Acknowledgements

Standard & Special Eurobarometer surveys are conducted on behalf of the Commission of the European Communities, under the responsibility of the Directorate-General Communication and on occasion requested by other departments according to the policy they deal with. From the outset the European Commission is generously granting access to Eurobarometer primary data for re-use in social science research and training.

The integrated original datasets and related materials are delivered by the respective survey research institute in charge of survey implementation and fieldwork co-ordination.

Preparation and documentation of Eurobarometer primary data for long term preservation and usability happen in a cooperative arrangement between the teams at Inter-University Consortium for Political and Social Research (ICPSR) and GESIS Data Archive for the Social Sciences.

Introduction and preliminary remarks

The variable reports of the Standard & Special Eurobarometer survey series offer a comprehensive description of the data on study and variable level. For each Eurobarometer individual variable reports are provided. The reports are structured into five sections: Section one provides the description of the respective Eurobarometer Study, including bibliographic information, abstract, methodological specifications, remarks on weighting and general notes on data preparation. Section two gives an historical overview of the Eurobarometer Survey Series, including the institutional background and the development of geographical and topical coverage. A third section provides general information about the structure of Eurobarometer datasets, documentation standards and variable coding frames. Section four explains the details of the 'Variable Documentation' part in the following section five, which is the documentation of the variables with the complete question texts and answer categories of the master questionnaire and the corresponding archival remarks on data preparation or inconsistencies, if applicable. In addition, this variable report contains frequency counts, by country (sample), for almost all variables. These frequencies are based on weighted data using the adequate post-stratification weight, if applicable and as indicated in each table.

Data access

Primary data for statistical analysis and related documentation (basic bilingual questionnaires, national field questionnaire versions and variable reports) are made available online by GESIS (<http://zacat.gesis.org>), by the Inter-university Consortium for Political and Social Research through the ICPSR membership network, and through all Social Science Data Archives members of the Council of European Social Science Data Archives (CESSDA).

Usage requirement

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about related research activities, users of the data are requested to send to ICPSR or GESIS respectively bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data (surveys and respective variables) were used.

Disclaimer

The original collector of the data, ICPSR, GESIS, and the relevant funding agencies bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

1.2 Content

1.2.1 Abstract

This round of Eurobarometer surveys investigated the level of public support for the European Community (EC) and assessed attitudes toward regional development and perceptions of the Third World.

Respondents were asked how well-informed they felt about the EC, how supportive they were of efforts being made to unify Western Europe, whether their country had benefited from being an EC member, and their personal interest in EC matters. Respondents were also asked to judge which areas of policy should be decided by national governments and which by a central Community structure, and to express their reactions to the reform of the Common Agricultural Policy, their expectations for the Single European Market, and their attitudes about the role and importance of the European Parliament.

A new series of questions examined respondents' views toward the recording and distribution of personal information by private and public organizations, the recording and use of certain types of information, and the transfer of personal information among organizations.

Questions about smoking included whether the respondent had heard of the European Code Against Cancer, whether the respondent smoked, what tobacco products were used by smokers, how many cigarettes were smoked in a day by the respondent, and whether smokers had plans to cut down their tobacco consumption.

Items on regional identification included respondents' conceptions of 'their region,' attachment to their town, village, region, or country, whether there were policies to develop less favored regions in member countries, whether there should be policies to develop regions in member countries, and what the European Community's policy should be with respect to developing regions in the European Community.

Queries about the Third World included perceptions of the extent of hunger and economic development in the Third World, the respondent's personal impression and experience with the Third World, the respondent's source, nature, and need for information about the Third World, whether aid should be given to Third World countries and the expected nature and benefit of that aid, what the aim of relations with Third World countries should be, and the expected future of the Third World.

As in previous Eurobarometers, questions on political party preference asked respondents which party they felt the closest to, how they voted in their country's last general election, and how they would vote if a general election were held tomorrow. Additional information was gathered on family income, number of people residing in the home, size of locality, home ownership, region of residence, occupation of the head of household, and the respondent's age, sex, occupation, education, religion, religiosity, subjective social class standing, socio-professional status, and left-right political self-placement.

1.3 Universe

The samples of Eurobarometer 36 are designed to be representative for the national population aged 15 years and over of the 12 European Community member countries, resident in and citizen of the respective country. Two separate samples have been drawn in the United Kingdom (Great Britain and Northern Ireland) and in Germany (West and East Germany). A separate national survey was conducted independently in Norway, designed to be representative for Norwegian citizens aged 15 years and over.

1.4 Sampling procedure

For doing so, the points were drawn systematically from all 'administrative regional units', after stratification by individual unit and type of area. They thus represent the whole territory of the Member States according to the EUROSTAT-NUTS II and according to the distribution of the national, resident population in terms of metropolitan, urban, and rural areas. In each of the selected sampling points, a starting address was drawn, at random. Further addresses were selected as every Nth address by standard random route procedures, from the initial address.

COMPARISON BETWEEN SAMPLES AND UNIVERSES AND WEIGHTING OF THE DATA

For each of the countries a comparison between the sample and the universe was carried out. The Universe description was derived from EUROSTAT population data.

For all EC member-countries a national weighting procedure, using marginal and intercellular weighting, was carried out based on this Universe description. As such in all countries, minimum sex, age, region NUTS II and size of locality were introduced in the iteration procedure.

For international weighting (i.e. EC averages), INRA (EUROPE) applies the official population figures as published by EUROSTAT in the Regional Statistics Yearbook of 1988. The effective number of realized interviews in this round is indicated in table 1.

1.5 Fieldwork

Between October 15 and November 21, 1991, INRA (EUROPE), a European Network of Market and Public Opinion Research Agencies, carried out wave 36.0 of the STANDARD EUROBAROMETER, on request of the COMMISSION OF THE EUROPEAN COMMUNITIES.

1.6 Mode of data collection

In each household, the respondent was drawn, at random. All interviews were face-to-face in people's homes and in the appropriate national language.

1.7 Weighting

In general the Standard and Special Eurobarometer data sets provide for two types of weighting, a post-stratification sample weighting and a population size weighting.

For each sample, i.e. participating country or lower level region, a comparison between the sample composition and a proper universe description is carried out for internal weighting purposes. The universe description is made available by the National Survey Research Institutes and/or by EUROSTAT. On this basis a national weighting procedure, using marginal and intercellular weighting, is applied. As such in all countries, minimum sex, age, region NUTS II (basic regions as defined by the EUROSTAT nomenclature of territorial units for statistics), and size of locality are introduced in the iteration procedure. This **post-stratification weighting** is also referred to as redressment or non-response weighting. A design weight which would adjust for unequal selection probabilities (depending on the household size) is not made available.

For the descriptive analysis of individual samples or their comparison, up to six weighting variables are provided in each data set and documented as such in the variable description. Until Eurobarometer 31 the corresponding weight variable is labelled NATION WEIGHT II. Weighting factors were then not included continuously for all samples and weighting procedure might have differed from the foregoing description. While weighting usually reproduces the real number of cases for each sample, between Eurobarometer 33 and 54.1 samples can also be adjusted to their predefined standard size of exactly 1000 or 500 cases. This option was applied for the official Eurobarometer reports of the period.

The **population size weighting** factor corrects for the fact that most samples are of almost identical size, no matter how large or small the populations are from which they were drawn. These weights ensure that each country as well as each lower level sample (Great Britain and Northern Ireland, East and West Germany) are represented in proportion to its population size within different groupings, or according to the historical states of European unification (e.g. founder members, new members, Euro zone) in the case of the EUROPEAN WEIGHTS, or for the United Kingdom (WEIGHT SPECIAL UNITED KINGDOM, NATION WEIGHT I until Eurobarometer 31A) and for Germany as a whole (WEIGHT SPECIAL GERMANY).

The population size weights all include the post-stratification weighting factors. The EUROPEAN WEIGHTS adjust each sample in proportion to its share in the total population of the European Union (formerly European Community), aged 15 and over. These adjustments are based on population figures published by EUROSTAT in the Regional Statistics Yearbook. In some cases more than 20 European weights are provided for use in analyses of the European Union population as a whole or in accordance with its historical compositions. Between Eurobarometer 33 and 54.1 adjustments to the predefined standard sample size is taken into account. In general all samples which do not belong to the respective group of samples under consideration are excluded from calculation.

The application of post-stratification weights is recommended for descriptive (univariate) analysis. Meaningful descriptive results for groups of countries or for countries with separate samples (United Kingdom and Germany) require population size weighting. Official Eurobarometer reports are always based on weighted data.

Starting with Eurobarometer 66.2 a new additional weight (WEIGHT EXTRA) is provided which extrapolates the actual universe (population aged 15 or more) for each country or sample. This weight variable integrates all other available weights, but does not reproduce the number of cases in the data set, but the respective actual population size.

As needed, OVERSAMPLES (see chapter 2.4, table 4) are weighted separately as documented in the respective study and weight variable description. In some surveys special weights are made available for application with selected variables on a specific topic, e.g. for the descriptive analysis of variables regarding e-communication equipment on HOUSEHOLD level.

Eurobarometer 36 provides four (post-stratification) NATION WEIGHTS for the EU member countries: WEIGHT RESULT FROM TARGET (NATION WEIGHT IIa) and WEIGHT ADJUSTED TO STANDARD SIZE (NATION WEIGHT IIb) for separate analysis or comparison of individual samples (countries or regions on sub-national level), WEIGHT SPECIAL UNITED KINGDOM (NATION WEIGHT I adjusted to standard size) which in addition adjusts the British and the Northern Irish samples to their respective proportions in the United Kingdom for descriptive analysis of the United Kingdom as a whole and WEIGHT SPECIAL GERMANY (NATION WEIGHT III adjusted to standard size), which adds the adjustment of the East and West German samples to their respective proportions in the United Germany, to be used for descriptive analysis of the United Germany as a whole. All other samples (nations) are included, likewise all post-stratification factors, except Norway. A separate (post-stratification) NATION WEIGHT is provided for Norway: WEIGHT RESULT FROM TARGET NORWAY ONLY.

