |
| 1 | (100-199) | Communists |
| 2 | (200-299) | Socialists |
| 3 | (300-399) | Liberals |
| 4 | (400-499) | Christian Democrats |
| 5 | (500-599) | Conservatives |
| 6 | (600-699) | Extreme Rights / Nationalists |
| 7 | (700-799) | Regionalists / Ethnic |
| 8 | (800-899) | Environmental parties |
| 9 | (900-949) | Agricultural parties |
| 9 | (950-989) | other special issue parties (e.g. Eurosceptics) and independents |
| | | |
| | 990 | other (spontaneous) |
| | 994 | not voting age |
| | 995 | empty ballot (blank) or invalid vote |
| | 996 | not voted / would not vote |
| | 997 | Refused |
| | 998 | DK / DK+NA if NA not coded separately |
| | 999 | INAP (inappropriate) |

If available, the former standard category used up to Eurobarometer 61 is always referenced in the variable description. Due to general changes in party systems and to the ideological development of individual political

parties, the assignment of parties to party families cannot claim general validity. Users may modify these codings or part of these codings in order to suit their specific needs.

3.2.2 Missing values

In general missing value codes are defined in accordance with the standard once established for the Eurobarometer series, in particular the default use of whatever value supplied by the basic questionnaire for DK ("don't know") responses, unless a standard coding scheme is applied for demographic or protocol variables. The value 0 is applied for NA (i.e. "not ascertained" resp. "no answer") and the value 9 (99, 999, ...) for INAP (i.e. "inappropriate" resp. "not applicable"). If one of these values falls into the valid range of codes, the missing values are shifted to the next available missing value code or "level", e.g. if 0 is used in a dichotomous variable (NOT MENTIONED), value 9 is used for NA, respectively value 8 if value 9 is already used for INAP. If necessary the corresponding two- or more digit codes are used (99, 999, 98, 998 ...). Recently separate missing values are coded for INAP depending on whether the respondent was not asked a question due to questionnaire routing (filter non-response) or whether the question was not provided for in the country's field questionnaire. Other missing values (e.g. REFUSAL) are coded with the in each case next available code (e.g. 7, 97, 997, ...). In the analysis data set these codes are by default declared and treated as USER MISSING, but may be modified by the user to suit specific needs.

3.3 International documentation standard

The variable documentation is set up in accordance with the international metadata specifications for the social and behavioural sciences, established by the Data Documentation Initiative <DDI>. The variable reports are based on the XML representation of DDI version 2. The documentation combines the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the basic bilingual (master) questionnaire with the variable description (variable name, values, and labels) of the analysis dataset. General remarks and comments referring to a certain variable are defined as variable notes. Notes can be references to trend (comparability) information, standards applied for coding frames, problems in questionnaire translation, but also references to data problems or other specific characteristics.

4 Explanation of the variable documentation

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. The variable documentation is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with international metadata standards (DDI-Codebook/XML).

In general, the following abbreviations are used to indicate countries or (sub-national) areas. As far as applicable, the ISO 3166-1 alpha-2 country codes have been applied and coded accordingly in the alphanumeric sample identification variable (NATION – ALL SAMPLES ISO 3166).

| | | | |
|--------|----------------------------|----|-------------------|
| AT | Austria | HR | Croatia |
| BE | Belgium | HU | Hungary |
| BG | Bulgaria | IE | Ireland |
| CY | Cyprus | IT | Italy |
| CY-TCC | Turkish Cypriote Community | LT | Lithuania |
| CZ | Czech Republic | LU | Luxembourg |
| DE | Germany (–1989) | LV | Latvia |
| DE-W | Germany West (1990 ff.) | MK | Macedonia (FYROM) |
| DE-E | Germany East (1990 ff.) | MT | Malta |
| EE | Estonia | NL | The Netherlands |
| ES | Spain | PL | Poland |
| FI | Finland | PT | Portugal |
| FR | France | RO | Romania |
| GB | United Kingdom | SE | Sweden |
| GB-GBN | Great Britain | SI | Slovenia |
| GB-NIR | Northern Ireland | SK | Slovakia |
| GR | Greece | TR | Turkey |

The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable. Results are usually broken down by country (sample) or represented by frequency counts in the case of country specific variables. In the case of variables with long lists of coded “real” values (e.g. age), results are only presented for the corresponding categorized variable, if available. The content and construction of technical, administrative or other generated variables is described as appropriate.

The frequencies for substantive variables are calculated on the base of weighted data, as indicated with each table and in accordance with the European Commission’s official Eurobarometer reports. Typically the sample specific post-stratification (redressment) weight is applied (WEIGHT RESULT FROM TARGET or NATION WEIGHT II). Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

The complete question and answer texts are taken from the English language part of the respective basic bilingual questionnaire (master questionnaire) as provided by the coordinating fieldwork institute.

| QUESTION NUMBER and full QUESTION TEXT from the basic questionnaire, including interviewer instructions. The numbers or letters that may appear together with the original question number, reflect the item order (multiple item or multiple response questions) or indicate if a question was recoded (R) or summarized (T), or if asked only in a single country (country abbreviation). | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| CODE VALUES occurring in the data for this variable and complete ANSWER TEXT from the basic questionnaire. Code values may differ from the questionnaire specification due to standardization. Abbreviations commonly used in the code definitions are DK (don't know), NA (not ascertained) and INAP (inappropriate). | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| DERIVATION information refers to the construction principle of indices or other derived variables (not in the example). NOTE delineates additional explanatory text subsuming trend information (last appearance of the question) or archive remarks on data processing and other issues relevant for the understanding or application of the variable. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| CROSS-TABULATION: The absolute frequencies of the occurrence of values (<i>absolute values</i>) refer to the number of cases in the weighted dataset as indicated, in this case <i>weighted by V8</i> . The relative frequencies (<i>row percent</i>) refer to the valid cases (<i>n valid sum</i>), i.e. the total number of cases (<i>n sum</i>) reduced by the number of cases defined as missing data (<i>M</i>). For display and place saving reasons excluded countries or areas may be completely dropped from the table. | Absolute Values (Row Percent), weighted by v8 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| FREQUENCY COUNTS: For country specific variables relative frequencies are calculated in- and excluding missing data (<i>M</i>), i.e. <i>percent</i> on the basis of all cases (<i>sum</i>) and <i>valid percent</i> on the basis of the <i>valid cases</i> . | <table><tr><th></th><th>v77</th><th>1</th><th>2</th><th>3</th><th>4</th><th>5</th><th>6</th><th>N Sum</th><th>N Valid 5 Variable Documentation

| Variable | Label |
|----------|----------------------------------|
| | Question Text (English Language) |

| | |
|----|-----------------------|
| v1 | STUDY NUMBER |
| | ZA/ICPSR Study Number |

Respective study number of the involved archive.

v1

| Value | Label | Missing | Count | Percent | Valid Percent |
|-------|-------------|---------|-------|---------|---------------|
| 2563 | | | 16677 | 100.0 | 100.0 |
| | Sum | | 16677 | 100.0 | 100.0 |
| | Valid Cases | | 16677 | | |

| | |
|----|-------------------------|
| v2 | EDITION NUMBER |
| | ZA/ICPSR Edition Number |

The number identifying the release edition of this dataset.

- 1 1st edition (early release)
- 2 2nd edition

Note:

Please see variable VERSION ("GESIS ARCHIVE VERSION") for further information on the version number of this data set and the corresponding release date.

v2

| Value | Label | Missing | Count | Percent | Valid Percent |
|-------|----------------------------------|---------|-------|---------|---------------|
| 2 | 2ND ZA ED AS OF FEBRUARY 2, 2007 | | 16677 | 100.0 | 100.0 |
| | Sum | | 16677 | 100.0 | 100.0 |
| | Valid Cases | | 16677 | | |

| version | GESIS ARCHIVE VERSION |
|---------|--|
| | VERSION AND RELEASE DATE OF THE ARCHIVE DATA SET |

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

On occasion of the implementation of this versioning scheme (2010-04-13), the default version number 1.0.0 has been created automatically for this Eurobarometer.

Version 1.0.1 adds the crosstabulation variable ISOCNTRY and the VERSION variable to the otherwise unchanged data set.

Former version or edition identification variables are maintained unchanged as a reference to former releases.

| version | | | | | |
|--------------------|-------------|---------|-------|---------|---------------|
| Value | Label | Missing | Count | Percent | Valid Percent |
| 1.0.1 (2012-07-01) | | | 16677 | 100.0 | 100.0 |

| | Valid Cases | | 16677 | | |

| | |
|----|--|
| v4 | ID SERIAL NUMBER |
| | Sequential respondent identification number assigned by ZA |
| | A unique serial number is assigned to each respondent. |

| | |
|----------|--|
| isocntry | NATION - ALL SAMPLES ISO 3166 (CROSSTABULATION VARIABLE) |
| | NATION - ALL SAMPLES ISO 3166 (CROSSTABULATION VARIABLE) |

All surveyed countries and regions, i.e. including separate samples for East- / West-Germany, Great Britain / Northern Ireland, and the Turkish Cypriot Community (TCC), are coded in accordance with the ISO 3166-1-alpha-2 country code, if available. ISO 3166-2 is applied for the United Kingdom subdivisions. ISO standard codes are not available for the "historical" East / West subdivision of Germany (DE-E / DE-W) and for the Turkish Cypriot Community in northern Cyprus (CY-TCC), the internationally not recognized "Turkish Republic of Northern Cyprus".

| | |
|----|---|
| v6 | WEIGHT SPECIAL UNITED KINGDOM |
| | Nation Weight I (WEIGHT SPECIAL UNITED KINGDOM) |

This variable adjusts the British and Northern Irish sample to their respective proportions in the United Kingdom. All nation weights are included.

Unlike the 'Nation Weight I' in earlier Eurobarometers up to 31 this weight adjusts all samples to the standard size.

v7 NATION II (GB AND NORTHERN IRELAND)
 Nation of interview II

The two samples for the United Kingdom - Great Britain and Northern Ireland - are coded separately.

- 1 France
- 2 Belgium
- 3 The Netherlands
- 4 Germany - west
- 5 Italy
- 6 Luxembourg
- 7 Denmark
- 8 Ireland
- 9 Great Britain
- 10 Northern Ireland
- 11 Greece
- 12 Spain
- 13 Portugal
- 14 Germany - east
- 15 Norway
- 16 Finland
- 17 Sweden
- 18 Austria

v7

| Value | Label | Missing | Count | Percent | Valid Percent |
|-------|------------------|---------|-------|---------|---------------|

| | Valid Cases | | 16677 | | |

| | |
|----|---|
| v8 | WEIGHT RESULT FROM TARGET |
| | Nation Weight IIa (WEIGHT RESULT FROM TARGET) |

This variable contains weights that adjust the weighte samples to make them representative for the countries from which they were drawn. It reproduces the real number of cases for each country. Great Britain and Northern Ireland are treated as independent samples.

Note:

This weight corresponds to 'Nation Weight II' in earlier Eurobarometers up to 31.

| | |
|----|--|
| v9 | WEIGHT ADJUSTED TO STANDARD SIZE |
| | Nation Weight IIb (WEIGHT ADJUSTED TO STANDARD SIZE) |

This variable corresponds to 'Weight Result from Target' adjusting all samples to the standard size of 1000 respectively 300 (Northern Ireland) or 500 (Luxembourg). Great Britain (n=1000) and Northern Ireland (n=300) are weighted as independent samples.

| | |
|-----|-----------------------------|
| v10 | NATION III (UNITED GERMANY) |
| | Nation of interview III |

East and West Germany are coded together: United Germany.