The different EUROPEAN WEIGHTS provide adjustments for each (national) sample in proportion to its share in the total population aged 15 and over, of the European Union, within groups of member countries representing different historical states of European integration (e.g. EURO6 = six founder members). All post-stratification factors are included. Norway is always excluded from calculation.

For more detailed information on the individual weights please see the corresponding variable description.

1.8 Data preparation

The data received by ICPSR from INRA (Europe) were checked for missing and duplicate records, for illegal (wild) codes and for consistency of response patterns. Errors discovered by these procedures were corrected or noted in this codebook. Indices and other derived summary variables were also checked and corrected as necessary. Complete machine-readable documentation was also created for this dataset by ICPSR.

ICPSR has either added "<NA>" codes to indicate responses that had no code values in the original data (system missing values) or recoded variables to the "<NA>" value if the variable had been inappropriately coded. Illegal (wild) codes which ICPSR has been unable to document have been labeled as "<Undocumented Code>" where they appear in this codebook. Users should also note that on occasion the number of responses to a particular question may exceed the maximum indicated in the interviewer instructions.

Question text and contingency text appearing in this codebook and ICPSR's machine-readable documentation is taken from INRA (Europe)'s English language version of the questionnaire. Whenever a discrepancy occurs between INRA (Europe)'s codebook and its English language questionnaire as to the coding scheme of a variable, the former is followed in the ICPSR documentation.

2 Eurobarometer Series Description

2.1 Series name

The Standard and Special Eurobarometer (a.k.a. Euro-Barometer) Survey Series

2.2 Series information

The Standard and Special Eurobarometer surveys are the products of a unique program of cross-national and cross-temporal survey research. The effort began in early 1970, when the Commission of the European Communities sponsored simultaneous surveys of the publics of the European Community. In general they are carried out in spring and fall of each year. Three pilot studies were conducted in 1970, 1971 and 1973 under the header of European Communities Studies; "Attitudes towards Europe" (GESIS id ZA0078), the very first comparative survey across European Communities founder members in 1962, can be seen as an early forerunner. The primary data of the first explicit Eurobarometer, conducted in spring 1974, have not been preserved.

2.3 Principal investigators and institutional background

The Eurobarometer program was initially launched and managed until 1986 by Jacques-René Rabier, head of the Commission's press and information directorate and afterwards special advisor to the Commission of the European Communities. He counted with the political support of the European Parliament and the close co-operation of Ronald Inglehart. The political scientist at the University of Michigan was then developing his theory of value change in modern societies and his materialist/post-materialist items would become integral part of the Eurobarometer until the mid nineties. Between 1987 and 1996 the program was continued and considerably enlarged under the direction of Karlheinz Reif, since 1993 together with Anna Melich.

Anna Melich took over the Eurobarometer direction from 1997 to 1999, by then still within the organizational framework of the former Directorate-General X, Public Opinion Surveys and Research Unit. In 2000/2002 Eurobarometer were intermittently conducted in the framework of the DG Education and Culture, Citizens' Centre - Analysis of Public Opinion under the direction of Harald Hartung, and starting with Eurobarometer 54 under DG Press and Communication, initially directed by Thomas Christensen. Since 1999 the organisation and supervision of the surveys were consecutively executed by Rubén Mohedano-Brèthes (until 2002) and Renaud Soufflot de Magny (until 2006), with Antonis Papcostas as head of unit between 2003 and 2010.

The main survey results are regularly published on the European Commission's Public Opinion website in official standard and special topic reports.

2.4 Development of geographical and population coverage

In all European Union (formerly "European Communities") member countries Standard Eurobarometer samples were initially drawn among the national population, aged 15 and over. Starting with Eurobarometer 41.1 the target population is the population of any nationality of an European Union member country, aged 15 years and over, resident in any of the Member States. For test purposes Eurobarometer 41.0 included a non-national European Union citizens oversample.

Eurobarometer regularly include all member countries, starting with the six founder members and in accordance with the subsequent enlargement process. Norway has been in-officially included in selected waves between 1989 (EB34) and 1996 (EB46), Finland started before the actual enlargement in 1993 (EB39.0), and a few Swiss Eurobarometer were run in parallel to selected waves or topics starting in 1999 (EB51.1) in Switzerland. Candidate Countries (CC) and Accession Countries (AC) for the Eastern enlargement process were first surveyed in the Candidate Countries Eurobarometer series (2001-2004) and then all included in the standard series, even before accession as in the cases of Turkey or Macedonia.

Additional samples are drawn for Great Britain and Northern Ireland almost from the start, in Germany (East and West) after the re-unification in 1989, and in Cyprus for the Turkish Cypriote Community (Northern Cyprus) since 2004 for selected standard and topical waves.

Table 2: EU enlargement and countries covered by Standard and Special Eurobarometer

		Norway	NO	1000	

The regular standard sample size (in the sense of completed interviews) in Eurobarometer surveys is 1000 respondents per country, except small countries like Luxembourg or Malta. The 44.2bis MEGA-survey increased the standard sample up to 6000 respondents (for the largest countries) in order to achieve more confidence for analysis on sub-national level.

Oversamples have been drawn intermittently if required by the topic, i.e. to ensure that there are enough members of the relevant population subgroup to report sufficiently reliable estimates. Intentionally more people are selected from the respective group than would typically be done if everyone in the sample had an equal chance of being selected.

Table 3: Oversamples for special topic Eurobarometer

Topic	(Over-)Sample	Eurobarometer Survey
Young Europeans	Youth aged 15-24	17, 28.1, 34.2, 47.2OVR, 55.1OVR
Elderly Europeans	Elderly aged 60+	37.2
Consumer Behaviour	Responsible for shopping	41.0
Unemployment	Unemployed	44.3OVR
Working Conditions	Professionally active	37.0+1, 39.0+1
Drug Abuse	Youth aged 15-24	43.0+1, 57.2OVR
Education Issues	Youth aged 15-24	44.0 / 44.1 (data not integrated)

2.5 Standard question program and special topics

Standard Eurobarometer surveys were designed to provide a regular monitoring of the social and political attitudes among the European publics, to obtain regular readings of support for European integration, public awareness of and attitudes toward European unification, the institutions of the European Community / European Union, and its policies in complementary fashion. Attitudes toward the organization and role of the European Parliament and electoral behavior became a major topic in pre- and post- European Elections times. The standard program was complemented by measures of general socio-political orientations, of subjective satisfaction and the perceived quality of life, or of cultural, national and European identities.

Intermittently Standard Eurobarometer have investigated SPECIAL TOPICS, such as agriculture, biotechnology, energy, environment, family planning, gender roles, health related issues, immigration, poverty and social exclusion, regional identity, science and technology, information society, working conditions, urban traffic, knowledge of languages etc. In the case of some supplementary studies, special youth and elderly samples have been drawn (see table 4).

Starting with Eurobarometer 34 (1990) additional supplementary surveys on special issues have been conducted under each main wave number, identified by dot-separated sub-numbers for each individual survey. Usually only one survey per main wave includes the standard and trend module with focus on European integration issues. The following list (table 5) identifies the surveys containing the standard module and with results reported in the corresponding official standard report, or which at least include a subset of standard indicators, or with focus on European integration in a special topic context (e.g. "The future of Europe" in Eurobarometer 65.1).

Table 4: Overview of Eurobarometer surveys with standard EU and trend question modules

Standard and trend surveys	Fieldwork Dates	GESIS ID	Standard Report	Special topic	Subset

Further and regularly updated information on the Eurobarometer survey series is provided through the GESIS Eurobarometer Data Service micro-site: <http://www.gesis.org/eurobarometer>

3 Dataset structure and standards

Standard and Special Eurobarometer are processed and documented by the Inter-university Consortium for Political and Social Research (ICPSR) and by the GESIS Data Archive department in accordance with agreed standards, which may in some details diverge from the usual ICPSR or GESIS archive standards. In addition and as long as reasonable it was adhered to standards once established for the Eurobarometer series in the course of the years.

3.1 Dataset structure

In general the variable structure of the analysis dataset is aligned to the basic bilingual questionnaire, preceded by a set of technical variables. These comprise the archive identification variables (archive study and version id), the survey identification variables (wave and unique respondent id), and several standard NATION variables identifying the different samples (countries or regions) and relevant groups of samples in the dataset with the corresponding WEIGHT variables provided by the fieldwork institutes (see 1.7). A special alphanumeric NATION variable is provided based on the ISO 3166 country code standard for the purpose of breaking down variables by sample in terms of clearly summarized cross-tabulations.

The questionnaire variables usually consist of three types, the substantial questions (Q), the Eurobarometer standard demographics (D) and the interview protocol variables (P). The dataset is concluded by constructed index variables (C), usually as provided by the fieldwork institute, by a questionnaire SPLIT variable if applicable, and by further original identification variables.

Variable names consist of the standard prefix 'V' and the consecutive variable number, except ISOCNTRY and VERSION variables if subsequently added to older datasets. Variable labels are standardized in the sense that they provide keywords based on the question text and that these keywords are applied consistently if questions or question items are repeated over time (trend variables). Variable label may include abbreviations if required, e.g. limitations regarding the length of variable labels in older versions of statistical analysis software. Starting with Eurobarometer 33 the variable labels include the respective question number as a reference to the basic bilingual questionnaire.

3.2 Coding frames

By general rule, the variables adopt the coding frame as specified in the basic bilingual questionnaire, except multiple response questions (see 1.8), questions with country specific answer categories and missing values.