- 1 France
- 2 Belgium
- 3 The Netherlands
- 4 Germany
- 5 Italy
- 6 Luxembourg
- 7 Denmark
- 8 Ireland
- 9 Great Britain
- 10 Northern Ireland
- 11 Greece
- 12 Spain
- 13 Portugal
- 14 Norway
- 15 Finland
- 16 Sweden
- 17 Austria

v10

| | |
|-----|--|
| v11 | WEIGHT SPECIAL GERMANY |
| | Nation Weight III (WEIGHT SPECIAL GERMANY) |

This variable adjusts the East and West German samples to their respective proportions in the united Germany. All nation weights are included and all samples adjusted to the standard size.

| | |
|-----|-----------------------------------|
| v12 | WEIGHT EURO 6 |
| | European Weight I (WEIGHT EURO 6) |

This variable contains weights that adjust each national sample in proportion to its nation's share in the total population of the European Community countries in their historic composition:

EURO 6 only refers to the six EC founder-members (France, Belgium, the Netherlands, West Germany, Italy and Luxembourg). This weight variable includes the national weights for each sample and contains the adjustment to the standard size.

| | |
|-----|-------------------------------------|
| v13 | WEIGHT EURO 10 |
| | European Weight II (WEIGHT EURO 10) |

This variable contains weights that adjust each national sample in proportion to its nation's share in the total population of the European Community countries in their historic composition:

EURO 10 excludes East Germany, Spain and Portugal. This weight variable includes the national weights for each sample and contains the adjustment to the standard size. Sweden, Finland, Austria and Norway are also not included.

| | |
|-----|--------------------------------------|
| v14 | WEIGHT EURO 12 |
| | European Weight III (WEIGHT EURO 12) |

This variable contains weights that adjust each national sample in proportion to its nation's share in the total population of the European Community countries in their historic composition:

EURO 12 excludes East Germany. This weight variable includes the national weights for each sample and contains the adjustment to the standard size. Sweden, Finland, Austria and Norway are not included.

| | |
|-----|---|
| v15 | WEIGHT EURO 12 + European Weight IV (WEIGHT EURO 12 +) |
|-----|---|

This variable contains weights that adjust each national sample in proportion to its nation's share in the total population of all the European Community countries. East Germany and Northern Ireland are treated as separate samples. The national weights for each sample are included. Sweden, Finland, Austria and Norway are excluded.

Unlike the 'EUROPEAN WEIGHT' in earlier Eurobarometers up to 31 this weight contains the adjustment to the standard size.

| | |
|-----|------------------------------------|
| v16 | WEIGHT EURO 15 |
| | European Weight V (WEIGHT EURO 15) |

EURO WEIGHT 15 adjusts each national sample in proportion to its nation's share in the total population (aged 15 and older) of the European Union countries including the new members Sweden, Finland and Austria.

| | |
|-----|---------------------------------------|
| v17 | WEIGHT EURO 15 + NORWAY |
| | European Weight VI (WEIGHT EURO 15 +) |

EURO WEIGHT 15+ adjusts each national sample in proportion to its nation's share in the total population (aged 15 and older) of the European Union countries including the new members Sweden, Finland and Austria plus Norway.

v18 Q1A ELECTORAL REGISTER

Q.1

Are you ... (NATIONALITY)?

(IF YES)

Do you know whether your name appears in the Electoral Register (the register of people entitled to vote at the next General Election), under your present address, at another address or does not appear at all?

- 1 At present address
- 2 At another address
- 3 Don't know if registered
- 4 Does not appear at all
- 5 Is not ... (NATIONALITY) / NA
- 9 Inap., not interviewed in Finland, Sweden and Austria (coded 16-18 in V7)

Note:

v34 Q3A VALUE ORIENTATION - POLIT GOALS 1ST

Q.3a

There is a lot of talk these days about what (OUR COUNTRY)'s goals should be for the next ten or fifteen years.

On this card are listed some of the goals that different people say should be given top priority. Would you please say which one of them you yourself consider to be most important in the long run?

(SHOW CARD - ONE ANSWER ONLY)

0 NA

1 Maintaining order in the country

2 Giving the people more say in important decisions

3 Fighting rising prices

4 Protecting freedom of speech

v35 Q3B VALUE ORIENTATION - POLIT GOALS 2ND

Q.3a

There is a lot of talk these days about what (OUR COUNTRY)'s goals should be for the next ten or fifteen years. On this card are listed some of the goals that different people say should be given top priority. Would you please say which one of them you yourself consider to be most important in the long run?
 (SHOW CARD - ONE ANSWER ONLY)

Q.3b And what would be your second choice?

- 0 NA
- 1 Maintaining order in the country
- 2 Giving the people more say in important decisions
- 3 Fighting rising prices
- 4 Protecting freedom of speech
- 5 DK
- 9 Inap., not interviewed in Finland, Sweden and Austria (coded 16-18 in V7)

v53 Q17 NATIONAL PRIDE - OPINIONS

Q.17

ASK ALL

On this list are opinions about national pride. Please tell me which one of these opinions comes closest to your own.

(SHOW CARD - ONLY ONE ANSWER POSSIBLE)

0 NA

1 National pride is a duty for every citizen

2 National pride is natural

3 National pride does not make sense, because nationality is a matter of chance

4 National pride does not make sense, because is different

5 National pride is arrogant, because it is directed against persons of other nationalities

6 National pride is dangerous, because it often leads to extreme nationalism and even to wars

7 None of these opinions (SPONTANEOUS)

8 I don't care about national pride (SPONTANEOUS)

9 DK

99 Inap., not interviewed in Finland, Sweden and Austria (coded 16-18 in V7)

v163 Q42 IMPORTANCE OF GOD

Let us now turn to another topic.

Q.42

How important would you say God is in your life? Please choose between the two ends of scale. If God is not important at all in your life, you give a score of 1. If God is very important in your life, you give a score of 10. The scores between 1 and 10 allow you to say how close to either side you are.

v188 Q50 EUROP COMMISSION MANDATE ENDS

Now some questions about another institution of the European Union. Assisted by its administration of European civil servants coming from all member countries, the European Commission itself consists of the President and other Members ("Commissioners" / currently 16), one or two from each Member State.

Q.50

Do you happen to know when the European Commission, that has been in office for the last few years, will end its mandate and a new Commission will take office?

(IF YES)

Will this happen currently still in 1994, or in 1995, or in 1996, or later?

0 NA

1 Yes, in 1994

2 Yes, in 1995

3 Yes, in 1996

4 Yes, later

5 Don't know

9 Inap., not interviewed in Finland, Sweden and Austria (coded 16-18 in V7)

v272 Q58F EU POLICY SPEED: SPAIN

Q.58

For some time there has been talk of a "Two Speed Europe". This means that some countries would be ready to intensify the development of a common European policy in certain important areas, while other countries would not.

Please tell me, for each of the following countries, whether or not you see it as being ready to intensify the development of a common European policy in certain important areas.

v308 Q77C RELAY ON THE EUROPEAN PARLIAMENT

Q.77

Many important decisions are made by the European Union. They might be in the interest of people like yourself, or they might not. To what extent do you feel you can rely or not on each of the following institutions to make sure that the decisions taken by this institution are in the interest of people like yourself?

Q.77c The European Parliament

0 NA

1 Can rely on it

2 Cannot rely on it

v338 Q80 EUROPEAN UNION: HOPEFUL/FEARFUL

Q.80

The recent past of the European Community has been marked by a number of significant developments: the "Single Market", the "Treaty of the European Union" (or "Maastricht Treaty"), the election of a new European Parliament, the formation of a new Commission, new countries to become members of the European Union, ...

Taking everything into consideration, would you say this new "European Union", as it is now called, makes you feel very hopeful, rather hopeful, rather fearful or very fearful?

0 NA

1 Very hopeful

2 Rather hopeful

3 Rather fearful

4 Very fearful

v339 Q81 EU HOPE REASON: WORK ABROAD

Q.80

The recent past of the European Community has been marked by a number of significant developments: the "Single Market", the "Treaty of the European Union" (or "Maastricht Treaty"), the election of a new European Parliament, the formation of a new Commission, new countries to become members of the European Union, ...

Taking everything into consideration, would you say this new "European Union", as it is now called, makes you feel very hopeful, rather hopeful, rather fearful or very fearful?

Q.81

ASK ONLY IF "VERY" OR "RATHER HOPEFUL" AT Q.80

a) Why?

b) What else?

c) Anything else?

(PROBE FULLY AND WRITE DOWN EXACTLY WHAT RESPONDENT SAYS)

v346 Q81 EU HOPE REASON: SOLVE PROBL TOGETHR

Q.80

The recent past of the European Community has been marked by a number of significant developments: the "Single Market", the "Treaty of the European Union" (or "Maastricht Treaty"), the election of a new European Parliament, the formation of a new Commission, new countries to become members of the European Union, ...

Taking everything into consideration, would you say this new "European Union", as it is now called, makes you feel very hopeful, rather hopeful, rather fearful or very fearful?

Q.81

ASK ONLY IF "VERY" OR "RATHER HOPEFUL" AT Q.80

a) Why?

b) What else?

c) Anything else?

(PROBE FULLY AND WRITE DOWN EXACTLY WHAT RESPONDENT SAYS)

v354 Q82 EU FEAR REASON: UNCERTAIN FUTURE

Q.80

The recent past of the European Community has been marked by a number of significant developments: the "Single Market", the "Treaty of the European Union" (or "Maastricht Treaty"), the election of a new European Parliament, the formation of a new Commission, new countries to become members of the European Union, ...

Taking everything into consideration, would you say this new "European Union", as it is now called, makes you feel very hopeful, rather hopeful, rather fearful or very fearful?

Q.82

ASK ONLY IF "VERY" OR "RATHER FEARFUL" AT Q.80

a) Why?

b) What else?

c) Anything else?

(PROBE FULLY AND WRITE DOWN EXACTLY WHAT RESPONDENT SAYS)

v361 Q82 EU FEAR REASON: NO BORDER CONTROLS

Q.80

The recent past of the European Community has been marked by a number of significant developments: the "Single Market", the "Treaty of the European Union" (or "Maastricht Treaty"), the election of a new European Parliament, the formation of a new Commission, new countries to become members of the European Union, ...

Taking everything into consideration, would you say this new "European Union", as it is now called, makes you feel very hopeful, rather hopeful, rather fearful or very fearful?

Q.82

ASK ONLY IF "VERY" OR "RATHER FEARFUL" AT Q.80

a) Why?

b) What else?

c) Anything else?

(PROBE FULLY AND WRITE DOWN EXACTLY WHAT RESPONDENT SAYS)

v367 Q83 FUTURE ORGANISATION OF EUROPE

Q.83

On this list are four descriptions of how Europe might be organised in the future. Please tell me which one you would prefer.

(SHOW CARD - READ OUT - ONLY ONE ANSWER POSSIBLE)

0 NA

1 Each country keeps its sovereignty and cares only about its own affairs

2 The countries work together sometimes, but do not give up their sovereignty and never have to submit to decisions taken by a majority of countries

3 The countries regularly work together on certain matters within common organisations, to which they transfer a part of their sovereignty; that is, they have to submit to majority decisions of these common organisations on these matters

4 The countries transfer all their sovereignty to a single common European state

v487 D15A OCCUPATION OF RESPONDENT

D.15a

What is your current occupation?