3.2.1 Country specific answer categories

Eurobarometer include some questions (variables) with country specific answer categories like INCOME, SIZE OF COMMUNITY, REGION or variables related to VOTING BEHAVIOUR with reference to POLITICAL PARTIES. Until Eurobarometer 48 only one integrated variable is supplied with each category representing country specific meanings (e.g. geographic regions) which are not documented within the analysis dataset by means of value labels, but only in the extended variable description in the variable report. Starting with Eurobarometer 49 the integrated variables are retained but complemented by completely labeled country specific variables. The country specific coding schemes and categories are maintained as a standard over time as long as the category schemes

provided in the questionnaire are remain comparable.

Special attention is given to the coding of POLITICAL PARTIES in voting behavior variables such as VOTE INTENTION or LAST VOTE based on a standard coding scheme, originally developed for the Eurobarometer by Ronald Inglehart.

Starting with Euro-Barometer 2 the coding of this variable has been standardized following an approximate ordering of each country's political parties along a "left" to "right" continuum in the first digit of the codes. Parties coded 01-39 are generally considered on the "left", those coded 40-49 in the "centre", and those coded 60-89 on the "right" of the political spectrum. Parties coded 50-59 cannot be readily located in the traditional meaning of "left" and "right". The second digit of the codes is not significant to the "left-right" ordering. Codes 90-99 contain the response "other party" and various missing data responses. Major "party families" like the Social Democrats or Conservatives have been assigned identical values across countries, if possible.

From Eurobarometer 69.2 onwards, the "party family" harmonization approach has been sharpened following and updating the coding scheme developed by ZEUS for the Mannheim Eurobarometer Trend File. This ZEUS Code of Party Families is country specific, i.e. the categories have different meanings for different countries. It has three digits: The first represents the party family, the second and third identify an individual party in this family. Individual parties are coded consistently over time. The assignment of parties to families is done according to their overall ideological orientations.

Table 5: ZEUS Party Family Code (slightly modified)

Category		Party Family
0	(001-099)	not affiliated / electoral alliances across "families"
1	(100-199)	Communists
2	(200-299)	Socialists
3	(300-399)	Liberals
4	(400-499)	Christian Democrats
5	(500-599)	Conservatives
6	(600-699)	Extreme Rights / Nationalists
7	(700-799)	Regionalists / Ethnic
8	(800-899)	Environmental parties
9	(900-949)	Agricultural parties
9	(950-989)	other special issue parties (e.g. Eurosceptics) and independents
	990	other (spontaneous)
	994	not voting age
	995	empty ballot (blank) or invalid vote
	996	not voted / would not vote
	997	Refused
	998	DK / DK+NA if NA not coded separately
	999	INAP (inappropriate)

If available, the former standard category used up to Eurobarometer 61 is always referenced in the variable description. Due to general changes in party systems and to the ideological development of individual political

parties, the assignment of parties to party families cannot claim general validity. Users may modify these codings or part of these codings in order to suit their specific needs.

3.2.2 Missing values

In general missing value codes are defined in accordance with the standard once established for the Eurobarometer series, in particular the default use of whatever value supplied by the basic questionnaire for DK ("don't know") responses, unless a standard coding scheme is applied for demographic or protocol variables. The value 0 is applied for NA (i.e. "not ascertained" resp. "no answer") and the value 9 (99, 999, ...) for INAP (i.e. "inappropriate" resp. "not applicable"). If one of these values falls into the valid range of codes, the missing values are shifted to the next available missing value code or "level", e.g. if 0 is used in a dichotomous variable (NOT MENTIONED), value 9 is used for NA, respectively value 8 if value 9 is already used for INAP. If necessary the corresponding two- or more digit codes are used (99, 999, 98, 998 ...). Recently separate missing values are coded for INAP depending on whether the respondent was not asked a question due to questionnaire routing (filter non-response) or whether the question was not provided for in the country's field questionnaire. Other missing values (e.g. REFUSAL) are coded with the in each case next available code (e.g. 7, 97, 997, ...). In the analysis data set these codes are by default declared and treated as USER MISSING, but may be modified by the user to suit specific needs.

3.3 International documentation standard

The variable documentation is set up in accordance with the international metadata specifications for the social and behavioural sciences, established by the Data Documentation Initiative <DDI>. The variable reports are based on the XML representation of DDI version 2. The documentation combines the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the basic bilingual (master) questionnaire with the variable description (variable name, values, and labels) of the analysis dataset. General remarks and comments referring to a certain variable are defined as variable notes. Notes can be references to trend (comparability) information, standards applied for coding frames, problems in questionnaire translation, but also references to data problems or other specific characteristics.

4 Explanation of the variable documentation

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. The variable documentation is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with international metadata standards (DDI-Codebook/XML).

In general, the following abbreviations are used to indicate countries or (sub-national) areas. As far as applicable, the ISO 3166-1 alpha-2 country codes have been applied and coded accordingly in the alphanumeric sample identification variable (NATION – ALL SAMPLES ISO 3166).

AT	Austria	HR	Croatia
BE	Belgium	HU	Hungary
BG	Bulgaria	IE	Ireland
CY	Cyprus	IT	Italy
CY-TCC	Turkish Cypriote Community	LT	Lithuania
CZ	Czech Republic	LU	Luxembourg
DE	Germany (-1989)	LV	Latvia
DE-W	Germany West (1990 ff.)	MK	Macedonia (FYROM)
DE-E	Germany East (1990 ff.)	MT	Malta
EE	Estonia	NL	The Netherlands
ES	Spain	PL	Poland
FI	Finland	PT	Portugal
FR	France	RO	Romania
GB	United Kingdom	SE	Sweden
GB-GBN	Great Britain	SI	Slovenia
GB-NIR	Northern Ireland	SK	Slovakia
GR	Greece	TR	Turkey

The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable. Results are usually broken down by country (sample) or represented by frequency counts in the case of country specific variables. In the case of variables with long lists of coded "real" values (e.g. age), results are only presented for the corresponding categorized variable, if available. The content and construction of technical, administrative or other generated variables is described as appropriate.

The frequencies for substantive variables are calculated on the base of weighted data, as indicated with each table and in accordance with the European Commission's official Eurobarometer reports. Typically the sample specific post-stratification (redressment) weight is applied (WEIGHT RESULT FROM TARGET or NATION WEIGHT II). Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

The complete question and answer texts are taken from the English language part of the respective basic bilingual questionnaire (master questionnaire) as provided by the coordinating fieldwork institute.

DERIVATION information refers to the construction principle of indices or other derived variables (not in the example). NOTE delineates additional explanatory text subsuming trend information (last appearance of the question) or archive remarks on data processing and other issues relevant for the understanding or application of the variable.																																																																																																																																																																																																																																																																																																																																																					
CROSS-TABULATION: The absolute frequencies of the occurrence of values (<i>absolute values</i>) refer to the number of cases in the weighted dataset as indicated, in this case <i>weighted by V8</i> . The relative frequencies (<i>row percent</i>) refer to the valid cases (<i>n valid sum</i>), i.e. the total number of cases (<i>n sum</i>) reduced by the number of cases defined as missing data (<i>M</i>). For display and place saving reasons excluded countries or areas may be completely dropped from the table.																																																																																																																																																																																																																																																																																																																																																					
FREQUENCY COUNTS: For country specific variables relative frequencies are calculated in- and excluding missing data (<i>M</i>), i.e. <i>percent</i> on the basis of all cases (<i>sum</i>) and <i>valid percent</i> on the basis of the <i>valid cases</i> .																																																																																																																																																																																																																																																																																																																																																					

5 Variable Documentation

Variable, Label

Question Text (English Language)

v1 - ICPSR STUDY NUMBER - 9771

ICPSR Study Number -- 9771

9771 The ICPSR has attached this as a unique data collection identification number.

v1

Value	Label	Missing	Count	Percent	Valid Percent
9771			14006	100.0	100.0
	Sum		14006	100.0	100.0
	Valid Cases		14006		

v2 - ZA STUDY NUMBER - 2081

ZA Study Number -- 2081

2081 The ZA has attached this as a unique data collection identification number.

v2

Value	Label	Missing	Count	Percent	Valid Percent
2081			14006	100.0	100.0
	Sum		14006	100.0	100.0
	Valid Cases		14006		

v3 - ICPSR EDITION NUMBER

ICPSR Edition Number

The number identifying the release edition of this dataset.

1 First ICPSR Edition, May 1998 (release as of May 02, 2007)

Note:

Please see variable VERSION ("GESIS ARCHIVE VERSION") for further information on the version number of this data set and the corresponding release date.

v3

Value	Label	Missing	Count	Percent	Valid Percent
1	1st ICPSR EDITION - release as of May 02, 2007		14006	100.0	100.0
	Sum		14006	100.0	100.0
	Valid Cases		14006		

version - GESIS ARCHIVE VERSION**VERSION AND RELEASE DATE OF THE ARCHIVE DATA SET**

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

On occasion of the implementation of this versioning scheme (2010-04-13), the default version number 1.0.0 has been created automatically for this Eurobarometer.

Version 1.1.0 adds the crosstabulation variable ISOCNTRY and the VERSION variable and makes minor errata corrections which are documented on variable level, if applicable.

Former version or edition identification variables are maintained unchanged as a reference to former releases.

version

Value	Label	Missing	Count	Percent	Valid Percent
1.1.0 (2012-07-01)			14006	100.0	100.0
	Sum		14006	100.0	100.0
	Valid Cases		14006		

v4 - ICPSR PART NUMBER

ICPSR Part Number

The number identifying this part of a 1-part study.

1 Part one of a one-part study.

v4

Value	Label	Missing	Count	Percent	Valid Percent
1	PART ONE		14006	100.0	100.0
	Sum		14006	100.0	100.0
	Valid Cases		14006		

v5 - ICPSR CASE ID (SERIAL NUMBER)

Sequential respondent identification number assigned by ICPSR.

A unique identification number is assigned to each respondent.

Note:

Actual number is coded.

isocntry - NATION - ALL SAMPLES ISO 3166 (CROSSTABULATION VARIABLE)

NATION - ALL SAMPLES ISO 3166 (CROSSTABULATION VARIABLE)

All surveyed countries and regions, i.e. including separate samples for East- / West-Germany, Great Britain / Northern Ireland, and the Turkish Cypriot Community (TCC), are coded in accordance with the ISO 3166-1-alpha-2 country code, if available. ISO 3166-2 is applied for the United Kingdom subdivisions. ISO standard codes are not available for the "historical" East / West subdivision of Germany (DE-E / DE-W) and for the Turkish Cypriot Community in northern Cyprus (CY-TCC), the internationally not recognized "Turkish Republic of Northern Cyprus".

isocntry

v6 - NATION I (UNITED KINGDOM)

Nation of interview

This variable identifies the EC nation in which the respondent was interviewed. A unique numeric code is assigned to each of the 12 EC countries, including separate samples for East and West Germany.

- 1 France
- 2 Belgium
- 3 Netherlands
- 4 West Germany
- 5 Italy
- 6 Luxembourg
- 7 Denmark
- 8 Ireland
- 9 United Kingdom
- 10 Greece
- 11 Spain
- 12 Portugal
- 13 East Germany
- 14 Norway

v6

Value	Label	Missing	Count	Percent	Valid Percent
1	FRANCE		1007	7.2	7.2
2	BELGIUM		1006	7.2	7.2
3	NETHERLANDS		1009	7.2	7.2
4	WEST GERMANY		1000	7.1	7.1

	Sum		14006	100.0	100.0
	Valid Cases		14006		

v7 - WEIGHT SPECIAL UNITED KINGDOM

Weight Special United Kingdom

This variable adjusts the British and Northern Irish samples to their respective proportions in the United Kingdom. All nation weights are included. Norway is weighted by "zero".

Unlike the "Nation Weight I" in earlier Eurobarometers up to 31 this weight adjusts all samples to the standard size.

v8 - NATION II (GB AND NORTHERN IRELAND)

Nation of Interview II

The two samples for the United Kingdom, Great Britain and Northern Ireland, are coded separately

- 1 France
- 2 Belgium
- 3 Netherlands
- 4 West Germany
- 5 Italy
- 6 Luxembourg
- 7 Denmark
- 8 Ireland
- 9 Great Britain
- 10 Northern Ireland
- 11 Greece
- 12 Spain
- 13 Portugal
- 14 East Germany
- 15 Norway

v8

Value	Label	Missing	Count	Percent	Valid Percent
1	FRANCE		1007	7.2	7.2
2	BELGIUM		1006	7.2	7.2
3	NETHERLANDS		1009	7.2	7.2
4	WEST GERMANY		1000	7.1	7.1
5	ITALY		1076	7.7	7.7
6	LUXEMBOURG		435	3.1	3.1
7	DENMARK		1000	7.1	7.1
8	IRELAND		1005	7.2	7.2
9	GREAT BRITAIN		1071	7.6	7.6
10	NORTHERN IRELAND		305	2.2	2.2
11	GREECE		1000	7.1	7.1
12	SPAIN		1000	7.1	7.1
13	PORTUGAL		1000	7.1	7.1
14	EAST GERMANY		1090	7.8	7.8
15	NORWAY		1002	7.2	7.2
	Sum		14006	100.0	100.0
	Valid Cases		14006		

v9 - WEIGHT RESULT FROM TARGET

Weight Result from Target

This variable contains weights that adjust the weighted samples to make them representative for the countries from which they were drawn. It reproduces the real number of cases for each EC country. Great Britain and Northern Ireland are treated as independent samples. Norway is weighted by "zero".

Note:

This weight corresponds to "Nation Weight II" in earlier Eurobarometers up to 31.

v10 - WEIGHT ADJUSTED TO STANDARD SIZE

Weight Adjusted to Standard Size

This variable corresponds to "Weight Result from Target" adjusting all samples to the standard size of 1000 respectively 300 (Northern Ireland) or 500 (Luxembourg) cases. Great Britain (n=1000) and Northern Ireland (n=300) are weighted as independent samples. Norway is weighted by "zero".

v11 - NATION III (UNITED GERMANY)

Nation of Interview III

East and West Germany are coded together: United Germany.

- 1 France
- 2 Belgium
- 3 Netherlands
- 4 Germany
- 5 Italy
- 6 Luxembourg
- 7 Denmark
- 8 Ireland
- 9 Great Britain
- 10 Northern Ireland
- 11 Greece
- 12 Spain
- 13 Portugal
- 14 Norway

v11

Value	Label	Missing	Count	Percent	Valid Percent
1	FRANCE		1007	7.2	7.2
2	BELGIUM		1006	7.2	7.2
3	NETHERLANDS		1009	7.2	7.2
4	GERMANY		2090	14.9	14.9
5	ITALY		1076	7.7	7.7
6	LUXEMBOURG		435	3.1	3.1
7	DENMARK		1000	7.1	7.1
8	IRELAND		1005	7.2	7.2
9	GREAT BRITAIN		1071	7.6	7.6
10	NORTHERN IRELAND		305	2.2	2.2
11	GREECE		1000	7.1	7.1
12	SPAIN		1000	7.1	7.1
13	PORTUGAL		1000	7.1	7.1
14	NORWAY		1002	7.2	7.2
	Sum		14006	100.0	100.0
	Valid Cases		14006		

v12 - WEIGHT SPECIAL GERMANY

Weight Special Germany

This variable adjusts the East and West German samples to their respective proportions in the united Germany. All EC nation weights are included and all samples adjusted to the standard size. Norway is weighted by "zero".

v13 - WEIGHT EURO 6

European Weight 6

This variable contains the weight that adjusts each national sample in proportion to its nation's share in the total population of the European Community countries in their historic composition.

This weight includes the six EC founder-members (France Belgium, Netherlands, West Germany, Italy, and Luxembourg) and includes national weighting for each sample adjusted to the standard size.

v14 - WEIGHT EURO 10

European Weight 10

This variable contains the weight that adjusts each national sample in proportion to its nation's share in the total population of the European Community countries in their historic composition.

This weight excludes East Germany, Spain and Portugal. This weight includes national weighting for each sample adjusted to the standard size.

v15 - WEIGHT EURO 12

European Weight 12 (Great Britain and Northern Ireland together)

This variable contains the weight that adjusts each national sample in proportion to its nation's share in the total population of the European Community countries as categorized by Nation I (V5).

This weight excludes East Germany.

v16 - WEIGHT EUROPE 12 +

European Weight 12+

This variable contains weights that adjust each national sample in proportion to its nation's share in the total population of all the European Community countries. East Germany and Northern Ireland are treated as separate samples. The national weights for each sample are included. Norway is excluded (weighted by "zero").

Unlike the "EUROPEAN WEIGHT" in earlier Eurobarometers up to 31 this weight contains the adjustment to the standard size.

v17 - WEIGHT RESULT FROM TARGET NORWAY ONLY

Weight Result From Target Norway Only

This variable contains weights that adjust the weighted sample to make it representative for Norway. It reproduces the real number of cases. All other countries are weighted by "zero".

wght_all - WEIGHT RESULT FROM TARGET - ALL SAMPLES

WEIGHT RESULT FROM TARGET - ALL SAMPLES (EU + NO)

This weight adds WEIGHT RESULT FROM TARGET for EUROPEAN COMMUNITY member countries and a parallel survey conducted in NORWAY. This variable was produced by the archive and contains the original weighting factors for ALL SAMPLES adjusting the weighted samples to make them representative for the countries/areas from which they were drawn. It reproduces the real number of cases. British and Northern Irish as well as East and West German samples are weighted separately.

v18 - Q1 ELECTORAL REGISTER

Q.1

Are you... (NATIONALITY)?

(IF YES)

Do you know whether your name appears in the Electoral Register (the register of people entitled to vote at the next General Election), under your present address, at another address or does not appear at all?

(IF CODE 5: CLOSE INTERVIEW)

- 1 At present address
- 2 At another address
- 3 Don't know if registered
- 4 Does not appear at all
- 5 Is not (nationality)

Note:

Last trend: Q.1 in EB35.0

v71 - Q22 EC FINANCIAL AID FOR USSR

Q.22

ASK ALL

The Soviet Union has asked for substantial financial aid from the European Community and other Western countries. In principle, do you think that the European Community should give aid to the Soviet Union or not?

(IF YES)

Do you believe this aid should be given immediately or should it wait until the establishment of an economic reform programme leading to a market economy?

0 NA

1 No, should not give aid

2 Yes, should give aid immediately

3 Yes, should give aid when reform programme established

v74 - Q25 EC AGRICULTURAL POLICY REFORM

Q.25

In order to stop the growth in agricultural surpluses, the European Commission is planning to reform the Common Agricultural Policy. This would not reduce the European Community's spending and might even increase it in the near future. This reform provides for a more balanced distribution of funds by progressively replacing guaranteed high prices to all farmers with direct income assistance to small and middle sized farms. Do you think that this reform would be a good thing or a bad thing?

- 0 NA
- 1 A good thing
- 2 A bad thing
- 3 Neither good nor bad (SPONTANEOUS)
- 4 DK
- 9 INAP, not interviewed in Norway; coded 15 in V8

v103 - Q41 EUROPEAN PARLIAMENT - IMPRESSION

Q.41

IF YES IN Q.40

Has what you read or heard given you a generally favourable or unfavourable impression of the European Parliament?