NON-ACTIVE

- 1 Responsible for ordinary shopping and looking after the home, or without any current occupation, not working
- 2 Student
- 3 Unemployed or temporarily not working
- 4 Retired or unable to work through illness

SELF EMPLOYED

- 5 Farmer
- 6 Fisherman
- 7 Professional (lawyer, medical practitioner, accountant, architect, ...)
- 8 Owner of a shop, craftsmen, other self employed person
- 9 Business proprietors, owner (full or partner) of a company

EMPLOYED

- 10 Employed professional (employed doctor, lawyer, accountant, architect)
- 11 General management, director or top management (managing directors, director general, other director)
- 12 Middle management, other management (department head, junior manager, teacher, technician) employed
- 13 Employed position, working mainly at a desk
- 14 Employed position, not at a desk but traveling (salesmen, driver, ...)
- 15 Employed position, not at a desk, but in a service job (hospital, restaurant, police, fireman, ...)
- 16 Supervisor
- 17 Skilled manual worker
- 18 Other (unskilled) manual worker, servant

0 NA

99 Inap., not interviewed in Sweden and Austria (coded 17-18 in V7)

in Finland (FI):

NON-ACTIVE

- 1 other
- 2 student/in school
- 4 pensioner

SELF EMPLOYED

- 5 employer in agriculture, agricultural entrepreneur
- 8 other employer/self employed

EMPLOYED

- 12 executive position, but not self employed

13 lower non-manual work

17 manual work

Note:

Finland does not apply the Eurobarometer standard demographic variables, but tries to recode their regular (Suomen Gallup Omnibus) demographics in the Eurobarometer context. In the case of occupation this recode does not really correspond to the Eurobarometer categories. The Finish occupation data included in this variable should only be used with caution.

v489 D19A HH MAINLY LOOKING AFTER HOME

D.19

Are you ...?

D.19a

In your household the person mainly responsible for ordinary shopping and looking after the home

0 NA

1 Yes

2 No

9 Inap., not interviewed in Sweden and Austria (coded 17-18 in V7)

in Finland (FI):

1 the respondent decides

2 other member of the family decides

3 the respondent and other member(s) of the family decide jointly

Note:

Finland does not apply the Eurobarometer standard demographic variables, but tries to recode their regular (Suomen Gallup Omnibus) demographics in the Eurobarometer context. Question: Who in your family decides about grocery shopping?

Last trend: EB41.1 D.19

v529

P6 SIZE OF COMUNITY

P.6

(Objective) Size of locality

99 Inap., not interviewed in Sweden (not coded 17 in V7)

in France (FR):

- 1 less than 2.000
- 2 2.000 - less than 20.000
- 3 20.000 - less than 100.000
- 4 100.000 and more inhabitants
- 5 Paris

in Belgium (BE):

- 1 Grand centre
- 2 Localite urbaine
- 3 Localite secondaire
- 4 Autre localite

in Netherlands (NL):

- 1 less than 5.000
- 2 5.000 - less than 10.000
- 3 10.000 - less than 20.000
- 4 20.000 - less than 50.000
- 5 50.000 - less than 100.000
- 6 100.000 - less than 400.000
- 7 400.000 and more inhabitants

in Germany (DE):

- 1 less than 2.000
- 2 2.000 - less than 5.000
- 3 5.000 - less than 20.000
- 4 20.000 - less than 50.000
- 5 50.000 - less than 100.000
- 6 100.000 - less than 500.000
- 7 500.000 and more inhabitants

in Italy (IT):

- 1 less than 10.000
- 2 10.000 - less than 100.000
- 3 100.000 - less than 250.000
- 4 250.000 and more inhabitants

in Luxembourg (LU):

- 1 less than 2.500

- 2 2.500 - less than 5.000
- 3 5.000 - less than 10.000
- 4 10.000 - less than 20.000
- 5 20.000 - less than 50.000
- 6 50.000 and more inhabitants (Luxembourg ville)

in Denmark (DK):

- 1 less than 2.000
- 2 2.000 - less than 5.000
- 3 5.000 - less than 10.000
- 4 10.000 - less than 20.000
- 5 20.000 - less than 50.000
- 6 50.000 - less than 100.000
- 7 100.000 and more inhabitants

in Ireland (IE):

- 1 less than 2.000
- 2 2.000 less than 20.000
- 3 20.000 less than 100.000
- 4 100.000 and more inhabitants

in Great Britain (GB_GBN):

- 1 Metropolitan
- 2 Other 100 % urban
- 3 Mixed urban/rural
- 4 Rural

in Northern Ireland (GB_NIR):

- 1 less than 2.000
- 2 2.000 - less than 20.000
- 3 20.000 - less than 100.000
- 4 100.000 and more inhabitants

in Greece (GR):

- 1 less than 2.000
- 2 2.000 - less than 10.000
- 3 10.000 - less than 50.000
- 4 50.000 - less than 1.000.000
- 5 1.000.000 and more inhabitants

in Spain (ES):

- 1 less than 2.000
- 2 2.000 - less than 10.000
- 3 10.000 - less than 50.000
- 4 50.000 - less than 100.000
- 5 100.000 - less than 300.000
- 6 300.000 - less than 500.000

- 7 500.000 - less than 1.000.000
- 8 1.000.000 and more inhabitants

in Portugal (PT):

- 1 less than 100
- 2 100 - less than 200
- 3 200 - less than 500
- 4 500 - less than 1.000
- 5 1.000 - less than 2.000
- 6 2.000 - less than 5.000
- 7 5.000 - less than 10.000
- 8 10.000 - less than 30.000
- 9 30.000 - less than 100.000
- 10 100.000 - less than 500.000
- 11 500.000 and more inhabitants

in Norway (NO):

- 1 Oslo
- 2 Bergen, Trondheim
- 3 Other cities
- 4 Densely populated
- 5 Scattered populated

in Finland (FI):

- 1 Helsinki area
- 2 Turku tampere
- 3 Other town
- 4 Rural population center
- 5 Open rural area

in Austria (AT):

- 1 Rural
- 2 Mixed urban/rural
- 3 Urban
- 4 Metropolitan

999 Inap., not stated in Sweden (code 17 in v7)

in France (FR):

(EUROSTAT NUTS II LEVEL) / (Regions)

- 1 Ile de France
- 2 Champagne-Ardenne
- 3 Picardie
- 4 Haute-Normandie
- 5 Centre
- 6 Basse-Normandie
- 7 Bourgogne
- 8 Nord Pas de Calais
- 9 Lorraine
- 10 Alsace
- 11 Franche-Comte
- 12 Pays de la Loire
- 13 Bretagne
- 14 Poitou-Charentes
- 15 Aquitaine
- 16 Midi-Pyrenees
- 17 Limousin
- 18 Rhone-Alpes
- 19 Auvergne
- 20 Languedoc-Roussillon
- 21 Provence-Alpes-Cote d'Azur
- 22 Corse

in Belgium (BE):

(EUROSTAT NUTS II LEVEL - modified) / (Provinces)

- 1 Hainaut
- 2 Limburg
- 3 Namur
- 4 Oost-Vlaanderen
- 5 West-Vlaanderen
- 6 Liege
- 7 Luxembourg
- 8 Brabant flamand
- 9 Antwerpen
- 10 Bruxelles
- 11 Brabant wallon

in Netherlands (NL):

(EUROSTAT NUTS II LEVEL) / (Provinces)

- 1 Groningen
- 2 Friesland
- 3 Drenthe
- 4 Overijssel
- 5 Gelderland
- 6 Flevoland
- 7 Utrecht
- 8 Noord-Holland
- 9 Zuid-Holland
- 10 Zeeland
- 11 Noord Brabant
- 12 Limburg

in Germany - West (DE_W):

(EUROSTAT NUTS II LEVEL) / (Regierungsbezirke)

- 10 Schleswig-Holstein
- 20 Hamburg
- 31 Braunschweig
- 32 Hannover
- 33 Lüneburg
- 34 Weser-Ems
- 40 Bremen
- 51 Düsseldorf
- 53 Köln
- 55 Münster
- 57 Detmold
- 59 Arnsberg
- 64 Darmstadt
- 65 Gießen
- 66 Kassel
- 71 Koblenz
- 72 Trier
- 73 Rheinhessen-Pfalz
- 81 Nord Württemberg=Stuttgart
- 82 Nordbaden=Karlsruhe
- 83 Südbaden=Freiburg
- 84 Süd Württemberg=Tübingen
- 91 Oberbayern
- 92 Niederbayern
- 93 Oberpfalz
- 94 Oberfranken
- 95 Mittelfranken
- 96 Unterfranken
- 97 Schwaben
- 100 Saarland
- 110 Berlin (West)

in Italy (IT):

(EUROSTAT NUTS II LEVEL - modified) / (Regioni)

- 1 Valle d'Aosta e Piemonte
- 2 Liguria
- 3 Lombardia
- 4 Milano
- 5 Trentino
- 6 Veneto
- 7 Friuli-Venezia Giulia
- 8 Emilia-Romagna
- 9 Toscana
- 10 Marche
- 11 Umbria
- 12 Lazio
- 13 Molise e Abruzzi
- 14 Campania
- 15 Puglia
- 16 Basilicata
- 17 Calabria
- 18 Sicilia
- 19 Sardegna

in Luxembourg (LU):

- 1 Centre
- 2 South
- 3 North
- 4 East

in Denmark (DK):

- 1 Hovedstodomradet (Kobenhavens area)
- 2 Sjaellands, Lolland-Falster, Bornholms (excl. hovedstodomradet)
- 3 Fyns
- 4 Jyllands

in Ireland (IE):

(EUROSTAT NUTS III LEVEL -1992) / (Planning Regions)

- 1 Donegal
- 2 North west (Sligo/Leitrim)
- 3 North east (Cavan/Monaghan/Louth)
- 4 West (Mayo/Galway)
- 5 Midlands (Westmeath/Roscommon/Longford/Laois/Offaly)
- 6 East (Dublin/Meath/Kildare/Wicklow)
- 7 Mid west (Limerick/Clare/Tipperary North Riding)
- 8 South east (Waterford/Wexford/Carlow/Kilkenny/Tipperary South Riding)
- 9 South west (Kerry/Cork)

in United Kingdom (GB):

(EUROSTAT NUTS II LEVEL) / (Groups of Counties (grouping for Community purposes))

- 1 Cleveland, Durham
- 2 Cumbria
- 3 Northumberland, Tyne and Wear
- 4 Humberside
- 5 North Yorkshire
- 6 South Yorkshire
- 7 West Yorkshire
- 8 Derbyshire, Nottinghamshire
- 9 Leicestershire, Northamptonshire
- 10 Lincolnshire
- 11 East Anglia
- 12 Bedfordshire, Hertfordshire
- 13 Berkshire, Buckinghamshire, Oxfordshire
- 14 Surrey, East-West Sussex
- 15 Essex
- 16 Greater London
- 17 Hampshire, Isle of Wight
- 18 Kent
- 19 Avon, Gloucestershire, Wiltshire
- 20 Cornwall, Devon
- 21 Dorset, Somerset
- 22 Hereford and Worcester, Warwickshire
- 23 Shropshire, Staffordshire
- 24 West Midlands (County)
- 25 Cheshire
- 26 Greater Manchester
- 27 Lancashire
- 28 Merseyside
- 29 Clwyd, Dyfed, Gwynedd, Powys
- 30 Gwent, Mid-South-West Glamorgan
- 31 Borders, Central, Fife, Lothian, Tayside
- 32 Dumfriesshire and Galloway, Strathclyde
- 33 Highlands, Islands
- 34 Grampian
- 35 Northern Ireland

in Greece (GR):

(EUROSTAT NUTS II LEVEL - modified) / (Development Regions)

- 1 Kentriki Makedonia kai Dytiki Makedonia
- 2 Thessalia
- 3 Anatoliki Makedonia
- 4 Thraki
- 5 Anatoliki Sterea kai Nisia
- 6 Peloponnisos kai Dytiki Sterea
- 7 Ipeiros

- 8 Kriti
- 9 Nisia Anatolikou Aigaiou

in Spain (ES):

(EUROSTAT NUTS II LEVEL) / (Comunidades Autonomas)

- 1 Andalucia
- 2 Aragon
- 3 Asturias
- 4 Baleares
- 5 Canarias
- 6 Cantabria
- 7 Castilla-Leon
- 8 Castilla-La Mancha
- 9 Cataluna
- 10 Extremadura
- 11 Galicia
- 12 Madrid
- 13 Murcia
- 14 Navarra
- 15 La Rioja
- 16 Comunidad Valenciana
- 17 Pais Vasco

in Portugal (PT):

(EUROSTAT NUTS II LEVEL) / (Comissaoes de Coordinacao Regional, Regioes Autonomas)