0 NA

1 Generally favourable

2 Generally unfavourable

3 Neither favourable, nor unfavourable (SPONTANEOUS)

4 DK

9 INAP, if not "Yes" in Q.40; not coded 1 in V102 except for some cases for Belgium (see note); not interviewed in Norway; coded 15 in V8

Note:

For Belgium only, the filter "If Yes in Q.40" was not strictly applied. In the original data, respondents from Belgium who answered codes 1 ("Yes") or 3 ("DK") in Q.40/V102 went on to answer Q.41/V103. The (INAP) filter here was applied to Belgian respondents in the same manner as for other countries with the exception of 40 Belgian respondents in code 1 ("Generally favourable") of this variable who should not have answered. These responses have not been recoded to (INAP). The user should determine if these cases may be recoded to (INAP) or some other value.

v121 - Q46 EC DEFENCE - PARTICIPATION IRELAND

Q.46

ASK Q.46 IN IRELAND ONLY

As you can see, European Political Union may include a common defence arrangement involving the member states of the European Community. Successive Irish governments have accepted that moves towards European Political Union could mean scrapping Ireland's policy of military neutrality. Would you be in favour or opposed to Irish participation in a collective European Community defence arrangement?

v185 - Q63 ATTACHMENT - REGION R BELONGS TO

Q.63

People often call the area of their country where they live or where they grew up, "their region", the region to which they belong. What do you consider to be "your region", the region to which you belong?

(RECORD IN FULL - ONE ANSWER ONLY)

998 NA

Note:

Q.63 was asked open-ended and the raw results are not documented. The variable was recoded by INRA at the national level using the values documented in V186.

Actual number is coded.

v186 - Q63 ATTACHMENT - REGION RECODED

Q.63 (RECODED) People often call the area of their country where they live or where they grew up, "their region", the region to which they belong. What do you consider to be "your region", the region to which you belong?

- 0 NA
- 1 A region that is even SMALLER than NUTS III level
- 2 A region from the NUTS III level
- 3 A region from the NUTS II level
- 4 A region from the NUTS I level
- 5 A region that is LARGER than the NUTS I level
- 6 The country
- 7 The European Community (the 12 member countries)
- 8 EUROPE (not further specified)
- 9 Other answers/unclear answers/don't know

Note:

See Q.63 for complete question text.

v216 - Q75A PROBLEMS DIFFERENCES BETWEEN REGIONS

Q.75

ASK ALL

Here is a list of problems that people of (OUR COUNTRY) are interested in to varying degrees.

(SHOW CARD)

A. Could you please tell me for each one whether you personally consider it is a very important problem, important, not very important, or not at all important?

B. And for each of these problems, could you tell me whether it is preferable that decisions about it should be taken by the member countries of the European Community acting together or by each country separately?

Q.75A_1 IMPORTANCE: Reducing the differences between regions of our country by helping the less developed regions or those in most need.

- 0 NA

v223 - Q75B DECISION FIGHTING AGAINST TERRORISM

Q.75

ASK ALL

Here is a list of problems that people of (OUR COUNTRY) are interested in to varying degrees.

(SHOW CARD)

A. Could you please tell me for each one whether you personally consider it is a very important problem, important, not very important, or not at all important?

B. And for each of these problems, could you tell me whether it is preferable that decisions about it should be taken by the member countries of the European Community acting together or by each country separately?

Q.75B_4 DECISIONS: Fighting against terrorism.

v231 - Q75B DECISION PROTECTING NATURE

Q.75

ASK ALL

Here is a list of problems that people of (OUR COUNTRY) are interested in to varying degrees.

(SHOW CARD)

A. Could you please tell me for each one whether you personally consider it is a very important problem, important, not very important, or not at all important?

B. And for each of these problems, could you tell me whether it is preferable that decisions about it should be taken by the member countries of the European Community acting together or by each country separately?

Q.75B_8 DECISIONS: Protecting nature and fighting pollution.

- 0 NA
- 1 Countries acting together
- 2 Each country separately
- 3 DK

v312 - Q79 THIRD WORLD WHAT THEY SAY TO US

Q.79

ASK ALL

Here are some statements about the countries of the Third World.

Can you tell me for each statement if you tend to agree or disagree?

(READ OUT)

Q.79_1 It is always the Europeans or Americans who talk about these countries. It would be good to hear what these countries have to say to us themselves

0 NA

1 Tend to agree

2 Tend to disagree

3 DK

v331 - Q83 THIRD WORLD RELATION - PRINCIPAL AIM

Q.83

In your opinion, what should be our principal aim in our relations with the countries of the Third World?

(SHOW CARD - ONE ANSWER ONLY)

0 NA

1 Help them to become less poor

2 Co-operate with them so that they become economically independent and enable them to resolve their basic problems (food, health, education,...)

3 Work with these countries towards their becoming real partners in the world economy

4 None of these things (SPONTANEOUS)

5 DK

v338 - Q86 THIRD WORLD HELP - OPINION

Q.86

Which one of these three statements comes closest to your opinion?

(ONE ANSWER ONLY)

0 NA

1 We have to help countries of Third World simply because they are poor and need our help

2 We have to help countries of Third World because we need them in order to continue our own development

3 We should pay less attention to Third World and concentrate first on fighting poverty in our part of the world

4 None of these (SPONTANEOUS)

5 DK

v404 - D9 TRADE UNION MEMBERSHIP - WHICH UNION

D.9

TO THOSE WHO ARE MEMBERS OF A TRADE UNION: CODE 1 IN D.8A

Of which trade union are you a member?

0 NA

97 Undocumented code (original Norway code '0')

98 Don't know

99 INAP, not a member of a trade union; not coded 1 in V402

in France (FR):

1 (CGT) Confederation Generale du Travail

2 (CFTC) Confederation Francaise des Travailleurs Chretiens

3 (CFDT) Confederation Francaise du Travail Democratique

4 (FO) Force Ouvriere

5 (FEN) Federation de l'Education Nationale

6 (CGC) Confederation Generale des Cadres

90 Other union

in Belgium (BE):

1 (CSC-ACV) Confederation des Syndicats Chretiens de Belgique - Algemeen Christelijk Vakverbond

2 (FGTB-ABVV) Federation Generale du Travail de Belgique - Algemeen Belgisch Vakverbond

3 (CGSLB-ACLVB) Centrale Generale des Syndicats Liberaux - Algemeene Centrale der Liberale Vakverbonden van België

90 Other union

in Netherlands (NL):

1 (FNV) Federatie Nederlandse Vakbeweging

2 (CNV) Christelijk Nationaal Vakverbond in Nederland

3 (NCHP) Nederlandse Centrale voor Hoger Personeel

4 (ABVA KABO) Algemene Bond voor Ambtenaren - Katholieke Bond voor Overheidspersoneel

90 Other union

in Germany - West (DE_W):

1 (DAG) Deutsche Angestellten Gewerkschaft

2 (DPG) Deutsche Postgewerkschaft

3 (GdED) Gewerkschaft der Eisenbahner Deutschlands

4 (GdP) Gewerkschaft der Polizei

5 (GEW) Gewerkschaft Erziehung und Wissenschaft

6 (GGLF) Gewerkschaft Gartenbau, Land- und Forstwirtschaft

7 (GHK) Gewerkschaft Holz und Kunststoff

8 (GTB) Gewerkschaft Textil-Bekleidung

9 (HBV) Gewerkschaft Handel, Banken Versicherungen

10 IG BSE - Industriegewerkschaft Bau-Steine-Erden

11 IG BE - Industriegewerkschaft Bergbau und Energie

12 IG Chemie - Industriegewerkschaft Chemie-Papier-Keramik

- 13 IG Druck + Paper - Industriegewerkschaft Druck und Papier
- 14 (IGM) IG Metall
- 15 (NGG) Gewerkschaft Nahrung-Genussmittel- Gaststaetten
- 16 (OETV) Gewerkschaft Oeffentliche Dienste, Transport und Verkehr

in Italy (IT):

- 1 (CGIL) Confederazione Generale Italiana del Lavoro
- 2 (CISL) Confederazione Italiana Sindacati Lavoratori
- 3 (UIL) Unione Italiana del Lavoro
- 4 (CISNAL) Confederazione Italiana dei Sindacati dei Lavoratori
- 90 Other union

in Luxembourg (LU):

- 1 (OGBL) Onofhaengege Gewerkschaftsbond Letzebuerg
- 2 (LCGB) Letzebuerger Chreschtliche Gewerkschaftsbond
- 3 (FEP-FIT) Federation des Employes Prives
- 4 (NGL)
- 5 (CGFP)
- 6 (ALEBA) Vereinigung der Bank-und Versicherungs- Angestellten
- 90 Other union

in Denmark (DK):

- 1 (HK) Handels-og Kontorfunktionaerernes Forbund
- 2 (SID)
- 3 Dansk Metalarbejderforbund
- 4 Dansk Kommunalarbejderforbund
- 5 Dansk Kvindeligt Arbejderforbund
- 6 Danmarks Laererforening
- 7 Dansk Sygeplejerad
- 8 (BUPL) Borne- og Ungdomspaedagoger
- 90 Other union

in Ireland (IE):

- 1 Irish Transport and General Workers Union
- 2 Federated Workers Union of Ireland
- 3 Amalgamated Transport and General Workers Union
- 4 Irish National Teachers Organization
- 5 Manufacturing Science and Finance
- 6 Local Government and Public Service Union
- 7 (SIPTU)
- 90 Other union

in Great Britain (GB_GBN):

- 1 (AEU) Amalgamated Engineering Union

- 7 (ISTC) Iron & Steel Trades Confederation
- 8 (NALGO) National and Local Government Officers Association
- 9 (NAS/UWT) National Association of Schoolmasters/Union of Women Teachers
- 10 (NGA) National Graphical Association
- 11 (NUM) National Union of Mineworkers
- 12 (NUPE) National Union of Public Employees
- 13 (NUR) National Union of Railwaymen
- 14 (NUT) National Union of Teachers
- 15 (RCN) Royal College of Nursing
- 16 (TGWU) Transport and General Workers Union
- 18 (USDAW) Union of Shop, Distributive and Allied Workers
- 90 Other union

in Northern Ireland (GB_NIR):