- 1 Norte
- 2 Centro
- 3 Lisboa e Vale do Tejo
- 4 Alentejo
- 5 Algarve
- 6 Acores
- 7 Madeira

in Germany - East (DE_E):

(referring back to ex-GDR administrative regional units)

- 1 Rostock
- 2 Schwerin
- 3 Neubrandenburg
- 4 Potsdam
- 5 Frankfurt
- 6 Cottbus
- 7 Magdeburg
- 8 Halle
- 9 Erfurt
- 10 Gera
- 11 Suhl
- 12 Dresden

13 Leipzig

14 Chemnitz (Karl-Marx-Stadt)

15 Berlin (Ost)

in Norway (NO):

1 Ostfold

2 Akershus

3 Oslo

4 Hedmark

5 Oppland

6 Buskerud

7 Vestfold

8 Telemark

9 Aust-Agder

10 Vest-Agder

11 Rogaland

12 Hordaland

13 Sogn og Fjordane

14 More og Romsdal

15 Sor-Trondelag

16 Nord-Trondelag

17 Nordland

18 Troms

19 Finnmark

in Finland (FI):

1 Uudenmaan laani (Southern)

2 Turun ja porin laani (Southern)

3 Hameen laani (Southern)

4 Kymen laani (Southern)

5 Mikkelin Laani (Middle)

6 Kuopion Laani (Middle)

7 Keski suomen Laani (Middle)

8 Vaasan Laani (Middle)

9 Phjois-Karjalan Laani (Northern)

10 Oulun Laani (Northern)

11 Lapin Laani (Northern)

in Austria (AT):

1 Vorarlberg

2 Tirol

3 Salzburg

4 Oberoestereich (Upper Austria)

5 Steiermark (Styra)

6 Kaernten (Carynthia)

7 Niederoestereich (Lower Austria)

8 Burgenland

9 Wien (Vienna)

Note:

In the cases of France, West Germany, Italy, Ireland and the United Kingdom "Region I" corresponds to the variable labelled "Province" in earlier Eurobarometers up to number 31. If indicated, "Region I" units are consistent with the EUROSTAT nomenclature for regional statistics (NUTS).

- 2 Rest Eastland
- 3 South/Western
- 4 Trondelag/Northern

Note:

Only in the case of West Germany "Region II" corresponds to the variable labelled "Region" in earlier Eurobarometers up to 31. If indicated, "Region II" units are consistent with the EUROSTAT nomenclature for regional statistics (NUTS).

East Germany: The East German federal units ("Neue Bundesländer") are constructed from the ex-GDR administrative regional units which only give a rough idea of their real outline.

Starting with Eurobarometer 34 and up to survey 61, NUTS 1 level data (REGION II) for the NETHERLANDS are not (re-)coded in accordance with the official EUROSTAT nomenclature of territorial unit statistics. The NUTS 2 level province ZEELAND should be coded as belonging to NUTS 1 region (landsdel) WEST instead of SOUTH Netherlands. Archive releases have been corrected from EB 51 onwards.

v534 C2 VALUE ORIENTATION - POST-MATERIALISM
 C.2 VALUE ORIENTATION

Materialist/Post-materialist Values Index

- 0 DK/NA
- 1 Materialist
- 2 Mixed
- 3 Post materialist
- 9 Inap., not available for Finland, Sweden and Austria

Derivation:

This index is based on question Q.3 (V34/V35): "There is a lot of talk these days about what this country's goals should be for the next ten or fifteen years. On this card are listed some of the goals that different people say should be given top priority: (1) Maintaining order in the nation; (2) Giving the people more say in important government decisions; (3) Fighting rising prices; (4) Protecting Freedom of speech. Would you please say which of them you yourself consider most important in the long run? And what would be your second choice?"

Respondents combining item (1) and (3) are labelled "materialist" Respondents combining items (2) and (4) are labelled "post-materialist", and others are labelled "mixed".

CODE 1: coded 1 for V34 and 3 for V35; or coded 3 for V34 and 1 for V35

CODE 2: coded 1 or 3 for V34 and 2 or 4 for V35; or coded 2 or 4 for V34 and 1 or 3 for V35 or coded 0 or 5 for either V34 or V35

v535 C3 EU SUPPORT TYPOLOGY - EUROP ATTITUDES
 C.3 TYPOLOGY OF EUROPEAN ATTITUDES

- 0 DK/NA
- 1 Positive
- 2 Ambivalent
- 3 Negative

Derivation:

The Typology of European attitudes is based upon answers to the following questions: "In general, are you for or against efforts being made to unify Western Europe? Are you for, very much; for, to some extent; against, to some extent; against, very much?" (Q.24 = UNIFICATION) and "Generally speaking, do you think that (your country's) membership of the European Community is: a good thing, a bad thing, or neither good nor bad?" (Q.25 = MEMBERSHIP). Positive attitudes: MEMBERSHIP "good" and UNIFICATION: "for...". Ambivalent attitudes: MEMBERSHIP "neither good nor bad" or MEMBERSHIP "good" and UNIFICATION: "against..." or MEMBERSHIP "bad" and UNIFICATION "for ..." or DK/NA. Negative attitudes: MEMBERSHIP "bad" and UNIFICATION: "against...".