- 1 Amalgamated Transport and General Workers Union
- 2 National Union of Public Employees
- 3 Northern Ireland Public Service Alliance
- 4 Confederation of Health Service Employees
- 5 Amalgamated Engineering Union
- 6 Association of Professional, Executive, Clerical and Computer Staff
- 7 National Association of Schoolmasters - Union of Women Teachers
- 90 Other union

in Greece (GR):

- 1 Federation of Construction Workers and Related
- 2 Federation of Employees of Motor Vehicles
- 3 Various Trade Unions
- 4 Various Unions of Educators
- 5 Pensioners Federation
- 6 Federation of Bank Employees Unions
- 7 Various Local Trade Federations
- 8 Various Associations of Company Employees
- 9 Various Unions of Public Employees and Common Welfare
- 10 Various Union Branches
- 90 Other union

in Spain (ES):

- 1 (CCOO) Comisiones Obreras
- 2 (UGT) Union General de Trabajadores
- 3 (USO) Union Sindical Obrera
- 4 (ELA-STV) Basque Trade Union
- 90 Other union

in Portugal (PT):

- 1 Sindicato dos Bancarios

- 2 Sindicato dos Ferrovianos
- 3 Sindicato dos Empregados do Comercio, Escritorio e Servicos
- 4 Sindicato dos Trabalhadores da Industria Metalurgica e Metalomecanica
- 5 Sindicato dos Trabalhadores da Funcao Publica
- 6 Sindicato dos Profissionais de Seguros
- 7 Sindicato dos Transportes Rodoviaros
- 8 Sindicato dos Electricistas
- 9 Sindicato dos Engenheiros
- 10 Sindicato Nacional dos Telefonistas
- 90 Other union

in Germany - East (DE_E):

Ex-GDR trade unions

- 1 Gewerkschaft Bau, Holz
- 2 Gewerkschaft Chemie, Papier, Keramik
- 3 Gewerkschaft Textil, Bekleidung, Leder
- 4 Gewerkschaft Unterricht, Erziehung
- 5 Gewerkschaft Kunst
- 6 Gewerkschaft Metall
- 7 Gewerkschaft Transport und Nachrichtenwesen
- 8 Gewerkschaft Handel, Nahrung und Genuss
- 9 Gewerkschaft Land, Nahrungsgueter und Forstwirtschaft
- 10 Gewerkschaft Staatsorgane und Kommunale
- 11 Gewerkschaft Eisenbahn
- 12 Gewerkschaft Bergbau, Energie
- 13 Gewerkschaft Gesundheitswesen
- 14 Gewerkschaft Wissenschaft
- 15 Gewerkschaft Zivilbeschaeftigte der NVA
- 16 Gewerkschaft Wismut

West German trade unions

- 18 (DAG) Deutsche Angestellten Gewerkschaft
- 19 (DPG) Deutsche Postgewerkschaft
- 20 (GdED) Gewerkschaft der Eisenbahner Deutschlands
- 21 (GdP) Gewerkschaft der Polizei
- 22 (GEW) Gewerkschaft Erziehung und Wissenschaft
- 23 (GGLF) Gewerkschaft Gartenbau Land-und Forstwirtschaft
- 24 (GHK) Gewerkschaft Holz und Kunststoff
- 25 (GTB) Gewerkschaft Textil Bekleidung
- 26 (HBV) Gewerkschaft Handel Banken Versicherungen
- 27 IG Bau Steine Erden
- 28 IG Bergbau und Energie
- 29 IG Chemie, Papier, Keramik
- 30 IG Druck und Papier
- 31 (IGM) IG Metall
- 32 (NGG) Gewerkschaft Nahrung-Genussmittel- Gaststaetten
- 33 (OETV) Gewerkschaft Oeffentliche Dienste, Transport und Verkehr

in Norway (NO):

- 1 Political trade union
- 2 Non-Political trade union
- 90 Other union

v406 - D11 AGE EDUCATION - GROUPED

D.11

How old were you when you finished your full-time education?

- 0 NA
- 1 up to 14 years
- 2 15 years
- 3 16 years
- 4 17 years
- 5 18 years
- 6 19 years
- 7 20 years
- 8 21 years
- 9 22 years and older
- 10 Still studying

Note:

Norway has been recoded from E.4 (V468).

Last trend: D.11 in EB34.1

v408 - D13 AGE EXACT

D.13

How old are you?

0 NA

15 15

98 98

Note:

This variable is respondent's age in years.

Actual number is coded.

Last trend: D.13 in EB35.0

v409 - D13 AGE RECODED - 4 GROUPS

D.13 AGE RECODED -- 4 GROUPS

- 0 NA
- 1 15-24 (years)
- 2 25-39 (years)
- 3 40-54 (years)
- 4 55 and more (years)

Derivation:

This variable collapses answers to D.13 into four age groups

Note:

See D.13 for complete question text

v413 - D16 INCOME

D.16

We would like to analyse the survey results according to the income of the people we have interviewed.

(SHOW INCOME CARD)

Here is an income scale; we would like to know in what group your family is, counting all wages, salaries, child allowances, pensions, and any other income that comes in. Just give me the letter of the group your household falls into before tax and other deductions.

97 Refused

98 Don't know

in France (FR):

French francs per month

- 1 Less than 4.000
- 2 4.000-4.999
- 3 5.000-5.499
- 4 5.500-5.999
- 5 6.000-6.999
- 6 7.000-7.999
- 7 8.000-8.999
- 8 9.000-9.999
- 9 10.000-10.999
- 10 11.000-12.499
- 11 12.500-14.999
- 12 15.000 and more

in Belgium (BE):

Belgian francs per month

- 1 Less than 20.000
- 2 20.000-29.999
- 3 30.000-39.999
- 4 40.000-49.999
- 5 50.000-59.999
- 6 60.000-69.999
- 7 70.000-79.999
- 8 80.000-89.999
- 9 90.000-99.999
- 10 100.000-109.999
- 11 110.000-119.999
- 12 120.000 and more

in Netherlands (NL):

Dutch guilders per month

- 1 Less than 1.500
- 2 1.500-1.749
- 3 1.750-1.999

- 4 2.000-2.249
- 5 2.250-2.499
- 6 2.500-2.749
- 7 2.750-3.249
- 8 3.250-3.749
- 9 3.750-4.249
- 10 4.250-5.249
- 11 5.250-6.249
- 12 6.250 and more

in Germany - West (DE_W):

German marks per month

- 1 Less than 1500
- 2 1.501-1.750
- 3 1.751-2.000
- 4 2.001-2.250
- 5 2.251-2.500
- 6 2.501-2.750
- 7 2.751-3.000
- 8 3.001-3.500
- 9 3.501-4.000
- 10 4.001-5.000
- 11 4.501-5.000
- 12 5.001 and more

in Italy (IT):

Italian lira per month

- 1 Less than 750.000
- 2 750.000-1.000.000
- 3 1.000.001-1.500.000
- 4 1.500.001-1.750.000
- 5 1.750.001-2.000.000
- 6 2.000.001-2.500.000
- 7 2.500.001-3.000.000
- 8 3.000.001-3.500.000
- 9 3.500.001-4.000.000
- 10 4.000.001-4.500.000
- 11 4.500.001-5.000.000
- 12 5.000.000 or more

in Luxembourg (LU):

Luxembourg francs per month

- 1 Less than 50.000
- 2 50.000-59.999
- 3 60.000-69.999
- 4 70.000-79.999
- 5 80.000-89.999

- 6 90.000-94.999
- 7 95.000-99.999
- 8 100.000-109.999
- 9 110.000-119.999
- 10 120.000-129.999
- 11 130.000-139.999
- 12 140.000 and more

in Denmark (DK):

Danish kroner PER YEAR

- 1 Less than 70.000
- 2 70.000 - 99.999
- 3 100.000 - 129.999
- 4 130.000 - 169.999
- 5 170.000 - 199.999
- 6 200.000 - 239.999
- 7 240.000 - 269.999
- 8 270.000 - 299.999
- 9 300.000 - 349.999
- 10 350.000 - 399.999
- 11 400.000 - 449.999
- 12 450.000 and more

in Ireland (IE):

Irish pounds per month

- 1 Less than 240
- 2 240-319
- 3 320-399
- 4 400-479
- 5 480-599
- 6 600-729
- 7 730-829
- 8 830-999
- 9 1.000-1.149
- 10 1.150-1.664
- 11 1.665-2.000
- 12 2.001 and more

in United Kingdom (GB):

UK Pounds per month

- 1 Less than 240
- 2 240-319
- 3 320-399
- 4 400-479
- 5 480-599
- 6 600-729
- 7 730-829

- 8 830-999
- 9 1.000-1.149
- 10 1.150-1.664
- 11 1.665-2.000
- 12 2.001 and more

in Greece (GR):

Greek drachmas per month

- 1 Less than 40.000
- 2 40.001-60.000
- 3 60.001-80.000
- 4 80.001-100.000
- 5 100.001-120.000
- 6 120.001-140.000
- 7 140.001-160.000
- 8 160.001-180.000
- 9 180.001-200.000
- 10 200.001-240.000
- 11 240.001-280.000
- 12 280.001 or more

in Spain (ES):

Spanish pesetas per month

- 1 Less than 40.000
- 2 40.001-50.000
- 3 50.001-60.000
- 4 60.001-70.000
- 5 70.001-80.000
- 6 80.001-90.000
- 7 90.001-100.000
- 8 100.001-125.000
- 9 125.001-150.000
- 10 150.001-175.000
- 11 175.001-200.000
- 12 200.001 or more

in Portugal (PT):

Portuguese escudos per month

- 1 Less than 30.000
- 2 30.000-39.999
- 3 40.000-49.999
- 4 50.000-54.999
- 5 55.000-59.999
- 6 60.000-69.999
- 7 70.000-79.999
- 8 80.000-99.999
- 9 100.000-109.999

- 10 110.000-119.999
- 11 120.000-129.999
- 12 130.000 and more

in Germany - East (DE_E):

German marks per month

- 1 Less than 750
- 2 751-1.000
- 3 1.001-1.250
- 4 1.251-1.500
- 5 1.501-1.750
- 6 1.751-2.000
- 7 2.001-2.250
- 8 2.251-2.500
- 9 2.501-2.750
- 10 2.751-3.000
- 11 3.001-3.250
- 12 3.251 and more

in Norway (NO):

Norwegian kroner PER YEAR

- 1 Less than 70.000
- 2 70.000 - 99.999
- 3 100.000 - 129.999
- 4 130.000 - 169.999
- 5 170.000 - 199.999
- 6 200.000 - 239.999
- 7 240.000 - 269.999
- 8 270.000 - 299.999
- 9 300.000 - 349.999
- 10 350.000 - 399.999
- 11 400.000 - 449.999
- 12 450.000 and more

v414 - D16 INCOME QUANTILES (HARMONISED)

D.16R Household income - approximate quartiles

- 1 + + Highest
 2 +
 3 -
 4 - - Lowest
 5 DK/Refusal

Derivation:

This variable collapses answers to D.16 into four groups representing approximate quartiles.