CODE 1: coded 1 for V64 and either 1 or 2 for V63

CODE 2: coded 0 or 4 for V64; or coded 1 for V64 and either 3, 4, 5 or 0 for V63; or coded 2 for V64; or coded 3 for V64 and either 1, 2, 5 or 0 for V63

CODE 3: coded 3 for V64 and either 3 or 4 for V63

CODE 0: coded 0 or 4 for V64 and either 0 or 5 for V63

| v536 | C4 SOCIO PROF STATUS (OCCUP RECODED) |
| | C.4 SOCIO PROFESSIONAL STATUS |

- 0 Other answers (never any payed work, NA)
- 1 Farmer and fisher
- 2 Professionals
- 3 Owner of a shop, craftsmen, other self employed position
- 4 Business proprietors, owner of a company
- 5 Employed professional
- 6 General management
- 7 Middle management
- 8 Employed position, working mainly at a desk
- 9 Employed position , not at a desk but travelling
- 10 Employed position, not at a desk but in a service job
- 11 Supervisors
- 12 Skilled manual workers
- 13 Other (unskilled) manual worker
- 99 Inap., not available for Finland, Sweden, and Austria (coded 16-18 in V7)

Derivation:

Roughly half of the representative sample of the European Community public was without paid work. Basing cross-analyses on "occupation" (D.15A) would exclude half of the respondents from analysis. An alternative is to base analyses on (nonmarxist) concept of "objective social class" using "occupation of the head of household" as reference. In order to classify as many respondents as possible with respect to their socioprofessional setting, a new classification was created called "socio-professional status" of the main income earner (MIE). The following standard was used if the respondent is the MIE: For those in paid work it is based on the respondents' own present occupation (D.15A). For those not in paid work, "former occupation" (D.15B) was used, if applicable. If the respondent is not the MIE, the occupation of the "person who contributes most to the household income" (D.21A) was used and if the head of household was not performing paid works at the time of the interview, his or her "former occupation" (D.21B) was used, if applicable.

Consequently, socio-professional status is a classification "that comes as close to the respondent himself/herself as possible" but that draws upon additional background information to the extent necessary and available, in order to avoid a single measure of interviewees' socio-professional setting and to include the maximum number of respondents in the respective analyses. For more details see standard report EUROBAROMETER 42, December 1994, Brussels, C.5

v537 C6 EU SUPPORT - COMMITMENT
 C.6 COMMITMENT TO THE COMMON MARKET

Support for the European Community Index

- 1 Strong opposition
- 2 Moderate opposition
- 3 Neutral position
- 4 Moderate support
- 5 Strong support

Derivation:

This index was constructed from responses to the questions: "Generally speaking, do you think that (your country's) membership of the European Community (Common Market) is ... a good thing, a bad thing, or neither good nor bad?" (Q.25) and "If you were told tomorrow that the European Community (Common Market) had been scrapped, would you be very sorry about it, indifferent or very relieved?" (Q.27).

v538 C11 MEDIA USE (Q13 COMBINED)
 C.11 MEDIA USE

- 0 DK/NA
- 1 +++
- 2 ++
- 3 --
- 4 ---
- 9 Inap., not available for Finland, Sweden, and Austria

Derivation:

This index is based upon answers to question Q.13 (V45-V47): "About how often do you watch the news in television, read the news in the daily paper, and listen to the news broadcasts on the radio?" It combines the answers in the following way: +++ News on TV, radio and papers every day or several times a week; ++ Two media every day or several times a week, the third medium not more than once or twice a week; - - One of the three media every day or several times a week, the two others, not more than once or twice a week; - - - The three media no more than once or twice a week.

CODE 1: Coded 1 or 2 for V45, V46 and V47

CODE 2: Coded 1 or 2 for two of these variables and coded 3, 4 or 5 for the third variable

CODE 3: Coded 1 or 2 for one of these variables and coded 3, 4 or 5 for the two other variables

| v539 | C12 EUROPEAN SOCIAL GRADE (ESOMAR) |
| | C.12 European Social Grade (ESOMAR 7-point scale) |

- 0 NA
- 1 A
- 2 B
- 3 C
- 4 D
- 5 E1
- 6 E2
- 7 E3
- 9 Inap., not available for Finland, Sweden, and Austria (coded 16-18 in V7)

Derivation:

This scale is based on the recommendation of the European Society for Opinion and Marketing Research to harmonise the measurement of social grade across borders. This approach uses three different types of input variables:

I) Occupation of the main income earner (MIE) is based on 16 occupation groups E1 to E16:

- E1 General management, director or top management
(6 employees or more)
- E2 Self employed professional
- E3 Employed professional
- E4 General management, director or top management
(5 employees or less)
- E5 Middle management, other management
(6 employees or more)
- E6 Middle management, other management
(5 employees or less)
- E7 Business proprietors, owner (full/partner) of company
and owner of a shop, craftsmen, other self employed
(6 employees or more)
- E8 employed position, working mainly at a desk
- E9 business proprietors, owner (full/partner) of company
(5 employees or less)
- E10 student
- E11 employed position, not at a desk but travelling or in
a service job
- E12 farmer and fisherman
- E13 responsible for ordinary shopping and looking after
the home, housewife
- E14 supervisor and skilled manual worker
- E15 other (unskilled) manual worker, servant
- E16 retired or unable to work through illness, unemployed

or temporarily not working

II) The education level of the main income earner (MIE) is based on a classification into 6 groups of education level (adjusting the finishing age of general education in accordance with extra general education or specific apprenticeship and/or professional training): 1) up to 14 years; 2) 15-16 years; 3) 17-18 years; 4) 19-20 years; 5) 21-24 years; 6) 25 years and over.

III) Household ownership of selected durable is based on ownership in terms of number of products owned (D.14): a colour TV set - a video recorder - a video camera - a radio-clock - a PC/home computer - a still camera - an electric drill - an electric deep fat fryer - two or more cars - a second home or a holiday home/flat.

The combination of these input variables results in a new social grade classification with, as categories (upper to lower): A B C D E1 E2 E3. For more details see standard report EUROBAROMETER 42, December 1994, Brussels, C.9

SCALE on the basis of all active and non-active main income earners as constructed by the original investigator.

v540 C14 OCCUPATION OF RESPONDENT (SCALE)

C.14 Respondent Occupation Scale

- 0 Other answers (Coded 2, 4 or 0 for V487)
- 1 Self employed (Coded 5 to 9 for V487)
- 2 Managers (Coded 10 to 12 for V487)
- 3 Other white collars (Coded 13 or 14 for V487)
- 4 Manual workers (Coded 15 to 18 for V487)
- 5 House persons (Coded 1 for V487)
- 6 Unemployed (Coded 3 for V487)
- 9 Inap., not available for Finland, Sweden, and Austria (coded 16-18 in V7)

Derivation:

This scale is based on a combination / selection of the current respondent occupation variable D.15A.