Note:

See D.16 for complete question text

v416 - D18 OCCUPATION OF R - LAST JOB

D.18

TO THOSE WHO ARE NOT DOING ANY PAID WORK: CODES 13 TO 17 IN D.17

Did you do any paid work in the past?

(IF YES)

What was your last occupation?

(WRITE IN AND CODE)

SELF EMPLOYED

- 1 Farmer
- 2 Fisherman
- 3 Professional (lawyer, medical practitioner, accountant, etc....)
- 4 Owners of shops or companies, craftsmen, business proprietors

EMPLOYED

- 5 Employed professional (employed lawyer, medical practitioner, accountant)
- 6 General management
- 7 Middle management
- 8 Other office employees
- 9 Non-office employees, non manual workers (shop assistants, etc....)
- 10 Supervisors
- 11 Skilled manual worker
- 12 Other manual worker

95 NEVER DID ANY PAID WORK

0 NA

97 Undocumented code (original data coded '13')

98 Undocumented code (original data coded '20')

99 INAP, in paid work in D.17; coded 0 through 12 in V415

v436 - P6 SIZE OF COMMUNITY

P.6 (Objective) Size of Locality (population size)

0 NA

in France (FR):

- 1 Less than 2000 inhabitants
- 2 2.000-20.000
- 3 20.001-100.000
- 4 More than 100.000
- 5 Paris

in Belgium (BE):

- 1 Grand Centre
- 2 Localite Urbaine
- 3 Localite Secondaire
- 4 Autre Localite

in Netherlands (NL):

- 1 Less than 5.000 inhabitants
- 2 5.000-10.000
- 3 10.000-20.000
- 4 20.000-50.000
- 5 50.000-100.000
- 6 100.000-400.000
- 7 More than 400.000

in Germany - West (DE_W):

- 1 Less than 2.000 inhabitants
- 2 2.000-4.999
- 3 5.000-19.999
- 4 20.000-49.999
- 5 50.000-99.999
- 6 100.000-499.999
- 7 500.000 and More

in Italy (IT):

- 1 Up to 10.000 inhabitants
- 2 10.001-100.000
- 3 100.001-250.000
- 4 More than 250.000

in Luxembourg (LU):

- 1 Up to 2.500 inhabitants
- 2 2.501-5.000

- 3 5.001-10.000
- 4 10.001-20.000
- 5 20.001-50.000
- 6 More than 50.000 - Luxembourg Ville

in Denmark (DK):

- 1 Less than 2.000 inhabitants
- 2 2.000-4.999
- 3 5.000-9.999
- 4 10.000-19.999
- 5 20.000-49.999
- 6 50.000-99.999
- 7 100.000 and More

in Ireland (IE):

- 1 Less than 2.000 inhabitants
- 2 2.000-20.000
- 3 20.001-100.000
- 4 More than 100.000

in Great Britain (GB_GBN):

- 1 Metropolitan
- 2 Other 100% Urban
- 3 Mixed Urban-Rural
- 4 Rural

in Northern Ireland (GB_NIR):

- 1 Less than 2.000 inhabitants
- 2 2.000-20.000
- 3 20.001-100.000
- 4 More than 100.000

in Greece (GR):

- 1 Up to 2.000 inhabitants
- 2 2.001-10.000
- 3 10.001-50.000
- 4 50.001-1.000.000
- 5 1.000.001 and More

in Spain (ES):

- 1 Up to 2.000 inhabitants
- 2 2.001-10.000
- 3 10.001-50.000
- 4 50.001-100.000
- 5 100.001-300.000
- 6 300.001-500.000
- 7 500.001-1.000.000

8 More than 1.000.000

in Portugal (PT):

1 Less than 100 inhabitants

2 101-200

3 201-500

4 501-1.000

5 1.001-2.000

6 2.001-5.000

7 5.001-10.000

8 10.001-30.000

9 30.001-100.000

10 100.001-500.000

11 More than 500.000

in Germany - East (DE_E):

1 Up to 2.000 inhabitants

2 2.001-20.000

3 20.001-100.000

4 101.000-500.000

5 500.001 and More

in Norway (NO):

1 Oslo Town

2 Bergen Trondheim Annen

3 Densely Populated

4 Scattered Populated

v438 - P7 REGION II (NUTS 1 LEVEL)

P.7_2. Region II (EUROSTAT NUTS I Level / Recoded)

0 NA

99 INAP, not stated in Luxembourg, Denmark, Greece, and Portugal; coded 6, 7, 11, and 13 in V8

in France (FR):

- 1 Ile De France
- 2 Bassin Parisien
- 3 Nord-Pas De Calais
- 4 East
- 5 West
- 6 South West
- 7 Centre East
- 8 Mediterranee

in Belgium (BE):

- 1 Wallonie
- 2 Bruxelles
- 3 Vlaanderen

in Netherlands (NL):

- 1 North
- 2 East
- 3 West
- 4 South

in Germany - West (DE_W):

- 1 Schleswig Holstein
- 2 Hamburg
- 3 Niedersachsen
- 4 Bremen
- 5 Nordrhein-Westfalen
- 6 Hessen
- 7 Rheinland Pfalz
- 8 Baden Wuerttemberg
- 9 Bayern
- 10 Saarland
- 11 Berlin (West)

in Italy (IT):

- 1 North West
- 2 Lombardia
- 3 North East
- 4 Emilia Romagna

- 5 Centre
- 6 Lazio
- 7 Molise e Abruzzi
- 8 Campania
- 9 South
- 10 Sicilia
- 11 Sardegna

in Ireland (IE):

- 1 Dublin
- 2 Rest of Leinster
- 3 Munster
- 4 Connaught/Ulster

in United Kingdom (GB):

- 1 Scotland
- 2 North, Yorkshire, Humberside and North West
- 3 East and West Midlands, East Anglia
- 4 Wales
- 5 GLC (coded 12 through 18 in V437)
- 6 South East and South West
- 7 Northern Ireland

in Spain (ES):

- 1 Galicia
- 2 North
- 3 North East
- 4 Aragon Rioja
- 5 Madrid
- 6 Centre
- 7 Cataluna
- 8 East
- 9 South
- 10 Canarias

in Germany - East (DE_E):

- 11 Berlin (Ost)
- 12 Brandenburg
- 13 Mecklenburg-Vorpommern
- 14 Sachsen
- 15 Sachsen-Anhalt
- 16 Thuringen

in Norway (NO):

- 1 Oslo/Akershus
- 2 Rest Eastland
- 3 South/Western

4 Trondelag/Northern

Note:

Starting with Eurobarometer 34 and up to survey 61, NUTS 1 level data (REGION II) for the NETHERLANDS are not (re-)coded in accordance with the official EUROSTAT nomenclature of territorial unit statistics. The NUTS 2 level province ZEELAND should be coded as belonging to NUTS 1 region (landsdel) WEST instead of SOUTH Netherlands. Archive releases have been corrected from EB 51 onwards.

v469 - C1 OPINION LEADERSHIP INDEX

C.1 Opinion Leadership (Cognitive Mobilization Index)

- 0 DK/NA
- 1 + + High cognitive mobilization
- 2 + Medium-high cognitive mobilization
- 3 - Medium-low cognitive mobilization
- 4 - - Low cognitive mobilization

Derivation:

This variable combines responses to the following questions: "When you hold a strong opinion, do you ever find yourself persuading your friends, relatives or fellow workers to share your views? If so, does this happen often, from time to time, or rarely?" (Q.4/V21) and "When you get together with friends, would you say you discuss political matters frequently, occasionally, or never?" (Q.5/V22). Interviewees giving affirmative answers to both questions are labeled + +. Interviewees giving negative answers to both questions are labeled - -. Middle categories (+ and -) are constituted correspondingly.

CODE 0: coded 0, 1 or 2 in V21 and 0 in V22

CODE 1: coded 1 or 2 for V21 and 1 for V22

CODE 2: coded 3, 4, 5, or 0 for V21 and 1 for V22; or coded 1 or 2 for V21 and 2 for V22

CODE 3: coded 3, 4, 5, or 0 for V21 and 2 for V22; or coded 1 or 2 for V21 and 3 or 4 for V22

CODE 4: coded 3, 4, or 5 for V21 and 3 for V22; or coded 3, 4, 5, or 0 for V21 and 3, 4, or 0 for V22

This variable forms an indicator of an individual's potential to take an active role in the political process. For a complete discussion of this variable and its correlates, see Ronald Inglehart, THE SILENT REVOLUTION: CHANGING VALUES AND POLITICAL STYLES AMONG WESTERN PUBLICS (Princeton University Press, 1977), Chapter 11. This variable is labeled the Opinion Leadership Index in the codebooks for Euro-Barometers 3, 4, 5 and 6.

v470 - C2 VALUE ORIENTATION (POST-MATERIALISM)

C.2 Value Orientation

Materialist/Post-materialist values index

- 0 DK/NA
- 1 Materialist
- 2 Post materialist
- 3 Mixed

Derivation:

This index was constructed from responses to Q.6 (V23 and V24): "There is a lot of talk these days about what (OUR COUNTRY)'S goals should be for the next ten or fifteen years. On this card are listed some of the goals that different people say should be given top priority. Would you please say which one of them you yourself consider to be most important in the long run? (1) Maintaining order in the nation; (2) Giving the people more say in important government decisions; (3) Fighting rising prices; (4) Protecting Freedom of speech. And what would be your second choice?" Respondents combining item (1) and (3) are labeled "materialist." Respondents combining items (2) and (4) are labeled "postmaterialist", and others are labeled "mixed".

CODE 0: coded 0 or 5 in V23 and 0 or 5 in V24

CODE 1: coded 1 for V23 and 3 for V24; or coded 3 for V23 and 1 for V24

CODE 2: coded 2 for V23 and 4 for V24; or coded 4 for V23 and 2 for V24

CODE 3: coded 1 or 3 for V23 and 2 or 4 for V24; or coded 2 or 4 for V23 and 1 or 3 for V24; coded 0 or 5 for one of V23 or V24; or coded the same value in both V23 and V24

For a complete discussion of this variable, see Ronald Inglehart, THE SILENT REVOLUTION: CHANGING VALUES AND POLITICAL STYLES AMONG WESTERN PUBLICS (Princeton University Press, 1977).

v471 - C3 EC SUPPORT TYPOLOGY - EUR ATTITUDES

C.3 Typology of European Attitudes

- 1 Positive (attitudes)
- 2 Ambivalent (attitudes)
- 3 Negative (attitudes)

Derivation:

This variable was constructed from responses to Q.16 and Q.17 (V63 and V64).

For East Germany only, substitute Q.17_A/V65 for Q.17/V64 in the following descriptions.

The Typology of European attitudes is based upon answers to the following questions: "In general, are you for or against efforts being made to unify Western Europe? Are you for, very much; for, to some extent; against, to some extent; against, very much?" (Q.16 = UNIFICATION) and "Generally speaking, do you think that (your country's) membership of the European Community is: a good thing, a bad thing, or neither good nor bad?" (Q.17 = MEMBERSHIP). Positive attitudes: MEMBERSHIP "good" and UNIFICATION: "for...". Ambivalent attitudes: MEMBERSHIP "neither good nor bad" or MEMBERSHIP "good" and UNIFICATION: "against..." or MEMBERSHIP "bad" and UNIFICATION "for..." or DK/NA. Negative attitudes: MEMBERSHIP "bad" and UNIFICATION: "against...".

CODE 1: coded 1 for V64 and either 1 or 2 for V63

v472 - C4 SOCIO PROF STATUS (OCCUPATION RECODE)

C.4 Socio Professional Status

- 0 NA
- 1 Farmer and fisher
- 2 Professionals
- 3 Owner of a shop, craftsmen, other self employed position, Business proprietors, owner of a company
- 4 Employed professional
- 5 General management
- 6 Middle management
- 7 Employed position, not at a desk but traveling (other office employees)
- 8 Employed position, not at a desk but in a service job (non office employees)
- 9 Supervisors
- 10 Skilled manual workers
- 11 Other (unskilled) manual worker

Derivation:

This variable was constructed from responses to D.17, D.18, D.23, and D.24 (V415, V416, V421, and V422).

Roughly half of the representative sample of the European Community public was without paid work. Basing cross-analyses on "occupation" (D.17) would exclude half of the respondents from analysis. An alternative, also used in past EURO-BAROMETER reports, is to base analyses on a (non-Marxist) concept of "objective social class" using the occupation of the head of household as reference. In order to classify as many respondents as possible with respect to their socio-professional setting, a new classification was created called: "SOCIO-PROFESSIONAL STATUS". For those in paid work it is based on their own present occupation (D.17). For those not in paid work, "former occupation" (D.18) was used where applicable (retired, housewives having been in paid work in the past, temporarily not working, unemployed). For those never having been in paid work, the occupation of the head of household (D.23) was used and, if the head of household was not in work at the time of the interview, his or her "former occupation" (D.24) was used, where applicable.

SOCIO-PROFESSIONAL STATUS is, consequently, a classification "as close to the respondent himself/herself as possible" but drawing upon additional background information to the extent necessary and available, in order to determine the interviewee's socio-professional status, including a maximum of respondents in the respective analyses.

v473 - C5 EUROPEAN POLIT PARTY PREFERENCE

C.5 European Political Party Preference

- 0 NA
- 1 (S) Socialist Group
- 2 (PPE) Group of the European People's Party (Christian Democrats)
- 3 (LDR) Liberal and Democratic Reformist Group
- 4 (DE) European Democratic Group (Conservatives)
- 5 (V) The Green Group
- 6 (GUE) Group for the European Unitarian Left
- 7 (RDE) Group of the European Renewal and Democratic Alliance (Gaullist/FF (IRL))
- 8 (DR) Group Technical of the Right
- 9 (CG) (Comm.) Left Unity
- 10 (ARC) Rainbow Group
- 11 (NI) Non-attached
- 12 Other party
- 13 Other answer
- 99 INAP, not interviewed in Norway; coded 15 in V8

Derivation:

This index is based upon the vote intention questions "If there were a "General Election" tomorrow (SAY IF CONTACT UNDER 18 YEARS: and you had a vote), which party would you vote for?" (D.4/V397) and "Which party would you be inclined to vote for?" (D.5/V398).

Answers are grouped according to the affiliation of the representatives of the respective party to a group in the European Parliament.

If a party was not represented in the European Parliament at the time the survey was carried out but had been represented before, its supporters are included in the European Parliament group their party had previously been affiliated with. Supporters of parties represented in the European Parliament whose members (of the European Parliament) are not affiliated with any group are labeled N.I. Supporters of parties not represented in the European Parliament are labeled "other". Labels are presented in the order in which they occur in the "List of Members" of the European Parliament of October 1989.

v474 - C6 EC SUPPORT - COMMITMENT

C.6 Commitment to the Common Market

Support for the European Community Index

- 1 Strong opposition
- 2 Moderate opposition
- 3 Neutral position
- 4 Moderate support
- 5 Strong support

Derivation:

This index was constructed from responses to the questions: "Generally speaking, do you think that (your country's) membership of the European Community (Common Market) is... a good thing, a bad thing, or neither good nor bad?" (Q.17/V64) and "If you were told tomorrow that the European Community (Common Market) had been scrapped, would you be very sorry about it, indifferent or very relieved?" (Q.19/V66).

v475 - C9 EC SINGLE MARKET SUPPORT

C.9 Typology of Single Market Attitudes

- 1 Positive
- 2 Ambivalent
- 3 Negative
- 9 INAP, not interviewed in Norway

Derivation:

This variable was constructed from responses to Q.29 and Q.30 (V89 and V90).

This typology is based on answers to two different questions whether respondents react to the Single Market with hope or fear (Q.29) and their evaluation ("good thing"/"bad thing") of the Single Market (Q.30). It combines answers to those two questions in the following way: POSITIVE = "very hopeful" or "rather hopeful" and "a good thing"; AMBIVALENT = "neither good nor bad thing" or DK/NA; NEGATIVE = "rather fearful" or "very fearful" and "a bad thing"

CODE 1: coded 1 or 2 for V89 and 1 for V90

CODE 2: coded either 0 or 5 for V89 or 0 or 4 for V90; or coded 1, 2 or 5 for V89 and 2, 3, 4 or 0 for V90; or coded 3, 4 or 5 for V89 and 1, 3, 4 or 0 for V90; or coded 0 or 5 for V89 and 0 or 4 for V90

CODE 3: coded 3 or 4 for V89 and 2 for V90

CODE 9: coded 15 in V8

- 60 (H) Høyre (Conservatives)
- 61 (KRF) Kristelig Folkeparti (Christian People's Party)
- 80 (FRP) Fremskrittspartiet (Progress Party)
- 90 Other Answer

Derivation:

C.10 combines the responses to the two different voting intention variables, D.4 (V397) and D.5 (V398), into a single variable in the following way: party codes in D.4 and D.5 were coded the same in C.10; if D.4 and D.5 were both (NA) then C.10 was coded (NA); all other responses to D.4 and D.5 (including "Other party", "Would vote blank", and "Would not vote", were coded as "Other Answer" in C.10.

v477 - C11 MEDIA USE

C.11 Media Use

0 NA
 1 +++
 2 ++
 3 --
 4 ---

Derivation:

This index is based upon answers to question Q.32 (V92-V94): "About how often do you watch the news in television, read the news in the daily paper, and listen to the news broadcasts on the radio?"

It combines the answers in the following way:

+++ News on TV, radio and papers every day or several times a week;

++ Two media every day or several times a week, the third medium not more than once or twice a week;

-- One of the three media every or several times a week, the two others not more than once or twice a week;

--- The three media less than once or twice a week.

CODE 0: coded 0 or 6 for either V92 or V93 or V94

CODE 1: coded 1 or 2 for V92, V93 and V94

CODE 2: coded 1 or 2 for two of these variables and coded 3, 4 or 5 for the third variable

CODE 3: coded 1 or 2 for one of these variables and coded 3, 4 or 5 for the two other variables

CODE 4: coded 3, 4 or 5 for V92, V93 and V94
